You Won't Believe The Difference...

2008 is a very important year for ASV. We are celebrating our 25th year of designing and manufacturing the most advanced compact track loaders! However, 2008 is also significant in that a lot has changed with ASV since we produced our first rubber tracked vehicle.

As a result of ASV's continuous improvement in compact track loaders and other rubber track machines, you will also notice a change in the look of ASV and our products.

Throughout 2008 we will be transitioning from our R-Series compact track loaders to the new PT Series compact track loaders. All machines went through minimal changes to bring them into the new strategy and others

received significant updates such as the PT-60 which is newly designed to be a 60 hp compact track loader unmatched in its class, with new two speed option, cab design, and wider track options. The former SC-50 rubber track utility vehicle has received a face lift and is now the ST-50, but maintains its unique size and capacities and has added attachments to improve its use in countless applications.

ASV compact track loaders have always out performed the conventional skid steer and continue to work to be the number one compact track loader in the world. We are committed to continuing our long history of rubber track innovation and hope our customers recognize our dedication to pioneering advanced rubber track technology. ASV owes our past and present customers a world of gratitude and we look forward to working for our customers in the future.

ASV Compact Track Loaders Meet Every Application

ASV designs and manufactures the most advanced compact track loaders available worldwide. At the heart of our products are ASV's technologically advanced rubber track undercarriages. These unique rubber-tracked undercarriages give users a more comfortable ride and increase productivity and profitability in all conditions. From tough construction sites to sensitive landscaping, ASV Posi-Tracks deliver clear advantages over rubber-tired or metal-tracked skid steers.
