NOVAtime: A Business Model with Government in Mind

NOVAtime's public sector and government practice is growing. In the past 3 months we have created a dedicated government sales team who proactively sells to government. This team has completed the process of approval by the Federal GSA and posted pricing on the GSA's website (www.gsaadvantage.gov) for the NOVAtime 4000 and 4000 Star platform. NOVAtime created this focused division within the company based on the unique requirements and challenges to government, and the recent success we have seen within this vertical. We (NOVAtime and NOVAtime authorized resellers) have recently been awarded projects at Pittsburgh Parking Authority, PA; City of Norwalk, CT; and Warren County, NY. NOVAtime currently provides services for over 150 government clients in the United States.

When comparing the cost of different time and attendance systems to NOVAtime, it is sometimes difficult to compare like to like. One of the major challenges government finance officers and CIO's face is requesting additional funding for upgrades and training from the legislative body, council and/or board. No additional funding will ever need to be requested due to the NOVAtime, thus providing credibility to the partnership in the eyes of our elected officials.

NOVAtime offers several solutions focused on public and government sector organizations. The NOVAtime 4000 Star is a licensed version that offers the scalability and flexibility of a completely Microsoft .NET/SQL framework designed exclusively to run on your internal infrastructure. Our system integrates with over 300 payroll, HRIS, ERP, Job Tracking, Scheduling and Accrual systems and is constantly being enhanced to include new capabilities.

Here are some of the differences that set us apart from our competitors:

Initial Cost

- Our initial cost is often lower than that of our competition.
- Our cost includes modules like attendance tracking, web based time entry and Scheduling/HR/Payroll interfaces. Items for which our competitors often charge extra for.
- Our cost is based simply on employee count. It includes an unlimited number of supervisors and other users. Our competitors usually charge for each user.
- Our solution can be deployed onsite in a traditional licensing model or as Software as a Service (SaaS) with hybrid pricing to eliminate a capital expenditure.

Fixed Implementation Cost

- We charge a single, low, fixed cost for installation, implementation, training, and project management; this is not a charge for fixed services.
- If we have underestimated the effort involved in implementing your NOVAtime system, we will eat the difference – you will never pay more.
- This cost includes the effort involved in implementing ALL your facilities – not just the first one or two.
- The price includes travel costs and travel time. Our competitors will typically charge you for travel time and in 15 minute increments for any time spent, including leaving a voicemail message, NOVAtime does not.

Implementation and training at a fixed price.

NOVAtime's fees are fully communicated at time of purchase. Additional training or implementation is provided as needed with no cost to you.

On-Site Training

- We provide on-site training tailored specifically to you user's requirements.
- Your employees will not be forced to schedule their classes around off-site class availability, which typically translates to a faster implementation of the NOVAtime system, and ROI.
- Your cost becomes lower because we come to you, the customer, on-site, without travel fees.

No "Scope Creep"

- Our fixed price is to get the job done – completely.
- Our competitors sometimes charge a "fixed" price for a fixed set of services, which normally proves to be inadequate to finish the task, needing additional money for additional services or upgrades.

No Upgrade Cost

- No charge for upgrades, or to implement upgrades.
- Our competitors may provide "version" upgrades at no charge, but they charge significant amounts to implement the upgrade.
- Our competitors have always charged for major new releases, NOVAtime does not.
- The charge for their upgrades often amounts to more than double your initial cost over a 5 year period.

Lower Cost of Ownership

- Our Annual Maintenance charges are much lower than our competitors.
- These charges are guaranteed to rise by no more than 5% per year.
- Our service offers 24 hour support, guaranteed 30 minute response time, and a dedicated support representative familiar with your system.
- Our competitors don't match this level of service, even with their "Platinum Plus" level which is usually twice as expensive.

Faster Implementation, Faster ROI

- The primary reason for implementing an automated Time and Attendance / Workforce Management system is the cost savings associated with labor and payroll processing.
- The sooner you implement the system, the sooner the savings will accrue.
- Our on-site training and SurePath implementation methodology and process guarantees the fastest possible, successful implementation.
- The ROI on NOVAtime systems is typically 12 months. A three (3) month ahead-of-schedule implementation is the same as a 25% price advantage.

No charge for version upgrades or product enhancements.
