Question and answers
Addendum No.1**

Q1. Is the State Police going with just All Wheel Drive Cruisers this year, or will there be a Rear Wheel Drive bid later?

A1. The West Virginia Purchasing Division will bid an all wheel drive automobile as requested by the West Virginia Department of Public Safety (State Police).

Q2. Could you please give me more information on the up-fit equipment on PC12, specifically plastic rear seat, full feature light bar, push bumper, push bumper with headlight wrap, front and rear corner led lamps, mirror lights, side lights, rear deck lights, rear deck full width lights. Are certain manufacturers required for these up-fits and name brand of equipment? Also, are Chevy Impala, Chevy Caprice, Chevy Tahoe PPV and SSV not considered on PC12?

A2. The West Virginia State Police would assume that this makes reference to options. We realize that not all manufacturers will be able to provide all options listed.

As far as the second part any vehicle will be considered if they meet the mandatory minimum specifications.

Q3. The Police Charger has a great following by West Virginia City Police and County Sheriff Departments. We were able to develop this following because your purchasing department has always maintained a Charger contract for the agencies to purchase from. I'm respectfully requesting that the West Virginia Purchasing department continue an annual Police Charger contract.

A3. The West Virginia Purchasing Division will bid an all wheel drive automobile as requested by the West Virginia Department of Public Safety (State Police).

Q4. Can additional equipment be added to the options for a trunk release that is disengaged when the key is out of the ignition?

A3. Yes, please provide the cost of this option as an addition to your bid proposal Cost Sheet.

CROSS BORDER STATES

FEDERAL EMISSIONS STATES
 Remaining States / Regions

EMISSIONS STANDARD/OPTIONAL EQUIPMENT FEDERAL / NON-CALIFORNIA EMISSIONS SYSTEM

Standard equipment for vehicles destined for Federal Emissions State or Cross Border State dealer destinations

Equipped on vehicles when Code 936 or 423 is applicable for California Emissions State dealer destinations.

Note: Flexible-fuel vehicle (FFV) system is standard equipment for vehicles with 3.5L Ti-VCT V6 engine destined for Federal Emissions State or Cross Border State dealers and is only available with a Federal emissions system (FFV system not available with Code 422, and requires Codes 936 or 423 if applicable for California Emissions State dealer destinations).

CALIFORNIA EMISSIONS SYSTEM..... 422

Available on 3.5L Ti-VCT V6 gasoline only engine (non-FFV) and 3.5L GTDI engine

Required code for California Emissions States registration unless Codes 936 or 423 are applicable.

Optional code for Cross Border State dealers.

CALIFORNIA EMISSIONS SYSTEM NOT REQUIRED..... 423

Dealers ordering a vehicle without a California Emissions System and which is being sold/delivered to a California Emissions State dealer are also required to use Code 423 to attest either that the vehicle is not being registered in a California Emissions State or that Code 936 is applicable. **Note:** In Maine, Rhode Island and Vermont, dealers cannot use Code 423 for customers outside of California Emissions States locations (except Public Service/Emergency Vehicles – Code 936).

CALIFORNIA EMISSION EXEMPTION FOR PUBLIC SERVICE / EMERGENCY VEHICLES..... 936

This exemption may only apply in certain California Emissions States. Ordering dealer is responsible to contact the proper state authorities for clarification on qualifying exempted vehicles for registration. Only available on vehicles sold for authorized public service or emergency service use. Must also use Code 423 when ordering.

The State of Washington has unique rules (WAC 173-423-060) on exempting emergency vehicles without California emissions if another vehicle with California emissions that meets the customer's needs is available. Code 936 is not allowed and Code 422 is required for vehicles delivered to a Washington State dealer unless an exemption is obtained from the Department of Ecology.

FEDERAL EMISSIONS STATE DEALER ORDER FOR CALIFORNIA EMISSION STATES REGISTRATION 93N

Federal Emissions State dealers ordering a California Emissions System (Code 422) are also required to use Code 93N to attest that the vehicle is to be registered in a California Emissions State. **Note:** It is a violation of federal law for a Federal Emissions State dealer to sell a vehicle with a California Emissions System for registration in a Federal Emissions State, unless the vehicle also meets EPA standards (i.e., 50-state emissions).

ENGINE BLOCK HEATER 41H

Standard and only available in AK, MN, ND, SD, MT, WI and WY states. Other states available via FCSD

NOTE: Fleet Only – Engine block heater optional in all states with valid FIN code.

EMISSIONS STANDARD/OPTIONAL EQUIPMENT

FEDERAL/NON-CALIFORNIA EMISSIONS SYSTEM

Standard equipment for vehicles destined for Federal Emissions State or Cross Border State dealer destinations.

Equipped on vehicles when Code 936 or 423 is applicable for California Emissions State dealer destinations.

Note: Flexible-fuel vehicle (FFV) system is standard equipment for vehicles with 3.7L Ti-VCT V6 engine destined for Federal Emissions State or Cross Border State dealers and is only available with a Federal emissions system (FFV system not available with Code 422, and requires Codes 936 or 423 if applicable for California Emissions State dealer destinations).

CALIFORNIA EMISSIONS SYSTEM..... 422

Available on 3.7L Ti-VCT V6 gasoline only engine (non-FFV)

Required code for California Emissions States registration unless Codes 936 or 423 are applicable.

Optional code for Cross Border State dealers.

CALIFORNIA EMISSIONS SYSTEM NOT REQUIRED..... 423

Dealers ordering a vehicle without a California Emissions System and which is being sold/delivered to a California Emissions State dealer are also required to use Code 423 to attest either that the vehicle is not being registered in a California Emissions State or that Code 936 is applicable.

Note: In Maine, Rhode Island and Vermont, dealers cannot use Code 423 for customers outside of California Emissions States locations (except Public Service/Emergency Vehicles – Code 936).

CALIFORNIA EMISSIONS EXEMPTION FOR PUBLIC SERVICE/EMERGENCY VEHICLES 936

This exemption may only apply in certain California Emissions States. Ordering dealer is responsible to contact the proper state authorities for clarification on qualifying exempted vehicles for registration. Only available on vehicles sold for authorized public service or emergency service use. Must also use Code 423 when ordering.

The State of Washington has unique rules (WAC 173-423-060) on exempting emergency vehicles without California emissions if another vehicle with California emissions that meets the customer's needs is available. Code 936 is not allowed and Code 422 is required for vehicles delivered to a Washington State dealer unless an exemption is obtained from the Department of Ecology.

FEDERAL EMISSIONS STATE DEALER ORDER FOR CALIFORNIA EMISSIONS STATES REGISTRATION..... 93N

Federal Emissions State dealers ordering a California Emissions System (Code 422) are also required to use Code 93N to attest that the vehicle is to be registered in a California Emissions State. **Note:** It is a violation of federal law for a Federal Emissions State dealer to sell a vehicle with a California Emissions System for registration in a Federal Emissions State, unless the vehicle also meets EPA standards (i.e., 50-state emissions).

ENGINE BLOCK HEATER

Standard and only available in AK, MN, ND, SD, MT, WI and WY states. Other states available via FCSD..... 41H

NOTE: Fleet Only – Engine block heater optional in all states with valid FIN code.
