DEFINITIONS:

"Debt" means any assessment, premium, penalty, fine, tax or other amount of money owed to the state or any of its political subdivisions because of a judgment, fine, permit violation, license assessment, defaulted workers' compensation premium, penalty or other assessment presently delinquent or due and required to be paid to the state or any of its political subdivisions, including any interest or additional penalties accrued thereon.

Medical

Stryker Prime™

Mobile. Safe. Efficient.

Prime Series Stretchers

**Stryker Prime
Big Wheel**

**Stryker Prime
is Mobile**

The Stryker Prime series is the solution to long transports, heavy patients and carpeted hallways. With three mobility options across electric and manual versions, you will find the solution that best suits your needs.

Stryker Prime with Fifth Wheel

Stryker Prime is available with a retractable fifth wheel to provide controlled traction and cornering.

Stryker Prime with Big Wheel

The Big Wheel mobility option can reduce start-up force up to 50 percent and steering effort up to 60 percent.

**Stryker Prime with Stryker Zoom[®]
Motorized Drive System**

Stryker Prime virtually eliminates manual pushing with Stryker Zoom motorized drive technology.

Stryker case studies show:

With higher volume and heavier patients, transport is more challenging than ever. Zoom can reduce nurse injury rates up to 98 percent, achieving significant savings.

Stryker Prime helps alleviate the stress and strain of daily patient transport by increasing efficiency with Zoom, giving you more time to focus on your patients.

Chaperone® Stretcher Exit System

Reduce the Risk of Falls

The Stryker Prime stretcher is the only stretcher available with a two-zone exit alert system using load-cell technology — the Chaperone Stretcher Exit System.

Zone One

Zone One is the larger (default) zone, allowing patients more movement before an alert is sent.

Greater Comfort and Enhanced Therapies

Whether it is extended lengths of stay or addressing patient comfort, the open architecture of Stryker Prime allows you to choose the support surface that meets your facility's needs. This advantage affords you the flexibility to provide customized care tailored to the individual needs of your patient population.

A Prime Solution to Extended Stays

Pioneer® Pressure Redistribution Surface

Pioneer Key Features

- Dartex® 4-way stretcher cover
- Air bladder pressure redistribution
- 700 lb capacity
- Sloped heel
- 26-inch or 30-inch width

Pioneer's eleven interconnected air bladders redistribute the patient's weight evenly to help prevent skin breakdown.

Zero-gap, Glideaway™ Siderails

Glideaway siderails offer maximum patient security when raised yet are completely out of the way when down for zero-gap transfers.

Assist™ No-Crank Hydraulic Catch

Simply slide the lever horizontally to raise the catch without ever using a crank. No stress on wrists or hands. Also available as a powered option.

Recovery Chair Position

Helps eliminate the need for unnecessary transfers by providing a comfortable position for patients to recover.

R-Mounted Oxygen Bottle Holder

The oxygen bottle is mounted on the litter base to help reduce awkward bending, lifting and carrying.
