**ADDITIONAL TERMS AND CONDITIONS**

See attached document(s) for additional Terms and Conditions

STATE OF WEST VIRGINIA  
Purchasing Division**PURCHASING AFFIDAVIT**

**MANDATE:** Under W. Va. Code §5A-3-10a, no contract or renewal of any contract may be awarded by the state or any of its political subdivisions to any vendor or prospective vendor when the vendor or prospective vendor or a related party to the vendor or prospective vendor is a debtor and: (1) the debt owed is an amount greater than one thousand dollars in the aggregate; or (2) the debtor is in employer default.

**EXCEPTION:** The prohibition listed above does not apply where a vendor has contested any tax administered pursuant to chapter eleven of the W. Va. Code, workers' compensation premium, permit fee or environmental fee or assessment and the matter has not become final or where the vendor has entered into a payment plan or agreement and the vendor is not in default of any of the provisions of such plan or agreement.

**DEFINITIONS:**

**"Debt"** means any assessment, premium, penalty, fine, tax or other amount of money owed to the state or any of its political subdivisions because of a judgment, fine, permit violation, license assessment, defaulted workers' compensation premium, penalty or other assessment presently delinquent or due and required to be paid to the state or any of its political subdivisions, including any interest or additional penalties accrued thereon.

**"Employer default"** means having an outstanding balance or liability to the old fund or to the uninsured employers' fund or being in policy default, as defined in W. Va. Code § 23-2c-2, failure to maintain mandatory workers' compensation coverage, or failure to fully meet its obligations as a workers' compensation self-insured employer. An employer is not in employer default if it has entered into a repayment agreement with the Insurance Commissioner and remains in compliance with the obligations under the repayment agreement.

**"Related party"** means a party, whether an individual, corporation, partnership, association, limited liability company or any other form or business association or other entity whatsoever, related to any vendor by blood, marriage, ownership or contract through which the party has a relationship of ownership or other interest with the vendor so that the party will actually or by effect receive or control a portion of the benefit, profit or other consideration from performance of a vendor contract with the party receiving an amount that meets or exceeds five percent of the total contract amount.

**AFFIRMATION:** By signing this form, the vendor's authorized signer affirms and acknowledges under penalty of law for false swearing (W. Va. Code §61-5-3) that neither vendor nor any related party owe a debt as defined above and that neither vendor nor any related party are in employer default as defined above, unless the debt or employer default is permitted under the exception above.

VENDOR PREFERENCE CERTIFICATE

Certification and application\* is hereby made for Preference in accordance with West Virginia Code, §5A-3-37. (Does not apply to construction contracts). West Virginia Code, §5A-3-37, provides an opportunity for qualifying vendors to request (at the time of bid) preference for their residency status. Such preference is an evaluation method only and will be applied only to the cost bid in accordance with the West Virginia Code. This certificate for application is to be used to request such preference. The Purchasing Division will make the determination of the Vendor Preference, if applicable.

1. Application is made for 2.5% vendor preference for the reason checked:

- Bidder is an individual resident vendor and has resided continuously in West Virginia for four (4) years immediately preceding the date of this certification; or,
Bidder is a partnership, association or corporation resident vendor and has maintained its headquarters or principal place of business continuously in West Virginia for four (4) years immediately preceding the date of this certification; or 80% of the ownership interest of Bidder is held by another individual, partnership, association or corporation resident vendor who has maintained its headquarters or principal place of business continuously in West Virginia for four (4) years immediately preceding the date of this certification; or,
Bidder is a nonresident vendor which has an affiliate or subsidiary which employs a minimum of one hundred state residents and which has maintained its headquarters or principal place of business within West Virginia continuously for the four (4) years immediately preceding the date of this certification; or,

2. Application is made for 2.5% vendor preference for the reason checked:

- Bidder is a resident vendor who certifies that, during the life of the contract, on average at least 75% of the employees working on the project being bid are residents of West Virginia who have resided in the state continuously for the two years immediately preceding submission of this bid; or,

3. Application is made for 2.5% vendor preference for the reason checked:

- Bidder is a nonresident vendor employing a minimum of one hundred state residents or is a nonresident vendor with an affiliate or subsidiary which maintains its headquarters or principal place of business within West Virginia employing a minimum of one hundred state residents who certifies that, during the life of the contract, on average at least 75% of the employees or Bidder's affiliate's or subsidiary's employees are residents of West Virginia who have resided in the state continuously for the two years immediately preceding submission of this bid; or,

4. Application is made for 5% vendor preference for the reason checked:

- Bidder meets either the requirement of both subdivisions (1) and (2) or subdivision (1) and (3) as stated above; or,

5. Application is made for 3.5% vendor preference who is a veteran for the reason checked:

- Bidder is an individual resident vendor who is a veteran of the United States armed forces, the reserves or the National Guard and has resided in West Virginia continuously for the four years immediately preceding the date on which the bid is submitted; or,

6. Application is made for 3.5% vendor preference who is a veteran for the reason checked:

- Bidder is a resident vendor who is a veteran of the United States armed forces, the reserves or the National Guard, if, for purposes of producing or distributing the commodities or completing the project which is the subject of the vendor's bid and continuously over the entire term of the project, on average at least seventy-five percent of the vendor's employees are residents of West Virginia who have resided in the state continuously for the two immediately preceding years.

7. Application is made for preference as a non-resident small, women- and minority-owned business, in accordance with West Virginia Code §5A-3-59 and West Virginia Code of State Rules.

- Bidder has been or expects to be approved prior to contract award by the Purchasing Division as a certified small, women- and minority-owned business.

Bidder understands if the Secretary of Revenue determines that a Bidder receiving preference has failed to continue to meet the requirements for such preference, the Secretary may order the Director of Purchasing to: (a) reject the bid; or (b) assess a penalty against such Bidder in an amount not to exceed 5% of the bid amount and that such penalty will be paid to the contracting agency or deducted from any unpaid balance on the contract or purchase order.

By submission of this certificate, Bidder agrees to disclose any reasonably requested information to the Purchasing Division and authorizes the Department of Revenue to disclose to the Director of Purchasing appropriate information verifying that Bidder has paid the required business taxes, provided that such information does not contain the amounts of taxes paid nor any other information deemed by the Tax Commissioner to be confidential.

Under penalty of law for false swearing (West Virginia Code, §61-5-3), Bidder hereby certifies that this certificate is true and accurate in all respects; and that if a contract is issued to Bidder and if anything contained within this certificate changes during the term of the contract, Bidder will notify the Purchasing Division in writing immediately.

## CORPORATE OVERVIEW

TERRADON Corporation offers a multi-faceted approach to design engineering and consulting services. For more than 25 years TERRADON staff has provided a wealth of engineering solutions blanketing the Ohio Valley and the Appalachian Region with successful projects. The company built its reputation on expert personnel and quality, time-sensitive service. Those same founding principles hold true today.

Staff includes engineers, landscape architects, surveyors, planners, environmental scientists, designers, technicians and LEED Accredited Professionals.

The company maintains approximately 50 leading-edge staff in five locations: Nitro/Poca, WV; Lewisburg, WV; Clarksburg, WV; Charlton Heights, WV; and Ripley OH. TERRADON'S departments work cohesively to provide turn-key solutions that strive to exceed client expectations.

## ABOUT TERRADON

The family-owned business has built a strong reputation by providing flexible, cost effective design solutions and maintaining the highest level of customer service. TERRADON is particularly suited to design engineering within the mountainous areas of the Ohio Valley and Appalachian Regions. The firm has been recognized through numerous awards from professional organizations and agencies including the several State Divisions of Highways, Departments of Environmental Protection and the American Institute of Architects state chapters.

TERRADON's corporate culture promotes innovation and progressive thinking. Project leaders strive to sustain customers through a wide-range of engineering offerings. TERRADON employees understand the purpose behind their services and work to cultivate lasting relationships with clients through honest, hard work.

## SERVICE OFFERINGS

- Civil Engineering
- Environmental
- Geotechnical Engineering
- Surveying and Mapping
- Water/Wastewater
- Land Planning and Site Design
- Transportation Engineering
- Structural Engineering

## LANDFILL DESIGN PROJECTS

Tucker County Landfill, Cell 7 Design

Pine Creek Landfill

Tucker County Landfill, Cell 6 Design

- Ham Landfill Expansion Project**  
 TERRADON Corporation provided site characterization, surveying, mapping, subsurface investigation, groundwater study, monitoring, cell design, major modification to permit, and Certificate of Need application for the Ham Sanitary Landfill Expansion Project in Peterstown, WV.
- Jackson County Sanitary Landfill**  
 As part of the WVDEP's Landfill Closure Assistance Program, TERRADON Corporation prepared interim closure plan including stormwater management, leachate management, sediment pond and leachate pond repairs, regarding and re-vegetation of disturbed areas for the Jackson County Sanitary Landfill in Jackson County, WV.
- Pine Creek Landfill**  
 For the WVDEP LCAP, TERRADON Corporation designed the permanent closure plan including an additional landfill cell, stormwater management, capping, leachate management and storage tank, construction QC and certification for the abandoned landfill in Logan County, WV.
- Tucker County Landfill, Cell 5 Design and Certification**  
 For the Tucker County Solid Waste Authority, TERRADON Corporation performed surveying, mapping, subsurface investigation, groundwater study, monitoring, cell design, and construction observation and certification for the extension of Cell 5 at the Tucker County Landfill in Davis, WV.
- Tucker County Landfill, Cell 6 Design**  
 For the Tucker County Solid Waste Authority, TERRADON Corporation performed surveying, mapping, subsurface investigation, groundwater study, construction monitoring and certification, cell design, major modification to permit, and Certificate of Need application for six acre cell at the Tucker County Landfill in Davis, WV.
- Tucker County Landfill, Cell 7 Design**  
 For the Tucker County Solid Waste Authority, TERRADON Corporation performed major modification of permit, geotechnical investigation, new 50-year cell design, and leachate pond closure plan, groundwater statistical report, leachate management, QA/QC services, stormwater ponds, subsurface investigation, and Certificate of Need (CON) application for 20 acre cell (Cell 7) at the Tucker County Landfill in Davis, WV.
- Copper Ridge Landfill**  
 TERRADON provided services to Enviro Solutions for the Cooper Ridge Landfill in Capels, WV. The project had a \$5.6 Million construction cost.
- Wyoming County Sanitary Landfill**  
 TERRADON Corporation provided site characterization; stormwater management; leachate management including storage tank, pump station and force main to POTW; slope stability regarding; and Subtitle D cap for the WVDEP for the Wyoming County Sanitary Landfill.

# GEOTECHNICAL ENGINEERING

TERRADON offers some of the most experienced staff in the region for local geotechnical expertise. This team of experts brings a distinctive, specialized understanding of the difficult soil and groundwater conditions found in the Ohio Valley and Appalachian Regions of the United States.

The Geotechnical group has provided investigations associated with earthen dams, mining, waste disposal, new building construction, landslides analysis and remedial design, cell and high mast towers, landfill permitting and cap design, flexible/rigid pavement design, and environmental remediation.

## SERVICES INCLUDE

- Municipal and Industrial Landfills
- Test Borings
- Test Pit Excavations
- Monitoring Well and Piezometer Installation
- Soil and Rock Logging, Sampling and Testing
- Landslide Analysis and Remedial Design
- Stability Analysis
- Retaining Structure Design
- Earthen Dams
- Foundation Design
- Flexible and Rigid Pavement Design

## GEOTECHNICAL DESIGNS INCLUDE

- Complete Removal for Landslide Repair
- Removal, Stabilization, Replacement
- Buttressing and Regrading
- Subsurface Drainage
- Structural Corrections
- Retaining Walls
- MSE Walls and Other Gravity Walls
- H-Piles and Lagging
- Anchors (Rock or Soil Nailing) In Combination with Above if Applicable

## ENVIRONMENTAL SERVICES

Constantly changing federal and state environmental requirements are difficult to track and can have a serious impact on businesses and other organizations. TERRADON offers a strong environmental services team to manage issues in a complex environment. Staff is well-versed on environmental permitting processes and regulations as well as site assessment and reporting.

TERRADON closely follows environmental activities on the local, state and federal levels. TERRADON has a thorough understanding of state and federal environmental permitting processes and regulations. This expertise applies to both the initial permit preparations, as well as subsequent negotiations affecting the permit. The firm's strength in addressing environmental issues is built on the diversity of its staff with credentials in chemistry, civil engineering, geotechnical engineering and geology.

### SERVICES INCLUDE

- Environmental Site Assessments
  - Phase I ESA
  - Phase II ESA
- Hazardous Waste
- Process Water
- Wastewater
- Storm Water
- Groundwater
- Air Permitting
- Risk Management Plans
- Wetland Delineation
- Tier II Reporting
- Emergency Response Plans
- Environmental Audits
- Environmental Remediation
- NEPA Compliance
- Asbestos and Lead Inspection
- Underground Storage Tanks
- Impoundment Stabilization and Closure
- SPCC Planning
- BMP Planning

# TESTING & INSPECTION

TERRADON offers materials testing and construction monitoring services to document compliance with project design specifications and regulatory requirements. The firm provides construction monitoring for utility, highway, and commercial construction projects. TERRADON also provides laboratory and field testing of construction materials. Engineers and technicians at TERRADON are West Virginia Department of Highways certified in Portland Cement Concrete, Hot-mixed Asphalt, Compaction and Aggregates.

## SERVICES INCLUDE

### Materials Testing & Inspection

- Slump of Portland Cement Concrete (AASHTO-T119)
- Air Content of Freshly Mixed Concrete (AASHTO-T196 and T152)
- Unit Weight and Yield (AASHTO-T121)
- Making and Curing of Concrete Test Specimens (AASHTO-T23)
- Compressive Strength of Concrete Specimens (AASHTO-T22)
- Fine and Course Aggregate Gradations (AASHTO-T11 and T27)
- Specific Gravity of Aggregates (AASHTO-T84 and T85)
- Atterberg Limits (ASSHTO-T89 and T90)
- Moisture Content of Soil (ASTM-D2216)
- Nuclear Compaction Testing of Soil, Stone, and Hot Mixed Asphalt
- Preparation of Certification Forms and Construction Reports
- Welder Certification

### Specialty Testing and Inspection

- Floor Flatness Testing
- Fireproofing
- Masonary Testing
- Structural Steel Inspection
  - Certified Welding Inspection
  - Dye Penetrant Testing
  - Bolt Testing
- Project Safety Monitoring
- FAA Eastern Regional Laboratories List

### Construction Monitoring

- Document compliance with project design specifications
- Ensures compliance with regulatory requirements
- OSHA 10-Hour and 30-Hour Construction Safety & Health Certified

## SURVEYING & MAPPING

TERRADON is well-versed in completing successful transportation survey projects, having provided design and construction survey services for numerous projects during the company's 24-year history. An expert staff of professional surveyors provides mapping, construction layout, ALTA survey, topographic survey, GPS network control surveys for aerial and LiDAR mapping projects, and boundary survey services. Efficient and accurate results are ensured by prioritizing the use of modern technology, including state of the art GPS and robotic total stations, with the latest design software.

TERRADON maintains five full-time Professional Surveyors on staff. The firm services projects through the use of seven in-house field survey crews who are backed by 60 corporate staff members, including an experienced team of CAD designers. TERRADON's transportation survey group is experienced in preparing highway right of way plans, including courthouse research and right of way questionnaires, and writing legal descriptions for right of way take parcels, temporary construction easements and permanent drainage easements.

TERRADON surveyors are currently providing design survey services for several Ohio Department of Transportation (ODOT) projects. Additionally, TERRADON maintains an on-call survey contract with the West Virginia Department of Transportation (WVDOT), where it has provided design and construction surveys for numerous bridges and highway projects. TERRADON has also provided design and/or construction surveys for Virginia Department of Transportation (VDOT) projects.

TERRADON's Professional Surveyors are licensed in Ohio, West Virginia, Kentucky, Virginia, Pennsylvania and Tennessee.

## STAFFING PLAN

TERRADON Corporation maintains sufficient full-time staff in order to complete quality projects in an efficient and timely manner. The company maintains staffing protocols in order to supplement staff should project demands increase. At present time, TERRADON has adequate staff in-house to manage and complete project tasks in relation to this contract.

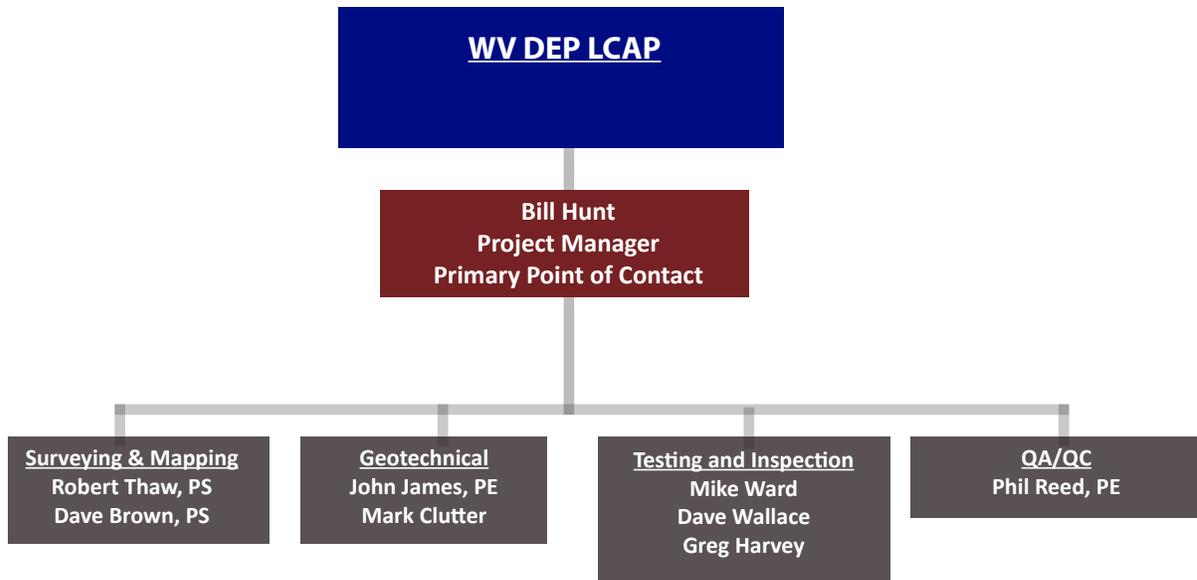

TERRADON engineers have numerous resources within the company to draw on, such as surveying, geotechnical engineering, environmental engineering, landscape architecture, materials testing, and construction monitoring. This allows the project manager to control all phases of the design process, from initial site reconnaissance through construction.

### Key Personnel and Estimated Current Availability

<u>Name</u>	<u>Project Role</u>	<u>Percent Availability 40/Hr Work Week</u>
Bill Hunt, PG, LRS	Project Manager Primary Point of Contact	60
Phil Reed, PE	Project Engineer	60
John James, PE	Project Engineer	60
Robert Thaw	Surveyor	50
Dave Brown	Surveyor	60
Mark Clutter	Geotechnical Designer	60
Chris Morris	Inspector	50
Mike Ward	Inspector	50
Dave Wallace	Inspector	50
Greg Harvey	Inspector	50

### Proposed Roles/Organizational Chart

The following organizational chart lists key personnel and their roles in this project:

## Bill Hunt, PG, LRS

Vice President of Geo-Environmental, Testing & Inspection

Bill Hunt is a Professional Geologist, Licensed Remediation Specialist and Vice President of the Geo-Environmental department at TERRADON Corporation. Hunt offers relevant experience in environmental documentation, investigations, and coordination with federal, state, and local agencies. He prepares Environmental Impact Statements, Environmental Assessments, Section 4(f) Evaluations, and other environmental technical documents. He supervises and participates in work plan development, field surveys, on-site monitoring, data collection, impact analysis, subconsultant management, public meeting organization and group presentations.

### Relevant Project Experience

#### Skinner Landfill -- West Chester, OH

- Work included groundwater sampling and monitoring
- Soil boring inspection, soil logging and sampling

#### CECOS International Landfill -- Williamsburg, OH

- Soil and groundwater sampling
- RCRA Closure sampling of roadway

#### Wright Patterson AFB Former Landfill Closure – Fairborn, OH

- Soil and Leachate Sampling
- Project Health and Safety Plan Preparation
- Project Safety Oversight/Air Monitoring
- Work was conducted using Levels B, C and D personnel protection

#### Shell Methane Recovery System – Rumpke Landfill – Colerain Township, OH

- Supervised drilling program to install methane recovery wells as designed by Shell.

#### Waste Assessment – Rumpke Landfill – Colerain Township, OH

- Design and oversight of program to assess waste limits at two cells at the landfill. Field activities consisted of soil borings and use of ground penetrating radar to determine the horizontal extent of waste burial at two cells of this landfill.

#### Capping of Heavy Metals Contaminated Soils -- Marilla Street Landfill – Buffalo, NY

- Prepared Health and Safety Plan, designed decontamination stations, and conducted perimeter air monitoring during construction (capping) actions.

#### Closure of Coal Tar Landfill – US Steel – Elyria, OH

- Prepared Health and Safety Plan, designed decontamination stations, and conducted air monitoring during construction actions. Also oversaw the excavation, removal, over-packing and disposal of unknown waste drums encountered at the site.

#### Waste Assessment – Charleston Landfill – Charleston, WV

- Design and oversight of program to assess waste limits at two cells at the landfill. Field activities consisted of soil borings and use of ground penetrating radar to determine the horizontal and vertical extent of waste buried at two cells of this landfill.

#### Groundwater Monitoring and Statistical Analysis – Tucker County Landfill – Davis, WV

- Conduct Semi-Annual groundwater monitoring and statistical analysis of groundwater data. Data is analyzed using DumpStat software package. Reporting is provided to WVDEP semi-annually.

#### Greenhouse Gas Emissions – Tucker County Landfill – Davis, WV

- Estimation of greenhouse gas emissions for the facility from 2010 to 2013. Emission estimates were modeled utilizing US EPA Subpart HH estimation equations for Municipal Solid Waste Landfills. Calculated emissions were reported to USEPA through their electronic reporting system (e-GGRT).

### Education

B.S. Environmental Science,  
Morehead State University

M.A. Geography,  
Ohio University

### Work Experience

2010—Present  
TERRADON Corporation  
VP Geo-Environmental

2008—2010  
NGE, LLC  
Environmental Services Manager

2001—2008

Director, Environmental Health  
& Safety

1991-2001  
H.C. Nutting Company  
Environmental Group Leader

1989—1991  
PSARA Technologies  
Environmental Services Division  
Manager

1986—1989  
Westinghouse  
Environmental Scientist

## Mark Clutter

### LANDFILL DESIGN ENGINEER

Mark Clutter is a Project Manager/Design Engineer who is experienced in preparing construction documents and associated permitting for numerous projects throughout Kentucky, Ohio, and West Virginia including: creating erosion and sediment control plans, storm water management, design of impoundment closures, slope stability analysis, field surveying, drawings and specification preparation, design, design drafting, construction inspection, quality control testing, shop drawing review, project management, contract administration, permitting, and report preparation.

Clutter's landfill experience adheres to the WVDEP's Landfill Closure Assistance Program (LCAP) for landfill designs and construction, including all closure-related activities such as: leachate management control, sediment and erosion, natural gas management, groundwater monitoring, and a final cover on non-composite lined landfills.

#### Relevant Project Experience

- **Tucker County Landfill (TCLF), Cell 7 Design**  
For the Tucker County Solid Waste Authority, performed major modification of the permit, geotechnical investigation, new 50-year cell design, and leachate pond closure plan, groundwater statistical report, leachate management, QA/QC services, stormwater ponds, subsurface investigation, and Certificate of Need (CON) application, HELP mode and installation of monitoring wells for a 20 acre cell at the Tucker County Landfill in Davis, WV.
- **Tucker County Landfill Permitting**  
Solid Waste Facility Siting Plan, Certificate of Need, Certificate of Site Approval, Part 1-Site Evaluation Application, Part 2-Design Application, DWWM-Module A-NPDES, Major Modification, Quarterly Report, Annual Report for the Tucker County Landfill.
- **Tucker County Landfill Cells 1-4 Capping**  
The project consists of capping approximately 20 acres of previous landfill cells with a HDPE Liner. The project included the following: preparation of construction drawings, technical specifications, contract and bidding documents, advertisements for bid, design report outlining the calculations to support the design, Erosion and Sediment Control permits, modifications to the NPDES storm water permit, permits to the West Virginia Solid Waste Authority for capping and reuse of methane, air pollution control permits for use of the methane gas emissions, and field services for Quality Control.
- **Tucker County Landfill**  
TERRADON provides quarterly surveying of the current landfill surface and calculation of the quarterly volume and compaction rate; producing semi-annual statistical analysis and reports; creating annual reports that include: construction activities, financials, MSW tonnage, leachate generation, groundwater and discharge monitoring reports, and air-space summaries.
- **Ham Landfill Expansion Project**  
Provided site characterization, surveying, mapping, subsurface investigation, groundwater study, monitoring, cell design, major modification to permit, and Certificate of Need application for the Ham Sanitary Landfill Expansion Project in Peterstown, WV.
- **LCAP EXPERIENCE**  
Provided design and permitting for the following under the WVDEP LCAP Program:
  - Pine Creek/Omar Landfill, 12 Acres HDPE Liner, Pine Creek, Logan County, WV
  - Buckhannon Landfill, 14 Acres Geosynthetic Clay Liner, Buckhannon, WV
  - Don's Disposal, 24 Acres HDPE Liner, near Eden's Fork, Kanawha County, WV
  - McDowell County Landfill, 12 Acres HDPE Liner, near Welch, McDowell County, WV

1990-2003

**John James, PE**  
 Geotechnical Engineer

Mr. James is a Senior Geotechnical Engineer for various environmental, transportation, and mining projects. Mr. James specializes in innovative and cost-saving concepts for his projects.

James' project experience includes: studies and designs for landfills and environmental facilities; surface and ground water studies and remediation; design of liners for landfills and various impoundments; earth and rockfill dams; roads; highways and bridges; numerous foundation investigations; foundation investigations and designs ranging in size from small projects to major industrial complexes; storm drainage facilities; airport facilities; landslide analysis and correction; and forensic engineering.

**Relevant Project Experience**

- **Tucker County Landfill (TCLF)**  
 James has been the lead design engineer/engineer of record for the TCLF for the past 10 years, including responsibility for siting, permitting, design and all other services for the landfill. He has devised many cost-saving solutions and designs, including the incidental mining of previous mined -out coal workings for a cost savings for \$8,000,000 of \$10,000,000 Cell 7 cost.
- **Ham Landfill Expansion Project**  
 Provided site characterization, surveying, mapping, subsurface investigation, groundwater study, monitoring, cell design, major modification to permit, and Certificate of Need application for the Ham Sanitary Landfill Expansion Project in Peterstown, WV.
- **LCAP Experience**  
 Provided design and permitting for the following under the WVDEP LCAP Program:
  - Pine Creek/Omar Landfill, 12 Acres HDPE Liner, Pine Creek, Logan County, WV
- **Dam Experience**  
 James has been Engineer of Record for numerous earth and rock fill dams in West Virginia, and some recent projects include: Mallard Dam (presently in design), 8 acres; Upper Glade Creek Water Supply Dam upgrade (from 95 to 112 acres+/-; Dawson Dam, 30 acres+/-; Lake Chaweva Reconstruction, 24 acres+/-; and Chatham Dam, 65 acres+/- . Also provided consultation and construction design for the United States Army Corps of Engineers for Bluestone Dam.
- **Site Selection Experience**  
 James specializes in site evaluation from geologic and topographic perspectives with an ability to visualize relevant features of both geotechnical and topographical, including literature research and site reconnaissance, for specific project needs.
- **Transportation Experience**  
 Worked on numerous roadway (cut and fill slopes) designs, landslide evaluation and remediation, site designs for numerous projects and foundation investigations for approximately 1,000 projects in West Virginia and the surrounding states.
- **Landslide Experience**  
 Worked on numerous landslides of all sizes and complexity in West Virginia.
- **Foundation Investigation and Design**  
 Performed foundation investigation services for more than 1,000 projects in West Virginia, from small residential sites to major industrial projects (valued at up to \$2 B) including complicated foundation designs.
- **Retaining Walls**  
 Designed numerous retaining structures including simple gravity concrete and MSU walls, cantilever walls and complicated sheet piling or H pile and lagging walls.

**Education**

B.S., Civil Engineering,  
 West Virginia Institute of  
 Technology

## Philip Reed, PE

Lewisburg Office Director, Civil Engineer

Philip Reed serves as TERRADON'S Lewisburg, WV Office Director and provides services to clients for Engineering Design, Quality Control and Materials Testing. Reed provides technical direction on a variety of civil engineering markets including landfills, commercial and industrial developments, housing, energy and infrastructure. Reed is responsible for engineering analysis and modeling, design, regulatory compliance and permitting, in addition to quality control and assurance. He has more than 20 years of experience in landfill design and construction.

### Relevant Project Experience

- **HAM Sanitary Landfill**  
Responsible for all aspects of solid waste landfill permitting (H.A.M. Sanitary Landfill, Inc.), including: Certificate of Site Approval through local county Solid Waste Authority; Certificate of Need through Public Service Commission; Part 1 Solid Waste Facility Permit to include geologic and hydrologic evaluation of site; Part 2 Solid Waste Facility Design Application to include site design, leachate modeling, and composite liner design; and solid waste cell construction drawings, Construction Specifications, and Construction Quality Assurance / Quality Control Plan. Also responsible for all aspects of Construction Monitoring, including: monitoring of construction of both municipal solid waste disposal cells and Construction/demolition and asbestos disposal cells; responsible for construction stakeout and monitoring of construction, and Final Certification of construction.
- **Triana Energy Fresh Water Impoundment**  
Responsible for site design, construction certification, and bi-weekly inspections for 15 acre-feet freshwater impoundment in Northern, WV. Responsible for oversight of construction monitoring inspectors, reporting and permit compliance.
- **Summit Bechtel Reserve**  
Provided Engineering Support for a 12,000-acre site development in Fayette County, WV. Oversaw site layout, grading, and survey support for one of the largest infrastructure projects in West Virginia. Oversaw all QC services and provided project direction of 20 inspectors and technicians during installation of more than 100 miles of utilities and nearly 50 miles of roadway construction. Additional inspection and monitoring activities included vertical construction of three buildings and an iconic wingtip pedestrian bridge.
- **Gordy Oil**  
Provided survey and design for 5 natural gas pads and support for freshwater impoundments.
- **Environmental Permitting**  
Managed environmental permitting of rock quarries (RBS Inc., ALTA Sand Quarry, and Muddy Creek Mountain Stone) to include air pollution control permits and water quality permits.
- **Sporting Club, Creekside Apartments**  
Responsible for surface drainage remediation and rehab for the Sporting Club, Creekside Apartments, White Sulphur Springs, WV.
- **West Virginia School of Osteopathic Medicine**  
Evaluated the stormwater system and designed a sink hole underground injection system for the WVSOM in Lewisburg, WV.
- **Greenbrier Valley Medical Center**  
Evaluated the stormwater system and designed a sink hole underground injection system for the medical center in Ronceverte, WV.
- **City of Alderson**  
Evaluated drainage issues and made remediation recommendations for the City of Alderson, WV.

### Education

B.S. Civil Engineering Virginia Polytechnic Institute and State University

### Affiliations

- 2005 – Present  
TERRADON Corporation
- 1999 – 2005  
Engineering & Testing 2000, Inc.
- 1991 – 1997  
Brackenrich & Associates, Inc.
- 1990 – 1991  
Cornerstone Land Surveying
- 1988 – 1990  
Norfolk Southern Railway

### Affiliations

Professional Engineer:  
West Virginia, Virginia

American Concrete Institute

### Certifications

- WVDOH Certified Portland Cement Concrete Technician
- WVDOH Certified Compaction Technician

**Robert Thaw, PS**

Vice President - Survey and Mapping

With more than 30 years of experience in a wide range of surveying projects, Robert Thaw serves as head of TERRADON's Survey and Mapping department. He organizes and supervises survey crews, reviews project plans and creates base mapping for various projects including: landfills, noise barriers, interchanges, connectors, bypasses, sidewalks, bike paths and bridges.

Thaw oversees all TERRADON survey activities, including: preparation of Right-Of-Way plans; the development of GPS static networks for aerial mapping in the design of roadways; identification of existing utilities and property lines; base image development and control placement for construction projects; and drafting of legal descriptions for ROW parcels.

Thaw has been directly responsible for survey and mapping services on a number of landfill projects including:

- **Nitro Landfill Topographic Survey**  
Surveyed the boundary of the former Landfill for future cap and development. Performed topographic survey of the site , prepared project mapping.
- **Tucker County Landfill**  
Established survey control for the landfill. Created topographic surveys on a quarterly basis to be used for volume reporting.
- **Charleston Landfill**  
Performed topographic surveys, and located bore hole locations
- **Charleston Landfill for Geotechnical Studies**  
Conducted a feasibility study for Leachate tank siting. Performed topographic surveys of proposed leachate tank sites to be used in the feasibility study.
- **Nicholas County Landfill Design**  
Provided survey services to establish control for the landfill. Created topographic surveys for design studies.
- **AEP – John Amos Power plant industrial Landfill - Client, Shelly and Sands, Inc.**  
Established survey control, performed topographic surveys used for access road design, Completed construction staking for access road, and excavation, provided daily volume reports.

**Education**

Professional Surveyor,  
West Virginia

## Chris Morris

Senior Inspector

Chris Morris is a Senior Inspector for TERRADON Corporation. He is responsible for quality control testing and inspection for WVDOH, commercial, and residential construction projects throughout West Virginia. He interfaces with site owners (public and private) and contractors to complete testing and inspection projects.

Morris is responsible for monitoring contractor's work for conformance to the design plans, specifications and general permit requirements; experience tracking daily quantities, completing daily inspection reports, reviewing payment requisitions and maintaining field sketchbooks and as-built drawings.

Morris holds the following registrations:

- WVDOH Compaction Inspection
- WVDOH Portland Cement/Concrete
- WVDOH Asphalt Plant Technician
- WVDOH Asphalt Field Technician Compaction
- WVDOH Aggregate Inspector
- Nuclear Radiation Safety Officer
- FAA Eastern Regional Laboratories List
- PTI—Post-Tensioning Institute Level #2
- OSHA 10-Hour Construction Safety and Health

Morris has completed Testing and Inspection Services on the following notable projects:

- Mingo County Airport—Williamson, WV - Primary QA Technician
- Western Regional Jail—Barboursville, WV - Owners QA Technician of Auger Cast Pile Installation
- AEP John Amos Plant—Winfield, WV - QA/QC mass concrete pours for large mat foundations and contractor's QC of controlled fill and various concrete placement.
- AEP Glen Lynn Power Plant, Glen Lynn, VA - Observation and Density Control
- Charleston Landfill—Charleston, WV - Observation and Density Control
- Raleigh Memorial Airport—Beckley, WV - Observation and Density Control
- Winfield Locks and Dam—Winfield, WV - Observation and Density Control
- Blennerhassett Bridge—Parkersburg, WV - QA/QC for all facets of construction of new bridge
- AEP Kyger Creek Power Plant—Cheshire, OH - Observation and Density Control

## Dave Wallace

Senior Inspector

Dave Wallace is a West Virginia Certified Compaction Inspector who is responsible for quality control testing and inspection for WVDOT, commercial, and residential construction concerns. He is the interface with site owners (public and private) and contractors to complete high quality projects. He works independently at sites throughout West Virginia and maintains appropriate documentation.

### Relevant Project Experience

- Southridge Industrial Park
- Garden Ground Materials Testing and Construction Monitoring
- Office of Surface Mining Compaction Testing
- State Route 34 Widening
- US Route 35 - Interstate 64 Interchange
- US Route 35 - New Construction of approximately 1.5 miles of road
- WVDOH District 3 (Parkersburg) - Consultant for Materials Inspection
- WV Corridor D (four sections)
- Stollings-Logan Road
- Merritts Creek Connector
- Witcher Creek
- Ripley Bridge
- Williamstown Welcome Center
- Route 60, S. Charleston
- Robinson Run Bridge
- Crab Creek Bridge
- I-64 Sign Renovation
- 1-77 Sign Renovation
- Clay County Salt Shed
- Levee Renovation
- Scott Lane

### Work Experience

2001 - Present  
TERRADON Corporation

1998-2001  
Compro Systems

1995-1997  
Sherman International

Greg Harvey

Construction Inspection/Monitoring

### Relevant Project Experience

- **S&S Landfill, Clarksburg WV (now owned by Waste Management)**  
QA/QC and Inspection which included but was not limited to; Earthwork, Drainage, Concrete and HDPE Liner. The various projects included 3 new MSW cells and one cell that was tied into an existing cell. Total cost was approximately 9 million dollars.
- **Nicholas County Landfill, Craigsville WV**  
Environmental Study for WV LCAP Program which included but was not limited to; Field work and Final report preparation.
- **Fayette County Landfill Closure, Cunard WV**  
Design, QA/QC and Inspection which included but was not limited to; Earthwork, Drainage, Concrete and HDPE Liner. The Project was a landfill closure under WVLCAP program.
- **McDowell County Landfill Closure**  
Project Management/ Construction Management, Design, QA/QC and Inspection which included but was not limited to; Earthwork, Drainage, Concrete and HDPE Liner. The Project was a landfill closure under WVLCAP program.
- **Union Carbide/ Dow Chemical Environmental Remediation Project**  
Construction management of a \$40 Million remediation project which involved the removal of phenol and monochloric benzene from a stream and the construction of 4 hazardous landfills and stream bank stabilization. Coordinated with the US EPA, Ohio EPA and the plants industrial neighbors.

# CERTIFICATES OF AUTHORIZATION

TERRADON CORPORATION is a certified Women's Business Enterprise as defined by the Women's Business Enterprise National Council.

TERRADON is the largest woman-owned engineering firm in West Virginia and is controlled by Virginia King, who provides more than 32 years of administrative experience to the company.

# TERRADON CORPORATION

## CORPORATE CULTURE

TERRADON Corporation offers a multi-faceted approach to design engineering and consulting services. For the past 25 years TERRADON staff has provided a wealth of engineering solutions blanketing the Appalachian and Mid-Atlantic region with successful projects. The company built its reputation on expert personnel and quality, time-sensitive service. Those same founding principles hold true today.

The second-generation, family-owned business has built a strong reputation by providing flexible, cost effective design solutions and maintaining the highest level of customer service. The firm has been recognized through numerous awards from professional organizations and agencies including the American Society of Civil Engineers, State Highway Departments, the Department of Environmental Protection and the American Institute of Architects.

TERRADON's corporate culture promotes innovation and progressive thinking. Project leaders strive to sustain customers through a wide-range of engineering offerings. TERRADON employees understand the purpose behind their services and work to cultivate lasting relationships with clients through honest, hard work.

19. Use this space to provide any additional information or description of resources supporting your firm's qualifications to perform work for the WV Department of Environmental Protection.

TERRADON CORPORATION is well qualified to provide all of the services as described in the Scope of Services of the Request for Qualifications to include: site investigation of existing features, surveying and mapping, laboratory analysis of soil and water, subsurface investigations to determine location as well as limits and depths of waste, location of potential borrow areas either on-site or nearby, engineering and design of the capping system to be installed including grading plans and cross sections of the cap system, leachate collection and storage systems, sediment and erosion control plans including required ponds, preparation of construction contract drawings and specifications suitable for letting of construction bids and all applicable permitting. TERRADON's professional staff and previous experience with the WVDEP LCAP program and other municipal/industrial waste landfills will allow us to provide you with a quality project in a timely manner.

20. The foregoing is a statement of facts

## **ATTACHMENT 12.A PERSONNEL**

TERRADON CORPORATION is well qualified to provide all of the services as described in the Scope of Services of the Request for Qualifications to include: site investigation of existing features, surveying and mapping, laboratory analysis of soil and water, subsurface investigations to determine location as well as limits and depths of waste, location of potential borrow areas either on-site or nearby, engineering and design of the capping system to be installed including grading plans and cross sections of the cap system, leachate collection and storage systems, sediment and erosion control plans including required ponds, preparation of construction contract drawings and specifications suitable for letting of construction bids and all applicable permitting. TERRADON's professional staff and previous experience with the WVDEP LCAP program and other municipal/industrial waste landfills will allow us to provide you with a quality project in a timely manner.

### **Tucker County Landfill, Cells 5-7 (Ongoing)**

For the Tucker County Solid Waste Authority, TERRADON Corporation performed surveying, mapping, subsurface investigation, groundwater study, construction monitoring, cell design, and construction observation and certification for the extension of Cell 5 at the Tucker County Landfill in Davis, WV.

For Cell 6, TERRADON performed surveying, mapping, subsurface investigation, groundwater study, construction monitoring and certification, cell design, major permit modification, and Certificate of Need application for a six acre cell at the Tucker County Landfill in Davis, WV.

Cell 7, for the Tucker County Solid Waste Authority, performed major modification of the permit, geotechnical investigation, new 50-year cell design, and leachate pond closure plan, groundwater statistical report, leachate management, QA/QC services, stormwater ponds, subsurface investigation, and Certificate of Need (CON) application, HELP mode and installation of monitoring wells for a 20 acre cell at the Tucker County Landfill in Davis, WV.

TERRADON provides quarterly surveying of the current landfill surface and calculation of the quarterly volume and compaction rate; producing semi-annual statistical analysis and reports; creating annual reports that include: construction activities, financials, MSW tonnage, leachate generation, groundwater and discharge monitoring reports, and air-space summaries.

Tucker County Landfill Permitting Included: Solid Waste Facility Siting Plan, Certificate of Need, Certificate of Site Approval, Part 1-Site Evaluation Application, Part 2-Design Application, DWWM-Module A-NPDES, Major Modification, Quarterly Report, Annual Report for the Tucker County Landfill.

### **Tucker County Landfill Cells 1-4 Capping**

The project consisted of capping approximately 20 acres of previous landfill cells with a HDPE Liner. The project included the following: preparation of construction drawings, technical specifications, contract and bidding documents, advertisements for bid, design report outlining the calculations to support the design, Erosion and Sediment Control permits, modifications to the NPDES storm water permit, permits to the West Virginia Solid Waste Authority for capping and reuse of methane, air pollution control permits for use of the methane gas emissions, and field services for Quality Control.

### **Ham Landfill Expansion Project (Ongoing)**

TERRADON Corporation provided site characterization, surveying, mapping, subsurface investigation, groundwater study, monitoring, cell design, major modification to permit, and Certificate of Need application for the Ham Sanitary Landfill Expansion Project in Peterstown, WV.

### **Jackson County Sanitary Landfill**

As part of the WVDEP's Landfill Closure Assistance Program (WVDEP LCAP), TERRADON Corporation prepared an interim closure plan including stormwater management, leachate management, sediment pond and leachate pond repairs and re-vegetation of disturbed areas for the Jackson County Sanitary Landfill in Jackson County, WV.

### **Pine Creek Landfill**

For the WVDEP LCAP, TERRADON Corporation designed the permanent closure plan including an additional landfill cell, stormwater management, capping, leachate management and storage tank, construction QC and certification for the abandoned landfill in Logan County, WV.

### **Wyoming County Sanitary Landfill**

TERRADON Corporation provided site characterization; stormwater management and leachate management design including storage tank, pump station and force main to POTW; slope stability; and Subtitle D Cap for the WVDEP for the Wyoming County Sanitary Landfill.

## **ATTACHMENT 12.B ASSESMENT AND EVALUATION**

TERRADON was retained by the WVDEP to complete a site characterization of the Pinecreek/Omar Landfill. The site characterization included surveying, subsurface investigation including auger and rock core borings, leachate and surface water sampling, groundwater user

survey including sampling of water wells, review of historical records, site reconnaissance, assessment of the sites' compliance with the Solid Waste Management Rules, and development of a conceptual closure plan. See Attachment 12.A for more project examples.

## **ATTACHMENT 12.C CONSTRUCTION INSPECTION**

TERRADON is experienced in landfill closure construction inspection. TERRADON's construction monitoring and QA/QC services include final certifications of the construction. TERRADON will prepare construction reports to including test data, daily field activity logs, and as-built record drawings along with the certification.

## **ATTACHMENT 12.D CONTOUR MAPPING**

TERRADON's is experienced in aerial photography and development of contour mapping. TERRADON has the equipment and staff to produce contour mapping. TERRADON has been directly responsible for survey and mapping services on a number of landfill projects. See Attachment 12.A for project examples and additional landfill projects listed below.

### **Nitro Landfill Topographic Survey**

Surveyed the boundary of the former landfill for future cap and development. Performed topographic survey of the site, prepared project mapping.

### **Tucker County Landfill**

Established survey control for the landfill. Created topographic surveys on a quarterly basis to be used for volume reporting.

### **Charleston Landfill**

Performed topographic surveys, and located bore hole locations.

### **Charleston Landfill for Geotechnical Studies**

Conducted a feasibility study for Leachate tank siting. Performed topographic surveys of proposed leachate tank sites to be used in the feasibility study.

**AEP -John Amos Power Plant Industrial Landfill -Client, Shelly and Sands, Inc.**

Established survey control, performed topographic surveys used for access road design, Completed construction staking for access road, and excavation, provided daily volume reports.

**ATTACHMENT 12.E GROUNDWATER**

TERRADON is experienced in evaluating groundwater contamination associated with landfills. TERRADON has qualified and experienced staff to handle the evaluation of groundwater contamination. We complete semi-annual groundwater monitoring at Tucker County Landfill along with statistical analysis and reporting of results to WVDEP. TERRADON routinely samples groundwater monitoring wells on several industrial, voluntary remediation, and landfill sites in West Virginia. See Attachment 12.A for more project examples.

**ATTACHMENT 12.F COST ESTIMATING**

TERRADON is experienced in landfill closure cost estimating. TERRADON has prepared engineers construction cost estimates for numerous landfill projects to include Closure/Post Closure Costs. See Attachment 12.A for project examples.
