Re: Architectural/Engineering Services for RFQ: DNRB11006
Canaan Valley State Resort New Guest Rooms, Demo and Renovation

Dear Mr. Whittaker:

Blackwood Associates, Inc. (BAI) and **MSES Consultants, Inc. (MSES)** are pleased to submit this expression of interest in providing professional services for Canaan Valley State Resort's new guestrooms, rehabilitation of existing rooms and demolition of additional rooms, located in Canaan Valley, West Virginia.

Blackwood Associates, Inc. is an Architectural and Planning firm located in Fairmont, WV and would provide all project planning and design. **MSES Consultants, Inc.**, is an Engineering firm located in Clarksburg and Huntington, West Virginia, providing all engineering disciplines. The two firms have merged operations to become the largest full service architectural/engineering provider in West Virginia.

The **BAI/MSES** firm offers a combined professional staff of over 80 people, with registered architects, engineers, LEED accredited professionals, scientists, technicians and support personnel. **BAI/MSES** is a single source that can provide the professional disciplines required for projects of this nature. Professional services will be managed and performed by full-time, in-house personnel out of the Fairmont, Clarksburg and Huntington offices.

The **BAI/MSES** firm practice is based upon the philosophy of comprehensive service, providing our clients with a single point of responsibility. We believe that the building sciences of architecture and engineering cannot be separated. By bringing architecture, interior design, engineering, environmental, and management services together in a single firm, we ensure efficient and effective service. Another advantage to an Owner is **BAI/MSES**'s extensive experience in site selection and evaluation of existing buildings, especially where environmental issues may be a potential concern.

blackwood associates, inc.
architects & planners
mSES consultants, inc.
engineers & environmental

BAI/MSES is your provider of the total array of professional services including LEED, environmental and hygienist services where needed. Another advantage to our firm, **BAI/MSES** develops websites for every project as a part of basic services. Websites are used during various phases of project development, making Owner document review much more efficient. This technology has also been proven to increase the interest of contractors and suppliers during bidding. During construction we add site progress photographs and panoramas for Owner access and review from their offices.

BAI and **MSES** are West Virginia firms with a combined 81 years of providing architecture and engineering services to agencies throughout West Virginia. Our 18 years of successful practice as a team is the direct result of our ability to provide all professional disciplines necessary for any governmental project.

We can assure a work force of sufficient size to provide immediate and comprehensive involvement on this project. We look forward to having the opportunity to present our qualifications and approach on a personal basis. Thank you for your consideration.

Sincerely,

BLACKWOOD ASSOCIATES, INC.

About the Firm

The **Blackwood Associates, Inc. (BAI)** and **MSES Consultants, Inc. (MSES)** mission is to provide full professional service necessary to assure successful completion of a project. Our practice is based upon the philosophy of comprehensive service, providing our clients with a single point of responsibility. By bringing architecture, interior design and engineering together into a single firm, we ensure efficient and effective service.

The firm maintains a staff of highly trained, educated and experienced personnel, including all of the technical disciplines necessary for this project. We can accommodate any timetable for programming through completion of construction documents and our combined force of specialized professionals would allow **BAI/MSES** to begin a full range of services immediately for this project. **BAI/MSES** have extensive experience in the design of recreational and government facilities of every type.

Blackwood Associates, Inc.

Blackwood Associates, Inc. was originally established as a West Virginia Corporation in 1959. The firm was incorporated as L.D. Schmidt & Son, Architects and Engineers, under the direction of the late Louis D. Schmidt. In 1967, James Blackwood joined the firm as an intern architect and project designer. In 1972, James Blackwood became vice-president of L.D. Schmidt & Son and then assumed the presidency of the Corporation in 1975. In 1981, the Corporate name was changed to Blackwood Associates, Inc. Architects and Planners, to reflect the practice ownership.

L.D. Schmidt & Son was the original architect of record for the Canaan Valley State Resort and Guestrooms. **Blackwood Associates maintains an original set of drawings for the resort.**

Canaan Valley State Resort
Canaan Valley, WV

blackwood associates, inc.

Blackwood Associates, Inc.

Since that time, the firm has maintained leadership in the design of state-of-the-art governmental, recreational, educational, medical, residential, commercial and historical adaptive reuse facilities. **BAI** has successfully completed over 600 projects with a construction value in excess of \$600 million in the last 20 years.

BAI/MSES is familiar with all aspects of new construction, renovation, build-out design, life safety codes, BOCA codes, and Federal and State codes and ordinances applicable for the proposed project. In addition, we maintain LEED accredited professionals in multiple disciplines to meet quality and performance standards. The benefits of this experience and diligence are perhaps most effectively demonstrated by our large number of long term clients and continued successful practice in West Virginia.

BAI/MSES maintains an in-house staff of professionals whose expertise covers all aspects of architecture, planning and engineering practice. We recognize the importance of computers for complete and efficient project organization, communication and document management. All word processing, design, drafting, building analysis, virtual reality, and websites are developed by the firm using cutting edge technology. This same technology allows **BAI/MSES** to provide an Owner with project work product in a usable format at project completion.

We strongly adhere to the American Institute of Architects Code of Professional Conduct. We serve our clients competently and in a professional manner, and exercise unprejudicial and unbiased judgment on their behalf.

BAI/MSES have never had a project go uncompleted as a result of inadequate staffing, inability to meet Owner requirements or failure to meet established time frames. This commitment of professionalism applies to every project and client.

MSES Consultants, Inc.

MSES Consultants, Inc. is a multi-disciplinary engineering, architectural support, environmental, planning, and project management firm, headquartered in Clarksburg, West Virginia. We have amassed 33 years of successful project experience, serving private and public clients since our initial founding as a small, 3-person environmental consulting firm in 1976. MSES expanded rapidly to become a provider of total engineering and environmental services by the year 1978, and we have seen our ranks swell, with a current professional staff of 70, including 12 registered engineers, 2 Certified Industrial Hygienists, 4 asbestos inspectors, 4 asbestos air clearance monitors, 1 lead based paint risk assessor, 6 professional land surveyors, and a diverse roster of professionals, scientists, and support personnel.

MSES personnel have completed more than 10,000 assignments to date. We have been heavily focused on building construction, renovations, and project management since our founding in 1976. Many of our projects have involved site selection studies, designs (HVAC, plumbing, electrical, civil, structural, mechanical, lighting, fire systems, security, and telecommunications), inspections, geotechnical investigations, assessments and reviews, environmental sampling and analysis, property evaluations and appraisals, and project management services throughout West Virginia and surrounding states. MSES also has the ability to address environmental issues that may occur during construction.

LEED Accredited Professionals

BAI/MSES is proud to be a member of the United States Green Building Council and for many years has incorporated a broadening spectrum of sustainable design strategies as part of our standard operations. Green building practices can greatly reduce the negative environmental impact of the construction process, and green design can provide more "livable" buildings with healthier, more productive environments and lower building maintenance and operating costs. Achieving a LEED certification for a structure is an involved process that requires professional assistance, and proper planning is essential from the very beginning of a project. With two LEED Accredited Professionals on staff consideration of the Leadership in Energy and Environmental Design philosophy is integral to our design and planning process. Our LEED APs are experienced in architectural and mechanical design and construction and are proponents of incorporating the green design philosophy into real world building projects.

Recreational Projects

Stonewall Resort & Conference Center Roanoke, West Virginia

The Stonewall Resort Lodge and Conference Center in Lewis County, West Virginia was a \$20 million Construction Management project. This was made possible through a public / private collaboration of McCabe-Henley-Durbin, LP, a Charleston-based property development firm, and the West Virginia Division of Natural Resources. G.A. Brown and Son, Inc. of Fairmont was the project Construction Manager. This was the first project delivery system of this type in West Virginia incorporating both public and private monies.

The 175,000 square foot structure is oriented on a peninsula embracing Stonewall Jackson Lake. The facility utilizes 21st century design technology with a style reminiscent of the Arts and Crafts Movement. The lodge is divided into the two story lodge proper, conference center, spa/pool complex and the three story guest wings. The heavy timbered porte cochere invites you into the light flooded lobby which overlooks the lake. The central stair leads down to fine dining in the 250 seat restaurant which extends to the outdoor patio. For a more leisurely dining experience, guests may visit the pub/lounge adjacent to the restaurant.

mscs consultants, inc.
engineers & environmental

Stonewall Resort & Conference Center - continued

The conference center houses eight meeting rooms, three large conference rooms, one board room and a conference hall. All are served by break-out areas adjacent to outdoor gathering spaces overlooking the golf course. Conference facilities can accommodate over 1600 people. In the spa complex guests may enjoy a relaxing massage, work out in the fitness room, visit the steam baths and saunas or take a swim in the 2300 S.F. all-season indoor/outdoor pool with built-in hot tubs. The pool is flanked by a large fenced-in patio with magnificent views in all directions. The north and south guest wings provide 198 rooms including six double sized suites and fifteen sleeping rooms accessible to the disabled. The guest rooms can accommodate over 750 occupants. The Stonewall Resort offers over 3.5 acres of floor area to welcome both local patrons and long distance travelers.

Recreational Projects

Harrison County 4-H Recreational Center Clarksburg, WV

The Harrison County Commission had a dilemma. Their existing facilities, a collection of additions to the original barn, were old and nearly worn-out. Yet the building was used several times every week by a variety of community and private groups. The Commission decided to get professional input. They selected BA and MSES to perform a detailed study. BA/MSES surveyed the existing facilities and associated infrastructure, took record photographs, performed environmental testing and met with the Building Committee to review current usage patterns and develop a functional program for future use. Over a series of meetings BA/MSES developed a number of different schemes showing how the existing structure could be renovated and/or added-to in an effort to maximize its usefulness.

The New Facilities include:

- Indoor & Outdoor Activity Areas
- Classrooms
- 2 Office Suites & 7 Offices
- Commercial Kitchen & Food Service Area

blackwood associates, inc.
architects & planners
mSES consultants, inc.
engineers & environmental

Recreational Projects

Harrison County 4-H Recreational Center Clarksburg, WV

Ultimately the Commission decided that the existing facilities did not provide adequate flexibility for future needs and asked that BA/MSES develop schematic planning for a new building. The new proposed building would set on a site adjacent to the existing building - allowing the continued use of the existing building and maintaining an important revenue stream. Upon approval of the schematic design BA/MSES created interior and exterior virtual reality models and animations. The Commission had the opportunity to "see" their new building, inside and out, before any work commenced.

The project has completed construction with a construction cost of \$3,240,000.

Value Added Services
Environmental

MSES Consultants, Inc. (MSES) was originally founded in 1976 as an Environmental Consulting Company. Over the years, MSES expanded its Environmental Services, as well as adding Civil, Electrical, Mechanical and Safety Engineering Services with Drafting and Survey provided to supplement the various Engineering expertise.

MSES' environmental capabilities are listed below:

- Environmental Permitting (Air, Wastewater, and Stormwater Discharges); Environmental Plan Preparation
- Groundwater Protection, Stormwater Pollution Prevention, Facility Response Plans, Waste Management Plans, etc.)
- Environmental Inspections/Audits
- ISO 14001 Registration Assistance
- Environmental Regulation Compliance/Interpretation (Local, West Virginia and Federal)
- Indoor Air Quality Studies (Ventilation, Air Contaminants, Identification and Quantification, Microorganism Assessments)
- Asbestos (Inspections, Management Plans, Abatement Specifications, Abatement Monitoring, Clearance Air Monitoring)
- Lead Based Paint (Inspections, Abatement Specifications, Abatement Monitoring, Clearance Air Monitoring)
- Landfill (Design, Construction Specifications, Construction Monitoring)
- Contaminated Soil/Groundwater (Assessment, Clean-up Specifications, Clean-up Monitoring, Clearance Sampling, Voluntary Remediation Plan Preparation/Implementation)
- ASTM Phase I, II, and III (Environmental Site Assessments);
- Water System Design;
- Wastewater System Design

blackwood associates, inc.

Value Added Services
Environmental

The MSES Staff includes the following environmental specialists:

- Civil Engineers;
- Environmental Chemists;
- Biologists;
- Meteorologist; and
- Industrial Hygienist.

MSES personnel maintain a wide variety of professional licenses/certifications. A list of licenses/certification maintained by one or more of the MSES staff is listed below:

- Registered Professional Engineer (PE);
- Certified Industrial Hygienist (CIH);
- Qualified Environmental Professional (QEP);
- Licensed Remediation Specialist (LRS);
- Licensed Asbestos Inspector;
- Licensed Asbestos Management Planner;
- Licensed Asbestos Clearance Air Monitor;
- Licensed Lead Inspector;
- Licensed Groundwater Monitoring Well Installer; and
- Licensed Underground Storage Tank Closure Specialist.

APPROACH TO ENVIRONMENTAL SURVEYS

MSES typically utilizes the following approach to environmental survey:

- Project Initiation in which Project Objectives are Defined;
- Field Work Performed;
- Analysis of Samples (if required);
- Review of Information (Data Obtained and Identification of Regulatory/Best Management Practices);
- Report Preparation; and
- Review of Findings with Client.

STATE OF WEST VIRGINIA
Purchasing Division**PURCHASING AFFIDAVIT**

West Virginia Code §5A-3-10a states: No contract or renewal of any contract may be awarded by the state or any of its political subdivisions to any vendor or prospective vendor when the vendor or prospective vendor or a related party to the vendor or prospective vendor is a debtor and the debt owed is an amount greater than one thousand dollars in the aggregate.

DEFINITIONS:

"Debt" means any assessment, premium, penalty, fine, tax or other amount of money owed to the state or any of its political subdivisions because of a judgment, fine, permit violation, license assessment, defaulted workers' compensation premium, penalty or other assessment presently delinquent or due and required to be paid to the state or any of its political subdivisions, including any interest or additional penalties accrued thereon.

"Debtor" means any individual, corporation, partnership, association, limited liability company or any other form or business association owing a debt to the state or any of its political subdivisions. "Political subdivision" means any county commission; municipality; county board of education; any instrumentality established by a county or municipality; any separate corporation or instrumentality established by one or more counties or municipalities, as permitted by law; or any public body charged by law with the performance of a government function or whose jurisdiction is coextensive with one or more counties or municipalities. "Related party" means a party, whether an individual, corporation, partnership, association, limited liability company or any other form or business association or other entity whatsoever, related to any vendor by blood, marriage, ownership or contract through which the party has a relationship of ownership or other interest with the vendor so that the party will actually or by effect receive or control a portion of the benefit, profit or other consideration from performance of a vendor contract with the party receiving an amount that meets or exceeds five percent of the total contract amount.

EXCEPTION: The prohibition of this section does not apply where a vendor has contested any tax administered pursuant to chapter eleven of this code, workers' compensation premium, permit fee or environmental fee or assessment and the matter has not become final or where the vendor has entered into a payment plan or agreement and the vendor is not in default of any of the provisions of such plan or agreement.

Under penalty of law for false swearing (*West Virginia Code §61-5-3*), it is hereby certified that the vendor affirms and acknowledges the information in this affidavit and is in compliance with the requirements as stated.
