ADDITIONAL TERMS AND CONDITIONS (Construction Contracts Only)

1. **CONTRACTOR'S LICENSE:** West Virginia Code § 21-11-2 requires that all persons desiring to perform contracting work in this state be licensed. The West Virginia Contractors Licensing Board is empowered to issue the contractor's license. Applications for a contractor's license may be made by contacting the West Virginia Division of Labor.

West Virginia Code § 21-11-11 requires any prospective Vendor to include the contractor's license number on its bid. Failure to include a contractor's license number on the bid shall result in Vendor's bid being disqualified. Vendors should include a contractor's license number in the space provided below.

Fort Henry Realty Inc. dba

Contractor's Name:

Contractor's License No.

The apparent successful Vendor must furnish a copy of its contractor's license prior to the issuance of a purchase order/contract.

2. **DRUG-FREE WORKPLACE:** W. Va. Code § 21-1D-5 provides that any solicitation for a public improvement contract requires each Vendor that submits a bid for the work to submit at the same time an affidavit that the Vendor has a written plan for a drug-free workplace policy. To comply with this law, Vendor must either complete the enclosed drug-free workplace affidavit and submit the same with its bid or complete a similar affidavit that fulfills all of the requirements of the applicable code. Failure to submit the signed and notarized drug-free workplace affidavit, or a similar affidavit that fully complies with the requirements of the applicable code, with the bid shall result in disqualification of Vendor's bid.
3. **AIA DOCUMENTS:** All construction contracts that will be completed in conjunction with architectural services procured under Chapter 5G of the West Virginia Code will be governed by the AIA A101-2007 and A201-2007 or the A107-2007 documents, as amended by the Supplementary Conditions for the State of West Virginia, in addition to the terms and conditions contained herein.
4. **SUBCONTRACTOR LIST SUBMISSION:** In accordance with W. Va. Code § 5-22-1, The apparent low bidder on a contract for the construction, alteration, decoration, painting or improvement of a new or existing building or structure valued at more than \$500,000.00 shall submit a list of all subcontractors who will perform more than \$25,000.00 of work on the project including labor and materials. This provision shall not apply to any other construction projects, such as highway, mine reclamation, water or sewer projects.

c. **Required Information.** The subcontractor list shall contain the following information:

PURCHASING AFFIDAVIT

MANDATE: Under W. Va. Code §5A-3-10a, no contract or renewal of any contract may be awarded by the state or any of its political subdivisions to any vendor or prospective vendor when the vendor or prospective vendor or a related party to the vendor or prospective vendor is a debtor and: (1) the debt owed is an amount greater than one thousand dollars in the aggregate; or (2) the debtor is in employer default.

EXCEPTION: The prohibition listed above does not apply where a vendor has contested any tax administered pursuant to chapter eleven of the W. Va. Code, workers' compensation premium, permit fee or environmental fee or assessment and the matter has not become final or where the vendor has entered into a payment plan or agreement and the vendor is not in default of any of the provisions of such plan or agreement.

DEFINITIONS:

"Debt" means any assessment, premium, penalty, fine, tax or other amount of money owed to the state or any of its political subdivisions because of a judgment, fine, permit violation, license assessment, defaulted workers' compensation premium, penalty or other assessment presently delinquent or due and required to be paid to the state or any of its political subdivisions, including any interest or additional penalties accrued thereon.

"Employer default" means having an outstanding balance or liability to the old fund or to the uninsured employers' fund or being in policy default, as defined in W. Va. Code § 23-2c-2, failure to maintain mandatory workers' compensation coverage, or failure to fully meet its obligations as a workers' compensation self-insured employer. An employer is not in employer default if it has entered into a repayment agreement with the Insurance Commissioner and remains in compliance with the obligations under the repayment agreement.

"Related party" means a party, whether an individual, corporation, partnership, association, limited liability company or any other form or business association or other entity whatsoever, related to any vendor by blood, marriage, ownership or contract through which the party has a relationship of ownership or other interest with the vendor so that the party will actually or by effect receive or control a portion of the benefit, profit or other consideration from performance of a vendor contract with the party receiving an amount that meets or exceeds five percent of the total contract amount.

AFFIRMATION: By signing this form, the vendor's authorized signer affirms and acknowledges under penalty of law for false swearing (W. Va. Code §61-5-3) that neither vendor nor any related party owe a debt as defined above and that neither vendor nor any related party are in employer default as defined above, unless the debt or employer default is permitted under the exception above.

TECHNICAL QUESTIONS

ISCN0018

1. Are power poles going to be acceptable for cubicles?
 - A. Yes
2. Can the Fiber change-over be done during the weekend and/or evenings?
 - A. Yes
3. With no OSP work, can we strike the specialist from the requirement?
 - A. No, there is OSP between the buildings at the D-6 HQ and yet to be determined at the county HQ's and sub stations.
4. Does the old data/phone get demoed?
 - A. Yes
5. If our material count ends up different, whose number do we use?
 - A. Vendor must bid the materials on the revised price sheet. Vendor must bid installation labor for all 16 locations. Pages 27 and 28 reflect the amount of cable runs. District 6 HQ has a total of 352 cable runs. Each of the 6 county HQ's has 36 total cable runs. Each of the 7 substations has 20 total cable runs. The 2 DMV locations change from 38 cable runs at each location to 90 total cable runs at each location.
6. Page 27 states that OM4 12 strand terminating at administration building and 6 strand terminating at DT5-SHP, but bid price sheet states to use a hybrid 12/12SM. MM?
 - A. The vendor must install 12 strands of SM and 12 strands of MM fiber from the admin building 1st floor Telecommunications Equipment Room (TER) to the 3rd floor TER, install 12 strands of SM and 12 strands of MM fiber from the admin building 1st floor equipment room to the Bridge Sign Shop TER and install 12 strands of SM and 12 strands of MM fiber from the admin building 1st floor equipment room to the Maintenance Shop TER.
7. Are blank covers on old plant required after change-over?
 - A. Yes
8. Will plenum cable be acceptable in the maintenance shop open ceiling if secured above wind braces instead of conduit?
 - A. No. Conduit must be used to protect the cable.

9. Can the IT rooms be secured for warranty issues?

A. **The security for the rooms will have to be addressed in a separate procurement.**

10. Do you want hard and electronic copies of the certifications?

A. **Yes.**

11. In the pre-bid meeting, it was discussed that the existing cable would need to be removed (demo) after the new system is cut over. Is this a task that is to be added to the RFQ scope of work?

A. **Yes. To be in compliance with the National Electrical Code, all abandoned cable must be removed by the vendor after migration to the new cable.**

12. In the pre-bid meeting, it was discussed that the install of network equipment and cut over may be desired by the State to be added to the RFQ scope of work. Is this a task that is to be added to the RFQ scope of work?

A. **No.**

13. In the pre-bid meeting, it was discussed that the existing voice and data cabling will need to be in service until the new cabling is cut over. The existing jack locations are stubbed with conduit which most likely will not have the capacity to handle the new Cat-6A cable along with the existing. Is it desired that the existing cables in service be removed from the conduit and station boxes and re-terminated outside of the wall and conduit temporarily to make room for the new Cat-6A? If so, will this additional task be added to the RFQ scope of work?

A. **Yes. The existing cables in service shall be removed from the conduit and station boxes and re-terminated outside of the wall and conduit temporarily to make room for the new Cat-6A and must be removed along with other abandoned cable after migration to the new cable.**

14. In the pre-bid meeting, it was observed that the existing voice cabling terminates in a separate location from the Data cabling. Once the new cabling is in place, all Cat-6A drops will reside in the data room. Using any new Cat-6A cable for legacy voice applications will require a voice tie cable to be installed between the voice closet (MPOP) and the data closet. Is the task of installing a Cat-3 multi-pair tie cable between the closets to be added to the RFQ scope of work? If so, what is the quantity of pairs desired between the Voice closet (MPOP) and the 1st Floor Data closet and the Voice closet (MPOP) and the 3rd Floor Data closet?

A. **Yes, 100 pair on 1st floor and 4 – 4 pairs or 1 – 25 pair to 3rd floor terminated on 66 blocks on 89b style brackets on both ends.**
