**Re: Expression of Interest
Milam Ridge Refuse Pile Design (DEP15605)**

Dear Mr. Nisbet:

White Brothers Consulting, LLC, is pleased to submit our Expression of Interest for the above referenced project. We are a newly formed engineering and surveying company with all members of our firm having AML experience at previous working engagements. If needed, we will utilize a geotechnical or drilling consultant to perform any geotechnical work needed for the project.

White Brothers Consulting, LLC, looks forward to the opportunities and challenges that AML projects present. Please contact us if you have any questions.

Sincerely,

White Brothers Consulting, LLC

Timothy T. White, P.E.
Member

White Brothers Consulting, LLC

WHITE BROTHERS CONSULTING, LLC

White Brothers Consulting, LLC, was started by three members in 2012. All members of the firm have previous AML experience dealing with common problem areas associated with this project. Timothy T. White, P.E., has over five years of progressive AML experience. At a previous engagement, Mr. White was the Responsible Engineer in Charge for nine projects, which ranged from sealing and draining a single portal, to regrading over fourteen miles of dangerous highwalls. William G. White, P.E., has previous experience in dealing with AML problem areas at a previous employment. Lee Snyder, P.S., also has design experience in producing AML plans, as well as performing surveying duties on construction projects for AML.

While we are a new company, we have the experience to handle any problem areas created. We look forward to creating a working relationship with the DEP.

WEST VIRGINIA REGISTERED P.E.'S

Currently, White Brothers Consulting, LLC, has two registered Professional Engineers on staff. Timothy T. White, P.E., has twenty years of experience, while William G. White, P.E., has over twenty-five years of experience. Both possess AML experience from previous engagements.

White Brothers Consulting, LLC

RELATIVE DESIGN EXPERIENCE

White Brothers Consulting, LLC, has experience in all facets of problem areas associated with the AML program. Our experience ranges from sealing open and collapsed portals; draining portals that require design of conveyance; and regrading of both refuse piles and dangerous highwalls. We have gained valuable knowledge investigating and solving problem areas during previous employment engagements. We also have experience in developing a complete set of plans and construction documents.

AVAILABLE WV AML DESIGN TEAM

All three members of our firm, in addition to CADD help from one employee, would be available to work on this project. Following is a list of those available:

- Timothy T. White, P.E., would be the Responsible Engineer in Charge, and would oversee the design, specifications and costs for the project.
- William G. White, P.E., would assist in the design.
- Lee Snyder, P.S., would oversee any additional surveying needed for the project, as well as provide design and CADD drafting.
- Paula White would perform any additional CADD drafting as needed.

19. Use this space to provide any additional information or description of resources supporting your firm's qualifications to perform work for the West Virginia Abandoned Mine Lands Program.

White Brothers Consulting, LLC, is a new engineering and surveying company based in West Virginia. The members of our firm were responsible for AML work that was completed at our previous engagement, and it is with this previous experience, as well as the prior years of our careers, that we are fully capable to perform work for the WDEP-AML. We look forward to a successful company and successful relationship with the AML program.

ADDITIONAL PROJECT EXPERIENCE INFORMATION

Professional experience was gained by all three members of our firm by past employment by others. Timothy T. White, P.E., was the responsible engineer in charge of all design for the nine projects listed on the experience matrix. Highlights of each project include:

- Morgan Run – project problem areas ranged from sealing over 20 portals and providing bat gates, as well as drainage conveyance.
- Roaring Creek – project consisted of regrading over 60 acres of scattered refuse, along with drainage conveyance.
- Drews Creek Highwall – project consisted of a large slide, as well as sealing open and collapsed portals along with drainage conveyance.
- Venus Drainage – project consisted of one draining portal and conveyance of said drainage via a grouted riprap channel.
- Sarah Ann – project consisted of a slide, along with draining portals across a large site and remedied with channels to convey drainage.
- Garden Ground Highwalls – project consisted of regrading over 14 miles of dangerous highwall, along with sealing and installing bat gates where needed to over 100 portals.
- Harris Branch Refuse – project consisted of one small refuse pile that was regraded and drained.
- Kingwood Highwalls – project consisted of regrading one dangerous highwall, two refuse pile regrades and sealing of three portals.
- Shabbyroom Hollow – project consisted of two refuse piles eroding into a creek, and sealing of open and collapsed portals, along with drainage conveyance.
- Robinette Branch Refuse – project consisted of one large refuse pile eroding into a creek, along with drainage conveyance and realigning the existing creek in certain areas.

Along with this experience, Bill White, P.E., has previous AML experience while employed with Ackenheil and Associates in the late 1980's. Lee Snyder, P.S., and Paula White both were a part of the Garden Ground Highwalls project, from designing profiles for drainage channels to general CADD duties.
