

September 24, 2012

Ms. Wagner:

Thank you for including Medical Technology Resources, LLC (MTR) in your bid search. We are very interested in creating a business relationship with the West Virginia Department of Health and Human Resources. However, at this time, MTR will be unable to submit a bid for this product. A valve holding chamber for pressurized metered dose inhalers is not a product that we currently distribute. MTR specializes in infusion therapy which includes everything from the product to the patient, minus the drug components. Please feel free to check out our website if you like at [www.mtrhealth.com](http://www.mtrhealth.com).

We do hope to be considered in the future for other medical products that the West Virginia Department of Health and Human Resources might require.

Thank you for your time.

Respectfully,

A handwritten signature in cursive script that reads "Corinne A. Stemen".
