WV PURCHASING  
DIVISION

**GENERAL INFORMATION:**

**Laminate tops:** Available on selected dining room tables for quantities of 50 or more at no additional cost. Please contact Thomasville representative for information.

**Soil Repellent Treatment:** When applying a soil repellent treatment to upholstery, Thomasville uses a commercial process applied before the fabric is cut to ensure complete coverage of the finished piece. Soil repellent treatment after construction may damage fabric seams or filling materials. While soil repellent treatment tends to guard against soil and stain, there is no guarantee associated with such treatment.

**COM Orders:** Customer's Own Material orders should have an attached COM form identifying the COM style number, the mill pattern and color number with a swatch attached (this form may be obtained from a Thomasville representative). The COM should be labeled with the purchase order number, customer name and style number. Orders received requiring COM will not be acknowledged until the COM fabric has been received and verified for sufficient yardage. Unless otherwise specified, all COM fabric will be cut and tailored at Thomasville's direction. All yardage requirements are based on 54" plain fabric. When supplying fabric, please remember to add the indicated percentage listed below to the plain yardage requirements shown under the style number in this price list.

<b>54" or Greater Fabric Width</b>	<b>2" - 7" Repeat</b>	<b>8" - 14" Repeat</b>	<b>15" or Greater Repeat</b>
Plain	See Price List for Yardage Requirement		
One Way Stripes	15%	20%	25%
All Others*	20%	30%	40%
<b>53" or Less Fabric Width</b>	<b>2" - 7" Repeat</b>	<b>8" - 14" Repeat</b>	<b>15" or Greater Repeat</b>
Plain	Add 20% to Price List Yardage Requirement		
One Way Stripes	30%	40%	50%
All Others*	40%	55%	70%

\* These fabrics require both horizontal and vertical matching.

**COM fabric should be sent to:**

**Thomasville Contract  
ATTN: Dept. 2F  
Thomasville Furniture Warehouse  
115 Morrison Avenue  
Thomasville, NC 27360**

**Cancellation Policy:** Thomasville Contract accepts an order as final and binding. Written consent must be given before an order is cancelled. A cancellation fee of 15% of the total amount of the order is applicable on all cancelled orders for standard product. No cancellations will be accepted on custom merchandise. Items in the price list with an FOB Point of Archdale NC, Axton VA, and High Point NC are custom items. Since all upholstery products are made to customer specifications, Thomasville cannot accept cancellations after an order is placed into production. Orders are deemed placed in production when the fabric is cut or if the fabric is ordered from a third party, when such order cannot be cancelled.

**Butyrate TopCoat:** Can be added to the tops of case pieces at the following upcharges:

Night Stands, End Tables, Commodes, Accessory Tables and other like-sized items:  
63.48 per piece

Dressers, Sofa Tables, Chests, Buffets, Cocktail Tables, Tray Tables and other like-sized items:  
\$81.61 per piece

Dining Room Tables and Fillers:  
\$99.75 per piece

## GENERAL TERMS & CONDITIONS PURCHASE ORDER/CONTRACT

1. **ACCEPTANCE:** Seller shall be bound by this order and its terms and conditions upon receipt of this order.
2. **APPLICABLE LAW:** The laws of the State of West Virginia and the *Legislative Rules* of the Purchasing Division shall govern all rights and duties under the Contract, including without limitation the validity of this Purchase Order/Contract.
3. **NON-FUNDING:** All services performed or goods delivered under State Purchase Orders/Contracts are to be continued for the terms of the Purchase Order/Contract, contingent upon funds being appropriated by the Legislature or otherwise being made available. In the event funds are not appropriated or otherwise available for these services or goods, this Purchase Order/Contract becomes void and of no effect after June 30.
4. **COMPLIANCE:** Seller shall comply with all federal, state and local laws, regulations and ordinances including, but not limited to, the prevailing wage rates of the WV Division of Labor.
5. **MODIFICATIONS:** This writing is the parties' final expression of intent. No modification of this order shall be binding unless agreed to in writing by the Buyer.
6. **ASSIGNMENT:** Neither this Order nor any monies due, or to become due hereunder may be assigned by the Seller without the Buyer's consent.
7. **WARRANTY:** The Seller expressly warrants that the goods and/or services covered by this order will:  
(a) conform to the specifications, drawings, samples or other description furnished or specified by the Buyer; (b) be merchantable and fit for the purpose intended; and/or (c) be free from defect in material and workmanship.
8. **CANCELLATION:** The Director of Purchasing may cancel any Purchase Order/Contract upon 30 days written notice to the seller.
9. **SHIPPING, BILLING & PRICES:** Prices are those stated in this order. No price increase will be accepted without written authority from the Buyer. All goods or services shall be shipped on or before the date specified in this Order.
10. **LATE PAYMENTS:** Payments may only be made after the delivery of goods or services. Interest may be paid on late payments in accordance with the *West Virginia Code*.
11. **TAXES:** The State of West Virginia is exempt from federal and state taxes and will not pay or reimburse such taxes.
12. **RENEWAL:** Any reference to automatic renewal is hereby deleted. The Contract may be renewed only upon mutual written agreement of the parties.
13. **BANKRUPTCY:** In the event the vendor/contractor files for bankruptcy protection, the State may deem this contract null and void, and terminate such contract without further order.
14. **HIPAA BUSINESS ASSOCIATE ADDENDUM:** The West Virginia State Government HIPAA Business Associate Addendum (BAA), approved by the Attorney General, is available online at [www.state.wv.us/admin/purchase/vrc/hipaa.htm](http://www.state.wv.us/admin/purchase/vrc/hipaa.htm) and is hereby made part of the agreement provided that the Agency meets the definition of a Cover Entity (45 CFR §160.103) and will be disclosing Protected Health Information (45 CFR §160.103) to the vendor.
15. **CONFIDENTIALITY:** The vendor agrees that he or she will not disclose to anyone, directly or indirectly, any such personally identifiable information or other confidential information gained from the agency, unless the individual who is the subject of the information consents to the disclosure in writing or the disclosure is made pursuant to the agency's policies, procedures, and rules. Vendor further agrees to comply with the Confidentiality Policies and Information Security Accountability Requirements, set forth in <http://www.state.wv.us/admin/purchase/privacy/noticeConfidentiality.pdf>.
16. **LICENSING:** Vendors must be licensed and in good standing in accordance with any and all state and local laws and requirements by any state or local agency of West Virginia, including, but not limited to, the West Virginia Secretary of State's Office, the West Virginia Tax Department, West Virginia Insurance Commission, or any other state agency or political subdivision. Furthermore, the vendor must provide all necessary releases to obtain information to enable the Director or spending unit to verify that the vendor is licensed and in good standing with the above entities.

Twin Falls Resort State Park  
Furniture Purchase, Assembly and Set-Up  
Open End Contract

The West Virginia Division of Natural Resources, hereinafter Division, is requesting Bids for the purchase of furniture, bed-frames and pillows and assembly thereof for its new twenty-seven (27) guest room addition and twenty (20) existing guest rooms at Twin Falls Resort State Park. All items are to be F.O.B. Destination. Freight or delivery charges must be included in the unit cost of each item. Delivery must be coordinated with Twin Falls State Park to meet the timeframe of the scheduled opening of the Lodge. The WVDNR will accept delivery as expeditiously as possible on all furnishings pending and contingent upon the manufacturer's production schedule.

**General Specifications:**

Furniture must be manufactured for commercial hospitality use. All items must be new. Fabric style and color options must be included with Bid, and fabric choices will be selected with the successful Vendor at the time of Notice to Proceed. These fabric styles and colors will be selected from manufacturer's fabric colors and patterns that meet the minimum specifications found within these Specifications. Scheduling of shipping, assembly and installation shall be coordinated between Division and Vendor after the Notice to Proceed has been issued by the Division.

**Information for Bidders:**

Bidders must submit a unit price Bid for each item to furnish all items specified. Partial and/or conditional Bids will not be considered.

**Basis of Award:**

The Contract will be awarded to the lowest qualified Bidder submitting the lowest Bid for all furniture stipulated on the Bid schedule and in complete accordance with all specifications stipulated herein.

**Coordination:**

Vendor must coordinate shipping and receiving with the West Virginia Division of Natural Resources, Twin Falls Resort State Park.

**All items are to be F.O.B. Destination. Freight or delivery charges must be included in the unit cost of each item.**

DNR210247  
Twin Falls Resort State Park  
Furniture Purchase, Assembly and Set-Up  
Open End Contract

**Delivery, Storage and Handling:**

The successful Vendor must deliver and handle all items according to Manufacturer's recommendations, including means and methods that will prevent damage, deterioration, and loss. Goods must be delivered in the Manufacturer's original sealed containers complete with labels and instructions for handling, storage, unpacking, protecting, and installing. The Division must supply labor to inspect the goods upon delivery, to ensure compliance with the purchase order, and to ensure all items are undamaged and protected against damage. All items must be delivered according to Manufacturer's recommendations and in an order that will facilitate inspection and measurement of quantity. All items must be delivered using means and methods that will prevent damage, deterioration, theft, or other loss.

**Damaged Items:**

All items must be inspected by the Division subsequent to delivery to ensure that each item is not damaged or defective. Damaged or defective items must be rejected, removed, and replaced at no additional expense to the Division. If Vendor assembles and installs furniture, the Vendor will be responsible for damages that occur during assembly and set-up.

**Project Closeout:**

Vendor must provide an inventory list of all items received and accepted. Vendor must provide the manufacturers recommendations for maintenance and cleaning.

**Applications for Payment:**

Vendor must submit Applications for Payment upon completion of Work for all furniture delivered and accepted and upon completion of project closeout requirements.

**Warranty:**

The Vendor must warranty products to be free of defects in materials and Workmanship for a period of one (1) year after date of acceptance or through manufacturer's provided warranty, whichever is greater. Vendor must repair or replace at its' discretion, free of charge, any product that proves to be defective during the warranty period.

**All items are to be F.O.B. Destination. Freight or delivery charges must be included in the unit cost of each item.**

Furniture Purchase, Assembly and Set-Up  
Open End Contract

### Outdoor Deck/Pool Furniture

Chaise must meet the following minimum specifications:

- Minimum dimensions must be 35" W x 81" D x 11" H – Arm Height 24";
- Must be composed of plantation teak;
- Must have stainless steel hardware;
- Must have a multi-position back;
- Must be constructed with water resistant glue;
- Must have resin foot pads; and
- Must have mortise and tenon joinery construction.

Chair must meet the following minimum specifications:

- Minimum dimension must be 23" W x 23" D x 36" H;
- Must have minimum seat height of 17";
- Must have a minimum arm height of 25";
- Must be constructed of plantation teak;
- Must have resin foot pads;
- Must be constructed with weather resistant glue; and
- Must have mortise and tenon joinery construction.

Pool Dining Table must meet the following minimum specifications:

- Minimum dimension must be 52" diameter x 29" H;
- Must be constructed of plantation teak;
- Must have a powder coated aluminum frame;
- Must have a minimum 2" powder coated umbrella hole; and
- Must have a minimum ½" powder coated reducer and cap.

Pool Side Table must meet the following minimum specifications:

- Minimum dimensions must be 22" L x 22" W x 20 H;
- Must be constructed of plantation teak; and
- Must have mortise and tenon joinery construction.

**All items are to be F.O.B. Destination. Freight or delivery charges must be included in the unit cost of each item.**

Twin Falls Resort State Park  
Furniture Purchase, Assembly and Set-Up  
Open End Contract

## Guest Room Furniture

Guest room furniture must meet the following minimum specifications:

Transitional style is the desired style of furniture for this bid.

### General Construction:

- Joints must be mortised and tenoned, doweled or blocked glued and pinned.
- All corner blocks, braces and screw cleats must be glued and reinforced with staples, nails or screws.
- All corner blocks and braces must be made of solid wood.
- All structural members must be glued and screwed or stapled in place.
- Furniture must be surfaced with matching high-pressure laminate a minimum of .028" thickness that conforms to Federal Specification LP508H.
- Casters and base blocks must be glued and screwed allowing for free movement of the caster.
- All cases over 60" must have a center foot.

### Material Requirements:

- Exposed solid parts must be premium grade hardwood
- Unexposed solid parts must be select hardwoods.
- All panels must be cherry veneers
- All veneered panels must be constructed with waterproof glue under controlled pressure.
- Drawer fronts must be hardwood with cherry veneer. Drawer sides and backs must be constructed of Baltic Birch plywood or equal joined front and rear with English style dovetails.
- Drawer guides on Contract design cases must be heavy duty side mounted metal with a minimum 60 lb. load capacity. The guide surfaces must be double dipped epoxy coated to prevent corrosion.
- Particleboard Standards
  1. All particle board must meet ANSI A208.1-1993.
  2. Tops with particleboard cores must be lumber banded on a minimum of three sides with edge banding on the back edges if they are not lumber banded.

All items are to be F.O.B. Destination. Freight or delivery charges must be included in the unit cost of each item.

DNR210247  
Twin Falls Resort State Park  
Furniture Purchase, Assembly and Set-Up  
Open End Contract

3. Cases must have no exposed particleboard.
  4. Particle board used in doors must be banded on all four sides.
- All items must be packed with packaging materials to minimize shipping damage.

**Workmanship:**

- Doors must be properly aligned to insure uniform clearance and operation free of rattle, squeak or rubbing. Catches must be properly aligned and installed with a minimum requirement of two catches on all but small dresser doors.
- Drawers must be custom fitted to insure free running action with no binding, sticking, rattling or squeaking. Drawer guides and runners must be securely fastened and properly positioned to assure correct drawer alignment.
- Cross grain sanding, machine marks, splits, chip outs, veneer checking, or roughness are not permitted on the surface of the finished product.
- Drawer interiors and other interior storage compartments must be sanded smooth and must be free of glue or lacquer runs. Sides, ends and bottoms must be free of splinters, snags, splinters, staples, nails and screws.
- All hardware including hinges, latches, catches and glides must be attached and fitted to operate properly and serve their purpose during transit and use.
- Miter joints must be square, flush, tight and well glued. Exposed case front joints must be tight not exceeding maximum of 1/64".
- Case tops must be attached to the case with screws allowing the top to be pulled down tight against the case.
- Interior screws must be flush or countersunk to the surface of the part where used.
- Assembly and hinge screws must be properly seated and driven flush with the hinge flange.
- All molding and overlays must be nailed from the back of the panel if possible. Face nails or brads are driven flush or set and nail holes filled.

**Appearance and Finish:**

Finishing must meet the following specifications:

- Color of like finishes must be color-fast, uniform, and compatible between pieces manufactured in the plant

**All items are to be F.O.B. Destination. Freight or delivery charges must be included in the unit cost of each item.**

DNR210247  
Twin Falls Resort State Park  
Furniture Purchase, Assembly and Set-Up  
Open End Contract

- Each finishing material must be formulated and individual batches checked to insure compatibility with the batch and every other material used to produce a color-fast finishing system.
- Interior surfaces of compartments and drawers must be free of dirt, dust, shavings or any foreign matter prior to finishing.
- Finish must be rubbed to required smoothness and sheen and dried to prevent marring or printing on the surface when packed.
- Edges and backs of doors and drawers finished must be compatible with exterior.
- Excess pumice, oil, wax and rubbing compound must be wiped clean after rubbing.

**Performance:**

- Drawers and doors must be fitted and aligned to operate smoothly under various atmospheric conditions.
- All drawers, doors and other operating parts must be properly fitted and aligned to operate smoothly without loose or sloppy action.
- Doors and door hinges must operate smoothly and quietly without binding, rubbing or rattling.
- Hardware, both trim and functional, must be straight and firmly attached.

**Fabric:** MIDGRADE: All fabric must meet ACT Guidelines specified for hotel / commercial use for abrasion, colorfastness, flammability, physical properties, and dry and wet crocking. Particularly;

- All fabric must meet minimum heavy duty abrasion guideline for hotel use, minimum 30,000 double rubs Wyzenbeek Method
- Minimum Grade 4 Colorfastness
- Minimum California Technical Bulletin #117 Section E – Class 1 (Pass)
- Physical Properties: Class 3 minimum ASTM D3511-01, ASTM D49070-05; 50 lbs minimum in warp and weft, seam slippage 25 lbs minimum in warp and weft
- Grade 4 minimum dry crocking, Grade 3 minimum wet crocking

Micro-fridge cabinet must meet the following specifications:

- Must have medium cherry finish;

**All items are to be F.O.B. Destination. Freight or delivery charges must be included in the unit cost of each item.**

# VENDOR PREFERENCE CERTIFICATE

Certification and application\* is hereby made for Preference in accordance with *West Virginia Code*, §5A-3-37. (Does not apply to construction contracts). *West Virginia Code*, §5A-3-37, provides an opportunity for qualifying vendors to request (at the time of bid) preference for their residency status. Such preference is an evaluation method only and will be applied only to the cost bid in accordance with the *West Virginia Code*. This certificate for application is to be used to request such preference. The Purchasing Division will make the determination of the Resident Vendor Preference, if applicable.

1. **Application is made for 2.5% resident vendor preference for the reason checked:**  
 Bidder is an individual resident vendor and has resided continuously in West Virginia for four (4) years immediately preceding the date of this certification; **or,**  
 Bidder is a partnership, association or corporation resident vendor and has maintained its headquarters or principal place of business continuously in West Virginia for four (4) years immediately preceding the date of this certification; **or** 80% of the ownership interest of Bidder is held by another individual, partnership, association or corporation resident vendor who has maintained its headquarters or principal place of business continuously in West Virginia for four (4) years immediately preceding the date of this certification; **or,**  
 Bidder is a nonresident vendor which has an affiliate or subsidiary which employs a minimum of one hundred state residents and which has maintained its headquarters or principal place of business within West Virginia continuously for the four (4) years immediately preceding the date of this certification; **or,**
2. **Application is made for 2.5% resident vendor preference for the reason checked:**  
 Bidder is a resident vendor who certifies that, during the life of the contract, on average at least 75% of the employees working on the project being bid are residents of West Virginia who have resided in the state continuously for the two years immediately preceding submission of this bid; **or,**
3. **Application is made for 2.5% resident vendor preference for the reason checked:**  
 Bidder is a nonresident vendor employing a minimum of one hundred state residents or is a nonresident vendor with an affiliate or subsidiary which maintains its headquarters or principal place of business within West Virginia employing a minimum of one hundred state residents who certifies that, during the life of the contract, on average at least 75% of the employees or Bidder's affiliate's or subsidiary's employees are residents of West Virginia who have resided in the state continuously for the two years immediately preceding submission of this bid; **or,**
4. **Application is made for 5% resident vendor preference for the reason checked:**  
 Bidder meets either the requirement of both subdivisions (1) and (2) or subdivision (1) and (3) as stated above; **or,**
5. **Application is made for 3.5% resident vendor preference who is a veteran for the reason checked:**  
 Bidder is an individual resident vendor who is a veteran of the United States armed forces, the reserves or the National Guard and has resided in West Virginia continuously for the four years immediately preceding the date on which the bid is submitted; **or,**
6. **Application is made for 3.5% resident vendor preference who is a veteran for the reason checked:**  
 Bidder is a resident vendor who is a veteran of the United States armed forces, the reserves or the National Guard, if, for purposes of producing or distributing the commodities or completing the project which is the subject of the vendor's bid and continuously over the entire term of the project, on average at least seventy-five percent of the vendor's employees are residents of West Virginia who have resided in the state continuously for the two immediately preceding years.

Bidder understands if the Secretary of Revenue determines that a Bidder receiving preference has failed to continue to meet the requirements for such preference, the Secretary may order the Director of Purchasing to: (a) reject the bid; or (b) assess a penalty against such Bidder in an amount not to exceed 5% of the bid amount and that such penalty will be paid to the contracting agency or deducted from any unpaid balance on the contract or purchase order.

By submission of this certificate, Bidder agrees to disclose any reasonably requested information to the Purchasing Division and authorizes the Department of Revenue to disclose to the Director of Purchasing appropriate information verifying that Bidder has paid the required business taxes, provided that such information does not contain the amounts of taxes paid nor any other information deemed by the Tax Commissioner to be confidential.

**Under penalty of law for false swearing (West Virginia Code, §61-5-3), Bidder hereby certifies that this certificate is true and accurate in all respects; and that if a contract is issued to Bidder and if anything contained within this certificate changes during the term of the contract, Bidder will notify the Purchasing Division in writing immediately.**

STATE OF WEST VIRGINIA  
Purchasing Division

**PURCHASING AFFIDAVIT**

**West Virginia Code §5A-3-10a states:** No contract or renewal of any contract may be awarded by the state or any of its political subdivisions to any vendor or prospective vendor when the vendor or prospective vendor or a related party to the vendor or prospective vendor is a debtor and the debt owed is an amount greater than one thousand dollars in the aggregate.

**DEFINITIONS:**

"Debt" means any assessment, premium, penalty, fine, tax or other amount of money owed to the state or any of its political subdivisions because of a judgment, fine, permit violation, license assessment, defaulted workers' compensation premium, penalty or other assessment presently delinquent or due and required to be paid to the state or any of its political subdivisions, including any interest or additional penalties accrued thereon.

"Debtor" means any individual, corporation, partnership, association, limited liability company or any other form or business association owing a debt to the state or any of its political subdivisions. "Political subdivision" means any county commission; municipality; county board of education; any instrumentality established by a county or municipality; any separate corporation or instrumentality established by one or more counties or municipalities, as permitted by law; or any public body charged by law with the performance of a government function or whose jurisdiction is coextensive with one or more counties or municipalities. "Related party" means a party, whether an individual, corporation, partnership, association, limited liability company or any other form or business association or other entity whatsoever, related to any vendor by blood, marriage, ownership or contract through which the party has a relationship of ownership or other interest with the vendor so that the party will actually or by effect receive or control a portion of the benefit, profit or other consideration from performance of a vendor contract with the party receiving an amount that meets or exceeds five percent of the total contract amount.

**EXCEPTION:** The prohibition of this section does not apply where a vendor has contested any tax administered pursuant to chapter eleven of this code, workers' compensation premium, permit fee or environmental fee or assessment and the matter has not become final or where the vendor has entered into a payment plan or agreement and the vendor is not in default of any of the provisions of such plan or agreement.

Under penalty of law for false swearing (*West Virginia Code §61-5-3*), it is hereby certified that the vendor affirms and acknowledges the information in this affidavit and is in compliance with the requirements as stated.

**ADDENDUM NUMBER ONE**

**Question/ Comment:**

I am in receipt of the last quote for the Twin Falls Lodge. However, I am very concerned that the necessary chairs are not requested. Please note that the following items require some sort of chair:

27 Desks requires 27 chairs.

47 Activity Tables x 2 chairs each = 94 chairs

20 Small Tables and bases = 40 chairs

**This totals 161 chairs but only 94 Guest Arm Chairs are requested. In addition, depending on the height of the Desks, Activity Tables, and Small Table please be aware that the Guest Arm Chairs may not slide underneath---and this is assuming that this was the intent of the Guest Arm Chair. It may have been intended to be an Occasional Chair to set in the room and not "with a table or desk".**

Please check on this with the Twin Falls staff. It is certainly possible that other chairs have been ordered or are in stock but since everything else is new in the rooms, I would think that all the chairs need to be new.

**Answer:**

The West Virginia Division of Natural Resources included in the bid specifications for Twin Falls Resort State Park, 2 chairs each for 47 guest rooms for a total count of 94 chairs.

However, since this is an open ended contract, it is possible that a lesser or greater quantity may be initially purchased by the agency.

*Available On A Special Order Basis Only.*

**-415 Panel Headboard**  
4/6, Full Size  
53W x 1 1/8D x 36H in.  
135W x 5D x 91H cm.  
Wall Hung

Also Available:  
**-416 Panel Headboard**  
5/0, Queen Size  
60W x 1 1/8D x 36H in.  
152W x 5D x 91H cm.  
Wall Hung

**-417 Panel Headboard**  
6/6, King Size  
78W x 1 1/8D x 36H in.  
198W x 5D x 91H cm.  
Wall Hung

**-514 Panel Headboard**  
4/6, Full Size  
56 1/2W x 2 1/2D x 36H in.  
144W x 7D x 91H cm.  
Wall Hung

Also Available:  
**-516 Panel Headboard**  
5/0, Queen Size  
62 1/2W x 2 1/2D x 36H in.  
159W x 7D x 91H cm.  
Wall Hung

Also Available:  
**-518 Panel Headboard**  
6/6, King Size  
80 1/2W x 2 1/2D x 36H in.  
205W x 7D x 91H cm.  
Wall Hung

**-618 Hutch**  
51 1/2W x 16 1/8D x 40H in.  
131W x 41D x 102H cm.  
Two Doors, One Stationary Laminate  
Shelf, Lumber Banded Laminate Top,  
Fabric Tack Board at Lower Back Panel,  
Fluorescent Task Light beneath Shelf.  
Shelf Rail to Desk Top:  
21 1/8H in. (56H cm.)  
For Use with **-410 Desk**.

**-704 Activity Table**  
34W x 34D x 30H in.  
86W x 86D x 76H cm.  
Lumber Banded Laminate Top,  
KD Construction.  
Apron to Floor: 25 1/4 in. (64 cm.)

**Round Dining Table**  
4818-3722 Newbridge finish  
4818-6722 Oiled Cherry finish  
42 Dia. x 30H in.  
107 Dia. x 76H cm.  
One 20 in. (51 cm.) Filler  
Extends Table To 62 in. (158 cm.)  
Lumber Banded Laminate Top,  
KD Construction.  
*Available On A Special Order Basis Only.*

**-740 Left Wall Hung Desk**  
72W x 30D x 30H in.  
183W x 76D x 76H cm.  
Laminate Top with Black T-Mold Edge,  
Laminate Back Splash, 6" Square Leg  
with Nylon Glides, Grommet Hole  
with Cover, KD Construction.  
*Available On A Special Order Basis Only.*

Also Available:  
**-742 Left Wall Hung Desk**  
72W x 36D x 30H in.  
183W x 91D x 76H cm.  
*Available On A Special Order Basis Only.*

**-744 Left Wall Hung Desk**  
72W x 42D x 30H in.  
183W x 107D x 76H cm.  
*Available On A Special Order Basis Only.*

**-741 Right Wall Hung Desk**  
72W x 30D x 30H in.  
183W x 76D x 76H cm.  
Laminate Top with Black T-Mold Edge,  
Laminate Back Splash, 6" Square Leg  
with Nylon Glides, Grommet Hole  
with Cover, KD Construction.  
*Available On A Special Order Basis Only.*

Also Available:  
**-743 Right Wall Hung Desk**  
72W x 36D x 30H in.  
183W x 91D x 76H cm.  
*Available On A Special Order Basis Only.*

**-745 Right Wall Hung Desk**  
72W x 42D x 30H in.  
183W x 107D x 76H cm.  
*Available On A Special Order Basis Only.*

**Desk Chair**  
4818-3761 Newbridge finish  
4818-6461 Oiled Cherry finish  
18 3/4W x 21D x 35 1/2H in.  
48W x 53D x 90H cm.  
Seat Width: 18 in. (46 cm.)  
Seat Depth: 17 3/4 in. (43 cm.)  
Seat Height: 18 1/2 in. (47 cm.)  
COM Yardage: .75 Yards  
*Available On A Special Order  
Basis Only.*

**Desk Chair**  
4818-3762 Newbridge finish  
4818-6462 Oiled Cherry finish  
18 3/4W x 21D x 35 1/2H in.  
48W x 53D x 90H cm.  
Seat Depth: 17 3/4 in. (43 cm.)  
Seat Height: 18 in. (46 cm.)  
Wood Seat  
*Available On A Special Order  
Basis Only.*

**-802 Night Stand**  
18W x 17 1/4D x 24H in.  
46W x 45D x 61H cm.  
One Side-Guided Drawer, One  
Stationary Shelf, Lumber Banded  
Laminate Top, Recessed Back.

Also Available:  
**-806 Night Stand**  
24 1/8W x 17 3/4D x 24H in.  
61W x 45D x 61H cm.  
One Side-Guided Drawer, One  
Stationary Shelf, Lumber Banded  
Laminate Top, Recessed Back.

**-808 Night Stand**  
24 1/8W x 17 3/4D x 28H in.  
61W x 45D x 71H cm.  
One Side-Guided Drawer,  
One Stationary Shelf,  
Lumber Banded Laminate Top,  
Recessed Back.

**-810 Night Stand**  
30W x 17 3/4D x 24H in.  
76W x 45D x 61H cm.  
One Side-Guided Drawer,  
One Stationary Shelf,  
Lumber Banded Laminate Top,  
Recessed Back.

**-812 Night Stand**  
24 1/8W x 17 3/4D x 24H in.  
61W x 45D x 61H cm.  
Two Side-Guided Drawers,  
Lumber Banded Laminate Top,  
Recessed Back.

**-812 Night Stand**  
24 1/8W x 17 3/4D x 24H in.  
61W x 45D x 61H cm.  
Two Side-Guided Drawers,  
Lumber Banded Laminate Top,  
Recessed Back.

**-812 Night Stand**  
24 1/8W x 17 3/4D x 24H in.  
61W x 45D x 61H cm.  
Two Side-Guided Drawers,  
Lumber Banded Laminate Top,  
Recessed Back.

**NOTE:** Due to the differences in  
photographic and printing processes,  
furniture color shown may vary from  
actual finish.

**COM Yardage figures are based on 54"**  
wide plain fabrics. Please contact your  
sales representative for yardage figures  
on stripes, plaids and matching designs.

**NOTE:** Wall hung headboards may be  
hung at any desired height. Normally the  
lower edge of the headboard is 22 1/4 in.  
(58 cm.) from the floor.

## Thomasville Contract Upholstery Specifications

1. **Frame:** The frame is constructed of hardwood lumber and is engineered for maximum durability in a contract environment. The stock parts are precision machined and fitted from 4/4-5/4 solid hardwood lumber dried to a moisture content of 10-20%. Assembled with high pressure production tools, each frame is reinforced with dowels, glue, corner blocks, wood screws, and nails.
2. **Foam Specifications:** Seat foam is with an indention load displacement of 30 lbs. Back foam is 1.2 density with an indention load displacement of 15 lbs. Arm and seat deck rubber are 1.5 density with an indention load displacement of 45 lbs. All foam and fiber used meet the requirement of Section A & D of Technical Information Bulletin #117, State of California. Other Flammability Requirements must be submitted to Thomasville for feasibility and current price.
3. **Bed Units:** Bed units in the sleepers are heavy duty for contract use. Features include:
  - two-part deck combination of wire mesh and propylene
  - lock-over legs with positive lock down
  - side-to-side support bar on front legs
  - 14 gauge square front tubing
  - less than 10 lbs pressure required for opening of unit
4. **Upholstery:** All upholstered items are hand-tailored by skilled craftsmen. Fabrics are inspected prior to cutting and pattern direction and lineups are carefully matched for maximum beauty, comfort, and durability.
5. **Testing:** Products included on Thomasville's GSA Contracts have been tested in accordance with GSA Upholstered Test Method FNAE-80-214A, dated September 1, 1998. This is similar to ANSI/BIFMA X5.4-1997, which is a minimum industry testing standard for safety and performance of lounge seating.

# *Thomasville*<sup>®</sup>

## CONTRACT

### **Bridges 2.0: 40481 – Standard Construction**

#### **A. GENERAL CONSTRUCTION**

- ❑ Joints are mortised and tenoned, doweled or blocked glued and pinned, following the best practice of commercial construction.
- ❑ All case table and chair joints are glued with an approved PVA assembly adhesive that conforms to the ASTM D-905-89 test requirement of average block shear strength of not less than 2800 lbs. per square inch.
- ❑ All cases are braced with four rear triangular brace blocks that are glued to the parting rails.
- ❑ All cases are constructed with front and back parting rails at the bottom of each drawer or door opening. This type of construction provides maximum case stability and guards against racking.
- ❑ All corner blocks, braces and screw cleats are glued and reinforced with staples, nails or screws.
- ❑ All corner blocks and braces are made of solid wood.
- ❑ All structural members are glued and screwed or stapled in place.
- ❑ All excess glue is cleaned from surfaces exposed during normal use
- ❑ Contract design case tops are surfaced with custom matched high-pressure laminate .050" thick that conforms to Federal Specification LP508H. Laminate adhesives are either urea resins or PVA's. Top cores are 45 lb. density industrial grade particle board in accordance with specification ANSI A208.1-1993. Tops are edge banded with a 1 ½" wide piece of ¾" hardwood lumber.
- ❑ All end panels are a three-ply veneer construction with a 45 lb. density particleboard core. Exposed end panel edges are lumber banded on the front edge.
- ❑ Back panels on contract design cases are recessed allowing cases to fit snugly against walls over electrical plugs and cords, maximizing the space in the room.
- ❑ Casters and base blocks are glued and screwed allowing for free movement of the caster.
- ❑ All cases over 60" have a center foot.

#### **B. MATERIAL REQUIREMENTS**

- ❑ All wood is dried to a moisture content of 6-7½ % and conditioned to produce a stress free board. This process keeps distortion and warping to a minimum and ensures firm bonding joints in widely varying climate conditions. Moisture is checked using ASTM D-\*143.
- ❑ Exposed solid parts are premium grade hardwood free of knots, decay, season cracks, mineral streaks, bark, warp, twist or any other defect that adversely affects strength or appearance. Loose knots and wormholes are not permitted.
- ❑ Unexposed solid parts are select hardwoods free from knots, decay, warp, twist or any other defect that adversely affects strength.
- ❑ Exposed sliced cherry face veneers are selected based on good texture and uniform color. Veneers are book or slip matched on case fronts.
- ❑ All veneered panels are constructed with waterproof glue under controlled pressure. Panels are manufactured with balanced multidirectional plied construction.

- ❑ Glues and Adhesives are routine tested by Thomasville's Quality Control Lab for a variety of factors including viscosity, PH, reactivity and solids content to insure they are formulated correctly and provide the required holding strength.
- ❑ No plastic components are used
- ❑ Back panels are 1/8" hardboard fastened securely by gun staples. Fasteners are flush with the outside back and do not swell, split or protrude through finished surfaces. Back panels are not a structural component of the case. The stability and racking control that some construction methods attempt to achieve with back panels is accomplished far more effectively with parting rails as described in the General Construction section.
- ❑ Case bottoms are constructed with a dust bottom panel of laminated kraft or fiberboard. Dust panels are not a structural component of the case but function to prevent dust and other materials from entering the drawers.
- ❑ Drawer fronts are hardwood with cherry veneer. Drawer sides and backs are constructed of Baltic Birch plywood joined front and rear with English style dovetails. English dovetails provide more secure interlocking than other dovetail methods. In addition English dovetails provide the maximum glue surface, compared to other construction methods such as French dovetails. Drawer bottoms, constructed of 3.6-mm plywood, are secured in grooves front side and back using hotmelt adhesive for maximum rigidity and durability. Drawer interiors are sanded and finished with a coat of sealer and an UV polyester topcoat insuring a smooth interior drawer surface.
- ❑ Drawer guides on contract design cases are heavy duty side mounted metal with a 75 lb. load capacity. The guide surfaces are double dipped epoxy coated to prevent corrosion.
- ❑ Particleboard Standards
  - All particle board meets ANSI A208.1-1993
  - Tops with particleboard cores are lumber banded on three or four sides with edge banding on the back edges if they are not lumber banded.
  - Cases have no exposed particleboard.
  - Particle board used in doors is banded on all four sides
- ❑ Hardware has a rust and tarnish proof brass finish.
- ❑ Packaging materials are custom designed for each item to minimize shipping damage. The Thomasville Testing Lab conducts various packaging materials tests based on the National Safe Transit Association "Pre-Shipment Test Procedures". These tests include impact simulation, vertical drop testing and over the road vibration simulation. These tests measure the effectiveness of the cartons as well as the structural integrity of the case itself. Changes are made in packaging or case constructions if weaknesses are found.

### C. WORKMANSHIP

- ❑ Doors are properly aligned to insure uniform clearance and operation free of rattle, squeak or rubbing. Catches are properly aligned and installed with a minimum requirement of two catches on all but small dresser doors.
- ❑ Drawers are custom fitted to insure free running action with no binding, sticking, rattling or squeaking. Drawer guides and runners are securely fastened and properly positioned to assure correct drawer alignment.
- ❑ Cross grain sanding, machine marks, splits, chip outs, veneer checking, or roughness are not permitted on the surface of the finished product.
- ❑ Drawer interiors and other interior storage compartments are sanded smooth and are free of glue or lacquer runs. Sides, ends and bottoms are free of splinters, snags, slivers, staples, nails and screws.
- ❑ All hardware including hinges, pulls, latches, catches and glides are attached and fitted to operate properly and serve their purpose during transit and use.
- ❑ Miter joints are square, flush, tight and well glued. Exposed case front joints are tight not exceeding 1/64".

- Case tops are attached to the case with screws allowing the top to be pulled down tight against the case.
- Interior screws are flush or countersunk to the surface of the part where used.
- Assembly and hinge screws are properly seated and driven flush with the hinge flange.
- All glides and casters are properly attached.
- All molding and overlays are nailed from the back of the panel if possible. Face nails or brads are driven flush or set and nail holes filled.

#### **D. APPEARANCE AND FINISH**

- Finishing is accomplished with the following twenty-three step process.
  1. Pre-stain is applied to tie in hardwood solids to match cherry veneers.
  2. A uniformed wet coat of pre-stain is applied overall.
  3. A uniformed wet coat of body stain is applied overall.
  4. Pre-seal is applied to solid wood parts and end grain that may go dark at glaze.
  5. A uniformed wet coat of sealer is applied over all.
  6. Once thoroughly dried the coat of sealer is sanded.
  7. Pre-fill is applied to veneered tops only.
  8. A uniformed coat of glaze is applied overall.
  9. The glaze is rubbed in and wiped clean.
  10. Dark areas are highlighted with scotchbrite. Low areas and corners are brushed out.
  11. A uniforming stain is used to carefully blend overall color, tying in wood solids to cherry veneers.
  12. A second coat of sealer is applied over all.
  13. Once thoroughly dried the second coat of sealer is sanded.
  14. Pad stain is hand padded onto the case. The material is customized as needed to match the color standard.
  15. A uniformed wet coat of 20 sheen waxing lacquer is applied overall.
  16. Glaze is dry brushed to match the color standard and raw edges are touched-up.
  17. A second coat of 20 sheen lacquer is applied.
  18. A third coat of 20 sheen lacquer is applied.
  19. Interior stain is applied prior to final assembly.
  20. All uprights and parting rails are padded with stain.
  21. Drawer dovetails are stained prior to drawer assemble for checker-board effect.
- Uniformity of color is achieved between different manufacturing locations and from one production run to the next. Each item is compared to an approved color case to insure a consistent finish match.
- Color comparisons are made in the Thomasville testing lab to verify the color match of each batch of finishing material.
- Interior surfaces of compartments and drawers are free of dirt, dust, shavings and other foreign matter before finishing.
- Edges and backs of doors and drawers edges are finished to be compatible with the case exterior.
- The finish has passed durability testing conducted by the Thomasville Testing Lab based on the guidelines of ASTM Test D 1308-87, which is the "Standard Test Method for Effect of Household Chemicals on Clear, and Pigmented Organic Finishes". This test demonstrates that the finish is colorfast and resists staining from extended exposure to common household products.

#### **E. PERFORMANCE**

- Drawers and doors are fitted and aligned to operate smoothly under various atmospheric conditions.
- All drawers, doors and other operating parts are properly fitted and aligned to operate smoothly without loose or sloppy action

- Doors and door hinges operate smoothly and quietly without binding, rubbing or rattling.
- Drawers have passed the ANSI/BIFMA X5.5-1998 Section 7 test. This test requires drawers loaded with 51.5 lbs. of weight to open and closed for 50,000 cycles with no structural breakage or loss of serviceability.
- Doors have passed the ANSI/BIFMA A156.9-1994 Section 4.3 test. This test requires doors to open and close 100,000 cycles with no structural breakage or loss of serviceability.
- Numerous precautions are taken throughout the production process, from design to lumber drying to panel construction, to insure warping does not occur once a case is completed.
- Hardware, both trim and functional, is straight and firmly attached.

## **F. Features of Individual Items**

### **1. Chairs**

- All chair designs have passed a cycle test that simulates a 200 lb. person rocking back and forth in the chair 15,000 times, with zero failures. This rocking is the motion that exerts the most strain on the dowel joints between the front posts, side rails, and the back post of the chair giving a relative indication of the chair's structural integrity.
- Chair side rails contain three 3/8" grooved birch dowels in a 20 1/4" wide rail. The interior sides of the chair rails contain multi-grooves with four corner blocks matched to the grooves. Corner blocks are PNA glued and screwed into place. One corner block is screwed into the back post.
- Chair joints are properly angled and clamped tight. No openings are permitted in the joints.
- Leg stretchers, which enhance the structural strength of the chair by providing increased stability to the legs, are machined (chucked) for a tight fit and glued into place.
- Seat and back cushions are tailored and fit properly to the frame.

### **2. Headboards**

- Panel headboards are available in both wall-hung (sizes 4/6, 5/0 & 6/6) designs. Mounting instructions are included for wall hung models.
- Custom fitted leg kits are available to convert wall-hung headboards to free standing.

### **3. Night Stands**

- Both one drawer and two drawer night stands are available in a variety of sizes and designs.

### **4. Armoires**

- Armoires are available with and without doors. Both designs have two shelves in the upper portion (one adjustable, one stationary) and three drawers in the lower portion, providing ample storage space.
- Well-organized and spacious design allows for the ultimate in function and versatility.
- The contract design armoires will accommodate televisions up to the size of most 27" TV's.
- Doors swing fully open against the side of the case to provide unobstructed viewing.
- Adjustable glides are installed on all four corners of the case. These glides allow precision leveling of the cases to insure that doors hang evenly and operate smoothly.
- Doors have two catches to hold them securely in place when closed.
- Since the back panel is visible through the armoire opening the interior side of the back panels is finished to match the case.

### **5. Mirrors**

- Mirror frames are constructed of solid hard wood.
- Mirror glass is 3/16" plate glass with copper electroplate backs to protect the silver surface.

### **6. Desk & Writing Tables**

- Writing tables include a center stationary drawer.
- An electronic data port unit that attaches to the desk or writing table is available. This unit is installed on site to be certain positioning is compatible with the outlet location in the room.

- Custom writing tables in varying sizes, with and without a drawer, can be designed to meet the requirement of specific projects.
- Writing tables are shipped KD (without the legs attached) minimizing freight damage and reducing freight costs.

**7. Occasional Tables**

- The occasional table collection includes cocktail tables, end tables, sofa tables and activity tables. All feature both veneer and lumber banded laminate tops.
- Contract design occasional tables are shipped KD (without the legs attached) minimizing freight damage and reducing freight costs.

# Thomasville®

## Testing Laboratory

Testing Furniture Products  
Since 1964

The Thomasville Laboratory has a long history of testing furniture and component materials. The Lab routinely conducts package tests, new product performance evaluations, and investigations of quality issues both inside the company and from our customer service department. Although the laboratory follows published test standards, we are not a certified test facility. For example, some tests such as ASTM F-1427 for the evaluation of bunk beds must be performed by a certified third party test lab. However, our lab is capable of pretesting to the F 1427 standard to determine if the bed is in compliance before money is spent for outside testing services. Inside is a list of tests the Thomasville Laboratory is capable of performing.

### Test Description

Test	Description
ASTM D 1037 - 107 Water Absorption & Thickness Swelling	Effects of water
ASTM D 1037 Sec 120 - 121 M.C. & Specific Gravity	Oven M.C. test
ASTM D 5582 Determination of Formaldehyde Levels Using a Desiccator	Formaldehyde Emissions
<b>Hardboard</b>	
ASTM D 1037 Sec 152 - 155 Thickness	Bending Strength
ASTM D 1037 Sec 156 - 159 Modulus of Rupture	Internal Bond strength
ASTM D 1037 Sec 162 - 163 Tensile Strength Perp. To Surface	Effects of water
ASTM D 1037 Sec 164 - 165 Water Absorption & Thickness Swelling	Oven M.C. test
ASTM D 1037 Sec 166 - 167 Moisture Content & Specific Gravity	
<b>Adhesives</b>	
ASTM D 905 - 98 Adhesive Bonds in Shear by Compression Loading	Shear tests
ASTM D 906 - 98 Adhesives in Plywood in Shear by Tension	Plywood shear tests
ASTM D 1084 - 97 Standard Test Method for Viscosity of Adhesives	Viscosity
ASTM D 1490 - 01 Nonvolatile Content of Urea-Formaldehyde Resin	% Solids
ASTM D 899 - 00 Applied Weight Per Unit Area of Liquid Adhesives	Glue Spread
ASTM D 2339 - 98 Strength of Adhesives in Two-Ply Wood Construction in Shear by Tension Loading	2-Ply Shear Test
ASTM D 4317 - 98 Polyvinyl Acetate-Based Emulsion Adhesives	Type Bond Tests (boiling H2O)
ASTM D 4690 - 99 Urea Formaldehyde Resin Adhesives	Physical & Bonding Tests
ASTM D 5572 - 95 Adhesives Used for Finger Joints in Nonstructural Lumber Products	Finger Joint Tests
<b>Finish</b>	
ASTM D 1211 - 97 Temperature-Change Resistance of Clear NC Lacquer Films Applied to Wood	Cold Check Test
ASTM D 3359 Adhesion by Tape Test	Cross Hatch
ASTM D 2197-98 Adhesion of Organic Coatings by Scrape Adhesion	Scratch adhesion test
ASTM D 2091 Print Resistance of Lacquers	Lacquer printing under load
ASTM D 1005 - 95 Measurement of Dry-Film Thickness of Organic Coatings Using Micrometers	Film Thickness
ASTM D 1308 Effect of Household Chemicals on Clear and Pigmented Organic Finishes	Garbage Test
ASTM D 2199 Measurement of Plasticizer Migration from Vinyl Fabrics to Lacquers	Plasticizer Migration
ASTM D 2571 Guide for Testing Furniture Lacquers	
ASTM D 2134 - 93 Hardness of Organic Coatings with a Sward-Type Hardness Rocker	Sword Hardness Test
ASTM D 523 - 89 Specular Gloss Test Method	Sheen
UV Light Tests	Color Fastness to Light

Partner for the 21<sup>st</sup> Century

MEMORANDUM

DATE : 30 JANUARY 2004  
FROM : DEPUTY DIRECTOR, HOUSING  
TO : MS. PAIGE VIA / THOMASVILLE  
SUBJ : LETTER OF APPRECIATION

Dearest Paige,

First, please allow me to sincerely express my gratitude for the excellent and truly Professional job that you have done for NSF Billeting here on Diego Garcia since our initial meeting in 1993.

You are directly responsible for taking charge of a Navy Base that had no idea as to what a Furnishings Plan was even about.

You established your own Concept which eventually evolved into the Whole Room Concept now adopted by all Branches of the Military.

Your tireless efforts helped us to convince the U.S. Navy on Diego Garcia to Budget over a Five (5) year period enough money to completely refurbish all 1,155 rooms in our BQ facilities, most notable being the Bob Hope Suite and the coveted MCPON Suite.

Thomasville and your future Customers are the true winners here, no one can do the Dedicated and Professional work the you have always continued to produce.

Personally, I feel honored to have you as my friend, you are a valuable resource for the Thomasville Company and for the United States Government.

May God bless you and your family.

Respectfully,

Richard A. Mittan

14 January 2004

o whom it may concern:

I am extremely please to provide this letter of reference on behalf of Ms. Paige Via.

My business relationship with Paige who was at the time regional Thomasville Furniture sales representative, began if I recall about 20 years ago. During that period I was very fortunate to have had Paige provide our Interior Design program with the most comprehensive level of sales service and support. Moreover, based on my 30 years of Interior Design experience, she consistently did it all and far better than anyone of her competitors and/or peers. If I were tasked to write her performance evaluation I would have to say in her profession Paige simply is in a "class by herself". This special individual truly understands the definition of "service" in this challenging business environment where "you are only as good as your last project". As you are aware, things in this business do not always go as planned so it was always reassuring to know that Paige was there working along side with us to make it right. On a personal level, Paige set a standard for this business that I have yet to experience again.

ae scores of projects that we were involved with over the years were successful due in large part to Paige for "coming through" whenever the situation dictated. No surprise, she was our "Go-2" person for all critical requirements and we have had many over the years.

My final recommendation is that you please extend your trust and full support in Paige. In her profession she does it all and does it so very, very well. We miss her pleasant style and all that she contributed to what we do. Please do not hesitate to e-mail/call me at 808-448-3292 should you require additional information regarding Ms. Paige Via.

Respectfully,

Keith N. Menchavez

FROM: Margerite A. Fabre'  
RE: Paige Via  
DATE: January 22<sup>nd</sup>, 2004

I'm pleased to have the opportunity of providing a reference for Paige Via. As a Navy Housing Director in the Pacific for many years, I have worked with her on several housing renovation projects. She was my Thomasville representative for a wide variety of furniture procurements for military family homes and single personnel barracks, as well as military visitor's quarters.

Paige's commitment to customer service was outstanding. From initial contact to final installation, she pro-actively communicated with our office to ensure the right items were ordered and delivered on schedule. Her honesty and hard worker ethics were demonstrated in every experience. I sincerely believe she is a rare find on talents and enthusiasm.

I completely relied on Paige's consulting abilities and attention to detail. Prior to making complex procurements from remote bases overseas, Paige would design the rooms with appropriate furniture. She would personally review the building renovation plans and visit us at the site, paying particular attention to room sizes and window dimensions. This was necessary because in many cases, they were not standard throughout the buildings. She also coordinated the installation after receipt of the furniture and completion of the renovations. Her designs were aesthetically pleasing and functional. Our residents were totally satisfied with their new quality environment. I'm sure her positive results benefited many other customers.

Sincerely,

  
MARGERITE A. FABRE'

# CONTRACTOR PERFORMANCE EVALUATION SURVEY

## For RFQ 224272

NEUTRAL      POOR      AVERAGE      GOOD      OUT-  
STANDING

**A. QUALITY OF PRODUCT OR SERVICE:**

- (1) The Contractor provided a product or service that conformed to contract requirements, specifications, and standards of good workmanship.
- (2) The Contractor submitted accurate reports.
- (3) The Contractor utilized personnel that were appropriate to the effort performed.

				✓
				✓
				✓

**B. COST CONTROL:**

- (1) The Contractor performed the effort within the estimated cost/price.
- (2) The Contractor submitted accurate invoices on a timely basis.
- (3) The Contractor demonstrated cost efficiencies in performing the required effort.
- (4) The actual costs/rates realized closely reflected the negotiated costs/rates.

				✓
				✓
				✓
				✓

**C. TIMELINESS/SCHEDULE:**

- (1) The tasks required under this effort were performed in a timely manner and in accordance with the period of performance of the contract.
- (2) The Contractor was responsive to technical and/or contractual direction.

				✓
				✓

**D. BUSINESS RELATIONSHIPS:**

- (1) The Contractor demonstrated effective management over the effort performed.
- (2) The Contractor maintained an open line of communication so that the Contracting Officer's Representative (COR) and/or Technical Point of Contact (TPOC) were apprised of technical, cost, and schedule issues.
- (3) The Contractor presented information and correspondence in a clear, concise, and businesslike manner.

				✓
				✓
				✓

Charles W. Wilson  
Seymour Johnson AFB

NEUTRAL      UNACCEPT-      ACCEPT-      GOOD      OUT-  
                 -ABLE            ABLE            STANDING

- (4) The Contractor promptly notified the COR, TPOC, and/or Contracting Officer in a timely manner regarding urgent issues.
- (5) The Contractor cooperated with the Government in providing flexible, proactive, and effective recommended solutions to critical program issues.
- (6) The Contractor made timely award to, and demonstrated effective management of, its subcontractors.
- (7) The Contractor demonstrated an effective small/small ~~business~~ business subcontracting program.

				✓
				✓
				✓
N/A				

E. CUSTOMER SATISFACTION:

- (1) The products/services provided adequately met the needs of the program.
- (2) The Contractor was able to perform with minimal or no direction from the COR or the TPOC.
- (3) I am satisfied with the performance of the Contractor under his effort.

				✓
				✓
				✓

F. KEY PERSONNEL:

- (1) The labor turnover in key personnel labor categories was minimal and did not adversely affect Contractor performance.
- (2) The Contractor proposed qualified personnel to fulfill the requirements of the contract.

				✓
				✓

G. OTHER:

(1) Would you award this firm another contract? (✓) Yes ( ) No If you answered "No" provide an explanation. \_\_\_\_\_

(2) Was the contract terminated for default? ( ) Yes (✓) No  
If you answered "Yes", provide an explanation. \_\_\_\_\_

**COMMENTS: (Required for ALL Unacceptable and Outstanding Ratings)**

The Southern Pines Inn Operation has benefited immensely from the expertise and positive attitude of Ms Paige Via. She has always provided top-notch service with the customer in mind; to include almost impossible short notice project quotes. We are currently working with Ms Via on our VOQ upgrade and she been nothing short of fantastic.

The Inns of Charleston  
202 West Hill Blvd.  
Charleston AFB, SC 29404  
(843) 963-3819

15 April 2009

To whom it may concern,

Our lodging operation just finished a complete \$730K soft renovation of our family quarters and Thomasville was our major contractor and services provider.

I could not be happier with the support, service and general oversight of the project from beginning to end provided by Thomasville, specifically Ms. Paige Via.

Coming highly recommended from fellow Air Force Inn managers, Paige worked with me from concept to closing... ensuring all design and other details were to my satisfaction and within AF standards and as ordered. She was relentless working with her support contractors to make sure timelines were met and accurate. The quality of furnishings Thomasville supplied is second to none in quality and appearance.

I have not worked with a more dedicated and knowledgeable representative and hope to do business with Ms. Via and Thomasville again.

Please feel free to call me for more details or to answer any questions.

Regards,

Joseph W. Abell, CHA  
General Manager

**Thomasville**  
CONTRACT

# STUDIO II BOTTEGA SAVANNA SCANDIA

**APPLICATIONS** Hospitality, Healthcare, Contract, Education, Automotive & RV, Residential

## GENERAL SPECIFICATIONS

**Width** 54"  
**Roll Size** 30 Yards  
**Weight** 28 Ounces per Linear Yard  
**Backing** 100% Brushed Polyester Knit

## PERFORMANCE SPECIFICATIONS

**Abrasion Resistance** 300,000+ Double Rubs per ASTM D 4157-02 Wyzenbeek / CFFA-1A  
**Mildew Resistance** Pass ASTM G21-96(2002) / CFFA-120  
**Anti-Bacterial** Pass AATCC 147-2004 / CFFA-300  
**Anti-Microbial** Pass ASTM G21-96(2002) / CFFA-120  
**Ultra Violet Resistance** 300 Hours ASTM G26-96 Method C / CFFA-2  
**Cold Crack** -20° F Federal Standard No. 191A-Method 5874 / CFFA-6  
**Stain Resistant** with Resilience<sup>SR</sup> Protection  
**Sulfide Stain Resistant**

## FLAMMABILITY REQUIREMENTS \*

California Fire Code Technical Bulletin No. 117, Section E  
BIFMA  
UFAC Class 1  
MVSS 302  
NFPA 260  
IMO A.652 (16) 8.2  
IMO A.652 (16) 8.3  
May Comply with California 133 when Tested with Suitable Components  
Can be Treated to Pass FAA 25.853

\* This term and any corresponding data refer to typical performance in the specific tests indicated and should not be construed to imply the behavior of this or any other material under actual fire conditions. 11.8

LEVEL ONE - BY COLOR

## **BEST VALUE CONSIDERATIONS**

- 1. Thomasville has been manufacturing furniture since 1904- more than 100 years. The company is recognized as being one of the leading manufacturers of quality Furniture, backed with extended warranties.**
- 2. Thomasville is owned by Furniture Brands International, the largest furniture Resource in the world. Furniture Brands owns not only Thomasville, but also Broyhill, Lane, Drexel, Henredon, Hickory Chair and Hickory Business furniture, etc. Furniture Brands has the financial wherewithal and resources to handle significantly large projects.**
- 3. Our past experience in the military housing area, as supported by the large list on installations we have just for 2009, attests to our ability to manage turnkey projects and to meet the expectations and delivery dates of the customer.**
- 4. Our marketing representatives are specialized in the area of military housing and as employees of the company (not independent representatives) represent only Thomasville Furniture, so we completely understand our products. We subcontract and team with other companies to provide the military housing customer with a one-source solution.**

**The marketing representative who would be responsible for managing this installation, Paige Via, has represented Thomasville in the residential, commercial and government markets for over 31 years. Paige thoroughly understands the nuances associated with turnkey projects, particularly those offshore. Paige has been involved in many installations in the Far East, West Coast and her current territory which consists of seven Eastern/mid-Western States, GTMO, Puerto Rico and parts of Latin America.**

- 5. Since Thomasville sells directly to the government and not through third party dealers, we have the ability to control the production, shipping, and resolve any warranty or Quality issues which may arise in the field.**
- 6. Our Materials Testing Laboratory located in Thomasville is truly unique among furnishings manufacturers. This facility operates on a daily basis to insure that the Quality of materials shipped to Thomasville meet our specifications as well as the GSA and ANSI/BIFMA standards. Daily production runs of product are randomly selected from the warehouse to be tested for strength, durability, etc.**
- 7. Since 1984 Thomasville has been one of the leading, if not the leading, supplier for GSA's Household and Quarters and Packaged Room Projects. This would attest to our effectiveness in this area as well as our competitiveness.**
