**Building 86 Card Reader Installation
Technical Questions and Answers**

- Q.1. Is conduit going to be installed by the state at each door location?
- 1.1. If yes, will a pull string be provided?
 - 1.2. If no, can existing J-Hooks and/or cable tray be used for cable routing in the ceiling?
 - 1.2.1. If no, what is the preferred method for cable install?
- A.1. Pull strings are provided in Agency-installed conduit; vendor can use cable tray and existing J-hooks.
- Q.2. Is a LAN/Ethernet connection going to be available in the electrical rooms to tie the new access control system to the existing network?
- A.2. Yes, on the 2nd floor
- Q.3. The entry door, located on the railroad track side of the building, is currently connected to the old access control system that is no longer in use. Should this door be added to the new access control system being installed?
- A.3. No, remains as-is on old controller.
- Q.4. Due to equipment delivery times from the manufacturer, can the 20 days to complete after notice to proceed be extended? Can the 20 days to complete begin after equipment is received?
- A.4. See Answer to Question 9 (A.9, below).
- Q.5. Is any patching and painting the responsibility of the vendor?
- A.5. No

Q.6. Parts of the install will generate some noise at times: cutting, grinding, milling, etc. Will these tasks need to be limited to certain times of the day to mitigate disruption?

A.6. No. Any messes made by vendor will be cleaned up by vendor.

Q.7. Specification references a pricing page which has not been included with any of the current documentation.

A.7. See Section 5.2 of the specifications for definition of the Pricing Page. If responding electronically in wvOasis, the electronic CRFQ is the Pricing Page. If responding on paper, bidders should use the assembled CRFQ form as the Pricing Page.

Q. 8. **Existing Card Reader;**

Facility has an existing card reader located at building's main entrance. This card reader is active and currently attached to Protective Services System. Project scope does not mention this reader or address it within scope of work. Please confirm contractor will need to provide all costs associated with attaching existing reader to new equipment, keep existing reader in operation, attach existing reader to new system when new equipment is operational minimizing any downtime of existing reader operation.

A.8. Existing card reader at front door is not included in scope and should remain operational.

Q.9. **Time Frame:**

Project requires system to be complete within 20 days from notice to proceed. This represents a very aggressive time frame for the installation work needed and we believe this goal could be accomplished if access control equipment were available the same day as notice to proceed.

We contacted the card access equipment factory to obtain expected delivery time needed for this equipment. The card readers represent the longest lead time with a two week delivery from receipt of order. Once the equipment arrives installation will require up to two weeks to get all equipment installed, programmed and tested.

With the forty two (sic) week equipment lead time, the twenty day completion requirement cannot be met. During our project walk through it appears other trades will be working on this project for at least two months before project can be turned over to Owner. We request Owner consider extending the time frame for project completion from twenty to forty days. We understand that time is of the essence. As an alternative Owner may choose to have Contractor begin project upon Notice to Proceed to perform infrastructure work needed and have the twenty day completion time frame start once all equipment has arrived on project site. Please consider extending completion time frame to include the two week equipment lead time and the two weeks needed once equipment arrives onsite.

Request For Information

- A.9. Time frame for completion is extended to Forty-Five (45) days. Please revise General Conditions #3 to read: "This Contract becomes effective upon Vendor's receipt of the notice to proceed and must be completed with Forty-Five (45) days."

Q.10. **Installation of Infrastructure Cables;**

Each card reader will have new cable installed from door location to new control equipment located in existing electrical room.

During walk thru we observed new cable tray installed to support new voice/data system for the facility.

Please confirm we can install new card reader cables in this cable tray system.

Any waiver must be expressly stated in writing and signed by the waiving party.

24. SUBSEQUENT FORMS: The terms and conditions contained in this Contract shall supersede any and all subsequent terms and conditions which may appear on any form documents submitted by Vendor to the Agency or Purchasing Division such as price lists, order forms, invoices, sales agreements, or maintenance agreements, and includes internet websites or other electronic documents. Acceptance or use of Vendor's forms does not constitute acceptance of the terms and conditions contained thereon.

Vendor shall hold harmless the State, and shall provide the State and Agency with a defense against any and all claims including, but not limited to, the foregoing payments, withholdings, contributions, taxes, Social Security taxes, and employer income tax returns.

36. INDEMNIFICATION: The Vendor agrees to indemnify, defend, and hold harmless the State and the Agency, their officers, and employees from and against: (1) Any claims or losses for services rendered by any subcontractor, person, or firm performing or supplying services, materials, or supplies in connection with the performance of the Contract; (2) Any claims or losses resulting to any person or entity injured or damaged by the Vendor, its officers, employees, or subcontractors by the publication, translation, reproduction, delivery, performance, use, or disposition of any data used under the Contract in a manner not authorized by the Contract, or by Federal or State statutes or regulations; and (3) Any failure of the Vendor, its officers, employees, or subcontractors to observe State and Federal laws including, but not limited to, labor and wage and hour laws.

37. PURCHASING AFFIDAVIT: In accordance with West Virginia Code § 5A-3-10a, all Vendors are required to sign, notarize, and submit the Purchasing Affidavit stating that neither the Vendor nor a related party owe a debt to the State in excess of \$1,000. The affidavit must be submitted prior to award, but should be submitted with the Vendor's bid. A copy of the Purchasing Affidavit is included herewith.

38. ADDITIONAL AGENCY AND LOCAL GOVERNMENT USE: This Contract may be utilized by other agencies, spending units, and political subdivisions of the State of West Virginia; county, municipal, and other local government bodies; and school districts ("Other Government Entities"). Any extension of this Contract to the aforementioned Other Government Entities must be on the same prices, terms, and conditions as those offered and agreed to in this Contract, provided that such extension is in compliance with the applicable laws, rules, and ordinances of the Other Government Entity. If the Vendor does not wish to extend the prices, terms, and conditions of its bid and subsequent contract to the Other Government Entities, the Vendor must clearly indicate such refusal in its bid. A refusal to extend this Contract to the Other Government Entities shall not impact or influence the award of this Contract in any manner.

CONFLICT OF INTEREST: Vendor, its officers or members or employees, shall not presently have or acquire an interest, direct or indirect, which would conflict with or compromise the performance of its obligations hereunder. Vendor shall periodically inquire of its officers, members and employees to ensure that a conflict of interest does not arise. "State Contract Project" means any erection or construction of, or any addition to, alteration of or other improvement to any building or structure, including, but not limited to, roads or highways, or the installation of any heating or cooling or ventilating plants or other equipment, or the supply of and materials for such projects, pursuant to a contract with the State of West Virginia for which bids were solicited on or after June 6, 2001.
- b. "Steel Products" means products rolled, formed, shaped, drawn, extruded, forged, cast, fabricated or otherwise similarly processed, or processed by a combination of two or more or such operations, from steel made by the open heath, basic oxygen, electric furnace, Bessemer or other steel making process. The Purchasing Division Director may, in writing, authorize the use of foreign steel products if:
- c. The cost for each contract item used does not exceed one tenth of one percent (.1%) of the total contract cost or two thousand five hundred dollars (\$2,500.00), whichever is greater. For the purposes of this section, the cost is the value of the steel product as delivered to the project; or
- d. The Director of the Purchasing Division determines that specified steel materials are not produced in the United States in sufficient quantity or otherwise are not reasonably available to meet contract requirements.

43. PREFERENCE FOR USE OF DOMESTIC ALUMINUM, GLASS, AND STEEL: In Accordance with W. Va. Code § 5-19-1 et seq., and W. Va. CSR § 148-10-1 et seq., for every contract or subcontract, subject to the limitations contained herein, for the construction, reconstruction, alteration, repair, improvement or maintenance of public works or for the purchase of any item of machinery or equipment to be used at sites of public works, only domestic aluminum, glass or steel products shall be supplied unless the spending officer determines, in writing, after the receipt of offers or bids, (1) that the cost of domestic aluminum, glass or steel products is unreasonable or inconsistent with the public interest of the State of West Virginia, (2) that domestic aluminum, glass or steel products are not produced in sufficient quantities to meet the contract requirements, or (3) the available domestic aluminum, glass, or steel do not meet the contract specifications. This provision only applies to public works contracts awarded in an amount more than fifty thousand dollars (\$50,000) or public works contracts that require more than ten thousand pounds of steel products.

The cost of domestic aluminum, glass, or steel products may be unreasonable if the cost is more than twenty percent (20%) of the bid or offered price for foreign made aluminum, glass, or steel products. If the domestic aluminum, glass or steel products to be supplied or produced in a "substantial labor surplus area", as defined by the United States Department of Labor, the cost of domestic aluminum, glass, or steel products may be unreasonable if the cost is more than thirty percent (30%) of the bid or offered price for foreign made aluminum, glass, or steel products. This preference shall be applied to an item of machinery or equipment, as indicated above, when the item is a single unit of equipment or machinery manufactured primarily of aluminum, glass or steel, is part of a public works contract and has the sole purpose or of being a permanent part of a single public works project. This provision does not apply to equipment or machinery purchased by a spending unit for use by that spending unit and not as part of a single public works project.

All bids and offers including domestic aluminum, glass or steel products that exceed bid or offer prices including foreign aluminum, glass or steel products after application of the preferences provided in this provision may be reduced to a price equal to or lower than the lowest bid or offer price for foreign aluminum, glass or steel products plus the applicable preference. If the reduced bid or offer prices are made in writing and supersede the prior bid or offer prices, all bids or offers, including the reduced bid or offer prices, will be reevaluated in accordance with this rule.
