1.0 Answers to RFP

REQUEST FOR QUOTATION BCF12051

I. GENERAL INFORMATION

1.1 The Department of Health & Human Resources (DHHR) is requesting a monetary quote for the products listed herein. All vendors must bid acceptable, Grade A products and to provide complete information on the product they are bidding. It is acceptable to offer your product's closest match (5% variation on each dimension) if your product does not conform to the exact dimensions of the products listed. Alternate dimensions should be summarized and included with your quotation. Do not bid fewer items even if the items bid will not physically fit on the provided floor plan. The estimated square footage for the Hardy County office is 9,728.

We agree with the following alterations.

1. Small conference room table is larger than requested. It is 96" vs. 84".
2. Tack board interview room is 24" x 18".
3. Private offices have five high book cases versus the four high requested.
4. Mailroom counters are 42" versus 36".
5. For section 3.6 and 3.8, chairs are specified with a U-shaped sled base with four legs as opposed to four post legs.

1.2 All work shall be in compliance with National Electric Code, State Fire Marshall's Office, applicable building codes, and any other governing agency as well as meeting industry standards.

We agree and confirm.

1.3 This shall be a turn-key job and everything to totally complete the installation and approved operation shall be included in the original bid.

We agree and have provided all items with exception to the magazine rack. The Franklin Interiors Sysfurn 10 contract does not have a magazine rack. We can supply one off contract if needed. We provided literature if interested.

2. BASE BIDS:

2.1 All qualified bidders, being familiar with and understanding the bidding documents and being familiar with all local conditions affecting the project hereby propose to furnish all material, equipment, supplies and to perform all work in accordance with the bidding documents within the time set forth below.

We agree.

2.2 It is the bidder's responsibility to verify all field conditions and limitations prior to bidding. It is also the bidder's responsibility to notify the DHHR in writing, of conditions detrimental to performing the scope of the work. Do not proceed until nonconforming conditions have been corrected.

Waved in addendum.

3. SCOPE OF WORK:

3.1 The objective of this quotation is to obtain a turnkey installation of new modular furniture in the new Hardy County DHHR office to be located in Moorefield, WV. The expected installation date is the week of December 12, 2011.

We agree and can meet the date if order is placed by November 7, 2011.

3.2 Furniture provider will be responsible for providing the equipment/services listed below:

3.3 The individual workstations (**Rm. 140 and 120 per drawing**) in the left and right bay areas will number approximately 26. The workstation dimensions should be approximately 6' X 7'. The ridge panels and end panels are 80" high (+/-4" maximum) and all other panels are 60" high (+/-4") **All panels are acoustical, monolithic and solid core, no frame and tile panels will be accepted.**

Provided as specified. The product is an AO2 clone meeting all the Specs of the AO2 product you have previously purchased, solid core acoustical monolithic panels. Ridge panels are 85" high and others are 62" high.

Electric/voice/data will be supplied from power poles as necessary to operate the particular group of workstations. **The panels shall be powered so that each workstation has 3 duplex outlets per station, no power strips will be accepted.** We agree and comply.

Workstations 6' x 7'

- 24"d x 36"w laminate work surface
- 24"d x 36"w laminate corner work surface
- 24"d x 48"w laminate work surface
- 36"w open shelf

Lunch room tables to be rectangular with 4 steel legs, laminate tops and with casters. [Meets requirement.](#)

4.4 Freestanding Furniture

General: Outside and surface panels are made from 1" thick 45 lb. density particle board and covered on both sides with high performance thermally fused laminate. File drawers have full extension steel ball bearing slides, box drawers use ¾ extension steel ball bearing slides. Drawers and end panels are edge banded on all four sides to protect clothing and the floor covering. Locks are standard on all box and file pedestals and lateral files. Drawers are opened with side pulls. [Meets requirement. Drawers have standard pulls as shown in brochure meeting ADA requirements.](#)

To be included in each office:

"L" desk with peninsula top, overhead closed vertical storage, task light, 24" deep ff and mobile bbf pedestal, fully adjustable keyboard, 4 high lateral file and 4 high bookcase, 2 guest chairs four leg and fully upholstered seat and back and one desk chair. (same task chair that is specified in workstations) Please see specifications for dimensions of furniture. [Bookcase unit is 5 high.](#)

*****All furniture specified must have lifetime warranties. Warranties to be provided at the time the bid is submitted. [Meets requirement, warranties included.](#)**

4.5 Miscellaneous

Fully adjustable keyboard tray with mouse pad that can be moved to either left or right side of the keyboard tray, includes palm support, no knob or lever needed for height adjustment, 6" of height adjustment, negative and positive tilt with 360 degree swivel. **These must be provided in private offices, workstations and interview rooms.** [Meets.](#)

4.6 Exhibits

The following exhibit is provided to help clarify the included bid specification and should not in any case be considered an additional specification or change in any of the written specifications.

Exhibit 1 – Expected Floor Plan

5. INSPECTION:

5.1 Furniture provider shall inspect equipment prior to shipment to verify proper construction. No allowance will be made subsequently on behalf of the contractor for any error or negligence on his part in connection with this requirement. [We agree.](#)

6. SHOP DRAWINGS:

6.1 Furniture provider shall provide shop drawings to owner for approval specifying methods and products for the scope of work as defined in Section 3. A notice to proceed will be issued indicating approval of the shop drawings. [See attached.](#)

7. TEMPORARY FACILITIES:

7.1 Furniture provider will assure himself that the electrical system is adequate for his requirements or will supply addition temporary electrical power at his own expense. [Standard building power is all that is required.](#)

7.2 Furniture provider shall provide safety barriers around work area as required by OSHA. [We agree.](#)

8. COORDINATION OF WORK:

8.1 Furniture provider shall coordinate with the DHHR project manager for the proper relation of the work to the building, and any other contractors that may be present. [We agree.](#)

9. WARRANTY: (GUARANTEE)

9.1 The furniture provider warrants to the DHHR all materials and equipment will be new, and that all work will be of good quality, free from faults and defects in conformance with the contract documents. All work not conforming to these requirements may be considered defective. [See attached lifetime warranty.](#)

10. PERMITS:

10.1 The furniture provider shall secure and pay for the building permit and for all other permits, governmental fees and licenses which are necessary for the proper execution and completion of the work as specified. [We agree.](#)

11. CLEAN UP:

11.1 The contractor shall take all necessary precautions to protect the interior of the building from debris, dust any residue resulting from the work.

11.2 The contractor shall keep the work area as clean as possible during the entire process, and shall be responsible to remove from the site, the packaging material from his product and other debris as it accumulates and provide for legal disposal. [We agree.](#)

12. WAGE RATES:

12.1 The vendor and sub-contractors shall pay the higher of the U.S. Department of Labor minimum wage rates or of the West Virginia Department of Labor wage rates as established for Hardy County pursuant to West Virginia Code 21-5-1, et.seq. West Virginia Department of Labor Wage Rates are available at the following website: <http://www.wvsos.com/adlaw/wagerates/building06.htm>

Installation services are provided if wages are requested.

13. PROGRESS PAYMENTS:

13.1 Due to the scope of the project, one payment will be made, at 100% completion upon acceptance by DHHR. *We agree.*

13.2 The furniture provider shall submit to the DHHR one original invoice for payment, supported by such data substantiating the contractor's right to payment under the terms in this contract. After agreement by both parties, the DHHR shall make payment. *We agree.*

13.3 Application for payment shall be submitted to the DHHR for work completed and approved by the DHHR. The Department reserves the right to refuse payment in the event the completed work is not commensurate with the amount shown on the Application for Payment or if the completed work is not in accordance with Section 1.2 or industry standards or sub-standard in any way.

14. TERM OF WORK

14.1 The furniture provider shall indicate with their bid the expected time frame for installation following receipt of the purchase order. One week installation time is requested. *We agree.*

15. DELAYS AND EXTENSION OF TIME:

15.1 If the furniture provider is delayed at any time in the progress of the work by any act or neglect of the DHHR or by any employee of the DHHR, or by any separate contractor employed by the DHHR, or by changes in the work, or by labor disputes, fire, unusual delay in transportation, adverse weather conditions not reasonably anticipated, unavoidable casualties, or any other cause which the DHHR determines may justify the delay, then the contract time may be extended by written change order.

16. TOOLS AND EQUIPMENT STORAGE:

16.1 Furniture provider may set a trailer or temporary storage building on the site for all equipment and tools. The furniture provider is responsible for his tools, equipment and materials. *We agree.*

17. SAFETY EQUIPMENT:

17.1 Furniture provider shall provide safety barriers around work areas where heavy equipment may be in operation when placing materials on the building or at times as required by OSHA. *We agree.*

18. DAMAGES:

18.1 Any damages occurring to the building or property resulting from the performance of this work shall be the responsibility of the furniture provider to repair at his expense, either by using his own forces or that of a sub-contractor. The repair method and finished product will be subject to the approval of the DHHR. *We agree.*

19. SCHEDULE OF BID RESPONSES

19.1 Bidders shall submit one lump-sum bid for all work and equipment under all the terms and conditions as described herein. [On pricing bid form.](#)

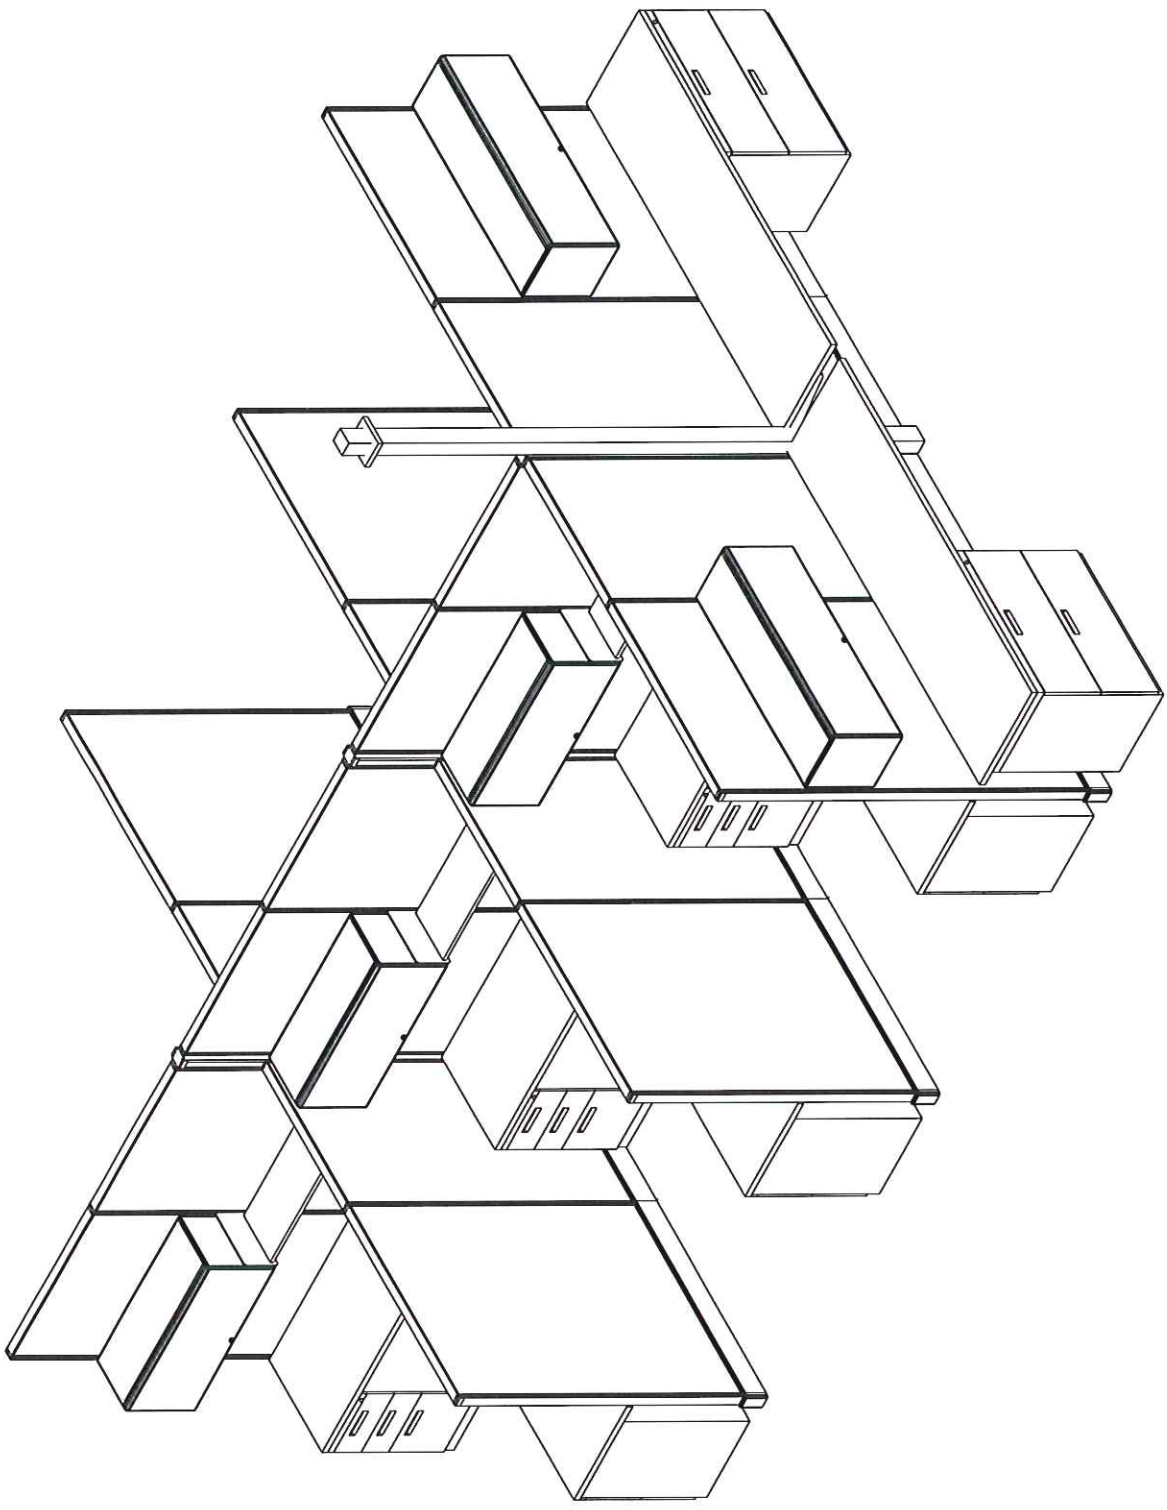

19.2 Successful bidder shall submit full warranty information. The warranty information shall minimally contain the product warranty and labor warranty product. [Enclosed.](#)

system 2

the systems fundamental

furnishing excellence™

**A panel system that's endured the test of time, and built to last.
Simple to specify, install and reconfigure, System 2 offers a durable
fundamental for your new and upgraded spaces.**

This sturdy panel system features full length steel and aluminum connectors, and can be installed easily by one person. Our honeycomb core construction meets or exceeds industry standards for strength and longevity. We stand behind System 2 with a lifetime warranty to its original owner.

Grow your team size or restructure a department quickly and easily, with panels that reconfigure as needed. An economical solution to all your office environment needs, System 2 is also available on our 5 & 10 Day Quickship program in more than 20 fabrics and finishes.

53" high, 6x8 stations
3 surfaces, one ped
base power down the
spine, 2 duplex per.

Features:

- Lifetime warranty to original owner
- 7 panel heights and 8 panel widths available
- Powered and non-powered panel options
- Laminate or fabric covered panels
- Acoustical panels
- Partial glazed panel

Electrical/Technical:

- Pre-installed 8 wire, 4- 20 amp circuits at the base of the panels, with easy connections
- Floor or ceiling connectivity
- Cable lay-in capability – large 5" high by 3.5" wide base with hinged base covers allow for large quantities of cables
- Upward of 70 Cat5 cables in the powered base, and upward of 100 cables in the non-powered base

System 2 offers an unbeatable pricing structure.

Our Quickship and XLT programs offer even more competitive pricing than our standard delivery; additional discounts for larger orders. Contact your Friant sales consultant for details.

QUICKSHIP
5 and 10 Day

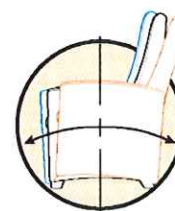

System 2 is available on our 5 & 10 Day Quickship program.

ROWDY™

Clean lines, designer colors and affordable pricing make Rowdy™ the most civilized seat in the room.

Available in 17 designer colors with black or chrome frame finish, mixed-and-match features to achieve the look you want and the functionality you need.

Rowdy
Ideal for corporate settings, educational, healthcare and institutional applications, Rowdy is ready to go to work for you. Rowdy's lightweight one piece shell...complete with back hand hold for convenient transport and ridged back for ultimate strength...make it an outstanding multi-purpose chair. An optional upholstered seat provides a generous, enduring sit while its continuous wire frame...available in black or chrome...makes an elegant design statement.

Player seating

Steelcase

Player®

The simple and durable Player chair is a convenient, comfortable, stackable chair for a multitude of uses. It's the perfect solution for high traffic areas like waiting rooms, classrooms, cafes or multi-purpose spaces. A true "team player", its slim, quiet aesthetic fits in just about anywhere.

Four-Leg
with Tablet Arm
and Bookrack

Features:

Pick your Player. Available models include the Sled-Base, Four-Leg chairs and Four-Leg Stool, all available with or without arms. The Four-Leg chair stacks six-high on the floor and eight-high on a dolly. This chair version with arms is also available with casters for greater mobility (though it's not recommended for stacking ... or downhill races). All models are fully upholstered, including the outer back, and feature a reinforced steel frame for long-term durability.

Enhance your Player. Additional options include soft glides, a high back, thick seat, right or left-handed tablet arm that tilts up for easy entry and exit, under the seat bookrack, an alignment device that allows you to easily link and unlink rows of Player chairs, a removable ganging device that allows you to link the chairs more permanently and a dolly for storage and transportation.

A certified Player. The Player chair is available with the Scientific Certification Systems Indoor Advantage™ certification for indoor air quality in North America.

Reply seating

steelcase

An Easy Choice

Work happens in many places. Choices for seating are abundant with Ergo — a complete family of comfortable budget-friendly chairs that are as nice to look at as they are to sit in.

Transparent comfort

Comfort is no secret for Regio chairs with mesh backs. The exclusive mesh is soft to the touch and delivers remarkable comfort in an airy and light scale design.

Simple comfort

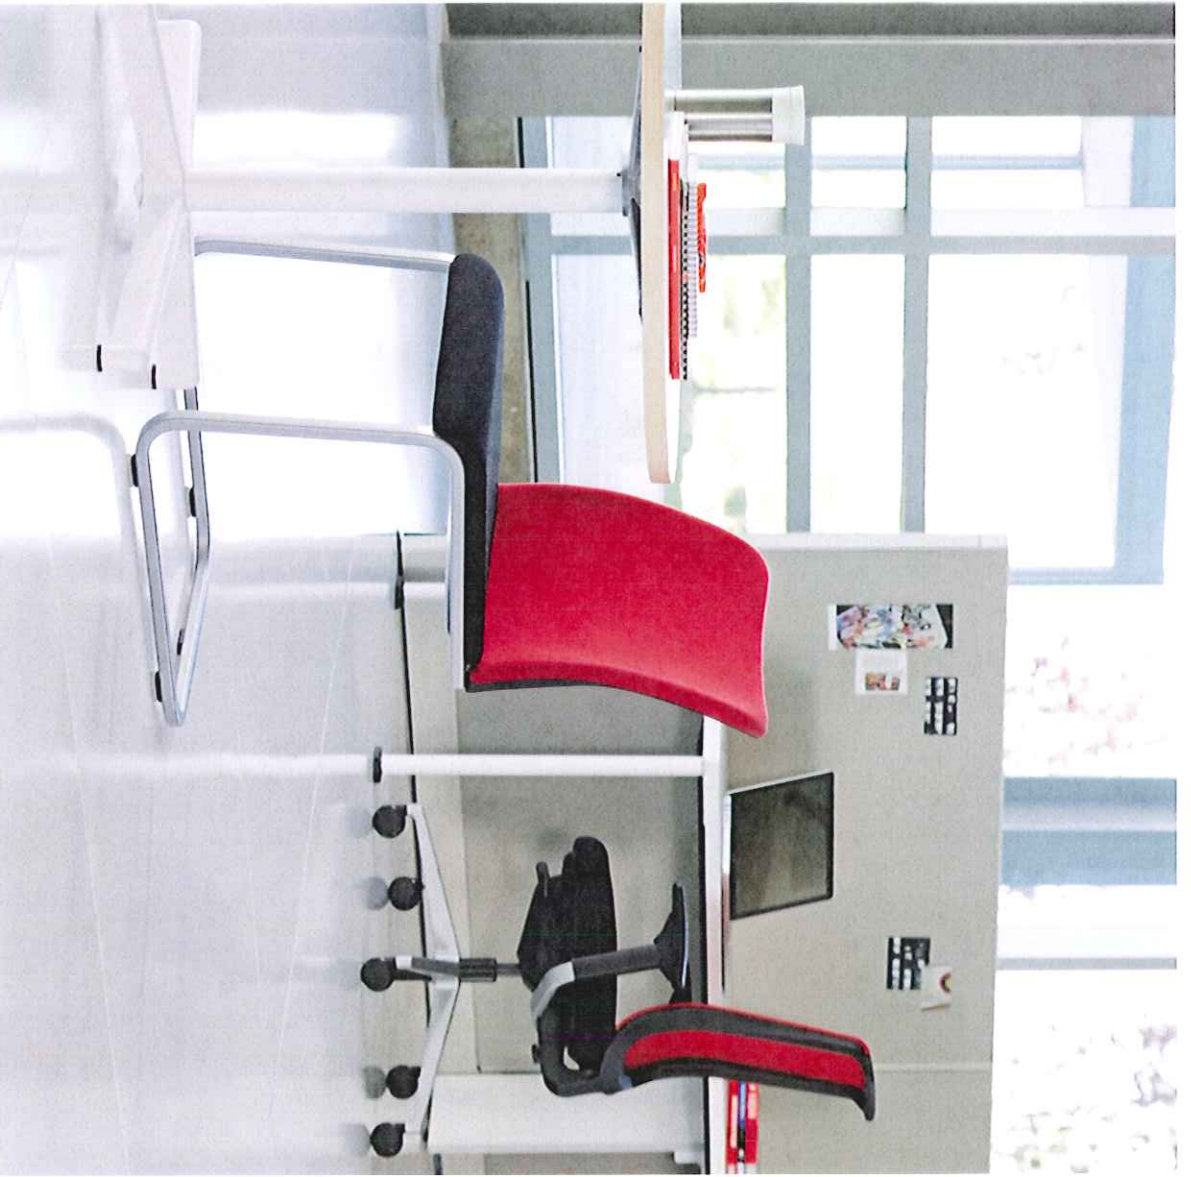

Fully upholstered Regio chairs are a classic approach to comfortable design. Unique contouring in the back structure provides dynamic support, all wrapped up in a firm profile that's contoured for comfort.

Up to the task

Reply is ready to take on whatever your workday brings. Simple, easy-to-use controls provide the individual comfort adjustments you need to make sitting a pleasure.

Easily paired

Whether it's multi-use or task seating, the family of Poppy chairs gives you a variety of choices so you can create just what you need throughout any environment. And when the day comes, Poppy is easy to recycle.

Multi-purpose, multi-use

There's a Rooby chair for everywhere. Roll it in for a quick discussion or a longer project meeting. Put it to work in a conference room. Or bring it out for big gatherings and events, then stack six high when everything is over.

Adjust Simply

Reply chair controls give you control right at your fingertips—the kind of control that makes it easy to sit for a long time, with the kind of control unassociated in a chair this reasonably priced. Simple, easy-to-use controls provide the adjustments you need to make sitting a pleasure.

Hand: and here, just use a convenient button to move the five different modes!

Height-adjustable lumbar support: a choice of five levels to enhance lumbar support.

Back height: adjust height and recline. The seat and backrest adjust to give you the most comfortable sitting position. The seat is also adjustable to give you the most comfortable sitting position.

Seat height: adjust height with a simple side of the foot to increase or decrease height.

Tilt tension: adjust tension with a simple side of the foot to increase or decrease tension.

Armrests: soft and stable to support your arms to relieve even when you change position.

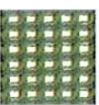

Arm height: adjust height to keep your arms in a neutral, relaxed position.

Multi-position back lock: allows you to lock the backrest in one of five positions.

Seat depth: adjust depth with the seat slider to provide the most comfortable sitting position.

Mesh back color options: Customizable, clean, contemporary aesthetic. Designed with a soft, mid-weight, durable, and quiet mesh back.

 Grey A101	 Black A107	 White A102	 Red A105	 Royal Blue A103
 Apple Green A106	 Orange A104	 Bright Purple A108	 Slate A109	

Upholstery options: Spandex fabric, select synthetic fabric, leather, or select vinyl upholstery.

The Reply line BIFMA A3 level certification requirements, and the Indoor Advantage certification from Scientific Certification Systems, are in progress. Reply is an Environmental Product Declaration (EPD) and is also designed to comply with the GreenSpec standard for the environment.

For a complete list of all environmental certifications and sustainable practices, visit: steelcase.com/Reply.

Reply is made to be reconfigurable and interchangeable, and made with a wide range of options for setting and spacing.

organizational worktools

Organizational logic
and ergonomic wellbeing.

A Steelcase Company

details

space

to work in is one thing.

Details delivers that "something else." Again and again.

Details doesn't expect individuals to adjust to the workspace. We design workspace that instantly adjusts to ever-changing individuals. And to the many ways they work. Look to Details to provide ergonomic sensibility, to help manage clutter, to organize information and to improve productivity.

But space that really works is something else.

three

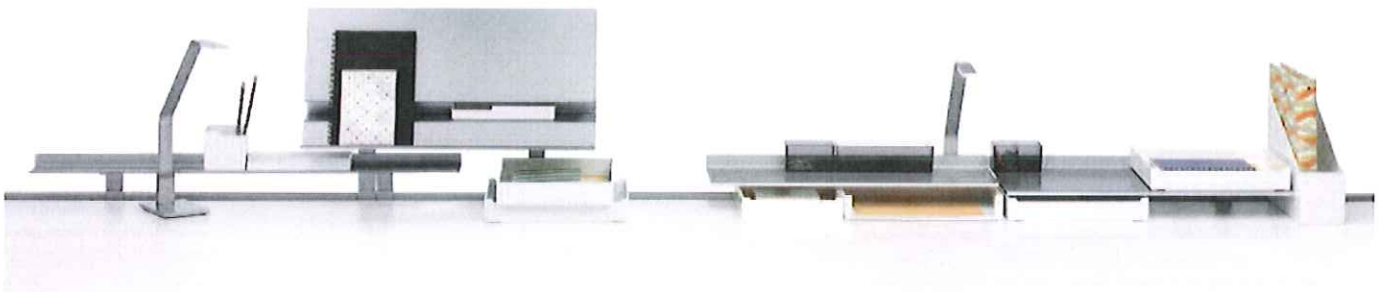

basic ways to give people control and to make the workspace really work.

Slatwall

SlatRail

SOTO™

Expansive thinking expands the precious commodity of workspace. Regardless the application, Organizational Worktools help people easily do more in less... less space and less time. The worktools you see here help create organizational logic and ergonomic wellbeing in a world of faster, sooner, more.

soto

a stylish and contemporary worktool collection exclusively created for freestanding applications including the Details height-adjustable table line and the rail architecture of Steelcase c:scape™ furniture.

SOTO™

STATE OF THE OFFICE

Tools that help the workplace and its workers come together.
Based on research about the ways people work.
Minimizes visual clutter. And oh so sustainable.
Proof of the time-honored truism: the whole is greater than the sum of the parts.

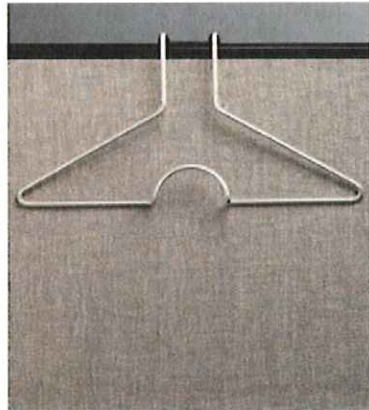

maximize space

merge aesthetics with function to help maximize your investments in people and furniture.

A Steelcase Company

Stella

The designers of the keyboard mechanism that's become the standard of the industry could have kicked back and left well enough alone.

details

But “well enough” wasn’t good enough.

So now the keyboard mechanism that’s found under more worksurfaces than most any other mechanism is better than ever.

The better than ever Stella. Sustainable. Slim. Sturdy.

The newly re-designed Stella is Cradle to Cradle Certified.™ Recycled materials (very little virgin raw materials) were used in its construction. Then, years from now, it can be recycled to create other products of equal or greater value. It's a closed material loop in which we pull very little raw material from the environment and send very little back to it. That's what Cradle to Cradle Certified is all about. So it's as kind to the earthplace as it is to the workplace.

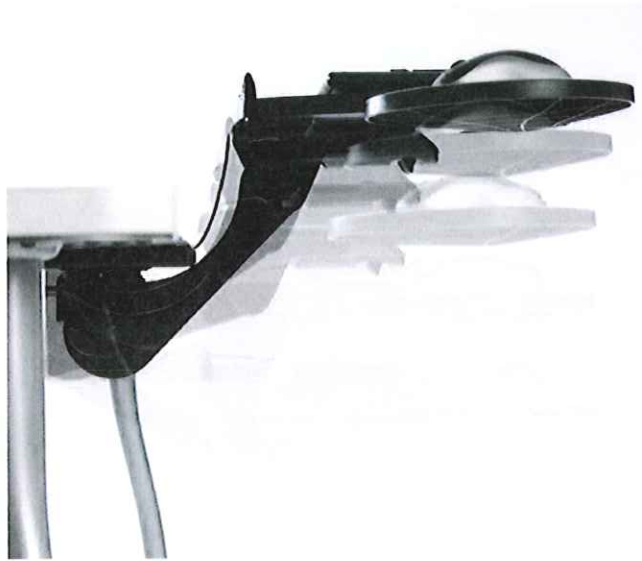

Stella has been certified for its material content, recyclability, and manufacturing characteristics.
c2ccertified.com

06-0000322

Less material in its composition makes the new Stella slimmer.

06-0000326

Adjusts through its entire range – 3.5" above the track and 5" below the track – and directly adjacent to the worksurface to help keep work within a neutral reach zone.

Stella is now 3" shallower in the neck to maximize knee clearance.

And it's as solid as solid can be. We virtually eliminated flex using components that are aircraft quality. Yet we've retained all of **Stella**'s patented features including its unmatched knob-free adjustability.

As always, of course, **Stella** rises above the worksurface. And above all those other mechanisms that don't. So it's the ideal mechanism to support an ever-changing and diverse workforce.

One-hand lever action adjustability.

06-0000325

Simply tilt to adjust through entire range.

06-0000324

Obligatory and important basic feature information.

Stella

Stella Standard

- Patented knob-free adjustability
- Proprietary cable-controlled mechanism

A Steelcase Company

Slatwall and SlatRail

A Steelcase Company

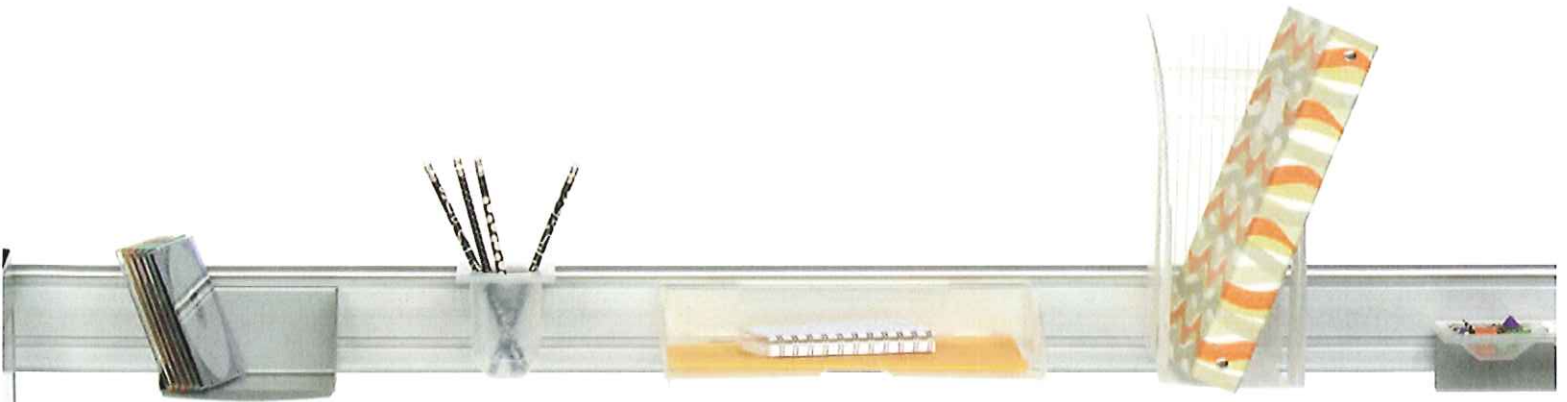

Organizational Worktools | Slatwall and SlatRail

Slatwall and SlatRail help expand space.

Panel mounted, wall-mounted, or desk-mounted. Regardless the application, Slatwall or SlatRail help expand space, eliminate clutter and increase workplace productivity.

Obligatory and important basic feature information.

Support System Comparison

	Slatwall	SlatRail	SOTO
Panel-mount	Yes	Yes	No
Wall-mount	Yes	Yes	No
Freestanding mount available	Yes	Yes	Yes
c:scape™ desk rail system	Yes	Yes	Yes
Context® Stanchion compatible	Yes	No	No
Corner Application	No	No	No
Maximum support weight	60 lbs.	100 lbs.	125 lbs.
Number of compatible worktools	32	28*	12
Number of available widths	6	6	7
Horizontal flexibility	Yes	Yes	Yes
Vertical flexibility	Yes	No	No
Maximum overhang from panel connection	12" **	12" **	N/A

* The following should not be specified for SlatRail: Hanging Brackets (WHB) on stanchion-mounted SlatRail, Jules Slatwall-mounted keyboard platform (KJULES), Markerboard (WMB), Universal Shelf (WUS, WUS3)

** 15" overhang for 60" wide applications; 12" overhang for all other sizes

Determining the Width

For panel-mounted applications, simply measure the distance between the two panel channels that the mounting brackets will be on. This is the minimum required width. You may order up to an additional 12" of width to overhang each non-corner channel and overlap the adjacent panel (60" applications can support a 15" overhang). The furniture system determines the appropriate mounting bracket to order.

Determining Available Space

The worktools to be mounted cannot exceed the space available on the Slatwall or SlatRail you are ordering.

Wall-mount Applications

Brackets should be installed into wall studs. You may order up to an additional 12" of width to overhang each bracket. (60" applications can support a 15" overhang).

Panel- or Wall-mount Applications

Slatwall requires a minimum of 13" of vertical space between the worksurface and any shelves or bins in a panel or wall-mount application. When stacking Slatwall tiles in either a panel or wall mount application, a gap of approximately 1/2" occurs.

12" Slatwall Tile Applications Only

Stanchion Mount Applications - Stanchion mount applications require a minimum of 15 1/2" of vertical space between the worksurface and any shelves or bins.

Context® Slatwall Stanchion Mount Applications - Tile must be 10" shorter than core unit if utilizing Context columns to support overhead bins, shelves, etc.

Freestanding Product Applications

Simply make sure the dimensions of the worktools fit in the available space on the worksurface.

Style Numbers/Descriptions

Slatwall Tiles	12" H Tiles	18" H Tiles
24" wide	WS24	WS2418H
30" wide	WS30	WS3018H

Steelcase®

Do what you do better.™

Peter Pepper

had a vision: accessories designed to enliven the work environment and assist employees to be more productive. In 1952 that vision became a reality. ¶ The mandate was clear: the strength of this vision must start by demanding the highest caliber of design, producing an inspired product line offering unparalleled selection. ¶ Peter Pepper Products has consistently delivered high quality products, identifying real solutions and meeting the price specifications of your most complex problems, yet never compromising the integrity of the design. ¶ But Peter Pepper's vision was also one of responsiveness and synergy. Establishing relationships based on partnership and performance, Peter Pepper initiated a new standard of attention to the client relationship, defining customer service as customer commitment. ¶ At Peter Pepper Products we will continue to strive to maintain the spirit of Peter Pepper's original vision. ¶ Design and Performance, diversity and practicality. Vision is fact.

Peter Pepper Products.
