ADDITIONAL TERMS AND CONDITIONS (Construction Contracts Only)

1. **CONTRACTOR'S LICENSE:** West Virginia Code § 21-11-2 requires that all persons desiring to perform contracting work in this state be licensed. The West Virginia Contractors Licensing Board is empowered to issue the contractor's license. Applications for a contractor's license may be made by contacting the West Virginia Division of Labor.

West Virginia Code § 21-11-11 requires any prospective Vendor to include the contractor's license number on its bid. Failure to include a contractor's license number on the bid shall result in Vendor's bid being disqualified. Vendors should include a contractor's license number in the space provided below.

Contractor's Name: N-Powell Company, Inc.

Contractor's License No. WV037247

The apparent successful Vendor must furnish a copy of its contractor's license prior to the issuance of a purchase order/contract.

2. **DRUG-FREE WORKPLACE:** W. Va. Code § 21-ID-5 provides that any solicitation for a public improvement contract requires each Vendor that submits a bid for the work to submit at the same time an affidavit that the Vendor has a written plan for a drug-free workplace policy. To comply with this law, Vendor must either complete the enclosed drug-free workplace affidavit and submit the same with its bid or complete a similar affidavit that fulfills all of the requirements of the applicable code. Failure to submit the signed and notarized drug-free workplace affidavit, or a similar affidavit that fully complies with the requirements of the applicable code, with the bid shall result in disqualification of Vendor's bid.
3. **AIA DOCUMENTS:** All construction contracts that will be completed in conjunction with architectural services procured under Chapter 5G of the West Virginia Code will be governed by the AIA A101-2007 and A201-2007 or the A107-2007 documents, as amended by the Supplementary Conditions for the State of West Virginia, in addition to the terms and conditions contained herein.
4. **SUBCONTRACTOR LIST SUBMISSION:** In accordance with W. Va. Code § 5-22-1, The apparent low bidder on a contract for the construction, alteration, decoration, painting or improvement of a new or existing building or structure valued at more than \$500,000.00 shall submit a list of all subcontractors who will perform more than \$25,000.00 of work on the project including labor and materials. This provision shall not apply to any other construction projects, such as highway, mine reclamation, water or sewer projects.

1.4. SUBMITTED BY:

1.4.1. Bidders Full Name: Nichole P. Northcraft

1.4.1.1. Address: P O Box 239 / 3828 Main Street

1.4.1.2. City, State, Zip: Weirton, WV 26062

1.5. ALTERNATES

1.5.1. Alternate #1: Provide all demolition and new construction required to install the elevated floor access way between the rear of the Auditorium and the Stage. Include a credit for the reduction in the number of seating positions and a credit for finishes not required due to the displacement caused by the elevated floor access way. Include the glass guard rail and alterations at the wooden stage. Include all patching of existing surfaces.

1.5.2. Alternate #1 Cost: forty eight thousand seven hundred and ⁰⁰/₁₀₀
Dollars
(\$ 48,700.⁰⁰), in lawful money of the United States of America.

1.5.3. Alternate #2: Complete repair and refinishing of the existing wood stage. Repair water damaged areas with new matching wood. Repair stage nosing with matching materials. Replace heavy duty rubber base around perimeter of the stage.

1.5.4. Alternate #2 Cost: Seven thousand seven hundred and ⁰⁰/₁₀₀
Dollars
(\$ 7700.⁰⁰), in lawful money of the United States of America.

1.6. OFFER:

Having examined the Place of the Work and all matters referred to in the Instruction to Bidders and the Contract Documents prepared by McKinley & Associates and the State of West Virginia Terms and Conditions & Instruction to Bidders for the above project, we the undersigned, hereby offer to enter into a Contract to perform the Work for the Sum of:

EXHIBIT "A"

DCH13059 - BID FORM and Contractors' Bid Form

1.6.1. Two hundred eighty three thousand seven hundred and ⁰⁰/₁₀₀ Dollars

(\$ 283,700.⁰⁰), in lawful money of the United States of America.

1.6.2. We have included the required documents as required by the Instructions to Bidders.

1.6.2.1. Bid Bond is included.

1.6.2.2. Bid Includes the following:

1.6.2.2.1. West Virginia Contractor's License number, Drug Free Workplace Affidavit, and Purchasing Affidavit.

1.6.2.2.2. All applicable federal taxes and State of West Virginia taxes are included in the Bid Sum.

1.7. ACCEPTANCE:

1.7.1. This offer shall be open to acceptance and is irrevocable for 60 days from the bid closing date.

1.8. CONTRACT TIME

1.8.1. If this Bid is accepted we will:

1.8.2. Complete the Work in 120 Calendar Days from the Notice to Proceed.

1.9. LIQUIDATED DAMAGES

1.9.1. The Contractor agrees to pay Liquidated Damages in the amount of Five Hundred Dollars (\$500.00) for every calendar day the project extends beyond the schedule noted in the Bid Form.

1.10. CHANGES TO THE WORK

1.10.1. See Section 00 7300 Supplementary Conditions, Article 7.3 in the Project Manual

1.10.2. When Architect establishes that the method of valuation for Changes in the Work will be net cost plus a percentage fee in accordance with General Conditions, our percentage fee will be:

1.10.2.1. 15 Percent overhead and profit on the net cost of our own work.

1.10.2.2. 15 Percent on the cost of work done by any Subcontractor.

1.10.3. On work deleted from the Contract, our credit to Owner shall be Architect-approved net cost plus 2% of the overhead and profit percentage noted above.

1.11. ADDENDA

1.11.1. The enclosed addendum acknowledgement has been fully executed and enclosed with the bid.

1.12. CONTRACTOR'S LICENSE

1.12.1. West Virginia Code 21-11-2 requires that all persons desiring to perform contractual work in this State must be duly licensed. The West Virginia Contractors' Board is empowered to issue the Contractors' license. Application for a Contractors' license may be made by contacting the West Virginia Division of Labor, Building 6, Room B749, State Capitol Complex, Charleston, West Virginia, 25305. Telephone

RFQ No. DCH13059

STATE OF WEST VIRGINIA
Purchasing Division

PURCHASING AFFIDAVIT

MANDATE: Under W. Va. Code §5A-3-10a, no contract or renewal of any contract may be awarded by the state or any of its political subdivisions to any vendor or prospective vendor when the vendor or prospective vendor or a related party to the vendor or prospective vendor is a debtor and: (1) the debt owed is an amount greater than one thousand dollars in the aggregate; or (2) the debtor is in employer default.

EXCEPTION: The prohibition listed above does not apply where a vendor has contested any tax administered pursuant to chapter eleven of the W. Va. Code, workers' compensation premium, permit fee or environmental fee or assessment and the matter has not become final or where the vendor has entered into a payment plan or agreement and the vendor is not in default of any of the provisions of such plan or agreement.

DEFINITIONS:

"Debt" means any assessment, premium, penalty, fine, tax or other amount of money owed to the state or any of its political subdivisions because of a judgment, fine, permit violation, license assessment, defaulted workers' compensation premium, penalty or other assessment presently delinquent or due and required to be paid to the state or any of its political subdivisions, including any interest or additional penalties accrued thereon.

"Employer default" means having an outstanding balance or liability to the old fund or to the uninsured employers' fund or being in policy default, as defined in W. Va. Code § 23-2c-2, failure to maintain mandatory workers' compensation coverage, or failure to fully meet its obligations as a workers' compensation self-insured employer. An employer is not in employer default if it has entered into a repayment agreement with the Insurance Commissioner and remains in compliance with the obligations under the repayment agreement.

"Related party" means a party, whether an individual, corporation, partnership, association, limited liability company or any other form or business association or other entity whatsoever, related to any vendor by blood, marriage, ownership or contract through which the party has a relationship of ownership or other interest with the vendor so that the party will actually or by effect receive or control a portion of the benefit, profit or other consideration from performance of a vendor contract with the party receiving an amount that meets or exceeds five percent of the total contract amount.

AFFIRMATION: By signing this form, the vendor's authorized signer affirms and acknowledges under penalty of law for false swearing (W. Va. Code §61-5-3) that neither vendor nor any related party owe a debt as defined above and that neither vendor nor any related party are in employer default as defined above, unless the debt or employer default is permitted under the exception above.

BID BOND

KNOW ALL MEN BY THESE PRESENTS, That we, the undersigned, N-Powell Company, Inc.
of Weirton, West Virginia, as Principal, and Western Surety Company
of Sioux Falls, South Dakota, a corporation organized and existing under the laws of the State of
South Dakota with its principal office in the City of Sioux Falls, as Surety, are held and firmly bound unto the State
of West Virginia, as Oblige, in the penal sum of Five Percent (5%) of Bid (\$) for the payment of which,
well and truly to be made, we jointly and severally bind ourselves, our heirs, administrators, executors, successors and assigns.

The Condition of the above obligation is such that whereas the Principal has submitted to the Purchasing Section of the
Department of Administration a certain bid or proposal, attached hereto and made a part hereof, to enter into a contract in writing for
Enhancement of the Theater and Restrooms at Grave Creek Archeological Complex, Moundsville, WV

NOW THEREFORE,

- (a) If said bid shall be rejected, or
- (b) If said bid shall be accepted and the Principal shall enter into a contract in accordance with the bid or proposal attached hereto and shall furnish any other bonds and insurance required by the bid or proposal, and shall in all other respects perform the agreement created by the acceptance of said bid, then this obligation shall be null and void, otherwise this obligation shall remain in full force and effect. It is expressly understood and agreed that the liability of the Surety for any and all claims hereunder shall, in no event, exceed the penal amount of this obligation as herein stated.

The Surety, for the value received, hereby stipulates and agrees that the obligations of said Surety and its bond shall be in no way impaired or affected by any extension of the time within which the Oblige may accept such bid, and said Surety does hereby waive notice of any such extension.

IN WITNESS WHEREOF, Principal and Surety have hereunto set their hands and seals, and such of them as are corporations have caused their corporate seals to be affixed hereunto and these presents to be signed by their proper officers, this
23rd day of April, 20 13.

Certificate of Achievement

AWARDED TO:

Jason Godek

For successfully completing Biamp Systems' Audia Training Course

ON:

April 07, 2004

AWARDED BY:

Ned Ludlum, Training Director

B I A M P

...your partner in audio excellence!

Certified Technology Specialist

Jason Godek

has been examined and has demonstrated competence in all technical aspects of a Certified Technology Specialist, has met the requirements of the InfoComm independent Certification Committee necessary for professional competency, is in good standing in the Directory of Certified Technology Specialists, has agreed to abide by the CTS Code of Ethics and Conduct, and is therefore entitled to use the name Certified Technology Specialist and the CTS® designation.

Effective Date
March 12, 2010
Date of Expiration
March 31, 2013
Certification Number
1274080

Spencer Bullins, CTS
Chair, InfoComm independent
Certification Committee

infoComm
INTERNATIONAL®

The InfoComm Certified Technology Specialist certification is accredited by the American National Standards Institute (ANSI) under the International Standard ISO/IEC 17024 General Requirements for Bodies Operating Certification Schemes of Persons program.

ERK Series Enclosure

Middle Atlantic Products, Inc.

**SEISMIC RATED**

The ERK Series 19" welded rack enclosures
Advanced manufacturing techniques provide highest quality and lowest price

Features

- Fully welded construction
- 1/8" thick structural steel internal braces
- UL listed
- Seismic rated (when used with ERK-Z4 option)
- 22" OD width, available 20" or 25" OD depth
- 1/2", 3/4", 1" & 1 1/2" electrical knockouts on removable rear plates
- Standard solid front, optional rear 11-gauge 10-32 threaded rackrail standard
- Keylocked solid rear door standard, optional vented rear doors available
- Optional front doors available
- Configurable top options on 44, 40, and 35 space sizes
- Durable black textured powder coat finish

ERK-4425

CABINET ACCESSORIES

ADDITIONAL RACKRAIL KIT
CASTER BASE
COPPER BUS BAR
CRATING SERVICE
DOCUMENT POCKET
DOOR LATCH
LEVELING FEET
SEISMIC FLOOR ANCHOR BRACKETS
CONFIGURABLE TOPS
TOP RAILS
UNIVERSAL FRONT DOORS
VENTED REAR DOORS
WRINKLE TOUCH-UP PAINT
RISER BASES

for details- see the universal cabinet options pages of the Master catalog

Architects' and Engineers' Specifications

- ERK shall be M.A.P. model number ERK-XXYY (X=rackspaces req'd. Y= rack depth req'd.) (See chart prior to determining X & Y.)
- The ERK rack shall be constructed of the following materials:
 1. Rack top and bottom shall be 16-gauge CR Steel
 2. Sides shall be 16-gauge steel welded to structural supports of 16-gauge steel, giving an 1/8" thick structure
 3. Front rack rail shall be 11-gauge steel, with tapped 10-32 holes in universal E.I.A. spacing
 4. Rear doors shall be of 18-gauge CR Steel
 5. The ERK series rack shall be phosphate pre-treated and finished in a durable black powder coat
 6. The ERK shall be of welded construction

OPTIONS

- Front doors shall be 16-gauge steel & available as part #FD-XX (solid), VFD-XX (vented), PFD-XX (plexi), (X=# of rack spaces of ERK rack)
- Vented rear doors shall be 16-gauge steel & available as part #ERK-VRD-XX, (X=# of rackspaces of ERK rack)
- Top panels, 16-gauge steel, in 4 styles - part # ERK-ST (blank), #ERK-10FT (10" fan), #ERK-4FT (three 4 1/2" fans), #ERK-VT (vented)
- Caster base, four casters shall have a total weight capacity of 1300 pounds, part # CBS-ERK-YY (Y= cabinet depth)
- Leveling feet part # LF, shall be 3/8" threaded steel, adjustable from top or bottom
- Keyless Latch, replaces keylock & fits front & rear doors, part # LATCH
- Lacer strip, heavily perforated, 78" long, 11-gauge steel, part # LACE
- Rear rail kit, 11-gauge, 10-32 threaded, sold in pairs, hardware included, part # ERK-RRXX (X=# of rackspaces)
- Seismic Zone-4 compliancy floor anchor kit, part# ERK-Z4
- AX-S option available (See AX-S Spec sheet 96-055S)

19" EIA Rackmount Panels – 20A Corded

Description:

The rackmount, 4-step sequential power panel with surge suppression and alarm interface is available with rocker or key-switch activation. The 1U steel chassis features a total of 9 outlets (6 switched, 3 unswitched) for sequential activation/deactivation of connected equipment. Delay between sequenced steps can be adjusted (0.5-10 seconds) using a small screwdriver (not included) to avoid unintended changes. ETL-listed in the U.S. and Canada to UL Standard 60065, panel has a power rating of 120V AC, 60Hz/20A with EMI/RFI filtering. Includes 9-ft. cord with NEMA 5-20P plug.

Rear termination blocks accommodate remote switches, external triggers and an alarm system interface for use where mandated by fire code. Includes two dry contact closures (steps 5 and 6) for triggering remote power control units (RPC-series units not included). Switches can be overridden for life safety systems where fire code mandates an alarm interface. Some models also include optional surge suppression function that defeats surges up to 72,000A and is UL1449-2 / ANSI C62.41-compliant.

Features:

- **Total of 9 outlets:** 6 switched (2-single on back, 2-duplex on back); 3 unswitched (1-single on front, 2-single on back).
- **Power Rating:** 120VAC, 60Hz, 20A (each receptacle rated 15A)
- **Actuation Switch:** front panel rocker- or key-switch with momentary contacts (normally open SPST) plus rear barrier strip termination blocks for momentary (normally open) remote switches.
- **Alarm Interface:** lock on, lock off and switch lock functions for alarm system or master control panel applications.
- **External Control Connections:** plug-in barrier strip terminal blocks
- **EMI/RFI Filter:** 19dB@500kHz, 42dB@30MHz
- **Dimensions:** 19"W x 1.75"H (1U) x 9"D
- **Made in the U.S.A.**

Optional:

- **Advanced Surge Suppression:** some models include surge suppression: UL1449-2 adjunct results: 1000 surges, 6000 volts, 3000A, C1 and B3 waveforms (IEEE C62.41), no failures.
 - LEDs indicate status: if one section of the surge suppressor has reduced protection, there are two additional sections available to safeguard equipment.
 - Initial Clamping Voltage: 205V, UL rating 330V
 - Endurance: IEEE C62.41-1991, B3 (C1), Pulses (lifetime): 1kv≥1,000,000; 3kv≥100,000; 6kv≥5000
 - Transient Noise Reduction: 25dB@100kHz, 50dB@1MHz
 - Response Time: less than 5 nanoseconds
 - Applicable Standards: IEEE standard 587-80 A & B, IEEE standard C62.41-1991, IEC 1000-4-5-1995 (IEC 801-5).
 - Protection Mode: line to neutral, zero ground leakage.

The 19" EIA rackmount power panel is available with a key switch or rocker switch (shown). This model also includes the optional surge suppression function.

Panel includes 9-ft. cord with NEMA 5-20 plug.

A & E Specifications:

The sequential AC rackmount power panel shall be Lowell Model _____, It shall be ETL-listed and have a power rating of 120VAC, 60Hz/20A with EMI/RFI filtering and a total of 9 outlets (6 switched, 3 unswitched) and 2 steps providing contact closures to sequentially activate/deactivate equipment (4-6 steps) with a sequence delay of 0.5 to 10 seconds. It shall be housed in a 1U rackmount chassis with color-coded LEDs. Front activation shall be via a _____ (rocker or key) switch.

(OPTIONAL: It shall provide surge protection.)

Model No.	Formerly	Description
ACR-SCS4-2009-RT2	---	20A – AC Rackmount Panel (1U) with sequencing, remote control, rocker-switch
ACR-SCS4-2009K-RT2	---	20A – AC Rackmount Panel (1U) with sequencing, remote control, key-switch
ACS-SCS4-2009-RT2	---	20A – AC Rackmount Panel (1U) with sequencing, remote control, advanced surge suppression, rocker-switch
ACR-2009-SPSQK	ACS-SCS4-2009K-RT2	20A – AC Rackmount Panel (1U) with sequencing, remote control, advanced surge suppression, key-switch

ALARM SYSTEM INTERFACE

If required by local building code, facility usage, or the Fire Marshal, the system switches can be overridden and the system controlled by contact closures provided by the fire alarm panel or other control system. A maintained contact between the "com" terminal and any of the terminals shown here will provide the following functions.

Lock Off: A maintained contact between the "COM" terminal and the "LOCK-OFF" terminal will turn the system off and keep it off regardless of other switch activations. If the system is already off, it will be kept off.

Lock On: A maintained contact between the "COM" terminal and the "LOCK-ON" terminal will turn the system on and keep it on regardless of other switch activations. If the system is already on, it will be kept on.

Switch Lock: A maintained contact between the "COM" terminal and the "SWITCH-LOCK" terminal will lock the system in its current state, either on or off, regardless of any other switch activations.

Caution: Do not allow alarm system to make more than one of the contacts described above at the same time. Controller board damage may result.

RPC TRIGGER CONNECTIONS

Multiple RPC-series remote power control units can be connected to outputs 5 and 6 (60 max. each, dependent upon limits of electrical panel). Order RPC units separately.

REMOTE SWITCH CONNECTIONS

Connect a maximum of 5 remote MOMENTARY switches. Order switches separately.*

* See momentary switches:

- **Models with 2 LEDs:** RPSB2-MP, RPSB2-MKP, RPSW2-MP, RPSW2-MKP, RPSB2-MR, RPSB2-MKR
- **Models with 1 LED:** RPSB-MP, RPSB-MKP, RPSW-MP, RPSW-MKP, RPSB-MR, RPSB-MKR

Maximum wire distances: 24-ga. 20,000 ft. (approximately 3.5 miles); 22-ga. 31,200 ft. (approx. 5.5 miles); 18-ga. 76,800 ft. (approx. 13.5 miles).

115 Volt Rackmount Power Strips

Middle Atlantic Products, Inc.

EIA/TIA Compliant

UL US LISTED

Rackmount units provide economical 15 and 20 amp power distribution

Features

- UL Listed (file # E204950)
- Available in 15 and 20 amp Models
- 8 circuit-breaker protected rear outlets
- Enhanced surge protection does not introduce potentially damaging ground contamination and noise (PD-915 and PD-815 Series only)
- Two models available with front outlet and illuminated power switch or pilot light for status indication
- Choice of finishes available: Black Brushed and Anodized, Silver Brushed and Anodized, Black Powdercoat

Architects' and Engineers' Specifications

Rackmount power strip shall be Middle Atlantic Products model # _ (refer to chart), with a _ amp capacity (refer to chart), differential and common mode surge and spike protection (surge and spike protection available on 15 amp power only) and EMI filtering. Enhanced surge protection shall not introduce potentially damaging ground contamination and noise (PD-915 and PD-815 Series only). Rackmount power strip shall operate on 115 volt AC/60Hz current. Rackmount power strip shall include 9' 14/3 power cord with _ (refer to chart) plug, 8 rear outlets (refer to chart), _ front outlet(s) (NEMA 5-15R), and _ amp circuit breaker located on the power strip's _ (refer to chart). Rackmount power strip shall occupy one rackspace and be constructed of 18-gauge phosphate pre-treated steel with a _ finish (refer to chart). Rackmount power strip shall be warranted to be free from defects in materials and workmanship under normal use and conditions for a period of 3 years. Rackmount power strip shall be UL listed in the US and Canada.

- Nominal line voltage: 120 VAC
- Maximum line current: 15 Amps
- Maximum allowable voltage: 125 VAC (RMS)
 - Maximum continuous voltage differential applied between line and neutral
 - Maximum clamping voltage: 395 volts@100 amps
- Peak impulse current (8/20 micro seconds):
 - 30,000 amps, one time
 - 21,000 amps, two times within 5 minutes
 - 9,000 amps, ten times within 2 minutes
 - Maximum peak impulse current pulse as defined between line and neutral
 - Maximum multiple impulse current derated per spec

- Response time: Instantaneous (Less than 1 nanosecond)
- EMI/ RF Suppression: More than 20 db
 - Calculated line to neutral, 100 KHz to 1 MHz suppression based upon nominal impedance

NEXIA_{CS} is a digital signal processor with 10 mic/line inputs and 6 independent mix outputs. Intended for a variety of conferencing applications such as boardrooms, courtrooms, and council chambers, NEXIA_{CS} includes a broad selection of audio components, routing options, and signal processing. The internal system design is completely user definable via PC software, and can be controlled via dedicated software screens, RS-232 control systems, and/or a variety of optional remote control devices. Multi-unit NEXIA systems can be created utilizing Ethernet and NexLink™ digital audio linking.

FEATURES

- 10 balanced mic/line inputs on plug-in barrier strip
- 6 balanced outputs on plug-in barrier strip
- Ethernet port for software configuration/control
- serial port for third-party RS-232 remote control
- remote control bus for dedicated control panels
- NexLink ports for multi-unit system designs
- NEXIA software for Windows® 2000/XP
- pre-configured I/O with definable processing
- mix, route, combine, EQ, delay, control, etc.
- **CE** marked and **CSA** tested to UL 6500

ARCHITECTS & ENGINEERS SPECIFICATION

The DSP conference system shall provide ten balanced mic/line inputs and six balanced mic/line outputs on plug-in barrier-strip connectors. Inputs and outputs shall be analog, with internal 24-bit A/D & D/A converters operating at a sample rate of 48kHz. All internal processing shall be digital (DSP). NexLink™ connections shall allow sharing of digital audio within multi-unit systems.

Software shall be provided for creating/connecting DSP system components within each hardware unit. Available system components shall include (but not be limited to) various forms of: mixers, equalizers, filters, crossovers, dynamics/gain controls, routers, delays, remote controls, meters, generators, and diagnostics. Ethernet communications shall be utilized for software control and configuration. After initial programming, processors may be controlled via dedicated software screens, third-party RS-232 control systems, and/or optional remote control devices. Software shall operate on a PC computer, with network card installed, running Windows® 2000/XP.

The DSP conference system shall be NEXIA™ CS.

Instruction Sheet

UAD4

CAT. NO. 301614100 600-780 MHz

CAT. NO. 301614101 780-900 MHz

AMPLIFIED UHF

ANTENNA SPLITTER PN 804036 Rev A

General Description

The UAD4 Amplified Antenna Splitter makes it possible to operate four UHF wireless diversity microphone receivers on four separate frequencies using only two antennas.

It also features a high degree of output isolation; a necessity in multi-frequency systems to prevent intermodulation.

The UAD4 Splitter is compatible with Telex UHF diversity wireless receivers.

SPECIFICATIONS

Frequency Range 301614100	600-780 MHz
301614101	780-900 MHz
3rd Order Intercept Output	greater than 18 dbm
Net Gain	greater than 2 dB
Noise Figure	less than 3 dB
Output Isolation	greater than 20 dB
Connectors, Antenna	Standard TNC receptacles
Power Requirements	100-240VAC 50/60Hz

Features

The UAD4 is equipped with TNC type connectors. Low loss coaxial cables are also supplied for splitter to receiver antenna jack connections. The UAD4 has an internal power supply. Power out jacks and cables are provided to supply up to four receivers thus eliminating excess power supply clutter.

Rack panel mounting "ears" allow the UAD4 to be mounted in a standard 19 inch equipment rack. "Knock outs" in the ears allow front connection of antenna cables.

TELEX®

FMR-500 UHF

WIRELESS MICROPHONE SYSTEM

UHF

AGILE

1112
FREQUENCIES

UP TO
10+
SIMULTANEOUS
SYSTEMS

*Power,
Performance,
Flexibility, and
Simplicity.*

Key Features

- Up to 10 systems can operate simultaneously from the pre-set groups of channels in one operating band. Groups of 16 coordinated channels between the two bands are also pre-set.
- Advanced ClearScan™ and one touch Auto ClearScan automatic group and channel selections, for quick and easy system setup.
- Completely programmable in 25kHz steps across 28MHz for 1112 possible frequencies
- Backlit receiver LCD display shows the Group/Channel, Frequency, transmitter battery status, diversity operation, and RF and Audio level meters.
- Balanced XLR audio output for Microphone or Line level signals and a 1/4 inch line level jack to match any application.
- Fourth generation Posi-Phase™ diversity and advanced audio circuits provide maximum range and professional sound quality.
- Includes single and dual rack mount hardware with front mount antenna cables.
- “Smart” battery circuit means there is no way to put the battery in wrong.
- Tone Code plus Amplitude squelch with one button on/off.
- Three year warranty.

The FMR-500 brings professional features and performance to the small and medium sized wireless microphone installs that are so popular today. One touch Auto ClearScan™ selects the clearest channel in the clearest group of compatible channels in just seconds with the push of one button. The new HT-500 programmable handheld microphone transmitter is the smallest Telex has ever built and it has a screw-on battery cover that also hides the controls, and an LCD display. Choose the EV® N/D 767a dynamic microphone or the EV RE410 condenser microphone for high quality vocal performance. The WT-500 bodypack transmitter features a cell phone style beltclip, dual latching battery door, and a TA4 connector with a wide variety of lapel and headworn microphone options. The combination of sound and RF features are hard to beat at twice the price.

TELEX® FMR500 UHF WIRELESS MICROPHONE SYSTEM

SPECIFICATIONS

FMR-500 Receiver

FRONT PANEL

REAR PANEL

Receiver Type	Synthesized PLL
Frequency Range (RF)	A Band 648 – 676 MHz B Band 696 – 724 MHz
Number of Channels	1112 possible frequencies Programmable in 25 kHz steps
Modulation	+/- 40 kHz
Diversity	Digital Posi-Phase™ True Diversity
RF Sensitivity	< 1.0 mV for 12 dB SINAD
Image Rejection	> 60dB
Squelch	Tone Code plus Amplitude
Ultimate Quieting	> 100dB
FCC Certification	Approved under Part 15
Power Requirements	12 V AC/DC 300mA
Operating Temperature	-7° to 49° C (20° to 120° F)
Dimensions	1.72" H x 7.5" W x 5.9" D 43.69mm H x 190.50mm W x 150mm D

AUDIO PARAMETERS:

Frequency Response	50 – 15kHz +/- 2dB
Balanced Output	(max @ 40kHz deviation)
Mic Position	-10dBV
Line Position	adjustable 10mV - 2V RMS
Unbalanced Output	adjustable 10mV - 1V RMS
Distortion	<1.0%, 0.5% typical (ref 1kHz, 40kHz deviation)
Signal-to-Noise Ratio	>100dB A Weighted
Dynamic Range	>100dB

Transmitters WT-500 and HT-500

Radiated Output	30 mW typical
Microphone Head ElectroVoice 767a	N/D 767a supercardioid N/DYM Dynamic
Microphone Head ElectroVoice RE410	RE410 cardioid condenser
Standard Lavalier Microphone	ELM-22S MicroMini™ Omni-Directional Condenser
TA4 Connector Wiring	Pin 1: Ground; Pin 2 Mic Input; Pin 3: +5V bias; Pin 4: +5V bias through a 3k Ohm resistor
Audio Gain Adjustment	40 dB (26dB HT500)
Power Requirements	9 Volt Alkaline Battery
Battery Life (Typical)	> 8 hours with 9-Volt Alkaline Typical
Bodypack Antenna	Flexible external 1/4 wave
Handheld Antenna	Internal 1/2 wave
Dimensions (Handheld)	9.4 in. (24.0cm) Long
Dimensions (Bodypack)	3.8 in. H x 2.38 in. W x 0.92 in. D 96.5 mm H x 60.5 mm W x 23.4 mm D

PERSONAL
listening systems

SoundMate

The *SoundMate*™

Personal Listening System

Telex SoundMate™ personal listening systems help overcome background noise and poor building acoustics that can make listening difficult for the hearing impaired listener. A Telex base station, portable belt pack transmitter, your choice of receivers, and a wide assortment of accessories allow you to meet the needs of individuals who require hearing assistance. These listening systems are even compatible with a variety of hearing instrument styles for hearing aid users. Let Telex, the acknowledged leader in personal assistive listening products, help you select the system that's right for any listening environment.

AUDIO SOURCE: Amplifier, Direct Microphone, or Mixer.

System Versatility - A sound system amplifier, mixer or wired microphone can plug directly into the ST-300 base station transmitter. The ST-300 then sends the audio signal to an *unlimited* number of personal receivers.

T R A N S M I T T E R S

BACK

FRONT

ST 300

ST-300 TRANSMITTER The ST-300 Base Transmitter features 17 user selectable frequencies digitally controlled from the front panel control buttons, a headphone jack with adjustable level for input signal monitoring, and a backlit LCD display that shows Channel, Frequency and Audio Input Level. On the back of the unit is a balanced XLR-3F as well as an unbalanced 1/4" input. Front panel controls and LCD display allow the user to select mic, line, and 70 volt input options, attenuate the input levels and change hi/low RF transmit power. A new feature called Enhanced Dynamic Range (E.D.R.) works with the SR-400 receiver to provide clearer, more dynamic audio.

FRONT

TOP

PST 170

THE PST-170 BELT PACK TRANSMITTER

The PST-170 Belt Pack Transmitter may be set to any one of the 17 channels which is displayed on the backlit LCD, and operates on frequencies in the 72-76 MHz band. It is lightweight, battery operated and includes a small lapel microphone for convenient portable use. The PST-170 has two audio input jacks. The Auxiliary input is designed to allow the use of audio devices such as teacher's aids or tape players. The second jack is normally used with a microphone and is located on the top panel. The PST-170 is also compatible with the E.D.R. feature of the SR-400.

FRONT

TOP

SR 400

THE SR-400 17 CHANNEL RECEIVER is the perfect solution to multiple transmitter hearing assistance systems. The SR-400 features an advanced digital PLL synthesizer to tune all 17 narrow-band frequencies offered in the 72-76 MHz band and a backlit LCD display. The receiver also includes a special high frequency contour filter and boost switch to increase the intelligibility of the audio signal, and E.D.R. for increased dynamic range. Additional features include a battery saving automatic power shutoff when the earphone is unplugged.

THE SR-50 SINGLE CHANNEL RECEIVER provides clear reception and the simplicity of a fixed channel. This economical receiver operates on one of 17 fixed narrow-band frequencies in the 72-76 MHz band. Ergonomic raised volume control knob make level adjustments easily accessible by feel. Recessed headphone jack provides extra protection for earphone connections. Two AA batteries give up to 30 hours continuous battery life.

SPECIFICATIONS

There are 17 standard frequency options for the following products:
72.1, 72.2, 72.3, 72.4, 72.5, 72.6, 72.7, 72.8, 72.9, 74.7, 75.3, 75.4, 75.5, 75.6, 75.7, 75.8, 75.9 MHz

TRANSMITTERS

ST-300 17-CHANNEL TRANSMITTER (CATALOG NO. 71912-000)	
RF Frequency Range	72 to 76 MHz
Modulation:	FM ± 25 KHz deviation
Signal-To-Noise Ratio	58 dB (77 dB with E.D.R.)
Maximum Deviation	± 25 KHz
Audio Input	Balanced XLR-3F and unbalanced 1/4"
Antenna	1/4" wave telescoping omnidirectional
Audio Controls	Audio input level, monitor jack volume, E.D.R.
Power Requirements	13-20 Vdc or 12 Vac; 115Vac 60 Hz @ 300 mA plug-in wallpack power supply
Dimensions	H 1-3/4" (4.5 cm) x W 7-1/2" (19.2 cm) x D 5.9" (15 cm)
FCC ID	B5DM522
Backlit LCD Display	Ch., Freq, Audio Meter, Input setup, RF level, and E.D.R.
RF Output Power @ 3M	
Normal	25K μ V/m
High	80K μ V/m
PST-170 17-CHANNEL TRANSMITTER (CATALOG NO. 71914-000)	
Audio Input Characteristics	Mic TA4M connector, 7.75 mV RMS input for ± 25 KHz deviation. Impedance, 10K Ohms, nominal. Aux. Input, Female 3.5mm. 100mV Unbalanced, 100K Ohm nominal
Antenna	Permanently attached trailing wire
Modulation:	FM ± 25 KHz deviation
Frequency Response (System)	100 Hz to 10,000 Hz
System Signal-To-Noise	58 dB (77 dB with E.D.R.)
Pre-emphasis	115 μ seconds
Maximum RF Power	80K μ V/m @ 3 m
Power Requirements	(2) AA batteries, Alkaline, NiMH or NICAD 8 hours Alkaline, 8 hours NiMH, 4 hours NICAD
FCC ID	B5DM521

In accordance with Federal Communications Commission (FCC) rules and regulations, Telex SoundMate personal listening systems are intended only for use in providing auditory assistance to the handicapped and are not intended for use by the general public.

RECEIVERS

SR-400 17-CHANNEL RECEIVER (CATALOG NO. 71913-000)	
Power Requirements	(2) AA batteries, Alkaline, NiMH or NICAD 20 hours Alkaline, 16 hours NiMH, 8 hours NICAD
Audio Frequency Response	<3 dB Variation (100 Hz-10 KHz)
Modulation:	FM ± 25 KHz deviation
Sensitivity	0.5 μ V typical, 1.0 μ V maximum, 12 dB SINAD
Image Rejection	>65 dB
Signal-To-Noise Ratio	>77 dB with E.D.R.
Distortion	<2% T.H.D.
Audio Output @ 10% distortion	into 8 Ohms: 2.0V / 15mW 3.0V / 80mV into 32 Ohms: 2.0V / 10mW 3.0V / 50mW
Antenna Type	omnidirectional in earphone cord
Audio Controls	Volume, On/Off, High frequency boost control, E.D.R.
Earphone Connector Type	3.5 mm stereo or mono
Dimensions	H 4" (101 mm) x W 2-3/4" (70 mm) x D 1" (25 mm)
Visual Indicators	Backlit LCD Channel, Hi Freq, E.D.R.
Charger Contacts	Bottom of unit
FCC	Complies with Part 15
SR-50 RECEIVER (CATALOG NO. 71155-XXX*)	
Power Requirements	(2) AA batteries, Alkaline, NiMH or NICAD 30 hours Alkaline, 20 hours NiMH, 10 hours NICAD
Audio Frequency Response	<3 dB Variation (100 Hz-10 KHz)
Sensitivity	0.5 μ V typical, 1.0 μ V maximum, 12 dB SINAD
Signal-To-Noise @ 1 mV Input	>60 dB
Distortion	<2% T.H.D.
Audio Output @ 10% distortion	into 8 Ohms: 2.0V / 15mW 3.0V / 80mV into 32 Ohms: 2.0V / 10mW 3.0V / 50mW
Antenna Type	omnidirectional in earphone cord
Controls	Volume/On/Off Switch
Dimensions	H 4" (101 mm) x W 2-3/4" (70 mm) x D 1" (25 mm)
Visual Indicators	Red LED On Indicator
Earphone Connector Type	3.5 mm stereo or mono
Charger Contacts	Bottom of unit
FCC	Complies with Part 15

* The last three digits in the transmitter catalog number (XXX) will be determined by the frequency that is selected.

DBT-1713UD

Universal Audio/Video Player

DENON

Denon 3D Universal disc player with versatile media and streaming service supports

Denon's 3D 'Universal' disc playback technology provides playback of virtually all popular disc formats, including high definition Blu-ray discs, as well as DVD-Audio and Super Audio CD high resolution stereo and multi-channel music format discs, along with DVD-Video and music CD playback. The DBT-1713UD also supports playback of your locally stored music, photo and video content via network (DLNA 1.5) and USB, as well as versatile online video streaming services such as Netflix, Youtube, Hulu Plus, and VUDU, all with Denon superb audio and video technology.

Features

New Features

- Design Matching to the new Denon A/V Receivers
- Wide variety of video streaming, movies, videos, TV shows (YouTube, Netflix, VUDU, Hulu Plus)

- Quick response for disc loading and playback (20% faster than current model)
- Quick Start mode, enables fast access to play
- New servo circuit, to reduce moving noise of pickup mechanism
- HDMI cable included (HIGH SPEED HDMI™ CABLE)

*Netflix is available in certain countries. Unlimited membership required. More information at www.netflix.com.

Denon Technologies for superior sound and picture quality

- Universal Disc Playability (Blu-ray, DVD-Audio, DVD-Video, Super Audio CD, CD)
- DLNA 1.5 Support and front USB port for music, photo, video contents playback
- 1080p/24 video output, to bring out the full quality of film
- HDMI source direct mode to output native resolution of the disc
- Picture adjustments
- Playing high-quality audio, using by pure direct function

Build Quality

- Fully Shielded Mechanism, suppress internal and external vibrations and electromagnetic noises for high precision disc playability at all times
- Separated 4-block construction for faithful playback of audio and video signals (Disc mechanism, Video/Audio, Power supply, and Indicator block)
- Fan-less construction for noise reduction
- Solid cabinet and large foot

Ease of Use

- Easy-to-use Multi language GUI and CD-ROM interactive manual
- User-friendly GUI
- Easy-to-use remote control handset
 - Glow-key for cursor keys and operation keys
 - Direct access for online video services
 - Remote Control also controls Denon AV receiver for convenience
- New "Denon Remote App" control via 2012 new Denon networking A/V Receivers*1)

Others

- One stereo channel (2ch) output for Multi-zone
- Eco Stand-by mode, lower power consumption (0.3W)
- Detachable AC cord

*1) The DBT-1713UD has remote control functionality by using the new "Denon Remote App" together with Denon new A/V Receiver such as AVR-1713.

Design Matching to the new Denon A/V Receivers

Fully Shielded Mechanism

Easy-to-use remote control handset

Versatile Disc Formats Playability

Compact Control System with Ethernet

Crestron® 2-Series Control Systems are the brain of a complete integrated AV or automation solution. Every audio, video, and environmental element of the home, boardroom, classroom, or command center becomes integrated and accessible through the control system. Crestron 2-Series control systems are unmatched for power, performance and scalability, providing the ideal choice for today's demanding control applications.

The MC2E is a low-cost 2-Series Ethernet control system ideally suited for any application requiring the powerful control engine and Ethernet connectivity of larger Crestron control systems, but with fewer control ports. The MC2E features two built-in COM ports, four IR/Serial ports, four I/O Versiports, four isolated relays, and Ethernet for control of video projectors, plasma displays, switches, DVD players, screens, lifts, and much more. Additional control ports may be added using Cresnet expansion modules, or by "slaving" additional control processors.

2-Series Engine

At the heart of the MC2E is the powerful 2-Series engine. Our exclusive enhanced real-time operating system makes the MC2E the fastest, most reliable control system available.

Cresnet®

Cresnet is the communications backbone for many Crestron touchpanels, keypads, lighting controls, and other devices. The Cresnet bus is a simple, yet flexible 4-wire network that provides rock-solid bidirectional communication for numerous Cresnet devices.

Cresnet Slave Mode

Selectable Cresnet Slave Mode enables the MC2E to be configured as a Cresnet slave device, effectively transforming it into a Cresnet expansion module. Such flexibility can offer a cost-effective solution for system expansion, providing a host of additional control ports in a single module.

Ethernet

Crestron pioneered the IP-based control system to harness the vast possibilities of Ethernet and the Internet for remote control, monitoring, programming, and diagnostics. The MC2E is designed to deliver the world's most advanced IP control solution with full-duplex 10/100 Ethernet, built-in Web server and email client, and support for both static and dynamic IP addressing.

e-Control@2

Our award-winning e-Control 2 XPanel solutions offer the most flexible range of IP control possibilities available. Using a computer or mobile device, e-Control 2 provides an amazing control GUI that looks and behaves just like a Crestron touchpanel.

RoomView™

Every Ethernet-enabled 2-Series control system works directly with Crestron's exclusive RoomView Help Desk software for the industry's most comprehensive facility-wide asset management solution.

SNMP

Built-in SNMP support enables network management of Crestron control systems using third-party SNMP software. As an alternate or supplement to RoomView, SNMP allows full control and monitoring from the IT Help Desk or NOC in a format that's familiar to IT personnel.

SSL

All Ethernet-enabled 2-Series control systems support SSL (Secure Sockets Layer), the industry standard for protecting sensitive network communications.

IR Wireless Option

When equipped with an optional CNXRMIRD IR receiver, the MC2E provides a low-cost wireless control solution using any Crestron IR wireless touchpanel, or a third-party universal IR remote.

> 2-Series engine | Dual-bus architecture

> Cresnet port - master/slave selectable

> 10/100 Ethernet | SSL encryption

> e-Control 2 and RoomView enabled | SNMP support

> 2 Com ports (RS-232/422/485)

> 4 IR/serial ports

> 4 Versiport I/O ports

> 4 Low-voltage relay ports

> IR wireless compatible using CNXRMIRD

> External power pack included

> Single-space EIA rack-mountable

MC2E Compact Control System with Ethernet

SPECIFICATIONS

Memory

SDRAM: 32 MB
NVRAM: 256 KB
Flash: 4 MB

Operating System

Real-time, preemptive multi-threaded/multitasking kernel; FAT32 file system with long names; supports SIMPL Windows™ and SIMPL+®

Ethernet

10/100BaseT, auto-negotiating, full/half duplex, static IP or DHCP/DNS, SSL, TCP/IP, UDP/IP, CIP, SMTP, SNMP, built-in Web server and e-mail client; supports Crestron e-Control@2 XPanel and RoomView™ applications

Connectors

COM A - B : (2) DB9 male, bidirectional RS-232/422/485 ports; Up to 115.2k baud;
Hardware and software handshaking support;
All ports support C2N-NPA8 Network Poll Accelerator
INFRARED-SERIAL OUTPUT A - D : (4) 2-pin 3.5mm detachable terminal blocks, IR/Serial output ports;
IR output up to 1.2 MHz;
1-way serial TTL/RS-232 (0-5 Volts) up to 115.2k baud;
Individual signal generator per port, allowing simultaneous firing of all ports
I/O Versiports 1 - 4 : (1) 5-pin 3.5mm detachable terminal block comprising (4) digital input/output or analog input ports (referenced to GND);
Digital Input: Rated for 0-24 Volts DC, input impedance 20k ohms, logic threshold 1.24 Volts DC;
Digital Output: 250mA sink from maximum 24 Volts DC, catch diodes for use with “real world” loads;
Analog Input: Rated for 0-10 Volts DC, protected to 24 Volts DC maximum, input impedance 20k ohms;
Programmable 5 Volts, 2k ohms pull-up resistor per pin
RELAY OUTPUT 1 - 4 : (1) 8-pin 3.5mm detachable terminal block comprising (4) normally open, isolated relays;
Rated 1 Amp, 30 Volts AC/DC;
MOV arc suppression across contacts
IR IN: (1) 3-pin 3.5mm detachable terminal block;
For connection of the CNXRMIRD IR Receiver (sold separately);
Allows IR wireless control from Crestron or third-party remotes using RC-5 IR commands
LAN: (1) 8-wire RJ45 with 2 LED indicators;
10/100BaseT Ethernet port;
Green LED indicates link status;
Yellow LED indicates Ethernet activity
COMPUTER: (1) DB9 female, RS-232 computer console port
NET: (1) 4-pin 3.5mm detachable terminal block;
Cresnet port, Master/Slave selectable;
Expandable via C2N-NPA8 Network Poll Accelerator
24VDC: (1) 2.1mm barrel DC power jack, 24 Volt DC power input; (PW-2420RU power pack included);
Passes through to NET port to power Cresnet devices

Reset Buttons

HW-R: Hardware reset (reboots the control system)
SW-R: Software reset (restarts the SIMPL program)

LED Indicators

PWR: (1 green) Indicates DC power supplied to unit
NET: (1 yellow) Indicates Cresnet bus activity
MSG: (1 red) Indicates control system has generated an error message
LNK: (1 red) Indicates a valid connection on LAN port
ACT: (1 red) Indicates activity on LAN port

Power Requirements

Power Pack: 2.0 Amps @ 24 Volts DC;
100-240 Volts AC, 50/60 Hz power pack, model PW-2420RU included
Available Cresnet Power: 38 Watts using PW-2420RU power pack (included)
Cresnet Power Usage: 12 Watts (0.5 Amp @ 24 Volts DC) using Cresnet network power (no power pack connected to the 24VDC connector)

Environmental

Temperature: 41° to 113°F (5° to 45°C)
Humidity: 10% to 90% RH (non-condensing)

Enclosure

Chassis: Metal, black matte finish
Faceplate: Extruded aluminum, black matte finish with polycarbonate label overlay
Mounting: Freestanding or 1U 19-inch rack-mountable (adhesive feet and rack ears included)

Dimensions

Height: 1.80 in (46 mm);
1.70 in (44 mm) without feet
Width: 17.03 in (433 mm);
19.0 in (483 mm) with ears
Depth: 8.65 in (220 mm)

Weight

4.3 lbs (2.0 kg)

Available Models

MC2E: Compact Control System with Ethernet

Included Accessories

PW-2420RU Power Pack, Desktop, 24VDC, 2A (50 Watts), Regulated, US/International [Included Quantity: 1]

Available Accessories

C2N-HBLOCK: Multi-type Cresnet Distribution Block
CNSP-XX: Custom Serial Interface Cable
CNXRMIRD: IR Receiver
IRP2: IR Emitter Probe

Notes:

This product may be purchased from an authorized Crestron dealer. To find a dealer, please contact the Crestron sales representative for your area. A list of sales representatives is available online at www.crestron.com/salesreps or by calling 800-237-2041.

MC2E Compact Control System with Ethernet

DM-MD6X1

6x1 DigitalMedia™ Switcher

The DM-MD6X1 delivers an incredibly versatile and cost-effective solution for managing a complete range of digital and analog AV sources in a small conference room or classroom, or as part of a larger DigitalMedia distribution system. High-resolution computer signals, standard and high-definition video, stereo analog and digital multi-channel audio sources are all handled by the DM-MD6X1, providing a perfect standalone switcher or multi-format interface for installation in an equipment rack or presentation lectern.

Additional DigitalMedia (DM) inputs and output allow the DM-MD6X1 to work with the full line of Crestron® DM transmitters, switchers, receivers, and room controllers, affording extensive capabilities for routing and distributing all of today's multimedia AV signal types throughout a single room or larger facility. Combining DM technology with a full complement of analog connections affords a perfect signal converter for integrating DigitalMedia into any analog-based system like Crestron MPS, QuickMedia®, and the CEN-RGBHV Series.

Multimedia Computer/AV Switcher

Inputs on the DM-MD6X1 include multi-format BNC video, RGB, HDMI®, balanced line-level and SPDIF digital audio. The HDMI input supports HDMI with HDCP, handling WUXGA computer resolutions and 1080p60 HDTV with multi-channel lossless audio. The HDMI input can also handle DVI and DisplayPort Multimode signals using an appropriate adapter or dongle^[1]. The RGB input handles analog RGB signals up to WUXGA 1920x1200 pixels, as well as component video up to 1080p60^[2]. The multi-format BNC input also accepts component HDTV signals up to 1080p60, as well as standard definition NTSC/PAL composite and S-Video. Dedicated audio inputs include two stereo balanced line-level analog and one SPDIF coaxial digital.

Additional inputs are easily added at locations up to 450 feet (137 m) away^[3] using DM Transmitters. Three CAT-type DM inputs are provided on the DM-MD6X1, accepting inputs from individual DM Transmitters as well as other DM switchers. A single DM CAT output is provided to drive a DM Receiver/Room Controller at the display location, or to feed another DM switcher. HDMI and analog audio outputs are also included to feed a local video display and audio system. The analog stereo output includes professional balanced terminals and programmable volume control.

DigitalMedia™

As the leader in HDMI and control system technologies, Crestron has developed DigitalMedia, the first complete HD AV distribution system that takes HDMI to a higher level, and allows virtually any mix of AV sources to be distributed throughout the home, office, school, or virtually any other facility.

DigitalMedia distributes uncompressed digital video and audio signals up to 450 feet (137 m) using DM cable^[3]. DigitalMedia thoughtfully manages all of the different signals and devices, matching each source's output to the capabilities of the selected display(s) without using scaling or compression. Every signal is preserved in its native video resolution and audio format, ensuring a pure, lossless signal path throughout.

QuickSwitch HD® Technology

Crestron exclusive QuickSwitch HD technology minimizes the annoying switching latency that plagues typical HDMI switchers. QuickSwitch HD achieves very fast switching of HDMI signals by maintaining a constant HDCP connection with each HDMI device in the system, eliminating the

need to re-authenticate each time a different source is selected.

Keyboard/Mouse Extender

The DM-MD6X1 also functions as a keyboard/mouse extender and switcher, allowing a computer or other USB HID-compliant host device connected to the DM-MD6X1 to be controlled by a keyboard and mouse at the display location using a DM-RMC-100-1 room controller, or at a presenter's location using select DM transmitters.

EDID Format Management

The DM-MD6X1 allows for management of the EDID (Extended Display Identification Data) information that passes between the display devices and input sources in the system. Using Crestron Toolbox™ software, the format and resolution capabilities of each device can be assessed and managed through the DM-MD6X1, ensuring reliable operation by instructing sources to output only the resolutions and formats that can be handled by the displays and system wiring.

CEC Embedded Device Control

The primary objective of every Crestron system is to enable precisely the control desired for a seamless user experience. DigitalMedia provides an alternative to conventional IR and RS-232 device control by harnessing the CEC (Consumer Electronics Control) signal embedded in HDMI. Through its connection to the control system, the DM-MD6X1 provides a gateway for controlling AV devices right through their HDMI connections, potentially eliminating the need for any dedicated control wires or IR probes. Through proper CEC signal management, DigitalMedia allows you to take control of each device in the system as you like.

Easy Setup

The DM-MD6X1 is designed to be placed on a shelf or mounted in an equipment rack or lectern. The front panel provides basic operation right out of the box. User-friendly setup and troubleshooting tools are provided via Crestron Toolbox™ software, performing automatic input and output configuration while letting the installer make intelligent design decisions along the way. The switcher even tests and measures the length of each DM cable, automatically making the appropriate calibrations for optimal signal transmission to each DM device.

DM-MD6X1 6x1 DigitalMedia™ Switcher

A Digital Upgrade for Legacy Systems

The DM-MD6X1 also affords a perfect signal converter for integrating DigitalMedia with analog-based systems like Crestron MPS, QuickMedia®, and the CEN-RGBHV Series. A simple HD15 VGA cable connected between the output of an MPS system and the input of the DM-MD6X1 allows every RGB, component, S-Video, and composite video input on the MPS to be converted to DigitalMedia^[2]. Analog audio is converted similarly through a simple balanced stereo audio cable. The DM-MD6X1's HDMI and DM inputs may also be used to expand the input capabilities of the MPS system to handle digital AV sources, and its analog audio output can easily be fed into any spare input on the MPS to allow the digital audio signals to be amplified and controlled through the MPS system.

Please refer to the DigitalMedia Design Guide, Doc. #4789 for additional information.

- > DigitalMedia™ switcher and interface
- > HDMI®, RGB, and multi-format BNC video inputs
- > Balanced analog and SPDIF audio inputs
- > 3 DM CAT inputs and 1 DM CAT output
- > HDMI and analog stereo audio outputs
- > Integrated USB HID keyboard/mouse extender and switch
- > Supports HDMI with multi-channel lossless audio
- > Supports video resolutions up to WUXGA 1920x1200 and HD 1080p60
- > Detects and reports detailed video and audio input information
- > Performs automatic AV signal format management via EDID
- > Allows cable length to 450 feet using DigitalMedia Cable
- > QuickSwitch HD® technology achieves low-latency HDMI switching
- > Enables device control via CEC
- > Support 3D HDTV via DM in/out
- > Easy setup and diagnostics tools via software
- > Extends the life of analog-based AV systems
- > Built-in power distribution for DM transmitters and room controller
- > 2-space 19-inch rack-mountable

SPECIFICATIONS

Video

Switcher: 6x1 combination digital/analog switch, Crestron QuickSwitch HD®

Input Signal Types: DM CAT (DigitalMedia over shielded twisted-pair copper wire), HDMI®, DVI^[1], DisplayPort Multimode^[1], RGB, component (YPbPr)^[2], S-Video (Y/C)^[2], composite^[2]

Output Signal Types: DM CAT, HDMI, DVI^[1]

Formats: HDMI, DVI, HDCP content protection support, 3D (via DM only), RGBHV up to UXGA/WUXGA, HDTV up to 1080p60, NTSC or PAL

Input Resolutions, HDMI, Progressive: 640x480@60Hz, 720x480@60Hz (480p), 720x576@50Hz (576p), 800x600@60Hz, 848x480@60Hz, 852x480@60Hz, 854x480@60Hz, 1024x768@60Hz, 1024x852@60Hz, 1024x1024@60Hz, 1280x720@50Hz (720p50), 1280x720@60Hz (720p60), 1280x768@60Hz, 1280x800@60Hz, 1280x960@60Hz, 1280x1024@60Hz, 1360x768@60Hz, 1365x1024@60Hz, 1366x768@60Hz, 1400x1050@60Hz, 1440x900@60Hz, 1600x900@60Hz, 1600x1200@60Hz, 1680x1050@60Hz, 1920x1080@24Hz (1080p24), 1920x1080@25Hz (1080p25), 1920x1080@50Hz (1080p50), 1920x1080@60Hz (1080p60), 1920x1200@60Hz, 2048x1080@24Hz, 2048x1152@60Hz, plus any other resolution allowed by HDMI up to 165MHz pixel clock

Input Resolutions, HDMI, Interlaced: 720x480@30Hz (480i), 720x576@25Hz (576i), 1920x1080@25Hz (1080i25), 1920x1080@30Hz (1080i30), plus any other resolution allowed by HDMI up to 165MHz pixel clock

Input Resolutions, RGB: 640x480@60Hz, 720x480@60Hz (480p), 720x576@50Hz (576p), 800x600@60Hz, 848x480@60Hz, 1024x768@60Hz, 1280x720@50Hz (720p50), 1280x720@60Hz (720p60), 1280x768@60Hz, 1280x800@60Hz, 1280x960@60Hz, 1280x1024@60Hz, 1360x768@60Hz, 1366x768@60Hz, 1400x1050@60Hz, 1440x900@60Hz, 1600x1200@60Hz, 1680x1050@60Hz, 1920x1080@24Hz (1080p24), 1920x1080@50Hz (1080p50), 1920x1080@60Hz (1080p60), 1920x1200@60Hz, 2048x1080@24Hz, 2048x1152@60Hz

Input Resolutions, Component: 480i, 576i, 480p, 576p, 720p50, 720p60, 1080i25 (1125 lines), 1080i30, 1080p30, 1080p50 (1125 lines), 1080p60

Input Resolutions, Composite and S-Video: 480i, 576i

Output Resolutions: Matched to inputs

Analog-To-Digital Conversion: 10-bit 165 MHz per each of 3 channels

Audio

Switcher: 6x1 combination digital/analog switch, limited audio breakaway^[4]; independent input compensation and master volume adjustment for analog output

Input Signal Types: DM CAT, HDMI, DisplayPort Multimode^[1], S/PDIF coaxial, analog stereo

Output Signal Types: DM CAT, HDMI, analog stereo

Formats, HDMI and SPDIF: Dolby Digital®, Dolby Digital EX, DTS®, DTS-ES, DTS 96/24, 2ch PCM

Formats, HDMI only: Up to 8ch PCM

Formats, Analog: Stereo 2-Channel

Analog-To-Digital Conversion: 24-bit 48 kHz

Digital-To-Analog Conversion: 24-bit 48 kHz

Volume Gain Range (analog out): -80dB to 0dB, adjustable from 0% to 100%

Input Compensation (analog out): ±10dB per input

Performance (analog): Frequency Response: 20Hz to 20kHz ±0.75dB;

S/N Ratio: >90dB, 20Hz to 20kHz A-weighted;

THD+N: <0.05% @ 1kHz;

Stereo Separation: >90dB

Communications

DigitalMedia: DM CAT, DMNet, HDCP management, EDID format management, CEC

Ethernet: 10BaseT/100BaseTX, auto-switching, auto-negotiating, auto-discovery, full/half duplex, TCP/IP, UDP/IP, CIP, DHCP, RSTP

USB: Supports USB HID class devices

Ethernet Switch

Provides (1) onboard 10BaseT/100BaseTX Ethernet port, (1) internal 10BaseT/100BaseTX Ethernet port for the switcher, and (4) remote 10BaseT/100BaseTX Ethernet ports via select outboard devices

Connectors

VIDEO IN 1: (3) BNC female comprising (1) auto-sensing multi-format analog video input;

Signal Types: Component (YPbPr), S-Video (Y/C), or composite input;

Input Level: 1 Vp-p nominal;

Input Impedance: 75 Ohms nominal

DM-MD6X1 6x1 DigitalMedia™ Switcher

AUDIO OUT: (1) 5-pin 3.5mm detachable terminal block; Balanced/unbalanced stereo line-level output, variable level; Output Impedance: 200 Ohms balanced, 100 Ohms unbalanced; Maximum Output Level: 4 Vrms balanced, 2 Vrms unbalanced

DM IN D/M 4 - 6: (3) DM CAT inputs, each composed of (2) 8-pin RJ45 female, shielded; Connect to DM CAT outputs of DM transmitters or other DM devices via DM-CBL cable^[3]

DM IN 24ABG: (3) 4-pin 3.5mm detachable terminal blocks, DMNet ports; Connect to DMNet ports of DM transmitters or other DM devices via DM-CBL cable^[3]

DM OUT D/M: (1) DM CAT output composed of (2) 8-pin RJ45 female, shielded; Connects to DM CAT input of a DM receiver/room controller, switcher, or other DM device via DM-CBL cable^[3]

DM OUT 24ABG: (1) 4-pin 3.5mm detachable terminal block, DMNet port; Connects to DMNet port of a DM receiver/room controller, switcher, or other DM device via DM-CBL cable^[3]

EXT PWR: (1) 3-pin 3.5mm detachable terminal block, power selection port; Connects to an external power supply^[5], or to the internal power source via a jumper, to power the DM devices connected to DM IN 4 - 6 and DM OUT; Maximum Load: 75 Watts (3.13 Amps @ 24 Volts DC) total for all ports when connected to external power supply^[5], otherwise limited to available DMNet power (see "Power Requirements" below)

HDMI OUT: (1) 19-pin Type A HDMI female; HDMI digital video/audio output; Carries same audio and video signals as DM OUT

USB HID: (1) USB Type B female; USB 1.1 device port for connection to the USB host interface of a computer or other USB HID-compliant host device

LAN: (1) 8-wire RJ45 female w/2 LED indicators; 10BaseT/100BaseTX Ethernet port; Green LED indicates link status; Yellow LED indicates Ethernet activity

100-240V ~2.3A 50/60Hz: (1) IEC C14 male chassis plug, main power input; Mates with removable power cord, included

G: (1) 6-32 screw, chassis ground lug

COMPUTER (front): (1) USB Type B female; USB 1.1 computer console port (6 ft cable included)

DM Cable Length

Cable Type:

DM-CBL DigitalMedia Cable Maximum length per port without, between, before, or after repeaters:

- 200 ft (60 m) for 720p, 1080i, 1080p24
- 200 ft (60 m) for 1024x768 @75Hz
- 150 ft (45 m) for 1080p60
- 150 ft (45 m) for 1280x1024 @75Hz
- 150 ft (45 m) for 1920x1200 @60Hz
- 125 ft (38 m) for 1600x1200 @60Hz

Maximum total length per port using up to 2 repeaters:

- 450 ft (137 m) for 720p, 1080i, 1080p24
- 450 ft (137 m) for 1024x768 @75Hz
- 450 ft (137 m) for 1080p60
- 450 ft (137 m) for 1280x1024 @75Hz
- 450 ft (137 m) for 1920x1200 @60Hz
- 375 ft (114 m) for 1600x1200 @60Hz

Controls and Indicators

PWR: (1) green LED, indicates operating power supplied via Main Power Input

USB HID DISABLED: (1) red LED, indicates the COMPUTER port is in use causing USB HID to be disabled

RESET: (1) recessed miniature pushbutton for hardware reset, reboots the switcher

SYNC: (1) pushbutton and red LED, selects SYNC mode so the INPUTS LEDs indicate input signal presence

ROUTE: (1) pushbutton and red LED, selects ROUTE mode to allow routing changes

INPUTS 1 - 6: (6) pushbuttons and red LEDs, select input for routing

SETUP (rear): (1) red LED and (1) miniature recessed pushbutton for Ethernet auto-discovery

Power Requirements

Main Power: 90 Watts @ 100-240 Volts AC, 50/60 Hz

Available DMNet Power: 30 Watts (1.25 Amps @ 24 Volts DC) from internal power supply

Environmental

Temperature: 32° to 104°F (0° to 40°C)

Humidity: 10% to 90% RH (non-condensing)

Heat Dissipation: 307 BTU/Hr

Enclosure

Chassis: Metal with black finish, vented sides, fan-cooled

Faceplate: Extruded aluminum, black finish with polycarbonate label overlay

Mounting: Freestanding or 2U 19-inch rack-mountable (adhesive feet and rack ears included)

Dimensions

Height: 3.47 in (89 mm) without feet

Width: 17.03 in (433 mm), 19.00 in (483 mm) with ears

Depth: 12.21 in (310 mm)

Weight

7.5 lb (3.4 kg)

Available Models

DM-MD6X1: 6x1 DigitalMedia™ Switcher

Available Accessories

DM-CBL-P-SP500: DigitalMedia™ Cable, plenum-rated, 500 ft spool

DM-CBL-NP-SP500: DigitalMedia™ Cable, non-plenum, 500 ft spool

DM-CONN-20: DigitalMedia™ Cable Connectors, 20-Pack

DM-DR: DigitalMedia™ Repeater

Notes:

1. HDMI requires an appropriate adapter or interface cable to accommodate a DVI or DisplayPort Multimode signal. CBL-HD-DVI and CBL-DP-HD interface cables available separately.
2. The RGB input can accept component, composite, and S-Video signals via direct interface to Crestron MPS Series products, or through an appropriate adapter (not included). Input sync detection is not provided for composite or S-Video signal types through the RGB connection.
3. For DigitalMedia CAT wiring, use DM-CBL DigitalMedia Cable. Up to two DM Repeaters (Model DM-DR) may be required. Refer to the Crestron DigitalMedia Design Guide, Doc. #4789 for complete wiring guidelines.
4. Audio breakaway capabilities and limitations: AUDIO/SPDIF IN 1 and AUDIO IN 2 may each be switched freely regardless which video input is selected; HDMI IN 3 audio may be switched freely only when HDMI IN 3 video, or any DM IN video input, is selected; HDMI IN 3 audio cannot be selected when VIDEO IN 1 or RGB IN 2 video inputs are selected; DM IN 4, DM IN 5, and DM IN 6 audio may each be switched freely except when any other numbered DM IN video input is selected; AUDIO IN 1 and SPDIF IN 1 inputs are mutually exclusive.
5. For external DMNet power, use a Crestron CNPWS-75, C2N-SPWS300, or other Cresnet power supply as required. Do not interconnect DMNet with Cresnet.

This product may be purchased from an authorized Crestron dealer. To find a dealer, please contact the Crestron sales representative for your area. A list of sales representatives is available online at www.crestron.com.

DM-MD6X1 6x1 DigitalMedia™ Switcher

8-Port 10/100Mbps PoE Switch TPE-S80 (V1.0R)

The 8-Port 10/100Mbps PoE Switch, model TPE-S80, reduces equipment and installation costs by delivering data and power over existing Ethernet cables to Power over Ethernet (PoE) enabled devices such as Access Points and IP Cameras.

Boost office efficiency and reduce network congestion with a total switching capacity of 1.6Gbps. LED indicators display device status for easy power management and troubleshooting. An internal power supply reduces clutter and delivers 15.4 Watts to each PoE port. A convenient on/off button is located on the back of the switch. Non-PoE devices can connect to the switch—auto-sensing PoE technology cuts power to non-PoE connected devices. Use TRENDnet's PoE Splitter with the TPE-S80 to install non-PoE devices in remote locations.

Features

- IEEE 802.3af Power over Ethernet (PoE) compliant
- 8 x 10/100Mbps Auto-MDIX RJ-45 PoE ports
- On/Off power switch
- Provides 15.4 watts per PoE port
- Supports PoE Powered Device (PD) classification
- 1.6Gbps switching fabric
- Full wire-speed non-blocking reception and transmission
- Store-and-forward switching method
- Back pressure Flow Control for half-duplex mode
- IEEE 802.3x Flow Control for full-duplex mode
- 512Kbits RAM Data Buffer and 1K MAC address entries
- Diagnostic LEDs (Power, Link/Activity, PoE Act/Status)
- Plug and Play
- Sturdy metal enclosure
- Mounting hardware included
- 5-year limited warranty

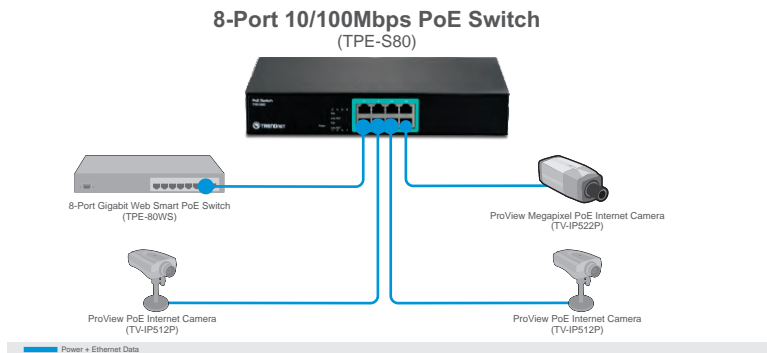

8-Port 10/100Mbps PoE Switch

TPE-S80 (V1.0R)

SPECIFICATIONS

Hardware	
Standards	• IEEE 802.3 10Base-T • IEEE802.3u 100Base-TX • IEEE 802.3af Power over Ethernet • IEEE 802.3x Flow Control
Ports	• 8 x 10/100Mbps Auto-MDIX PoE ports
Power Switch	• On/Off power switch
Data Transfer Rate	• Ethernet: 10/20Mbps (half/full duplex) • Fast Ethernet: 100/200Mbps (half/full duplex)
Data RAM Buffer	• 512Kbits
Address Table	• 1K MAC entries
Switch Fabric	• 1.6Gbps
Power	• 100~240VAC 50/60Hz, internal universal switching power
Diagnostic LEDs	• Power, Link/Activity, PoE Act/Status
Power Consumption	• 6 Watts max. (no Power Device (PD) connected) • 132 Watts max. (8 x 15.4 watts PoE devices connected)
Temperature	• Operating: 0° ~ 45°C (32° ~ 113°F) • Storage: -10° ~ 70°C (14° ~ 158°F)
Humidity	• 10%- 95% (non-condensing)
Dimensions	• 266 x 160 x 44 mm (10.5 x 6.3 x 1.73 in.)
Weight	• 1.4 kg (3.1 lb)
Certifications	• CE, FCC
Hardware	
Power over Ethernet	• Up to 15.4 watts per port; PD classification • Polymer switch for short protection • PoE: pin 3,6 for power+ and pin 1,2 for power

U Series/U317/UTR1 Rackshelves

EIA/TIA Compliant

U Series / U317 / UTR1 Rackshelves

Features

U Series - Universal rackshelves

- Available in 1 through 4 rackspaces
- Weight capacity from 35 to 85 lbs. depending on size
- Accommodates most standard non-rackmountable components
- See chart for part numbers and dimensions
- Contractor packs available
- UL Listed in the US and Canada

U317 - Vented 3 space rackshelf

- 17- 3/4" depth allows for deeper components
- 60 lb. weight capacity
- Vent pattern provides superior air circulation
- Slotted rear flange for cable management

UTR1 - Half / third rack shelf

- 25 lb. weight capacity
- Generous vent pattern provides superior air circulation
- Hook & loop strips included for mounting any half or third space components without hardware
- Contractor packs available

U2

U317

UTR1

Architects' and Engineers' Specifications

U Series

Solid, one-piece 16-gauge steel rackshelf shall be Middle Atlantic Products model # Ux (x = # of rackspaces, refer to chart). Weight capacity shall be ___ (refer to chart). Rackshelf shall feature durable flat black powder coat finish. Contractor packs shall be available with twelve U1 or six U2 rackshelves and shall be model # U1-RP12 or U2-RP6. U series rackshelf shall be warrantied to be free from defects in material or workmanship under normal use and conditions for the lifetime of the product. U series rackshelf shall be UL Listed in the US and Canada.

U317

Vented three rackspace rackshelf shall be Middle Atlantic Products model # U317. One-piece, 16-gauge rackshelf shall provide a 60 lb. weight capacity. U317 shall features slotted rear flange for cable management. Depth of 17-3/4" shall accommodate deeper components. U317 shall be warrantied to be free from defects in material or workmanship under normal use and conditions for the lifetime of the product.

UTR1

Half / third rack shelf with 10" depth shall be Middle Atlantic Products model # UTR1. Weight capacity shall be 25 lbs. UTR1 shall include two 2" x 10" hook & loop strips for component mounting and a generous vent pattern for superior air circulation. Contractor packs shall be available with twelve UTR1 rackshelves and shall be model # UTR1-RP12. UTR1 shall be warrantied to be free from defects in material or workmanship under normal use and conditions for the lifetime of the product.

RDL[®]
Radio Design Labs

SPECIALISTS IN PRACTICAL PRECISION ENGINEERING™

STICK-ON[®] SERIES Model STD Series Divider/Combiner Networks

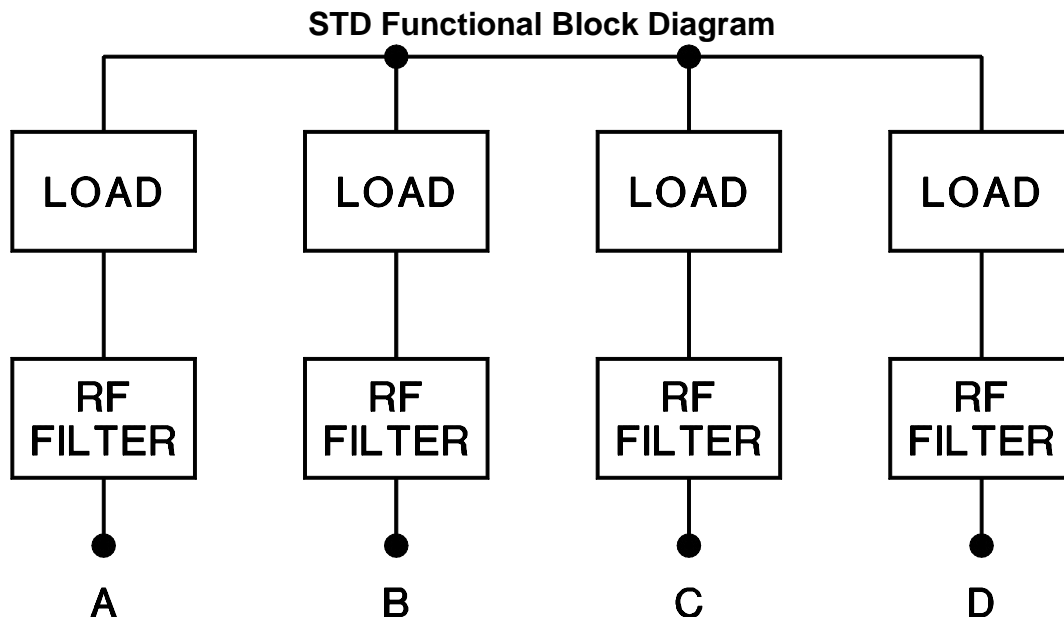

ANYWHERE YOU NEED...

- To Combine Audio Signals to a Single Output
- To Filter RF from an Audio Line
- To Combine Stereo Signals
- To Feed a Mono Signal to Stereo Inputs
- To Combine Multiple Mics to a Single Input

You Need The STD Series!

The STD series of products is part of the STICK-ON line of products from Radio Design Labs. It is a resistive branching network with RF filtering on each of the four channels. Any channel, A through D, may be either input or output. This permits combining stereo signals into mono inputs, splitting mono signals to multiple inputs, and even combining microphones with output shorting switches into a single amplifier input. The STD products are available in 150 Ω , 600 Ω and 10 k Ω models. All inputs and outputs are balanced.

STICK-ON[®] SERIES

Model STD Series

Divider/Combiner Networks

Installation/Operation

EN55103-1 E1-E5; EN55103-2 E1-E4
Typical Performance reflects product at publication time exclusive of EMC data, if any, supplied with product. Specifications are subject to change without notice.

BRANCH A 150 OHM MIC TO MULTIPLE INPUTS

COMBINE MULTIPLE 150 OHM MICS TO SINGLE INPUT

BRANCH A 600 OHM LINE TO 3 INPUTS

COMBINE MULTIPLE 600 OHM SIGNALS TO SINGLE INPUT

FEED MONO SIGNALS TO STEREO INPUTS

COMBINE STEREO SIGNALS INTO MONO INPUTS

A MODULE MAY BE UNBALANCED BY CONNECTING ALL 4 NEGATIVE TERMINALS TO THE ADJACENT GROUNDS. BALANCED AND UNBALANCED WIRING MAY NOT BE MIXED.

TYPICAL PERFORMANCE

Circuit Type:

Passive

Circuit Configuration:

Balanced

Input/Output Impedance:

150, 600, or 10 kΩ as marked

Number of Inputs/Outputs:

4 Total: Useable in any combination: split 1 in to 3 out; 2 in to 2 out; 3 in to 1 out

Insertion Loss:

3 dB

Isolation between Channels:

3 dB (STD products are passive and therefore not intended as isolation devices; use RDL Mixers or Mixers or Distribution Amps for isolation)

Maximum Signal Input:

+28 dBu (at 600 Ω)

+22 dBu (at 150 Ω)

P-S Series

Power Amplifiers

P7000S

P5000S

P3500S

P2500S

P7000S Rear Panel

Reliable, professional-quality power amplification for a broad range of applications.

- In 4 bridged mode the P7000S delivers 3200 watts, the P5000S 2600 watts, the P3500S 2000 watts, and the P2500S 1300 watts.
- Yamaha's exclusive EEEngine technology significantly reduces power consumption and heat generation.
- Independent sweepable high-pass and low-pass filters on each channel so you can optimize output for subwoofer or full range systems.
- Neutrik Speakon output jacks and 1/4-inch output jacks for each channel, in addition to 5-way binding post.
- Balanced XLR and 1/4-inch TRS jacks are provided for channel input.
- Variable-speed fans offer quiet, efficient cooling.
- Comprehensive protection includes power on/off muting, DC detection, thermal protection, current limiting, and a protective cover for the attenuators.
- YS Processing (Yamaha Speaker Processing) achieves optimum matching with Yamaha Club Series loudspeaker systems.

TSW-750

7" Touch Screen

- > Ultra clean, modern appearance
- > Thin profile and small footprint
- > Affordable and easy to install
- > 7" widescreen active-matrix color display
- > Core 3 UI™ graphics^[1]
- > 800 x 480 WVGA display resolution
- > Capacitive touch screen technology
- > High-performance H.264 streaming video
- > Rava™ SIP intercom and phone technology
- > Customizable audio feedback
- > Built-in microphone and speakers
- > 5 soft-touch capacitive buttons
- > Single-wire Ethernet connectivity
- > PoE network powered
- > Standard electrical wall box mounting^[4]
- > Available tabletop and swivel mount options^[2]
- > Available in smooth black or white finish

Advanced Touch Screen Control

A Crestron® touch screen offers an ideal user-interface for controlling all the technology in your home, boardroom, classroom, courtroom, or command center. Touch screens do away with piles of remote controls, cluttered wall switches, and cryptic computer screens, simplifying and enhancing the way you use technology. For controlling home theater, multimedia presentation, audio, video, lighting, HVAC, and other systems, Crestron touch screens are fully-customizable with easy-to-use controls and icons, true feedback and real-time status display, live streaming video, and advanced navigation of digital media servers, tuners, and other devices.

With its clean, contemporary design highlighted by edge-to-edge glass and stunning Core 3 UI™ color graphics, the Crestron TSW-750 touch screen makes an elegant statement on any wall, tabletop or lectern. Perfectly at home in the most contemporary residence or modern office building, its high-tech good looks underline its power for simplifying everyday tasks and functions throughout any facility.

The TSW-750 delivers the ultimate touch screen experience in an unobtrusive, space-saving design featuring a brilliant 7 inch capacitive touch screen display and 5 soft-touch buttons. PoE connectivity and standard gang-box mounting make installation a breeze for both new and retrofit applications. Additional features include high-performance H.264 video, Rava™ SIP Intercom, and advanced Core 3 UI touch screen graphics.

Powered by Core 3™^[1]

Crestron touch screens have always offered the ultimate user experience. With Core 3 UI, they also deliver the ultimate value, enabling the creation of dynamically rich user interfaces with incredible efficiency and unparalleled functionality. Using Core 3 UI, programmers can swiftly integrate fluid gesture-driven controls, animated feedback, metadata,

COREBUI™ RAA
SIP INTERCOM TECHNOLOGY

embedded apps, and full-motion video for a deeply engaging and ultra-intuitive touch screen experience.

Some Core 3 UI enhancements:

- Cool-looking graphical buttons, sliders, knobs, and gauges are intuitive and fun to use.
- Kinetic effects enhance the feeling of realism with lists and toolbars that scroll with momentum at the flick of a fingertip.
- Drag-and-drop objects snap into place offering an easy way to assign assets to rooms.
- Desktop widgets personalize the touch screen with animated clocks, calendars, weather, news, and other information.
- Customizable themes allow a completely different look and feel for every user, event, or season.
- Fully-developed SmartObjects™ enable sophisticated control over complex devices with minimal programming.
- Smart Sizing™ scales objects perfectly and instantly for faster GUI development — even across different sized touch screens.

Soft-Touch Buttons

The TSW-750 includes five soft-touch capacitive buttons for quick access to commonly used functions. The buttons are pre-labeled with icons for “Power”, “Home”, “Lights”, “Up”, and “Down” functions. Each button is programmable via the control system for custom functionality.

Streaming Video

High-performance streaming video capability makes it possible to view security cameras and other video sources over the network right on the touch screen. Native support for H.264 and MJPEG formats allows the TSW-750 to display live video images from Web cameras and servers such as the Crestron [CEN-NVS200 Network Video Streamer](#)^[2].

TSW-750 7" Touch Screen

TSW-750-W-S – Rear and Front Views

Rava™ SIP Intercom

Rava SIP Intercom Technology enables hands-free VoIP communication between any two Rava-enabled Crestron touch screens. Rava works over Ethernet, supporting 2-way intercom, video intercom^[3], paging, and room monitoring without any special wiring. VoIP phone capability is also possible through integration with an SIP-compatible IP phone system or SIP server, allowing hands-free telephone functionality complete with speed-dialing, caller ID, custom ringers, and other enhancements. Built-in echo cancellation affords true-duplex performance for clear, seamless voice communication using the TSW-750's integrated microphone and speakers.

Audio Feedback

Customized audio files can be loaded to add another dimension to the touch screen graphics using personalized sounds, button feedback, and voice prompts.

TSW-750-B-S with TSW-750-TTK TableTop Mounting Kit

Single-Wire Connectivity

A simple Ethernet LAN connection is all that is required to wire the TSW-750, containing all control, video, intercom, and power signals within a single wire.

Power over Ethernet

Using PoE technology, the TSW-750 gets its operating power right through the LAN wiring. PoE (Power over Ethernet) eliminates the need for a local power supply or any dedicated power wiring. A PoE Injector (PWE-4803RU^[2]) simply connects in line with the LAN cable at a convenient location. Crestron PoE switches (CEN-SW-POE-5, CEN-SW-POE-16 or CEN-SW-POE-24^[2]) may also be used to provide a total networking solution with built-in PoE.

Simple, Versatile Mounting

The TSW-750 installs easily over a 2-gang or 3-gang electrical box, or a 2-gang European electrical box. It can also be attached directly to drywall and other surfaces over the front of a 2-3/8" H x 3-3/8" W (60mm H x 86mm W) cutout. When installed, it protrudes just 1/2 inch from the mounting surface and is magnetically adhered to its mounting bracket, eliminating any visible screws for an ultra clean appearance.^[4]

TableTop Option

Using the optional TableTop Kit (TSW-750-TTK^[2]), the TSW-750 becomes a stylish, freestanding touch screen that fits perfectly on a table, desk, or countertop. It can even be permanently attached to the surface using the optional Swivel Mount Kit (TSW-550/750/1050-SMK^[2]).

SPECIFICATIONS

Touch Screen Display

Display Type: TFT Active matrix color LCD
Size: 7 inch (178 mm) diagonal
Aspect Ratio: 15:9 WVGA

TSW-750 7" Touch Screen

DM-TX-200-2G

Wall Plate DigitalMedia™ CAT Transmitter 200

The DM-TX-200-2G is a DM CAT transmitter and switcher that installs in a double-gang wall box to provide a convenient interface for computers and high-definition AV sources as part of a complete **DigitalMedia** system. With both HDMI™ and RGB inputs, the DM-TX-200-2G is ideal for wall, lectern, and floor box applications in a boardroom, classroom, or residence to provide an input for a laptop computer or similar source. It connects to any DM-MD series DigitalMedia switcher or **DM-RMC-100** Room Controller via a single DM cable.

DigitalMedia™

As the leader in HDMI and control system technologies, Crestron® has developed DigitalMedia, the first complete HD AV distribution system that takes HDMI to a higher level, and allows virtually any mix of AV sources to be distributed throughout the home, office, school, or virtually any other facility.

DigitalMedia distributes uncompressed digital video and audio signals up to 450 feet (137 m) using DM cable^[1]. DigitalMedia thoughtfully manages all of the different signals and devices, matching each source's output to the capabilities of the selected display(s) without using scaling or compression. Every signal is preserved in its native video resolution and audio format, ensuring a pure, lossless signal path throughout.

Multimedia Computer/AV Interface

The DM-TX-200-2G provides simple switching between two inputs. Its HDMI input supports HDMI with HDCP, handling WUXGA computer resolutions and 1080p60 HDTV with multi-channel lossless audio. The HDMI input can also handle DVI and DisplayPort Multimode signals using an appropriate adapter or dongle^[2]. The RGB input handles all analog RGB signals up to WUXGA 1920x1200 pixels, as well as component video up to 1080p60^[3]. A mini-TRS stereo audio input is also provided to accept analog audio signals from an unbalanced line-level or headphone output.

Used with a single **DM-RMC-100** Room Controller and optional Crestron Control System, the DM-TX-200-2G affords a very simple solution for extending a multimedia computer or AV signal to a single display up to 450 feet (137 m) away^[1]. As part of a larger system using a DM-MD series switcher, multiple DM-TX-200-2Gs may be installed to enable the distribution of several sources at different locations to feed multiple displays throughout any room or larger facility.

Keyboard/Mouse Extender

Also, when connected to a DM-MD series switcher, the DM-TX-200-2G functions as a keyboard/mouse extender, allowing a USB HID-compliant keyboard and/or mouse at the podium or conference table to control a computer or other host device located at the central equipment rack.

EDID Format Management

The DM-TX-200-2G allows for management of the EDID (Extended Display Identification Data) information that passes between the display devices and input sources in the system. Using **Crestron Toolbox™** software, the format and resolution capabilities of each device can be assessed and managed through the DM-TX-200-2G, ensuring reliable operation by instructing sources to output only the resolutions and formats that can be handled by the displays and system wiring.

CEC Embedded Device Control

The primary objective of every Crestron system is to enable precisely the control desired for a seamless user experience. DigitalMedia provides an alternative to conventional IR and RS-232 device control by harnessing the CEC (Consumer Electronics Control) signal embedded in HDMI. Through its

connection to the control system, the DM-TX-200-2G provides a gateway for controlling the connected source device right through the HDMI connection, potentially eliminating the need for any dedicated control wires or IR probes. Through proper CEC signal management, DigitalMedia allows you to take control of each device in the system as you like.

Simple Wall Mount Design

The DM-TX-200-2G is designed to be wall mounted using a standard electrical box or plaster ring. The DM cable is terminated to the rear of the transmitter using screw terminals. An array of indicators on the front of the DM-TX-200-2G provides for easy setup and troubleshooting, verifying the status of connections and signal activity at a glance. Advanced configuration is enabled through **Crestron Toolbox™** software.

A Digital Upgrade for Legacy Systems

The DM-TX-200-2G also affords a perfect signal converter for integrating DigitalMedia with analog-based systems like Crestron **MPS**, **QuickMedia®**, and the **CEN-RGBHV** Series. A simple HD15 VGA cable connected between the output of an MPS system and the input of the DM-TX-200-2G allows every RGB, component, S-Video, and composite video input on the MPS to be converted to DigitalMedia^[3]. Analog audio is converted similarly through a simple unbalanced stereo audio cable. The DM-TX-200-2G's HDMI input may also be used to expand the input capabilities of the MPS system to handle digital AV sources.

Please refer to the DigitalMedia Design Guide, Doc. #4789 for additional information.

Output Signal Type: DM CAT (DigitalMedia over twisted-pair copper wire)

Formats: HDMI, DVI, HDCP v.1.2 content protection support, RGBHV up to UXGA/WUXGA, HDTV up to 1080p60, NTSC or PAL

Input Resolutions, HDMI & DVI, Progressive: 640x480@60Hz, 720x480@60Hz (480p), 720x576@50Hz (576p), 800x600@60Hz, 848x480@60Hz, 852x480@60Hz, 854x480@60Hz, 1024x768@60Hz, 1024x852@60Hz, 1024x1024@60Hz, 1280x720@50Hz (720p50), 1280x720@60Hz (720p60), 1280x768@60Hz, 1280x800@60Hz, 1280x960@60Hz, 1280x1024@60Hz, 1360x768@60Hz, 1365x1024@60Hz, 1366x768@60Hz, 1400x1050@60Hz, 1440x900@60Hz, 1600x900@60Hz, 1600x1200@60Hz, 1680x1050@60Hz, 1920x1080@24Hz (1080p24), 1920x1080@25Hz (1080p25), 1920x1080@50Hz (1080p50), 1920x1080@60Hz (1080p60), 1920x1200@60Hz, 2048x1080@24Hz, 2048x1152@60Hz, plus any other resolution allowed by HDMI up to 165MHz pixel clock

Input Resolutions, HDMI & DVI, Interlaced: 720x480@30Hz (480i), 720x576@25Hz (576i), 1920x1080@25Hz (1080i25), 1920x1080@30Hz (1080i30), plus any other resolution allowed by HDMI up to 165MHz pixel clock

Input Resolutions, RGB: 640x480@60Hz, 720x480@60Hz (480p), 720x576@50Hz (576p), 800x600@60Hz, 848x480@60Hz, 1024x768@60Hz, 1280x720@50Hz (720p50), 1280x720@60Hz (720p60), 1280x768@60Hz, 1280x800@60Hz, 1280x960@60Hz, 1280x1024@60Hz, 1360x768@60Hz, 1366x768@60Hz, 1400x1050@60Hz, 1440x900@60Hz, 1600x1200@60Hz, 1680x1050@60Hz, 1920x1080@24Hz (1080p24), 1920x1080@50Hz (1080p50), 1920x1080@60Hz (1080p60), 1920x1200@60Hz, 2048x1080@24Hz, 2048x1152@60Hz

Input Resolutions, Component^[3]: 480i, 576i, 480p, 576p, 720p50, 720p60, 1080i25 (1125 lines), 1080i30, 1080p30, 1080p50 (1125 lines), 1080p60

Input Resolutions, Composite and S-Video^[3]: 480i, 576i

Output Resolutions: Matched to inputs

Analog-To-Digital Conversion: 10-bit 165 MHz per each of 3 channels

Audio

Switcher: 2x1 combination digital/analog switch

Input Signal Types: HDMI, DisplayPort Multimode^[2], analog stereo

Output Signal Type: DM CAT

Formats, HDMI: Dolby Digital®, Dolby Digital EX, DTS®, DTS-ES, DTS 96/24, Up to 8ch PCM

Formats, Analog: Stereo 2-channel

Communications

DigitalMedia: DM CAT, DMNet, HDCP management, EDID format management, CEC

USB: Supports USB HID class devices

Connectors - Front

AUDIO IN: (1) 3.5mm TRS mini phone jack;

Unbalanced stereo line-level audio input;

Input Impedance: 10k Ohms;

Input Level: 2 Vrms maximum

USB HID: (1) USB Type A female;

USB 1.1 host port for connection of a mouse/keyboard or other USB HID-compliant device

HDMI IN: (1) 19-pin Type A HDMI female;

HDMI digital video/audio input;

Also supports DVI and DisplayPort Multimode^[2]

PC IN: (1) DB15HD female, RGB (VGA) or component (YPbPr) video input^[3];

Formats: RGBHV, RGBS, RGSB, YPbPr;

Input Levels: 0.5 to 1.5 Vp-p with built-in DC restoration;

Input Impedance: 75 Ohms;

Sync Input Type: Autodetect RGBHV, RGBS, RGSB, YPbPr;

Sync Input Level: 3 to 5 Vp-p;

Sync Input Impedance: 1k Ohms

Connectors - Rear

D, M: (1) DM CAT output composed of (16) captive screw terminals with (2) grounded strain reliefs;

Connects to DM CAT input of a DM switcher, receiver/room controller, or other DM device via **DM-CBL** cable^[1]

G B A 24: (1) DMNet port composed of (4) captive screw terminals;

Connects to DMNet port of a DM switcher, receiver/room controller, or other DM device via **DM-CBL** cable^[1]

G: (1) Flying lead, chassis ground connection

DM Cable Length

Cable Type:

DM-CBL DigitalMedia Cable Maximum length without, between, before, or after repeaters:

- 200 ft (60 m) for 720p, 1080i, 1080p24
- 200 ft (60 m) for 1024x768 @75Hz
- 150 ft (45 m) for 1080p60
- 150 ft (45 m) for 1280x1024 @75Hz
- 150 ft (45 m) for 1920x1200 @60Hz
- 125 ft (38 m) for 1600x1200 @60Hz

Maximum total length using up to 2 repeaters:

- 450 ft (137 m) for 720p, 1080i, 1080p24
- 450 ft (137 m) for 1024x768 @75Hz
- 450 ft (137 m) for 1080p60
- 450 ft (137 m) for 1280x1024 @75Hz
- 450 ft (137 m) for 1920x1200 @60Hz
- 375 ft (114 m) for 1600x1200 @60Hz

Controls & Indicators

PWR: (1) green LED, indicates operating power supplied via DMNet

RESET: (1) miniature recessed pushbutton for hardware reset

DM-TX-200-2G

SETUP: (1) red LED and (1) miniature recessed pushbutton for Ethernet auto-discovery

DM LINK: (1) green LED, indicates connection to a downstream DM device

HDMI: (1) green LED, indicates HDMI input is selected

PC: (1) green LED, indicates PC input is selected

Power Requirements

DMNet Power Usage: 10 Watts (0.42 Amps @ 24 Volts DC)

Environmental

Temperature: 32° to 104°F (0° to 40°C)

Humidity: 10% to 90% RH (non-condensing)

Heat Dissipation: 35 BTU/Hr

Enclosure

Construction: Metal with black finish

Flush Wall Mount: 2-gang mountable in a standard electrical box (2-1/2 inch deep minimum); requires decorator style faceplate (not included)

Dimensions

Height: 4.12 in (105 mm)

Width: 3.50 in (89 mm)

Depth: 2.53 in (64 mm)

Weight

10.1 oz (285 g)

Notes:

1. For DigitalMedia CAT wiring, use DM-CBL DigitalMedia Cable. Up to two DM Repeaters (Model DM-DR) may be required. Refer to the Crestron DigitalMedia Design Guide, Doc. #4789 for complete wiring guidelines.

2. HDMI requires an appropriate adapter or interface cable to accommodate a DVI or DisplayPort Multimode signal. CBL-HD-DVI and CBL-DP-HD interface cables available separately.

3. The RGB input can accept component, composite, and S-Video signals via direct interface to Crestron MPS Series products, or through an appropriate adapter (not included). Input sync detection is not provided for composite or S-Video signal types through the RGB connection.

4. FSR FL-500P-6 Floor Box available to authorized FSR dealers from FSR Inc., 244 Bergen Boulevard, Woodland Park, NJ 07424; Tel: 973-785-4347; Web: <http://www.fsrinc.com/>.

IF2112M

IF2112/AS

Two-way full-range models with 12-inch woofers deliver extraordinarily well-balanced sound.

- Sound and phase characteristics matched with all other Installation Series models for optimum performance in any combination.
- 12" woofer specially treated for superior sound and durability.
- 3" high-frequency compression driver with 1.4" exit (IF2112 and IF2112/AS) or 1.7" high-frequency compression driver with 1.4" exit (IF2112M).
- Three horn dispersion patterns available for IF2112 and IF2112M: 60° x 40° (/64), 90° x 50° (/95), and 90° x 90° (/99).
- Horn can be rotated 90-degrees for vertical or horizontal mounting.
- Switchable between passive and bi-amp operation.
- Fifteen 10-mm (M10) screw and four 8-mm (M8) screw suspension points provided for flexible rigging on the IF2112 and IF2112M; 16 10-mm screw (M10) points on the IF2112/AS.
- Durable black or white finish (can be painted to match any interior).
- Optional matching array frame and U-bracket available for the IF2112 and IF2112M.
- Optional matching U-bracket available for the IF2112/AS.
- Parallel-wired Neutrik NL4 and barrier strip connectors.
- Downloadable Y-S3 (Yamaha Sound System Simulator) software offers precise performance rigging simulation for Installation Series speakers.
- IF2112/AS cabinet design is also ideal for floor monitor use.

Center of balance

Installation Series

Speaker System

Compact two-way full-range models with 8-inch or 5-inch woofers install easily in tight situations.

IF2208 & IF2108

- Sound and phase characteristics matched with all other Installation Series models.
- Single 8" woofer (IF2108) or dual 8" woofers (IF2208) plus 1.7" high-frequency compression driver with 1" exit.
- 90° x 60° dispersion pattern.
- Multi-angle cabinet design enables floor monitor applications.
- Horn can be rotated 90-degrees, allowing vertical or horizontal mounting.
- Eleven 10mm-screw (M10) and six 8mm-screw (M8) suspension points provided for flexible rigging.
- Durable black or white finish (can be painted to match any interior).
- Optional matching U-bracket available.
- Parallel-wired two Neutrik NL4 and barrier strip connectors.

IF2205

- Sound and phase characteristics matched with all other Installation Series models.
- Dual 5" woofers plus 1" high-frequency compression driver with 1" exit.
- 90° x 60° dispersion pattern.
- Horn can be rotated 90-degrees, allowing vertical or horizontal mounting.
- Six 8mm-screw (M8) and two 6mm-screw (M6) suspension points provided for flexible rigging.
- Durable black or white finish (can be painted to match any interior).
- Matching U-bracket available as an option.
- Barrier strip connectors.

Antenna Requirements

The UAD4 may be used with a variety of antennas. For best results, use a pair of ALP-450 directional log periodic antennas. See Figure 4. The ALP-450 offers the best performance and broadest bandwidth available.

Good results may be obtained with optional CLA or FA-500 1/2 wave antennas.

The 1/4-wave antennas that are supplied with the Telex wireless systems will provide adequate performance in some situations. The 1/4-wave antennas should be oriented as shown in Figure 5. **Do not** use 1/4-wave antennas for remote mounting.

ALP-450

CLA
1/2 Wave Antenna

FA-500
1/2 Wave Antenna

Figure 4
Antennas

Antenna Placement

If antennas are mounted directly to the UAD4, they should be configured as shown in Figure 5.

Do not rack mount the UAD4 in this configuration. Serious loss of range and performance may occur.

Place the UAD4 with antennas in a location that is in direct view of the transmitters for best results.

LOG PERIODIC ANTENNA

- Wide frequency range (450 - 900 MHz) easily handles UHF frequencies
- High gain (4.6 dB) provides clear, strong signals at greater distances than standard 1/2 wave "whip" antennas
- 120° directional pattern reception reduces interference from unwanted signals
- High-quality TNC connectors ensure consistent impedance across the entire frequency range
- Includes 10' coax cable
- Includes universal, A wall, B mic stand, and C mast clamp mounting hardware
- Measures 9 1/2" L x 11" H

ALP-450 LOG PERIODIC ANTENNA

ALP-450 71147-000 (matte black)

(Specifications)

- Gain: 4.6 dBd
- 1/2 power beam width: 120°
- Input impedance: 50 ohm
- SWR: 1.5:1
- Front-to-back ratio: 19.4 dB
- Input connector: TNC

COAXIAL CABLES

LOW LOSS SEMI-FLEXIBLE COAXIAL CABLES

CXU-25	71151-025	25'	50 ohm	TNC connector (shown)
CXU-50	71151-050	50'	50 ohm	TNC connector
CXU-75	71151-075	75'	50 ohm	TNC connector
CXU-100	71151-100	100'	50 ohm	TNC connector

FRONT MOUNT CABLE ACCESSORY KIT

- TNC front mount connector kit
- Includes four cables for use with RM-S or RM-D for UHF receivers

FRONT MOUNT ACCESSORY KIT

FMC-K 878978 4 cables

Universal Antenna Kit (72 and 216 MHz)

Part Number: LA-122

- Includes both 72 MHz and 216 MHz antennas.
- Monopole and dipole antenna options included.
- Rigid and flexible radials are included.
- All hardware to mount on a wall, on electrical boxes, on a horizontal surface (flat and inverse), inside a wall or ceiling is included.

Specifications	72 MHz	216 MHz
Frequencies	72.0 - 76.0 MHz	216.0 - 216.9875 MHz
Center-Frequencies	73.50 MHz	216.50 MHz
Antenna Types	Monopole and dipole	
Antenna Radials	Rigid and flexible	
Antenna Gain	Unity	
Dipole Vertical Clearance	79.75 in. (2.03 m)	25.75 in. (65.4 cm)
Connector	RG-58 BNC	
Coax Provided	25 ft. (7.6 m) RG-58, 50 ohm coaxial cable	
Mounting Options	Wall mount, dual and single electrical box, ceiling electrical box, horizontal surface mount (such as a top of a rack), ceiling/inverse mounting, flexible mounting in-wall or in ceiling and mast or conduit mount.	
Mounting Hardware	Includes self-tapping sheet, metal screws, drywall anchors, and all hardware required to mount to electrical boxes. Does not provide hardware required to mount to a mast (available at most hardware stores).	
Mounting Bracket Dimensions	4.5 x 7.0 x 2.5 in. (11 x 18 x 6.4 cm) W x D x H	
Mounting Plate Dimensions	4.48 x 4.55 in. (11.4 x 11.6 cm)	
Antenna Segment Lengths	39.25 in. (1.0 m)	12.25 in. (31.1 cm)
Weight	4.4 lbs. (2 kg)	
Shipping Weight	4.4 lbs. (2 kg)	
Shipping Box Dimensions	16.3 x 2.76 x 17.1 in. (41.4 x 7 x 43.3 cm)	

1. Wall mount dipole* or monopole
2. Flexible dipole (in a wall or rafter area)
3. Horizontal surface monopole (up or down)
4. Mast or conduit mount
5. Electrical box monopole inverse ceiling mount
6. Electrical box wall mount dipole* or monopole (single or double gang)

*Dipole antenna configuration recommended for best range/coverage. Should be oriented vertically for best results. Not weather proof or wind resistant. All of this and other information is available at www.ListenTech.com.

Compact 20A Surge Suppressor with attached cord

Description

This advanced surge suppressor provides the highest current capacity available in devices of its size to protect multiple pieces of sensitive electronic equipment on a single circuit. It features industrial strength "zero failure" technology backed by a ten year warranty. It also includes a patented* rotating outlet plate that makes it easy to change the position of the outlets from top to side access. The compact body has a very low profile (1.75"H x 6"D x 9"W) and includes two mounting brackets for easy installation — on a wall behind a flat panel TV, under a counter, in a rack or just about anywhere. Both models feature two 20A outlets (1-duplex) and attached cord.

- Model **ACSP-2002-VTE**: includes VTE over/under protection (automatically turns receptacles off when line voltage drops below 100V or rises above 140V).
- Model **ACSP-2002-RPC**: includes remote power control capability by a low voltage sequencer, switch or control system that provides a maintained dry contact closure.

Features

- ETL Listed, ANSI C62.41 Compliant
- Conforms to UL 1449-3
- Low-profile chassis (1.75"H x 6"D x 9"W)
- Two 20A outlets (1 duplex)
- Patented* outlet plate rotates 90° for front or side access.
- Front LEDs provide visual system status.
- Suppresses line to neutral with no ground contamination.
- TCR technology defeats surges up to 72,000 amps with zero failures
- Two mounting brackets allow versatile installation. (Optional mounting ears are available if standard 19" panel installation is preferred.)
- 6-ft. attached cord with NEMA 5-20P plug
- 10 year warranty

A & E Specifications

The 20A single-circuit surge suppressor shall be Lowell model _____ with one duplex outlet. It shall be ETL Listed and conform to UL1449-3. It shall meet ANSI C62.41 and protect line to neutral without ground wire contamination. It shall be capable of protecting electronic equipment from transient voltages, spikes and surges up to 72,000 amps and have a response time of less than 5 nanoseconds. It shall surface or rear rackmount using mounting brackets and include outlets mounted on a plate that can be rotated 90° for front or side access. It shall include LEDs for visual ground verification and surge diagnostics. [Model ACSP-2002-VTE shall also include automatic over/under voltage shutdown protection when voltage drops below 100V or rises above 140V. Model ACSP-2002-RPC shall also include remote power control capability (by a low voltage sequencer, switch or control system that provides a maintained dry contact closure).]

Both models include attached IEC cord with NEMA 5-20P plug and mounting brackets.

*US Patent No. D535178S

Optional mounting ears (ACC-1ME) are available if standard 19" rackmount installation is preferred.

Mechanical Specifications:	
Dimensions:	9"W x 1.75"H x 6"D
Weight:	5 lbs.
Input Connections:	Attached cord with NEMA 5-20P plug
Output Connections:	(1) duplex 20A receptacle mounted on 90° rotatable plate.
Chassis:	Steel with black powder epoxy finish
Mounting:	(2) multi-mount brackets.
Performance Specifications:	
Operating Voltage/Current:	120VAC / 20A, 60Hz
Maximum Surge Current:	72,000A (exceeds UL 1449-3 6000V, 3000A)
Initial Clamping Voltage:	205V, UL rating 400V
Endurance:	IEEE C62.41-1991, B3 (C1), Pulses (lifetime): 1kv≥1,000,000; 3kv≥100,000; 6kv≥5000
Transient Noise Reduction:	29dB@100kHz, 70dB@1MHz
Response Time:	Less than 5 nanoseconds
Temperature Range:	25°C (77°F) nominal
Protection Mode:	Line to neutral, zero ground leakage
UL1449-2 Adjunct Results:	1000 surges, 6000 volts, 3000A, C1, and B3 waveforms (IEEE C62.41), NO FAILURES
Federal GSA specs (1996)	Grade A, Class 1, Mode 1
Diagnostic LEDs (surge)**	Top (green): ON = ground verified Center (green): ON = protection active Bottom (red): ON = protection reduced*
Applicable Standards:	UL1449-3, IEEE standard 587-80 A & B, IEEE standard C62.41-1991, IEC 1000-4-5-1995 (IEC 801-5).
Safety Agency Approvals:	ETL Listed US and Canada.

**TCR surge suppression technology provides the assurance of Grade A, Class 1, Mode 1 endurance and performance testing plus visual diagnostic LEDs. The ground verified (green LED), protection active (green LED) should always be ON and the reduced protection (red LED) should be OFF. In the unlikely event the red LED illuminates, full suppression capability is NOT immediately or even necessarily compromised. The red LED indicates the overall life expectancy of the unit may be reduced. Contact Lowell for repair or replacement under the unit's ten year warranty.

Model No.	Description	Outlets	Amperage	Termination	Over/Under Protection	Remote Control Capable
ACSP-2002-VTE	Compact surge suppressor	2 (1 duplex)	20A	attached cord	Yes	No
ACSP-2002-RPC	Compact surge suppressor	2 (1 duplex)	20A	attached cord	No	Yes
ACC-1ME	Mounting Ears (1-pr)					

Front Panel Layout

ACSP-2002-VTE

ACSP-2002-RPC

Rotating Outlet Plate*

Remove the 4 screws holding the rotating outlet plate (2 on front, 2 on top).

Pull the outlet plate away from the chassis and rotate.

Re-install the 4 screws.

*US Patent No. D535178S

Installation Options with Mounting Brackets

Surface-mount with exposed brackets.

Surface-mount with concealed brackets (behind unit).

Mount to rack rail supports or 10-32 tapped rack rail.

Control Options for ACSP-2002-RPC

DM-RMC-100

DigitalMedia™ Room Controller & DM CAT Receiver

The DM-RMC-100 provides a convenient one-box interface solution to support a single display device as part of a complete DigitalMedia system. It functions as a DM CAT receiver and control interface, providing a single HDMI output along with a variety of control ports. Its compact, low-profile design allows the DM-RMC-100 to be installed discreetly behind a flat panel display or above a ceiling mounted projector.

DigitalMedia™

As the leader in HDMI and control system technologies, Crestron has developed DigitalMedia, the first complete HD AV distribution system that takes HDMI to a higher level, and allows virtually any mix of AV sources to be distributed throughout the home, office, school, or virtually any other facility.

DigitalMedia distributes uncompressed digital video and audio signals up to 450 feet (137 m) using DM cable, or shorter distances using standard CAT5e/6*. DigitalMedia thoughtfully manages all of the different signals and devices, matching each source's output to the capabilities of the selected display(s) without using scaling or compression. Every signal is preserved in its native video resolution and audio format, ensuring a pure, lossless signal path throughout.

Multimedia Display Interface

A single HDMI digital AV output port is provided on the DM-RMC-100, supporting HDMI 1.3a w/Deep Color and HDCP, handling WUXGA computer resolutions and 1080p60 HDTV with multi-channel HD lossless audio—all through a single connection. The HDMI output can also handle DVI signals using an appropriate adapter or interface cable†. In addition, there are RS-232, IR, and Ethernet control ports provided for controlling the display device, plus two relays for screen and lift control, and a SENS input for connection of an optional current sensor or contact closure.

Multiple DM-RMC-100s may be installed to handle each display in a multi-room distribution system, all fed from a central DM-MD series switcher. Or, a single DM-RMC-100 can be fed straight from a **DM-TX-100** or other DM CAT transmitter to provide a simple solution for extending a computer or AV signal to feed a single display. The connection to the switcher or transmitter requires just one DigitalMedia cable, with a potential cable length up to 450 feet*. In lieu of a central switcher, the DM-RMC-100's LAN port may be used to connect over Ethernet to a 2-Series control system if needed.

Keyboard/Mouse Extender

When connected to a DM-MD series switcher or **DM-TX-100** transmitter, the DM-RMC-100 functions as a keyboard/mouse extender, allowing a USB HID-compliant keyboard and/or mouse to be connected at the display location, and used to control a computer or other host device located at the central equipment rack or some other remote location.

Embedded Device Control

The primary objective of every Crestron system is to enable precisely the control desired for a seamless user experience. The DM-RMC-100 includes built-in RS-232, IR, and Ethernet control ports to allow programmable control of the display device connected to it. But, it can also provide an alternative to these conventional control methods by harnessing the CEC (Consumer Electronics Control) signal embedded in HDMI. Through its connection to the control system, the DM-RMC-100 provides a gateway for controlling the display device right through the HDMI connection, potentially eliminating the need for any dedicated control wires or IR probes.

Low-Profile Installation

The DM-RMC-100 mounts to a standard 2-gang, 4" square, or UK electrical box, and sticks out only one inch from the wall surface. Connections to the display are all positioned along the bottom edge of the receiver, allowing cables to be dressed neatly without obstruction. The DM and LAN connection are made behind the unit within the electrical box. An array of indicators on the front of the DM-RMC-100 provide for easy setup and troubleshooting, verifying the status of connections and signal activity at a glance.

Please refer to the DigitalMedia Design Guide, Doc. #4789 for additional information.

* For DigitalMedia CAT wiring, use **DM-CBL** DigitalMedia Cable, **CresCAT-D**, or quality CAT5e/CAT6 cable. Do NOT use low-skew cable. The maximum allowable cable length depends on multiple factors. One or more DM

Repeaters (Model **DM-DR**) may be required. Refer to the Crestron DigitalMedia Design Guide, Doc. #4789 for complete wiring guidelines.

†HDMI requires an appropriate adapter or interface cable to accommodate a DVI signal. **CBL-HD-DVI** interface cable available separately.

> DigitalMedia receiver and display controller

> DM CAT input supports up to 450 ft cable length*

> Low-profile design

> Mounts to a 2-gang, 4" square, or UK electrical box

> Provides an HDMI/DVI† display output

> Includes USB HID keyboard/mouse port

> Enables device control via CEC, RS-232, IR, or Ethernet

> Provides relay screen/lift control

> Supports a power current sensor or contact closure

DM-RMC-100

> Affords single-wire connection from a DM switcher or transmitter

> Provides 10/100 Ethernet connection for display device or control system

> Easy setup and diagnostics

SPECIFICATIONS

Video

Input Signal Type: DM CAT (DigitalMedia over twisted-pair copper wire)

Output Signal Types: HDMI, DVI†

Formats: HDMI v.1.3a w/Deep Color, DVI v.1.0, HDCP v.1.2 content protection support

Input Resolutions, Progressive: 640x480@60Hz, 720x480@60Hz (480p), 720x576@50Hz (576p), 800x600@60Hz, 848x480@60Hz, 852x480@60Hz, 854x480@60Hz, 1024x768@60Hz, 1024x852@60Hz, 1024x1024@60Hz, 1280x720@50Hz (720p50), 1280x720@60Hz (720p60), 1280x768@60Hz, 1280x800@60Hz, 1280x960@60Hz, 1280x1024@60Hz, 1360x768@60Hz, 1365x1024@60Hz, 1366x768@60Hz, 1400x1050@60Hz, 1440x900@60Hz, 1600x900@60Hz, 1600x1200@60Hz, 1680x1050@60Hz, 1920x1080@24Hz (1080p24), 1920x1080@25Hz (1080p25), 1920x1080@50Hz (1080p50), 1920x1080@60Hz (1080p60), 1920x1200@60Hz, 2048x1080@24Hz, 2048x1152@60Hz, plus any other resolution allowed by HDMI v.1.3a up to 165MHz pixel clock

Input Resolutions, Interlaced: 720x480@30Hz (480i), 720x576@25Hz (576i), 1920x1080@25Hz (1080i25), 1920x1080@30Hz (1080i30), plus any other resolution allowed by HDMI v.1.3a up to 165MHz pixel clock

Output Resolutions: Matched to input

Audio

Input Signal Type: DM CAT

Output Signal Type: HDMI v.1.3a

Formats: Dolby® TrueHD 7.1, Dolby Digital Plus 7.1, Dolby Digital AC3 5.1, Dolby Digital EX 5.1, DTS-HD Master Audio™ 7.1, DTS-HD High Res 7.1, DTS 5.1, DTS-ES Matrix 5.1, DTS-ES Discrete 6.1, DTS 96/24 5.1, up to 8ch PCM

USB

Protocols: Supports USB HID class devices

Connectors - Front

SENS: (1) 2-pin 3.5mm detachable terminal block;

Digital/contact closure sensing input;

Rated for 0-24 Volts DC, referenced to GND;

Input Impedance: 2.2k ohms pulled up to 5 Volts DC;

Logic Threshold: 2.5 Volts DC nominal with 1 Volt hysteresis band

HDMI: (1) 19-pin Type A HDMI female;

HDMI digital video/audio output;

Also supports DVI†

USB: (1) USB Type A female;

USB 1.1 device port for mouse, keyboard, game controller, or other USB HID-compliant device

RELAY 1 - 2: (1) 4-pin 3.5mm detachable terminal block comprising (2) normally open, isolated relays;

Rated 1 Amp, 30 Volts AC/DC;

MOV arc suppression across contacts

COM: (1) 5-pin 3.5mm detachable terminal block, bidirectional RS-232 port;

Up to 115.2k baud, hardware and software handshaking support

IR 1 - 2: (1) 4-pin 3.5mm detachable terminal block comprising (2) IR/Serial ports;

IR output up to 1.1 MHz;

1-way serial TTL/RS-232 (0-5 Volts) up to 19200 baud

Connectors - Rear

LAN: (1) 8-wire RJ45 female w/2 LED indicators;

10BaseT/100BaseTX Ethernet port;

Green LED indicates link status;

Yellow LED indicates Ethernet activity

DM INPUT: (1) DM CAT input composed of (2) 8-pin RJ45 female, shielded; Connects to DM CAT output of a DM switcher, transmitter, or other DM device via **DM-CBL** or **CresCAT-D** cable*

24 A B G: (1) 4-pin 3.5mm detachable terminal block, DMNet port; Connects to DMNet port of a DM switcher, transmitter, or other DM device via DM-CBL or CresCAT-D cable*

Controls & Indicators

PWR: (1) green LED, indicates operating power supplied via DMNet

DM LINK: (1) green LED, indicates connection to an upstream DM device

VIDEO: (1) red/green dual-color LED, indicates video signal presence and lock status

CNTRL: (1) red/green dual-color LED, indicates Ethernet connection and control system communication status

SETUP: (1) red LED and (1) miniature recessed pushbutton, for Ethernet auto-discovery

Power Requirements

DMNet Power Usage: 6 Watts (0.25 Amps @ 24 Volts DC)

Environmental

Temperature: 41° to 104°F (5° to 40°C)

Humidity: 10% to 90% RH (non-condensing)

Heat Dissipation: 21 BTU/Hr

Enclosure

Chassis: Steel, black matte powder coat finish

Mounting: 2-gang, 4" square, or 1-gang UK (BS 4662) electrical box mountable

Dimensions

Height: 4.54 in (11.52 cm)

Width: 5.15 in (13.08 cm)

Depth: 1.41 in (3.58 cm)

Weight

13.8 oz (392 g)

* For DigitalMedia CAT wiring, use **DM-CBL** DigitalMedia Cable, **CresCAT-D**, or quality CAT5e/CAT6 cable. Do NOT use low-skew cable. CBL-HD-DVI

Crestron® Certified HDMI™ to DVI Interface Cable

Crestron® Certified Interface Cables complete the total Crestron package, ensuring high-performance and end-to-end Crestron quality for every installation. A variety of cables is offered to support all types of analog and digital video and audio signals. A durable yet flexible CL3-rated jacket affords excellent handling with allowance for in-wall installation. Stylish and rugged connectors achieve an ultra-reliable connection with a designer appearance befitting the most high-end system.

The CBL-HD-DVI model is an HDMI to DVI conversion cable, featuring a male HDMI Type A connector at one end, and male DVI-D connector at the other. Both connectors are 24k gold-plated for excellent conductivity. A variety of popular lengths up to 30 feet is offered.

- > *High-quality HDMI to DVI cable*
- > *Converts HDMI to DVI, or DVI to HDMI*
- > *Supports 1080p60 HDTV and WUXGA computer resolutions*
- > *24k gold-plated HDMI Type A and DVI-D connectors*
- > *High-flex CL3-rated jacket*
- > *Crestron® guaranteed end-to-end system performance*
- > *RoHS compliant*
- > *Available in 1.5, 3, 6, 12, 20, and 30 ft lengths*

Available Models

CBL-HD-DVI-1.5: Crestron® Certified HDMI® to DVI Interface Cable, 1.5 ft

CBL-HD-DVI-12: Crestron® Certified HDMI® to DVI Interface Cable, 12 ft

CBL-HD-DVI-20: Crestron® Certified HDMI® to DVI Interface Cable, 20 ft

CBL-HD-DVI-3: Crestron® Certified HDMI® to DVI Interface Cable, 3 ft

CBL-HD-DVI-30: Crestron® Certified HDMI® to DVI Interface Cable, 30 ft

CBL-HD-DVI-6: Crestron® Certified HDMI® to DVI Interface Cable, 6 ft
