- 42. ANTITRUST:** In submitting a bid to, signing a contract with, or accepting a Purchase Order from any agency of the State of West Virginia, the Vendor agrees to convey, sell, assign, or transfer to the State of West Virginia all rights, title, and interest in and to all causes of action it may now or hereafter acquire under the antitrust laws of the United States and the State of West Virginia for price fixing and/or unreasonable restraints of trade relating to the particular commodities or services purchased or acquired

by the State of West Virginia. Such assignment shall be made and become effective at the time the purchasing agency tenders the initial payment to Vendor.

- 43. Vendor's signature on its bid also affirms that neither it nor its representatives have any interest, nor shall acquire any interest, direct or indirect, which would compromise the performance of its services hereunder. Any such interests shall be promptly presented in detail to the Agency.

The individual signing this bid on behalf of Vendor certifies that he or she is authorized by the Vendor to execute this bid or any documents related thereto on Vendor's behalf; that he or she is authorized to bind the Vendor in a contractual relationship; and that, to the best of his or her knowledge, the Vendor has properly registered with any State agency that may require registration.

- 44. PURCHASING CARD ACCEPTANCE:** The State of West Virginia currently utilizes a Purchasing Card program, administered under contract by a banking institution, to process payment for goods and services. The Vendor must accept the State of West Virginia's Purchasing Card for payment of all orders under this Contract unless the box below is checked.

Vendor is not required to accept the State of West Virginia's Purchasing Card as payment for all goods and services.

- 45. VENDOR RELATIONSHIP:** The relationship of the Vendor to the State shall be that of an independent contractor and no principal-agent relationship or employer-employee relationship is contemplated or created by this Contract. The Vendor as an independent contractor is solely liable for the acts and omissions of its employees and agents. Vendor shall be responsible for selecting, supervising, and compensating any and all individuals employed pursuant to the terms of this Solicitation and resulting contract. Neither the Vendor, nor any employees or subcontractors of the Vendor, shall be deemed to be employees of the State for any purpose whatsoever. Vendor shall be exclusively responsible for payment of employees and contractors for all wages and salaries, taxes, withholding payments, penalties, fees, fringe benefits, professional liability insurance premiums, contributions to insurance and pension, or other deferred compensation plans, including but not limited to, Workers' Compensation and Social Security obligations, licensing fees, *etc.* and the filing of all necessary documents, forms and returns pertinent to all of the foregoing. Vendor shall hold harmless the State, and shall provide the State and Agency with a defense against any and all claims including, but not limited to, the foregoing payments, withholdings, contributions, taxes, Social Security taxes, and employer income tax returns.

- 46. INDEMNIFICATION:** The Vendor agrees to indemnify, defend, and hold harmless the State and the Agency, their officers, and employees from and against: (1) Any claims or losses for services rendered

Not allowed

by any subcontractor, person, or firm performing or supplying services, materials, or supplies in connection with the performance of the Contract; (2) Any claims or losses resulting to any person or entity injured or damaged by the Vendor, its officers, employees, or subcontractors by the publication, translation, reproduction, delivery, performance, use, or disposition of any data used under the Contract in a manner not authorized by the Contract, or by Federal or State statutes or regulations; and (3) Any failure of the Vendor, its officers, employees, or subcontractors to observe State and Federal laws including, but not limited to, labor and wage and hour laws.

- 47. PURCHASING AFFIDAVIT:** In accordance with West Virginia Code § 5A-3-10a, all Vendors are required to sign, notarize, and submit the Purchasing Affidavit stating that neither the Vendor nor a related party owe a debt to the State in excess of \$1,000. The affidavit must be submitted prior to award, but should be submitted with the Vendor's bid. A copy of the Purchasing Affidavit is included herewith.
- 48. ADDITIONAL AGENCY AND LOCAL GOVERNMENT USE:** This Contract may be utilized by and extends to other agencies, spending units, and political subdivisions of the State of West Virginia; county, municipal, and other local government bodies; and school districts ("Other Government Entities"). This Contract shall be extended to the aforementioned Other Government Entities on the same prices, terms, and conditions as those offered and agreed to in this Contract. If the Vendor does not wish to extend the prices, terms, and conditions of its bid and subsequent contract to the Other Government Entities, the Vendor must clearly indicate such refusal in its bid. A refusal to extend this Contract to the Other Government Entities shall not impact or influence the award of this Contract in any manner.
- 49. CONFLICT OF INTEREST:** Vendor, its officers or members or employees, shall not presently have or acquire any interest, direct or indirect, which would conflict with or compromise the performance of its obligations hereunder. Vendor shall periodically inquire of its officers, members and employees to ensure that a conflict of interest does not arise. Any conflict of interest discovered shall be promptly presented in detail to the Agency.
- 50. REPORTS:** Vendor shall provide the Agency and/or the Purchasing Division with the following reports identified by a checked box below:
- Such reports as the Agency and/or the Purchasing Division may request. Requested reports may include, but are not limited to, quantities purchased, agencies utilizing the contract, total contract expenditures by agency, etc.
 - Quarterly reports detailing the total quantity of purchases in units and dollars, along with a listing of purchases by agency. Quarterly reports should be delivered to the Purchasing Division via email at purchasing.requisitions@wv.gov.
- 51. BACKGROUND CHECK:** In accordance with W. Va. Code § 15-2D-3, the Director of the Division of Protective Services shall require any service provider whose employees are regularly employed on the grounds or in the buildings of the Capitol complex or who have access to sensitive or critical information

to submit to a fingerprint-based state and federal background inquiry through the state repository. The service provider is responsible for any costs associated with the fingerprint-based state and federal background inquiry.

After the contract for such services has been approved, but before any such employees are permitted to be on the grounds or in the buildings of the Capitol complex or have access to sensitive or critical information, the service provider shall submit a list of all persons who will be physically present and working at the Capitol complex to the Director of the Division of Protective Services for purposes of verifying compliance with this provision.

The State reserves the right to prohibit a service provider's employees from accessing sensitive or critical information or to be present at the Capitol complex based upon results addressed from a criminal background check.

Service providers should contact the West Virginia Division of Protective Services by phone at (304)558-9911 for more information.

52. PREFERENCE FOR USE OF DOMESTIC STEEL PRODUCTS: Except when authorized by the Director of the Purchasing Division pursuant to W. Va. Code § 5A-3-56, no contractor may use or supply steel products for a State Contract Project other than those steel products made in the United States. A contractor who uses steel products in violation of this section may be subject to civil penalties pursuant to W. Va. Code § 5A-3-56. As used in this section:

- a. "State Contract Project" means any erection or construction of, or any addition to, alteration of or other improvement to any building or structure, including, but not limited to, roads or highways, or the installation of any heating or cooling or ventilating plants or other equipment, or the supply of and materials for such projects, pursuant to a contract with the State of West Virginia for which bids were solicited on or after June 6, 2001.
- b. "Steel Products" means products rolled, formed, shaped, drawn, extruded, forged, cast, fabricated or otherwise similarly processed, or processed by a combination of two or more or such operations, from steel made by the open hearth, basic oxygen, electric furnace, Bessemer or other steel making process.

The Purchasing Division Director may, in writing, authorize the use of foreign steel products if:

- a. The cost for each contract item used does not exceed one tenth of one percent (.1%) of the total contract cost or two thousand five hundred dollars (\$2,500.00), whichever is greater. For the purposes of this section, the cost is the value of the steel product as delivered to the project; or
- b. The Director of the Purchasing Division determines that specified steel materials are not produced in the United States in sufficient quantity or otherwise are not reasonably available to meet contract requirements.

53. PREFERENCE FOR USE OF DOMESTIC ALUMINUM, GLASS, AND STEEL: In Accordance with W. Va. Code § 5-19-1 et seq., and W. Va. CSR § 148-10-1 et seq., for every contract or subcontract, subject to the limitations contained herein, for the construction, reconstruction, alteration, repair, improvement or maintenance of public works or for the purchase of any item of machinery or equipment to be used at sites of public works, only domestic aluminum, glass or steel products shall be supplied unless the spending officer determines, in writing, after the receipt of offers or bids, (1) that the cost of domestic aluminum, glass or steel products is unreasonable or inconsistent with the public interest of the State of West Virginia, (2) that domestic aluminum, glass or steel products are not produced in sufficient quantities to meet the contract requirements, or (3) the available domestic aluminum, glass, or steel do not meet the contract specifications. This provision only applies to public works contracts awarded in an amount more than fifty thousand dollars (\$50,000) or public works contracts that require more than ten thousand pounds of steel products.

The cost of domestic aluminum, glass, or steel products may be unreasonable if the cost is more than twenty percent (20%) of the bid or offered price for foreign made aluminum, glass, or steel products. If the domestic aluminum, glass or steel products to be supplied or produced in a “substantial labor surplus area”, as defined by the United States Department of Labor, the cost of domestic aluminum, glass, or steel products may be unreasonable if the cost is more than thirty percent (30%) of the bid or offered price for foreign made aluminum, glass, or steel products.

This preference shall be applied to an item of machinery or equipment, as indicated above, when the item is a single unit of equipment or machinery manufactured primarily of aluminum, glass or steel, is part of a public works contract and has the sole purpose or of being a permanent part of a single public works project. This provision does not apply to equipment or machinery purchased by a spending unit for use by that spending unit and not as part of a single public works project.

All bids and offers including domestic aluminum, glass or steel products that exceed bid or offer prices including foreign aluminum, glass or steel products after application of the preferences provided in this provision may be reduced to a price equal to or lower than the lowest bid or offer price for foreign aluminum, glass or steel products plus the applicable preference. If the reduced bid or offer prices are made in writing and supersede the prior bid or offer prices, all bids or offers, including the reduced bid or offer prices, will be reevaluated in accordance with this rule.

REQUEST FOR QUOTATION
PSC1017 Building Maintenance Services for Public Service Commission Offices

SPECIFICATIONS

- 1. PURPOSE AND SCOPE:** The West Virginia Purchasing Division is soliciting bids on behalf of the Agency, the Public Service Commission (hereafter also "PSCWV"), to establish an open-end contract for the services of a vendor to perform certain maintenance, upkeep and emergency and/or temporary repairs to the Commission's buildings (all property currently owned by the PSCWV), and the buildings' offices, equipment and contents.

The scope of work covered by this contract will be generally restricted to "odd-job" maintenance services, and the successful vendor will provide these services for an all-inclusive hourly rate (assigned to four categories), meaning the hourly rate will include providing all labor, services, and any required tools to complete any and all assignments. The PSCWV will provide all parts, materials and supplies and utilities, but will not provide fuel for vehicles or equipment used by the successful Vendor, nor replacement parts or accessories for any of the Vendor-provided equipment.

The PSCWV is a state agency responsible for the regulation and oversight of all public and private utilities operating within the State of West Virginia. The PSCWV is housed in two (2) office buildings in downtown Charleston, WV. The first is located at 201 Brooks Street. The facility is a three-story, flat-roofed, brick and glass building of approximately 56,000 square feet with approximately 200 offices, one small and one large hearing room, 10 restrooms, two elevators and three (3) three-story atriums. Approximately 95% of the building is carpeted; the balance of floor space is covered in either finished oak or marble. The internal walls are constructed of drywall on aluminum studs with standard grid drop ceilings. There is significant electrical and communications wiring within the building's walls and above the drop ceiling; all employees have personal computers, network and telephony connections.

The second building covered by this contract is located at 1116 Quarrier Street. It is a three-story, flat-roofed, brick building of approximately 15,000 square feet which houses approximately 30-40 employees. The building is carpeted. The internal walls are constructed of drywall and standard grid drop ceilings

Maintenance of the heating and cooling system for these buildings is covered by a separate contract for maintenance and is NOT covered by this contract. However, the successful vendor may sometimes be required to assist in emergencies and in the replacement of filters, so they must acquire a general knowledge of the layout and operation of the chiller and boiler rooms and the equipment therein.

The on-site parking lot has a three-story parking garage (which will require maintenance not covered by warranty, including its lighting, plumbing and electrical systems), and a surface parking lot which will accommodate approximately 50 vehicles.

RFQ#PSC1017: Exhibit B: Sample Maintenance Program

Electrical- - Main Office Building

There are 560 - 4' florescent bulbs on the Third Floor alone.

There are 185 - Par 38 flood bulbs.

There are 19 - 70 watt bulbs.

There are 10 - 60 watt bulbs.

There are 20 - Par 36 low volt bulbs.

There are 30 – U-bulbs.

There are 15 - 40 watt elevator bulbs.

There are 8 - 250 watt Metal Halide bulbs in the foyer.

There are 8 - Par 40 bulbs in the Main Foyer.

There are 2 - 150 watt gas bulbs on the patio.

There are 4 - 100 watt gas bulbs in the stair wells.

There are 11 - 100 watt Metal Halide bulbs in the entrance ceilings.

There are 5- 450 watt Metal Halide bulbs on the roof.

There are approximately 1,000 bulbs on each floor. That's over 3,000 bulbs in this one building.

Regular Electrical Maintenance

We change anywhere from 50 to 200 bulbs every month.

We also change 6 or 7 ballast a month or more.

We have to change or repair approximately 12 sockets each month.

We have to remove heat sensors weekly.

We average running at least one new circuit a month.

We have eight complete electrical panels on each floor that need constant care

We replace at least a dozen defective receptacles and switches each month. (There are over 2,000)

We have 13 different types of bulbs on the Third Floor alone. We have to stock replacement bulbs and ballast. We have to stock lights, switches, receptacles, ballast, light sockets, batteries, contactors.

All the offices that have system furniture which have special bulbs under the wall cabinets.

We replace defective breakers every week.

We have to work on then sewage and sump pumps when they break down.

We change at least a dozen florescent end clips quarterly.

Will get called out two or three times a month for a fire alarm call at 2 or 3 a.m. All though usually nothing is wrong, must respond to the call.

The elevator jams and will need to cut the power off and check these out. The doors slides have to be kept clean at all times on all four elevators in all three buildings (2 buildings and garage).

There are approximately 250 offices in the Main Building. Two hearing rooms, and several meeting rooms and storage rooms.

Emergency lights may need to be replaced as they go out.

Plumbing Maintenance

Three times every week all toilets and seats, sinks and traps, urinals, faucets, floor drains, hand dispensers, ice machines, water dispensers, etc. are inspected and repaired if needed. (Sometimes we have to order parts, but we do stock all basic repair parts)

Seats, faucets, and wax rings on the toilets are repaired when needed.

The soap and antibacterial dispensers are reloaded once a month or as needed.

We use a lot of Drano Cleaner, at least once every two weeks we pour down drains and we still have many drains that stop up and have to be taken apart and cleaned or replaced frequently.

Simple things like faucet drips or trap leaks are an everyday occurrence.

Water fountains have to be cleaned biweekly where the chillers stop up with dust. We have had to tear out walls and ceiling areas to replace drains that were stopped up.

We have a sump pump and a sewage pump that have to be worked on often in the Transportation Building.

We pressure spray all walks and driveways yearly. We use a special pressure wash nozzle and wash windows two times a year. We spray down all three floors of the Parking Garage every three months.

We have to clean out every outside storm drain where leaves and other debris cause them to stop up. We average about a truck load of mud removal.

We have had to flush dead birds off the window ledges where they hit the glass. We have had to go on the roof and keep the drains cleaned out, and flush out the plumbing vents.

We wash the building down once a year.

In the winter, we take care of shoveling the snow and salting all walk ways.

Seven days a week, even if we're not working, someone walks through both buildings and the garage to make sure everything is all right. We even do this on Christmas Day and New Year's day.

Hearing Rooms

The First Floor Hearing Rooms have to be inspected almost every day. We never know when the Chairman is going to have a meeting or a hearing is scheduled and everything must be in working order (speakers, lights, air, etc)

The lights are special dimmer control lights and take different ballast and bulbs.

Sometimes the seating has to have new anchors in the floor where they break loose.

We keep it cleaned, polished, and even vacuumed (Vendor may be expected to assist, even though the Agency retains janitorial services).

The room that the intercoms are controlled from has a heater in it that has to be set on a certain control to keep the panel boxes from getting cold and causing the speakers to crackle and the ceiling lights to blink.

It is very important that the sound system is kept working properly.

Painting and Miscellaneous

We used a quality Semi-Gloss Paint so it can be washed at times. We try to keep all the hallways and steel door jambs painted often. We do them completely every four years. The paint we use can be used to touch up the frames and hallway walls at any time because it blends in and you can't tell it has just been spotted.

We go over the hallways once a month and anything that can't be washed off is painted over.

We keep all the metal support brackets in the Parking Garage painted four or five times a year.

Due to going in the ceiling areas so often due to wiring or plumbing, a lot of ceiling tiles get broken or soiled. We save a lot of tile by using this paint. We do a lot of drywall and patching work on the office walls and hallways.

Wood Doors and Furniture

In the winter and sometimes in the summer when the air conditioning is on a lot, the wood doors (which are solid) will swell and make the doors hard to open and close. We use a power sander or a rasp to keep the doors in good shape.

A lot of furniture is moved around in the Main Office Building. Two or three times a week we are always moving something, especially file cabinets.

We assemble a lot of furniture and if any furniture get broken, we try to repair it rather than purchase new. We deliver furniture or items to surplus property or the landfill as directed.

Heaters

Wall heaters in each of the three Atriums and run wire, and install breakers as needed for other heaters in building. We have had to replace several heaters throughout the building.

Major heating and A/C system maintenance and repair is covered under a separate contract.

We have twenty-two (22) wall heaters to maintain.

Miscellaneous work

Make minor repairs to roof – temporary patches, etc.

We change furnace filters wherever we see one is needed.

We pick up all our supplies as needed.

The PSC has no tools or equipment for the maintenance work: must furnish own tools/gas.

We have to reset our Tork Time Clocks several times a year.

We do all the outside work: keep weeds cut out, spray for insects, trim trees, clean all storm drains.

In the second building, the hand rails up the steps are regularly pulled loose.

We hang all bulletin boards, coat hooks, and install keyboard trays.

We remove all ice and snow from the breeze way and surrounding area. We clean and salt the rear Handicap ramp and across the sidewalk to the garage side door.

All the work we do is strictly maintenance work, not construction/building work.
