Re: Litter 10A notes

Civic Enterprises originally patented our 30" Grab-It® in September of 1970. We have been in constant production since that time. That size is so named, because we start with a 30" tube. The finished product does actually measure 31 1/2" from tip of handle to tip of cups. The Grab-It® is manufactured from anodized aluminum and weighs in at about 8 ounces. I submit that this will meet the criteria for the 32" Regular grabber requested in your specifications. Conversely, our 36" model, which we only recently introduced, starts with a 36" tube, and measures about 37 1/2" longest dimension. This size weighs in at just under 10 ounces, and while not having the strength of tubular steel, it provides the user with a good balance of extra reach without having to carry an overly heavy tool for long periods. Several DOT's who expressed needing the longer length are now requesting this product. Samples of both models are being shipped via UPS on April 12.

We ship 10's of thousands of our standard 30" model each year, but being a newly introduced item, we have not built as big a following for the 36" model as yet. Therefore, we only normally stock about 1000 -1250 of the 36" model. Should we receive word that we are the apparent winning bidder, we are prepared to ship whatever stock we have on hand, and immediately tool up to produce the remainder in a timely manner. If the orders/useage were staggered through the year, this would not even become an issue.

We are proud to say that we have produced a quality tool for almost 40 years. We are an American owned, small business, and our product is manufactured here in the US. We appreciate the opportunity to present this bid and if named the winner, look forward to providing a high level of customer service that has earned us many repeat customers throughout the years.

Sincerely,

Mark Ketchell
