WVCOMMERCE.ORG WEB PLATFORM HOSTING RFQ

INTRODUCTION:

The West Virginia Department of Commerce's Web Platform (www.wvcommerce.org) is the State's primary marketing tool for promoting tourism and development in West Virginia.

The application hosts a set of mission-critical applications for Commerce agencies – including the West Virginia Division of Tourism's extensive travel planner database containing thousands of accommodations and attractions, with separate interfaces to the consumer and the 1-800 Call Center. Supporting the West Virginia Development Office, the application allows the agency to maintain detailed commercial real estate information and statistics keyed to geospatial mapping. www.wvcommerce.org receives approximately 600,000 page views each month, with seasonal volume fluctuations in traffic driven by travel seasons and marketing efforts. The application hosts dozens of targeted landing pages and minisites supporting Commerce's marketing efforts, including TV, print, online, search engine marketing, social marketing and mobile marketing.

BACKGROUND:

The purpose of this RFQ is to identify a managed hosting vendor who will lease and maintain the equipment, services and software listed below for a set monthly fee. We are seeking a one-year contract with the option to renew at the same terms and price for two more years.

Commerce plans to use contract system administration support to establish and maintain the application in the new environment; therefore, only minimal "emergency" system administration support is required from the managed hosting vendor.

The application has been hosted at Rackspace in Austin, Texas, for the past two years, receiving on average a 600,000 page views each month, and growing.

Commerce's Web Platform is a full-featured Web content management system, custom-built in .Net. Technologies in use include:

- Microsoft .NET Framework 3.5, C3, ASP.NET
- Microsoft SQL Server 2008
- Web Technologies, including XHTML, CSS, JavaScript, JQuery, AJAX
- GIS technologies, such as SharpMap, BING, SQL, Server 2008 Spatial Tools
- Microsoft Windows Server 2008 with IIS 7
- Telerick Rad Developer Tools

Commerce foresees deploying our application and databases to the new hosting environment and testing for at least four to six weeks prior to redirecting the URL of our current live servers to the new servers. Commerce maintains a development server and code archive on site – therefore this equipment and services are not included in this RFQ.

DESCRIPTION OF CURRENT HOSTING ENVIRONMENT:

One Webserver:

- Dell PowerEdge 2950 Win2k3 x64 Enterprise with 8 GB of RAM Dual Quad Core 2.5 running RAID 5 on 6 300GB SAS drives. It is a dedicated resource
- Running Win2k3 x64 Enterprise with IIS and fully patched to the current level with no third party applications running.
- Using approx. 500GB of storage

One SQLserver:

- Dell PowerEdge 2950 Win2k3 x64 Enterprise with 16 GB of RAM Dual Quad Core Xeon 2.5 running RAID 5 on 3 300GB SAS drives and a mirror on 2 146GB SAS drives. It is a dedicated resource
- Running Win2k3 x64 Enterprise running SQL 2k8 fully patched to the current level with no third party applications running.
- Using approx. 400GB of storage

There is a Cisco ASA firewall in place, as well as a Cisco Load Balancer.

For calendar year 2011, the average bandwidth usage has been within 4TB data transfer per month for out-bound traffic.

Commerce's current configuration of hardware has our analysis services sharing the SQL server. There are times when we run reports that it slows down the database – and therefore the user experience of the application is negatively impacted. The specifications, below, strive to separate the analysis services onto a separate area; so, running reports does not impact site performance.

SCOPE OF WORK:

Please provide Commerce with one monthly hosting cost that covers the following services, licenses and hardware. Commerce is contracting with a system administrator to perform our set up and installation.

Set up and installation of our application should not be in the hosting Vendor's bid.

1.0 The successful managed hosting provider shall be a Gartner tier leader or challenger:
<http://www.gartner.com/technology/media-products/reprints/att/vol12/article1/article1.htm>

1.1 Managed Hosting Services (Must meet or exceed)

- 24x7x365 Support
- 1 Hour Hardware Replacement Guarantee
- Port Monitoring Service
- Monthly Server Patching and Vulnerability Analysis
- New Hardware Provisioned in 15 Business Days

Bandwidth

- Up to 4 TB Outbound Transfer
- Unlimited Inbound Transfer
- 100 Mbps Connectivity to the Internet, 300 Mbps Aggregate or greater
- Redundancy of four or more Diverse Path Backbone Internet Connections

NEW HOSTING SOLUTION:

Commerce would like to virtualize 3 servers on 2 boxes, using VMware (virtual machines) or the equivalent technology. Please specify VMware with HA. The VMs will sit on physical gear. The following server specs are provided with this strategy in mind.

2.0 Hardware

Commerce has been leasing Dell PowerEdge 2950 III units. We wish to upgrade to Dell's PowerEdge R710 or comparable servers. Dell's PowerEdge R710 (Intel® Xeon® E5503, 2.0 GHz, 4M Cache, 800MHz Max Memory) are designed with 125 percent more memory capacity and more integrated I/O than the previous generation.

Vendor costs should be based on Commerce leasing this equipment.
The managed hosting facility must meet or exceed specified equipment, below.

2.1 One Web Server

The GIS Mapping Server and the Mail Server will be installed and configured on the Web server

- Operating System & Software
- Microsoft Windows Server 2008 Standard Edition

Hardware

- Dell's PowerEdge R710 or comparable
- Dual Processor, Quad Core 2.5 GHz Processor
- 24 GB of RAM -- (1x8GB), 1333MHz Dual Ranked RDIMMs for 1 Processor, Optimized
- 2 TB HDD in RAID5
- Windows 2008 Server x64 and IIS
- Redundant Power
- 100 Mbps Connectivity

Standard Drive Partitioning

C:\ - single partition

External Storage Connection(s)

- Private Backup Network Connection
- Dell PowerVault MD3200 Dedicated Storage Unit (shown below)

2.2 One Database Server

Currently, the analysis services are hosted on the database, but this is causing performance issues. This RFQ requires a separate server for analysis.

- Operating System & Software
- Microsoft Windows Server 2008 Enterprise Edition
- Microsoft SQL Server 2008 Standard Edition
- Managed Backup Agent for Microsoft SQL Server (see Managed Backup below)

Hardware

- Dell's PowerEdge R710 or comparable
- Dual Processor, Quad Core 2.5 GHz Processor
- 24 GB of RAM -- (2x8GB), 1333MHz Dual Ranked RDIMMs for 1 Processor, Optimized
- 2 TB HDD in RAID5
- Windows 2008 Server x64 and IIS
- Redundant Power
- 100 Mbps Connectivity

Standard Drive Partitioning

C:\ - single partition

External Storage Connection(s)

- Private Backup Network Connection
- Dell PowerVault MD3200 Dedicated Storage Unit (shown below)

Note: Currently, reporting is taxing on our database server and our log files get too big. Commerce requires a separate virtual server to run our analysis services, apart from our SQL DB. The Vendor may achieve this separation with virtual machines or VMware.

3.0 Other Services to be provided by the Managed Hosting Facility

3.1 One (1) Firewall, Shared

- Hardware
- Cisco ASA 5510 Firewall
- 100 Mbps Throughput
- 130,000 Concurrent Connections

4.0 Emergency System Administration Support – Please provide an hourly cost for emergency system administration support. For example, Commerce envisions no more than 2-6 hours, monthly, only on an as-needed basis. Support might include following detailed step-by-step instructions to restart our application if it goes down after hours/weekend.

Such preference is an evaluation method only and will be applied only to the cost bid in accordance with the *West Virginia Code*. This certificate for application is to be used to request such preference. The Purchasing Division will make the determination of the Resident Vendor Preference, if applicable.

 Bidder is a nonresident vendor employing a minimum of one hundred state residents or is a nonresident vendor with an affiliate or subsidiary which maintains its headquarters or principal place of business within West Virginia employing a minimum of one hundred state residents who certifies that, during the life of the contract, on average at least 75% of the employees or Bidder's affiliate's or subsidiary's employees are residents of West Virginia who have resided in the state continuously for the two years immediately preceding submission of this bid; or,
4. Application is made for 5% resident vendor preference for the reason checked:
 Bidder meets either the requirement of both subdivisions (1) and (2) or subdivision (1) and (3) as stated above; or,

Bidder understands if the Secretary of Revenue determines that a Bidder receiving preference has failed to continue to meet the requirements for such preference, the Secretary may order the Director of Purchasing to: (a) reject the bid; or (b) assess a penalty against such Bidder in an amount not to exceed 5% of the bid amount and that such penalty will be paid to the contracting agency or deducted from any unpaid balance on the contract or purchase order.

DEFINITIONS:

"Debt" means any assessment, premium, penalty, fine, tax or other amount of money owed to the state or any of its political subdivisions because of a judgment, fine, permit violation, license assessment, defaulted workers' compensation premium, penalty or other assessment presently delinquent or due and required to be paid to the state or any of its political subdivisions, including any interest or additional penalties accrued thereon.

"Debtor" means any individual, corporation, partnership, association, limited liability company or any other form or business association owing a debt to the state or any of its political subdivisions. "Political subdivision" means any county commission; municipality; county board of education; any instrumentality established by a county or municipality; any separate corporation or instrumentality established by one or more counties or municipalities, as permitted by law; or any public body charged by law with the performance of a government function or whose jurisdiction is coextensive with one or more counties or municipalities.
