**GENERAL TERMS & CONDITIONS**  
**REQUEST FOR QUOTATION (RFQ) AND REQUEST FOR PROPOSAL (RFP)**

1. Awards will be made in the best interest of the State of West Virginia.
2. The State may accept or reject in part, or in whole, any bid.
3. Prior to any award, the apparent successful vendor must be properly registered with the Purchasing Division and have paid the required \$125 fee.
4. All services performed or goods delivered under State Purchase Order/Contracts are to be continued for the term of the Purchase Order/Contracts, contingent upon funds being appropriated by the Legislature or otherwise being made available. In the event funds are not appropriated or otherwise available for these services or goods this Purchase Order/Contract becomes void and of no effect after June 30.
5. Payment may only be made after the delivery and acceptance of goods or services.
6. Interest may be paid for late payment in accordance with the *West Virginia Code*.
7. Vendor preference will be granted upon written request in accordance with the *West Virginia Code*.
8. The State of West Virginia is exempt from federal and state taxes and will not pay or reimburse such taxes.
9. The Director of Purchasing may cancel any Purchase Order/Contract upon 30 days written notice to the seller.
10. The laws of the State of West Virginia and the *Legislative Rules* of the Purchasing Division shall govern the purchasing process.
11. Any reference to automatic renewal is hereby deleted. The Contract may be renewed only upon mutual written agreement of the parties.
12. **BANKRUPTCY:** In the event the vendor/contractor files for bankruptcy protection, the State may deem this contract null and void, and terminate such contract without further order.
13. **HIPAA BUSINESS ASSOCIATE ADDENDUM:** The West Virginia State Government HIPAA Business Associate Addendum (BAA), approved by the Attorney General, is available online at [www.state.wv.us/admin/purchase/vrc/hipaa.htm](http://www.state.wv.us/admin/purchase/vrc/hipaa.htm) and is hereby made part of the agreement. Provided that the Agency meets the definition of a Cover Entity (45 CFR §160.103) and will be disclosing Protected Health Information (45 CFR §160.103) to the vendor.
14. **CONFIDENTIALITY:** The vendor agrees that he or she will not disclose to anyone, directly or indirectly, any such personally identifiable information or other confidential information gained from the agency, unless the individual who is the subject of the information consents to the disclosure in writing or the disclosure is made pursuant to the agency's policies, procedures, and rules. Vendor further agrees to comply with the Confidentiality Policies and Information Security Accountability Requirements, set forth in <http://www.state.wv.us/admin/purchase/privacy/noticeConfidentiality.pdf>.
15. **LICENSING:** Vendors must be licensed and in good standing in accordance with any and all state and local laws and requirements by any state or local agency of West Virginia, including, but not limited to, the West Virginia Secretary of State's Office, the West Virginia Tax Department, and the West Virginia Insurance Commission. The vendor must provide all necessary releases to obtain information to enable the director or spending unit to verify that the vendor is licensed and in good standing with the above entities.
16. **ANTITRUST:** In submitting a bid to any agency for the State of West Virginia, the bidder offers and agrees that if the bid is accepted the bidder will convey, sell, assign or transfer to the State of West Virginia all rights, title and interest in and to all causes of action it may now or hereafter acquire under the antitrust laws of the United States and the State of West Virginia for price fixing and/or unreasonable restraints of trade relating to the particular commodities or services purchased or acquired by the State of West Virginia. Such assignment shall be made and become effective at the time the purchasing agency tenders the initial payment to the bidder.

I certify that this bid is made without prior understanding, agreement, or connection with any corporation, firm, limited liability company, partnership, or person or entity submitting a bid for the same material, supplies, equipment or services and is in all respects fair and without collusion or Fraud. I further certify that I am authorized to sign the certification on behalf of the bidder or this bid.

**INSTRUCTIONS TO BIDDERS**

1. Use the quotation forms provided by the Purchasing Division. Complete all sections of the quotation form.
2. Items offered must be in compliance with the specifications. Any deviation from the specifications must be clearly indicated by the bidder. Alternates offered by the bidder as **EQUAL** to the specifications must be clearly defined. A bidder offering an alternate should attach complete specifications and literature to the bid. The Purchasing Division may waive minor deviations to specifications.
3. Unit prices shall prevail in case of discrepancy. All quotations are considered F.O.B. destination unless alternate shipping terms are clearly identified in the quotation.
4. All quotations must be delivered by the bidder to the office listed below prior to the date and time of the bid opening. Failure of the bidder to deliver the quotations on time will result in bid disqualifications: Department of Administration, Purchasing Division, 2019 Washington Street East, P.O. Box 50130, Charleston, WV 25305-0130
5. Communication during the solicitation, bid, evaluation or award periods, except through the Purchasing Division, is strictly prohibited (W.Va. C.S.R. §148-1-6.6).

## REQUEST FOR QUOTATION

**Lab Supplies Specifications****LABSUP11****I. PURPOSE AND SCOPE:**

The West Virginia Department of Administration, Purchasing Division, is soliciting bids to establish a statewide contract for lab supplies. The Contract awarded from this RFQ shall cover Eligible Items from Vendor's Catalogue of lab supplies for all types of research and clinical laboratories. The Contract may be utilized by West Virginia State agencies and all political subdivisions of the State in all 55 counties.

**II. DEFINITIONS:**

The terms listed below shall have the meanings assigned to them as follows:

1. "Agency" or "Agencies" means any public entity seeking to procure Eligible Items under this Contract.
2. "Catalogue" means the price list or sales catalogue that includes all items that Vendor intends to sell under this Contract.
3. "Contract" means the binding agreement that is entered into between the Purchasing Division and the Vendor to provide the Eligible Items as specified herein.
4. "Discounted Unit Price" means the price of an Eligible Item purchased under this Contract. The Discounted Unit Price is calculated by reducing the lowest Catalogue price for an Eligible Item by the discount percentage quoted by Vendor on the Pricing Page.
5. "Eligible Item" means any lab supply item, other than gloves which are specifically excluded from this Contract, included in the Catalogue that will cost the State of West Virginia \$1,000 or less per item once the discount percentage has been applied. Examples of Eligible Items include glassware, plastic ware, chemicals, measuring devices, etc.
6. "Pricing Pages" means the schedule of prices, discount percentage, estimated usage, and totals attached hereto as Exhibit A and used to evaluate the RFQ.
7. "Purchasing Division" means the West Virginia Department of Administration, Purchasing Division.
8. "RFQ" means the official RFQ published by the Purchasing Division and identified as LABSUP11.

## REQUEST FOR QUOTATION

**Lab Supplies Specifications****LABSUP11**

9. "State" means the State of West Virginia and/or any of its agencies, commissions, boards, etc.
10. "Vendor" or "Vendors" means the successful bidder(s).

**III. CONTRACT AWARD, PERCENTAGE DISCOUNT, CATALOGUE**

1. **Contract Award:** The Contract is intended to provide Agencies with a discounted price on all Eligible Items. The Contract shall be awarded to the Vendor that provides the lowest overall total cost for the items listed on the Pricing Page based on the Catalogue price of those items and the single percentage discount applied.
2. **Percentage Discount:** Vendor shall quote a single percentage discount that will reduce the lowest price shown in the Catalogue for every Eligible Item. The resulting Discounted Unit Price shall be the price Agencies pay for purchases of Eligible Items under this Contract. The Purchasing Division reserves the right to reject any or all bids if the discount percentage quoted is not sufficient to justify, in its sole discretion, a statewide contract.
3. **Pricing Pages:** Vendor should complete the Pricing Pages by inserting Catalogue prices, the discount percentage, Discounted Unit Prices, totals, and all other information requested thereon. Vendor should complete all columns as failure to complete the Pricing Pages in their entirety may result in Vendor's bids being disqualified.

The Pricing Pages contain a list of the most frequently purchased items and estimated purchase volume. The estimated purchase volume for each item represents the approximate volume of anticipated purchases only. No future use of the Contract or any individual item is guaranteed or implied.

The Discounted Unit Price Vendor lists in the Pricing Pages must be the final price that will be charged to an Agency. Notwithstanding the foregoing, the Purchasing Division may correct errors as described herein. Vendor should type or electronically enter the information into the Pricing Pages to prevent errors in the evaluation. The Pricing Pages were created as a Microsoft Excel document and Vendor can request an electronic copy for bid purposes by sending an email request to the following address: [paul.reynolds@wv.gov](mailto:paul.reynolds@wv.gov).

## REQUEST FOR QUOTATION

**Lab Supplies Specifications****LABSUP11**

- 4. Catalogue:** Vendor must submit its Catalogues prior to award of this Contract for evaluation purposes. Vendor shall also mail the Catalogue free of charge to any Agency desiring to use this contract. Copies of the Catalogue may be requested in an electronic format and should be provided in that format if possible. Vendor's Catalogue will be used by Agencies to order Eligible Items under this Contract.

Vendor should identify all items listed on the Pricing Pages by circling or highlighting those items in its Catalogue and earmarking or tabbing the pages for those items, to assist in the evaluation and verification of the bids and pricing. If any discrepancies exist between the Pricing Pages and the actual price listed in the Catalogue, the actual price shall prevail and the Pricing Pages may be corrected by the buyer for evaluation purposes.

The Catalogue may be updated at renewal, but any such renewal must be approved by the Purchasing Division at its sole discretion. Unless an updated catalogue is approved, the Eligible Items available under this Contract and prices for those items shall remain unchanged during the term of this Contract.

**IV. ORDERING AND PAYMENT**

- 1. Ordering:** Vendor shall accept orders by regular mail, facsimile, e-mail, or any other written forms of communication. Vendor may, but is not required to, accept on-line orders through a secure internet ordering portal/website. If Vendor has the ability to accept on-line orders, it should include in its response a brief description of how Agencies may utilize the on-line ordering system. Any on-line ordering system must have the capability to restrict prices and available items to conform to the Catalogue originally submitted with this RFQ. Vendor shall ensure that its on-line ordering system is properly secured prior to processing Agency orders on-line. Each West Virginia Agency may establish an online account at [www.vwr.com](http://www.vwr.com) that has the capability required.
- 2. Payment:** Vendor shall accept payment in accordance with the payment procedures of the State of West Virginia. Methods of acceptable payment must include the West Virginia Purchasing Card.

## REQUEST FOR QUOTATION

**Lab Supplies Specifications****LABSUP11****V. DELIVERY AND RETURN**

1. **Delivery Time:** Vendor shall deliver standard orders within five (5) working days after orders are received. Vendor shall deliver emergency orders within one (1) working day after orders are received. Vendor shall ship all orders in accordance with the above schedule and shall not hold orders until a minimum delivery quantity is met.
2. **Late Delivery:** The Agency placing the order under this Contract must be notified in writing if orders will be delayed for any reason. Any delay in delivery that could cause harm to an Agency will be grounds for:

- (a) cancellation of the delayed order, and
- (b) obtaining the items ordered from a third party.

Any Agency seeking to obtain items from a third party under this provision must first obtain approval of the Purchasing Division, if applicable.

3. **Delivery Payment/Risk of Loss:** Standard order delivery shall be F.O.B. destination to the Agency's location. Vendor shall include the cost of standard order delivery charges in its bid pricing/discount and is not permitted to charge the Agency separately for such delivery. The Agency will pay delivery charges on all emergency orders provided that Vendor invoices those delivery costs as a separate charge with the original freight bill attached to the invoice.
4. **Return of Unacceptable Items:** Items that Agency deems unacceptable shall be returned to Vendor at Vendor's expense and with no restocking charge. Vendor shall either make arrangements for the return within five (5) days of being notified that items are unacceptable, or permit the Agency to arrange for the return and reimburse Agency for delivery expenses. If the original packaging cannot be utilized for the return, Vendor will supply the Agency with appropriate return packaging upon request. All returns of unacceptable items shall be F.O.B. the Agency's location. The returned product shall either be replaced with acceptable equipment or supplies, or the Agency shall receive a full credit or refund for the purchase price, at the Agency's discretion.
5. **Return Due to Agency Error:** Items ordered in error by the Agency will be returned for credit within 30 days of receipt, F.O.B. Vendor's location. Vendor shall not charge a restocking fee if returned products are in a resalable condition. Items shall be deemed to be in a resalable condition if they are unused and in the original packaging. Any restocking fee for items not in a resalable condition shall be the lower of the Vendor's customary restocking fee or 5% of the total invoiced value of the returned items.

## REQUEST FOR QUOTATION

**Lab Supplies Specifications****LABSUP11****VI. MISCELLANIOUS**

1. **No Substitutions:** Vendor shall supply only Eligible Items contained in its Catalogue submitted in response to the RFQ or an updated Catalogue approved by the Purchasing Division as described above. Vendor shall not supply substitute items.
2. **Vendor Supply:** Vendor must carry sufficient inventory of the Eligible Items being offered to fulfill its obligations under this Contract. By signing its bid, Vendor certifies that it can supply the Eligible Items contained in its bid response.
3. **Reports:** Vendor shall provide quarterly reports and annual summaries to the Purchasing Division showing items purchased, quantities of items purchased, total dollar value of the items purchased and Agencies (including political subdivisions) which have used this Contract. Vendor shall also provide reports, upon request, showing the items purchased during the term of this Contract, the quantity purchased for each of those items, and the total value of purchases for each of those items. Failure to supply such reports may be grounds for cancellation of this Contract.
4. **Contract Manager:** During its performance of this Contract, Vendor must designate and maintain a primary contract manager responsible for overseeing Vendor's responsibilities under this Contract. The Contract manager must be available during normal business hours to address any customer service or other issues related to this Contract.
5. **Mandatory Requirements:** The terms "must", "will", "shall", "minimum" "maximum" or "is/are" required" identify a mandatory item or factor. Decisions regarding compliance with any mandatory requirements shall be at the sole discretion of the State. Failure on the part of the Vendor to meet any of the mandatory specifications shall result in the possible disqualification of the bid.

State of West Virginia

**VENDOR PREFERENCE CERTIFICATE**

Certification and application\* is hereby made for Preference in accordance with *West Virginia Code*, §5A-3-37. (Does not apply to construction contracts). *West Virginia Code*, §5A-3-37, provides an opportunity for qualifying vendors to request (at the time of bid) preference for their residency status. Such preference is an evaluation method only and will be applied only to the cost bid in accordance with the *West Virginia Code*. This certificate for application is to be used to request such preference. The Purchasing Division will make the determination of the Resident Vendor Preference, if applicable.

- 1. **Application is made for 2.5% resident vendor preference for the reason checked:**  
 Bidder is an individual resident vendor and has resided continuously in West Virginia for four (4) years immediately preceding the date of this certification; **or,**  
 Bidder is a partnership, association or corporation resident vendor and has maintained its headquarters or principal place of business continuously in West Virginia for four (4) years immediately preceding the date of this certification; **or** 80% of the ownership interest of Bidder is held by another individual, partnership, association or corporation resident vendor who has maintained its headquarters or principal place of business continuously in West Virginia for four (4) years immediately preceding the date of this certification; **or,**  
 Bidder is a nonresident vendor which has an affiliate or subsidiary which employs a minimum of one hundred state residents and which has maintained its headquarters or principal place of business within West Virginia continuously for the four (4) years immediately preceding the date of this certification; **or,**
- 2. **Application is made for 2.5% resident vendor preference for the reason checked:**  
 Bidder is a resident vendor who certifies that, during the life of the contract, on average at least 75% of the employees working on the project being bid are residents of West Virginia who have resided in the state continuously for the two years immediately preceding submission of this bid; **or,**
- 3. **Application is made for 2.5% resident vendor preference for the reason checked:**  
 Bidder is a nonresident vendor employing a minimum of one hundred state residents or is a nonresident vendor with an affiliate or subsidiary which maintains its headquarters or principal place of business within West Virginia employing a minimum of one hundred state residents who certifies that, during the life of the contract, on average at least 75% of the employees or Bidder's affiliate's or subsidiary's employees are residents of West Virginia who have resided in the state continuously for the two years immediately preceding submission of this bid; **or,**
- 4. **Application is made for 5% resident vendor preference for the reason checked:**  
 Bidder meets either the requirement of both subdivisions (1) and (2) or subdivision (1) and (3) as stated above; **or,**
- 5. **Application is made for 3.5% resident vendor preference who is a veteran for the reason checked:**  
 Bidder is an individual resident vendor who is a veteran of the United States armed forces, the reserves or the National Guard and has resided in West Virginia continuously for the four years immediately preceding the date on which the bid is submitted; **or,**
- 6. **Application is made for 3.5% resident vendor preference who is a veteran for the reason checked:**  
 Bidder is a resident vendor who is a veteran of the United States armed forces, the reserves or the National Guard, if, for purposes of producing or distributing the commodities or completing the project which is the subject of the vendor's bid and continuously over the entire term of the project, on average at least seventy-five percent of the vendor's employees are residents of West Virginia who have resided in the state continuously for the two immediately preceding years.

Bidder understands if the Secretary of Revenue determines that a Bidder receiving preference has failed to continue to meet the requirements for such preference, the Secretary may order the Director of Purchasing to: (a) reject the bid; or (b) assess a penalty against such Bidder in an amount not to exceed 5% of the bid amount and that such penalty will be paid to the contracting agency or deducted from any unpaid balance on the contract or purchase order.

By submission of this certificate, Bidder agrees to disclose any reasonably requested information to the Purchasing Division and authorizes the Department of Revenue to disclose to the Director of Purchasing appropriate information verifying that Bidder has paid the required business taxes, provided that such information does not contain the amounts of taxes paid nor any other information deemed by the Tax Commissioner to be confidential.

**Under penalty of law for false swearing (West Virginia Code, §61-5-3), Bidder hereby certifies that this certificate is true and accurate in all respects; and that if a contract is issued to Bidder and if anything contained within this certificate changes during the term of the contract, Bidder will notify the Purchasing Division in writing immediately.**

## VWR® Lead-Free Autoclave Tape, Direct Contact

Supplier: VWR International

- ▶ Lead Free
- ▶ Latex Free
- ▶ Direct Contact with Substrates

Autoclave tape is used as a process indicator in steam sterilizers. It is very well suited for the research environment. It can be adhered directly to substrates during the sterilization process. It features an aggressive, pressure-sensitive adhesive designed to adhere directly to substrates during the sterilization process. After the sterilization process, the tape is designed to remove easily and cleanly.

Tape also features a chemical indicator to verify successful sterilization. The word "AUTOCLAVED" appears in black on tape after 10 minutes at 121°C or 2 minutes at 134°C in a steam sterilizer.

## VWR® Autoclavable Polypropylene Biohazard Bags, 2 mil

Supplier: VWR International

These 2mil polypropylene bags meet the 480g tear test in both directions, performed per ASTM D1299-94A. Ideal hazardous waste collection and decontamination bag for handling and autoclaving of contaminated matter. Formulated to withstand stress at the side seams; strong enough to hold items in the laboratory. Printed bags are clearly labeled with proper biohazard warnings and have a temperature indicator patch. All bags are autoclavable to 135°C (275°F).

Bags meet all state requirements for hazardous waste handling, including Florida and Pennsylvania Department of Health codes.

**Ordering Information:** Supplied with 12.7cm (5") twist ties.

VWR Catalog > [Electrochemical Meters](#) > [Conductivity Meters](#) > VWR® Portable Conductivity Meter, Model 2052

[Print Page](#) [Email Page](#)

## VWR® Portable Conductivity Meter, Model 2052

Supplier: Amber Science

▶ VWR One-Year Limited Warranty

The Model 2052 is a portable, digital display conductivity instrument with three modes of operation: two for measurement of solution conductivity with a full scale from 0 to 200 millimhos, and one for self-check. The self-check mode provides verification of proper operation, the ability to adjust for cell constant variations and Total Dissolved Solids (TDS) scale factor. The conductivity and TDS measurement data is displayed on a 3<sup>1</sup>/<sub>2</sub> digit, LCD display with a floating decimal.

The function switch selects power off, Automatic Temperature Compensation (ATC) on, off, or self-check modes. ATC is set at 2% per °C at 25°C with reference at 25°C. Self-check (cell constant adjust) span is from 40% to 110% of nominal to allow cell constant correction and TDS scale factors to be easily set. Cell drive is a low amplitude sine wave, rectification is synchronous.

**Ordering Information:** Meter comes with 9V alkaline battery, 473mL (1pt.) 718 micromho standard solution and manual. Meter does not include probe. Lab kit includes two-piece stand with pole, cell holder, and AC adapter. Cell connector comes with 1m (3'3") cable.

**Services:** VWR CATALYST offers validation services including IQ, OQ, and PQ protocol development and execution, as well as asset management and calibration services (US only); call 888-793-2300 for more details.

### VWR® Big Digit Four-Alert Alarm Thermometer

Supplier: VWR International

**RELATED INFORMATION**

VWR Digital Laboratory Products Catalog

- ▶ Traceable®
- ▶ Reads Probe or Ambient Temperature

Easy-to-read digital unit provides accurate monitoring of the slightest temperature changes. Large, 2.9cm (1 1/8") high LCD readout. Audible alarm sounds at high/low temperature settings, between two settings and outside two settings. Green/red lights and alarm activates when out-of-range condition is detected. Alarm resets when temperature returns to "in-range" condition.

Sensor has a 0.5cm (0.2") diameter with a 106.7cm (3 3/2") long cable. Shock and chemical-resistant ABS plastic case measures 10.2x10.2x1.6cm (4x4x5/8"). Temperature range: -50 to 70°C or -58 to 158°F. Resolution: 0.1°. Accuracy: ±1°C.

A serial numbered certificate is provided from an ISO 17025 calibration laboratory accredited by A2LA to indicate instrument traceability to standards provided by the National Institute of Standards and Technology.

**Ordering Information:** Supplied with a suction cup for mounting sensor and AAA alkaline battery.

## VWR® Laboratory Bottles, Low-Density Polyethylene, Wide Mouth

Supplier: VWR International

- ▶ Ideal for Shipping Liquids and for Trace Metal Analysis
- ▶ Impact Resistant
- ▶ Leakproof
- ▶ Easy-to-Pour Wide Mouth Design

Translucent, flexible bottles are for general laboratory use, and are especially good for shipping liquids and for trace metal analysis. Can be stored in freezer to -100°C (-148°F). Offer better visibility of contents than high-density polyethylene bottles, plus excellent chemical resistance to alcohols, alkalis, and both diluted and concentrated acids. Thick walls afford durability, yet bottles are still squeezable. Shrink ring at neck ensures smooth interior so that contents pour fluidly, while sealing ring and semi-buttressed threads in closure ensure leak prevention. Bottles are produced via the injection blow molding process for exact features and bottle stability.

Ordering Information: Polypropylene caps included.

### Certificate of Analysis

Buffer, Reference Standard, pH 7.00 ± 0.01 at 25°C

Lot Number: Representative Lot Product Number: BDH5052

The certified value for this product is confirmed in independent testing by a second qualified chemist.

**Contains:**

Name	CAS#	Grade
Potassium Phosphate, Monobasic	7778-77-0	ACS
Preservative (No Mercury compounds or Formaldehyde)	Proprietary	Commercial Grade
Sodium Phosphate, Dibasic	7558-79-4	ACS
Water, Deionized	7732-18-5	ACS, ASTM D 1193 (Type I), EP, USP

Test Name	Assay Method	Specification	Result
Appearance	Clarity, Color, Odor	Clear, colorless, odorless	Passed Test
pH at 25 °C (traceable to NIST SRM 186 & 191)	pH determination	7.00 ± 0.01 pH at 25.0 °C	Passed Test

Volumetric glassware complies with Class A tolerance requirements of ASTM E 288 and NIST Circular 434; it is calibrated before first use and recalibrated regularly in accordance with ASTM E 542 and NIST Procedure NBSIR 74-461. Balances are calibrated regularly with weights certified traceable to the NIST national mass standard. Thermometers and temperature probes are calibrated before first use and recalibrated regularly with a thermometer traceable to NIST standards. All products are prepared according to master documents that assure manufacture according to validated methods. Batch records document raw material traceability and production and testing history for each lot manufactured.

Shelf Life (unopened container):

Part Number	Shelf Life
BDH5052-16	24 months

Recommended Storage: 15°C - 30°C (59°F - 86°F)

**VWR® Carboys with Versatile Caps**

Supplier: VWR International

- ▶ Innovative Shape Maximizes Bench and Shelf Space
- ▶ Versatile Adapters and Replaceable Gasket for Excellent Application Adaptability
- ▶ Body Design Aids In Maximum Solution Recovery

VWR Carboys are designed to provide users with a highly versatile container that maximizes storage efficiency and ease-of-use. The unique design features a rounded front and back, with flat sides for efficient storage. Large easy-to-grip external handles on the top of the container combine with integrated bottom handles to provide a full secure grip and easier handling, filling, and pouring. The versatile, leak-proof polypropylene caps offer the ultimate in connection flexibility. A replaceable gasket allows users to change the top connector quickly to match specific application requirements. A lower spigot near the base of the carboy facilitates maximum recovery of container contents, eliminating waste. Spigots are equipped with a tubing adapter that allows 360° rotation.

Carboys are available in HDPE and polypropylene, offering excellent chemical resistance and compliance with FDA requirements for food use. Large, clear graduation marks are provided in metric and English. Non-vented replacement caps and spigots are constructed of white polypropylene and are autoclavable at 121° C (250° F) for fifteen minutes. On specified models, a wide-mouth design allows for easy filling and cleaning. Carboys are white with blue caps and fixtures.

**Ordering Information:** Carboys are supplied with a closed cap; open caps are sold separately.

## BRAND Disposable Plastic Cuvettes, Acrylic and Polystyrene, BrandTech

Supplier: Brandtech

Disposable cuvettes are constructed of high-quality polymethyl methacrylate (PMMA or "acrylic") or polystyrene (PS), and are excellent for most spectrophotometry applications in the visible range. They provide accurate, reliable results and are available in macro and semi-macro sizes to accommodate most sample volumes. Cuvettes are compatible with most spectrophotometers and photometers.

Acrylic cuvettes are suitable for assays between 300nm and 900nm. Choose polystyrene cuvettes for routine assays between 340nm and 900nm.

Cuvettes include an arrow mark to indicate direction of transmission and reduce variation. They are grouped by manufacturing mold cavity number to ensure the lowest variation in extinction coefficient, and are packaged in low dust, low scratch material.

**Ordering Information:** For disposable cuvettes for wavelengths below 300nm, see **47743-834** series.

### ORDER

Description	Material	Volume Range	Supplier No.	Cat. No.	Unit	Price	Quantity

[Email Page](#)

## Cheesecloth Wipes, Fiberweb

Supplier: BBA

These cheesecloth wipes have an ideal absorbent surface for applying a uniform, thin film of gum arabic to an offset plate. Gum arabic, an acidic water-soluble gum from the acacia tree, adheres to the metal surface or plate and protects the non-image areas from oxidation, scratches, grease, and dirt. These cheesecloth wipes are excellent for buffing gummed plates to a dry, smooth, and streak-free finish with no linting or residue. They properly desensitize plates to ensure the best possible performance.

The wipes also prevent scratching or scuffing of the image area. They allow for quick roll up and increased water receptivity in the non-image areas, reducing scumming and halftone plugging and requiring less water, particularly at startup.

Economy-cut rolls 21910-118, -121 have 120 4-ply pieces per roll. Handi-fold bolts 21910-127, -124, and -130 are continuous Z-folded stacks with approximately 45.7cm (18") between each fold.

## VWR® SuperClear™ Microcentrifuge Tubes, Polypropylene

Supplier: VWR International

### RELATED INFORMATION

[VWR\\_Disposable\\_Plastics\\_Catalog](#)

- ▶ Side Labeling Surface
- ▶ Cap Will Not Open During Boiling
- ▶ RNase-, DNase-, and Endotoxin-Free

SuperClear tubes are made from an ultra-clear polypropylene resin that provides a clear view of the pellet as well as correct color rendition. Tubes with caps feature a GateFree™ design for a strong, smooth tube bottom that eliminates the risk of snagging gloves or irritating fingers. Caps are flat, pierceable, frosted, and will not open when the tube is boiled or autoclaved. The caps have smooth surfaces and an ergonomic design to reduce the occurrence of repetitive strain injuries from opening and closing. Tubes fit most common rotors. Autoclavable at 122°C (252°F). Freezable to -90°C (-130°F).

Note: Because the 1.7mL tubes have a cap designed to stay closed for boiling, they should not be used for vortexing. (See **20170-038** series for tubes appropriate for vortexing.)

**Ordering Information:** Rainbow packs **20170-306** and **20170-369** consist of individual bags of yellow, orange, red, blue, and green tubes. Assorted pack **20170-602** contains an assortment of yellow, orange, red, blue, and green tubes in a single bag.

## VWR® Traceable® Conductivity Calibration Standards (CRM)

Supplier: VWR International

RELATED INFORMATION  
[VWR Digital Laboratory Products Catalog](#)

- ▶ Traceable
- ▶ Available in 473 mL (16oz.) or Single-Use (100 mL) Sizes

These Certified Reference Materials (CRM) calibrate conductivity meters and probes for maximum accuracy. They are compatible with all makes of equipment, and can be used in lab or field. Accuracy at 25°C is ±0.25µmhos for 1, 5, and 10µmhos solutions, and 0.25% for all other solutions; or the uncertainty shown on the certificate, whichever is greater. Each container is labeled for calibrating conductivity in micromhos (microsiemens), resistivity in megohms, and dissolved solids in ppm. Available in 473mL (16oz.) bottles or 100mL (3.4oz.) single-use polyethylene bottles.

Single-use standards make it easy to calibrate with no external contamination. An extra large opening of 4.4cm (1<sup>3</sup>/<sub>4</sub>" diameter and depth of 8.9cm (3<sup>1</sup>/<sub>2</sub>" allow probe calibration to take place in the standard's polyethylene container. Ideal for lab/field conditions.

All solutions include a serial numbered Traceable certificate to indicate traceability to standards provided by the National Institute of Standards and Technology (NIST). Double A2LA accreditation accredited certification provides the highest achievable level of quality assurance, documentation, and accuracy. CRMs are produced by A2LA accredited ISO Guide 34 certified reference material producer and by an A2LA accredited ISO 17025 calibration laboratory. Additional accreditations include ISO 31 (certificate content), and ISO 35 (statistical analysis), plus ISO 9001 DNV (certified quality manufacturer).

Meet test requirements for Federal, State, and local agencies, CAP, CLSI, ACS, CLIA and complies with AOAC 973.40, EPA 120.1, Standard Method 2510 (APHA, AWWA, WEF), ISO 7888, DIN 38404, ASTM D1125, USGS 1-1780, USP 645, OIML R56, IUPAC, and for A2LA/NVLAP accreditations/ISO 9000 certifications.

**Ordering Information:** Assortment 61161-356 includes one bottle each of the single-use standards, except the 5µmhos solution (12777-832). All containers supplied with individual temperature compensation chart, calibration instructions, traceability information and Traceable® certificate.

## Disinfecting Solution and Towelettes, Sporidicid\*

Supplier: Contec

FDA and EPA registered for 100% kill of all pathogenic vegetative organisms for disinfection of industrial and hospital equipment, instruments, and environmental surfaces. The solution effectively fogs cleanrooms (EPA Fogging Bulletin #301). Approved to clean, deodorize, disinfect, and provide "continuous residual activity for up to six months" (EPA Reg. #8383-3). Alcohol-free.

Compliant with FDA, EPA, and OSHA Bloodborne Pathogens Standard. Meets AOAC standards for hospital level disinfection.

**Ordering Information:** Available in gallon bottle and towelettes. Towelettes are offered individually wrapped or in convenient canister dispensers of 180 towelettes each.

## VWR® Big-Digit Thermometer with Dual Minimum/Maximum Memory

Supplier: VWR International

### RELATED INFORMATION

[VWR Digital Laboratory Products Catalog](#)

Traceable®

Dual display allows for reading ambient and probe temperature simultaneously. Minimum and maximum memory feature permits monitoring conditions overnight, during weekends, or over any time period. °F or °C selectable. Jumbo 2.9cm (1 1/8") digits are readable from 7.6m (25'). Ambient sensor is inside the unit. External temperature probe performs accurately, even under water. "Always on" unit requires no adjustment or maintenance. Case is made of high-impact ABS plastic.

A serial numbered certificate is provided from an ISO 17025 calibration laboratory accredited by A2LA to indicate instrument traceability to standards provided by the National Institute of Standards and Technology.

**Ordering Information:** Supplied with probe and 3m (10') cable, flip-open stand for the lab bench, slot for wall mounting, Velcro® to attach to any surface, a wire mounting bracket for easy storage of probe, and AAA battery for continuous one-year use.

## Nalgene® MF75\* Sterilization Filter Units, Cellulose Nitrate Membrane, Thermo Scientific

Supplier: Thermo Scientific

For easy, fast, sterile filtration of 115–1000mL volumes. Instantly ready for biological filtration, cold sterilization, or cleanup of particulated solutions or buffers. Components separate easily for pouring. No need to transfer sterile filtrate to another container. Nalgene 1½-turn threaded screw closure guarantees leakproof seal and eliminates pH shift in receivers (except for 115mL size). Receiver can be used to store filtrate. Graduations on uppers and receivers. Filter cup is printed with catalog number, lot number, membrane type, pore size, and expiration date. Nontoxic, triton-free. Preassembled and radiation sterilized.

Note: For laboratory use only. Not for in vitro diagnosis or parenterals.

Ordering Information: Units with 500 and 1000mL receivers include 12 glass fiber prefilters.

**PYREX\* Volumetric Flasks, Student-Grade, [ST] Stopper, Corning\***

Supplier: Corning

Student-grade, economy flasks are designed for use in schools, where the precision and accuracy of Class A capacity flasks is not required. Capacity tolerances are twice those specified for Class A volumetric ware. Graduation line is sharp and permanent. With interchangeable [ST] ground glass stoppers.

### VWR® DeciGuard AB® Earplugs

Supplier: VWR International

- ▶ Inhibit Bacteria Growth on the Earplug
- ▶ Provide Excellent Wearer Protection
- ▶ Expand to Fit Ear Canal
- ▶ One Size Fits All

Featuring Microban® antimicrobial protection, DeciGuard AB earplugs help control bacteria growth. Re-engineered PVC formula results in higher density foam construction with improved cell structure. Workers benefit from better ear canal fit and excellent noise reduction.

DeciGuard AB earplugs are lightweight, nontoxic, and nonirritating. They are disposable and are packaged one pair per cellophane pouch to eliminate contamination from dust and dirt.

## Dehydrated Media—Heart Infusion Broth to M 17 Broth, BD Diagnostics

Supplier: BD

An extensive collection of dehydrated media for use in food, beverage, dairy, water, and wastewater microbiological testing, as well as cosmetics and pharmaceutical industry testing. These agars, enrichments, and inhibitors reflect the highest production standards, from the careful selection of raw materials to rigorous quality control in manufacturing processes and batch preparation.

## VWR® Infrared Thermometer Guns with Laser Sighting

Supplier: VWR International

### RELATED INFORMATION

[VWR Digital Laboratory Products Catalog](#)

▶ [Traceable®](#)

Thermometer guns are ideal for food preparation, pharmaceuticals, field use, electronics, and safety inspection. Guns take instant (<1 second) temperature readings of any surface. Unique design permits one-handed "point-and-shoot" readings. Laser-sighting beam permits precise target surface aim. Features include backlighting, data hold (freezes display reading), low-battery indicator, and °C/°F buttons. The field of view is 50:1, indicating that the gun can read a spot size of 15.2cm (6") from 7.6m (25') away.

Guns are available with fixed emissivity at 0.95 or adjustable emissivity from 0.10–1.00 in 0.01 steps. The adjustable emissivity gun (36934-182) features high/low alarms and memory for minimum, maximum, and average readings.

A serial-numbered certificate is provided from an ISO 17025 calibration laboratory accredited by A2LA to indicate traceability to standards provided by the National Institute of Standards and Technology.

**Ordering Information:** Supplied with 9V battery.

[Email Page](#)

## VWR® General-Purpose Laboratory Labeling Tape

Supplier: VWR International

A wide assortment of vinyl-coated, soft satin-finish paper tape that sticks to virtually any surface. It can be written on with pencil, fiber-tip or ball point pen, and lab markers. This durable, self-adhesive tape is ideal for general laboratory use, and is excellent for applications in refrigeration. It can withstand temperatures from -23 to 121°C (-10 to 250°F) and has an application temperature as low as 0°C (32°F). The adhesive backing will peel off easily and leaves no residue.

Available in 2 roll sizes. Rainbow packs contain blue, green, orange, pink, red, yellow, and white tape.

## VWR® Antistatic Polystyrene Weigh Boats

Supplier: VWR International

Safe, economical containers are designed for weighing liquid or powdered samples in the laboratory. The smooth polystyrene construction features accurate pour-outs to ensure minimal sample loss. An antistat treatment is embedded into the plastic during the manufacturing process. The treatment will not rub off or dissipate, and facilitates the weighing of static-affected samples.

These versatile and durable weigh boats can also be used as quick freeze trays for sample material, discard trays for broken ampules, or mixing trays for small batches.

## VWR® Lollipop™ Thermometers

Supplier: VWR International

- ▶ Traceable®
- ▶ Easy-to-Read Design
- ▶ Waterproof and Shockproof
- ▶ Reads °C or °F

This thermometer features an easy-to-read "HeadsUp" view. The thermometer's waterproof construction is ideal for wet labs, wash-down areas, and field applications. The unit is shockproof in drop tests up to 1.5m (5'). Reading updates every second. Highest and lowest temperature readings over any time period can be retrieved via button recall.

A serial numbered certificate is provided from an ISO 17025 calibration laboratory accredited by A2LA to indicate instrument traceability to standards provided by the National Institute of Standards and Technology.

**Ordering Information:** Supplied with stainless steel probe and silver-oxide battery.

Methyl purple indicator	TAPPI	T 632 cm-84
Methyl Purple Indicator Solution	ASTM	D 3228
Methyl Purple Indicator	ASTM	D 1266

Volumetric glassware complies with Class A tolerance requirements of ASTM E 288 and NIST Circular 434; it is calibrated before first use and recalibrated regularly in accordance with ASTM E 542 and NIST Procedure NBSIR 74-461. Balances are calibrated regularly with weights certified traceable to the NIST national mass standard. Thermometers and temperature probes are calibrated before first use and recalibrated regularly with a thermometer traceable to NIST standards. All products are prepared according to master documents that assure manufacture according to validated methods. Batch records document raw material traceability and production and testing history for each lot manufactured.

#### Shelf Life (unopened container):

Part Number	Shelf Life
5040-4	18 months
5040-32	18 months
5040-5	18 months
5040-16	18 months

Recommended Storage: 15°C - 30°C (59°F - 86°F)

LaNelle Ohlhausen  
 Quality Assurance

This Certificate of Analysis is designed to comply with ISO Guide 31 "Reference Materials – Contents of Certificates and Labels."

VWR Catalog > Shakers and Mixers > Vortex Mixers > VWR® Vortex Mixers

Print Page Email Page

**VWR® Vortex Mixers**

Supplier: VWR-International

Designed for gentle shaking or vigorous vortexing of samples in a wide variety of applications. Use with flasks, beakers, tubes, and microwell plates. Constructed using a heavy base casting with corrosion-resistant enamel finish, units remain stable on work surfaces.

The fixed speed vortex mixers are one-touch units designed for high speed mixing for vigorous vortexing of samples at 3200rpm. Mixing starts when the head is pressed down.

The analog vortex mixers have a variable speed control from 100-3200rpm, which allows low rpm startup for gentle shaking or high-speed mixing for vigorous vortexing of samples. Units can be operated in touch mode when depressing the cup head or in a continuous mode. Models feature a three-way power switch and a speed knob with variable 1 to 10 dial marks.

UL and C-UL listed. CE marked.

**Ordering Information:** Accessory tube holders and microplate holders are available, to adapt vortex mixer for use with a variety of sample volumes; see 58816-130 series.

[VWR Catalog](#) > [Pipettes](#) > [Pasteur / Transfer Pipettes](#) > VWR® Disposable Pasteur Pipets, Borosilicate Glass, Short Tip

## VWR® Disposable Pasteur Pipets, Borosilicate Glass, Short Tip

Supplier: VWR International

Pasteur transfer pipets are excellent for use in all general laboratory applications, including blood banks, hematology, chemistry, and bacteriology. Smooth, fire-polished tops facilitate bulb attachment. Pipets have an inside diameter of 7mm, which tapers to a straight-cut tip. A positive constriction located 2.5cm (1") from the top of the pipet facilitates plugging. Controlled drop pipet (53283-916) delivers 22–26 drops per mL.

### Petri Dishes, 50mm, Sterile, Pall\* Life Sciences

Supplier: Pall Life Sciences

Polystyrene 50x9mm dishes are sterilized by gamma irradiation. Design allows easy, one-hand opening and provides tight seal to lock in humidity. Easy-stacking base. Accepts 47mm membrane filter. Dish 25388-640 comes with preloaded absorbent pad. Dishes 25388-606 and 25388-640 are packed in two plastic trays of 50 dishes with hinged, protective covers. Dish 25388-581 comes in a bulk pack divided into 20 resealable plastic sleeves of 25 units each.

VWR Catalog > Pipettes > Serological Pipettes > VWR® Disposable Serological Pipets, Polystyrene, Sterile, Plugged

Print Page Email Page

### VWR® Disposable Serological Pipets, Polystyrene, Sterile, Plugged

Supplier: VWR International

RELATED INFORMATION

VWR\_Disposable\_Serological\_Pipets\_Brochure

Polystyrene construction for sterile serological and tissue culture applications. Calibrated to deliver. Easy-to-read black ascending and descending graduations simplify fluid measuring and dispensing. All pipets feature negative graduations for extra working volume, and are color-coded for quick size identification. Accuracy is ±2% at full volume.

**Ordering Information:** Available in three packaging options: Individually wrapped in clear, easily recyclable, all-plastic polyethylene with pop-through opening for aseptic removal; individually wrapped in color-coded paper/plastic that reduces static cling; or bulk packed in polyethylene bags for high volume liquid handling applications.

### VWR® Pocket Thermometers

Supplier: VWR International

- ▶ Traceable®
- ▶ Read °C and °F
- ▶ Convenient Pocket Size

**RELATED INFORMATION**  
 ▶ [VWR Digital Laboratory Products Catalog](#)

Measure temperature in hard-to-reach areas or materials including: cuvettes, soil, incubators, test tubes, petroleum hydrocarbons, food products, and more. Safer than glass and mercury thermometers due to stainless steel and plastic construction. Built-in clip permits carrying in a shirt pocket. Large, bright LCD measures 6mm (3/16"). Readings are updated every second. Hold button freezes a reading for later observation; a second button switches from °C to °F.

A serial numbered certificate is provided from an ISO 17025 calibration laboratory accredited by A2LA to indicate instrument traceability to standards provided by the National Institute of Standards and Technology.

**Ordering Information:** Supplied with a one-year limited warranty. Complete with a protective case and an 18-month continuous use silver-oxide battery.

VWR Catalog > Pipettors > Single Channel Pipettes > VWR Signature™ Ergonomic High Performance Single-Channel Variable Volume Pipettors

[Print Page](#)

[Email Page](#)

## VWR Signature™ Ergonomic High Performance Single-Channel Variable Volume Pipettors

Supplier: VWR International

- ▶ Superior Accuracy and Precision for Critical Applications
- ▶ Significantly Reduced Plunger Forces
- ▶ Volume Ranges from 0.2 µL to 10 mL
- ▶ Fully Autoclavable

Pipettors provide superior accuracy and precision for repeatably reliable results. Innovative new ergonomic design features allow for consistently comfortable pipetting, even throughout extended use. An extended, curved finger rest allows the pipettor to be comfortably balanced on the index finger, and both plunger and volume adjustment forces have been significantly reduced to eliminate the strain of repetitive pipetting. Volume setting is continuously adjustable using either the micrometer wheel or dispenser button. A locking mechanism prevents accidental volume shift while the instrument is in use.

Pipettors are available with or without a tip ejector. To accommodate a wide variety of tips, the easy grip ejector system provides adjustment of the ejector height. The stainless steel construction of the ejector prevents corrosion and bending. A padded grip is fitted onto the top of the ejector arm for easy removal. The lower portion of the arm fits tightly around the pipettor shaft for access to the bottom of the narrowest tubes.

These lightweight, durable pipettors are fully autoclavable and supplied with a tool for in-lab calibration.

**Ordering Information:** Standard starter kit (89080-000) includes three pipettors (2–20µL, 20–200µL, and 100–1000µL), two racks of VWR Signature pipettor tips, and a three-position shelf clip. The micro starter kit (89080-002) includes three pipettors (0.2–2µL, 0.5–10µL, and 10–100µL), two racks of VWR Signature pipettor tips, and a three-position shelf clip. The promotional pack (89080-004) includes four pipettors with tip ejectors (0.5–10µL, 2–20µL, 20–200µL, and 100–1000µL), three racks of Axygen pipettor tips, and a six-position linear stand. Starter kits and accessory items are sold separately.

### VWR® Sharps Container Systems, Red

Supplier: VWR International

Sharps container systems provide solutions for the safe and effective containment and disposal of contaminated needles, syringes, and other sharps. Choose from three different systems in a variety of sizes.

The stackable sharps containers are puncture-resistant and autoclave- and incinerator-safe. They feature transparent, locking lids and needle removal ports. The tortuous path systems restrict hand entry.

The extended neck sharps containers feature a funneled vertical drop and extended handles. Puncture-resistant and autoclave- and incinerator-safe.

VWR Catalog > [Trays/Dishes](#) > [Weighing Dishes](#) > VWR® Hexagonal Antistatic Polystyrene Weighing Dishes

## VWR® Hexagonal Antistatic Polystyrene Weighing Dishes

Supplier: VWR International

A molded hexagonal design and the flexibility of polystyrene provide optimal balance protection and safety. Dishes are ideal for handling solids or liquids during weighing procedures. Easily bent into pouring spouts, dishes facilitate sample transfer and reduce the risk of spills. The superior manufacturing process embeds the antistat into the plastic, making the dishes nonreactive with most substances and suitable for weighing static-affected samples. Flat bottoms and sloping sides allow these disposable dishes to be easily stacked and conveniently stored.

## VWR® SoftCIDE® Extra-Mild Hand Soap

Supplier: Thermo Scientific

- ▶ Antimicrobial Strength
- ▶ Effective Against a Broad Spectrum of Microorganisms
- ▶ pH Balanced for Skin

Unique formulation helps replenish skin's natural oils that are rinsed away by frequent washing. Soap has antimicrobial strength but is extra mild on hands. Contains 1% chloroxylenol (PCMX), a fast-acting, broad spectrum antimicrobial ingredient that is effective against gram-negative and gram-positive bacteria as well as yeast.

## VWR® Fine-Pore Cellulose Sponges

Supplier: Industrial Commercial Supply

Convenient for the quick laboratory wipe-up. These fine pore natural color cellulose sponges hold about 25 times their own weight in water. Durable. Resist tearing and abrasion. Absorb liquid more evenly than large pore sponges. Available in compressed (approximately 1/8" thickness before expansion) or uncompressed format.

### VWR® Adjustable Spray Bottle

Supplier: VWR International

Ideal for hot, cold, aqueous, and solvent-based solutions. The bottle's adjustable sprayer permits a range of positioning from fine mist to large stream delivery to accommodate a variety of washing applications. The chemical-resistant and unbreakable bottle is constructed of HDPE and the sprayer is made from polypropylene. The pump trigger is comfortable for one-handed operation and features an instant-off release that eliminates messy dripping. Closed position on sprayer maintains solution purity. The entire wash bottle may be gas or chemically sterilized.

## VWR® Black Rubber Stoppers, One-Hole

Supplier: VWR International

These black, high percentage rubber stoppers are low in free sulfur and have a single hole to facilitate laboratory procedures. Stoppers sized as 000 through 0 have a 3mm diameter hole; the size 1 stopper has a 4mm hole. Stoppers sized as 2 and larger have a 5mm diameter hole. Remain resilient and pliable under most laboratory conditions.

### VWR® Black Rubber Stoppers, Solid

Supplier: VWR International

These solid, black stoppers contain a high percentage of pure rubber, weigh less than neoprene, and are low in free sulfur (1/2%). Composition ensures resiliency and pliability over a long period. Withstand laboratory conditions without hardening.

### VWR® Black Rubber Stoppers, One-Hole

Supplier: VWR International

These black, high percentage rubber stoppers are low in free sulfur and have a single hole to facilitate laboratory procedures. Stoppers sized as 000 through 0 have a 3mm diameter hole; the size 1 stopper has a 4mm hole. Stoppers sized as 2 and larger have a 5mm diameter hole. Remain resilient and pliable under most laboratory conditions.

### VWR® High/Low Memory Alarm Thermometer

Supplier: VWR International

RELATED INFORMATION  
▶ VWR Digital Laboratory Products Catalog

- ▶ Traceable®
- ▶ Reads Ambient or Probe Temperature
- ▶ Displays °C and °F

Perfect for monitoring liquids, air/gas, or semi-solids in water baths, refrigerators, freezers, incubators, and tanks. Minimum/maximum memory permits monitoring overnight, weekends, or any time period.

Easy-to-view 1.3cm (1/2") high LCD shows current, high, and low temperatures. Alarm sounds when the temperature rises above or falls below the programmable setpoints. Alarm continues to sound for up to 12 hours, even if temperature returns to non-alarm range. May be set in 1° increments. Sensor and 3m (10') cable perform accurately even when both are underwater. High-impact ABS plastic case is chemical-resistant.

A serial numbered certificate is provided from an ISO 17025 calibration laboratory accredited by A2LA to indicate instrument traceability to standards provided by the National Institute of Standards and Technology.

**Ordering Information:** One-year warranty. Supplied with a flip-open stand for the lab bench, a slot for wall mounting, Velcro® fastener to attach to any surface, a wire mounting bracket for easy sensor placement, and a AA alkaline battery for continuous one-year use.

## Disinfecting Solution and Towelettes, Sporidicin\*

Supplier: Contec

FDA and EPA registered for 100% kill of all pathogenic vegetative organisms for disinfection of industrial and hospital equipment, instruments, and environmental surfaces. The solution effectively fogs cleanrooms (EPA Fogging Bulletin #301). Approved to clean, deodorize, disinfect, and provide "continuous residual activity for up to six months" (EPA Reg. #6383-3). Alcohol-free.

Compliant with FDA, EPA, and OSHA Bloodborne Pathogens Standard. Meets AOAC standards for hospital level disinfection.

**Ordering Information:** Available in gallon bottle and towelettes. Towelettes are offered individually wrapped or in convenient canister dispensers of 180 towelettes each.

VWR Catalog > Tubes > Centrifuge Tubes > VWR® High-Performance Centrifuge Tubes with Flat or Plug Caps, Polypropylene, Sterile

## VWR® High-Performance Centrifuge Tubes with Flat or Plug Caps, Polypropylene, Sterile

Supplier: VWR International

**RELATED INFORMATION**  
 ▶ [VWR Centrifuge Bundle Items Flyer](#)

- ▶ Clear Polypropylene Construction
- ▶ Easy-to-Read, Black, Printed Graduations
- ▶ Available in Reusable, Freezable, Autoclavable Racks
- ▶ RNase-, DNase-, and Endotoxin-Free
- ▶ FDA CFR 21 Compliant
- ▶ Validated ISO 11137 Sterile Process

These disposable conical-bottom and freestanding tubes feature black printed graduations and smooth inner walls for easy filling and sample preparation. A white printed writing area on the side allows for permanent coding. Rack-packed tubes are packaged in freezable, recyclable, autoclavable racks. The interlocking design of each polypropylene rack makes them ideal for benchtop organization. Tubes are sterilized by gamma irradiation. Tubes and caps are autoclavable and freezable.

Caps are available in two styles: flat, with a smooth surface for additional labeling options, and plug style for a secure seal when using shakers and horizontal incubators. All caps are made of purple high-density polyethylene. Racks are available separately.

NOTE: The 50mL freestanding centrifuge tubes **89079-490** and **89079-492** are nonsterile items.

**Ordering Information:** Assorted color rack cases (**89079-530** and **-512**) include one blue, green, orange, red, and yellow rack per case.

## VWR® Precut Pierceable Vinyl Films for Robotics

Supplier: VWR International

Films are designed to provide temporary protection of samples in 96-well plates against contamination and evaporation. These 100µm thick films each have a 20µm thick adhesive layer. They feature a precut pattern over each well separating the film into four flaps that easily bend inward when pushed by a robotic probe or pipet tip, allowing access to the sample without coring or adhesive fouling. The resilient flaps regain their original position after sampling for continued protection. For long-term protection after sampling, a continuous film should be applied as a second layer. Dimensions: 14.5x7.9cm (5<sup>3</sup>/<sub>4</sub>x3<sup>1</sup>/<sub>8</sub>").

RFQ No. LABSUP11

STATE OF WEST VIRGINIA  
Purchasing Division

**PURCHASING AFFIDAVIT**

**West Virginia Code §5A-3-10a states:** No contract or renewal of any contract may be awarded by the state or any of its political subdivisions to any vendor or prospective vendor when the vendor or prospective vendor or a related party to the vendor or prospective vendor is a debtor and the debt owned is an amount greater than one thousand dollars in the aggregate

**DEFINITIONS:**

"Debt" means any assessment, premium, penalty, fine, tax or other amount of money owed to the state or any of its political subdivisions because of a judgment, fine, permit violation, license assessment, defaulted workers' compensation premium, penalty or other assessment presently delinquent or due and required to be paid to the state or any of its political subdivisions, including any interest or additional penalties accrued thereon.

"Debtor" means any individual, corporation, partnership, association, Limited Liability Company or any other form or business association owing a debt to the state or any of its political subdivisions. "Political subdivision" means any county commission; municipality; county board of education; any instrumentality established by a county or municipality; any separate corporation or instrumentality established by one or more counties or municipalities, as permitted by law; or any public body charged by law with the performance of a government function or whose jurisdiction is coextensive with one or more counties or municipalities. "Related party" means a party, whether an individual, corporation, partnership, association, limited liability company or any other form or business association or other entity whatsoever, related to any vendor by blood, marriage, ownership or contract through which the party has a relationship of ownership or other interest with the vendor so that the party will actually or by effect receive or control a portion of the benefit, profit or other consideration from performance of a vendor contract with the party receiving an amount that meets or exceed five percent of the total contract amount.

**EXCEPTION:** The prohibition of this section does not apply where a vendor has contested any tax administered pursuant to chapter eleven of this code, workers' compensation premium, permit fee or environmental fee or assessment and the matter has not become final or where the vendor has entered into a payment plan or agreement and the vendor is not in default of any of the provisions of such plan or agreement.

Under penalty of law for false swearing (*West Virginia Code §61-5-3*), it is hereby certified that the vendor affirms and acknowledges the information in this affidavit and is in compliance with the requirements as stated.
