Question:

I am contacting you concerning a quote that I am working on. I am looking at your Solicitation No. CRFQ 0803 DOT 1600000056 for Precast Concrete Trench Drains with Grates. I am having trouble locating the specified material for the grates. None of my suppliers are familiar with the Type 1 (bicycle proof) spec. There are many types of grating material available but most are identified by the number of bars and spacing. Can you give me any more information on this?

Answer:

The grate needs to be constructed using a Type 1 grate pattern. A section of the pattern to be used in construction of the trench grates is included in this addendum as Exhibit 1. The Type 1 section has been circled and labeled on the attachment.
