Subject: RFQ #ITECH10 – Temporary IT Services

Ms. Adkins,

On behalf of Fabica's Services Group, we are pleased to present to you a proposal in response to your invitation for bid no. ITECH10. The information in the proposal will clearly demonstrate that Fabica is fully qualified and ready to provide the best value to West Virginia Office of Technology.

At Fabica, we pride ourselves on our strategic, methodology driven, and integrated approach to Information Systems Management. We are a premier systems integrator focused exclusively on solving massive, and complex IT problems. Information and technical expert services are our core competency and we intend to demonstrate that our experience, focus, track record, culture and people make us uniquely qualified for the State of West Virginia.

We are a trusted advisor, strategic business partner, and expert implementer in electronic records management, information management, application integration, and content management solutions. Our IT strategy consultants have in-depth functional knowledge of each aspect of IT Project lifecycle. They partner with our technology subject matter experts to ensure our commitments are on spec, on time, and on budget.

With a highly knowledgeable staff, Fabica is in the position to meet any customer IT requirement. With proven methodologies, deep expertise, and industry specialization, we have a proven record of solving our clients' most pressing technology challenges.

Thank you for including Fabica in your RFQ process. Please do not hesitate to contact me by telephone at (949) 892-3662 or by email at mbrar@fabica.com with any questions, clarifications or additional information.

GENERAL TERMS & CONDITIONS PURCHASE ORDER/CONTRACT

1. **ACCEPTANCE:** Seller shall be bound by this order and its terms and conditions upon receipt of this order.
2. **APPLICABLE LAW:** The laws of the State of West Virginia and the *Legislative Rules* of the Purchasing Division shall govern all rights and duties under the Contract, including without limitation the validity of this Purchase Order/Contract.
3. **NON-FUNDING:** All services performed or goods delivered under State Purchase Orders/Contracts are to be continued for the terms of the Purchase Order/Contract, contingent upon funds being appropriated by the Legislature or otherwise being made available. In the event funds are not appropriated or otherwise available for these services or goods, this Purchase Order/Contract becomes void and of no effect after June 30.
4. **COMPLIANCE:** Seller shall comply with all Federal, State and local laws, regulations and ordinances including, but not limited to, the prevailing wage rates of the WV Division of Labor.
5. **MODIFICATIONS:** This writing is the parties final expression of intent. No modification of this order shall be binding unless agreed to in writing by the Buyer.
6. **ASSIGNMENT:** Neither this Order nor any monies due, or to become due hereunder may be assigned by the Seller without the Buyer's consent.
7. **WARRANTY:** The Seller expressly warrants that the goods and/or services covered by this order will:
(a) conform to the specifications, drawings, samples or other description furnished or specified by the Buyer; (b) be merchantable and fit for the purpose intended; and/or (c) be free from defect in material and workmanship.
8. **CANCELLATION:** The Director of Purchasing may cancel any Purchase Order/Contract upon 30 days written notice to the seller.
9. **SHIPPING, BILLING & PRICES:** Prices are those stated in this order. No price increase will be accepted without written authority from the Buyer. All goods or services shall be shipped on or before the date specified in this Order.
10. **LATE PAYMENTS:** Payments may only be made after the delivery of goods or services. Interest may be paid on late payments in accordance with the *West Virginia Code*.
11. **TAXES:** The State of West Virginia is exempt from Federal and State taxes and will not pay or reimburse such taxes.
12. **RENEWAL:** Any reference to automatic renewal is hereby deleted. The Contract may be renewed only upon mutual written agreement of the parties.
13. **BANKRUPTCY:** In the event the vendor/contractor files for bankruptcy protection, the State may deem this contract null and void, and terminate such contract without further order.
14. **HIPAA BUSINESS ASSOCIATE ADDENDUM:** The West Virginia State Government HIPAA Business Associate Addendum (BAA), approved by the Attorney General, and available online at the Purchasing Division's web site (<http://www.state.wv.us/admin/purchase/vrc/hipaa.htm>) is hereby made part of the agreement. Provided that, the Agency meets the definition of a Cover Entity (45 CFR §160.103) and will be disclosing Protected Health Information (45 CFR §160.103) to the vendor.
15. **WEST VIRGINIA ALCOHOL & DRUG-FREE WORKPLACE ACT:** If this Contract constitutes a public improvement construction contract as set forth in Article 1D, Chapter 21 of the West Virginia Code ("The West Virginia Alcohol and Drug-Free Workplace Act"), then the following language shall hereby become part of this Contract: "The contractor and its subcontractors shall implement and maintain a written drug-free workplace policy in compliance with the West Virginia Alcohol and Drug-Free Workplace Act, as set forth in Article 1D, Chapter 21 of the West Virginia Code. The contractor and its subcontractors shall provide a sworn statement in writing, under the penalties of perjury, that they maintain a valid drug-free work place policy in compliance with the West Virginia Alcohol and Drug-Free Workplace Act. It is understood and agreed that this Contract shall be cancelled by the awarding authority if the Contractor: 1) Fails to implement its drug-free workplace policy; 2) Fails to provide information regarding implementation of the contractor's drug-free workplace policy at the request of the public authority; or 3) Provides to the public authority false information regarding the contractor's drug-free workplace policy."

SECTION I - CORPORATE DESCRIPTION

Fabica Inc. was established in 2005, and is a California Corporation with its offices at 2301 Campus Drive, Ste 240, Irvine CA 92612. Fabica's FEIN is 20-3284916, and you may reach out to Malisa Brar at (949) 892-3662 or at mbrar@fabica.com for any additional information.

Fabica had a total of 16 full-time employees, and over 30 part time workers as of Nov 1, 2009.

Fabica was founded on the principle of "Making Data Intelligent", and we have been implementing this principle in fields as varied as Electrical Utilities to Healthcare Systems. Our expertise lies in harmonizing data across multiple processes and systems within an enterprise to provide a single view into the key performance indicators that define success.

We have over 4 years of unparalleled experience in collating and extracting information from multi-terabyte sized databases. We have worked in multiple verticals, and all of our professionals have numerous successful implementations under their belts.

At Fabica, we pride ourselves for a strategic, methodology driven and Integrated approach to Information Systems Management. We are premier systems integrator focused exclusively on solving massive and complex data problems in IT industry. We are a trusted advisor, strategic business partner, and expert implementer in electronic records management, information management, application integration and content management solutions.

Fabica provides extensible, technology solutions that drive and enable better decision-making, improve performance, and reduce bottlenecks. We help companies structure information pathways that help react quickly to market and business trends.

Our IT strategy consultants have an in-depth functional knowledge of each aspect of an IT lifecycle. They partner with our technology subject matter experts to ensure our commitments are on spec, on time, and on budget.

With proven methodologies, deep expertise, and industry specialization, we solve our clients' most pressing technology challenges. Our practical solutions deliver actionable and measurable business results that accelerate decision making, optimize IT efficiency, and improve business performance. As an acknowledged niche player, and one of the fastest growing data management specialists, we have the know-how to get it done right the first time.

Enterprise Information Management Services

- Strategy and Governance services for data asset management, data governance, data stewardship, structuring competency centers, and communities of practice around technologies.
- Information Architecture services offer Information Pipeline Analysis, Information Architecture Tool-Kit, Information Pipeline Modeling, and managed Information architecture services.

- Data Distribution / Business Intelligence services are built around Performance Management and Analysis, Information Visualization, Information Distribution, Analysis & Reporting, and Data Mining capabilities.
- Our Reference, Master, and Meta data management services focus on discovery, publishing, and registry. We facilitate the management of supply chain and customer relationships to deliver business value with MDM. Based on our years of experience and research; we are able to provide insights into the lifecycle of enterprise MDM, including the start-up process and the indicators of MDM maturity.
- The Data Integration capabilities include our specialized reporting data marts over Oracle and SAP ERP/CRM systems. We have built robust data integrity and cleansing standards around our data movement patterns for a consistently high data quality results.
- Our integrated approach also facilitates Information Security Management of access, privacy, security and erasure aspects of data. More specifically, we work with our clients on: Key threats to confidential data, and the implications of sensitive health information being improperly secured, best practices in protecting the electronic exchange and use of health information, methods for protecting enterprise databases that comply with HITECH Act mandates, repeatable models for demonstrating compliance.
- Our Database Management capabilities of maintenance and administration are around DB2, Oracle, Teradata, MySQL, and SQL Server database systems.

In addition we specialize in focused solutions around Information Pipeline Analysis, Information Architecture Tool-Kit, Information Pipeline Modeling, and In-Managed Information Architecture Services:

Information Pipeline Analysis

Our Information architecture strategy group helps in providing a holistic, comprehensive view of the information pipeline of an enterprise. It specs out the encompassing strategic business intent and the capabilities that enable that intent. We help organizations recognize capabilities in their business processes, organizational structure, and information technology. This “enterprise” view is necessary in order to effectively manage change and complexity.

Information Architecture Tool-Kit

The Information Architecture Tool-Kit is part of a portfolio of products and services provided by Fabica Strategy Group to assist the clients in the development of their frameworks, methodologies, programs, and projects for delivering quality business and technology solutions. This Tool-Kit presents approaches to various

architectures without being prescriptive. We make further adaptations to the framework based on an organizations specific need.

Information Pipeline Modeling

Adaptive Information Pipeline Development (AIPD) program is an information architectural framework for organizations information systems integration. It provides a turnkey solution to kick start an Enterprise Information Management capability.

It enables information sharing across traditional barriers, enhances an organizations ability to deliver effective and timely services, and supports business units in their efforts to improve organizations functions.

In-Managed Information Architecture Services

In addition, our capabilities include:

- Electronic Medical Records
- Enterprise Application Integration
- eCommerce
- Search Engine Optimization
- Wireless & Mobile Apps
- Quality Framework Implementation
- Compliance Preparedness Services
- IT Quality Assurance Services

Most of our services use a variant of the renowned Zachman Framework to define enterprise architecture and guidelines. In line with these standards, our offerings are categorized into two services:

- Advanced Service – Study, Advise and Optimize
- Core Service - Build, Manage

These services are backed by a pool of technical and domain experts, delivery excellence, vendor partnerships, solution accelerators, and end-to-end implementation expertise along with a strong culture of research and thought leadership.

Fabica has wide experience across industries in implementing End to End projects in the Multi Terabyte range. Our approach focuses on iterative design and development approach, which ensures the successful implementation of the project. We also focus and measure “Continual Service Improvement” on all our engagements as this is a key component of Enterprise Service Delivery strategy.

SECTION II – QUALIFICATIONS AND EXPERIENCE OF THE COMPANY IN
SUPPLEMENTAL STAFF REQUIREMENTS

Staffing Category – Computer Systems Analysis

Project Description

Fabica assisted Yamaha to analyze user requirements, procedures, and problems to automate or improve existing systems and review computer system capabilities, workflow, and scheduling limitations on the SCM (supply chain management) system.

Description of Person's Duties

The Systems analyst consulted with an organization's managers and users to define the goals of the system and then design a system to meet those goals. Fabica's Analyst specified the inputs that the system will access, decide how the inputs will be processed, and formatted the output to meet users' needs. Analysts also used techniques such as structured analysis, data modeling, information engineering, mathematical model building, sampling, and a variety of accounting principles to ensure the plans are efficient and complete. Cost-benefit and return-on-investment analyses were also designed to help management decide whether implementing the proposed technology would be financially feasible.

Staffing Category – Middleware Integration

Project Description

Fabica assist the clients Enterprise Integration team to collect data and information from disparate systems for analysis and billing.

Description of Person's Duties

- Connect disparate systems by designing and implementing web services, orchestrations, business rules and work flows (via Microsoft BizTalk Server) in an SOA environment.
- Primary focus will be on defining Integration Interfaces and processes for Data Transformations across internal applications and with external business partners.
- Understand and translate business requirements into technical specifications following SOA practices.
- Determine the scope of the assigned project(s) by assessing Requirements from business and technical/network personnel.
- Evaluate and select the appropriate technical platform for the system.
- Work will include integration planning, integration analysis across multiple technical platforms, integration analysis across all departments to included both global system design and detailed program design for complex processes or interfaces, review of database design of new data structures, and suggested modifications to existing data structures.
- Effectively document and teach the structure and function of the new application and/or enhancements resulting from the assigned project(s) to other Application Managers and Senior Technical Personnel to insure that the new systems or enhancements operate smoothly within the ASI environment.
- Lead Technical Staff members to develop common standards and procedures for system design and programming, component and system optimization and tuning, database design to insure the integrity, high quality, optimization and tuning.

Staffing Category – Project Management Services

Project Description

Fabica is serving as liaison between business and technical aspects of the financial budgeting projects. This includes planning project stages and assessing business implications for each stage. The Project Manager also monitors progress to assure deadlines, standards, and cost targets are met.

Description of Person's Duties

- Develop and manage work breakdown structure (WBS) of information technology projects.
- Develop or update project plans for information technology projects including information such as project objectives, technologies, systems, information specifications, schedules, funding, and staffing.
- Manage project execution to ensure adherence to budget, schedule, and scope.
- Prepare project status reports by collecting, analyzing, and summarizing information and trends.
- Assign duties, responsibilities, and spans of authority to project personnel.
- Coordinate recruitment or selection of project personnel.
- Develop and manage annual budgets for information technology projects.
- Develop implementation plans that include analyses such as cost-benefit or return on investment (ROI).
- Direct or coordinate activities of project personnel.
- Establish and execute a project communication plan.

General Value of Project

\$500,000

Staffing Category – Business Analyst Services

Project Description

Fabica assisted Yamaha to analyze user requirements, procedures, and problems to automate or improve existing systems and review computer system capabilities, workflow, and scheduling limitations on the SCM (supply chain management) system.

Description of Person's Duties

The Systems analyst consulted with an organization's managers and users to define the goals of the system and then design a system to meet those goals. Fabica's Analyst specified the inputs that the system will access, decide how the inputs will be processed, and formatted the output to meet users' needs. Analysts also used techniques such as structured analysis, data modeling, information engineering, mathematical model building, sampling, and a variety of accounting principles to ensure the plans are efficient and complete. Cost-benefit and return-on-investment analyses were also designed to help management decide whether implementing the proposed technology would be financially feasible.

Staffing Category – ERP Implementation Services

Project Description

Fabica managed the data migration aspect of the ERP/CRM implementation at Fox Studios.

Description of Person's Duties

- Design and Develop interfaces, data migration and conversion programs to support data integration and/or migration from ITT legacy systems to SAP solutions.
- Define data cleansing and de-duping procedures.
- Define data validation rules and processes.
- Define requirements - business and coding.
- Define program structure.
- Execute and/or manage execution of interfaces, data migration and/or conversions.
- Identify tools for data migration.
- Provide input into definition of ITT enterprise data model.
- Coordinate data migration efforts with value centers, locations and master data management team.

SECTION III – QUALIFICATIONS AND EXPERIENCE OF THE COMPANY FOR
SERVICE CATEGORIES DESCRIBED IN ATTACHMENTS 2-16

Service Category – Data Warehouse Development and Implementation

Reference 1

Project Description

Fabica assisted with the implementation of the Enterprise Data Warehouse and the BI components at Yamaha Motors.

General Value of Project

>\$1,000,000

Length of Project

Aug 2007 – Dec 2008

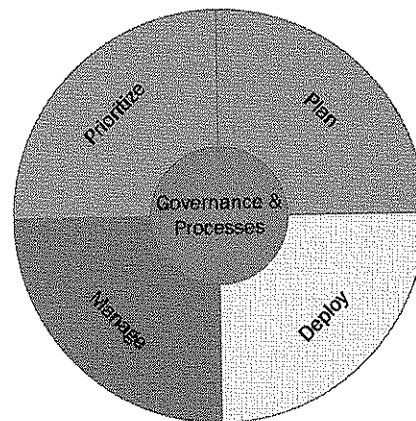

Type of Contractor's used

Fabica PMP Certified Project Manager

Fabica Oracle Certified Database developers

Description of Work

Fabica follows the Industry Standard ELC methodology along with ITIL during our engagements. Internally, Fabica has the following program methodology and, in addition to this, we will work with the Client PMO to govern the resources assigned to projects.

Our Program Management methodology looks at the following areas to assign **priorities** to a project

- Demand Management

Plan and deploy phases address the following areas:

- Leadership and Governance
- Value Management
- Program Delivery
- Stakeholder Acceptance

Our methodology also includes the following areas for **managing** a program:

- Value Measurement
- Program Control and Administration
- Delivery Management
- Quality Management
- Stakeholder Management
- Resource Management

Problems encountered

The existing operational database had minimal documentation and had to be reverse-engineered.

Project Description

Fabica is working with the database team at Sirius XM Radio to migrate to Teradata from DB2 on z/OS.

General Value of Project

\$1,000,000

Length of Project

August 2009 - Current

Type of Contractor's used

Fabica PMP Certified Project Manager

Fabica Database Modelers

Fabica Database Administrators

Description of Work

Use Teradata best practices and the forklift approach to migrate data. This allows you to retire the infrastructure components of your current environment as quickly as possible. This approach delivers significant cost savings. Key activities of the forklift approach include:

- Inventory the existing objects and processes.
- Convert DDL from DB2 to Teradata Database.
- Migrate history from DB2 tables to Teradata tables.
- Migrate ETL processes to point to or operate with Teradata Database.
- Convert DB2 SQL to Teradata SQL.
- Migrate BI processes to point to or operate with Teradata Database.
- Convert homegrown applications (VB, C, etc.).
- Leverage DB2 Migration Toolkit where appropriate.

Project Description

Fabica manages and implements the database, ETL and BI technologies currently being used at Pfizer pharmaceuticals.

General Value of Project

>\$3,000,000

Length of Project

April 2008 - Current

Type of Contractor's used

Fabica Data Architects

Fabica Data Administrators

Description of Work

The client's distribution channel is a vast network of sites and channels. Anticipated price fluctuations in the market also create large amounts of unneeded inventory in the pipeline - which may ultimately be returned, or create unrealistic revenue figures. Keeping a close eye on the entire distribution network is an ongoing challenge that requires a large number of metrics.

The client chose Cognos as its BI tool, and collaborated closely with Fabica, to create a comprehensive solution that defined the metrics, determined where the data would come from, and created a distribution portal that allowed key decision makers to access this information on the fly. Multiple data streams, such as the 852 data, current order data, planning data were leveraged to create this comprehensive, integrated business intelligence solution. Built-in alerts spot ordering issues, letting users manage by exception and take quick action and the system lets users visualize metrics in graphic formats that increase understanding and aid decision-making.

Service Category – Technology Advisory Services

Reference 1

Project Description

The client is a global leader in biotechnology reagents and systems. The company tracks shipments at a very granular level and this has generated a wealth of information in the ERP system. However, the analysis tools within the ERP solution are extremely limited.

General Value of Project

\$1,000,000

Length of Project

Aug 2008 – Dec 2009

Type of Contractor's used

Fabica PMP Certified Project Manager

Fabica Database Modelers

Fabica BI Architect

Description of Work

The client chose Fabica to collate the information from the ERP, planning systems and market data to provide a deeper view into the business. The main focuses are analyses of sales figures according to various criteria, an inventory valuation - a very complex process involving the monthly evaluation of 36,000 batches and thousands of products - and a logistics model with suppliers, prices, and batches.

This demonstrates Fabica's Data Integration advisory competencies. The data warehouse was built without a final BI tool. However, Business Objects was deployed successfully afterwards without a single change needed on the back-end.

Reference 2

Project Description

Verizon Business is developing “Enterprise Services Portal” where managed networks are designed, built and maintained for various clients. We have developed multiple universes for the various clients which captures the information on performance of networks and equipment. Users create ad hoc reports in Business Objects on top of the universes in addition to the canned reports created by us.

General Value of Project

\$500,000

Length of Project

April 2008 – Nov 2009

Type of Contractor's used

Fabica Database Modelers

Fabica BI Architect

Description of Work

- Migrated from Business Object 6.5 to XI R2.
- Migrated Universes and reports from 6.5 to XI R2.
- Involved in installation, configuration, testing of Business Objects Enterprise software on Solaris Sparc.
- Created security in XI R2 as we didn't do migration of the security.
- Created Users and Groups, Folders and administering the system with Structured Security Architecture for Business Objects Enterprise environment.
- Used CMS in XI R2 to create users, community and groups along with their management (resetting password, assigning privileges, enabling ID's).
- Migration of universes and documents from one domain to another (DEV-QA, QA-PRD).
- Created universes, classes and objects by retrieving the data from data sources and defining the necessary connections.
- Created Contexts and Aliases for resolving Loops in the Universes.
- Applied features of Business Objects such as row level, report level & object level security in the universe to secure the sensitive data. Implemented data level security by creating views in ODS, importing them into the Universe and using them as condition to create reports.

- Was involved in troubleshooting production issues and day to day maintenances of the Business Objects.
- Involved in requirement gathering and compiled requirement documents and design documents for reports and universe creation.
- Created Webi reports using advanced features such as open document and customized prompts.
- Created and scheduled free hand SQL reports in Business Objects.
- Trained Power User's to modify and customize canned reports.

SECTION IV - VENDOR POLICIES

No Debt Affidavit

Vendor's Preference Form

State of West Virginia VENDOR PREFERENCE CERTIFICATE

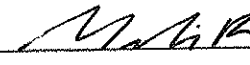

Certification and application* is hereby made for Preference in accordance with *West Virginia Code*, §5A-3-37. (Does not apply to construction contracts). *West Virginia Code*, §5A-3-37, provides an opportunity for qualifying vendors to request (at the time of bid) preference for their residency status. Such preference is an evaluation method only and will be applied only to the cost bid in accordance with the *West Virginia Code*. This certificate for application is to be used to request such preference. The Purchasing Division will make the determination of the Resident Vendor Preference, if applicable.

1. **Application is made for 2.5% resident vendor preference for the reason checked:**
 Bidder is an individual resident vendor and has resided continuously in West Virginia for four (4) years immediately preceding the date of this certification; or,
 Bidder is a partnership, association or corporation resident vendor and has maintained its headquarters or principal place of business continuously in West Virginia for four (4) years immediately preceding the date of this certification; or 80% of the ownership interest of Bidder is held by another individual, partnership, association or corporation resident vendor who has maintained its headquarters or principal place of business continuously in West Virginia for four (4) years immediately preceding the date of this certification; or,
 Bidder is a nonresident vendor which has an affiliate or subsidiary which employs a minimum of one hundred state residents and which has maintained its headquarters or principal place of business within West Virginia continuously for the four (4) years immediately preceding the date of this certification; or,
2. **Application is made for 2.5% resident vendor preference for the reason checked:**
 Bidder is a resident vendor who certifies that, during the life of the contract, on average at least 75% of the employees working on the project being bid are residents of West Virginia who have resided in the state continuously for the two years immediately preceding submission of this bid; or,
3. **Application is made for 2.5% resident vendor preference for the reason checked:**
 Bidder is a nonresident vendor employing a minimum of one hundred state residents or is a nonresident vendor with an affiliate or subsidiary which maintains its headquarters or principal place of business within West Virginia employing a minimum of one hundred state residents who certifies that, during the life of the contract, on average at least 75% of the employees or Bidder's affiliate's or subsidiary's employees are residents of West Virginia who have resided in the state continuously for the two years immediately preceding submission of this bid; or,
4. **Application is made for 5% resident vendor preference for the reason checked:**
 Bidder meets either the requirement of both subdivisions (1) and (2) or subdivision (1) and (3) as stated above; or,
5. **Application is made for 3.5% resident vendor preference who is a veteran for the reason checked:**
 Bidder is an individual resident vendor who is a veteran of the United States armed forces, the reserves or the National Guard and has resided in West Virginia continuously for the four years immediately preceding the date on which the bid is submitted; or,
6. **Application is made for 3.5% resident vendor preference who is a veteran for the reason checked:**
 Bidder is a resident vendor who is a veteran of the United States armed forces, the reserves or the National Guard, if, for purposes of producing or distributing the commodities or completing the project which is the subject of the vendor's bid and continuously over the entire term of the project, on average at least seventy-five percent of the vendor's employees are residents of West Virginia who have resided in the state continuously for the two immediately preceding years.

Bidder understands if the Secretary of Revenue determines that a Bidder receiving preference has failed to continue to meet the requirements for such preference, the Secretary may order the Director of Purchasing to: (a) reject the bid; or (b) assess a penalty against such Bidder in an amount not to exceed 5% of the bid amount and that such penalty will be paid to the contracting agency or deducted from any unpaid balance on the contract or purchase order.

By submission of this certificate, Bidder agrees to disclose any reasonably requested information to the Purchasing Division and authorizes the Department of Revenue to disclose to the Director of Purchasing appropriate information verifying that Bidder has paid the required business taxes, provided that such information does not contain the amounts of taxes paid nor any other information deemed by the Tax Commissioner to be confidential.

Under penalty of law for false swearing (*West Virginia Code*, §61-5-3), Bidder hereby certifies that this certificate is true and accurate in all respects; and that if a contract is issued to Bidder and if anything contained within this certificate changes during the term of the contract, Bidder will notify the Purchasing Division in writing immediately.

Bidder: Fabica Inc. Signed: 
 Date: 1/4/10 Title: President

DATE

REV. 11/96

STATE OF WEST VIRGINIA
Purchasing Division**PURCHASING AFFIDAVIT****VENDOR OWING A DEBT TO THE STATE:**

West Virginia Code §5A-3-10a provides that: No contract or renewal of any contract may be awarded by the state or any of its political subdivisions to any vendor or prospective vendor when the vendor or prospective vendor or a related party to the vendor or prospective vendor is a debtor and the debt owed is an amount greater than one thousand dollars in the aggregate.

PUBLIC IMPROVEMENT CONTRACTS & DRUG-FREE WORKPLACE ACT:

If this is a solicitation for a public improvement construction contract, the vendor, by its signature below, affirms that it has a written plan for a drug-free workplace policy in compliance with Article 1D, Chapter 21 of the *West Virginia Code*. The vendor **must** make said affirmation with its bid submission. Further, public improvement construction contract may not be awarded to a vendor who does not have a written plan for a drug-free workplace policy in compliance with Article 1D, Chapter 21 of the *West Virginia Code* and who has not submitted that plan to the appropriate contracting authority in timely fashion. For a vendor who is a subcontractor, compliance with Section 5, Article 1D, Chapter 21 of the *West Virginia Code* may take place before their work on the public improvement is begun.

ANTITRUST:

In submitting a bid to any agency for the state of West Virginia, the bidder offers and agrees that if the bid is accepted the bidder will convey, sell, assign or transfer to the state of West Virginia all rights, title and interest in and to all causes of action it may now or hereafter acquire under the antitrust laws of the United States and the state of West Virginia for price fixing and/or unreasonable restraints of trade relating to the particular commodities or services purchased or acquired by the state of West Virginia. Such assignment shall be made and become effective at the time the purchasing agency tenders the initial payment to the bidder.

I certify that this bid is made without prior understanding, agreement, or connection with any corporation, firm, limited liability company, partnership or person or entity submitting a bid for the same materials, supplies, equipment or services and is in all respects fair and without collusion or fraud. I further certify that I am authorized to sign the certification on behalf of the bidder or this bid.

LICENSING:

Vendors must be licensed and in good standing in accordance with any and all state and local laws and requirements by any state or local agency of West Virginia, including, but not limited to, the West Virginia Secretary of State's Office, the West Virginia Tax Department, West Virginia Insurance Commission, or any other state agencies or political subdivision. Furthermore, the vendor must provide all necessary releases to obtain information to enable the Director or spending unit to verify that the vendor is licensed and in good standing with the above entities.

CONFIDENTIALITY:

The vendor agrees that he or she will not disclose to anyone, directly or indirectly, any such personally identifiable information or other confidential information gained from the agency, unless the individual who is the subject of the information consents to the disclosure in writing or the disclosure is made pursuant to the agency's policies, procedures and rules. Vendor further agrees to comply with the Confidentiality Policies and Information Security Accountability Requirements, set forth in <http://www.state.wv.us/admin/purchase/privacy/noticeConfidentiality.pdf>.

Under penalty of law for false swearing (*West Virginia Code* §61-5-3), it is hereby certified that the vendor affirms and acknowledges the information in this affidavit and is in compliance with the requirements as stated.

Vendor's Name: Fabica Inc.
Authorized Signature: [Signature] Date: 1/4/10
