- 14. CONFIDENTIALITY: The vendor agrees that he or she will not disclose to anyone, directly or indirectly, any such personally identifiable information or other confidential information gained from the agency, unless the individual who is the subject of the information consents to the disclosure in writing or the disclosure is made pursuant to the agency's policies, procedures, and rules. #### 3.0 TECHNICAL QUESTIONS AND ANSWERS

3.01 Is Temporary Office Required?

Yes, large enough to accommodate progress meetings at site. Building, itself may be used for pre-demolition conference. See modification to article 2.2 in section 2.01 above.

3.02 3.2 Page 015000-3 Temporary Utilities-the building currently has electricity. Why put in temporary electricity? The current electricity could be until the abatement is complete then disconnected prior to demolition is this possible?

Yes, see Item 2.01 in Technical Bulletin No.1

3.03 6 on same page-install 2 telephones? (everyone has a phone) Are 2 offices required with a Telephone in each?

See modification to article 3.2 in Item 2.02 above.

3.04 Page 150000-5 belongs in another spec.book. How does this apply to this job?

See modification to article 3.4 in item 2.02 of Technical Bulletin No.1.

3.05 Page 174199-7(I) can this be disposed of as scrap iron? Why separate by type and size?

You may recycle as scrap iron, however, there could be value to separation, check with your recycler.

3.06 If the demo debris and salvageable material are the property of contractor as the spec's say, can he do what he wants with it?

You may not stockpile or dispose of material illegally. You must provide receipts and documentation for the donated, sold or stored and salvaged material.

3.07 Is the purpose of this specification to generate paperwork? If so, could this be part of the President's back to work program?

The purpose of the specification is to comply with methods identified that will assist the State of WV in obtaining credits to achieve a LEED Silver award for the building that will eventually be built on this site. The diverting of construction and demolition waste from landfills is part of that credit.

3.08 Will the contractor be allowed to work weekends?

Yes, however, the State of WV wants to be a good neighbor to the Church next door and not have any unwelcome disruption during Church Services.

3.09 Are 2 shifts possible?

Yes.

3.10 Is a professional engineer's assessment necessary prior to demolition?

Yes, the professional engineer is required to identify any potentially dangerous structural elements and to assist the contractor to determine means and methods for safe removal of the building.(See Section 024116, Part 3, Article 3.1,C.)

3.11 024116-6 Section 3.5 Paragraphs A & B. These statements indicate to me that the building is to be Removed one (1) floor at a time with top floor first by hand (if chutes are used someone needs to put the material in the chute it ids to be lowered someone needs to hook it up) My question- Can the building be torn down with an excavator from the top to the bottom starting at one end and going to the other all floors at the same time- No hook-ups-No chutes-No people in or on the building?

Top down removal is required. Staging and sequencing of removal is the responsibility of the contractor and their engineer. An Excavator may be utilized to remove debris from upper floors in a controlled manner. Under no circumstances should people be present in the building during the structural demolition of the building. See 2.03 above.

3.12 What is the State and/or architect's liability if someone is injured using the above means and methods?

The means and methods of demolition and construction are the responsibility of the contractor and their engineer. Liability Insurance for the contractor is discussed elsewhere in the project manual.

3.13 Please clarify, are the existing acoustical ceiling tiles to be recycled where asbestos is located above and also where it is not?

Section 024213 Reclamation of Acoustical Ceiling Tiles has been omitted. See item 2.04 of Technical Bulletin No.1.

3.14 Please clarify the location of the asbestos glazing. Is the glazing that is positive for asbestos only located where the glass panes meet the metal frame, and not where the window has been sealed to the masonry opening?

The gray glazing sealant was tested, not the exterior caulking at the masonry. The contractor should either assume the exterior caulking is ACM and treat it the same way as the gray glazing material, or sample and test on their own to determine the best way of removal.

3.15 Will the elevator be operational and available for use during abatement and recycling activities?

The elevator has not been in service for some time. If the contractor chooses to use it, they shall be responsible for obtaining all inspections and service to make it operational for the term of the project, at no additional cost to the owner.

- 3.16 Will the owner be providing the third party monitoring for this project?
  The Contractor shall be responsible for all third party testing.
- 3.17 Is the removal and disposal of PCB ballasts, mercury switches and bulbs included in this project?

Yes, all hazardous material removal is the responsibility of the contractor.

## STATE OF WEST VIRGINIA Purchasing Division

### PURCHASING AFFIDAVIT

West Virginia Code §5A-3-10a states: No contract or renewal of any contract may be awarded by the state or any of its political subdivisions to any vendor or prospective vendor when the vendor or prospective vendor or a related party to the vendor or prospective vendor is a debtor and the debt owed is an amount greater than one thousand dollars in the aggregate.

#### **DEFINITIONS:**

WITNESS THE FOLLOWING SIGNATURE

"Debt" means any assessment, premium, penalty, fine, tax or other amount of money owed to the state or any of its political subdivisions because of a judgment, fine, permit violation, license assessment, defaulted workers' compensation premium, penalty or other assessment presently delinquent or due and required to be paid to the state or any of its political subdivisions, including any interest or additional penalties accrued thereon.

"Debtor" means any individual, corporation, partnership, association, limited liability company or any other form or business association owing a debt to the state or any of its political subdivisions. "Political subdivision" means any county commission; municipality; county board of education; any instrumentality established by a county or municipality; any separate corporation or instrumentality established by one or more counties or municipalities, as permitted by law; or any public body charged by law with the performance of a government function or whose jurisdiction is coextensive with one or more counties or municipalities. "Related party" means a party, whether an individual, corporation, partnership, association, limited liability company or any other form or business association or other entity whatsoever, related to any vendor by blood, marriage, ownership or contract through which the party has a relationship of ownership or other interest with the vendor so that the party will actually or by effect receive or control a portion of the benefit, profit or other consideration from performance of a vendor contract with the party receiving an amount that meets or exceed five percent of the total contract amount.

**EXCEPTION**: The prohibition of this section does not apply where a vendor has contested any tax administered pursuant to chapter eleven of this code, workers' compensation premium, permit fee or environmental fee or assessment and the matter has not become final or where the vendor has entered into a payment plan or agreement and the vendor is not in default of any of the provisions of such plan or agreement.

Under penalty of law for false swearing (West Virginia Code §61-5-3), it is hereby certified that the vendor affirms and acknowledges the information in this affidavit and is in compliance with the requirements as stated.
