**3.4 Sampling and Testing:**

Sampling and testing for quality of all items furnished in this contract will be the responsibility of the WVDOH. Minimum frequency of sampling and testing for quality on all materials (other than those sources already covered by the WVDOH's "commercial source" approval) will be at least one sample every six days of shipment (or if tested during production, at least one sample every six days of production).

Other minimum frequencies shall be in accordance with the following:

<u>Property</u>	<u>Frequency</u>
Gradation - Delivered Material	One sample per each day of shipment or if tested during production, one sample per each day of production. See Note 1 below.
Gradation - WVDOH Pick-up	(A-1 Source) One sample per each week of shipment per MP 700.00.52; or if tested during production, one sample per each day of production. See Note 1 below. (A-2 Source) One sample per 250 tons shipped and a minimum of one per week shipment.
Moisture Content	See Note 2 below.

All samples taken by the Vendor shall be by a Certified Aggregate Sampler or Certified Aggregate Inspector. Tests shall be performed by a Certified Aggregate Inspector.

NOTE 1: The Vendor will be responsible for providing test results attesting to the gradation of materials delivered. Gradation results from the production source will be acceptable.

NOTE 2: In the event visual inspection of the aggregate indicates excess or unusual moisture beyond what is normally expected in the aggregate, the WVDOH reserves the right to determine the moisture content by standard methods. If this becomes necessary, the net weight of the portion represented will be adjusted utilizing the test results obtained by the WVDOH in accordance with MP 700.00.22. Items OA, OB, PA and PB (Abrasives) will be considered fine aggregate outlined in MP 700.00.22.

REQUEST FOR QUOTATION  
**Stone, Aggregate and Cinders – Materials and Delivery by Vendor Only**

---

**3.5 Acceptance Plan:**

Material failing to comply with the quality requirements will not be accepted. Acceptance for gradation shall be on the basis of test results, provided and certified by the Vendor to be true test results and representative of the material supplied to the WVDOH, on consecutive random samples from a lot. A lot shall consist of a quantity of material represented by an average value (not to exceed 5 sub-lots). A sub-lot shall consist of the quantity of material represented by a single gradation test. In the case where only one sample is taken to represent the total quantity, the sub-lot and lot will be considered the same. Frequency of sampling and testing shall be in accordance with the Vendor's quality control plan outlined in MP 700.00.51. The Vendor shall provide the gradation test results to the WVDOH within 72 hours.

Gradation test results shall be averaged in accordance with MP 300.00.51. When the average falls outside the applicable limits, the lot of material represented thereby will be considered non-conforming to the extent that the last of its sub-lots is non-conforming. When a lot of material is nonconforming, then the last sub-lot contained therein shall have its degree of non-conformance determined as set forth below.

When a sub-lot of material is to have its price adjusted, the percentage point difference between the non-conforming test value and the specification limit shall be determined for each sieve size determined to be non-conforming, and this value shall be multiplied by its appropriate multiplication factor as set forth in Table 1.

TABLE 1

NONCONFORMING SIEVE SIZE	MULTIPLICATION FACTOR
Plus No. 40	1
No. 40	1.5
No. 50	1.5
No. 100	2.0
	(1.3 for abrasives and cinders)
No. 20	2.5
1/2"	1
3/8"	1

The total measure of non-conformance of an individual sub-lot is the sum of all non-conformances on the various sieve sizes of that sub-lot. In no case, however, shall a sub-lot of material have its price adjusted more than once, and the first adjustment which is determined shall apply.

**REQUEST FOR QUOTATION**  
**Stone, Aggregate and Cinders – Materials and Delivery by Vendor Only**

---

When the total degree of non-conformance has been established and it is 12 or less, the material will be paid for at an adjusted contract price as specified in Table 2.

<u>DEGREE OF NON-CONFORMANCE</u>	<u>PERCENT OF CONTRACT PRICE TO BE REDUCED</u>
1.0 TO 3.0	2
3.1 TO 5.0	4
5.1 TO 8.0	7
8.1 TO 12.0	11
Greater than 12	*

\*The WVDOH will make a special evaluation of the material and determine the appropriate action.

In the event a Vendor delivers a specific quantity of material from a stockpile, and said quantity is less than the total quantity contained in the stockpile and it has been determined from his certified test data that a non-conforming sub-lot(s) is contained in said stockpile, the price reduction shall be calculated for the specific quantity as follows:

The percent price reduction shall be determined as set forth above for the non-conforming sub-lot. The quantity represented by the non-conforming sub-lot shall then be calculated as a percent of the total (total material contained in the stockpile). To determine the price reduction on the specific quantity delivered, multiply the percent of non-conforming material contained in the stockpile by the quantity delivered, and reduce this quantity by the percent price reduction as determined.

Example: If it has been determined that a stockpile of 100 tons contains 10 percent failing material, and said material is to have its price reduced by 4 percent, then the actual quantity delivered, say 15 tons, will be multiplied by 0.10 (10 percent failing material) which equals 1.5 tons. These 1.5 tons will thus have its price reduced by 4 percent. The remaining 13.5 tons will be paid for at full contract price.

$$TD \left( 1 - \frac{PQn}{100Qt} \right) = AP \text{ (price to be paid after adjustment)}$$

WHERE T = tonnage delivered  
P = percent price reduction

REQUEST FOR QUOTATION  
Stone, Aggregate and Cinders – Materials and Delivery by Vendor Only

---

D = cost per ton  
Q<sub>n</sub> = quantity of non-conforming sub-lot(s)  
Q<sub>t</sub> = quantity of total stockpile

If two sub-lots are non-conforming within the stockpile, calculate each separately for the adjusted payment on the quantity delivered (as above). Add these two adjusted payments together and subtract from the total the price to be paid before adjustment for tonnage delivered (TD). If three sub-lots are non-conforming, calculate each separately and subtract twice the price to be paid before adjustment for tonnage delivered, and so on. Example:

(AP1 + AP2) – TD = Final price to be paid after adjustments

OR

(AP1 + AP2 + AP3) – 2 TD = Final price to be paid after adjustments

WHERE: AP = price to be paid after initial adjustment for one non-conforming sub-lot determined by the above equation.  
T = tonnage delivered  
D = cost per ton

In the event material is delivered from a continuous stockpile, that is, a stockpile which is continuously being replenished while also having material removed for these applications, certification shall be based on the shipment samples.

**3.6 Weighing Materials Delivered by Modes  
Of Transportation Other than Trucks:**

Materials delivered to the designated site by barge, or other non-truck modes shall have their weight determined by a means acceptable to the WVDOH, and the weights of materials so shipped shall be certified, by the Vendor or his authorized agent, to be correct.

The minimum barge delivery requested will be approximately 6,500 tons per the order. When barge delivery is required Contract Items will be ordered in 1500 ton increments.

**3.7 Bid Instructions:**

Vendors **shall** complete the Information Attachment form by providing the Vendor's Source Information. Vendors **may** bid any or all items on the Pricing Pages.

REQUEST FOR QUOTATION  
Stone, Aggregate and Cinders – Materials and Delivery by Vendor Only

---

**3.7.1** Information Attachment form Vendor's Source Information:

The Vendor **shall** provide the information requested for Limestone, Sandstone, Gravel, Sand, Blast Furnace Slag and Steel Slag as:

- a) Source of Material
- b) Exact Location of Vendor's Storage Site(s).

The Vendor **shall** provide the information requested for Cinders:

- c) Source of Material
- d) Exact Location of Vendor's Storage Site(s), **only if** the Vendor is providing Cinders to the WVDOH on this contract.

Failure to provide the required information **shall** disqualify this Storage Site(s) as a source for the items being bid.

**3.7.2** The Pricing Page shall be F.O.B. Division's established District Storage Site(s), Applicable Contract Items A-W and AA per District, per location.

**A Vendor may submit more than one Vendor's Storage Sites information on one Information Attachment form ONLY if bid pricing is the SAME for all Storage Sites and all WVDOH locations bid. A separate bid submission and Information Attachment form MUST be submitted when bid price varies between Vendor's Storage Sites.**

Vendor's bid will be **disqualified** if both documents are not submitted with their bid packet.

**4. CONTRACT AWARD:**

- 4.1 Contract Award:** The Contract is intended to provide Agencies with a purchase price on all Contract Items. Qualified vendors will be awarded a Contract on Pricing Page F.O.B. Division's established Storage Site to determine a unit price for those locations and items for which their bid is low based on cost, per cubic yard.

Bids submitted will be evaluated by the WVDOH on the basis of cost per cubic yard F.O.B. Division's established Storage Site. Cost per cubic yard will be determined by multiplying the Vendor's per ton bid price in dollars by a "Tons per Cubic Yard Factor" which is listed in the following table:

- 4.3 Contract award transition:** Upon the award of this contract, whether the effective date or the completed and encumbered date or an established date by the WVDOH, the WVDOH Maintenance Division will announce the effective date of use of this contract to the Districts and the Vendors. Upon the announced effective date of use by the WVDOH Maintenance Division to the Districts and Vendors, any Delivery Order issued toward the 2015 Spring/Summer Contracts shall remain in effect and should not be cancelled until that Delivery Order is filled; however, after ten (10) working days of the Districts' and Vendors' notice, any Delivery Order that has not been completely filled by the Vendors from the 2015 Spring/Summer Contracts shall NOT be completed, but a cancellation notice will be sent to that Vendor from the issuing District for cancellation of the balance of that Delivery Order only. No Delivery Order from the 2015 Spring/Summer Contracts should be held open by the District or the Vendor longer ten (10) working days after the notice to the Districts and the Vendors of the effective date of use of the new contracts.

This directive is issued to assist the Districts and the Vendors when fulfilling open Delivery Orders only. It is NOT issued to cause harm or to take contracts from one Vendor to give to another Vendor, but to establish a transition process from one contract into another contract.
