**Re: Wolfpen (Carpenter) Portals Design
DEP16288
Expression of Interest**

Gentlemen:

Esmer & Associates, Inc. is pleased to have the opportunity to submit this proposal to perform professional engineering design services, and construction monitoring services.

Esmer & Associates, Inc. formed in 1970 by Dr. Esmer, known throughout WV, Ohio, Kentucky, Pennsylvania, and Illinois for providing excellence in service to the coal industry. Our consulting engineering firm has extensive knowledge and experience with the WVDEP-AML. Since our first project together in 1984, we have completed numerous AML projects for reclamation and restoration of areas affected by past mining.

Our flexible staff will provide the professional services required and can work with the WVDEP-AML on any and all aspects of this project as we have for the past 43 years with all our current and past clients.

We are conveniently located in Boomer, Fayette County, WV between multiple WVDEP offices and look forward to working on present and future projects. If you have any questions or need any additional information, please contact us.

Very truly yours,

Esmer & Associates, Inc.

Erkan Esmer,
Principal Engineer

WHEN RESPONDING TO SOLICITATION, INSERT NAME AND ADDRESS IN SPACE ABOVE LABELED 'VENDOR'

STATE OF WEST VIRGINIA
Purchasing Division

PURCHASING AFFIDAVIT

MANDATE: Under W. Va. Code §5A-3-10a, no contract or renewal of any contract may be awarded by the state or any of its political subdivisions to any vendor or prospective vendor when the vendor or prospective vendor or a related party to the vendor or prospective vendor is a debtor and: (1) the debt owed is an amount greater than one thousand dollars in the aggregate; or (2) the debtor is in employer default.

EXCEPTION: The prohibition listed above does not apply where a vendor has contested any tax administered pursuant to chapter eleven of the W. Va. Code, workers' compensation premium, permit fee or environmental fee or assessment and *the* matter has not become final or where the vendor has entered into a payment plan or agreement and the vendor is not in default of any of the provisions of such plan or agreement.

DEFINITIONS:

"Debt" means any assessment, premium, penalty, fine, tax or other amount of money owed to the state or any of its political subdivisions because of a judgment, fine, permit violation, license assessment, defaulted workers' compensation premium, penalty or other assessment presently delinquent or due and required to be paid to the state or any of its political subdivisions, including any interest or additional penalties accrued thereon.

"Employer default" means having an outstanding balance or liability to the old fund or to the uninsured employers' fund or being in policy default, as defined in W. Va. Code § 23-2c-2, failure to maintain mandatory workers' compensation coverage, or failure to fully meet its obligations as a workers' compensation self-insured employer. An employer is not in employer default if it has entered into a repayment agreement with the Insurance Commissioner and remains in compliance with the obligations under the repayment agreement.

"Related party" means a party, whether an individual, corporation, partnership, association, limited liability company or any other form or business association or other entity whatsoever, related to any vendor by blood, marriage, ownership or contract through which the party has a relationship of ownership or other interest with the vendor so that the party will actually or by effect receive or control a portion of the benefit, profit or other consideration from performance of a vendor contract with the party receiving an amount that meets or exceed five percent of the total contract amount.

AFFIRMATION: By signing this form, the vendor's authorized signer affirms and acknowledges under penalty of law for false swearing (W. Va. Code §61-5-3) that neither vendor nor any related party owe a debt as defined above and that neither vendor nor any related party are in employer default as defined above, unless the debt or employer default is permitted under the exception above.

MANAGEMENT PLAN

MANAGEMENT PLAN

Esmer & Associates professional staff has extensive experience on AML projects. Our senior project engineer will review the work directive, field review of the AML sites the project encompasses, and prepare the scope of work and cost proposal. A written proposal with detailed costs will be prepared and submitted to the WVDEP for review.

After approval of the project our project manager will supervise all work performed on the project and keep track of the **budget** on the project at our offices in Boomer, WV. Our project manager will be responsible for directing our engineering staff to develop all working plans on a **time** and **budget** based schedule.

After submission of the construction documents, a design review meeting with our senior project engineer will be setup with the WVDEP to review the proposed design plans. Any review changes or recommendations will be made and the final plan documents will be sent to the WVDEP.

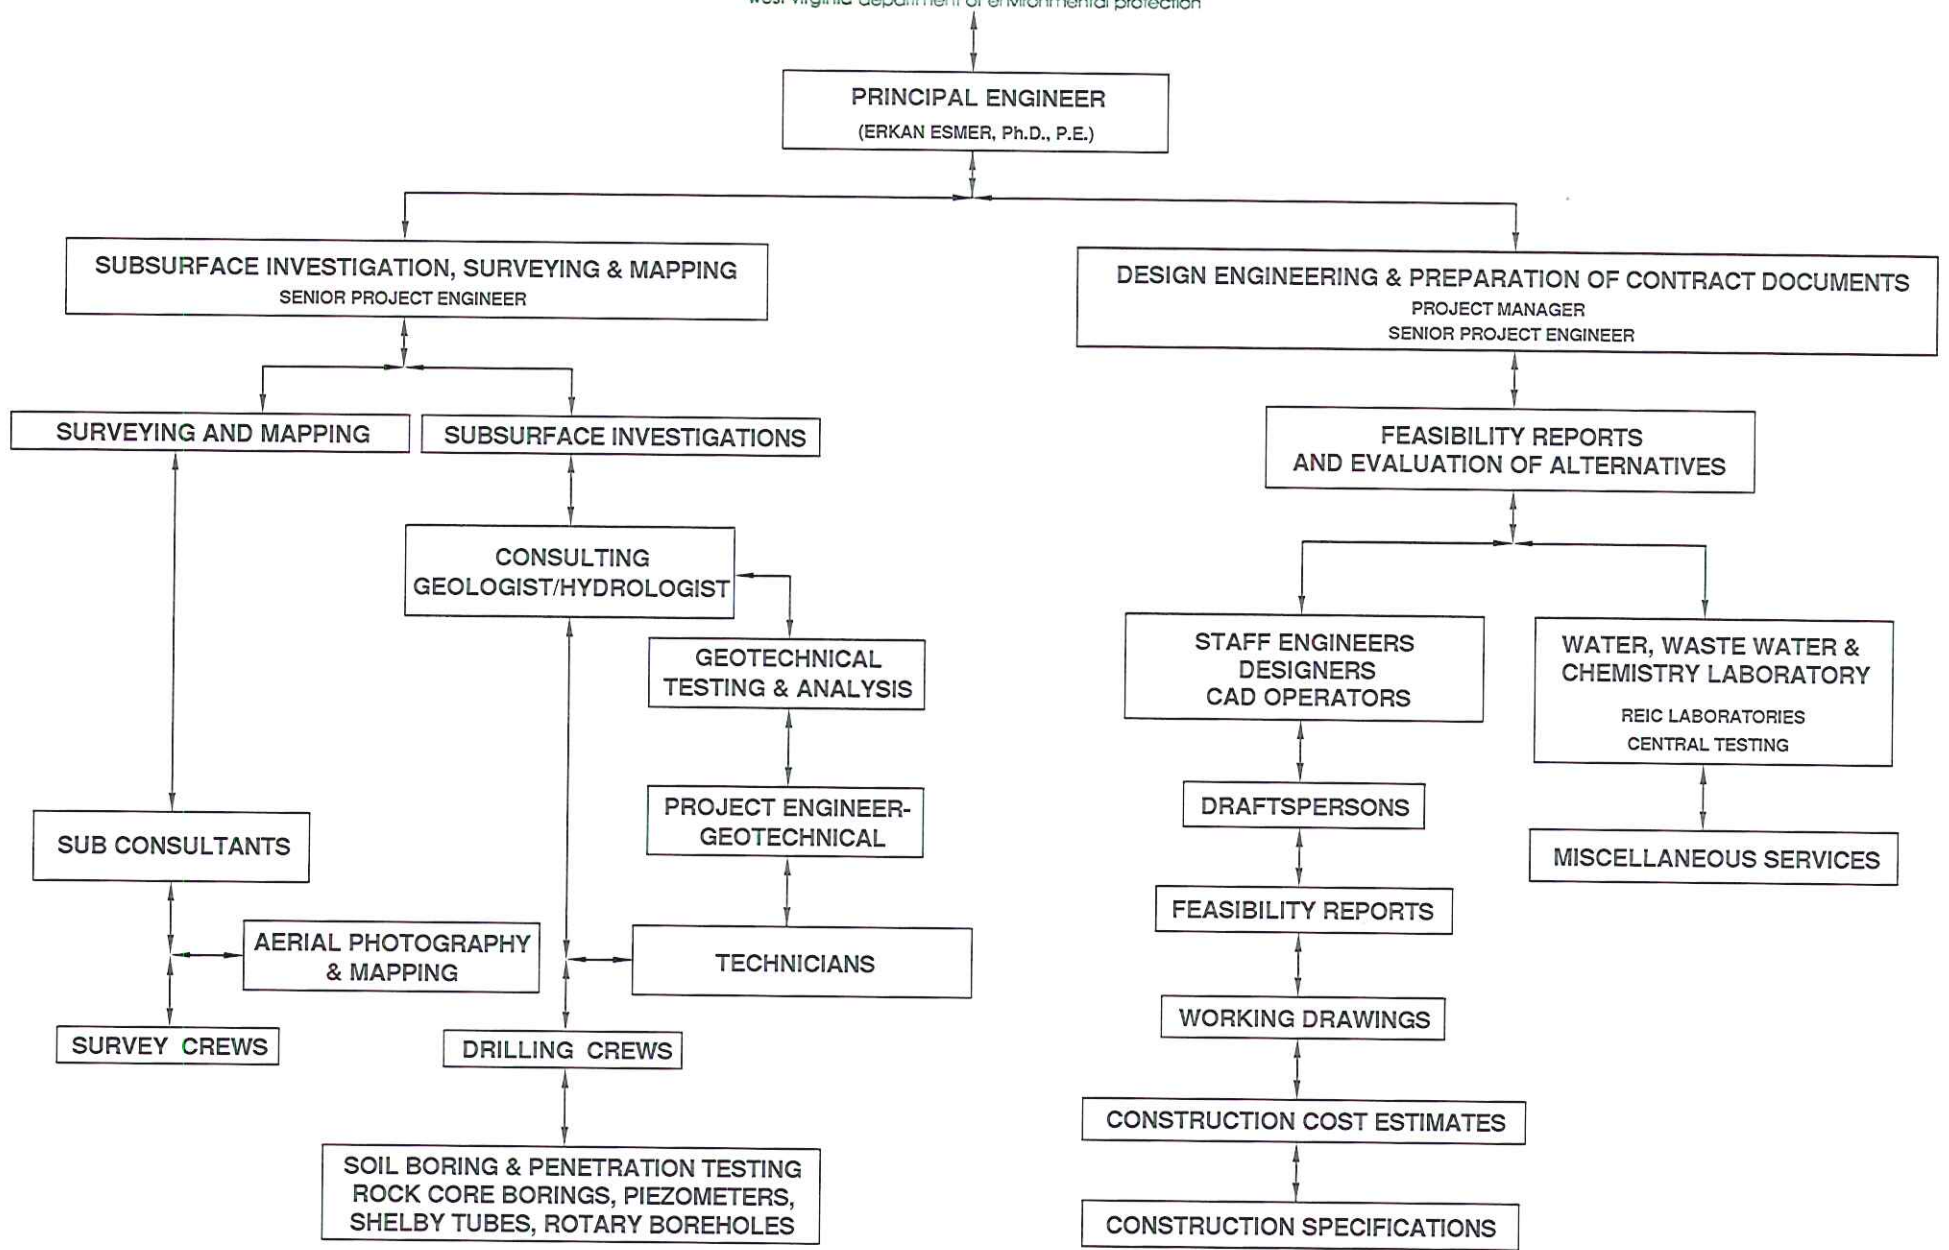

Our senior project engineer will be available to the WVDEP for any pre-bid and pre-construction meetings necessary to complete the project.

See Flow chart next page.

12. A. Is your firm experienced in Abandoned Mine Lands Remediation/Mine Reclamation Engineering?
YES Description and Number of Projects: WV Office AML&R projects - 45 Completed: AML&R related projects in West Virginia - 516 Completed; See attached "Corporate History and Experience of Firm with Abandoned Mine Lands and Related Work" and attached list "Reclamation Engineering Design" for description of services and project names.

NO

B. Is your firm experienced in Soil Analysis?
YES Description and Number of Projects: We have completed geotechnical soils investigations and soils analysis on several hundred AML&R and related projects. See attached "Corporate History and Experience of Firm with Abandoned Mine Lands and Related Work" and attached list "Reclamation Engineering Design" for description of services and project names.

NO

C. Is your firm experienced in hydrology and hydraulics?
YES Description and Number of Projects: We have completed hydrological & hydraulic analysis and design on several hundred AML&R and related projects. See attached "Corporate History and Experience of Firm with Abandoned Mine Lands and Related Work" and attached list "Reclamation Engineering Design" for description of services and project names.

NO

D. Does your firm produce its own Aerial Photography and Develop Contour Mapping?
YES Description and Number of Projects: We have developed contour mapping from aerial photography in West Virginia and neighboring states on more than 37 projects. See attached "Corporate History and Experience of Firm with Abandoned Mine Lands and Related Work" and attached list "Development of Contour Mapping from Aerial Photography" for description of services and project names.

NO

E. Is your firm experienced in domestic waterline design? (Include any experience your firm has in evaluation of aquifer degradation as a result of mining.)
YES Description and Number of Projects: We have completed domestic waterline designs on more than 8 projects and evaluated aquifer degradation on more than 7 projects. See attached "Corporate History and Experience of Firm with Abandoned Mine Lands and Related Work" and attached list "Domestic Waterline Design".

NO

F. Is your firm experienced in Acid Mine Drainage Evaluation and Abatement Design?
YES Description and Number of Projects: We have completed the evaluation and abatement designs for problems due to acid mine drainage on more than 55 projects. See attached "Corporate History and Experience of Firm with Abandoned Mine Lands and Related Work" and attached list "Acid Mine Discharge Abatement Design".

NO

13. PERSONAL HISTORY STATEMENT OF PRINCIPALS AND ASSOCIATES RESPONSIBLE FOR AML PROJECT DESIGN (Furnish complete data but keep to essentials)

| NAME & TITLE (Last, First, Middle Int.) | YEARS OF EXPERIENCE | | |

CORPORATE HISTORY AND

EXPERIENCE OF FIRM WITH ABANDONED MINE LANDS

AND RELATED PROJECTS

Esmer & Associates, Inc.
Consulting Engineers

CORPORATE HISTORY AND EXPERIENCE OF FIRM WITH ABANDONED MINE LANDS AND RELATED WORK

Esmer & Associates, Inc. is a West Virginia Corporation founded in 1970. Dr. Esmer founded the firm based on years of experience in the practice and teaching of geotechnical, civil, environmental and mining engineering.

Our firm is a multi-disciplined engineering firm that provides geotechnical, environmental, civil and mining engineering, hydrological and geological services, subsurface exploration, laboratory and field testing services, and construction inspection and monitoring services, land use and natural resources planning to the coal industry and governmental agencies in West Virginia, Kentucky, Ohio, Pennsylvania, Maryland and Virginia. We are one of the largest engineering firms in the country in our field of specialty and expertise. We have been consultants on several thousand projects whose construction costs exceed twenty billion dollars (\$20,000,000,000). We probably have completed more work than any other engineering company in the world regarding extinguishing refuse fires, Stabilizing unstable refuse banks, and stabilizing land and rock slides at mine sites, land use and natural resources planning, land reclamation, stream and water resources planning, stream and water restoration, post reclamation land uses, and design of new mine and preparation complexes and refuse facilities. We have in-house expertise, experienced and professional personnel and equipment to provide all of the services.

We have efficient, competent and experienced professional and technical personnel, extensive computer systems and printing equipment in-house to do the required reclamation design drawings and construction specifications as well as pre-, during and post project studies.

We have four (4) drilling rigs that are totally equipped to do the drilling work in any kind or terrain that prevails. We have efficient, experienced and competent crews that operate these rigs. We have performed millions of dollars worth of drilling services for our clients.

We have soils and concrete labs that are equipped with state-of-the-art computer and computer aided test equipment and run by competent engineers and technicians. We have performed over six (6) hundred thousand dollars (\$600,000) worth of soils and concrete testing for our clients during the last five (5) years.

If construction inspection and monitoring services are required, we have a staff of efficient, competent and experienced field engineers and technicians that are equipped with state-of-the-art testing equipment.

We have developed and successfully used innovative reclamation techniques on various abandoned mine land projects. In particular at the Low Gap Branch No. 2 Project in Wyoming County and the East Gulf Refuse Piles Project in Raleigh County, we were able to use a "cost-saving state-of-the-art technique" of in-situ extinguishment of the deep burning coal refuse pile fires. This operation involved the injection of a fly-ash-grout mixture into boreholes in a strictly controlled and efficient manner to extinguish the burning coal refuse. This technique provided for an approximate saving of \$6,000,000.00 to the state of West Virginia over the alternative of conventional removal and extinguishment. Due to our firm's success in this operation the state of West Virginia has gained more confidence in using this technique on other projects. The success of this type of innovative work at Low Gap Branch No. 2 Project and the East Gulf Refuse Piles project demonstrates our extensive and confident experience in determining the geotechnical properties and evaluation of abandoned mine lands projects.

Having been AML & R consultants to WVDEP for more than two decades, we are thoroughly familiar with your needs and understand your desires for quality and economical construction projects with excellent, efficient and timely engineering design, drilling, testing and construction inspection and monitoring services. Conversely, the West Virginia Department of Environmental Protection is also very familiar with the extent of our expertise and the quality of services we have provided. We have the in-house professional expertise and the equipment to meet these goals economically and quickly.

Our sub consultant shall be Research, Environmental & Industrial Consultants (REIC) of Beaver, WV. **Their geographical locations with respect to West Virginia's AML projects complements ours such that we shall always be much less than 150 air miles of any AML project.** We have worked with this company in the past and have a good working relationship with them.

We shall provide the WVDEP, Office of AML & R with more than one (1) AML design team and shall have them at your disposal. Thus, we can tackle a multitude of projects at the same time as your needs dictate. Esmer & Associates, Inc. has successfully completed fifty-eight (58) direct AML projects in West Virginia along with five hundred sixteen (516) AML related projects in West Virginia and neighboring states.

We have developed contour mapping from aerial photography on more than thirty-seven (37) projects that encompass several hundred thousand acres in West Virginia and neighboring states.

We have successfully completed more than eight (8) domestic water line design projects. We have evaluated more than seven (7) aquifers for degradation in West Virginia.

We have successfully completed the design of more than fifty-five (55) major acid mine discharge abatement projects. Besides these we have successfully completed several hundred other acid mine discharge abatement projects. Some of these projects were the toughest ever attempted by anyone.

RECLAMATION ENGINEERING DESIGN

RECLAMATION ENGINEERING DESIGN

Due to the fact that we have done thousands of reclamation engineering design, AML and related projects, only the major ones will be briefly discussed under the ensuing seven (7) categories:

I. ABANDONED MINE LANDS PROJECTS FOR GOVERNMENTAL AGENCIES OR OTHER ENGINEERING FIRMS

The problems abated under this category include but are not necessarily limited to abatement of unstable refuse banks/landslides and other soil and rock stability problems, refuse fires; elimination of hydraulic and hydrologic problems; sealing of abandoned mine adits, shafts and slopes; abatement of pollution at these sites; and revegetation of the sites.

Our services included surveying and/or mapping; economic analysis, cost estimating and feasibility studies; development of design specifications and drawings; subsurface exploration (drilling and sampling); testing and chemical analysis and construction inspection/monitoring.

These projects are:

- A) West Virginia Department of Environmental Protection
Office of Abandoned Mine Lands and Reclamation
601 57th Street, SE
Charleston, WV 25304
 - 1) Eunice Complex AML Project
Raleigh County, WV
 - 2) Ashland "Poca Land" Complex AML Project
McDowell County, WV
 - 3) Crane Creek Drainage AML Project
Mercer County, WV
 - 4) Thaxton Landslide AML Project
Kanawha County, WV
 - 5) Lumberport Water Supply AML Project
Harrison County, WV
 - 6) Pell School Strip #2 & Portals AML Project
Preston County, WV

- 7) Sugar Valley Portals AML Project
Preston County, WV
- 8) Rosebud Refuse Pile & Portals AML Project
Harrison County, WV
- 9) Laura Lee Mine Complex AML Project
Harrison County, WV
- 10) Cranberry Refuse Pile AML Project
Raleigh County, WV
- 11) Shannon Branch Refuse Pile AML Project
McDowell County, WV
- 12) Lick Run Impoundment Special Reclamation Project
Raleigh County, WV
- 13) Lick Run #2, AML Project
Preston County, WV
- 14) Stalnaker Road Highwall & Portal AML Project
Barbour County, WV
- 15) Curtin Structures AML Project
Nicholas County, WV
- 16) Ennis Complex, AML Project
McDowell County, WV
- 17) Red Jacket (Parker) Drainage AML Project
Mingo County, WV
- 18) Shegon Refuse Pile & Highwall AML Project
Logan County, WV
- 19) Crown (Conley) Mine Drainage AML Project
Logan County, WV
- 20) Belva to Greendale Waterline Extension Feasibility Study
Nicholas County, WV
- 21) Drews Creek / Peachtree Creek Waterline Extension Feasibility Study
Raleigh County, WV

- 22) Bell Creek Waterline Extension Feasibility Study
Fayette County, WV
- 23) Bridge Fork Waterline Extension Feasibility Study
Clay, Nicholas, Kanawha & Fayette Counties, WV
- 24) Skin Poplar Refuse Pile AML Project
Boone County, WV
- 25) Springton Refuse Pile AML Project
Mercer County, WV
- 26) Roach Branch Refuse Pile AML Project
Boone County, WV
- 27) Bartley Mine Dump AML & Special Reclamation Project
McDowell County, WV
- 28) Hurricane Fork Refuse Pile AML Project
Kanawha County, WV
- 29) Harrah Mine Blowout AML Project
Kanawha County, WV
- 30) Gordon Refuse Pile AML Project
Boone County, WV
- 31) Frozen Branch Refuse Pile AML Project
Kanawha County, WV
- 32) Dawmont Refuse Pile and Mine Complex AML Project
Harrison County, WV
- 33) Bearwallow Refuse Pile AML Project
Logan County, WV
- 34) MacIntire Mine Drainage Abatement AML Project
Harrison County, WV
- 35) East Gulf Refuse Piles AML Project
Raleigh County, WV
- 36) Low Gap Refuse Impoundment AML Project
Wyoming County, WV

-
- 37) Amherstdale Refuse Piles and Mine Complex AML Project
Logan County, WV
 - 38) Troy Town Refuse Pile AML Project
Logan County, WV
 - 39) Big Stick Mine Dumps AML Project
Raleigh County, WV
 - 40) Doug Gray and John Iaunita Subsidence Complaint AML Project
Marion County, WV
 - 41) Longacre Refuse Pile AML Project
Fayette County, WV
 - 42) Covell Refuse Pile AML Project
Wyoming County, WV
 - 43) Rita Structures AML Project
Logan County, WV
 - 44) William Browskey Highwall AML Project
Raleigh County, WV
 - 45) Lobar Tipple Project AML Project
Barbour County, WV
 - 46) Lundale (Dickerson) Drainage AML Project
Logan County, WV
 - 47) Carlisle Refuse Piles AML Project
Fayette County, WV
 - 48) McDunn (Hughes) Refuse Piles AML Project
Fayette County, WV
 - 49) Mud Fork (Baisden) Drainage AML Project
Logan County, WV
 - 50) Stone Branch (Adkins) Landslide AML Project
Logan County, WV
 - 51) Riffe Branch Burning Refuse AML Project
Raleigh County, WV

-
- 52) Northfork (Suiter) Drainage AML Project
McDowell County, WV
 - 53) Maben Prep Plant & Refuse Pile AML Project
Wyoming County, WV
 - 54) Helen (Summe) Drainage AML Project
Raleigh County, WV
 - 55) Sugarcamp Run Burning Refuse AML Project
Nicholas County, WV
 - 56) Sugartree Branch Refuse Pile AML Project
Logan County, WV
 - 57) Orgas Keith Portals AML Project
Boone County, WV
 - 58) Blackeagle #2 Refuse Pile AML Project
Wyoming County, WV

B) Soil Conservation Service
75 High Street
Morgantown, WV 26505

Drilling & Testing Services:

- 59) SCS Carswell RAMP Project
McDowell County, WV
Drilling & Testing and Total Engineering Design:
- 60) SCS Columbia RAMP Project
Fayette County, WV
- 61-66) SCS Bloomsburg, PA Area RAMP Projects
Five (5) RAMP Projects
- 67-73) SCS Clarion, PA Area RAMP Projects
Six (6) RAMP Projects
- 74-81) SCS Somerset County, PA Area RAMP Projects
Eight (8) RAMP Projects
- 82-89) Northern PA Area RAMP Projects
Seven (7) RAMP Projects

-
- C) SME/Martin
P.O. Box 190
King of Prussia, PA 19406
 - 90) Subsurface Exploration and Testing
Abandoned Mine Drainage Abatement Project
Sarah Ann, Logan County, WV
 - D) Office of Surface Mining, Reclamation & Enforcement
Knoxville, TN 37902
 - 91) Mason Street Subsidence Project
Rehabilitation Design and Drilling and Grouting Services
Ashland, Boyd County, KY
 - E) Office of Surface Mining, Reclamation & Enforcement
Charleston, WV 25031
 - 92) Subsurface Investigation for Refuse Pile Fire
Minden, Fayette County, WV

II. SERVICES TO THE COAL INDUSTRY TO ABANDON COAL PREPARATION FACILITIES THAT THEY ARE NO LONGER NEEDED AND WHICH COULD NOT BE INCLUDED IN OSM'S AML PROJECTS DUE TO VARIOUS TECHNICALITIES. THESE WERE PROJECTS THAT REGULATORY AGENCIES HAD DECLARED AS PUBLIC HAZARDS, WHICH HAD TO BE ABATED BY THE RESPECTIVE COAL COMPANIES, IMMEDIATELY.

The problems abated under this category include but are not necessarily limited to abatement of unstable refuse banks, landslides, and other soil and rock stability problems, refuse fires, hydraulic and hydrologic problems. Basically, these sites were brought into compliance with state and federal regulations arising from 1969 Coal Mine Health and Safety Act and 1977 Surface Mining and Reclamation Act, so that the coal companies could abandon these facilities in an economical manner without long-term liability in compliance with these acts. Besides rehabilitation of unstable refuse banks and burning refuse piles and elimination of highwalls due to abandoned surface and deep mines, coal preparation plants were dismantled, existing deep mine adits, slopes and shafts were sealed. Pollution problems were abated and the sites were revegetated.

Our services include surveying and/or mapping; economic analysis, cost estimates and feasibility studies; development of design specifications and drawings (drilling and sampling); testing and chemical analysis and construction inspection/monitoring.

These projects are:

- A) The Beckley Lick Run Company (No longer in business, Acquired by Others)
(Formerly The New River Company)
Route 1, Bonny Lane
Beckley, WV 25801

- 93) Stanaford Prep Plant, Mine Complex & Refuse Facility
Rehabilitation Design for Abandonment
Raleigh County, WV

- 94) Cranberry Prep Plant & Refuse Facility
Rehabilitation Design for Abandonment

- 95) Oswald Mine Complex, Prep Plant & Refuse Facility
Rehabilitation Design for Abandonment
Fayette County, WV

- 96) Whipple Prep Plant & Refuse Facility
Rehabilitation Design for Abandonment
Fayette County, WV

-
- 97) Tamroy Prep Plant, Mine Complex & Refuse Facility
Rehabilitation Design for Abandonment
Fayette County, WV
 - 97) Lochgelly Prep Plant, Mine Complex & Refuse Facility
Rehabilitation Design for Abandonment
Fayette County, WV
 - 99) Oakwood Prep Plant, Mine Complex & Refuse Facility
Rehabilitation Design for Abandonment
Fayette County, WV
 - 100) Harvey Prep Plant, Mine Complex & Refuse Facility
Rehabilitation Design for Abandonment
Fayette County, WV
 - 101) Price Hill Shaft Pollution Abandonment Design
Rehabilitation Design for Abandonment
Fayette County, WV
 - 102) Demsey Pump Pollution Abatement Design
Fayette County, WV
 - 103) Mill Branch Dam Breach Design
Rehabilitation Design for Abandonment
Fayette County, WV

B) Westmoreland Coal Company
Tams, WV

- 104) McAlpine Prep Plant & Refuse Facility
Winding Gulf No.4 Mine Complex
Rehabilitation Design for Abandonment
Raleigh County, WV
- 105) Otsego Refuse Facility
Rehabilitation Design for Abandonment
Raleigh County, WV
- 106-112) Several Abandoned Refuse Facilities
Winding Gulf No.4 Mine Complex
Rehabilitation Design for Abandonment
Raleigh County, WV

- 113) Aerial Tram Dump
Hampton No.4 Preparation Complex
Rehabilitation Design for Abandonment
Boone County, WV
- 114) Berry Branch Impoundment
Rehabilitation Design for Abandonment
Raleigh County, WV
- 115) East Gulf Refuse Facility
Rehabilitation Design for Abandonment
Raleigh County, WV
- 116) Clifftop Refuse Facility
Rehabilitation Design for Abandonment
Raleigh County, WV
- 117) Surface Mine
Rehabilitation Design for Highwall Elimination
Nicholas County, WV
- 118) Barrier Strength Analysis to Prevent Inundation of Hampton No.4 Mine
From Adjacent Abandoned Mines
Boone County, WV

C) Contractors Service, Inc.
P.O. Box 182
Parkersburg, WV 25101

- 119) Windsor Power House Coal Company
Rehabilitation Design for Abandonment of Refuse Facility
Ohio County, WV

120-134) There are approximately fourteen (14) other sites for various coal companies that were not listed to save reviewer's time. A list will be made available if requested by WVDEP/AML.

III. SERVICES TO THE COAL INDUSTRY TO REHABILITATE THEIR EXISTING REFUSE PILES AND REFUSE IMPOUNDMENT FOR THEIR CONTINUED USAGE.

The problems abated under this category include but are not necessarily limited to abatement of unstable refuse banks, landslides and other soil and rock problems, refuse fires, hydraulic and hydrologic problems. Basically, these sites were brought into compliance with state and federal regulations arising from 1969 Coal Mine Health and Safety Act and 1977 Surface Mining and Reclamation Act, so that the coal companies could use these facilities, if it was economically feasible to do so.

Our services included, but not necessarily were limited to surveying and/or mapping; economic analysis, cost estimates and feasibility studies; development of design specifications and drawings; subsurface exploration (drilling and sampling); testing and chemical analysis and construction inspection/monitoring.

These projects are:

- A) Cannelton Industries, Inc.
P.O. Box 150
Cannelton, WV 25036

- 135) Lady Dunn Combined Refuse Facilities
Rehabilitation Design for Abatement of Unstable Slopes
And Other Compliance Problems
Fayette/Kanawha County, WV

- 135) Lady Dunn Impoundment No.1
Rehabilitation Design for Abatement of Unstable Slopes
And Other Compliance Problems
Fayette/Kanawha County, WV

- 137) Lady Dunn Impoundment No.2
Rehabilitation Design for Abatement of Unstable Slopes
And Other Compliance Problems
Fayette/Kanawha County, WV

- 138) Indian Creek Combined Refuse Facilities
Rehabilitation Design for Abatement of Unstable Slopes

T) The American Coal Company
9085 Highway 34 North
Galatia, IL 62935

259) Bunkhouse Impoundment
Saline County, IL

U) Foundation Coal Company
400 Patterson Lane
Charleston, WV 25311

260) Stephens Fork Refuse Facility
Wayne County, WV

V. ADDITIONS TO EXISTING COAL PREPARATION COMPLEXES

This category of projects consists of bringing the surface facilities into compliance with new regulations, elimination of unstable rock cuts, hydrology and hydraulic problems, elimination of pollution at the sites, and permit acquisition.

Our services include surveying and/or mapping; economic analysis, cost estimates and feasibility studies; development of design specifications and drawings; subsurface exploration (drilling and sampling); testing and chemical analysis and construction inspection/monitoring.

These projects are:

- A) Cannelton Industries, Inc. (Acquired by others)
P.O. Box 150
Cannelton, WV 25036

- 261) Fine Coal Plant Addition
Superior Preparation Plant
Geotechnical Engineering & Drilling & Testing Services
McDowell County, WV

- 262) Superior Preparation Plant
Compliance Remedial Design and Permit Acquisition
McDowell County, WV

- 263) Indian Creek No.1 Prep Plant
Compliance Remedial Design
Boone County, WV

- 264) Lady Dunn Prep Plant
Geotechnical Engineering & Drilling & Testing Services
Compliance Remedial Design and Permit Acquisition
Fayette/Kanawha County, WV

- 265) Maple Meadow Prep Plant
Compliance Remedial Design and Permit Acquisition
Raleigh County, WV

B) Beckley Lick Run Company (Formerly The New River Company) (Acquired by others)
Route 1, Bonny Lane
Beckley, WV 25801

266) Skelton Prep Plant
Compliance Remedial Design and Permit Acquisition
Raleigh County, WV

267) Summerlee Prep Plant
Compliance Remedial Design and Permit Acquisition
Fayette County, WV

C) Westmoreland Coal Company
Tams, WV

268) East Gulf Prep Plant
Compliance Remedial Design and Permit Acquisition
Raleigh County, WV

269) Eccles Prep Plant
Compliance Remedial Design and Permit Acquisition
Raleigh County, WV

270) Clifftop Prep Plant
Compliance Remedial Design and Permit Acquisition
Fayette County, WV

271) Imperial No.1 Prep Plant
Compliance Remedial Design and Permit Acquisition
Nicholas County, WV

272) Hampton No.3 Prep Plant
Compliance Remedial Design and Permit Acquisition
Boone County, WV

273) Hampton No.4 Prep Plant
Compliance Remedial Design and Permit Acquisition
Boone County, WV

D) Eastern Associated Coal Corporation
800 Laidley Towers
P.O. Box 69004
Charleston, WV 25304-0004

274) Keystone No.1 Prep Plant
Remedial Design and Permit Acquisition
McDowell County, WV

275) Keystone No.2 Prep Plant
Remedial Design and Permit Acquisition
Wyoming County, WV

E) Coal River Energy, Inc.
700 Virginia Street East, Suite 240
Charleston, WV 25301

276) Cherry Tree Hollow Refuse Facility
Remedial Design and Permit Acquisition
Boone County, WV

277-292) There are fifteen (15) more plants on which we have done remedial design work, but were not enumerated here, to save the reviewer's time. A list of these will be supplied if requested by WVDEP/AML.

VI. SITE DESIGN & PERMIT ACQUISITION FOR NEW PREPARATION PLANTS

Our services in this category of projects involved geotechnical engineer, drilling and testing, design of foundation, design of pollution abatement structures, design of dams, railroad sidings, bridges, roads, culverts, diversion ditches, site layout, water testing, construction specification writing, construction inspection and monitoring and permit acquisition.

These projects are:

- A) A. T. Massey Coal Company (Acquired by others)
One Pavillion Drive
Glade Springs
Daniels, WV 25832-9799
 - 293) Marrowbone Development Company
Coal Preparation Complex
Mingo County, WV
 - 294) Elk Run Coal Company
Coal Preparation Complex
Boone County, WV

- B) Gates Engineering Company (Acquired by others)
P.O. Box 5849
Princeton, WV 24740
 - 295) Southern Mississippi Electric Power Cooperative
Coal Preparation Complex
Grover, KY

- C) New Era Coal Resources, Inc. (No longer in business)
P.O. Box 8166
Lexington, KY 40503
 - 296) New Era Coal Preparation Complex
Randolph County, WV

- D) The Beckley Lick Run Company (Acquired by others)
Route 1, Bonny Lane
Beckley, WV 25801

-
- 297) Meadow Creek Coal Preparation Complex
Summers County, WV
- 298) Bonny Mine Complex
Raleigh County, WV
- E) Cannelton Industries, Inc. (Acquired by others)
P.O. Box 150
Cannelton, WV 25036
- 299) Indian Creek No.2
Coal Preparation Complex
Boone County, WV
- F) Race Fork Coal Company (Acquired by others)
P.O. Box 1614
Bluefield, WV 24701
- 300) Race Fork Coal Preparation Complex
Hurley, VA

Beckley, WV 25802

307) Paramount Coal Company Prep Plant
Wise, VA

308) Donaldson Mine Complex
Kanawha County, WV

309) Black Hawk Coal Preparation Complex
Grayville, IL

310) Per-Mac Coal Company Prep Plant
Oakwood, VA

M) Exploration & Bergbau, GMBH (No longer in business) (Acquired by others)
928 Washington Trust Building
Washington, PA 15301

311) Potomac Basin Mine & Coal Preparation Complex
Garrett County, MD

N) Eastern Associated Coal Corporation
800 Laidley Towers
P.O. Box 69004
Charleston, WV

312) Rocklick Coal Preparation Complex
Boone County, WV

VII. DEEP AND SURFACE MINE

This category of projects consists of elimination of unstable rock and soil cuts and highwalls, general geotechnical engineering services, remedial design of mine roads, design of new mine roads, drilling and testing, design of hydraulic and pollution abatement structures, environmental baseline studies and permit acquisition for several dozen coal companies.

- 313-585) We have worked on remedial design for compliance or designed two hundred seventy two (272) deep and surface mines. These have not been enumerated to save the reviewer's time. Therefore, a list of these projects has not been included, but will be provided if requested by WVDEP/AML.

DEVELOPMENT OF CONTOUR MAPPING FROM AERIAL PHOTOGRAPHY

Esmer & Associates, Inc.
Consulting Engineers

DEVELOPMENT OF CONTOUR MAPPING FROM AERIAL PHOTOGRAPHY

We have been consultants for development of contour mapping from aerial photography that encompass several hundred thousand acres in West Virginia, Virginia, Kentucky, and Pennsylvania. A partial list of these projects is submitted below.

DOMESTIC WATERLINE DESIGN

Esmer & Associates, Inc.
Consulting Engineers

DOMESTIC WATERLINE DESIGN

A partial list of waterline design projects included here include projects we have designed as prime consultants and sub consultants to other engineering companies. Our services included waterline design, surveying and/or mapping; economic analysis, cost estimating and feasibility studies.

These projects are:

- 1) Town of Bramwell Water System
(Subconsultants to J.H. Milam, Inc.)
Bramwell, WV
- 2) Bluewell Water System
(Subconsultants to J.H. Milam, Inc.)
Bluewell, WV
- 3) Winfield Water System
(Subconsultants to J.H. Milam, Inc.)
Winfield, WV
- 4) Roach Water System
(Subconsultants to J.H. Milam, Inc.)
Roach, WV
- 5) Town of East Bank Waterline Extension
East Bank, WV
- 6) Harewood Mine Complex Water System
(Included pump system design, waterline design, water tank design,
fire hydrants, and outlets for watering roads)
Harewood, WV
- 7) Marrowbone Mine Complex Water System
(Included fresh water impoundment design, pumping system design, waterline
design, water tank design, potable water system design, water treatment
facility design, and outlets for watering roads)
Naugatuck, WV
- 8) Bonny Mine Complex Water System
(Included freshwater impoundment design, pumping system design, waterline
design, water tank design, potable water system design,
water treatment facility design, five hydrants, outlets for watering roads)
Raleigh County, WV

EVALUATION OF ACQUIFER DEGRADATION

- 1) Belva to Greendale Waterline Extension Feasibility Study (**WVDEP-AML**)
Nicholas County, WV
- 2) Drews Creek/ Peachtree Creek Waterline Extension Feasibility Study (**WVDEP-AML**)
Raleigh County, WV
- 3) Bell Creek Waterline Extension Feasibility Study (**WVDEP-AML**)
Fayette County, WV
- 4) Bridge Fork Waterline Extension Feasibility Study (**WVDEP-AML**)
Clay, Nicholas, Kanawha & Fayette Counties, WV
- 5) Skaggs vs. Cannelton Industries, Inc.
Acquifer degradation studies (consultants and expert witness)
Fayette County, WV
- 6) WVDNR vs. The New River Company
Acquifer degradation studies (consultants and expert witness)
Price Hill, Fayette County, WV
- 7) WVDNR vs. The New River Company
Acquifer degradation studies (consultants and expert witness)
Dempsey, Fayette County, WV

ACID MINE DISHCARGE ABATEMENT DESIGN

ACID MINE DISCHARGE ABATEMENT DESIGN

I. ACID MINE DISCHARGE ABATEMENT PROJECTS FOR WVDEP/AML

The problems abated under this category include but are not necessarily limited to abatement of acid mine drainage; elimination of hydraulic and hydrologic problems; sealing of abandoned mine adits, shafts and slopes; abatement of pollution at these sites by passive or active methods; and revegetation of the sites.

Our services included surveying and/or mapping; economic analysis, cost estimating and feasibility studies; development of design specifications and drawings; subsurface exploration (drilling and sampling); testing and chemical analysis and construction inspection/monitoring when applicable.

These projects are:

- A) **West Virginia Department of Environmental Protection
Office of Abandoned Mine Lands and Reclamation
10 McJunkin Road
Nitro, WV 25143-2506**
- 1) Acid Mine Discharge Abatement Design
Sugar Valley Portals AML Project
Preston County, WV
 - 2) Acid Mine Discharge Abatement Design
Crown (Conley) Mine Drainage AML Project
Logan County, WV
 - 3) **MacIntire Mine Drainage Abatement AML Project**
Harrison County, WV

II. ACID MINE DRAINAGE ABATEMENT PROJECTS FOR COAL INDUSTRY

These projects are:

- A) The Beckley Lick Run Company (No longer in business, Acquired by others)
(Formerly the New River Company)
Route 1, Bonny Lane
Beckley, WV 25801
- 4) Acid Mine Discharge Abatement Design
Stanaford Prep Plant, Mine Complex & Refuse Facility
Raleigh County, WV
- 5) Acid Mine Discharge Abatement Design
Cranberry Prep Plant & Refuse Facility
Rehabilitation Design for Abandonment of Refuse Facility
- 6) Acid Mine Discharge Abatement Design
Oswald Mine Complex, Prep Plant & Refuse Facility
Fayette County, WV
- 7) Acid Mine Discharge Abatement Design
Whipple Prep Plant & Refuse Facility
Fayette County, WV
- 8) Acid Mine Discharge Abatement Design
Tamroy Prep Plant, Mine Complex & Refuse Facility
Fayette County, WV
- 9) Acid Mine Discharge Abatement Design
Lochgelly Prep Plant, Mine Complex & Refuse Facility
Fayette County, WV
- 10) Acid Mine Discharge Abatement Design
Oakwood Prep Plant, Mine Complex & Refuse Facility
Fayette County, WV
- 11) Acid Mine Discharge Abatement Design
Harvey Prep Plant, Mine Complex & Refuse Facility
Fayette County, WV
- 12) Acid Mine Discharge Abatement Design
Price Hill Shaft
Fayette County, WV

-
- 13) Acid Mine Discharge Abatement Design
Demsey Pump
Fayette County, WV
 - 14) Acid Mine Discharge Abatement Design
Summerlee Coal Preparation Complex
Fayette County, WV
 - 15) Acid Mine Discharge Abatement Design
Skelton Coal Preparation Complex
Fayette County, WV
 - 16) Acid Mine Discharge Abatement Design
Garden Ground Coal Preparation Complex
Fayette County, WV
- B) Westmoreland Coal Company
Tams, WV
- 17) Acid Mine Discharge Abatement Design
Winding Gulf No.4 Mine Complex
Raleigh County, WV
 - 18) Acid Mine Discharge Abatement Design
Otsego Refuse Facility
Raleigh County, WV
 - 19) Acid Mine Discharge Abatement Design
East Gulf Refuse Facility
Raleigh County, WV
 - 20) Acid Mine Discharge Abatement Design
Clifftop Coal Preparation Complex
Raleigh County, WV
 - 21) Acid Mine Discharge Abatement Design
Maben Mine Complex
Wyoming/Raleigh County, WV
 - 22) Acid Mine Discharge Abatement Design
Quinwood No. 1 Mine Complex
Nicholas County, WV

-
- 23) Acid Mine Discharge Abatement Design
Hampton No. 3 Mine Complex
Boone County, WV
- 24) Acid Mine Discharge Abatement Design
Hampton No. 4 Mine Complex
Boone County, WV
- C) Cannelton Industries, Inc.
P.O. Box 150
Cannelton, WV 25036
- 25) Acid Mine Discharge Abatement Design
Lady Dunn Coal Preparation Complex
Fayette/Kanawha County, WV
- 26) Acid Mine Discharge Abatement Design
Indian Creek Coal Preparation Complex
Boone County, WV
- 27) Acid Mine Discharge Abatement Design
Superior Coal Preparation Complex
McDowell County, WV
- 28) Acid Mine Discharge Abatement Design
Eccles Mine Complex
Raleigh County, WV

- 55) Acid Mine Discharge Abatement Design
Pevler Mine Complex
Martin County, WV

Besides these fifty-five (55) major acid mine discharge abatement design projects we have successfully abated several hundred other acid mine discharge problems.

EQUIPMENT AND SOFTWARE AVAILABLE

ESMER & ASSOCIATES, INC.
SUBSURFACE EXPLORATION EQUIPMENT

- 2 - CME 55's Truck Mounted Auger-Core-Rotary Drills
These drilling rigs are designed for conventional and hollow stem auger drilling to depths of 125 to 250 feet, sampling with split spoons and thin-walled tubes. Maximum hole diameter is 14 inches. Core and rotary drilling with NW tools can be to a depth of 1,000 feet.
- 1 - CME 45 Skid/Trailer Mounted Auger-Core-Rotary Drill
This drilling rig is designed for conventional and hollow stem auger drilling to depths of 100 to 150 feet, sampling with split spoons and thin-walled tubes. Core and rotary drilling with NW tools can be to a depth of 500 feet.
- 1 - Boyles BBS-35A Truck Mounted Core-Rotary Drill
This drilling rig is designed for core and rotary drilling with NW and NQWL tools to a depth of 5,600 feet.
- 1 - Acker Mark II Trailer Mounted Core-Rotary Drill
This drilling rig is designed for core and rotary drilling with NW and NQWL tools to a depth of 2,000 feet.
- 1 - GW-15 Winkie Portable Core-Rotary Drill
This drill is lightweight and compact. It is designed for use in mountainous terrain. Core and rotary drilling with EK tools can be to a depth of 200 feet.
- 1 - Power Hand Auger (Soiltest)
This drill is useful in difficult access areas. It can drill to depth of 30 feet.
- 2 - John Bean Pressure Pumps, Skid Mounted
- 2 - Piston Pumps, Skid Mounted
- 2 - Centrifugal Pumps, Portable
- 2 - Grouting Plants for grout injection

In addition to this equipment, all augers, split tube samplers, core barrels, coring bits and rotary drilling bits necessary to carry out an efficient subsurface exploration and ground water monitoring program are available.

ESMER & ASSOCIATES, INC.
SOIL & CONCRETE LABORATORY EQUIPMENT

- 2 - Triaxial Panels Brainard-Kilman Model 4420
- 4 - Triaxial Cells Brainard-Kilman Model 4430
- 1 - Digital Pressure Gauge and 4-way Switching Unit Brainard-Kilman Model 4440-2
- 1 - Tritest 50-KN Load Frame with Steplessly Variable Drive ELE EL25-284
- 1 - Triaxial Test Set Soiltest Model T-1500-2
- 1 - Consolidation Permeability Attachment Soiltest Model K-665
- 3 - Triaxial Compaction Molds Soiltest Models P-48 and P-51
- 1 - Platform Scale Consolidation Appartus Soiltest Model U-120
- 1 - Consolidation Specimen Trimmer Soiltest Model C-200
- 1 - CBR Cylinder Soiltest Model CN-450
- 5 - Liquid Limit Devices with Removable Pin Cup Assembly Soiltest Mode CL-206
- 4 - Four Inch & Six Inch Compaction Molds Forney Model LA-3000 and LA-3035
- 4 - Modified and Standard Compaction Hammers Forney Model LA-3105 and LA-3100
- 1 - Harvard Miniature Compaction Appartus Soiltest Model CN-435
- 2 - Sample Ejectors Soiltest Model P-103 and P-510
- 1 - Mettler Electronic Balance Delta Range Model PE-3600
- 1 - Ohaus Electronic Balance Precision Plus Model TP4KD
- 2 - Heavy Duty Solution Balances 20 KG OHAUS
- 1 - Motor Driven Sieve Shaker Soiltest Model 018484

ESMER & ASSOCIATES, INC.
SOIL & CONCRETE LABORATORY EQUIPMENT
(Continued)

- 20 - Sieves Openings 3 inch to No. 200 U.S. Standard
- 1 - Hydrometer Soiltest ASTM152H
- 1 - Gilson Testing Screen Shaker Soiltest Model TS-1
- 2 - Pulvering Mills Cole-Palmer
- 1 - Screen Mill Raymond No.28
- 1 - Forced Draft Laboratory Oven Soiltest Model L-24B
- 1 - Stirring Apparatus Hamilton Beach Model 936
- 1 - 4 ½ Inch Metal Cutting Band Saw Sears Model 113.229650
- 3 - Adjustable Sample Splitter Forney Model LA-0460 and LA-0451-04
- 1 - Density Basket Forney Model LA-0520-10
- 1 - Conical Mold and Tamper Forney Model LA-0524
- 1 - Compression Test Machine 400 K lbs. Capacity Forney Model QC-400-C2
- 1 - Compression Test Machine 250 K lbs. Capacity Forney Model CT-755
- 2 - Six Inch & Four Inch Vertical Capping Fixtures Forney Model LA-0110 and LA-0100
- 1 - Block capping Fixture Forney Model LA-0112
- 1 - Four Quart Capping Compound Melting Chamber Forney Model LA-0130
- 1 - Concrete Curing Room
- 1 - Concrete Curing Temperature Recorder Soiltest Model CT-550

**ESMER & ASSOCIATES, INC.
FIELD TESTING EQUIPMENT**

- 6 - Nuclear Moisture-Density Gauges Troxler Model 3411-B
- 3 - Volumasure Density Set Soiltest Model CW-666
- 1 - In-Place Concrete Windsor Probe System Soiltest Model CT-460
- 2 - Concrete Test Hammer Soiltest Model CT-320
- 2 - Pachometer Concrete Testing Instruments James Instrumental Model C-4956
- 2 - Pressure Air Meter Soiltest Model C-320
- 1 - Volumetric Air Meter Soiltest Model C-130
- 2 - Two Inch Cement cube Mold Forney Model LA-0215
- 2 - Concrete Slump cones w/Tamping Rods Forney Model LA-0275-10
- 1 - Penetrometer Soiltest Model CW-419
- 3 - Water Level Indicators (300 feet) Soiltest Model DR-760A

FIELD SURVEYING EQUIPMENT

- 1 - Wild T1000 Total Station w/ Accessories
- 1 - Topcon GTS-302DPG Total Station w/ Accessories
- 1 - Topcon 2B Total Station w/ Accessories
- 1 - Wild T-16 Theodolite w/ Accessories
- 1 - Topcon AT/F2 High Production 3-Screw Automatic Level
- 3 - HP 48GX Calculator w/SMI Data Collector Cards
- 6 - Motorola Radius P50 5-Watt Radios
- 1 - Stihl Chain Saw
- 1 - 300' Steel Chain
- 1 - 200' Fiberglass Chain
- 2 - 100' Fiberglass Chain
- 2 - 15' Philadelphia Level Rod
- 1 - 25' Fiberglass Level Rod
- 1 - 16' Flat Bottom Jon Boat – 3 Man Capacity, Powered By 17-LB Thurst Minnkota Electric Fishing Motor With 4' Plastic Oars For Motor Failure Emergency.

Plus all miscellaneous equipment such as, but not limited to, prisms, prism poles, tribrachs, adapters, tripods, plumb bobs, tension handles, lock levels, long and short handle mauls, machetes, brush hooks, axes, hammers and cloth tapes.
