RE: RFQ Bid #: DPS1431

APCO's Spectrum Management Division, AFC is pleased to respond to the above referenced RFQ.

Company Information:

APCO International is the world's largest organization dedicated to public safety communications. We have been around since 1935 - far longer than any other public safety communications association (visit APCOHistory.org for more on APCO's 70+ year history). More than 20,000 members rely on APCO for their professional needs - from examining standards and issues to providing education, products and services.

With more than 75 years behind us, APCO has a rich and interesting history worth exploring. View past bulletins from as far back as 1935, read meeting minutes and explore original charters. It's these decades of experience that make APCO the most formidable and well-operated association of its kind. Our governing documents, executive leaders and senior members are a testament to the public safety community's dedication and expertise.

Qualifications:

Mr. Farokh Latif, Director of AFC, signatory of this response, is authorized to obligate APCO-AFC for contracts of this nature. AFC is the premier certified frequency coordination entity serving the public safety industry. AFC provides the most comprehensive frequency coordination services available. AFC maintains a proprietary software system to support the functions of frequency coordination that is exclusively controlled by APCO-AFC.

AFC utilizes the resources of an extensive network of local unpaid professional experts to assist in its ability to recognize local and regional frequency usage and requirements. AFC maintains a complete paid professional staff to support the processing of frequency coordination applications. Mr. Farokh Latif, Director of AFC, has a bachelor degree in Electrical Engineering. Mr. Latif has been employed

by AFC since January of 2001. Prior to joining AFC, Mr. Latif was employed by State of Florida as an Electrical Engineer where he helped local, city, and state governments with system design and implementation. Mr. Latif has been the Director of AFC since July of 2007.

APCO-AFC is the only Public Safety coordinator that supports a large network of RF professionals across the country who are familiar with local and regional frequency usage. These professionals have been provided the necessary tools to process Public Safety licensing needs. Our "Local Advisors" are trained continually on regulatory and technological changes affecting our industry.

Cost Proposal:

Please note that the cost proposal submitted does not address coordination cost for Business/Industrial (I/B) frequencies. I/B channels are coordinated by certified business coordinators and fees charged vary from one coordinator to another. APCO has in the past assisted the State with acquiring business channels and we would be more than happy to provide you with estimated costs per written request.

APCO looks forward to working with the State with its Part 90 licensing needs and we are ready to serve you.

Please do not hesitate to call the undersigned with any questions and/or concerns.

Sincerely,

A handwritten signature in black ink, appearing to read "Farokh Latif". The signature is fluid and cursive, with a large initial "F" and "L".

Questions:

Q1: Can a prospective vendor submit a proposal only for the microwave band, and not for lower bands (such as 700/800 MHz)?

A1: To delete Section 5.1 – Contract Award in its entirety and replace with the following:

5.1 Contract Award: The Contract is intended to provide Agency with a purchase price for the Contract Services. The Contract shall be awarded to the Vendor that provides the Contract Services meeting the required specifications for the lowest overall total cost as shown on the Pricing Pages. The intention is to award one contract, however, if judged to be in the best interest of the State of West Virginia, the award may be split into multiple awards.

Q2: The FCC has paired channels in UHF, 700 and 800 MHz and APCO has a single fee for those frequency pairs. However, VHF is not paired and APCO charges for each unique frequency. How shall we designate this on the RFQ?

A2: To delete Section 4.1.1.2 in its entirety and replace with the following:

4.1.1.2 – Below 520 MHz frequency coordination (per pair).

VHF frequencies would be charged on a per frequency basis as listed in 4.1.1.1.

Revised pricing pages attached.

Q3: The RFQ requests the charges for per frequency and per site. This appears to be the same question. APCO's fees are per frequency (or pair)/site combination. How does the State prefer that we indicate this on the RFQ?

A3: See response above. Vendors should list a charge per single frequency coordinated in 4.1.1.1 and a charge for a coordinated pair in section 4.1.1.2. See revised pricing pages attached.

Q4: Referencing item 4.1.1.10; please confirm that the interoperable frequencies referred to are those so designated by the FCC by Limitation 80. State designated interoperable frequencies which are not recognized by the FCC as interoperable channels will be charged at a different coordination rate.

A4: Limitation 80 is correct.

Q5: Item 4.1.1.12: Does this refer to microwave or LMR (Land Mobile Radio) frequencies? Would this encompass engineering analysis?

A5: There is an entry for this in both LMR and Microwave. It was really not intended as engineering, but it was not spelled out in the request.

- Q6: APCO does not coordinate microwave frequencies. How should we respond to the questions pertaining to microwave to indicate that APCO is not quoting, but in a way that will not disqualify our responses for the segment dealing with LMR frequencies (line items 4.1.1.1 through 4.1.1.12)?
- A6: If you are not bidding on the LMR section or the on the Microwave section then you would enter a bid just for the LMR portion or the Microwave portion. It is our intent to potentially split the award between microwave and LMR, if necessary. See Question 1 and response above.
- Q7: Please confirm that NO bid bond is required for this RFP.
- A7: A bid bond is not required for this RFQ.
- Q8: Please confirm only one original copy of a cost and a technical proposal (separate) must be submitted, no copies.
- A8: This is a RFQ – Request for Quotation not a RFP – Request for Proposal.
- See Section 6 – Bid Submission beginning on Page 3 of the solicitation. The paragraph on page 4 beginning “[i]n the event that Vendor is responding to a request for proposal,” does not apply to this solicitation.
- Q9A: 14. Registration: Please confirm this must be completed prior to award, not bid submittal.
- A9A: See Section 14 – General Terms and Conditions.
- Also, information may be obtained from the WV Purchasing Division website -
<http://www.state.wv.us/admin/purchase/vrc/default.html>
- Q9B: What is the date (or projected) you will award vendors?
- A9B: Award date unknown at this time.
- Q9C: What is the estimated time it takes to complete registration?
- A9C: It varies depending on the necessary documentation needed by the Purchasing Division.
- Links to the Vendor Resource Center on the WV Purchasing Division website provided -
<http://www.state.wv.us/admin/purchase/vrc/default.html>
<http://www.state.wv.us/admin/purchase/VendorRegFAQ.html>
- Q9d: Would you disqualify a vendor if still in the process when awarded?
- A9: The West Virginia Purchasing Division registers vendors to do business with state agencies, in accordance with *West Virginia Code* §5A-3-12. By the authority granted in this section of the code, registration is required of any vendor receiving a purchase order.

Q10: 22. Small, Women-owned, or minority –owned businesses: Please provide more details regarding MWBE certification for this RFP, i.e. what is the primary contact’s information and process to proceed with this certification? What is the estimated time it takes to receive certification? Would you disqualify vendors whom are unable to receive the certification in time for bid submittal?

A10: See the vendor registration page, link provided -

<http://www.state.wv.us/admin/purchase/VendorReg.html>

Clarifications:

1. To delete Section 4.1.1.4 in its entirety and replace with the following:

4.1.1.4 – 769-775/799-805 MHz frequency coordination (per pair).

See revised pricing pages attached.

2. To delete Section 4.1.1.6 in its entirety and replace with the following:

4.1.1.6 – 806-817/851-862 MHz (NPSPAC) frequency coordination (per pair).

See revised pricing pages attached.

3. To delete Section 4.1.1.8 in its entirety and replace with the following:

4.1.1.8 – 806-821/851-866 MHz (non-NPSPAC, General Pool) frequency coordination (per pair).

See revised pricing pages attached.

Other Information:

1. The bid opening has been moved from 05/07/2014 to 05/14/2014. The bid opening time remains at 1:30 pm.

- 47. PURCHASING AFFIDAVIT:** In accordance with West Virginia Code § 5A-3-10a, all Vendors are required to sign, notarize, and submit the Purchasing Affidavit stating that neither the Vendor nor a related party owe a debt to the State in excess of \$1,000. The affidavit must be submitted prior to award, but should be submitted with the Vendor's bid. A copy of the Purchasing Affidavit is included herewith.
- 48. ADDITIONAL AGENCY AND LOCAL GOVERNMENT USE:** This Contract may be utilized by and extends to other agencies, spending units, and political subdivisions of the State of West Virginia; county, municipal, and other local government bodies; and school districts ("Other Government Entities"). This Contract shall be extended to the aforementioned Other Government Entities on the same prices, terms, and conditions as those offered and agreed to in this Contract. If the Vendor does not wish to extend the prices, terms, and conditions of its bid and subsequent contract to the Other Government Entities, the Vendor must clearly indicate such refusal in its bid. A refusal to extend this Contract to the Other Government Entities shall not impact or influence the award of this Contract in any manner.
- 49. CONFLICT OF INTEREST:** Vendor, its officers or members or employees, shall not presently have or acquire any interest, direct or indirect, which would conflict with or compromise the performance of its obligations hereunder. Vendor shall periodically inquire of its officers, members and employees to ensure that a conflict of interest does not arise. After the contract for such services has been approved, but before any such employees are permitted to be on the grounds or in the buildings of the Capitol complex or have access to sensitive or critical information, the service provider shall submit a list of all persons who will be physically present and working at the Capitol complex to the Director of the Division of Protective Services for purposes of verifying compliance with this provision.

The State reserves the right to prohibit a service provider's employees from accessing sensitive or critical information or to be present at the Capitol complex based upon results addressed from a criminal background check.

52. PREFERENCE FOR USE OF DOMESTIC STEEL PRODUCTS: Except when authorized by the Director of the Purchasing Division pursuant to W. Va. Code § 5A-3-56, no contractor may use or supply steel products for a State Contract Project other than those steel products made in the United States. A contractor who uses steel products in violation of this section may be subject to civil penalties pursuant to W. Va. Code § 5A-3-56. As used in this section:

- a. "State Contract Project" means any erection or construction of, or any addition to, alteration of or other improvement to any building or structure, including, but not limited to, roads or highways, or the installation of any heating or cooling or ventilating plants or other equipment, or the supply of and materials for such projects, pursuant to a contract with the State of West Virginia for which bids were solicited on or after June 6, 2001.
- b. "Steel Products" means products rolled, formed, shaped, drawn, extruded, forged, cast, fabricated or otherwise similarly processed, or processed by a combination of two or more or such operations, from steel made by the open heath, basic oxygen, electric furnace, Bessemer or other steel making process.

The Purchasing Division Director may, in writing, authorize the use of foreign steel products if:

- a. The cost for each contract item used does not exceed one tenth of one percent (.1%) of the total contract cost or two thousand five hundred dollars (\$2,500.00), whichever is greater. For the purposes of this section, the cost is the value of the steel product as delivered to the project; or
- b. The Director of the Purchasing Division determines that specified steel materials are not produced in the United States in sufficient quantity or otherwise are not reasonably available to meet contract requirements.

53. PREFERENCE FOR USE OF DOMESTIC ALUMINUM, GLASS, AND STEEL: In Accordance with W. Va. Code § 5-19-1 et seq., and W. Va. CSR § 148-10-1 et seq., for every contract or subcontract, subject to the limitations contained herein, for the construction, reconstruction, alteration, repair, improvement or maintenance of public works or for the purchase of any item of machinery or equipment to be used at sites of public works, only domestic aluminum, glass or steel products shall be supplied unless the spending officer determines, in writing, after the receipt of offers or bids, (1) that the cost of domestic aluminum, glass or steel products is unreasonable or inconsistent with the public interest of the State of West Virginia, (2) that domestic aluminum, glass or steel products are not produced in sufficient quantities to meet the contract requirements, or (3) the available domestic aluminum, glass, or steel do not meet the contract specifications. This provision only applies to public works contracts awarded in an amount more than fifty thousand dollars (\$50,000) or public works contracts that require more than ten thousand pounds of steel products.

The cost of domestic aluminum, glass, or steel products may be unreasonable if the cost is more than twenty percent (20%) of the bid or offered price for foreign made aluminum, glass, or steel products. If the domestic aluminum, glass or steel products to be supplied or produced in a "substantial labor surplus area", as defined by the United States Department of Labor, the cost of domestic aluminum, glass, or steel products may be unreasonable if the cost is more than thirty percent (30%) of the bid or offered price for foreign made aluminum, glass, or steel products.

This preference shall be applied to an item of machinery or equipment, as indicated above, when the item is a single unit of equipment or machinery manufactured primarily of aluminum, glass or steel, is part of a public works contract and has the sole purpose or of being a permanent part of a single public works project. This provision does not apply to equipment or machinery purchased by a spending unit for use by that spending unit and not as part of a single public works project.

All bids and offers including domestic aluminum, glass or steel products that exceed bid or offer prices including foreign aluminum, glass or steel products after application of the preferences provided in this provision may be reduced to a price equal to or lower than the lowest bid or offer price for foreign aluminum, glass or steel products plus the applicable preference. If the reduced bid or offer prices are made in writing and supersede the prior bid or offer prices, all bids or offers, including the reduced bid or offer prices, will be reevaluated in accordance with this rule.

PURCHASING AFFIDAVIT

MANDATE: Under W. Va. Code §5A-3-10a, no contract or renewal of any contract may be awarded by the state or any of its political subdivisions to any vendor or prospective vendor when the vendor or prospective vendor or a related party to the vendor or prospective vendor is a debtor and: (1) the debt owed is an amount greater than one thousand dollars in the aggregate; or (2) the debtor is in employer default.
