Mr. Frank Whittaker
West Virginia Department of Administration
Purchasing Division
2019 Washington Street East
Charleston, WV 25305-0130

Subject: Expression of Interest for DEP16430 Booths Ck. (Browning Farm) Mines

Dear Mr. Whittaker:

Mead & Hunt, Inc. is pleased to submit this Expression of Interest to provide professional engineering design services for the subject project.

We are a national company with a strong local presence in West Virginia that offers years of experience as a full-service, full-discipline engineering design firm. We have 22 employees in our Charleston office including ten engineers, four surveyors, three CADD technicians, two environmental professionals and three support staff members. We offer one of the strongest, local civil engineering design teams in West Virginia.

Mead & Hunt engineers have prepared civil engineering design, surveying, environmental documents, construction plans, construction specifications, contract documents, and cost estimates for hundreds of projects across West Virginia. Mead & Hunt's local engineers have provided cost-effective, quality engineering designs for the state of West Virginia for many years. Mead & Hunt's local engineers are experts in sediment and erosion control, grading and drainage design and will be able to complete this project on schedule and on budget.

Mead & Hunt has developed a project specific QA/QC program to assure quality products are produced for this project. Mead & Hunt will work closely with AML to ensure that all deliverables are prepared to the highest standards...anything less will be unacceptable to our mission. Thank you for allowing our firm the opportunity to submit this Expression of Interest!

Sincerely,
Mead & Hunt, Inc.

Jamie Bumgarner, PE
Project Manager

Richard E. Plymale, Jr., PE
Principal-in-Charge

QUALIFICATIONS AND EXPERIENCE

CORPORATION HISTORY

Mead & Hunt is an employee-owned firm with more than 400 professional, technical and support staff in offices nationwide, including an office in Charleston, West Virginia. We have been serving clients in both the public and private sectors since our founding in 1900. Principal-in-Charge Richard Plymale, PE is licensed by the State of West Virginia and will oversee the work out of our West Virginia office.

DESCRIPTIONS OF PAST PROJECTS

During the past several years, we have been involved in the design of several exciting projects. Some of these projects include:

- **TRACE BRANCH REFUSE PILE
MCDOWELL COUNTY, WV**

This project consisted of an abandoned refuse pile and approximately nine collapsed or partially collapsed mine portals. The goal of the project was to develop drawings and specifications to remediate an abandoned mine land problem. This project included the reclamation of the refuse pile, installation of wet mine seals and drainage conveyances for these mine portals. This project was constructed in 2012.

- **HUGHES CREEK (BURKE-QUINN) PORTALS
KANAWHA COUNTY, WEST VIRGINIA**

This project encompassed two sites. Site 1 (Burke) consisted of nine collapsed or partially collapsed mine portals. Site 2 (Quinn) consisted of three collapsed or partially collapsed mine portals. This project included the installation of wet mine seals and drainage structures for these mine portals. The goal of the project was to develop drawings and specifications to remediate an abandoned mine land problem. This project was constructed in 2011.

- **STEPHENSON (MILLS) SUBSIDENCE
KANAWHA COUNTY, WEST VIRGINIA**

The Stephenson (Mills) Subsidence stabilization project consisted of stabilizing a void from abandoned underground mining beneath the residence located in Stephenson, West Virginia. The project area overlies an undocumented underground coal mine. The mine void was determined to be in the Beckley Coal Seam and is

located approximately 135 feet below the existing site grade. Damages were reported in the residential structure. Stabilization focused on filling the mine void with grout and/or concrete beneath the residential structure to stabilize the subsidence. Site restoration, including revegetation, was considered an integral component of the Stephenson (Mills) Subsidence stabilization project. The goal of the project was to develop drawings and specifications to remediate an abandoned mine land problem. This project was constructed in 2010.

PROPOSED STAFFING PLAN

Mead & Hunt is not currently working on any engineering design projects for AML. Our Civil Design and Environmental team is available now to serve you on this project. Please see the Organizational Chart shown in Appendix A. It is anticipated that Jamie Bumgarner, PE will serve as the Project Manager, with Matt Plumley, PE leading the civil design.

PROPOSED PROJECT APPROACH

If your review committee selects Mead & Hunt, Inc. as the highest ranked candidate to design this project for you, we will promptly negotiate a price and sign an agreement with the WVDEP. We have never failed to negotiate a fair and reasonable contract.

We will perform an initial site visit for reconnaissance. We will prepare preliminary design plans and specifications and submit them to the AML Project Manager for review and approval within 60 days from the issuance of the Purchase Order.

It is anticipated that this design will include the following reclamation design items:

- Design of drainage conveyances
- Installation of mine seals and bat gate mine seals
- Refuse reclamation
- Installation of aggregate plugs in subsidence features
- Elimination of mine water surface impoundments
- Access road construction
- Re-vegetation of disturbed areas

We will be prepared to assist you all the way through the Construction Phase of the process by: participating in the pre-bid conference, participating in the pre-construction conference, and by providing project oversight and inspection during construction.

We pledge to you that we will be accessible at all times during and after this project and that we will be receptive of your needs and input on this project.

PROJECT QUALITY AND COST CONTROL

Mead & Hunt's continuous communication with the AML Project Manager will be used to produce a cost effective project completed on schedule. Mead & Hunt's approach emphasizes promoting a seamless transition from the initial project startup through final plan preparation. Our in-house check lists and QA/QC review procedures will result in clear, concise, and error free plans, thus eliminating expensive change orders.

Our Project Manager will be responsible for coordinating independent detailed reviews prior to any submissions for QA/QC compliance. An independent reviewer who was not involved in the day to day design activities will perform all Quality Control for this project. The Project Manager will monitor the design schedule and will take all necessary measures to make certain that all agreed upon design schedules are met. These measures shall include staffing levels, staffing changes, and shifting of priorities.

Our Project Manager will ensure that QC audits are performed as outlined in Mead & Hunt's internal Project Design Quality Management Plan. The Project Manager will maintain proper filing, coding, and maintenance of all project documentation in an organized fashion to make it retrievable during and after the project. The Project Manager will manage all team personnel and resources including design engineering subconsultants. These management activities include, but are not limited to assignment of responsibilities, oversight and evaluation of design quality and quantity, and review of billable hours.

LOCATION OF OFFICE IN WHICH THE WORK WILL BE PERFORMED

We have a local AML design team right here in Charleston. Mead & Hunt's office is located at 400 Tracy Way, Charleston, West Virginia. This will be the location from which the progress of all work for this project will be directed and completed.

CERTIFICATE OF AUTHORIZATION (COA)

CERTIFICATE OF *Authorization*

STATE BOARD OF REGISTRATION FOR PROFESSIONAL ENGINEERS

*The West Virginia State Board of Registration for Professional Engineers
having verified the person in responsible charge is registered in
West Virginia as a professional engineer for the noted firm, hereby certifies*

MEAD AND HUNT, INC.

C03848-00

Engineer in Responsible Charge: RICHARD PLYMALE - WV PE 010785

*has complied with section §30-13-17 of the West Virginia Code governing
the issuance of a Certificate of Authorization. The Board hereby notifies you of its
certification with issuance of this Certification of Authorization for the period of:*

July 1, 2013 - June 30, 2014

providing for the practice of engineering services in the State of West Virginia.

IF YOU ARE REQUIRED TO REGISTER WITH THE SECRETARY OF STATE'S OFFICE,
PLEASE SUBMIT THIS CERTIFICATE WITH YOUR APPLICATION.

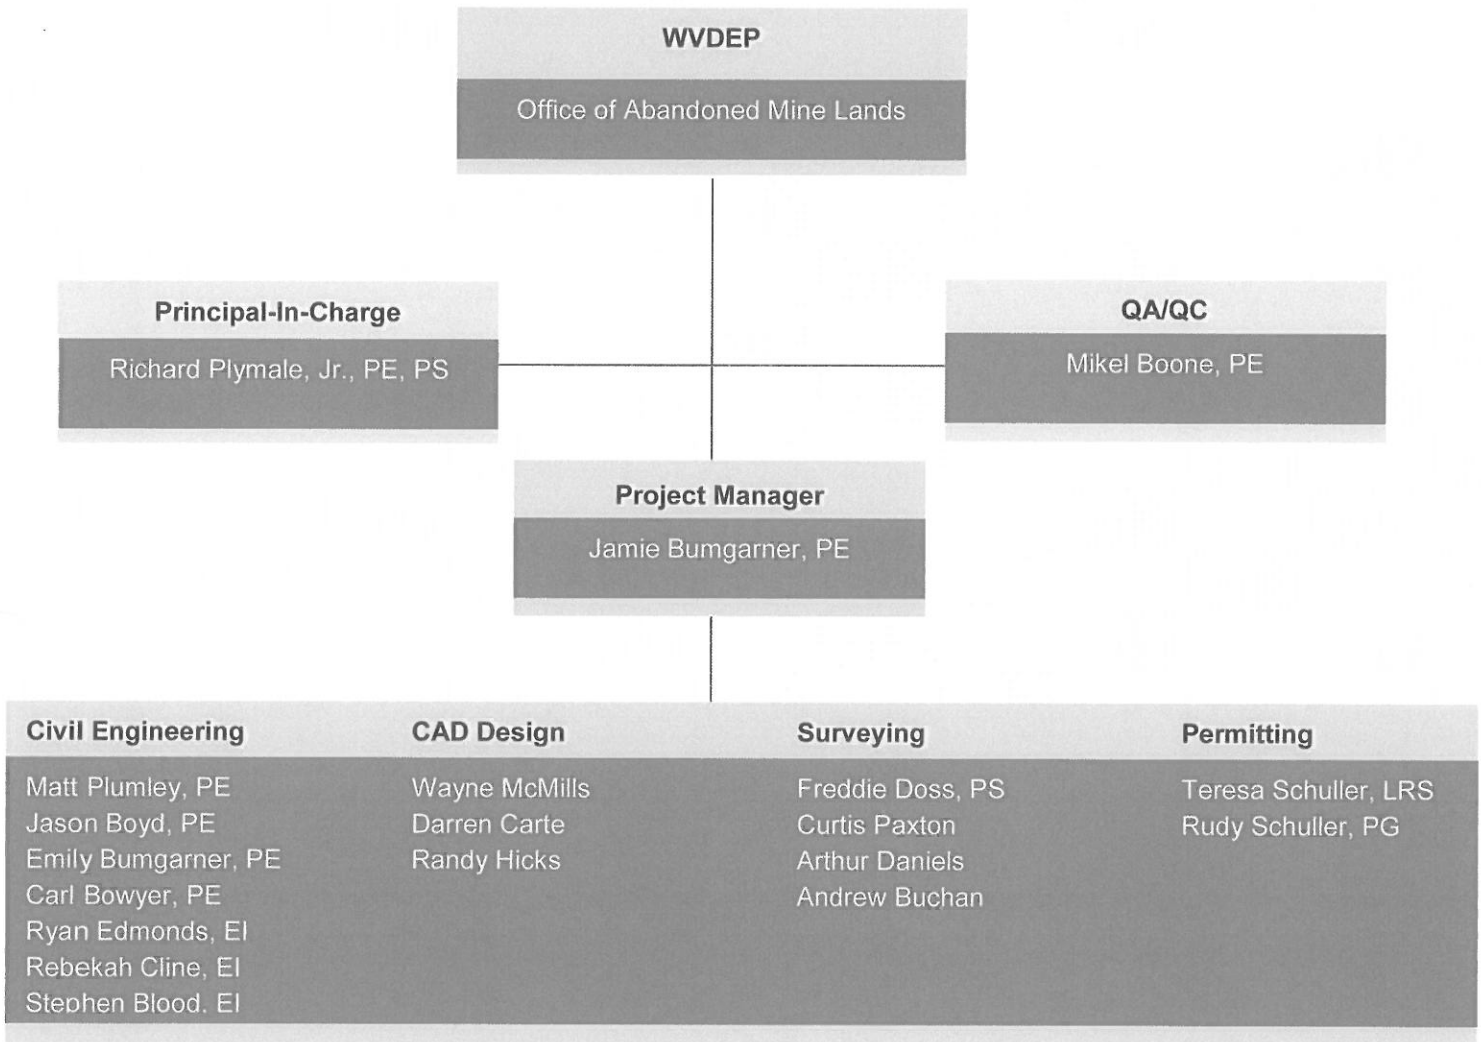

IN TESTIMONY WHEREOF, THE WEST VIRGINIA STATE BOARD OF
REGISTRATION FOR PROFESSIONAL ENGINEERS HAS ISSUED THIS COA
UNDER ITS SEAL AND SIGNED BY THE PRESIDENT OF SAID BOARD.

BOARD PRESIDENT

12. A. Are your firm's personnel experienced in Abandoned Mine Lands Remediation/Mine Reclamation Engineering?

YES Description and Number of Projects: Members of our engineering staff have completed eight (8) AML Projects. These projects involved the preparation of construction drawings for sediment and erosion control measures, clearing and grubbing, drainage structures, grading, water quality testing, stabilizing structures with grout/concrete, and installing mine seals.

NO

B. Are your firm's personnel experienced in Soil Analysis?

YES Description and Number of Projects: Members of our engineering staff have performed soil analyses on many civil engineering projects.

NO

C. Are your firm's personnel experienced in hydrology and hydraulics?

YES Description and Number of Projects: Our engineers have significant experience in performing hydrologic analyses, channel designs, culvert designs, storm drain system designs, erosion and sediment control pond designs, storm water management structure designs, hydraulic river analysis utilizing HEC-RAS, preparation of Hydrology and Hydraulics (H&H) reports, evaluating scour at structures, and natural stream design. Our engineers have completed H & H designs on numerous projects.

NO

D. Does your firm produce its own Aerial Photography and Develop Contour Mapping?

YES Description and Number of Projects:

NO Mead & Hunt does produce Aerial Photography and develop contour mapping. When aerial photography is not available for a project, we usually employ a subcontractor to develop the photography. Mead & Hunt does have a survey crew on staff and have developed contour mapping from topographic surveys on dozens of projects.

E. Are your firm's personnel experienced in domestic waterline design? (Include any experience in evaluation of aquifer degradation as a result of mining.)

YES Description and Number of Projects: Members of our engineering staff have completed hundreds waterline design projects for local municipalities. These waterline projects involved the preparation of construction drawings, estimates, and specifications. These projects also required Bureau for Public Health permits.

NO

F. Are your firm's personnel experienced in Acid Mine Drainage Evaluation and Abatement Design?

YES Description and Number of Projects:

NO Mead & Hunt does not have any specific experience in Acid Mine Drainage Evaluation and Abatement Design.

13. PERSONAL HISTORY STATEMENT OF PRINCIPALS AND ASSOCIATES RESPONSIBLE FOR AML PROJECT DESIGN (Furnish complete data but keep to essentials)

NAME & TITLE (Last, First, Middle Int.) Bumgarner, James A. Jr. Project Manager	YEARS OF EXPERIENCE		
	YEARS OF AML DESIGN EXPERIENCE: 6	YEARS OF AML RELATED DESIGN EXPERIENCE: 16	YEARS OF DOMESTIC WATERLINE DESIGN EXPERIENCE: 5
Brief Explanation of Responsibilities Jamie will be the Project Manager and will perform all Quality Control for this project. He will be the point of contact with WVDEP AML&R staff. He will monitor the design schedule and will take all necessary measures to make certain that all agreed upon design schedules are met. These measures shall include staffing levels, staffing changes, and shifting of priorities. He will ensure that QC audits are performed as outlined in Mead & Hunt's internal Project Design Quality Management Plan. He will maintain proper filing, coding, and maintenance of all project documentation in an organized fashion to make it retrievable during and after the project. He will manage all team personnel and resources including design engineering subconsultants. These management activities include, but are not limited to assignment of responsibilities, oversight and evaluation of design quality and quantity, and review of billable hours.			
EDUCATION (Degree, Year, Specialization) Associate in Applied Science, 1995, Computer-Aided Drafting and Design Bachelor of Science, 1998, Civil Engineering Master of Business Administration, 2003, Business

APPENDIX D
PURCHASING AFFIDAVIT

RFQ No. DEP16430

STATE OF WEST VIRGINIA
Purchasing Division
PURCHASING AFFIDAVIT

MANDATE: Under W. Va. Code §5A-3-10a, no contract or renewal of any contract may be awarded by the state or any of its political subdivisions to any vendor or prospective vendor when the vendor or prospective vendor or a related party to the vendor or prospective vendor is a debtor and: (1) the debt owed is an amount greater than one thousand dollars in the aggregate; or (2) the debtor is in employer default.

EXCEPTION: The prohibition listed above does not apply where a vendor has contested any tax administered pursuant to chapter eleven of the W. Va. Code, workers' compensation premium, permit fee or environmental fee or assessment and the matter has not become final or where the vendor has entered into a payment plan or agreement and the vendor is not in default of any of the provisions of such plan or agreement.

DEFINITIONS:

"Debt" means any assessment, premium, penalty, fine, tax or other amount of money owed to the state or any of its political subdivisions because of a judgment, fine, permit violation, license assessment, defaulted workers' compensation premium, penalty or other assessment presently delinquent or due and required to be paid to the state or any of its political subdivisions, including any interest or additional penalties accrued thereon.

"Employer default" means having an outstanding balance or liability to the old fund or to the uninsured employers' fund or being in policy default, as defined in W. Va. Code § 23-2c-2, failure to maintain mandatory workers' compensation coverage, or failure to fully meet its obligations as a workers' compensation self-insured employer. An employer is not in employer default if it has entered into a repayment agreement with the Insurance Commissioner and remains in compliance with the obligations under the repayment agreement.

"Related party" means a party, whether an individual, corporation, partnership, association, limited liability company or any other form or business association or other entity whatsoever, related to any vendor by blood, marriage, ownership or contract through which the party has a relationship of ownership or other interest with the vendor so that the party will actually or by effect receive or control a portion of the benefit, profit or other consideration from performance of a vendor contract with the party receiving an amount that meets or exceeds five percent of the total contract amount.

AFFIRMATION: By signing this form, the vendor's authorized signer affirms and acknowledges under penalty of law for false swearing (W. Va. Code §61-5-3) that neither vendor nor any related party owe a debt as defined above and that neither vendor nor any related party are in employer default as defined above, unless the debt or employer default is permitted under the exception above.
