EOI#: DEP15231  
Title: Expression of Interest for Architectural/Engineering Services to  
Provide Total Maximum Daily Loads (TMDLs) for the Impaired  
Streams in the Monongahela Watershed  
Opening Date: November 18, 2010  
Opening Time: 1:30 PM

Dear Mr. Bowman:

Tetra Tech, Inc. is pleased to submit our proposal in response to West Virginia Department of Environmental Protection's Expression of Interest number DEP15231 for Total Maximum Daily Loads (TMDLs) for impaired streams in the Monongahela Watershed. We have thoroughly enjoyed working closely with WVDEP's TMDL Program over the past eight years as it has grown into one of the nation's premier TMDL programs.

We hope that our proposal and qualifications demonstrate our significant experience and continued commitment to providing high quality TMDL support for West Virginia. Our experience in developing TMDLs and the tools that streamline the TMDL development process is unmatched by any other firm. We emphasize the use of TMDLs in supporting the broader environmental programs of the state and answering practical watershed planning questions. This approach to TMDL development requires that we not presume the use of a specific approach or set of modeling tools, but that we instead select or develop necessary tools that answer the appropriate management questions.

In our proposal, we have identified a core group of staff, all of whom have extensive TMDL development experience, and many who have directly supported West Virginia over the past eight years. I will continue to serve as the Project Manager located in our Charleston Office to facilitate communication and maximize our efficiency in meeting project needs.

We appreciate the opportunity to present our qualifications to West Virginia and we look forward to providing support for this project. If you should have any questions, please feel free to contact me at 304-414-0054.

Sincerely,

Jon C. Ludwig
