Jo Ann Adkins

Department of Administration

Charleston, WV 25305

Dear Ms. Adkins,

In response to the State of West Virginia RFQ PPHONE10, Jaroth Inc. d/b/a Pacific Telemanagement Services (PTS) is very excited about the opportunity to provide payphone services to the State of West Virginia. PTS has read and agrees to all terms and conditions as outlined in the Request for Quote (RFQ). Further, I can legally bind PTS to this proposal. Please find above my complete contact information.

PTS was incorporated in the State of California in July of 1986. Today the corporate headquarters is located at 2175 N. California Blvd. Suite 400, Walnut Creek, California 94596. PTS operates 55 thousand payphones nationwide and is the largest private payphone provide in the United States. I am the Vice President of Sales for the Eastern Region and my office is located in Stafford, Virginia. I have 31 years experience in the industry.

Our proposal allows the State to request payphone service at any location and keep that service for a period determined by the State. All Gross revenue is credited toward a monthly maintenance fee of \$85 per month, per payphone. Once the per phone \$85 maintenance fee is satisfied, PTS will pay to the State a 25% commission on the portion of the revenue that exceeds the fee threshold. We feel this commission plan provides the State the best solution for payphone services for the following reasons:

1. The State determines the levels of payphones they require and where they are located
2. Phones that produce higher revenue earn a 25% commission and can offset the payphones required by the State that do not meet the revenue threshold
3. The State can have a "one for one" transition from their current vendor to PTS if required
4. PTS will not remove any payphone unless requested by the State

PTS currently has similar arrangements with the States' of Illinois and California. Both of these States were acquired through a competitive process awarded to PTS. References for these accounts are available upon request.

Thank you for the opportunity to respond to this RFQ. We look forward to hearing from you with regards to our proposal.

Sincerely,

Kurt E. Gibbs

**RFQ  
OPEN-END CONTRACT  
PAYPHONES**

The purpose of the RFQ is to solicit proposals for providing pay telephone services to State agencies with offices located throughout the State. As a minimum, the bidder shall provide an industry-standard pay telephone and three basic types of enclosures, i.e., wood shelf, panel recessed, and outdoor booth with pedestal. Attachment A shows a chart of the current installations.

Payphones provide telephone service to users who do not or would not otherwise have access to land lines or wireless phones. This would include State institutions, such as correctional facilities and mental health centers, where direct telephone extension lines and wireless phone are not permitted. These payphones are also installed in State parks. In some instances, security enhancement decisions have influenced the placement of payphone installations. Additionally, they allow any user the means to call emergency numbers, such as 911, if needed.

Also known as a "paystation" and typically located in a public area, pay telephones allow users to complete calls by depositing coins to cover the call cost. Some pay phones are coin less and capable reading credit and calling cards for completion and payment of calls.

This contract is available to all state agencies, boards, commissions, universities, offices of the WV House and Senate, and Constitutional Officers.

All equipment provided will be ADA Compliant. The Vendor must have the capability to install a TDD device if requested by the State agency.

The Vendor shall charge a uniform monthly Lease rate for each payphone regardless of location.

The Vendor may provide to the State commissions based on gross billed revenue generated by the pay telephone usage. The bidder should identify the level of usage required for the Vendor to pay commissions and what percentage would be paid. If applicable, the commissions shall be paid monthly directly to the agencies who have pay telephones at their locations.

The Vendor may provide the equipment and service at no charge to the State based on the revenue generated by the pay telephone usage. The bidder should identify the level of usage required for the Vendor to provide the equipment and service free of charge.

The State will provide a suitable location on the property for the payphones and equipment which shall be readily accessible and clearly visible to customers. the payphones.

The State will allow the display of all signs and instructions as affixed to the equipment by the Vendor and shall not affix or permit a third party to affix any other signs or instructions to the equipment.
