RE: WV RFQ # AGR1235 Processing USDA Commodity Mozzarella Cheese

Dear Sir,

ConAgra Foods is pleased to offer the State of West Virginia pricing for our line of frozen pizza products, pursuant to the above-referenced RFQ. We have provided information on all our products which use USDA commodity mozzarella. We would like to call out a number of deviations from your document which may or may not have an impact on our level of responsiveness to your bid.

Special provision 2: The product formulas for all ConAgra Foods products are designated as proprietary, thus are not made public, even to ConAgra employees who are not involved in R&D, production or manufacturing of those products. Nutritional Analysis, complete ingredient statements, CN labels, product information, and product labels are included for all products.

Special provision 11: ConAgra Foods does not backhaul USDA commodity. Our shipping is done by common carriers out of regional distribution centers. Trucks delivering our product to your warehouse facilities would not be returning to either our production facility or our distribution facilities.

Attachment A, 1. : Grams of Fat and Sodium contributions are clearly identified in our nutritional statements. Most will comply with your published limits, but some will not. We are engaged in constant refinement of our product line to bring them into compliance with new federal guidelines, as well as yours.

Attachment A, 2. : A few of our products utilize artificial colorings or flavors- those are plainly called out in our ingredient statements. Further, virtually all of our frozen pizza products utilize some preservative to support shelf-life and wholesomeness while enabling nationwide distribution.

We appreciate the opportunity to share details of our product line. For further inquiries or more information, please feel free to contact me. Thanks so much.

Regards,

ADDENDUM NO. 2

ADDITIONAL TERMS AND CONDITIONS

Various Legislative acts passed in the 2012 session require inclusion of certain provisions in all state contracts. Accordingly, this addendum will add the three provisions listed below to the solicitation and resulting contract entered into between the State of West Virginia and the vendor. In the event that the solicitation is not for construction or architectural/engineering work, sections 2 and 3 below will not apply.

1. **BACKGROUND CHECK:** In accordance with W. Va. Code § 15-2D-3, the Director of the Division of Protective Services may require any service provider whose employees are regularly employed on the grounds or in the buildings of the Capitol complex or who have access to sensitive or critical information to submit to a fingerprint-based state and federal background inquiry through the state repository.

   After the contract for such services has been approved, but before any such employees are permitted to be on the grounds or in the buildings of the Capitol complex or have access to sensitive or critical information, the service provider shall submit a list of all persons who will be physically present and working at the Capitol complex to the Director of the Division of Protective Services for purposes of verifying compliance with this provision.

   The State reserves the right to prohibit a service provider's employees from accessing sensitive or critical information or to be present at the Capitol complex based upon results addressed from a criminal background check.

2. **SUBCONTRACTOR LIST SUBMISSION:** In accordance with W. Va. Code § 5-22-1, The apparent low bidder on a contract for the construction, alteration, decoration, painting or improvement of a new or existing building or structure valued at more than $500,000.00 shall submit a list of all subcontractors who will perform more than $25,000.00 of work on the project including labor and materials.       ii. Name of each subcontractor
      iii. License numbers as required by W. Va. Code § 21-11-1 et. seq.

iv. Notation that no subcontractors will be used if the bidder will perform the work

b. Submission. The completed subcontractor list shall be provided to the Purchasing Division within one business day of the opening of bids for review. Failure to submit the subcontractor list within one business day after the deadline for submitting bids shall result in disqualification of the bid.

c. Substitution of Subcontractor. Written approval must be obtained from the Purchasing Division before any subcontractor substitution is permitted. Substitutions are not permitted unless:

i. The subcontractor listed in the original bid has filed for bankruptcy;
ii. The subcontractor in the original bid has been debarred or suspended; or
