Item P Shall meet West Virginia Division of Highways' Specifications, specifications of adjacent state highway departments or specifications acceptable to the WV Division of Highways Engineer for similar material as bid in Items A through O.

The Division of Highways may purchase Hot-Mix Asphalt F.O.B. Vendor's plant. The bid price F.O.B. Vendor's plant shall include the loading of Division of Highways', owned or rented, trucks and the furnishing of a coating solution in accordance with Section 401.9.7 of the Specifications by Vendor.

2. BIDDING INSTRUCTIONS

Any qualification of bids or any modification of the specifications or conditions governing the bids shall be cause to reject bids.

If a Vendor will be supplying materials from more than one plant, the bid prices that apply to each plant shall be clearly indicated in the bid, preferably on separate bid schedules.

3. DETERMINING LOW BID

The purpose of this contract is to establish unit prices for Items A, B, C, D, E, F, G, H, I, J, K, L, M, N, O, P, Q, R, S, T, U, V, W, X, Y, Z, AA, AB, AC, AD, AE, AF, AG, AH, AI, AJ, AK, AL, AM, AN and AO which are to be used as the basis for requisitioning Hot-Mix Asphalt and Warm-Mix Asphalt for use on various maintenance and repair projects throughout the Division of Highways' Districts.

An Agency Release for individual paving projects will be based on the lowest overall total cost of the pick-up price of material, Items A through O, plus shoulder paving, Item S, T, and U plus the haul cost, Item V, plus the lay down cost, Item W, plus cleaning & sweeping, Item X, tack material, Item Y, mobilization for paving, Items Z or AA, off-season plant opening, Item AB, additional heel-in joints, Item AC, skip paving surcharge, Item AD, mobilization for profiling, Item AE, pavement profiling, Item AF, Traffic Control, Items AG, AH, AI and AJ and pavement repair, Item AM, however Items A through R may be furnished from any approved production location. Items S, T, U, V, W, X, Y, Z, AA, AB, AC, AD, AE, AF, AG, AH, AI, AJ, AK, AL, AM, AN and AO shall be shown on the Agency Release as a separate pay item when requested by the Engineer.

Agency Releases for material to be picked up at the Vendor's plant by the Division of Highways will be based on the lowest unit price of Items A through R and the Division of Highway's most economical haul cost from the Vendor's plant to individual job sites. Factors to be considered shall include but not be limited to; bid price of material, haul cost @ \$0.25 for each additional ton-mile, loading and transportation delays and availability of material.

The distances allowed for haul costs will be over suitable routes selected by the Division of Highways Engineer that provides the lowest total cost to the Division of Highways and shall be measured from the Vendor's plant location to the mid-point of the project. All such chosen routes shall have acceptable load limits for both roads and bridges.

The Division of Highways reserves the right to request any one or combination of items for which bids are received at the lowest overall total as set forth above.

Acceptance of a bid for any one item shall not be dependent upon the acceptance of a bid for any other item or any combination of items. However, Item P shall not be requested except when determined by the Division of Highways Engineer that all other equivalent items of material are not available, then only on a pick-up basis. Also, Item V will only be requested in combination with other quoted items.

Upon receipt of an Agency Release for lay down of Hot Mix Asphalt or pavement profiling, the Vendor shall advise the Division of Highways, in writing, within five (5) calendar days of their acceptance of the Agency Release. Failure to acknowledge shall result in cancellation of the Agency Release and re-award to the next lowest bidder.

4. CONTRACT CONDITIONS

All qualified Vendors who submit a valid bid "F.O.B. Vendor's Plant" will be awarded a Contract for those items bid. See Section 13 for Bid Schedule.

In the event a Contractor fails to conform to the requirements set out in this contract document, the Agency Release or the governing specifications, and this Purchase Order may be canceled and awarded to the next lowest bidder.

The Vendor is not authorized to ship, nor is the Division of Highways authorized to receive materials prior to the issuance of an Agency Release.

5. CONTRACT COMPLETION

All Agency Releases for lay down and profiling work shall specify a starting date and a completion date based on the vendor's acceptance of the Agency Release. If work is not started by the vendor, by the specified starting date in the Agency Release, the Agency Release shall be cancelled and reissued to the next low bidder. If work is not completed by the completion date as specified in the Agency Release, liquidated damages will be assessed in accordance with Section 108.7 of the Standard Specifications Roads and Bridges, Adopted 2010 as modified by the January 1, 2011 Supplemental Specifications.

6. GENERAL PROVISIONS

6.1 Lay Down

Lay Down as noted in Item W shall be provided by the Vendor as requested by the Division of Highways at projects designated by the Division of Highways Engineer.

6.2 Skip Paving

The Vendor may be required to perform Skip Paving projects at a paving location, provided the distance between the end of one skip and the beginning of the next does not exceed 2500 feet. When Skip Paving is requested the Vendor shall be paid the Skip Paving Surcharge, Item AD for each ton of final surface course material completed in place on the project. Patching and leveling in preparation for resurfacing of a project shall not be considered Skip Paving.

6.3 Heel – In

Heel-in of joints at the beginning and the end of each paving location, will be performed by the Vendor in accordance with the Resurfacing Heel-In Detail.

Payment for beginning and ending heel-in joints shall be included in the unit price bid for Item W.

Additional Heel-In Joints, Item AC, constructed in accordance with the Resurfacing Heel-In Detail may be required as directed by the Division of Highways Engineer at intersecting roadways, at the beginning and end of each paving skip and other designated locations. Payment of additional Heel-In Joints shall be paid per lineal foot as measured along the joint, which shall be full payment for complete construction of the joint.

6.4 Cleaning and Sweeping

Cleaning and Sweeping may be performed by the Division of Highways. However, Cleaning and Sweeping, if provided by the Vendor, shall be performed in accordance with Subsection 401.10.1 of the Standard

Specifications. Payment shall be calculated as the paving length times the width swept in accordance with subsection 401.10.1.

6.5 Off Season Plant Opening

If the Vendor is required to open his plant in the off season to service the needs of the Division of Highways, an additional payment will be made under Item AB, off-season plant opening. Vendor will be paid additional day charge for each additional consecutive day that the plant is open after the first day to serve the needs of the Division of Highways.

If the plant produces no material for any user on any calendar day, either during the week or on the weekend, the Division of Highways will pay the first day rate for off-season plant opening on the next day of the Division of Highways usage. Payment for this item is subject to the following conditions:

6.5.1 Payment for Item AB can only be authorized and made during the winter months, i.e., between December 15 and March 15, and then only if the plant would not have otherwise been open.

These dates may be revised by the Division of Highways Engineer, if necessary, to meet specific needs in the field. Any such revision of dates will be in writing and shall be attached to the Vendor's invoice at the time payment is requested.

6.5.2 Payment will always be made in the full contract bid price amount for first day of plant opening. However, the amount paid from each additional day of plant opening will be reduced as follows:

a. Payment for additional day charge will not be made if the plant has produced over 500 tons on that particular day. If between 300 and 500 tons have been produced, payment for additional day charge will be made equal to one-half of the amount bid for additional day charge. The quantity produced to make this determination shall include all material produced that day, which includes tonnage bought by the State, the various local governments and all private work.

b. The State will only pay its share of the amount determined to be due for additional day charge in paragraph 6.5.2a above. For example, if the plant produces 375 tons and the Division of Highways takes 150 tons of the total, in this illustration 40% of the plant's daily production, payment for additional day charge would be calculated as follows: Since the total daily production is between 300 and 500 tons, the Vendor is due one-half (50%) of the additional day charge in accordance with paragraph 6.5.2a. Because the Division of Highway's share of this daily production is 40%, the Division of Highways would pay 40% of one-half of the additional day charge, or in this case, 20% of the additional day charges.

6.5.3 In order to be paid for additional day charge, a certified statement shall accompany the invoice stating the total quantity produced on that day. If payment for additional day of plant opening is not made due to tonnage produced, the next consecutive day of plant operation, if any, will only qualify for payment at the additional day rate, not the first day rate for plant opening.

6.6 Pavement Profiling (Milling)

6.6.1 Description of Work: This work shall consist of profiling the existing pavement to the specified grade and cross slope by grinding, planning or milling. The profiling equipment shall be capable of accurately establishing profile grades (1/4 inch plus or minus) along each edge of the machine by reference from the existing pavement by use of ski or matching shoe or by reference to independent grade control. The equipment shall have an automatic system for controlling grade and cross slope. The Vendor shall provide adequate manpower and auxiliary equipment to control dust and remove

cutting from the project site. Stockpiling of cuttings on the project site will not be permitted. All cuttings on the project site will not be permitted. All cuttings shall become the property of the Vendor. The Vendor shall be responsible for damage to drainage facilities, manholes or other appurtenances within the pavement area.

6.6.2 Method of Measurement:

6.6.2.1 Mobilization for Profiling: The work shall consist of preparatory operations including movement of necessary personnel and equipment onto the project site to begin the profiling work. Only one Mobilization for Profiling per Agency Release shall be paid when Pavement Profiling (Milling) is required.

6.10 Surcharge for Parking lot and Facilities Paving

6.14.1 Mobilization for Milled Rumble Strips: Work shall consist of preparatory operations including movement of necessary personnel and equipment onto project site to begin the work of milling rumble strips. Only one mobilization for milling rumble strips per Agency Release shall be paid when milled rumble strips are required.

7. MOBILIZATION FOR PAVING LIMITS

Mobilization for Paving, Items Z and AA will be paid when Vendor is required to place lay down quantities, Item W, under 500 tons. In addition, nighttime mobilization for paving, Item Z, will only be paid when Vendor is directed by the Division of Highways Engineer to perform lay down at night.

Only one mobilization for paving per day of operation will be paid, unless moves of over five (5) miles between individual paving locations are required. In cases where a Vendor is required to move from one roadway to the adjacent roadway of a divided highway, additional mobilization for paving will only be paid if the nearest interchange or crossing point that will accommodate the Vendor's equipment is over five (5) miles from the paving locations. (This provision may require roundtrip moves of up to ten (10) miles with no additional mobilization for paving payment).

At an individual paving location where the Vendor is required to place quantities of less than 500 tons on successive days and/or nights, mobilization for paving will only be paid for the initial day's and/or night's operation.

An individual paving location shall be defined as a paving job where no skips exceeding 2500 feet are involved, except between the approach slabs of a bridge or parallel pair of bridges.

8. WEIGHING MATERIALS DELIVERED BY TRUCK

Material delivered by truck shall be weighed in accordance with Section 401.9.3 of the West Virginia Department of Transportation, Division of Highways' Standard Specifications Roads and Bridges, adopted 2010 as modified by the January 1, 2011 Supplemental Specifications.

When WMA is used, the temperature of the completed mixture at the plant may be lowered to an established range that has previously been determined through trial production. The allowable temperature range specified on the approved T400 mix design form shall be adjusted accordingly when using WMA. In addition, typical minimum HMA compaction temperatures shall be waived as long as additional density can be obtained at lower temperatures without damaging the pavement.

11. SUPPLYING OTHER ORGANIZATION ENTITIES

County Courts, Municipalities, School Boards and other political subdivision and governmental entities, etc, may have a need for these materials, and Vendors may wish to supply that need.

Accordingly, bidders may wish to extend their contract prices to these other entities. If the bidder wishes to supply these other entities, but with prices different from quoted for the Division of Highways, the bidder shall include a set of bid schedules clearly and unambiguously marked for the express use of the entities other than the Division of Highways. Failure by the bidder to include a set of bid schedules for other entities will be taken to mean that the bid schedules extended to the Division of Highways will also be extended to these other entities.

In the event any Vendor does not wish to extend the prices, terms and conditions of his bid and subsequent contract to other entities of the State, he must so indicate in a clear and unambiguous manner in his bid. This indication does not prejudice the award of the contract. If a Vendor does not indicate his refusal to extend the prices, terms and conditions of his bid to other entities of the State, he is bound to extend them upon issuance of a purchase order by these other entities.

Other organizational entities using this provision of the contract shall do so without any involvement of the Division of Highways. That is, the entity shall make its own purchase arrangements with the Vendor and shall make its own arrangement for payment.

- d. Vendors shall show all weigh ticket numbers on their individual invoices.
- e. No payment will be made to a Contractor for Item Z or AA unless he performs the lay down operation and the quantity involved is less than 500 tons for Item Z.

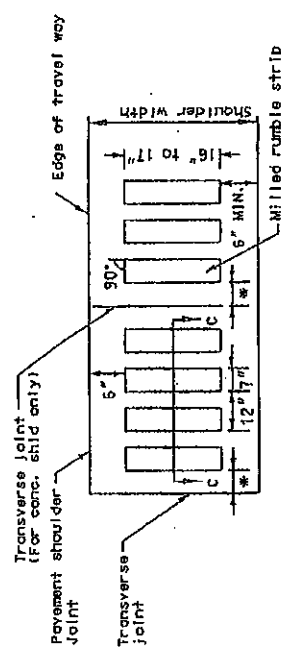

Under no circumstance will the Division of Highways accept, or pay for, quantities of material in excess of the quantity stated on the Agency Release.

DEFINITIONS:

"Debt" means any assessment, premium, penalty, fine, tax or other amount of money owed to the state or any of its political subdivisions because of a judgment, fine, permit violation, license assessment, defaulted workers' compensation premium, penalty or other assessment presently delinquent or due and required to be paid to the state or any of its political subdivisions, including any interest or additional penalties accrued thereon.

"Debtor" means any individual, corporation, partnership, association, limited liability company or any other form or business association owing a debt to the state or any of its political subdivisions. "Political subdivision" means any county commission; municipality; county board of education; any instrumentality established by a county or municipality; any separate corporation or instrumentality established by one or more counties or municipalities, as permitted by law; or any public body charged by law with the performance of a government function or whose jurisdiction is coextensive with one or more counties or municipalities. "Related party" means a party, whether an individual, corporation, partnership, association, limited liability company or any other form or business association or other entity whatsoever, related to any vendor by blood, marriage, ownership or contract through which the party has a relationship of ownership or other interest with the vendor so that the party will actually or by effect receive or control a portion of the benefit, profit or other consideration from performance of a vendor contract with the party receiving an amount that meets or exceeds five percent of the total contract amount.

EXCEPTION: The prohibition of this section does not apply where a vendor has contested any tax administered pursuant to chapter eleven of this code, workers' compensation premium, permit fee or environmental fee or assessment and the matter has not become final or where the vendor has entered into a payment plan or agreement and the vendor is not in default of any of the provisions of such plan or agreement.

Under penalty of law for false swearing (**West Virginia Code §61-5-3**), it is hereby certified that the vendor affirms and acknowledges the information in this affidavit and is in compliance with the requirements as stated.
