**Re: A/E Services for the
Chief Logan Lodge Cabins and the
System Wide Picnic Shelters Project**

11/03/15 09:31:06
WV Purchasing Division

McKINLEY & ASSOCIATES
ARCHITECTS • ENGINEERS • INTERIOR DESIGN

November 2, 2015

Mr. Guy Nisbet
Department of Administration
Purchasing Division
2019 Washington Street East
Charleston, WV 25305-0130

Dear Mr. Nisbet and Members of the Selection Committee;

McKinley & Associates is pleased to provide the West Virginia Division of Natural Resources with our Expression of Interest to provide you with engineering, architectural and other related professional services to design three cabins near Chief Logan Lodge and several large picnic shelters at various locations operated by WV DNR Parks and Receptions Section. As you review this submission, we emphasize the following strengths of McKinley & Associates with respect to your project:

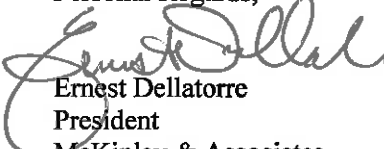

McKinley & Associates has been providing design services since 1981. We are a 100% ESOP Company (Employee Stock Ownership Plan), so our employees own 100% of our corporation! We support a professional staff of mechanical, electrical, plumbing/fire protection Engineers (**MEP Engineers**); **Architects, Construction Administrators**; an **Interior Designer**; and more. Our staff also includes **LEED Accredited Professionals with a Building Design and Construction specialty (LEED AP BD+C)**s, whom are both **Architects**, and can add **energy efficient ("green")** aspects into your project. With offices in **Charleston** and **Wheeling, WV** and **Washington, PA**, we have a close proximity to all parts of West Virginia by having both **northern** and **southern** offices, so we can provide project services in an economical, effective and efficient manner.

We have experience with **similar structures**, such as lodges, hotels, residential, and other "hospitality and accommodation" structures. McKinley & Associates also offers you an added benefit of having the capabilities of **handling multiple projects simultaneously**, while also creating a plan to implement the projects in a manner that will minimize disruption to concurrent operation of your Parks. We have a vast array of **similar contracts that involve multiple buildings**, including multiple open-ended contracts with organizations such as the United States Postal Service in West Virginia, the USPS in Pennsylvania, West Virginia University, the West Virginia State Police, and much more. We are able to respond to their needs, and we are certain that we are able to respond to all of your needs as well.

Your project will be led by **Thomas R. Worledge, AIA, LEED AP BD+C, REFP**, our **Charleston Area Manager**, whom is an **Architect** and a **LEED Accredited Professional with a Building Design and Construction specialty**. He has led multiple projects across the State, has award-winning projects, completed 2 LEED Certified and multiple LEED Registered projects, is a leader in energy efficient "green" design, and much more. Thom has been involved in design of "hospitality and accommodation" projects ranging in from a small home additions (one of which was featured on HGTV's New Spaces Show), to a \$6 million Maclin Hall Dormitory renovation, to multi-million dollar projects such as Fairmont State University's \$30 million College Student Housing Apartments Complex to name a few.

We are ready to begin immediately and can work to your schedule to get these projects designed and constructed. Thank you for reviewing our submission and considering McKinley & Associates for your projects. We are very excited about the possibility of working with you.

Personal Regards,

Ernest Dellatorre
President
McKinley & Associates

"Vendors will provide information regarding its employees, such as staff qualifications and experience in completing similar projects ..."

First and foremost, we can state that McKinley & Associates will devote whatever time is necessary to provide the West Virginia Division of Natural Resources with successful projects. If we are chosen for these projects; your project team is available to start immediately upon our being selected, can handle multiple projects simultaneously, and will provide the necessary hours to complete your projects on time. On staff, we have 6 licensed Architects, 2 licensed Engineers, 1 licensed Interior Designer, 2 licensed LEED Accredited Professionals, 1 licensed Commissioning Process Provider, Construction Administrators, a Historic Preservationist, as well as architectural and engineering designers among other professionals. We have multiple professionals licensed in West Virginia, and they are located in both the northern part of the State [Wheeling, WV (as well as Washington, PA)], or the southern part of the State (Charleston, WV), and the work will be performed out of all offices, depending on the location of the project.

Since the majority of the projects are located in the southern part of West Virginia, and since your agency is located in South Charleston, we have assigned Thomas R. Worlledge, AIA, LEED AP BD+C, REFP, our Charleston Area Manager, as the Project Manager and Main Point of Contact between you and McKinley & Associates. Thom is an Architect (AIA) and a LEED Accredited Professional with a Building Design and Construction specialty (LEED AP BD+C).

Our portfolio includes multiple relevant projects; examples of which you will see later in our proposal. No project is too large or small; we have designed projects ranging from a few thousand dollars to multi-million dollar projects. Additionally, we have vast experience with phasing, and will coordinate your projects as required.

McKinley & Associates is on the forefront of innovative design. Sustainable Design is a fastly growing and supported philosophy. We can incorporate energy efficient "green" design into renovation/preservation projects; twenty percent of a building's energy consumption is embodied in the existing physical structure itself! McKinley & Associates identifies the changes necessary in the design of today's buildings to meet the demands of the future. This approach helps to retain the buildings' long-term profitability and value, which achieves the buildings' sustainability. We offer proactive solutions to complex problems such as indoor air quality, resource depletion, water quality, etc. It is with this experience that we are able to bring insight to the design to retain and improve your long term value. We have 2 LEED Accredited Professionals with a Building Design and Construction specialty on staff, which includes your Project Manager, Thomas R. Worlledge, AIA, LEED AP BD+C, REFP.

Over the years, our firm has won multiple local, State, and National awards and recognitions for our works. Some of these are: West Virginia AIA Honor Award, 3 West Virginia AIA Merit Awards, West Virginia AIA Craftsmanship Award, 5 Placemaker Awards (Energy Efficient "Green" Design), Building of America - Gold Medal Green Building Award, Governor's Award for Historic Preservation, 2 Preservation Alliance of West Virginia - Heritage Tourism Awards, West Virginia Department of Environmental Protection - Clean Energy Environmental Award, 2 U.S. Department of Education Green Ribbon Schools, 2 WV Department of Education's West Virginia Sustainable Schools - Black Bear Award for the Highest Achievement, American School & University Magazine's Architectural Portfolio - Outstanding Design, Best Outdoor Lighting Design in Western Pennsylvania Area, Friends of Wheeling - Architectural Preservation Award, and the City Council & Mayor's Award for Preservation to name a few.

Thomas R. Worlledge, AIA, LEED AP BD+C, REFP

Architect / LEED Accredited Professional

Charleston Area Manager

EDUCATION:

Virginia Polytechnic Institute & State University
Master of Architecture - 1992

Fairmont State College, School of Technology
B.S. Architectural Eng. Tech. - 1983

PROFESSIONAL AFFILIATIONS AND REGISTRATIONS:

Registered Architect in:

West Virginia
Ohio
Pennsylvania
Tennessee
Virginia

National Board Certification:

NCARB [REDACTED]

President:

West Virginia Society of Architects

Member:

The American Institute of Architects
US Green Building Council
Sustainable Building Industries Council
Recognized Educational Facility Professional
(REFP)

Former voting member:

ASHRAE 90.1 International Energy Code
Committee

PROFESSIONAL EMPLOYMENT:

McKinley & Associates
Manager, Charleston Office
Charleston, WV (2005 to present)

Proactive Architecture Inc.
President
Charleston, WV (1999-2005)

Silling Associates Inc.
Vice President
Charleston, WV (1992-1999)

TAG Architects
Charleston, WV (1985-1990)

Alpha Associates Inc.
Morgantown, WV (1983-1985)

SUMMARY OF EXPERIENCE:

Thomas R. Worlledge is a skilled Architect with over 30 years experience who has received state wide design awards and placed in national design competitions. As a **LEED Accredited Professional** and a recognized sustainable design expert, he has had articles published in state and national trade publications, has 2 LEED Certified Projects, multiple LEED Registered projects, spoken on sustainable design issues, and was also a featured speaker at the 2001 Governor's Conference on the Environment, 2001 Sustainable Fair, 2013 Create WV Conference, and more. He also teaches other design professionals in the art of High Performance School design, as a professional trainer for the Sustainable Building Industries Council. Mr. Worlledge is a former voting member of the ASHRAE 90.1 Standards committee that forms the basis of the International Energy Code and was the president of the state chapter of the AIA. Unlike many architects who are new to green building and alternate energy, Thom started his career designing and building alternate energy systems, and was the first LEED Accredited Professional in the state of West Virginia! He believe energy efficient design is simply good design practice. In fact, he wrote portions of the 2007 International Energy Code which is used by other architects as a guide for energy efficient design. He is also a Founder & Chairman of the Board for the US Green Building Council's West Virginia Chapter. Thom won a 2013 Placemaker Award for "Leadership, Inspiration, Stewardship" from West Virginia GreenWorks. Thom has been involved in design of projects ranging in from a small home additions (one of which was featured on HGTV's New Spaces Show) to multimillion dollar projects such as the \$30 million FSU Student Housing Complex to name a few.

NOTABLE PROFESSIONAL ACHIEVEMENTS:

Fairmont State University - "**University Terrace**" College Apartments Housing Complex

WVU Institute of Technology - Maclin Hall **Dormitory** renovations
Building 55: WV State Office Complex in Logan (**LEED Certified**).

Williamson Redevelopment Authority's SMART Office fit-out (**LEED Registered / 2013 Placemaker Award**)

Natural Energy Design (N&D) Building (**energy efficient "green" / 2013 Placemaker Award**)

Bellann in Oakhill, WV (**LEED Registered**)

Charleston Enterprise Center office renovation (**2009 WV AIA Design Award winner / energy efficient "green" design**)

West Virginia State Police - multiple projects from Open-Ended Architectural/Engineering Services contract [including new Logan Detachment, and WVSP Academy - Renovations to Buildings A, B, and C (**Dormitories**); New Building D and Multi-Purpose Building]

United States Postal Service - multiple projects from Open-Ended IDIQ contract

Catholic Diocese Saint John XXIII Pastoral Center renovations

Marshall County Schools - Hilltop Elementary School (**LEED Certified - won multiple WV and National Awards & Recognitions**)

Gregg P. Dorfner, AIA, NCARB

Architect

Director of Architectural Services

EDUCATION:

Fairmont State College
Associate of Science, Architectural Engineering
Technology - 1974

Fairmont State College, School of Technology
Regents Bachelor of Arts - 2000

Professional Associations:

The American Institute of Architects
AIA West Virginia

Former Arbitrator:

Panel of Construction Neutrals,
American Arbitration Association

Former Instructor:

Architectural Technology, Fairmont State College

Former Member:

Chairman, Building Code Board of Appeals,
Fairmont, WV
National AIA 1997 General Conditions Committee,
Task Group C
The Council of Educational Facility Planners

PROFESSIONAL EXPERIENCE:

McKinley & Associates
Wheeling, WV (2001 to present)

Alpha Associates
Morgantown, WV (1996-2001)

Self-Employed Consulting Architect
Fairmont, WV (1995-1996)

Blackwood Associates
Fairmont, WV (1974-1995)

SUMMARY OF PROFESSIONAL EXPERIENCE:

Mr. Dorfner's 40+ years of experience in the commercial, institutional and educational markets is broad-based, having worked on projects ranging in scope from convenience stores to psychiatric hospitals. His areas of specialized design include primary & secondary schools, school bond planning, educational facility planning, and multiple-unit housing developments. He has also acquired an extensive knowledge and understanding of construction documents, professional practice, state building & fire codes, and building industry standards, as well as governmental guidelines & regulations. This expertise helps him develop effective and economical design solutions to many complex code-related and professional practice issues. Mr. Dorfner has been our Project Architect for multiple projects ranging from a few hundred thousand to multi-million dollars in construction value.

SELECTED PROFESSIONAL ACHIEVEMENTS:

Coordination Architect

Fairmont State University Apartments / Fairmont, WV
(\$28 million)

Coordination Architect

Brooke Middle School / Wellsburg, WV
(\$30 million)

Project Architect

PetSmart Distribution Center / Columbus, OH
(Design-Build)

Coordination Architect

Hancock County Schools / New Cumberland, WV
(\$56 million District-Wide Construction Program / Bond)

Project Architect

New Weirton Elementary School / Weirton, WV
(107,000 SF)

Coordination Architect

Marshall County Schools / Moundsville, WV
(\$38 million Bond)

Project Architect

New Cameron High School / Cameron, WV
(127,000 SF)

CEFP 2010-2020 Developer

14 School Districts throughout West Virginia

Bond Planning Services

12 counties between 1981 and 2014

PROFESSIONAL EMPLOYMENT:

McKinley & Associates
Wheeling, WV (2005 to present)

Capitol Engineering
Charleston, WV (2003-2005)

United Brotherhood of Carpenters & Joiners
(2000-2003)

SUMMARY OF EXPERIENCE:

Mr. Rymer-brings over 15 years experience in the building design and construction industry, which includes multiple governmental projects. His recent relevant experience includes the project management of several projects, as well as the lead design and construction administration of various Federal, State, County Government and private projects. Bringing a diverse background from the hands on experience of an apprenticeship in the construction trades to project management of multi-million dollar facilities, Mr. Rymer has an intimate understanding of building and design on a holistic level.

NOTABLE PROFESSIONAL EXPERIENCES:

West Virginia State Police - Open End A/E Contract / multiple projects, including Jackson County Detachment, Kanawha County Troop 4 Headquarters, & Berkeley County Detachment

West Virginia Army National Guard - Multiple Projects, State-Wide: Camp Dawson/Fueling Canopies*, Parkersburg Army Aviation Support Facility / Taxiway Repair*, Glen Jean WVANG-AFRC-MEPS Facility*, Parkersburg AASF Apron Rehabilitation*, Williamson Armory, WVANG Wash Pad & Military Parking*, Summersville Readiness Center*, & Lewisburg Readiness Center*

Regional Economic Development Office, Wheeling - Site Improvements for Orrick's Global Operations Center, & Adaptive Reuse Warehouse Study

Ohio County Commission - Cabela's Phase II Expansion

Wellsburg City Hall Building

Braxton County Senior Citizen Center / 14,000 SF Addition and Renovation / includes 3,685 SF Community Room - Auditorium

Site Improvements for St. Joseph's Cathedral / Wheeling Central Catholic High School / Diocese of Wheeling-Charleston

Hancock County Schools - Open End Contract / multiple projects

Marshall County Schools - multiple projects

Tyler County Schools - Open End Contract / multiple projects

Wetzel County Schools - Open End Contract / multiple projects

Wood County Schools - Parkersburg South High School

Comprehensive Educational Facilities Plan for Brooke, Hancock, Ohio, Ritchie, Tyler, & Wetzel counties

SUMMARY OF EXPERIENCE:

For over 25 years, Ms. Schessler has obtained a wide range of historical preservation, residential (multiple-types of work), emergency service, forensic, medical, educational, and commercial project experience. She recently completed her Masters in Historic Preservation, and has a passion for restoration, renovation, and modernization projects. For Independence Hall and Bennett Square, she won Heritage Tourism Awards from the Preservation Alliance of West Virginia. She also won a Pittsburgh History and Landmarks Restoration Award for the City Theater restoration project. She has had the opportunity to participate in the design of a few uncommon building types, such as a fire fighting training center, funeral homes, and animal research facilities to name a few. Ms. Schessler is adept at developing space and utilization programs with Clients who are unfamiliar with the architectural design process. As a volunteer and as a professional, Ms. Schessler has developed several projects for non-profit agencies on limited budgets. Christina will also be able to provide direction to your projects should you wish to develop a design that is intended to achieve **LEED Certification**.

... references ...

We feel that the best way to demonstrate our strengths and leadership in design is by referring to our past and present clients. We have an ever-growing list of repeat clients, which include having multiple recent projects for "hospitality" clients: Holiday Inn Express Hotels & Suites and Candlewood Suites Hotels. Furthermore, we have multiple open-ended contracts with organizations such as the West Virginia State Police (WVSP Academy dormitories), the Wheeling Island Hotel • Casino • Racetrack, West Virginia University (WVU IOT Maclin Hall dormitory), as well as 2 United States Postal Service IDIQ contracts to name a few. We are able to respond to their needs, and we are certain that we are able to respond to all of your needs as well. So that you don't only have to take our word for it; here is a list of references that we encourage you to call:

McKINLEY & ASSOCIATES
ARCHITECTS • ENGINEERS • INTERIOR DESIGN

... proposed staffing plan ...

The work to be performed by your design team is very clear; to evaluate, prioritize and design within budget and schedule to meet the needs of the West Virginia Division of Natural Resources for the Chief Logan Lodge Cabin Project and the System-Wide Picnic Shelter Project located at 10 State Parks across West Virginia.

You will see in the submittal that McKinley & Associates has included **several professionals to handle all aspects of the RFP, and can work on multiple projects simultaneously**. We are available to **start immediately** upon our being selected, and our Team is available to dedicate the necessary effort and hours to **complete your projects on time**. We believe our strength lies in the quality of the people we employ. Our seasoned staff has an unsurpassed knowledge of the business and the dedication it takes to make each project a success. All of our project managers, Architects and Engineers, write their own specifications for a project. By doing so, the specifications are written for - and pertinent to - only your project. **We will meet ALL of your Project Goals and Objectives which you list in Section 3.3.1. We know this Team possesses the required expertise to address all facets of your project - from architectural and engineering services, to implementing plans at various types of facilities, minimizing disruption to concurrent operations of the facilities, meeting codes, etc.** We can also provide other services which you might desire, such as possible energy efficient design, interior design, and more.

We know your project will also provide for the **construction contract administration** for the implementation of this plan at multiple sites state-wide, and McKinley & Associates has construction administrators on staff to fulfill this need as well. In addition, our Eleven Month Walk-Through is a process where our professionals return to your facility eleven months after the project is completed. At that time they review all the work that was completed and check all warranties. We are making sure all of the covered work is in order and that the warranties do not expire with equipment or product not working properly. We have been doing this for 18 years which has now been adopted as an AIA 101 Standard. We also conduct Post Occupancy Evaluations with the Owner to find out how well we matched the Owners' needs.

Our approach to design requires a dialog with the Owners and representatives of the State Parks. Throughout the design process, we can hold design workshops at the discretion of the Owner to get the critical information needed to achieve a design that meets your needs and budget. The most important element of the entire process becomes **communication from you to our designers. We use and welcome your input throughout the project.** We continually achieve success in projects by maintaining time and cost management, quality control and excellent communication amongst the client and contractors. We can and will perform for you on time and within your budget. **The way that we have historically achieved success with ANY construction project is by understanding fully the needs pertinent to the project by reviewing with the building Owner as early on as possible.** Initial meetings with the users and staff will incorporate reviewing the existing plans and conditions as well as the operation of the park, references to the codes and standard with the object goal of determining budget, design and logistical priorities for the project.

With our previous experience on multiple new construction projects; hospitality and accommodation projects; our vast experience with codes; and our great working relationship with various state agencies; we are confident that we have the talent and technology needed to make this successful.

Furthermore, being from West Virginia, we have vast experience with our local conditions and unique landscape. McKinley & Associates has enjoyed success throughout West Virginia, the Tri-State region, and the mid-Atlantic states because of our unique understanding of the region's architecture. The buildings complement their surroundings and work to create an unparalleled atmosphere for the clients. Also, by having both northern and southern offices, we have a close proximity to all parts of West Virginia, so we can provide project services in an economical, effective and efficient manner.

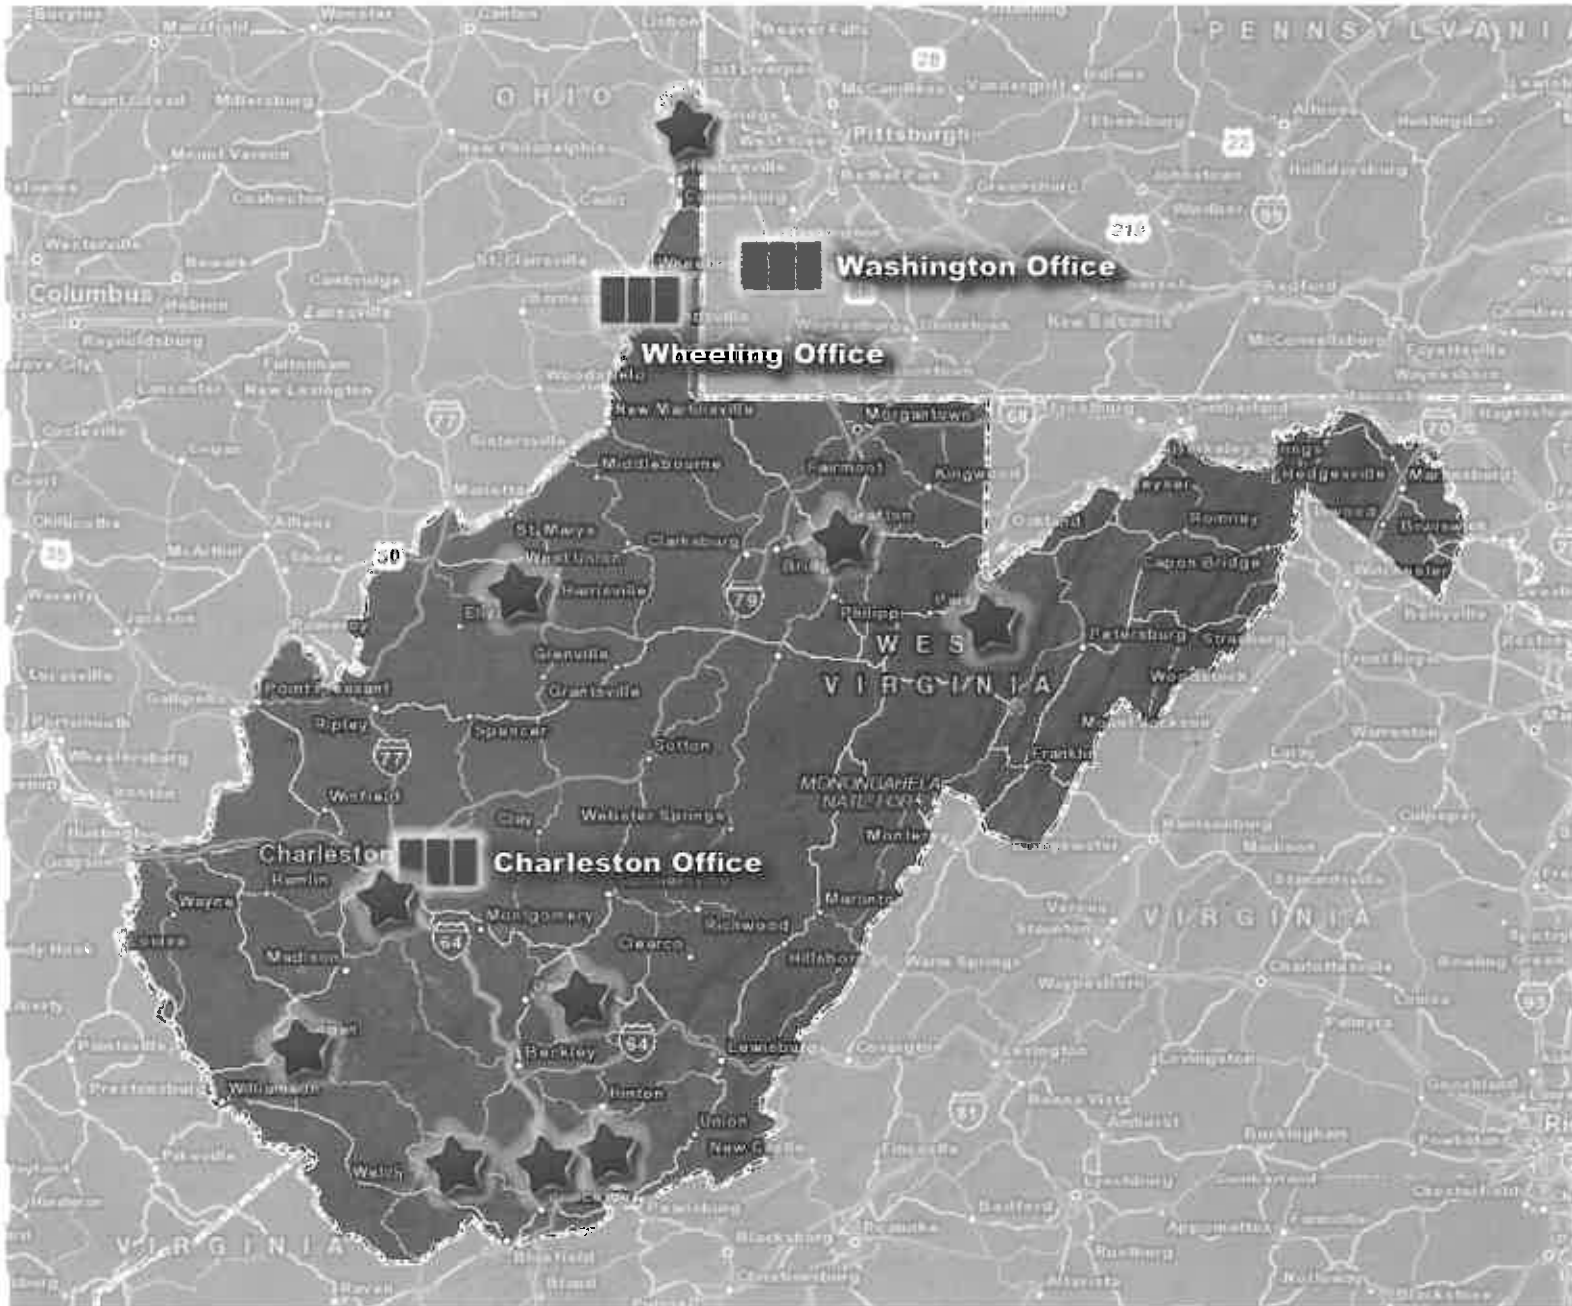

Projects in the southern parts of West Virginia will be performed from this location:

Charleston Enterprise Center
1116 Smith Street
Suite 406
Charleston, WV 25301

Projects in the northern parts and eastern panhandle of West Virginia will be performed from these locations:

The Maxwell Center
32 20th Street
Suite 100
Wheeling, WV 26003

Washington Trust Building
6 South Main Street
Suite 1028
Washington, PA 15301

... Descriptions of past projects completed entailing the location of the project, project manager name and contact information, type of project, and what the project goals and objectives where and how they were met."

Oglebay Park and Wheeling Park projects

Location: Wheeling, West Virginia

Type of Project: Hospitality and Accommodation

Project Description, Goals, and Objectives: McKinley & Associates has worked with the Wheeling Park Commission multiple times in the past at **Oglebay Park** and **Wheeling Park**. Some of these buildings probably have similarities to your proposed project; multiple projects include **rustic and wooden structures**; projects also include various lodges, chalets, various levels of key access, reception areas, welcome centers, recreational projects, merchandise & gift shops, concession areas, clubhouses, restaurants, and more. These projects included **investigations, studies, reports, and design**. Our projects have included (this list includes McKinley & Associates' project name/brief description):

- Wilson Lodge Lobby HVAC Design
- Pine Room.HVAC Study
- Wilson Lodge Office & Hickman Lounge Room HVAC Design
- Oglebay Animal Hospital
- Pine Room Design
- Speidel Golf Course Clubhouse Cooling Loads Calculations
- Wheeling Park Amphitheater Inspection
- Banquet Room at Wilson Lodge
- White Palace Ball Room HVAC Replacement Recommendations
- Roof over Pool at Wilson Lodge
- Oglebay Good Zoo HVAC Evaluation
- Wilson Lodge Security
- Glessner Addition
- Aviary
- Good Lake Site Design
- Wilson Lodge Corridor
- Oglebay GlassWorks Restaurant HVAC Study
- Wheeling Park Comm Human Resources Building HVAC Design
- Oglebay Amphitheater Structural Design
- Oglebay Mansion
- Wilson Lodge Steam Boiler Replacement
- Oglebay GlassWorks HVAC Design
- Pool Concessions at Wilson Lodge
- Oglebay Institute
- Oglebay Park Stifel Center
- Oglebay Carriage House
- Pizza Shop at Wilson Lodge Pool
- Oglebay Park Stables Riding Arena
- Wheeling Park Commission White Palace Office HVAC
- Good Zoo Discovery Lab Renovation
- Stone Room HVAC
- White Palace HVAC RTUs
- Schenk Lake Lighting
- Oglebay Mansion HVAC
- Electrical to Chalets at Wilson Lodge
- Zoo Office Controls
- White Palace HVAC Control

Holiday Inn Express Hotels & Suites

Location: Triadelphia, West Virginia (and in MD, OH, PA, and Parkersburg, WV)

Contact: Mr. Gerry Hamerski
Wheeling Hospitality, LLC
250 Scott Avenue
Suite 205
Morgantown, WV 26508
304/284-9989

Type of Project: Hospitality and Accommodation

Project Description, Goals, and Objectives: A 54,636 SF Holiday Inn Express & Suites was recently completed in The Highlands development in Triadelphia, West Virginia. This three-story hotel consists of 87 units with a lobby, pool building, and entrance canopy. There is a maximum occupancy of 684, and there are multiple ADA Accessible units. The primary structure is wood framed except for several structural steel transfer beams. This has a specialty HVAC system, especially for dehumidification in the pool/spa room, which involves thermostats and humidistats, and a special vestibule to "separate" this area from the main hotel. The doors have a key card access system that allow a single card with multiple-levels of access programmed into that card; with card readers at the 87 bedroom units, the guest entry/side doors, the pool building, exercise room, guest laundry, employee-only access areas, and more.

The 21,108 SF first floor, in addition to the pool building and 17 units, also consists of a 1,500 SF meeting room, 2,700 SF of office/laundry/pantry/misc, kitchen, restrooms, and a 2,800 SF great room/breakfast room/lobby. There is a vending area adjacent to the elevators on every floor. The second and third floors are both 16,764 SF, and both consist of 35 units.

The 87 rooms consists of 54 King units and 33 Queen units. There are 5 ADA rooms. The King rooms consist of 6 Single Business Suite A, 2 Single Business Suite B, 1 Single ADA Business Suite C, 16 Single Suite D, 19 Single C, 1 Single D, 2 Single D1, 1 Single ADA Roll-In, 4 Single Executive B, and 2 Single Executive B1 units. The Queen rooms consist of 1 Double ADA Business Suite, 2 Double Business Suite, 2 Double Executive B1, 2 Double Executive B2, 2 Double ADA, and 24 Double A.

This project has lead to subsequent projects, and we currently are designing and/or in construction of more Holiday Inn Express hotels in Parkersburg, West Virginia, Washington, Pennsylvania, Cambridge, Ohio, and Cumberland, Maryland.

McKINLEY & ASSOCIATES
ARCHITECTS • ENGINEERS • INTERIOR DESIGN

Cabela's Eastern Distribution Center

Location: Triadelphia, West Virginia

Contact: Mr. Rick Boccetti

Cabela's

1 Cabela's Drive

Sidney, Nebraska 69160

860/290-6251

Type of Project: Commercial Warehouse

Project Description, Goals, and Objectives: Located at The Highlands off of Interstate 70 in Triadelphia, WV, the \$40 million Cabela's Eastern Distribution Center is a commercial warehouse that was built in 2 fast-tracked phases. The building measures 1,200,000 square feet (600,000 SF for each of Phase I and Phase II), making it one of the largest buildings in West Virginia! Some highlights of Phase I included 32,000 SF of administrative offices, and Phase 2 included a 15,000 SF Maintenance shop. The Warehouse features 30-FT high-bay ceilings to accommodate large automated storage/retrieval mezzanines and high-tech racking; the building's floor was designed to withstand continuous fork lift traffic. In order to facilitate construction during winter climate, a precast concrete wall panel system was designed for the building shell, and erected onto steel framing. The project was developed on a deep-fill, greenfield site with massive retaining walls, and new utilities. We worked closely with the site engineers to coordinate exterior vehicle circulation and fire protection systems. This included particular attention to building and dock access for the 90 dock positions. The project also included a large parking and shipping area around the facility; 300 trailer parking spaces and 750 employee parking spaces. Security lighting was designed for these areas, with careful attention paid to illumination levels to permit camera operation in the parking lot areas. Cabela's is the World's Foremost Outfitter of hunting, fishing and outdoor gear, that also has a huge "Home & Cabin" line. This 1.2 million square foot facility is a key link in Cabela's retail expansion plans, serving as their primary distribution center for the East Coast. In addition to keeping their retail stores fully stocked, it also benefits their direct business by reducing delivery times and lowering transportation costs to their catalog and Internet customers in the eastern United States.

McKINLEY & ASSOCIATES
ARCHITECTS • ENGINEERS • INTERIOR DESIGN

Braxton County Senior Center

Location: Gassaway, West Virginia

Contact: Ms. Leigh Ann Singleton

Braxton County Senior Citizen Center, Inc.
715 Elk Street
Gassaway, WV 26624
304/364-5604

Type of Project: Renovations and Addition

Project Description, Goals, and Objectives: We completed full-service Architectural and Engineering design, as well as interior design and construction administration, for the adaptive reuse of a former steak house restaurant into a 13,965 SF multi-use **senior citizen center**. The facility was also designed to support events within the center, such as weddings, receptions, bingo, meetings, and much more. The \$2.8 million project involved the **renovation of existing building**, a single story addition, **ADA compliance including entry**, landscaping improvements, roof replacement, an automatic sprinkler system, site grading and drainage, renovation and expansion of parking areas, gravel overflow lot, and more. Included in the structure are offices, exercise room, arts & crafts room, conference room (used weekly for Veteran meetings), flex space, community room, lounges, and much more.

The client wanted the building to be **warm and inviting**. Since this is located in a rural area, **we designed the building to have a rustic look that resembles a cabin or a lodge**. The community room features the cozy ambience of a **stone fireplace** (a gas fireplace with stone veneer), includes **multiple windows** to allow an abundance of **natural light**, and the **ceiling is accentuated with an exposed truss system** intended to simulate wood timber beams found in a cabin. The interior and exterior also feature neutral, earth toned color schemes.

Furthermore, there is a wrap-around porch with rockers; giving the building a charming appeal.

and AFTER

McKINLEY & ASSOCIATES
ARCHITECTS • ENGINEERS • INTERIOR DESIGN

2.1. a. The successful firm or team must demonstrate a clear procedure for communication with the owner during all phases of the project.

First of all, we will successfully complete your Goal/Objective 1: Review existing plans and conditions as well as the operation of the park and evaluate while communicating effectively with the owner to determine a plan that can be implemented in a manner that will minimize disruption to concurrent operation of the facility and meet all objectives.

To start your project, an on-site **kickoff meeting** will be held with all pertaining Owners representatives along with all our design professionals. Interviews will take place to learn what you, the Owner, wants in the structures. This is a very important step as it sets up the remainder of the project. From this meeting the Owners Project Requirements will be defined and documented, to be used as a guideline through the design phase. We will use this information to aid in the design of the projects. We have some knowledge already from your RFP, such as the Picnic Shelters may include restroom facilities, a small kitchen, and a fire ring; and the Cabins will be 4 bedrooms, 4 and 1/2 baths with common kitchen and family space; they will be designed and constructed to have the bedrooms operated and keyed separately with a common key to the entrance. We will still meet with you to obtain more information to design exactly what you desire. We are comfortable with these details you already gave, such as our hotels, dorms, and other facilities are designed to allow keys with various levels of access. We have experience with projects in multiple sectors of business, and have vast experience with phased projects which minimize disruption to concurrent operation of the facilities. Armed with this information, our professionals start the process of **schematic drawings (SDs)**. This is the first time thoughts and dreams are put on paper. At the end of this phase the product is a first look at what the floor plan might look like, as well as a preliminary cost estimate. You will have a chance to review these plans. During the **design development (DDs) drawings** phase, plans start to take shape and changes are made. This is a very exciting time in the project as you are finalizing concepts and ideas, but also a very important time as this is the last chance to easily make changes. You will have a chance to review these plans as well. Next is the time that our professionals take all of the information gained from the meetings and the SD and DD drawing phases and produce the **construction drawings (CDs)** and specifications for the project. The CDs provide the tool needed for the contractors to bid the project and information and details necessary to construct the building. Changes become difficult at this point. **Copies of the final documents will be distributed to you for final review and approval.** Afterwards is the actual **bidding** of the project. We will conduct a pre-bid meeting to handle all bidding information as well as conduct the bid opening and reporting. Finally, the **Construction Administration** phase involves the construction of the project. Our professionals now act as your agent and watch over the project. We will be on site approximately once every 1-2 weeks and work with the contractors to make sure they are building what we designed and specified and are doing it correctly. We handle all paperwork from the contractor and provide the owner with approved pay requests. This phase is very important to ensure that you get what you are paying for.

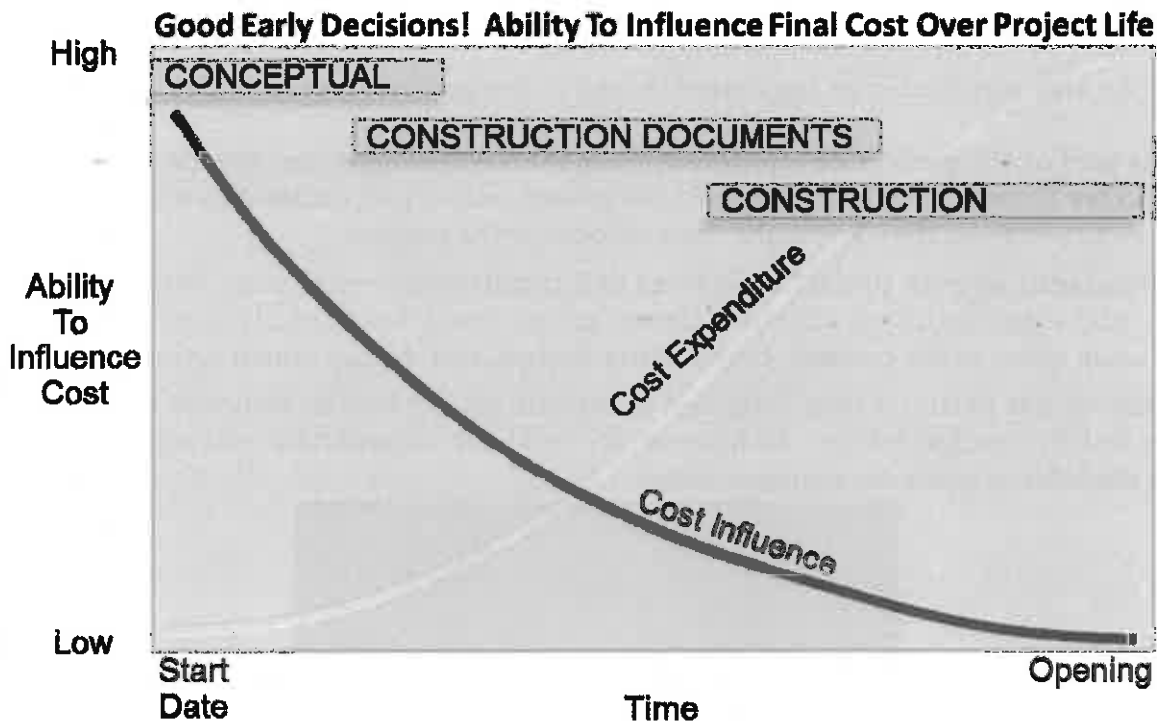

The longevity and size of the firm and our history of success completing projects of all kinds is founded upon our commitment to the schedule. **During the design phases, we hold weekly meetings to discuss your project, the budget, schedule and quality assurance. We provide Documented Minutes of all of our meetings and encourage the Owner to participate in as many of these meetings as possible.** Also during the design phases, all needed personnel become fully versed in the Client's program, project requirements and design standards. The design team is responsible for identifying for the Client any potential conflicts between program criteria and design standards and resolving those conflicts to the client's satisfaction.

2.1. b. The successful firm or team must demonstrate a history of projects that met the owner's budget and a clear plan to insure this project can be constructed within the project budget. This plan must be described in detail.

Will will successfully complete your Goal/Objective 2: As a portion of this process outlined in Objective 1, provide all necessary services to design the facilities described in this EOI in a manner that is consistent with The Division of Natural Resources needs, objectives, current law, and current code; while following the plan to design and execute the project within the project budget.

For meeting the Owner's budget; the work to be performed by your design team is very clear; to **evaluate, prioritize and design within budget** to meet the needs of the WVDNR. We continually achieve success in projects by maintaining **cost and time management, quality control and excellent communication** amongst the client and contractors. **Quality control** is a constant process which begins with the initial project activity and continues through document submissions, construction and owner occupancy. All documents will be prepared with the **current WV State Building Code and WV State Fire Code as well as all State and Federal Codes, Regulations, and Ordinances.** **Understanding your needs through good communications up-front** will help ensure your project scope is known from the beginning; which will in-turn help save costs throughout the design and construction phases.

McKinley & Associates tracks the budget through all of the programming and design phase documents, and ensures that the total building scope continues to stay within the budgeted amount. In addition, our "in-house" Architects/Engineers work together everyday, which gives us the ability to develop quality documents that an exclusively architectural firm (or exclusively engineering firm) cannot match. The more we understand your project, and our ability to develop quality documents, ultimately create a better end-product, which will cut down on costs. In addition, during construction, the primary objective of our Construction Administration service is to ensure completion of work the way the client wants it - as scheduled and as budgeted. Through these efforts we hope you can see that we have been and will continue to supply our clients throughout West Virginia with great buildings that come in on/under budget.

2.1. c. The successful firm or team must demonstrate a history of projects that have been constructed in the time allotted in the contract documents and a clear plan to ensure this project will be constructed within the agreed construction period. This plan must be described in detail.

Will will successfully complete your Goal/Objective 3: Provide Construction Contract Administration Services with competent professionals that ensures the project is constructed and functions as designed.

Construction Administration (CA) by definition is, literally, the administration of the Construction Contract. Generally, this has been translated to include all forms of communication and interaction between the Architect and the General Contractor, and the coordination of regular progress meetings on site.

Some firms are structured to include these tasks as part of the Project Architect's work. McKinley & Associates has developed a more comprehensive role for the Construction Administrator. Our CA performs the traditional tasks:

- Monitor construction to ensure compliance with Contract Documents
- Observe construction progress
- Conduct progress meetings
- Administer payment requests and change orders

But our CAs also constitutes an important thread in the texture of project continuity:

Our CA is part of the project development from the first design team meeting. Since they are here from **Day 1** (they are not thrown into the project only when construction starts; they are here from the beginning), so they know the ins-and-outs of the project.

He becomes **familiar with project objectives and conditions** concurrently with the other team members, and subsequently is able to maintain an informed, but usefully peripheral, coordination role that adds value to the process, both during design, and during construction.

His position as site liaison is thus extended to include project liaison-in-house wherever he sees a missing link in communication. As his primary tasks are construction related, often, what he brings to the table is good construction sense.

There are many ways to **help the construction schedule.** One tool that we could recommend and have utilized successfully is to specify the longer lead time equipment as early as possible in the design period. We then break these out for owner direct purchase from the manufacturer. This affords a quicker delivery due to any delay by the more typical contractor submittal process and will not hold up the Construction Period by waiting for the new equipment.

2.1. d. The successful firm or team must demonstrate competent and acceptable experience in all expected professional disciplines necessary for the design and completion of the project.

We know our Team possesses the required expertise to address all facets of your included project, and we will provide you with all the disciplines and services needed to make this project a success. The experience of your Team members is seen in their write-ups at the start of our submittal, along with the project sheets we included.

We are confident we can meet your program requirements. We have worked with owners in many different sectors of business and have been able to comply with their various requirements and standards, including Federal Agencies such as the NPS, EPA, USPS, DOD, FAA, and HUD, and also State Agencies such as West Virginia State Police, WVARNG, West Virginia University, Marshall University, West Virginia School Building Authority, DOE, and the Department of Culture & History to name a few. We are able to respond to their needs, and we are certain that we are able to respond to all of your needs as well.

You appropriately recognize how codes, and state / federal regulations are important to a successful project. Our professional's design within these codes daily, as our practice is and remains a West Virginia practice and we are dedicated more than ever to the state in which we live. All documents will be prepared with the current WV State Building Code and WV State Fire Code as well as all State and Federal Codes, Regulations, and Ordinances. We are members of many organizations, and follow their standards, such as NFPA, CEFPI, AWI, WVEDC, AIA, NCARB, ASCE, ASPE, BOCA, ASHRAE, and ACI International.

Our Architectural Design has been recognized with numerous State & National awards. Our engineering staff is known for innovative solutions, and has recently had special opportunities and experience related to various typical and atypical building types. For example, McKinley & Associates designed the first Chilled Beam HVAC System in the State of West Virginia, one of the first Variable Refrigerant Volume / Air-Cooled DX Multi-Zone System in the State, and one of the first buildings utilizing all-LED lighting in West Virginia. We have a well rounded range of experiences and are not afraid to take on new challenges. We know the new technology and we know how and when to apply it effectively.

In addition, with our depth in numbers, McKinley & Associates also offers you an added benefit of having the capabilities of handling multiple projects simultaneously.

We have experience with similar structures, such as lodges, hotels, residential, and other "hospitality and accommodation" structures.

Per your request on the "General Terms and Conditions" Part 8 "Required Documents;" on this page and the following page, you will see specimen copies of our various Insurance Coverages.

PURCHASING AFFIDAVIT

MANDATE: Under W. Va. Code §5A-3-10a, no contract or renewal of any contract may be awarded by the state or any of its political subdivisions to any vendor or prospective vendor when the vendor or prospective vendor or a related party to the vendor or prospective vendor is a debtor and: (1) the debt owed is an amount greater than one thousand dollars in the aggregate; or (2) the debtor is in employer default.

EXCEPTION: The prohibition listed above does not apply where a vendor has contested any tax administered pursuant to chapter eleven of the W. Va. Code, workers' compensation premium, permit fee or environmental fee or assessment and the matter has not become final or where the vendor has entered into a payment plan or agreement and the vendor is not in default of any of the provisions of such plan or agreement.

DEFINITIONS:

"Debt" means any assessment, premium, penalty, fine, tax or other amount of money owed to the state or any of its political subdivisions because of a judgment, fine, permit violation, license assessment, defaulted workers' compensation premium, penalty or other assessment presently delinquent or due and required to be paid to the state or any of its political subdivisions, including any interest or additional penalties accrued thereon.

"Employer default" means having an outstanding balance or liability to the old fund or to the uninsured employers' fund or being in policy default, as defined in W. Va. Code § 29-2c-2, failure to maintain mandatory workers' compensation coverage, or failure to fully meet its obligations as a workers' compensation self-insured employer. An employer is not in employer default if it has entered into a repayment agreement with the Insurance Commissioner and remains in compliance with the obligations under the repayment agreement.

"Related party" means a party, whether an individual, corporation, partnership, association, limited liability company or any other form or business association or other entity whatsoever, related to any vendor by blood, marriage, ownership or contract through which the party has a relationship of ownership or other interest with the vendor so that the party will actually or by effect receive or control a portion of the benefit, profit or other consideration from performance of a vendor contract with the party receiving an amount that meets or exceeds five percent of the total contract amount.

AFFIRMATION: By signing this form, the vendor's authorized signer affirms and acknowledges under penalty of law for false swearing (W. Va. Code §61-5-3) that neither vendor nor any related party owe a debt as defined above and that neither vendor nor any related party are in employer default as defined above, unless the debt or employer default is permitted under the exception above.
