Load it up. Work it hard. Take it E A S Y.

Our new Massey Ferguson® 4600 Series makes loader and hay work easier than ever.

Our 4600 Series provides exactly what livestock farmers have been asking for: an affordable utility tractor that's powerful, versatile and comfortable. At its core is a new hydraulic power shuttle transmission. During loader work, it lets you go from forward to reverse and back again without clutching – saving constant stress and strain so you can be more productive. Each model is also Tier 4i compliant: Using electronic engine management, our 3-cylinder engine is both powerful and fuel efficient, without the need for regenerating particulate filters.

An all new 3-cylinder AGCO POWER™ engine, designed and built for the 4600 Series, offers more power with greater efficiency.

The power shuttle control lever is conveniently located to the left of the steering wheel for easy reach and operation.
