Addendum #2 – Questions asked during Pre-Bid Conference Clarifications/Corrections to Specifications

DEP16483

Royal Scot Minerals Inc.

Permit R-3078-86

The following questions were identified at the Pre-Bid Conference (PBC). The answers provided herein take precedence over verbal answers at the PBC should there be any conflicts between the two.

1. Question: Do we reshape the existing section of Channel 3?
Answer: As long as positive drainage entering and exiting the existing portion of Channel 3 is achieved, the existing channel will not be reshaped.
2. Q: Where are the pond cleanings going to be placed from Sediment Cells 2 & 3?
A: The clear water can be pumped into existing sediment cell 5 (see section 14.0-R in specs). Sludge and water containing sediment shall be pumped or dipped and placed in the designated area northwest of Channel 4 (see note in section 14.1-R and 14.2-R in specs).
3. Q: Do you have a borrow area designated?
A: We have two areas that the WVDEP has dug test pits and found suitable material. Those areas are designated as Potential Borrow Areas A & B (see plan sheet 5). It is the responsibility of the contractor to obtain a written agreement with the property owner to use the borrow material.
4. Q: Does the property owner understand that we want to use that material in the borrow areas?
A: Yes.
5. Q: Is the contractor required to pay the property owner for excavating the fill material?
A: Compensation to the property owner will be between the contractor and the property owner.
6. Q: What is the contact information for the property owner of Borrow Areas A & B?
A: Property Owner Contact Information below, Please note: Preferred method of contact is via email. During correspondence please refer to the "Potential Borrow Areas for Revoked Permit R-3078-86."

7. Q: Are the proposed treatment structures over the hill going to be built from the fill generated from the cut for each structure?
A: See sheet #5 in the plans for approximate cross sections of the treatment area. Borrow material other than what will be generated at treatment area will be necessary.
8. Q: Are you still going to need fill to construct the treatment structures?
A: Yes, See answer for #7.
9. Q: Can the Flow Proportional Siphon System be built with HDPE?
A: We have approved HDPE alternatives for these systems. Contractor will need to submit to the WVDEP shop drawings and WVDEP will either approve or disapprove the proposed alternative.
10. Q: Is there a liner in the underdrain?
A: Yes, see the typical drawings (plan sheet #15).
11. Q: How much material does the contractor have to remove from ponds to be converted in to Limestone Beds One and Two?
A: See specifications 14.1-R and 14.2-R.
12. Q: Is undercutting the bank / removal of woody debris in the proposed Embankment Area a pay item?
A: No, it is incidental to the associated structures (see section 11.0 Embankment construction for details).
13. Q: Do you have to excavate to solid material in the Embankment Area before placement of fill for construction of Settling Pond 1 and Limestone Beds 3 and 4?
A: Yes (see Specifications 11.0 and 14.0-R Embankment Construction).
14. Q: Did you dig to solid material when you dug the test pits in this (proposed treatment) area?
A: Yes, we dug to solid material.
15. Q: What was the average depth to solid material for the test pits in the embankment area (proposed treatment area)?
A: The average depth to solid material in the test pits was seven (7) feet. Test pits were excavated at the toe of existing embankment and WVDEP makes no guarantee as to the consistency of this depth throughout area.
16. Q: Are you going to have control points for elevations set?
A: Yes

CORRECTION: As a correction to the Bid Schedule, Bid Item 8.1 units have been changed to LF.

REVISED SPECIFICATIONS: The following specifications have been revised: 14.0, 14.1 and 14.2. Revised specifications have the designation "R" such as 14.0-R.

REVISED FOR ADDENDUM #2 ROYAL SCOT MINERALS, INC. R-3078-86 DEP16483

BASIS OF PAYMENT

Payment for Concrete Spreader shall be paid per each unit installed and accepted by WVDEP.

FOR THIS PERMIT: A Type 1 Concrete Spreader will be installed at the inlet of Settling Pond 1, the inlet of Limestone Bed 3, and the inlet of Limestone Bed 4. A Type 3 Concrete Spreader will be installed at the outlet of Settling Pond 1, and the outlet of Limestone Bed 3.

13.0 OUTLET GUTTER

See attached drawings and details for Outlet Gutter Detail and Outlet Gutter Rebar Detail for dimensions and specifications. A two (2) inch thick fiberglass grate with 2" by 2" square openings shall be installed in the Outlet Gutter notch as to prevent unintentional entry into the Outlet Gutter. Grating shall be secured to Outlet Gutter notch by means of four Type 316 Stainless Steel anchor bolts and four stainless steel type "M" hold down clips.

The concrete shall be Type II Sulfate Resistant Concrete (WVDOH Sec. 601). Reinforcing steel shall be placed as indicated in the attached drawings. Cost of reinforcing steel, materials, equipment and personnel associated with installation of Outlet Gutter shall be incidental to and included in the cost of this bid item.

Outlet Gutter top surface must be level as to provide even distribution of flow from pond surface into gutter.

The HDPE discharge pipe shall be 12-inch DR15.5 or 17 and shall be paid by linear foot as a separate bid item.

BASIS OF PAYMENT

Payment for Outlet Gutter shall be paid per each unit installed and accepted by WVDEP.

FOR THIS PERMIT: An Outlet Gutter will be installed at the outlet of Limestone Bed 4.

14.0-R LIMESTONE BED

EMBANKMENT CONSTRUCTION

Embankments shall be constructed in compacted horizontal lifts with no lift exceeding 6-inches. The entire width of each 6-inch lift shall be compacted with an overlapping pattern. Compaction equipment (10 ton combined compactive effort -vibratory roller, sheep's foot roller, etc.) shall be used to help secure a solid embankment, which will not slip. The base of any fill areas shall be undercut to solid material, and benched or keyed into the existing bank. When fill progresses to within two (2) foot vertically of pond liner, all stones exceeding 6-inches shall be removed from the embankment material. Also, any organic material (tree limbs, roots, top soil, etc.) shall be removed from any embankment material prior to compaction. Weak or compressible areas, which cannot be satisfactorily compacted, shall be removed and replaced with properly compacted fill material. During dry conditions, water may need to be added to the fill material during the placement process to achieve optimum compaction. Water shall be applied with suitable sprinkling devices and shall be thoroughly incorporated into the material which is to be compacted. Embankment and subgrade materials which contain excess moisture shall be dried, prior to or during compaction, as necessary to obtain satisfactory compaction. After appropriate compaction of material is achieved, the embankment slopes may be cut back to a 12-foot top

REVISED FOR ADDENDUM #2 ROYAL SCOT MINERALS, INC. R-3078-86 DEP16483

width. The top width of embankments may be reduced if site conditions warrant as determined by the Engineer.

The Limestone Bed shall be constructed by means of placing a layer of woven geotextile fabric (fabric for separation) on top of the 60-mil textured liner to serve as a protective barrier between limestone and liner. Contractor shall then place a minimum tonnage of limestone on fabric for separation using caution to not damage liner during placement operations. Limestone bed shall be divided perpendicular to flow by means of placing a single layer of woven geotextile fabric (fabric for separation) at the approximate locations shown on drawings. During construction a layer of orange safety fence shall also be installed. The top of the Limestone Bed shall be 6-inches above the flow line of the associated structure as to ensure all flow will pass through the Limestone Bed. See attached drawings and details.

NOTE: Water shall be pumped from sediment cells prior to the construction of Limestone Beds 1 and 2. Water in the existing sediment cells shall be analyzed and treated before discharging into receiving waters of the State. Contractor shall coordinate with WVDEP agent onsite to ensure treatment of water is addressed prior to pumping each existing sediment cell. With coordination and direction of the WVDEP agent onsite, the onsite chemical treatment and existing sediment cell 5 shall be utilized to treat water from existing sediment cells 2 and 3. Contractor shall provide pumping equipment, field testing, and personnel or other items needed to complete this bid item. Contractor will not be required to supply chemical to treat water. This shall be incidental to and included in the cost of each limestone bed. If deemed necessary by WVDEP agent onsite, contractor shall pump water from existing sediment cells into geotextile filter bag (see attached specification) prior to water leaving the permit area. Cost of geotextile filter bag(s) shall be incidental to and included in the cost of limestone beds. If deemed necessary by the WVDEP agent onsite, silt fence and hay bale dike and sump(s) shall be used in conjunction with geotextile filter bag(s). Silt fence and hay bale dike and sump(s) shall be paid under separate bid items.

BASIS OF PAYMENT

Payment shall be for each Limestone Bed and spillway installed and approved by WVDEP agent onsite. Cost of fabric for separation, safety barrier, limestone, materials, fill placement, material removal, equipment and personnel associated with installation of limestone bed including construction and reclamation of temporary sludge and / or sediment pit(s) shall be incidental to and included in the cost of this bid item.

14.1-R LIMESTONE BED 1

Install approximately four hundred (400) tons of AASHTO #1 limestone, which shall be placed in existing Sediment Cell 2 to create Limestone Bed 1. The bed dimensions are approximately one hundred fifty (150) feet long (full length of existing cell) by twenty five (25) feet wide (full width of cell) by a minimum of two (2) feet deep and shall discharge into Limestone Bed 2 as shown on the attached drawings and specifications. This bed depth is only two feet because the spillway between Limestone Bed 1 and Limestone Bed 2 will be lowered so that both beds will have the same water level.

NOTE: A pond liner will not be installed on Limestone Bed 1 since the existing structure does not leak. The woven geotextile fabric for separation will be required within Limestone Bed 1 as shown on attached drawings and details.

NOTE: Sludge and sediment from existing sediment cell shall be removed by means of sludge pumping and / or mechanical dipping. All flowable sludge and sediment shall be removed from structure down to competent material as approved by WVDEP agent onsite. Once sludge and sediment removal operations are completed, it may be necessary to place fill material into proposed limestone bed area as to accommodate the minimum limestone bed depth. Sludge and sediment shall be disposed of in area northwest of Channel 4. Area shall require construction of a temporary pit(s) of sufficient size to contain sludge and sediment.

14.2-R LIMESTONE BED 2

Install approximately one thousand and fifty (1050) tons of AASHTO #1 limestone, which shall be placed in existing Sediment Cell 3 to create Limestone Bed 2. The bed dimensions are approximately four hundred twenty (420) feet long by twenty five (25) feet wide (full width of existing cell) by a minimum of three and a half (3.5) feet deep and discharge into Settling Pond 1 as shown on the attached Overview Map and in details and specifications. The limestone will be placed in only two hundred (200) feet of the length of the bed. The Limestone bed will start approximately seventy five (75) feet from the spillway from existing Sediment Cell two and continue approximately two hundred (200) feet easterly as shown on drawing. The remaining space in existing Sediment Cell 3 will remain as open water.

A pond liner will not be installed on Limestone Bed 2 since the existing structure does not leak. The woven geotextile fabric for separation will be required within Limestone Bed 2 as shown on drawings and details.

NOTE: Sludge and sediment from existing sediment cell shall be removed by means of sludge pumping and / or mechanical dipping. All flowable sludge and sediment shall be removed from structure down to competent material as approved by WVDEP agent onsite. Once sludge and sediment removal operations are completed, it may be necessary to place fill material into proposed limestone bed area as to accommodate the minimum limestone bed depth. Sludge and sediment shall be disposed of in area northwest of Channel 4. Area shall require construction of a temporary pit(s) of sufficient size to place material in.

14.3 LIMESTONE BED 3

Install approximately three hundred seventy five (375) tons of AASHTO #57 limestone, which shall be placed in proposed Limestone Bed 3. The bed dimensions are sixty (60) feet long by twenty five (25) feet wide by five (5) feet deep not including freeboard and discharge into Limestone Bed 4 as shown on the attached drawings and details. Ten (10) feet of the bed will be left as open water on the outlet side of the bed. A pond liner will be installed on Limestone Bed 3.

14.4 LIMESTONE BED 4

Install approximately three hundred seventy five (375) tons of AASHTO #57 limestone, which shall be placed in proposed Limestone Bed 4. The bed dimensions are sixty (60) feet long by twenty five (25) feet wide by five (5) feet deep not including freeboard and discharge into the emergency spillway as shown on the attached drawings and details. Ten (10) feet of the bed will be left as open water on the outlet side of the bed. A pond liner will be installed on Limestone Bed 4.

Notwithstanding anything contained in this Contract to the contrary, no modification of this Contract shall be binding without mutual written consent of the Agency, and the Vendor, with approval of the Purchasing Division and the Attorney General's office (Attorney General approval is as to form only). **No Change shall be implemented by the Vendor until such time as the Vendor receives an approved written change order from the Purchasing Division.**
- 32. WAIVER:** The failure of either party to insist upon a strict performance of any of the terms or provision of this Contract, or to exercise any option, right, or remedy herein contained, shall not be construed as a waiver or a relinquishment for the future of such term, provision, option, right, or remedy, but the same shall continue in full force and effect. Any waiver must be expressly stated in writing and signed by the waiving party.
- 33. SUBSEQUENT FORMS:** The terms and conditions contained in this Contract shall supersede any and all subsequent terms and conditions which may appear on any form documents submitted by Vendor to the Agency or Purchasing Division such as price lists, order forms, invoices, sales agreements, or

maintenance agreements, and includes internet websites or other electronic documents. Acceptance or use of Vendor's forms does not constitute acceptance of the terms and conditions contained thereon.

34. **ASSIGNMENT:** Neither this Contract nor any monies due, or to become due hereunder, may be assigned by the Vendor without the express written consent of the Agency, the Purchasing Division, the Attorney General's office (as to form only), and any other government agency or office that may be required to approve such assignments. Notwithstanding the foregoing, Purchasing Division approval may or may not be required on certain agency delegated or exempt purchases.
35. **WARRANTY:** The Vendor expressly warrants that the goods and/or services covered by this Contract will: (a) conform to the specifications, drawings, samples, or other description furnished or specified by the Agency; (b) be merchantable and fit for the purpose intended; and (c) be free from defect in material and workmanship.
36. **STATE EMPLOYEES:** State employees are not permitted to utilize this Contract for personal use and the Vendor is prohibited from permitting or facilitating the same.
37. **BANKRUPTCY:** In the event the Vendor files for bankruptcy protection, the State of West Virginia may deem this Contract null and void, and terminate this Contract without notice.
38. **[RESERVED]**
39. **CONFIDENTIALITY:** The Vendor agrees that it will not disclose to anyone, directly or indirectly, any such personally identifiable information or other confidential information gained from the Agency, unless the individual who is the subject of the information consents to the disclosure in writing or the disclosure is made pursuant to the Agency's policies, procedures, and rules. Vendor further agrees to comply with the Confidentiality Policies and Information Security Accountability Requirements, set forth in <http://www.state.wv.us/admin/purchase/privacy/default.html>.
40. **DISCLOSURE:** Vendor's response to the Solicitation and the resulting Contract are considered public documents and will be disclosed to the public in accordance with the laws, rules, and policies governing the West Virginia Purchasing Division. Those laws include, but are not limited to, the Freedom of Information Act found in West Virginia Code § 29B-1-1 et seq.

If a Vendor considers any part of its bid to be exempt from public disclosure, Vendor must so indicate by specifically identifying the exempt information, identifying the exemption that applies, providing a detailed justification for the exemption, segregating the exempt information from the general bid information, and submitting the exempt information as part of its bid but in a segregated and clearly identifiable format. Failure to comply with the foregoing requirements will result in public disclosure of the Vendor's bid without further notice. A Vendor's act of marking all or nearly all of its bid as exempt is not sufficient to avoid disclosure and WILL NOT BE HONORED. Vendor's act of marking a bid or any part thereof as "confidential" or "proprietary" is not sufficient to avoid disclosure and WILL NOT BE HONORED. In addition, a legend or other statement indicating that all or substantially all of the bid is exempt from disclosure is not sufficient to avoid disclosure and WILL NOT BE HONORED.

Vendor will be required to defend any claimed exemption for nondisclosure in the event of an administrative or judicial challenge to the State's nondisclosure. Vendor must indemnify the State for any costs incurred related to any exemptions claimed by Vendor. Any questions regarding the applicability of the various public records laws should be addressed to your own legal counsel prior to bid submission.

- 41. LICENSING:** In accordance with West Virginia Code of State Rules §148-1-6.1.7, Vendor must be licensed and in good standing in accordance with any and all state and local laws and requirements by any state or local agency of West Virginia, including, but not limited to, the West Virginia Secretary of State's Office, the West Virginia Tax Department, West Virginia Insurance Commission, or any other state agency or political subdivision. Upon request, the Vendor must provide all necessary releases to obtain information to enable the Purchasing Division Director or the Agency to verify that the Vendor is licensed and in good standing with the above entities.
- 42. ANTITRUST:** In submitting a bid to, signing a contract with, or accepting a Purchase Order from any agency of the State of West Virginia, the Vendor agrees to convey, sell, assign, or transfer to the State of West Virginia all rights, title, and interest in and to all causes of action it may now or hereafter acquire under the antitrust laws of the United States and the State of West Virginia for price fixing and/or unreasonable restraints of trade relating to the particular commodities or services purchased or acquired by the State of West Virginia. Such assignment shall be made and become effective at the time the purchasing agency tenders the initial payment to Vendor.
- 43. VENDOR CERTIFICATIONS:** By signing its bid or entering into this Contract, Vendor certifies (1) that its bid was made without prior understanding, agreement, or connection with any corporation, firm, limited liability company, partnership, person or entity submitting a bid for the same material, supplies, equipment or services; (2) that its bid is in all respects fair and without collusion or fraud; (3) that this Contract is accepted or entered into without any prior understanding, agreement, or connection to any other entity that could be considered a violation of law; and (4) that it has reviewed this RFQ in its entirety, understands the requirements, terms and conditions, and other information contained herein. Vendor's signature on its bid also affirms that neither it nor its representatives have any interest, nor shall acquire any interest, direct or indirect, which would compromise the performance of its services hereunder. Any such interests shall be promptly presented in detail to the Agency.

The individual signing this bid on behalf of Vendor certifies that he or she is authorized by the Vendor to execute this bid or any documents related thereto on Vendor's behalf; that he or she is authorized to bind the Vendor in a contractual relationship; and that, to the best of his or her knowledge, the Vendor has properly registered with any State agency that may require registration.

- 44. PURCHASING CARD ACCEPTANCE:** The State of West Virginia currently utilizes a Purchasing Card program, administered under contract by a banking institution, to process payment for goods and services. The Vendor must accept the State of West Virginia's Purchasing Card for payment of all orders under this Contract unless the box below is checked.

Vendor is not required to accept the State of West Virginia's Purchasing Card as payment for all goods and services.

- 45. VENDOR RELATIONSHIP:** The relationship of the Vendor to the State shall be that of an independent contractor and no principal-agent relationship or employer-employee relationship is contemplated or created by this Contract. The Vendor as an independent contractor is solely liable for the acts and omissions of its employees and agents. Vendor shall be responsible for selecting, supervising, and compensating any and all individuals employed pursuant to the terms of this Solicitation and resulting contract. Neither the Vendor, nor any employees or subcontractors of the Vendor, shall be deemed to be employees of the State for any purpose whatsoever. Vendor shall be exclusively responsible for payment of employees and contractors for all wages and salaries, taxes, withholding payments, penalties, fees, fringe benefits, professional liability insurance premiums, contributions to insurance and pension, or other deferred compensation plans, including but not limited to, Workers' Compensation and Social Security obligations, licensing fees, *etc.* and the filing of all necessary documents, forms, and returns pertinent to all of the foregoing. Vendor shall hold harmless the State, and shall provide the State and Agency with a defense against any and all claims including, but not limited to, the foregoing payments, withholdings, contributions, taxes, Social Security taxes, and employer income tax returns.
- 46. INDEMNIFICATION:** The Vendor agrees to indemnify, defend, and hold harmless the State and the Agency, their officers, and employees from and against: (1) Any claims or losses for services rendered by any subcontractor, person, or firm performing or supplying services, materials, or supplies in connection with the performance of the Contract; (2) Any claims or losses resulting to any person or entity injured or damaged by the Vendor, its officers, employees, or subcontractors by the publication, translation, reproduction, delivery, performance, use, or disposition of any data used under the Contract in a manner not authorized by the Contract, or by Federal or State statutes or regulations; and (3) Any failure of the Vendor, its officers, employees, or subcontractors to observe State and Federal laws including, but not limited to, labor and wage and hour laws.
- 47. PURCHASING AFFIDAVIT:** In accordance with West Virginia Code § 5A-3-10a, all Vendors are required to sign, notarize, and submit the Purchasing Affidavit stating that neither the Vendor nor a related party owe a debt to the State in excess of \$1,000. The affidavit must be submitted prior to award, but should be submitted with the Vendor's bid. A copy of the Purchasing Affidavit is included herewith.
- 48. ADDITIONAL AGENCY AND LOCAL GOVERNMENT USE:** This Contract may be utilized by and extends to other agencies, spending units, and political subdivisions of the State of West Virginia; county, municipal, and other local government bodies; and school districts ("Other Government Entities"). This Contract shall be extended to the aforementioned Other Government Entities on the same prices, terms, and conditions as those offered and agreed to in this Contract. If the Vendor does not wish to extend the prices, terms, and conditions of its bid and subsequent contract to the Other Government Entities, the Vendor must clearly indicate such refusal in its bid. A refusal to extend this Contract to the Other Government Entities shall not impact or influence the award of this Contract in any manner.
- 49. CONFLICT OF INTEREST:** Vendor, its officers or members or employees, shall not presently have or acquire any interest, direct or indirect, which would conflict with or compromise the performance of its obligations hereunder.

Vendor shall periodically inquire of its officers, members and employees to ensure that a conflict of interest does not arise. Any conflict of interest discovered shall be promptly presented in detail to the Agency.

50. REPORTS: Vendor shall provide the Agency and/or the Purchasing Division with the following reports identified by a checked box below:

- ☒ Such reports as the Agency and/or the Purchasing Division may request. Requested reports may include, but are not limited to, quantities purchased, agencies utilizing the contract, total contract expenditures by agency, etc.
- ☐ Quarterly reports detailing the total quantity of purchases in units and dollars, along with a listing of purchases by agency. Quarterly reports should be delivered to the Purchasing Division via email at purchasing.requisitions@wv.gov.

51. BACKGROUND CHECK: In accordance with W. Va. Code § 15-2D-3, the Director of the Division of Protective Services shall require any service provider whose employees are regularly employed on the grounds or in the buildings of the Capitol complex or who have access to sensitive or critical information to submit to a fingerprint-based state and federal background inquiry through the state repository. The service provider is responsible for any costs associated with the fingerprint-based state and federal background inquiry.

After the contract for such services has been approved, but before any such employees are permitted to be on the grounds or in the buildings of the Capitol complex or have access to sensitive or critical information, the service provider shall submit a list of all persons who will be physically present and working at the Capitol complex to the Director of the Division of Protective Services for purposes of verifying compliance with this provision.

The State reserves the right to prohibit a service provider's employees from accessing sensitive or critical information or to be present at the Capitol complex based upon results addressed from a criminal background check.

Service providers should contact the West Virginia Division of Protective Services by phone at (304) 558-9911 for more information.

52. PREFERENCE FOR USE OF DOMESTIC STEEL PRODUCTS: Except when authorized by the Director of the Purchasing Division pursuant to W. Va. Code § 5A-3-56, no contractor may use or supply steel products for a State Contract Project other than those steel products made in the United States. A contractor who uses steel products in violation of this section may be subject to civil penalties pursuant to W. Va. Code § 5A-3-56. As used in this section:

- a. "State Contract Project" means any erection or construction of, or any addition to, alteration of or other improvement to any building or structure, including, but not limited to, roads or highways, or the installation of any heating or cooling or ventilating plants or other equipment, or the supply of and materials for such projects, pursuant to a contract with the State of West Virginia for which bids were solicited on or after June 6, 2001.

- b. "Steel Products" means products rolled, formed, shaped, drawn, extruded, forged, cast, fabricated or otherwise similarly processed, or processed by a combination of two or more or such operations, from steel made by the open heath, basic oxygen, electric furnace, Bessemer or other steel making process.

The Purchasing Division Director may, in writing, authorize the use of foreign steel products if:

- a. The cost for each contract item used does not exceed one tenth of one percent (.1%) of the total contract cost or two thousand five hundred dollars (\$2,500.00), whichever is greater. For the purposes of this section, the cost is the value of the steel product as delivered to the project; or
- b. The Director of the Purchasing Division determines that specified steel materials are not produced in the United States in sufficient quantity or otherwise are not reasonably available to meet contract requirements.

53. PREFERENCE FOR USE OF DOMESTIC ALUMINUM, GLASS, AND STEEL: In Accordance with W. Va. Code § 5-19-1 et seq., and W. Va. CSR § 148-10-1 et seq., for every contract or subcontract, subject to the limitations contained herein, for the construction, reconstruction, alteration, repair, improvement or maintenance of public works or for the purchase of any item of machinery or equipment to be used at sites of public works, only domestic aluminum, glass or steel products shall be supplied unless the spending officer determines, in writing, after the receipt of offers or bids, (1) that the cost of domestic aluminum, glass or steel products is unreasonable or inconsistent with the public interest of the State of West Virginia, (2) that domestic aluminum, glass or steel products are not produced in sufficient quantities to meet the contract requirements, or (3) the available domestic aluminum, glass, or steel do not meet the contract specifications. This provision only applies to public works contracts awarded in an amount more than fifty thousand dollars (\$50,000) or public works contracts that require more than ten thousand pounds of steel products.

The cost of domestic aluminum, glass, or steel products may be unreasonable if the cost is more than twenty percent (20%) of the bid or offered price for foreign made aluminum, glass, or steel products. If the domestic aluminum, glass or steel products to be supplied or produced in a "substantial labor surplus area", as defined by the United States Department of Labor, the cost of domestic aluminum, glass, or steel products may be unreasonable if the cost is more than thirty percent (30%) of the bid or offered price for foreign made aluminum, glass, or steel products.

This preference shall be applied to an item of machinery or equipment, as indicated above, when the item is a single unit of equipment or machinery manufactured primarily of aluminum, glass or steel, is part of a public works contract and has the sole purpose or of being a permanent part of a single public works project. This provision does not apply to equipment or machinery purchased by a spending unit for use by that spending unit and not as part of a single public works project.

All bids and offers including domestic aluminum, glass or steel products that exceed bid or offer prices including foreign aluminum, glass or steel products after application of the preferences provided in this provision may be reduced to a price equal to or lower than the lowest bid or offer price for foreign aluminum, glass or steel products plus the applicable preference.

If the reduced bid or offer prices are made in writing and supersede the prior bid or offer prices, all bids or offers, including the reduced bid or offer prices, will be reevaluated in accordance with this rule.

West Virginia Code § 21-11-11 requires any prospective Vendor to include the contractor's license number on its bid. The apparent successful Vendor must furnish a copy of its contractor's license prior to the issuance of a purchase order/contract.

2. **DRUG-FREE WORKPLACE AFFIDAVIT:** W. Va. To comply with this law, Vendor must either complete the enclosed drug-free workplace affidavit and submit the same with its bid or complete a similar affidavit that fulfills all of the requirements of the applicable code. Failure to submit the signed and notarized drug-free workplace affidavit or a similar affidavit that fully complies with the requirements of the applicable code, with the bid shall result in disqualification of Vendor's bid.

The awarding public authority may cancel this contract if: (1) Vendor fails to implement and maintain a written drug-free workplace policy described in the preceding paragraph, (2) Vendor fails to provide information regarding implementation of its drug-free workplace policy at the request of the public authority; or (3) Vendor provides to the public authority false information regarding the contractor's drug-free workplace policy.

5. **SUBCONTRACTOR LIST SUBMISSION:** In accordance with W. Va. Code § 5-22-1, The apparent low bidder on a contract for the construction, alteration, decoration, painting or improvement of a new or existing building or structure valued at more than \$250,000.00 shall submit a list of all subcontractors who will perform more than \$25,000.00 of work on the project including labor and materials. This provision shall not apply to any other construction projects, such as highway, mine reclamation, water or sewer projects. Additionally, if no subcontractors who will perform more than \$25,000.00 of work are to be used to complete the project, it will be noted on the subcontractor list.
 - a. **Required Information.** The subcontractor list shall contain the following information:
 - i. Bidder's name
 - ii. Name of each subcontractor
 - iii. License numbers as required by W. Va. Code § 21-11-1 et. seq.

 - b. **Submission.** The completed subcontractor list shall be provided to the Purchasing Division within one business day of the opening of bids for review. Failure to submit the subcontractor list within one business day after the deadline for submitting bids shall result in disqualification of the bid.

- i. The subcontractor listed in the original bid has filed for bankruptcy;
 - ii. The subcontractor in the original bid has been debarred or suspended; or

MANDATE: Under W. Va. DEFINITIONS:

"Debt" means any assessment, premium, penalty, fine, tax or other amount of money owed to the state or any of its political subdivisions because of a judgment, fine, permit violation, license assessment, defaulted workers' compensation premium, penalty or other assessment presently delinquent or due and required to be paid to the state or any of its political subdivisions, including any interest or additional penalties accrued thereon.
