Re: DNR 210242

Be advised on General Window Shade Specifications Item #2:

Side channels are not available with a custom made fit for pleated shades with the continuous cord loop and clutch system. You would be able to have the pleated shade option with a cordless lift or you can have a roller shade with the continuous loop and clutch system. We recommend staying with the original bid of a pleated shade (without side channels) with a continuous cord loop and clutch system. This window has an inside mount. The head rail is the same size as the shade width. This should provide adequate light control. The one door in the conference room will not accommodate side channels with the door handle.

We have submitted the bid based on our recommendation.

The following color selections are recommended:  
Graber Cocoon, blackout: Desert Dust-0439  
Graber Translucence, semi-opaque: Buttercup-5101
