- 26. TIME:** Time is of the essence with regard to all matters of time and performance in this Contract.
- 27. APPLICABLE LAW:** This Contract is governed by and interpreted under West Virginia law without giving effect to its choice of law principles. Any information provided in specification manuals, or any other source, verbal or written, which contradicts or violates the West Virginia Constitution, West Virginia Code or West Virginia Code of State Rules is void and of no effect.
- 28. COMPLIANCE:** Vendor shall comply with all applicable federal, state, and local laws, regulations and ordinances. By submitting a bid, Vendors acknowledge that they have reviewed, understand, and will comply with all applicable law.
- 29. PREVAILING WAGE:** On any contract for the construction of a public improvement, Vendor and any subcontractors utilized by Vendor shall pay a rate or rates of wages which shall not be less than the fair minimum rate or rates of wages (prevailing wage), as established by the West Virginia Division of Labor under West Virginia Code §§ 21-5A-1 et seq. and available at <http://www.sos.wv.gov/administrative-law/wagerates/Pages/default.aspx>. Vendor shall be responsible for ensuring compliance with prevailing wage requirements and determining when prevailing wage

requirements are applicable. The required contract provisions contained in West Virginia Code of State Rules § 42-7-3 are specifically incorporated herein by reference.

- 30. ARBITRATION:** Any references made to arbitration contained in this Contract, Vendor's bid, or in any American Institute of Architects documents pertaining to this Contract are hereby deleted, void, and of no effect.
- 31. MODIFICATIONS:** This writing is the parties' final expression of intent. Notwithstanding anything contained in this Contract to the contrary, no modification of this Contract shall be binding without mutual written consent of the Agency, and the Vendor, with approval of the Purchasing Division and the Attorney General's office (Attorney General approval is as to form only). **No Change shall be implemented by the Vendor until such time as the Vendor receives an approved written change order from the Purchasing Division.**
- 32. WAIVER:** The failure of either party to insist upon a strict performance of any of the terms or provision of this Contract, or to exercise any option, right, or remedy herein contained, shall not be construed as a waiver or a relinquishment for the future of such term, provision, option, right, or remedy, but the same shall continue in full force and effect. Any waiver must be expressly stated in writing and signed by the waiving party.
- 33. SUBSEQUENT FORMS:** The terms and conditions contained in this Contract shall supersede any and all subsequent terms and conditions which may appear on any form documents submitted by Vendor to the Agency or Purchasing Division such as price lists, order forms, invoices, sales agreements, or maintenance agreements, and includes internet websites or other electronic documents. Acceptance or use of Vendor's forms does not constitute acceptance of the terms and conditions contained thereon.
- 34. ASSIGNMENT:** Neither this Contract nor any monies due, or to become due hereunder, may be assigned by the Vendor without the express written consent of the Agency, the Purchasing Division, the Attorney General's office (as to form only), and any other government agency or office that may be required to approve such assignments. Notwithstanding the foregoing, Purchasing Division approval may or may not be required on certain agency delegated or exempt purchases.
- 35. WARRANTY:** The Vendor expressly warrants that the goods and/or services covered by this Contract will: (a) conform to the specifications, drawings, samples, or other description furnished or specified by the Agency; (b) be merchantable and fit for the purpose intended; and (c) be free from defect in material and workmanship.
- 36. STATE EMPLOYEES:** State employees are not permitted to utilize this Contract for personal use and the Vendor is prohibited from permitting or facilitating the same.
- 37. BANKRUPTCY:** In the event the Vendor files for bankruptcy protection, the State of West Virginia may deem this Contract null and void, and terminate this Contract without notice.

- 38. HIPAA BUSINESS ASSOCIATE ADDENDUM:** The West Virginia State Government HIPAA Business Associate Addendum (BAA), approved by the Attorney General, is available online at <http://www.state.wv.us/admin/purchase/vrc/hipaa.html> and is hereby made part of the agreement provided that the Agency meets the definition of a Covered entity (45 CFR §160.103) and will be disclosing Protected Health Information (45 CFR §160.103) to the Vendor. Additionally, the HIPAA Privacy, Security, Enforcement & Breach Notification Final Omnibus Rule was published on January 25, 2013. It may be viewed online at <http://www.gpo.gov/fdsys/pkg/FR-2013-01-25/pdf/2013-01073.pdf>. Any organization, that qualifies as the Agency's Business Associate, is expected to be in compliance with this Final Rule. For those Business Associates entering into contracts with a HIPAA Covered State Agency between January 25, 2013 and the release of the 2013 WV State Agency Business Associate Agreement, or September 23, 2013 (whichever is earlier), be advised that you will be required to comply with the 2013 WV State Agency Business Associate Agreement. For those Business Associates with contracts with a HIPAA Covered State Agency executed prior to January 25, 2013, be advised that upon renewal or modification, you will be required to comply with the 2013 WV State Agency Business Associate Agreement no later than September 22, 2014.
- 39. CONFIDENTIALITY:** The Vendor agrees that it will not disclose to anyone, directly or indirectly, any such personally identifiable information or other confidential information gained from the Agency, unless the individual who is the subject of the information consents to the disclosure in writing or the disclosure is made pursuant to the Agency's policies, procedures, and rules. Vendor further agrees to comply with the Confidentiality Policies and Information Security Accountability Requirements, set forth in <http://www.state.wv.us/admin/purchase/privacy/default.html>.
- 40. DISCLOSURE:** Vendor's response to the Solicitation and the resulting Contract are considered public documents and will be disclosed to the public in accordance with the laws, rules, and policies governing the West Virginia Purchasing Division. Those laws include, but are not limited to, the Freedom of Information Act found in West Virginia Code § 29B-1-1 et seq.

If a Vendor considers any part of its bid to be exempt from public disclosure, Vendor must so indicate by specifically identifying the exempt information, identifying the exemption that applies, providing a detailed justification for the exemption, segregating the exempt information from the general bid information, and submitting the exempt information as part of its bid but in a segregated and clearly identifiable format. Failure to comply with the foregoing requirements will result in public disclosure of the Vendor's bid without further notice. A Vendor's act of marking all or nearly all of its bid as exempt is not sufficient to avoid disclosure and WILL NOT BE HONORED. Vendor's act of marking a bid or any part thereof as "confidential" or "proprietary" is not sufficient to avoid disclosure and WILL NOT BE HONORED. In addition, a legend or other statement indicating that all or substantially all of the bid is exempt from disclosure is not sufficient to avoid disclosure and WILL NOT BE HONORED. Vendor will be required to defend any claimed exemption for nondisclosure in the event of an administrative or judicial challenge to the State's nondisclosure. Vendor must indemnify the State for any costs incurred related to any exemptions claimed by Vendor. Any questions regarding the applicability of the various public records laws should be addressed to your own legal counsel prior to bid submission.

- 41. LICENSING:** In accordance with West Virginia Code of State Rules §148-1-6.1.7, Vendor must be licensed and in good standing in accordance with any and all state and local laws and requirements by any state or local agency of West Virginia, including, but not limited to, the West Virginia Secretary of State's Office, the West Virginia Tax Department, West Virginia Insurance Commission, or any other state agency or political subdivision. Upon request, the Vendor must provide all necessary releases to obtain information to enable the Purchasing Division Director or the Agency to verify that the Vendor is licensed and in good standing with the above entities.
- 42. ANTITRUST:** In submitting a bid to, signing a contract with, or accepting a Purchase Order from any agency of the State of West Virginia, the Vendor agrees to convey, sell, assign, or transfer to the State of West Virginia all rights, title, and interest in and to all causes of action it may now or hereafter acquire under the antitrust laws of the United States and the State of West Virginia for price fixing and/or unreasonable restraints of trade relating to the particular commodities or services purchased or acquired by the State of West Virginia. Such assignment shall be made and become effective at the time the purchasing agency tenders the initial payment to Vendor.
- 43. VENDOR CERTIFICATIONS:** By signing its bid or entering into this Contract, Vendor certifies (1) that its bid was made without prior understanding, agreement, or connection with any corporation, firm, limited liability company, partnership, person or entity submitting a bid for the same material, supplies, equipment or services; (2) that its bid is in all respects fair and without collusion or fraud; (3) that this Contract is accepted or entered into without any prior understanding, agreement, or connection to any other entity that could be considered a violation of law; and (4) that it has reviewed this RFQ in its entirety; understands the requirements, terms and conditions, and other information contained herein. Vendor's signature on its bid also affirms that neither it nor its representatives have any interest, nor shall acquire any interest, direct or indirect, which would compromise the performance of its services hereunder. Any such interests shall be promptly presented in detail to the Agency.

The individual signing this bid on behalf of Vendor certifies that he or she is authorized by the Vendor to execute this bid or any documents related thereto on Vendor's behalf; that he or she is authorized to bind the Vendor in a contractual relationship; and that, to the best of his or her knowledge, the Vendor has properly registered with any State agency that may require registration.

- 44. PURCHASING CARD ACCEPTANCE:** The State of West Virginia currently utilizes a Purchasing Card program, administered under contract by a banking institution, to process payment for goods and services. The Vendor must accept the State of West Virginia's Purchasing Card for payment of all orders under this Contract unless the box below is checked.

Vendor is not required to accept the State of West Virginia's Purchasing Card as payment for all goods and services.

- 45. VENDOR RELATIONSHIP:** The relationship of the Vendor to the State shall be that of an independent contractor and no principal-agent relationship or employer-employee relationship is contemplated or created by this Contract. The Vendor as an independent contractor is solely liable for the acts and omissions of its employees and agents. Vendor shall be responsible for selecting,

supervising, and compensating any and all individuals employed pursuant to the terms of this Solicitation and resulting contract. Neither the Vendor, nor any employees or subcontractors of the Vendor, shall be deemed to be employees of the State for any purpose whatsoever. Vendor shall be exclusively responsible for payment of employees and contractors for all wages and salaries, taxes, withholding payments, penalties, fees, fringe benefits, professional liability insurance premiums, contributions to insurance and pension, or other deferred compensation plans, including but not limited to, Workers' Compensation and Social Security obligations, licensing fees, *etc.* and the filing of all necessary documents, forms and returns pertinent to all of the foregoing. Vendor shall hold harmless the State, and shall provide the State and Agency with a defense against any and all claims including, but not limited to, the foregoing payments, withholdings, contributions, taxes, Social Security taxes, and employer income tax returns.

- 46. INDEMNIFICATION:** The Vendor agrees to indemnify, defend, and hold harmless the State and the Agency, their officers, and employees from and against: (1) Any claims or losses for services rendered by any subcontractor, person, or firm performing or supplying services, materials, or supplies in connection with the performance of the Contract; (2) Any claims or losses resulting to any person or entity injured or damaged by the Vendor, its officers, employees, or subcontractors by the publication, translation, reproduction, delivery, performance, use, or disposition of any data used under the Contract in a manner not authorized by the Contract, or by Federal or State statutes or regulations; and (3) Any failure of the Vendor, its officers, employees, or subcontractors to observe State and Federal laws including, but not limited to, labor and wage and hour laws.
- 47. PURCHASING AFFIDAVIT:** In accordance with West Virginia Code § 5A-3-10a, all Vendors are required to sign, notarize, and submit the Purchasing Affidavit stating that neither the Vendor nor a related party owe a debt to the State in excess of \$1,000. The affidavit must be submitted prior to award, but should be submitted with the Vendor's bid. A copy of the Purchasing Affidavit is included herewith.
- 48. ADDITIONAL AGENCY AND LOCAL GOVERNMENT USE:** This Contract may be utilized by and extends to other agencies, spending units, and political subdivisions of the State of West Virginia; county, municipal, and other local government bodies; and school districts ("Other Government Entities"). This Contract shall be extended to the aforementioned Other Government Entities on the same prices, terms, and conditions as those offered and agreed to in this Contract. If the Vendor does not wish to extend the prices, terms, and conditions of its bid and subsequent contract to the Other Government Entities, the Vendor must clearly indicate such refusal in its bid. A refusal to extend this Contract to the Other Government Entities shall not impact or influence the award of this Contract in any manner.
- 49. CONFLICT OF INTEREST:** Vendor, its officers or members or employees, shall not presently have or acquire any interest, direct or indirect, which would conflict with or compromise the performance of its obligations hereunder. Vendor shall periodically inquire of its officers, members and employees to ensure that a conflict of interest does not arise. Any conflict of interest discovered shall be promptly presented in detail to the Agency.

**50. REPORTS:** Vendor shall provide the Agency and/or the Purchasing Division with the following reports identified by a checked box below:

- Such reports as the Agency and/or the Purchasing Division may request. Requested reports may include, but are not limited to, quantities purchased, agencies utilizing the contract, total contract expenditures by agency, etc.
- Quarterly reports detailing the total quantity of purchases in units and dollars, along with a listing of purchases by agency. Quarterly reports should be delivered to the Purchasing Division via email at [purchasing.requisitions@wv.gov](mailto:purchasing.requisitions@wv.gov).

**51. BACKGROUND CHECK:** In accordance with W. Va. Code § 15-2D-3, the Director of the Division of Protective Services shall require any service provider whose employees are regularly employed on the grounds or in the buildings of the Capitol complex or who have access to sensitive or critical information to submit to a fingerprint-based state and federal background inquiry through the state repository. The service provider is responsible for any costs associated with the fingerprint-based state and federal background inquiry.

After the contract for such services has been approved, but before any such employees are permitted to be on the grounds or in the buildings of the Capitol complex or have access to sensitive or critical information, the service provider shall submit a list of all persons who will be physically present and working at the Capitol complex to the Director of the Division of Protective Services for purposes of verifying compliance with this provision.

The State reserves the right to prohibit a service provider's employees from accessing sensitive or critical information or to be present at the Capitol complex based upon results addressed from a criminal background check.

Service providers should contact the West Virginia Division of Protective Services by phone at (304) 558-9911 for more information.

**52. PREFERENCE FOR USE OF DOMESTIC STEEL PRODUCTS:** Except when authorized by the Director of the Purchasing Division pursuant to W. Va. Code § 5A-3-56, no contractor may use or supply steel products for a State Contract Project other than those steel products made in the United States. A contractor who uses steel products in violation of this section may be subject to civil penalties pursuant to W. Va. Code § 5A-3-56. As used in this section:

- a. "State Contract Project" means any erection or construction of, or any addition to, alteration of or other improvement to any building or structure, including, but not limited to, roads or highways, or the installation of any heating or cooling or ventilating plants or other equipment, or the supply of and materials for such projects, pursuant to a contract with the State of West Virginia for which bids were solicited on or after June 6, 2001.
- b. "Steel Products" means products rolled, formed, shaped, drawn, extruded, forged, cast, fabricated or otherwise similarly processed, or processed by a combination of two or more or

such operations, from steel made by the open heath, basic oxygen, electric furnace, Bessemer or other steel making process.

The Purchasing Division Director may, in writing, authorize the use of foreign steel products if:

- a. The cost for each contract item used does not exceed one tenth of one percent (.1%) of the total contract cost or two thousand five hundred dollars (\$2,500.00), whichever is greater. For the purposes of this section, the cost is the value of the steel product as delivered to the project; or
- b. The Director of the Purchasing Division determines that specified steel materials are not produced in the United States in sufficient quantity or otherwise are not reasonably available to meet contract requirements.

**53. PREFERENCE FOR USE OF DOMESTIC ALUMINUM, GLASS, AND STEEL:** In Accordance with W. Va. Code § 5-19-1 et seq., and W. Va. CSR § 148-10-1 et seq., for every contract or subcontract, subject to the limitations contained herein, for the construction, reconstruction, alteration, repair, improvement or maintenance of public works or for the purchase of any item of machinery or equipment to be used at sites of public works, only domestic aluminum, glass or steel products shall be supplied unless the spending officer determines, in writing, after the receipt of offers or bids, (1) that the cost of domestic aluminum, glass or steel products is unreasonable or inconsistent with the public interest of the State of West Virginia, (2) that domestic aluminum, glass or steel products are not produced in sufficient quantities to meet the contract requirements, or (3) the available domestic aluminum, glass, or steel do not meet the contract specifications. This provision only applies to public works contracts awarded in an amount more than fifty thousand dollars (\$50,000) or public works contracts that require more than ten thousand pounds of steel products.

The cost of domestic aluminum, glass, or steel products may be unreasonable if the cost is more than twenty percent (20%) of the bid or offered price for foreign made aluminum, glass, or steel products. If the domestic aluminum, glass or steel products to be supplied or produced in a "substantial labor surplus area", as defined by the United States Department of Labor, the cost of domestic aluminum, glass, or steel products may be unreasonable if the cost is more than thirty percent (30%) of the bid or offered price for foreign made aluminum, glass, or steel products.

This preference shall be applied to an item of machinery or equipment, as indicated above, when the item is a single unit of equipment or machinery manufactured primarily of aluminum, glass or steel, is part of a public works contract and has the sole purpose or of being a permanent part of a single public works project. This provision does not apply to equipment or machinery purchased by a spending unit for use by that spending unit and not as part of a single public works project.

All bids and offers including domestic aluminum, glass or steel products that exceed bid or offer prices including foreign aluminum, glass or steel products after application of the preferences provided in this provision may be reduced to a price equal to or lower than the lowest bid or offer price for foreign aluminum, glass or steel products plus the applicable preference. If the reduced bid or offer prices are made in writing and supersede the prior bid or offer prices, all bids or offers, including the reduced bid or offer prices, will be reevaluated in accordance with this rule.

**ADDITIONAL TERMS AND CONDITIONS (Construction Contracts Only)**

West Virginia Code § 21-11-11 requires any prospective Vendor to include the contractor's license number on its bid. To comply with this law, Vendor must either complete the enclosed drug-free workplace affidavit and submit the same with its bid or complete a similar affidavit that fulfills all of the requirements of the applicable code. Failure to submit the signed and notarized drug-free workplace affidavit, or a similar affidavit that fully complies with the requirements of the applicable code, with the bid shall result in disqualification of Vendor's bid.
3. **AIA DOCUMENTS:** All construction contracts that will be completed in conjunction with architectural services procured under Chapter 5G of the West Virginia Code will be governed by the AIA A101-2007 and A201-2007 or the A107-2007 documents, as amended by the Supplementary Conditions for the State of West Virginia, in addition to the terms and conditions contained herein.

  - ii. Name of each subcontractor
  - iii. License numbers as required by W. Va. Code § 21-11-1 et. seq.

- d. **Submission.** The completed subcontractor list shall be provided to the Purchasing Division within one business day of the opening of bids for review. Failure to submit the subcontractor list within one business day after the deadline for submitting bids shall result in disqualification of the bid.
- e. **Substitution of Subcontractor.** Written approval must be obtained from the Purchasing Division before any subcontractor substitution is permitted. Substitutions are not permitted unless:
- i. The subcontractor listed in the original bid has filed for bankruptcy;
  - ii. The subcontractor in the original bid has been debarred or suspended; or
  - iii. The contractor certifies in writing that the subcontractor listed in the original bill fails, is unable, or refuses to perform his subcontract.
5. **GREEN BUILDINGS MINIMUM ENERGY STANDARDS:** In accordance with § 22-29-4, all new building construction projects of public agencies that have not entered the schematic design phase prior to July 1, 2012, or any building construction project receiving state grant funds and appropriations, including public schools, that have not entered the schematic design phase prior to July 1, 2012, shall be designed and constructed complying with the ICC International Energy Conservation Code, adopted by the State Fire Commission, and the ANSI/ASHRAE/IESNA Standard 90.1-2007: *Provided*, That if any construction project has a commitment of federal funds to pay for a portion of such project, this provision shall only apply to the extent such standards are consistent with the federal standards.

# ATTACHMENT A

**DEP16244**  
**West Columbia "B"**  
**Addendum #1**

- Item 1: The Contractor shall have 210 days from the date of the Notice to Proceed to complete construction activities on the project. The \$250 per day liquidated damage clause will be in effect after the 210 days. However, the total performance period will be 365 days from the date of the Notice to Proceed for invoicing purposes.
- Item 2: Statement - Bat gate mine seals must be installed between the dates of May 1 and August 31.
- Item 3: Q - Are we required to submit a duplicate copy of our bid to the Bid Observer in the State Auditor's Office, as stated earlier in your remarks?  
A - No. After checking with the Purchasing Division, it was determined that a duplicate copy is not required to be submitted to the Bid Observer. Only one copy of the bid is required to be submitted to the Purchasing Division for bid opening.
- Item 4: Q - Can we see all the sites for this project at this Pre-Bid Conference?  
A - Yes. (All contractors had the opportunity to view all five sites on this project.)
- Item 5: Q - What is the water quality?  
A - Water samples were collected at various locations on the site during the study. Water samples were collected from the creek above the proposed work area, and from the creek below the proposed work area. Samples were also taken from the piezometers. The results of water tests on these samples are included with this addendum as an attachment.
- Item 6: Q - Can limestone be used for the channels to the mine seals?  
A - Yes. See Section 7.2.2 Specification should read; durable limestone, remove sandstone.
- Item 7: Q - Can limestone be used for the mine seals?  
A - No.
- Item 8: Q - Can river gravel be used for mine seals and/or channels?  
A - River gravel may be used as long as it meets durability requirements and gradation requirements of specification 10.2.2. Note that the WVDEP does not believe river gravel will meet these requirements.
- Item 9: Q - Is riprap required to be limestone?  
A - Yes.
- Item 10: Q - If river gravel can be used, what are the gradation requirements?  
A -The aggregate shall be 3"-6" stone with #1 bedding, as per Specification 10.2.2. Also see Item 8 above.
- Item 11: Q - What size stone is specified for the mine seals?  
A - As per specification 10.2.2, stone for mine seals shall be 3"-6", with #1 stone bedding. This is also illustrated in the mine seal plans.

**DEP16244**  
**West Columbia "B"**  
**Addendum #1**

Item 12: Q - Where are the staging areas for Site 5?

A - Access to the sites is designated on the plan sheets. Staging areas may be set up within the construction limits. Alternately, Contractors may seek staging areas outside the construction limits with an agreement and approval from the property owner. Written approval from the WVDEP is required for staging areas outside the construction limits. (See Item Item 51 below for additional discussion.)

Item 13: Q - Are there Mussels on this project?

A - This project is adjacent to the Ohio River, which is known to contain Freshwater Mussels, which are an endangered species. As long as Best Management Practices for proper Erosion and Sediment Control steps are followed, there should be no effect on endangered species. It is also noted that the U.S. Fish and Wildlife Service and the W. Va. Division of Natural Resources have reviewed this project, and had no objection to our proposed work.

Item 14: Statement: As was observed during the pre-bid, there are various areas of saturated/discolored/contaminated (iron, "yellow boy") zones. During the reclamation process, care should be taken by adhering strictly to the Erosion & Sediment Control plan, and Best Management Practices (BMP's), to restrict and limit the contamination of these existing zones, and to prevent any spreading and/or additional contamination.

Item 15: Q - What type of mine seal is this? (Portal 1-1 on Sheet 4.)

A - The plans specify a wet bat gate.

Item 16: Q - Is access by way of the area where we walked? (Portals on Sheet 4.)

A - Yes.

Item 17: Q - Will we have to hammer this portal? (Portal 1-1 on Sheet 4.)

A - If necessary, portals must be excavated (including "hammering") to the appropriate size to accept the specified mine seal.

Item 18: Q - Is this portal a foam mine seal? (Portal 1-5 on Sheet 4.)

A - Yes.

Item 19: Q - Where is the borrow area for this area? (Work by the Ohio River on Sheet 8.)

A - The potential borrow area is shown on the southwest area of Sheet 4. If other borrow areas are necessary, it is Contractor's responsibility to obtain borrow area agreements and perform all work in accordance with special provision 1.07 borrow (disposal) areas.

7

**DEP16244**  
**West Columbia "B"**  
**Addendum #1**

- Item 20: Q - Do we need to clear all the timber in this area? (Work by the Ohio River on Sheet 8.)  
A - No. Timber should only be cleared if it is within the construction limits, and if it is within the zone identified for reclamation work. Obviously, not all the area within the construction limits will be cleared. If in doubt, the WVDEP Engineer should be consulted prior to clearing.
- Item 21: Q - For the regrade in this area, do we just scale it off the drawings? (Work by the Ohio River on Sheet 8.)  
A - The refuse adjacent to the river is to be graded onto a stable 2:1 slope configuration and soil covered. The concrete structure on this site is to be demolished to 1' below finished grade and the void backfilled. The entire area of coal refuse is to receive 1 foot of soil cover and be revegetated.
- Item 22: Q - Are the concrete piers to be removed? (Concrete ruins shown on the western edge of Sheet 4.)  
A - No.
- Item 23: Q - Can bat gates be installed in September, which was what someone said at another Pre-Bid Conference?  
A - Bat gates are to be installed between the dates of May 1 and August 31, as stated in Item 2 above. Any bat gate construction date past August 31 is a special exception, must be approved in writing by the WVDEP, is weather dependent, and may or may not be allowed.
- Item 24: Q - Are riprap ditches required where there is regrading in this area? (Sheet 12.)  
A - Yes, all the channels shown on Sheet 12 include riprap.
- Item 25: Q - What type of mine seal is this, is it foam or stone, and how much has to be filled? (Portal 1-8 on Sheet 12.)  
A - Portal 1-8 is specified to have a standard (non-foam) wet mine seal. The width of the mine seal should extend 5' beyond the mine opening on each side.
- Item 26: Q - What is the length of Channel 1-C? (Sheet 12.)  
A - The length of Channel 1-C is approx. 686 feet.
- Item 27: Statement: Regarding Site 2, Sheet 16. The access to all the portals except 2-10, and their associated channel work, is by a temporary stream crossing that crosses near/behind the two small buildings shown on Sheet 16. The contractor is to avoid the yard area.
- Item 28: Correction: Remove Wet Seal 2-1 (Sheet 16) from the reclamation plans. The revised bid sheet is attached as part of this addendum.

**DEP16244**  
**West Columbia "B"**  
**Addendum #1**

- Item 29: Q - How many mine seals are on Site 2? (Sheet 16.)  
A - For bidding purposes, nine, with the removal of mine seal 2-1 mentioned above.
- Item 30: Q - Does all this area need to be cleared? (Site 2, Sheet 16.)  
A - The area to be cleared must be within the construction limits and must be in the area identified for reclamation work. Not all the area within the construction limits will be cleared. Care should be taken to minimize the removal of old growth timber. The clearing limits should be confined to the cut/fill limits shown on the cross-sections. Very minor grading is anticipated in the vicinity of mine seal #2-9 and mine seal #2-10. Therefore, the contractor should limit the clearing on these areas to that which is required to access and properly perform the proposed construction. If in doubt, the WVDEP Engineer should be consulted prior to clearing.
- Item 31: Statement: Both Stabilized Construction Entrances specified on Site 3, Sheet 20 should have #1 size stone, for residential use.
- Item 32: Q - How deep is the underdrain pipe at the house on the eastern edge of Sheet 20?  
A - The deepest section of the trench is apparently 8' to 9'. The profile is shown on Sheet 56.
- Item 33: Q - Is the cistern beside the house on the eastern edge of Sheet 20 active?  
A - No. The cistern is to be removed as part of the installation of the underdrain.
- Item 34: Q - How does the coal depth relate to the underdrain elevations on Site 3? (Sheet 20.)  
A - The base of the coal is at about elevation 620+/- . The base of the drains (see drainage profile 3-A and 3-C) are on the bench below the mine. The depth of the subdrains were designed to be at least to the top of bedrock on the bench or below the elevation of the basement at the eastern most home on Site 3, Sheet 20.
- Item 35: Statement: Regarding the house on the eastern edge of Sheet 20. This house has a basement, and an underdrain is proposed to be constructed beside the house, below the level of the basement. It is the Contractor's responsibility to protect the house from damage. The Contractor will be liable for any damage done to the house, and for any necessary repairs. The contractor should photograph and document all existing cracks or other existing conditions at the site to avoid claims.
- Item 36: Correction: The mine seal at portal 3-2 on Sheet 24 should be a wet bat gate. The bat gate was added to the quantities. The revised bid sheet is attached as part of this addendum.
- Item 37: Q - How wide are the mine seals supposed to be here? (Portals 3-3 & 3-4 on Sheet 24.)  
A - The plans indicate the portals are approx. 10-15 feet apart. Therefore, the mine seal should extend across both openings and 5' beyond the outside limits.

**DEP16244**  
**West Columbia "B"**  
**Addendum #1**

- Item 38: Q - What type of headwall is specified here? (Channel 3-G at station 1+00, Sheet 24.)  
A - The area in question is at the outlet end of the proposed 18" HDPE pipe culvert. The plans specify the pipe is to receive a standard WVDOH concrete wing wall as shown on the Detail Sheets D-7 & D-8
- Item 39: Q - Is the access to Site 3 through the baseball field? (Sheet 24.)  
A - Yes, the access route to the area on the southern side of Lieving road goes through a baseball field. It is noted that the baseball field is considered to be a yard area, and must be restored to its' original, or better condition after the project is completed. The Stabilized Construction Entrance (SCE) shown on the plan sheet should be constructed of #1 stone to make a more drivable surface.
- Item 40: Q - Is the 18" pipe culvert here sized for the entire surface drainage area? (Portal 3-5 on Sheet 24).  
A - The proposed 18" culvert is designed to handle only the discharge from Portal 3-5. The portal discharge must stay separate from the surface drainage water.
- Item 41: Q - What is the cut area/depth specified here? (The 18" pipe culvert on Sheet 24.)  
A - Depths are shown on Drainage Profile 3-G. Maximum depth is 16' to 17' feet. The profile depths are shown on Sheet 58.
- Item 42: Q - Where can we waste the red material from Site 4? (The area near the Salem Church on Sheet 28.)  
A - Material to be wasted must be on the same property owner.
- Item 43: Q - Is the culvert that crosses the road here specified to be open cut? (Site 4, where the proposed 18" culvert crosses Lieving Road.)  
A - Yes. See Detail 3 on Sheet D-6 for a Type "F" trench roadway repair, which is required at this location. Also, see the statement below.
- Item 44: Statement: After the Pre-Bid Conference, a pay item for asphalt pavement repair was added to the bid sheet. The revised bid sheet is attached as part of this addendum. Asphalt Repair, if needed, will be measured and paid for on a square yard (SY) basis. A bid item; "11.0 - Asphalt Repair" has been added to the bid sheet. The area to be repaired must first be agreed upon by the WVDEP's representative. The contractor will neatly saw cut the area around the damaged area. The new asphalt thickness will be a minimum of 5" in thickness, 3 ½" base course with 1 ½" wearing course. A minimum 4" layer of WVDOH Class I aggregate will be placed and compacted prior to paving. All pavement installed will be measured and paid for on a square yard basis (SY).
- Item 45: Q - Has a highway permit been obtained for this location? (Site 4, Sheet 28.)  
A - Yes, an MM-109 Division of Highways permit has been obtained. The contractor shall perform all maintenance of traffic operations in accordance with standard WVDOH traffic engineering requirements including signage, flaggers and other methods to control traffic in the work area.

**DEP16244**  
**West Columbia "B"**  
**Addendum #1**

- Item 46: Q - What is the water level observed at TB-1? (Site 4, Sheet 28.)  
A - The water level at TB-1 one month after drilling was at elevation 597.3 ft.
- Item 47: Q - Is that a mine shaft? (The location of proposed mine seal 4-1 on Sheet 28.)  
A - The structure is believed to be a slope entry to an underground mine. See sheet 27 for boring information. The base of coal is at elevation 582.8. The creek elevation at the mine opening behind the church is at elevation 602+/-ft.
- Item 48: Q - Can the concrete structures on Site 4 (Sheet 28) be wasted on site?  
A - Yes, as long as they are wasted on the same property owner
- Item 49: Q - Is access to this side where we crossed the stream? (The southern side of Lieving Road on Site 4.)  
A - Yes.
- Item 50: Q - Are we required to remove the guardrail to access the work area here? The area in question is near the ruins shown on Sheet 44, along WV Route 62, at approx. station 51+00  
A - Yes, it is estimated that the guardrail must be removed to access this site, and that is what is indicated on the plans. If the contractor has an alternate route, please get prior approval from the WVDEP before proceeding. Our desire is to minimize the disturbance.
- Item 51: Q - Where are the proposed access points for Site 5?  
A - Three Stabilized Construction Entrances (SCE's) have been designated on the plans for Site 5. Five (5) additional Stabilized Construction Entrances (SCE's) can potentially be added to site 5. The five additional potential SCE's are in areas adjacent to permanent ditches from mine seals to the roadway that have been designed. The Stabilized Construction Entrance (SCE) bid item was increased accordingly. The revised bid sheet is attached as part of this addendum. Note that no additional WVDOH permits have been requested by the WVDEP. It is the responsibility of the Contractor to obtain any additional WVDOH permits necessary to add any SCE's not shown on the original plans. The WVDEP should be consulted regarding the location(s) of any additional stabilized construction entrances prior to construction.

STATE OF WEST VIRGINIA  
Purchasing Division  
**PURCHASING AFFIDAVIT**

**MANDATE:** Under W. Va. Code §5A-3-10a, no contract or renewal of any contract may be awarded by the state or any of its political subdivisions to any vendor or prospective vendor when the vendor or prospective vendor or a related party to the vendor or prospective vendor is a debtor and: (1) the debt owed is an amount greater than one thousand dollars in the aggregate; or (2) the debtor is in employer default.

**EXCEPTION:** The prohibition listed above does not apply where a vendor has contested any tax administered pursuant to chapter eleven of the W. Va. Code, workers' compensation premium, permit fee or environmental fee or assessment and the matter has not become final or where the vendor has entered into a payment plan or agreement and the vendor is not in default of any of the provisions of such plan or agreement.

**DEFINITIONS:**

**"Debt"** means any assessment, premium, penalty, fine, tax or other amount of money owed to the state or any of its political subdivisions because of a judgment, fine, permit violation, license assessment, defaulted workers' compensation premium, penalty or other assessment presently delinquent or due and required to be paid to the state or any of its political subdivisions, including any interest or additional penalties accrued thereon.

**"Employer default"** means having an outstanding balance or liability to the old fund or to the uninsured employers' fund or being in policy default, as defined in W. Va. Code § 23-2c-2, failure to maintain mandatory workers' compensation coverage, or failure to fully meet its obligations as a workers' compensation self-insured employer. An employer is not in employer default if it has entered into a repayment agreement with the Insurance Commissioner and remains in compliance with the obligations under the repayment agreement.

**"Related party"** means a party, whether an individual, corporation, partnership, association, limited liability company or any other form or business association or other entity whatsoever, related to any vendor by blood, marriage, ownership or contract through which the party has a relationship of ownership or other interest with the vendor so that the party will actually or by effect receive or control a portion of the benefit, profit or other consideration from performance of a vendor contract with the party receiving an amount that meets or exceeds five percent of the total contract amount.

**AFFIRMATION:** By signing this form, the vendor's authorized signer affirms and acknowledges under penalty of law for false swearing (W. Va. Code §61-5-3) that neither vendor nor any related party owe a debt as defined above and that neither vendor nor any related party are in employer default as defined above, unless the debt or employer default is permitted under the exception above.
