## **BCF12100 ADDENDUM #2**

Please make the following changes in this Request for Quotation:

### **ITEM #**

### **3.3 Scope of Work**

#### **Now reads:**

The individual workstations (**Rm. 140 and 120 per drawing**) in the left and right bay areas will number approximately 26. The workstation dimensions should be approximately 6' X 7'. The ridge panels and end panels are 80" high (+/-4" maximum) and all other panels are 60" high (+/-4") **All panels are acoustical, monolithic and solid core, no frame and tile panels will be accepted.** Electric/voice/data will be supplied from power poles as necessary to operate the particular group of workstations.

#### **To Read:**

The individual workstations (**Rm. 140 and 120 per drawing**) in the left and right bay areas will number approximately 26. The workstation dimensions should be approximately 6' X 7'. The ridge panels and end panels are 80" high (+/-5" maximum) and all other panels are 60" high (+/-5") **All panels are acoustical, monolithic and solid core, no frame and tile panels will be accepted.** Electric/voice/data will be supplied from power poles as necessary to operate the particular group of workstations.

### **Questions & Answers**

**Question:** In the bid documents, one of the requirements for some of the workstation panels is an 80" height. The bid allows a +/- variance of 4" on this height, which would allow for a 76" or 84" panel height. However, the panel system that we are quoting and the panel system from Herman Miller (AO2) goes from a panel height of 67" to 85". We are requesting that the 5" variance be allowed. If not allowed, both Franklin Interiors and Herman Miller will be prevented from competitively bidding this project.

**Answer: Yes**

## **Page 2 BCF12100 ADDENDUM #2**

Please make the following changes in this Request for Quotation:

### **Questions & Answers**

**Question:** The 3-high lateral file in the mail room is requested to be 36" high; however, this is not available. 3-high lateral files are available in 42" height, or we could do a 2-drawer lateral file at 30" high. It is not possible to do a 3-high lateral file at 36" height even as a special from the manufacturer. Please advise if 42" height is acceptable, or if you want to go down to a 30" height.

**Answer:** 30" high file cabinets are acceptable.
