WIC12111 PRODUCT SPECIFICATIONS

1) Health o meter Professional 600KL Physician Electronic Scale with Integral Digital Height Rod (or equal)

- *Must display weight in pounds or kilograms
- *Minimum capacity and resolution 600lb x 0.2lb (272kg x 0.1kg)
- *Platform dimensions must be 14-3/4"H x 14-11/16"W X 2-1/4"D
- *Must be designed to connect to other devices (i.e. monitors or computers) via a USB port, which will allow acquisition of weight, height, and BMI from this scale
- *Must be EMR (Electronic Medical Record) EHR (Electronic Health Record) compatible
- *Must have the capability to be powered by AC adaptor or six (6) C cell batteries
- *Must include AC adaptor
- *Must be factory calibrated
- *Must have two hard plastic wheels
- *Must have electronic height rod, minimum 24" to maximum 84" x 1/8"
- *Must have minimum two (2) year parts and labor warranty

2) SECA374 Wireless Baby Scale with Extra Large Weighing Tray (or equal)

- *Must exhibit maximum 44 pound capacity
- *Must have the capability to be EMR (Electronic Medical Record) integrated
- *Must contain minimum features, Tare, Auto Hold, and BMIF (Breast Milk Intake Function), lbs/kg Switch Over, Auto-Clear, Damping, Reset, Automatic Switch- off Functions
- *Weighing surface must be 24.2"Wx5.1"Hx10.8"D
- *Overall dimensions must be 24.4"Wx7.5"Hx14.1"D
- *Must be factory calibrated
- *Must have capability to run by six (6) AA batteries or AC adaptor
- *Must include minimum two (2) year parts and labor warranty

3) SECA400 AC Adaptor for SECA374 Infant Scale (or equal)

*AC Adaptor must compatible with SECA374 scales

*Must be a Switch Mode Power Adapter that can charge the scales

4) SECA425 Baby Scale Carrying Case (or equal)

*Must be compatible to transport SECA374 scales (or equal)

*Size must be 30"Hx 17-3/4"W x 8-1/2"D

*Must feature lift up/retractable plastic handle

*Must feature interior straps for securing scales

*Must feature two plastic wheels

*Must include minimum two (2) year parts and labor warranty

5) Freight: FOB Destination

Vendor must deliver to: WVDHHR Warehouse

900 Bullit Street

VENDOR PREFERENCE CERTIFICATE

Certification and application* is hereby made for Preference in accordance with **West Virginia Code**, §5A-3-37. (Does not apply to construction contracts). **West Virginia Code**, §5A-3-37, provides an opportunity for qualifying vendors to request (at the time of bid) preference for their residency status. Such preference is an evaluation method only and will be applied only to the cost bid in accordance with the **West Virginia Code**. This certificate for application is to be used to request such preference. The Purchasing Division will make the determination of the Resident Vendor Preference, if applicable.

1. **Application is made for 2.5% resident vendor preference for the reason checked:**
☐ Bidder is an individual resident vendor and has resided continuously in West Virginia for four (4) years immediately preceding the date of this certification; **or**,
☐ Bidder is a partnership, association or corporation resident vendor and has maintained its headquarters or principal place of business continuously in West Virginia for four (4) years immediately preceding the date of this certification; **or** 80% of the ownership interest of Bidder is held by another individual, partnership, association or corporation resident vendor who has maintained its headquarters or principal place of business continuously in West Virginia for four (4) years immediately preceding the date of this certification; **or**,
☐ Bidder is a nonresident vendor which has an affiliate or subsidiary which employs a minimum of one hundred state residents and which has maintained its headquarters or principal place of business within West Virginia continuously for the four (4) years immediately preceding the date of this certification; **or**,
2. **Application is made for 2.5% resident vendor preference for the reason checked:**
☒ Bidder is a resident vendor who certifies that, during the life of the contract, on average at least 75% of the employees working on the project being bid are residents of West Virginia who have resided in the state continuously for the two years immediately preceding submission of this bid; **or**,
3. **Application is made for 2.5% resident vendor preference for the reason checked:**
☐ Bidder is a nonresident vendor employing a minimum of one hundred state residents or is a nonresident vendor with an affiliate or subsidiary which maintains its headquarters or principal place of business within West Virginia employing a minimum of one hundred state residents who certifies that, during the life of the contract, on average at least 75% of the employees or Bidder's affiliate's or subsidiary's employees are residents of West Virginia who have resided in the state continuously for the two years immediately preceding submission of this bid; **or**,
4. **Application is made for 5% resident vendor preference for the reason checked:**
☐ Bidder meets either the requirement of both subdivisions (1) and (2) or subdivision (1) and (3) as stated above; **or**,
5. **Application is made for 3.5% resident vendor preference who is a veteran for the reason checked:**
☐ Bidder is an individual resident vendor who is a veteran of the United States armed forces, the reserves or the National Guard and has resided in West Virginia continuously for the four years immediately preceding the date on which the bid is submitted; **or**,
6. **Application is made for 3.5% resident vendor preference who is a veteran for the reason checked:**
☒ Bidder is a resident vendor who is a veteran of the United States armed forces, the reserves or the National Guard, if, for purposes of producing or distributing the commodities or completing the project which is the subject of the vendor's bid and continuously over the entire term of the project, on average at least seventy-five percent of the vendor's employees are residents of West Virginia who have resided in the state continuously for the two immediately preceding years.

Bidder understands if the Secretary of Revenue determines that a Bidder receiving preference has failed to continue to meet the requirements for such preference, the Secretary may order the Director of Purchasing to: (a) reject the bid; or (b) assess a penalty against such Bidder in an amount not to exceed 5% of the bid amount and that such penalty will be paid to the contracting agency or deducted from any unpaid balance on the contract or purchase order.

By submission of this certificate, Bidder agrees to disclose any reasonably requested information to the Purchasing Division and authorizes the Department of Revenue to disclose to the Director of Purchasing appropriate information verifying that Bidder has paid the required business taxes, provided that such information does not contain the amounts of taxes paid nor any other information deemed by the Tax Commissioner to be confidential.

Under penalty of law for false swearing (**West Virginia Code**, §61-5-3), Bidder hereby certifies that this certificate is true and accurate in all respects; and that if a contract is issued to Bidder and if anything contained within this certificate changes during the term of the contract, Bidder will notify the Purchasing Division in writing immediately.

Bidder: DOD Contractors.org, LLC Signed: William Ward
 Date: 4-27-12 Title: office MANAGER

*Check any combination of preference consideration(s) indicated above, which you are entitled to receive.

PURCHASING AFFIDAVIT

West Virginia Code §5A-3-10a states: No contract or renewal of any contract may be awarded by the state or any of its political subdivisions to any vendor or prospective vendor when the vendor or prospective vendor or a related party to the vendor or prospective vendor is a debtor and the debt owed is an amount greater than one thousand dollars in the aggregate.

DEFINITIONS:

"Debt" means any assessment, premium, penalty, fine, tax or other amount of money owed to the state or any of its political subdivisions because of a judgment, fine, permit violation, license assessment, defaulted workers' compensation premium, penalty or other assessment presently delinquent or due and required to be paid to the state or any of its political subdivisions, including any interest or additional penalties accrued thereon.

"Debtor" means any individual, corporation, partnership, association, limited liability company or any other form or business association owing a debt to the state or any of its political subdivisions. "Political subdivision" means any county commission; municipality; county board of education; any instrumentality established by a county or municipality; any separate corporation or instrumentality established by one or more counties or municipalities, as permitted by law; or any public body charged by law with the performance of a government function or whose jurisdiction is coextensive with one or more counties or municipalities. "Related party" means a party, whether an individual, corporation, partnership, association, limited liability company or any other form or business association or other entity whatsoever, related to any vendor by blood, marriage, ownership or contract through which the party has a relationship of ownership or other interest with the vendor so that the party will actually or by effect receive or control a portion of the benefit, profit or other consideration from performance of a vendor contract with the party receiving an amount that meets or exceeds five percent of the total contract amount.

EXCEPTION: The prohibition of this section does not apply where a vendor has contested any tax administered pursuant to chapter eleven of this code, workers' compensation premium, permit fee or environmental fee or assessment and the matter has not become final or where the vendor has entered into a payment plan or agreement and the vendor is not in default of any of the provisions of such plan or agreement.

Under penalty of law for false swearing (**West Virginia Code §61-5-3**), it is hereby certified that the vendor affirms and acknowledges the information in this affidavit and is in compliance with the requirements as stated.

Digital baby scales

seca 374 . 334

seca 374 Shell-shaped with high edges for increased safety .
Extra large tray – also suitable for small children . Raised, easy
to read LCD display with large numerals **seca 334** Light and
easy to carry for mobile use . Reliable results due to automatic
damping . Optional measuring rod seca 232 available.

Distributed by:

Maximum weighing comfort in all respects

Maximum weighing comfort and state-of-the-art weighing technology are the features of the two baby scales seca 374 und seca 334. Both scales have extremely sensitive electronics for precise results. And both scales are robust, durable and extremely economical as far as power consumption is concerned. With the integrated TARE function, the weight of a soft mat or nappy can be easily deducted at the touch of a button. With the HOLD function, the determined weight can be stored until the baby has been attended to. The results on both scales are easy to read on the brightly illuminated LED displays.

seca 374 – digital baby scale with extra large weighing tray

An outstanding feature of the digital baby scale seca 374 is the innovative, shell-shaped form of the generously designed

weighing tray for weighing babies and small children from an ergonomic point of view. The high edges make the child feel safe and secure and provide optimum protection against falling off the scale. The high capacity of 44 lbs means that the scale can be used for weighing both babies and small children.

Raised LCD display with large, easy to read numerals

The clearly designed control panel is located on the slightly raised, ergonomically formed rear side of the scale. The large LCD display makes it quick and easy to determine the child's weight. As it is also battery operated, the digital baby scale seca 374 needs no access to a mains supply. Thanks to the energy saving technology and the automatic switch-off, up to 4,000 weighings per set of batteries are possible.

seca 334 – mobile digital baby scale

Weighing only 8 lbs, this scale is a real lightweight. The integrated carrying handle makes transport easy. Also practical: the flat and thus space-saving form, e.g. for storing in the drawer of the nappy changing table

Reliable results due to automatic damping function

The damping function of the seca 334 ensures precise results even if the baby is very restless. The length of the baby can be measured at the same time with the optional measuring rod which can be fitted to the scale. And the scale can be safely stored for transport in the optional carrying case seca 428.

Wireless baby scale
with extra large
weighing tray

EMR-integrated

- Network-capable with seca 360° wireless technology.
- Adjustable damping.
- High-quality seca scale technology with fine 0.1-pound graduation.
- TARE, HOLD, auto-HOLD and BMIF for extra convenience.
- Extra large and ergonomic tray for safe weighing.
- Optional measuring rod seca 233 expands scale into a measuring station.

seca
Precision for health

seca 374:

Restless baby? Not a problem!

Ergonomic, convenient and time-saving. Its extra large tray lets you weigh a seated toddler of up to 44 pounds. The adjustable damping function together with the HOLD key makes sure you get fast and accurate measurements. Even time-consuming handwritten recordkeeping is a thing of the past, thanks to the seca 360° wireless technology. Now – if you like – the scale can send results wirelessly to the seca 360° wireless printer or to the software seca analytics 105 on your PC.

The shell-shaped tray guarantees safety.

The seca 374 holds babies safely and comfortably in the shell-shaped weighing tray, whose ergonomic form was designed especially with the weighing of infants in mind. The slightly raised sides make the baby feel safe and secure and prevent the baby from slipping off the scale.

With the seca 360° wireless technology, just the press of a button sends measurement results from the seca 374 to an optional seca wireless printer or to the seca software on your PC.

The raised sides of the weighing tray guarantee that babies cannot slip off the scale.

TARE, HOLD and BMIF speed up the weighing process.

The seca 374 makes it easy for you to work fast: with prolonged pressing of the TARE key, you can calculate the baby's weight minus diaper or soft mat. With the BMIF (Breast-Milk-Intake Function) menu selection, you can see how much milk a breast-feeding baby has consumed. You want to take care of the baby and then read the results? No problem, thanks to auto-HOLD.

An optional measuring rod for simultaneous weighing and measuring.

Another time-saving benefit of the seca 374 comes from the optionally available measuring rod seca 233, which lets you weigh and measure in just one step. Of course with proven seca quality.

With the optional measuring rod seca 233, the seca 374 becomes a complete weighing and measuring station.

Paperless and error-free wireless transmission of measurements.

With the seca 360° wireless technology the seca 374 can transmit measurements to the optional seca 360° wireless printer. With the network-capable software seca analytics 105 and wireless USB adapter seca 456, your PC can receive and analyze measurements and forward them to an Electronic Medical Records (EMR) system. Thus the seca 374 is EMR-integrated and ready to handle digital patient records and all the demands the future will bring. More information about EMR integration is at www.seca.com.

Digital weighing and measuring station with automatic BMI calculation seca 763

Scale with integrated digital measuring rod . Determination of weight, height and BMI in one single step . Easy to operate and results easy to read off . Very high capacity of 550 lbs and low platform

Distributed by:

Innovation for health

Today, overweight is one of the largest health risks worldwide. To diagnose the illness, the ratio of weight to height is evaluated. seca now provides the first medical scale which quickly and simply ascertains these values. In addition to determining the weight electronically, the scale has an integrated, digital measuring rod. Due to these special features, the seca 763 is especially suitable for demanding users in the general and internal medical sectors and also in diabetology and endocrinology. And, not least, the weighing and measuring station is an ideal instrument for those fitness studios and sports clubs who wish to offer their members a special service.

Weight, height and BMI easy to determine in just one step

The combination of digital scale and digital measuring rod makes it possible to determine the nutritional condition in just one time-saving step. At the touch of a button, the seca 763 determines the Body Mass Index (BMI) value on the basis of the height and weight. This value is a reliable indication of, for example, when a patient is abnormally overweight or underweight. This station is also equipped with TARE and HOLD functions. In spite of these numerous functions, the operation of the scale is easy and intuitively graspable.

Extra high capacity and low platform

With a capacity of 550 lbs and a robust, cast-iron base, the seca 763 is ideal for weighing heavyweight persons. A further advantage here is that the platform is not

only large but also low. The ribbed rubber mat ensures that the patient has a safe footing. The weight is shown in 0.1 lbs steps so that even the smallest of fluctuations in weight can be determined.

Mobile with transport castors

In spite of its sturdy construction, the digital weighing and measuring station is mobile: the castors integrated in the base make the station easy to transport. Its adjustable levelling feet ensure that the scale stands securely at its new location even if the surface should be uneven.

Technical data

seca 763

Column scale

Capacity: 550 lbs / 250 kg

Graduation: 0.1 lbs / 50 g

Measuring rod

Measuring range: 43 – 79" / 110 – 200 cm

Graduation: 0.05" / 1 mm

Dimensions (WxHxD): 14 x 52 x 27"

Platform (WxHxD): 14 x 3.5 x 14"

Weight: 44 lbs

Power supply: A/C UL adapter

Transport castors

Functions: TARE, HOLD, auto-BMI,

kg/lbs switch-over
