3. Shipping will be charged as actual.
4. Servers and PC's will be acquired by Customer in accordance with KeyMark Specifications.
5. Customer will provide the database software. SQL Server and Oracle are the available options.
6. The software and hardware configurations are based on information gathered during the sales process. It is possible that the engineering study performed after the contracts are signed could change the final configuration. The Customer and the Integrator agree that should changes be required, both parties will negotiate in good faith to resolve any financial differences that may arise.
7. This Technical Services Statement of Work ("SOW") is part of and incorporated into the [Master Services Agreement ("MSA")] or [System Integration Services Agreement ("SISA")], by and between Customer and KeyMark, Inc., and is subject to the terms and conditions of the Agreement and any definitions contained in the Agreement. Professional services hours for this effort will be authorized upon execution of this document or by submitting a purchase order to KeyMark.
8. This preliminary quote is valid for 30 days, and subject to change following price confirmation by the Vendor(s) whose software, hardware, services or support is proposed for Customer consideration herein.
9. At the time of invoicing, this order will be subject to final sales tax calculations which may or may not be in agreement with the fees quoted above. Final determination of sales tax fees will be based on specific customer requirements, including, among others, the method of software delivery, the actual "ship to" address, the sales tax requirements in effect at the time of delivery, and whether KeyMark has a valid Sales Tax exemption certificate on file.
