AGREEMENT ADDENDUM FOR SOFTWARE

In the event of conflict between this addendum and the agreement, this addendum shall control:

1. **DISPUTES** - Any references in the agreement to arbitration or to the jurisdiction of any court are hereby deleted. Disputes arising out of the agreement shall be presented to the West Virginia Court of Claims.
2. **HOLD HARMLESS** - Any provision requiring the Agency to indemnify or hold harmless any party is hereby deleted in its entirety.
3. **GOVERNING LAW** - The agreement shall be governed by the laws of the State of West Virginia. This provision replaces any references to any other State's governing law.
4. **TAXES** - Provisions in the agreement requiring the Agency to pay taxes are deleted. As a State entity, the Agency is exempt from Federal, State, and local taxes and will not pay taxes for any Vendor including individuals, nor will the Agency file any tax returns or reports on behalf of Vendor or any other party.
5. **PAYMENT** - Any references to prepayment are deleted. *Fees for software licenses, subscriptions, or maintenance are payable annually in advance. Payment for services will be in arrears.*
6. **INTEREST** - Any provision for interest or charges on late payments is deleted. The Agency has no statutory authority to pay interest or late fees.
7. **NO WAIVER** - Any language in the agreement requiring the Agency to waive any rights, claims or defenses is hereby deleted.
8. **FISCAL YEAR FUNDING** - Service performed under the agreement may be continued in succeeding fiscal years for the term of the agreement, contingent upon funds being appropriated by the Legislature or otherwise being available for this service. In the event funds are not appropriated or otherwise available for this service, the agreement shall terminate without penalty on June 30. After that date, the agreement becomes of no effect and is null and void. However, the Agency agrees to use its best efforts to have the amounts contemplated under the agreement included in its budget. Non-appropriation or non-funding shall not be considered an event of default.
9. **STATUTE OF LIMITATION** - Any clauses limiting the time in which the Agency may bring suit against the Vendor, lessor, individual, or any other party are deleted.
10. **SIMILAR SERVICES** - Any provisions limiting the Agency's right to obtain similar services or equipment in the event of default or non-funding during the term of the agreement are hereby deleted.
11. **FEES OR COSTS** - The Agency recognizes an obligation to pay attorney's fees or costs only when assessed by a court of competent jurisdiction. Any other provision is invalid and considered null and void.
12. **ASSIGNMENT** - Notwithstanding any clause to the contrary, the Agency reserves the right to assign the agreement to another State of West Virginia agency, board or commission upon thirty (30) days written notice to the Vendor and Vendor shall obtain the written consent of Agency prior to assigning the agreement.
13. **LIMITATION OF LIABILITY** - The Agency, as a State entity, cannot agree to assume the potential liability of a Vendor. Accordingly, any provision limiting the Vendor's liability for direct damages to a certain dollar amount or to the amount of the agreement is hereby deleted. Limitations on special, incidental or consequential damages are acceptable. In addition, any limitation is null and void to the extent that it precludes any action for injury to persons or for damages to personal property.
14. **RIGHT TO TERMINATE** - Agency shall have the right to terminate the agreement upon thirty (30) days written notice to Vendor. Agency agrees to pay Vendor for services rendered or goods received prior to the effective date of termination. *In such event, Agency will not be entitled to a refund of any software license, subscription or maintenance fees paid.*
15. **TERMINATION CHARGES** - Any provision requiring the Agency to pay a fixed amount or liquidated damages upon termination of the agreement is hereby deleted. The Agency may only agree to reimburse a Vendor for actual costs incurred or losses sustained during the current fiscal year due to wrongful termination by the Agency prior to the end of any current agreement term.
16. **RENEWAL** - Any reference to automatic renewal is deleted. The agreement may be renewed only upon mutual written agreement of the parties.
17. **INSURANCE** - Any provision requiring the Agency to purchase insurance for Vendor's property is deleted. The State of West Virginia is insured through the Board of Risk and Insurance Management, and will provide a certificate of property insurance upon request.
18. **RIGHT TO NOTICE** - Any provision for repossession of equipment without notice is hereby deleted. However, the Agency does recognize a right of repossession with notice.
19. **ACCELERATION** - Any reference to acceleration of payments in the event of default or non-funding is hereby deleted.
20. **CONFIDENTIALITY** - Any provision regarding confidentiality of the terms and conditions of the agreement is hereby deleted. State contracts are public records under the West Virginia Freedom of Information Act.
21. **AMENDMENTS** - All amendments, modifications, alterations or changes to the agreement shall be in writing and signed by both parties. No amendment, modification, alteration or change may be made to this addendum without the express written approval of the Purchasing Division and the Attorney General.

PURCHASING AFFIDAVIT

MANDATE: Under W. Va. Code §5A-3-10a, no contract or renewal of any contract may be awarded by the state or any of its political subdivisions to any vendor or prospective vendor when the vendor or prospective vendor or a related party to the vendor or prospective vendor is a debtor and. (1) the debt owed is an amount greater than one thousand dollars in the aggregate; or (2) the debtor is in employer default.

EXCEPTION: The prohibition listed above does not apply where a vendor has contested any tax administered pursuant to chapter eleven of the W. Va. Code, workers' compensation premium, permit fee or environmental fee or assessment and the matter has not become final or where the vendor has entered into a payment plan or agreement and the vendor is not in default of any of the provisions of such plan or agreement.

DEFINITIONS:

"Debt" means any assessment, premium, penalty, fine, tax or other amount of money owed to the state or any of its political subdivisions because of a judgment, fine, permit violation, license assessment, defaulted workers' compensation premium, penalty or other assessment presently delinquent or due and required to be paid to the state or any of its political subdivisions, including any interest or additional penalties accrued thereon.

"Employer default" means having an outstanding balance or liability to the old fund or to the uninsured employers' fund or being in policy default, as defined in W. Va. Code § 23-2c-2, failure to maintain mandatory workers' compensation coverage, or failure to fully meet its obligations as a workers' compensation self-insured employer. An employer is not in employer default if it has entered into a repayment agreement with the Insurance Commissioner and remains in compliance with the obligations under the repayment agreement.

"Related party" means a party, whether an individual, corporation, partnership, association, limited liability company or any other form or business association or other entity whatsoever, related to any vendor by blood, marriage, ownership or contract through which the party has a relationship of ownership or other interest with the vendor so that the party will actually or by effect receive or control a portion of the benefit, profit or other consideration from performance of a vendor contract with the party receiving an amount that meets or exceeds five percent of the total contract amount.

AFFIRMATION: By signing this form, the vendor's authorized signer affirms and acknowledges under penalty of law for false swearing (W. Va. Code §61-5-3) that neither vendor nor any related party owe a debt as defined above and that neither vendor nor any related party are in employer default as defined above, unless the debt or employer default is permitted under the exception above.

VENDOR PREFERENCE CERTIFICATE

Certification and application* is hereby made for Preference in accordance with *West Virginia Code*, §5A-3-37. (Does not apply to construction contracts). *West Virginia Code*, §5A-3-37, provides an opportunity for qualifying vendors to request (at the time of bid) preference for their residency status. Such preference is an evaluation method only and will be applied only to the cost bid in accordance with the *West Virginia Code*. This certificate for application is to be used to request such preference. The Purchasing Division will make the determination of the Resident Vendor Preference, if applicable.

- 1. Application is made for 2.5% resident vendor preference for the reason checked:
 Bidder is an individual resident vendor and has resided continuously in West Virginia for four (4) years immediately preceding the date of this certification; or,
 Bidder is a partnership, association or corporation resident vendor and has maintained its headquarters or principal place of business continuously in West Virginia for four (4) years immediately preceding the date of this certification; or 80% of the ownership interest of Bidder is held by another individual, partnership, association or corporation resident vendor who has maintained its headquarters or principal place of business continuously in West Virginia for four (4) years immediately preceding the date of this certification; or,
 Bidder is a nonresident vendor which has an affiliate or subsidiary which employs a minimum of one hundred state residents and which has maintained its headquarters or principal place of business within West Virginia continuously for the four (4) years immediately preceding the date of this certification; or,
- 2. Application is made for 2.5% resident vendor preference for the reason checked:
 Bidder is a resident vendor who certifies that, during the life of the contract, on average at least 75% of the employees working on the project being bid are residents of West Virginia who have resided in the state continuously for the two years immediately preceding submission of this bid; or,
- 3. Application is made for 2.5% resident vendor preference for the reason checked:
 Bidder is a nonresident vendor employing a minimum of one hundred state residents or is a nonresident vendor with an affiliate or subsidiary which maintains its headquarters or principal place of business within West Virginia employing a minimum of one hundred state residents who certifies that, during the life of the contract, on average at least 75% of the employees or Bidder's affiliate's or subsidiary's employees are residents of West Virginia who have resided in the state continuously for the two years immediately preceding submission of this bid; or,
- 4. Application is made for 5% resident vendor preference for the reason checked:
 Bidder meets either the requirement of both subdivisions (1) and (2) or subdivision (1) and (3) as stated above; or,
- 5. Application is made for 3.5% resident vendor preference who is a veteran for the reason checked:
 Bidder is an individual resident vendor who is a veteran of the United States armed forces, the reserves or the National Guard and has resided in West Virginia continuously for the four years immediately preceding the date on which the bid is submitted; or,
- 6. Application is made for 3.5% resident vendor preference who is a veteran for the reason checked:
 Bidder is a resident vendor who is a veteran of the United States armed forces, the reserves or the National Guard, if, for purposes of producing or distributing the commodities or completing the project which is the subject of the vendor's bid and continuously over the entire term of the project, on average at least seventy-five percent of the vendor's employees are residents of West Virginia who have resided in the state continuously for the two immediately preceding years.
- 7. Application is made for preference as a non-resident small, women- and minority-owned business, in accordance with *West Virginia Code* §5A-3-59 and *West Virginia Code of State Rules*.
 Bidder has been or expects to be approved prior to contract award by the Purchasing Division as a certified small, women- and minority-owned business.

Bidder understands if the Secretary of Revenue determines that a Bidder receiving preference has failed to continue to meet the requirements for such preference, the Secretary may order the Director of Purchasing to: (a) reject the bid; or (b) assess a penalty against such Bidder in an amount not to exceed 5% of the bid amount and that such penalty will be paid to the contracting agency or deducted from any unpaid balance on the contract or purchase order.

By submission of this certificate, Bidder agrees to disclose any reasonably requested information to the Purchasing Division and authorizes the Department of Revenue to disclose to the Director of Purchasing appropriate information verifying that Bidder has paid the required business taxes, provided that such information does not contain the amounts of taxes paid nor any other information deemed by the Tax Commissioner to be confidential.

Under penalty of law for false swearing (*West Virginia Code*, §61-5-3), Bidder hereby certifies that this certificate is true and accurate in all respects; and that if a contract is issued to Bidder and if anything contained within this certificate changes during the term of the contract, Bidder will notify the Purchasing Division in writing immediately.

I have reviewed the attached RFQ. I have attached MPI's specifications for the Auto-Print packaging system. This is a great system. If you have any questions please call me.

David Klosterman
937-416-8153

GENERAL COMMENTS:

Cost for materials - .01 per unit dose

Facility is requesting a 1.5" packaging system that packages 80 doses per minute. None of our competitors including the high volume unit dose packaging system providers package at the rate of 80 doses per minute.

Facility is requesting 1.5" Class A materials which MPI does not offer.

Facility is requesting computer. The Auto-Print(TM) packaging system does not require a dedicated computer. If a new computer is needed the cost will be approximately \$1000.00

Reference : Collaborative Pharmacy – contact Jeff Post 937-458-4931- This is a Nursing home pharmacy with 2 machines.

AUTO-PRINT™ – Unit Dose Packaging System for Oral Solid Medications

DESCRIPTION

The **Auto-Print™ Unit Dose Packaging System** is a complete bar coding packaging solution for oral solid medication. This high-performance, durable system is designed for simple maintenance and easy operation and will help to decrease packaging costs, increase operational efficiency and reduce medication errors.

- Produces up to sixty (60) packages per minute.
- Custom package size 1 ½" x 1 ½" inch.
- Model #9300 – quiet mode printer with 300 d.p.i. resolution.
- Includes MPI's exclusive Pak-EDGE™ UD Windows®-based software with access to **First DataBank** data and image.

The **Auto-Print™ Oral Solid Feeder** features a revolutionary new design, state-of-the-art technology and FDA approved materials and coatings. This rotary feeder adapts to MPI's Auto-Print™ streamlining the packaging process for oral solids by aiding in the efficiency in which tablets and capsules are packaged into unit dose. Bulk medication is loaded into the feeder which will automatically feed the medication one at a time until all medications have been packaged thus eliminating the need for manual hand feeding by the pharmacy technician and increasing sanitary conditions while packaging. When the medication supply is depleted, the Auto-Print™ Pill Feeder will automatically pause and notify the user with a momentary audible alert. The new design allows for easy accessibility to system controls for adjustments during packaging and for cleaning between pill runs. Improved sensor technology detects the smallest sized pills with greater accuracy. The Auto-Print™ Pill Feeder will dispense tablets up to ½" in diameter, capsules and a variety of other medications.

SPECIFICATIONS

Size:	36"L x 15"W x 14"H
Weight:	65 lbs.
Power:	115 VAC, 60 Hz, 320VA
Sealing Temp:	200° - no degradation to medication; no fumes
Safety:	CE Mark. Includes safety reverse switch, and clear protective guard with safety interlock. All moving parts are guarded. Circuit breakers on all circuits and a separate power supply for thermal printer.
Hardware Reqs.:	Computer with Windows® XP and Service Pack 3 (SP3) or higher operating system, 5 GB hard drive space, 1 GB RAM, available USB ports, desktop or network printer for reports, internet access, DVD Rom Drive
Software Reqs.:	MPI Pak-EDGE™ UD operating system software (provided with packaging system). Access to First DataBank data and image is included on a trial basis at no cost to the customer for six (6) months from date of shipment. First DataBank license renewal fees are applicable at the rate of \$975.00 per year and are the sole responsibility of the customer.
Barcodes Supported:	All linear and 2D barcodes are supported.
Pre-Installation:	Sturdy and level countertop, height between 28" – 36" for comfortable working conditions. Clearance above the counter should be 18" – 24". Minimum depth of 18" with 4' – 5' minimum counter space in length. The Auto-Print™ requires two (2) 120V outlets. The Oral Solid Feeder requires one (1) additional 120V outlet. Allow additional room and electrical outlets for your computer.
Chutes/Disks:	The Auto-Print™ ships standard with two (2) pill chutes – (1"-Large) and (5/8"-Small) and two (2) feed disks – Round/Tablet (1") and Oblong/Capsule (1") to accommodate standard size tablets and capsules. Additional pill chutes (3/8"-XXS, 1/2"-XS, 13/16"-M, 1-1/8"-XL) and feed disks (5/16", 7/16", 1/2" and 5/8" Round/Tablet) and (5/16" x 3/4" and 1/4" x 5/8" Oblong/Capsule) are available for purchase to accommodate non-standard size tablets and capsules.
Variable Length Option:	The optional variable length feature adds the capability to change the package length in real time. Pre-loaded software templates are available for each standard package size and software label preview accurately represents package size. Standard available choices for variable length packages include: 1", 1-1/8", 1-1/4", 1-3/8", 1-1/2", 1-7/8", 2 -1/4".

PACKAGING SYSTEMS

Item #	Item Description	Price/Unit
AP-2-9300-1.5-115	Auto-Print™ - Custom 1.5" Unit Dose Packaging System for oral solids	\$11,500.00

OPTIONAL ATTACHMENTS/FEATURES

Item #	Item Description	Price/Unit
PF-1	Auto-Print™ Oral Solid Feeder Optional Feeder Attachment for the Auto-Print™	\$6,500.00
CA-SCAN4	2D USB Barcode Scanner	\$750.00

DISPOSABLE MATERIALS

The **Auto-Print™** requires both thermal paper (4002N) and supercel film (1004 or 1005x) for unit dose packaging. Several options of supercel film are available as listed below. The minimal amount of materials required to operate the packaging system must be ordered at the time the equipment is purchased to ensure that proper testing can be performed and full functionality achieved at the time of installation and training.

Item #	Item Description	Size	Qty/Case	Price/Case
4001N	1.5" Thermal Paper	900' roll	6 rolls/case	\$250.00
9704	1.5" Supercel Film – CLEAR	1800' roll	6 rolls/case	\$215.00
9705A	1.5" Thermal Paper - AMBER	1800' roll	6 rolls/case	\$300.00

INSTALLATION AND TRAINING

Standard on-site installation and training is offered for all of Medical Packaging Inc.'s (MPI) unit dose packaging solutions. A fully-trained representative from Medical Packaging Inc.'s network of authorized exclusive distributors or manufacturer's representative will perform the installation of all packaging solutions and associated software at your facility and provide "hands-on" training to your pharmacy technicians.

The standard installation and training fee will cover up to one day of installation and training labor (8 hours) and all travel and living expenses for one day within the Continental United States. The installation must be scheduled 14 days in advance. It is assumed that the installation and training will take place during "normal business hours", (Monday – Friday 8:00 AM – 5:00 PM). Requests for additional training or work outside of normal business hours will be billed on a time and materials basis at MPI's standard rate.

Although the purchase of installation and training is not mandatory, it is highly recommended for all new customers to ensure proper operation of the packaging systems as well as to familiarize the pharmacy staff with the powerful capabilities of the Pak-EDGE™ UD software. Improper installation of the packaging systems can void the manufacturer's warranty.

INST-2	On-site Installation and Training	\$1,850.00
--------	-----------------------------------	------------

SHIPPING AND HANDLING

The cost of shipping packaging systems and associated disposable materials is the responsibility of the facility ordering the equipment. Shipping is pre-paid by Medical Packaging Inc. (MPI) and the actual costs are added as a line item to the final invoice to be paid for by the facility. If requested by the facility, shipping estimates will be prepared by MPI and included below. All estimates for shipping are based on the current UPS Ground rates or Yellow Exact Express rates, dependent on type of packaging solution purchased.

FREIGHT	Shipping and Handling – PRE-PAID BY MPI AND ADDED TO FINAL INVOICE <ul style="list-style-type: none"> • See detail above. If shipping estimate is requested, estimated cost is: 	\$300.00
---------	---	----------

TERMS AND CONDITIONS

Payment	<ul style="list-style-type: none"> • F.O.B. RINGOES NJ • NET PAYMENT – 30 DAYS
Delivery	<ul style="list-style-type: none"> • Six (6) to eight (8) weeks from receipt of confirmed purchase order.
Warranty	<ul style="list-style-type: none"> • Standard – 1-year limited warranty. •
State Sales and Use Tax	<ul style="list-style-type: none"> • All facilities are responsible for payment of their own state sales and use tax.

---------------------------	--

Medical Packaging Inc. (MPI) Pak-Edge™ UD Barcode Labeling Software

Advanced barcode labeling software for Medical Packaging Inc. (MPI) Bar Code-Plus™ suite of packaging solutions is now optimized for use with Microsoft Windows® 7. Designed to increase operational efficiency and reduce medication packaging errors, Pak-EDGE™ UD Barcode Labeling Software is optionally integrated with the First DataBank™ drug database and image library* to assist the hospital pharmacy with compliance to Joint Commission Standards and National Patient Safety Goals.

Advanced Bar Coding Capabilities and Configurations

1D and 2D Barcode Capabilities including Data Matrix and Aztec. Automatically generates 11 Digit NDC's.

Enhanced Tall Man Lettering option searches for every occurrence of the drug and automatically prompts the user to accept Tall Man lettering suggestions.

Automatic Calculation of Default Shelf Life and Short Term Calculations including suggested expiration options for exact day or last day of the month. Calculated date will never exceed the shelf life of the medication.

Advanced Barcode Builder allows users to add fields and delimiters to create complex linear or 2D barcodes. May include expiration date and lot numbers or any combination of fields.

Enhanced Security, Password Controls and Reporting

Tiered Security Levels provide additional safety in packaging by establishing password and security controls at three separate levels – Technician, Verifier and Administrator.

Approval Batches: Print jobs, library additions and post checks can be queued for approval.

Comprehensive Management Reports including: Daily Brief, Daily Detailed Report, Custom, Totals

Digital Package Retention Feature retains digital image of package label as it was printed.

Lot Traceability for drugs and materials.

Automatic system back-up feature.

Welcome Screen keeps user informed of on-line updates, recent news and feature enhancements.

Master Drug Formulary Accessing First DataBank™ Data and Image

Single Drug Library with comprehensive sorting and search capabilities.

First DataBank™ includes:

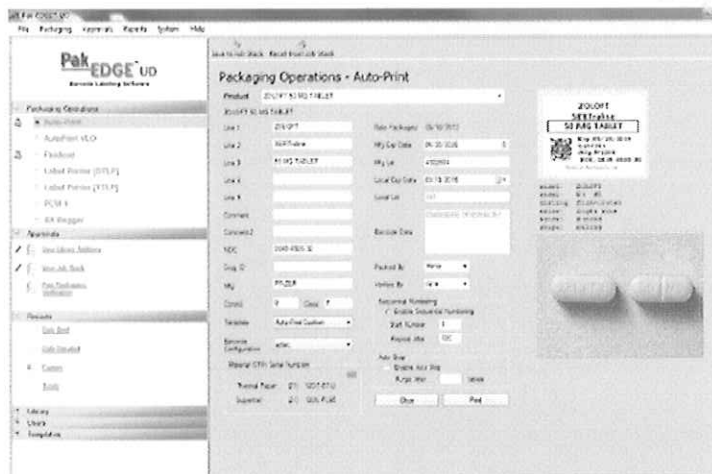

- Source Drug Library Including:
 - Generic Name, Trade Name, Strength, Measure and Form, NDC #, Manufacturer Name, Control Number, Drug Class Code
- Image Database
- Imprints Module
- Mapping Tool

**First DataBank™ integration is optional and offered to US/INDC customers only. Annual renewal fees apply.*

Label Designer Tool - fully customizable label formats. Provides the ability to create and store custom templates or "one of a kind" labels.

- WYSIWYG Editor
- Windows® Fonts
- Default Templates
- Drawing Tools

Label Preview - provides the ability to see the final label layout prior to printing.

Technical Requirements

Computer with Windows® XP and Service Pack 3 (SP3) operating system or higher.

5 GB Hard Drive Space, 1 GB RAM

Available USB Ports, Internet Access and DVD Rom Drive Required

Desktop printer for reports and 2D barcode scanner recommended.

On-going technical support via phone is provided by MPI's Technical Support Department at no additional charge to the user.

Also available in Spanish, French and Portuguese.

Auto-Print™ Unit Dose Packaging System for Oral Solids

The Auto-Print™ is a complete bar coding packaging solution for oral solid medications. This high-performance, durable system eliminates the need for manual packaging and sorting of medication and is designed for simple maintenance and easy operation. Powered by MPI's exclusive Pak-EDGE™ UD Barcode Labeling Software, its' sequential numbering feature allows for accurate inventory control and maintenance of stock levels which assists in decreasing packaging costs, increasing operational efficiency and reducing medication errors.

AUTO-PRINT™ PACKAGING SYSTEM OPTIONS

- Low sealing temperature (98°C) provides no degradation to medication; no fumes.
- Direct thermal printer (300 dpi) enables printing directly on package, eliminating inks, rollers, and transfer ribbons.
- Standard size pill chutes and feed disks are included; custom sizes available to accommodate non-standard size tablets and capsules.
- Built-in safety mechanisms including safety reverse switch and product guards.
- Requires minimal system maintenance.

Standard package size of 2.0" x 1½".

Custom package size of 1½" x 1½" available.

Class A and Class B packaging materials available.

Optional Oral Solid Feeder (OSF) attachment available for packaging bulk medication.

Optional Canister Feeder (CF) attachment available for use with automated packaging systems.

Optional Variable Package Length Feature:
1", 1-1/8", 1-1/4", 1-3/8", 1-1/2", 1-7/8", 2-1/4"

Stainless steel option available for clean room environment.

1D and 2D barcode scanners available for scanning bulk medication.

Six (6) different colors of supercel film to code expiration dates or controlled medications

Technical Specifications

Dimensions: 36" L x 15" W x 14" H

Weight: 65 lbs.

Power: 115VAC, 60Hz, 320VA

230VAC, 50Hz, 320VA

Sealing Temp: 98° C ± 2° C

Rate: 60 Doses/Minute

The Auto-Print™ packages up to sixty (60) unit dose packages per minute and is designed to meet the packaging needs of most hospitals, acute care and long-term care facilities, small pharmacy/repackagers.

- Includes MPI's Windows®-based Pak-EDGE™ Barcode Labeling Software featuring:
 - Label Customization
 - Drug Database Management
 - Bar coding
 - Compliance/Error Prevention
 - Security
 - Reports

All MPI packaging systems require the use of MPI authorized disposable materials.

Auto-Print™ Oral Solid Feeder (OSF) Optional Attachment for MPI's Auto-Print™

The Auto-Print™ Oral Solid Feeder is an optional feeder attachment that adapts to MPI's Auto-Print™ packaging system for oral solids allowing packaging of bulk medications to unit dose. Featuring a revolutionary new design, state-of-the-art technology and FDA approved materials and coatings, the Auto-Print™ Oral Solid Feeder streamlines the packaging process for oral solids by aiding in the efficiency in which tablets and capsules are packaged into unit dose.

Bulk medication is loaded into the feeder which will automatically feed the medication one at a time until all medications have been packaged, thus eliminating the need for manual hand feeding by the pharmacy technician and increasing sanitary conditions while packaging. When the medication supply is depleted, the Auto-Print™ Oral Solid Feeder will automatically pause and notify the user with a momentary audible alert. The new design allows for easy accessibility to system controls for adjustments during packaging and for cleaning between packaging runs. Improved sensor technology detects the smallest sized tablets or capsules with greater accuracy.

Speed Adjustment

The Auto-Print™ Oral Solid Feeder will dispense tablets up to ½" in diameter and can accommodate most available tablet and capsule medications. Packaging speed per minute is dependent on tablet or capsule size. This complementary attachment is available only on Auto-Print™ models featuring a 9300 printer module. *This option is not available on the Auto-Print™ Express 90 model.*

Technical Specifications
