**PURCHASING AFFIDAVIT**

**MANDATE:** Under W. Va. Code §5A-3-10a, no contract or renewal of any contract may be awarded by the state or any of its political subdivisions to any vendor or prospective vendor when the vendor or prospective vendor or a related party to the vendor or prospective vendor is a debtor and: (1) the debt owed is an amount greater than one thousand dollars in the aggregate; or (2) the debtor is in employer default.

**EXCEPTION:** The prohibition listed above does not apply where a vendor has contested any tax administered pursuant to chapter eleven of the W. Va. "Related party" means a party, whether an individual, corporation, partnership, association, limited liability company or any other form or business association or other entity whatsoever, related to any vendor by blood, marriage, ownership or contract through which the party has a relationship of ownership or other interest with the vendor so that the party will actually or by effect receive or control a portion of the benefit, profit or other consideration from performance of a vendor contract with the party receiving an amount that meets or exceed five percent of the total contract amount.

**AFFIRMATION:** By signing this form, the vendor's authorized signer affirms and acknowledges under penalty of law for false swearing (W. Va. Code §61-5-3) that neither vendor nor any related party owe a debt as defined above and that neither vendor nor any related party are in employer default as defined above, unless the debt or employer default is permitted under the exception above.

Vendor Technical Questions

1. Q. In regards to bid item #1, "Replace 5,000 crossties between MP 12-22 (This includes tamping of this area)" Is tamping to include regulating and brooming, complete surfacing or just tamping the ties tight?
  - A. *During installation, ties will be installed firmly against the rail without humping. As long they are firm no tamping will be required during change out. Tamping will then be completed as production tamping once the change out is complete. Production tamping includes regulating and brooming.*
  
2. Q. What is the train speed in the work area?
  - A. *Train speed is between 15 – 20 mph through the work area*
  
3. Q. Please confirm we are providing additional spikes per plate in curves?
  - A. *Vendor is responsible for all spikes*
  
4. Q. Could you please tell us where we can get the prevailing wage rates for the project? Please include specific instructions for the website.
  - A. *This item is addressed in the CRFQ item 20 -- page 16 (General Terms & Conditions) --*
  
5. Q. It is not clear how to submit our bid using wvOASIS. Could you please provide instructions?
  - A. *Vendors can still mail their bids to: Department of Administration, Purchasing Division, 2019 Washington Street East, Charleston, WV 25305-0130. For questions specific to OASIS vendors should call the wvOASIS help desk at 304-558-6708*
  
6. Q. Should we include sales tax in our quote?
  - A. *This item is addressed in the CRFQ item 15 page 16. (General Terms & Conditions)*
  
7. Q. Are all steel products to be domestic?
  - A. *Yes -- CRFQ item 42 page 21 (General Terms & Conditions)*

8. Q. Could you please identify the locations for spot tamping? Please include lengths at each location.

A. *Conditions may change prior to the start of the contract so spot tamping locations may vary. The SBVR will work with the contractor to hit spot tamping locations as they are transporting between production tamping locations so the equipment will continue in the same direction and not jump back and forth over numerous miles of track.*

9. Q. Are there any turnouts being surfaced? If so, how many, what size and where are the locations?

A. *Yes there are five (5) turnouts between MP 12 – 22.*

*MP 14.2 - #10, MP 14.8 - #10, MP 14.9 - #10, MP 16.8 - #8 & MP 16.9 - #8*

*There are 15 turnouts between MP 39 – 52 (one less than listed in original CRFQ)*

*MP 39.2 - #10, MP 41.0 - #8, MP 41.2 - #10, MP 41.7 - #10, MP 46.2 - #8, MP 46.4 - #8, MP 51.1 - #10, MP 51.1 - #10, MP 51.3 - #10, MP 51.4 - #6, MP 51.4 - #8, MP 51.5 - #10, MP 51.7 - #10, MP 51.75 - #8 & MP 51.9 - #8*

10. Q. Could you please explain in detail what the track time will be? Could you include, train schedule Monday through Thursday and Friday through Sunday, Spring, Summer and Fall with MP locations and times?

A. *Freight trains normally run once per day Monday – Thursday. Because of the location of the project this should result in an average of no more than 1 hour a day disruption. The excursion train will start May 21 and runs on Saturdays with a 1:00 pm departure running from Romney to Moorefield (MP 14.5 – 32.0) and back. Exception is the last Saturday of every month with a 10:00 am departure running from Romney to Petersburg (MP 14.5 – 51.2) and back. Excursion train has 1:00 pm departure running from Romney to Moorefield (MP 14.5 – 32.0) and back on the following Sundays: June 5, June 26, August 28, September 18 and September 25. 11. Q. Please confirm the Railroad will provide a flagman at no cost to contractor.

A. *Yes – SBVR Employee will provide protection and be with the contractor or the track will be taken out of service. The SBVR will assure vendor has proper protection at no cost to the vendor.*

12. Q. Please explain what the contractor is responsible for in regards to the signals?

A. *The contractor will be responsible to coordinate the tamping schedule with the SBVR shop so the shop can mark the signal wires in the field ahead of the tamping. In the event*

*the contractor damages a crossing wire, they are responsible for immediate repair. If they are unable to perform the required repairs, the SBVR shop will repair and the contractor will reimburse the SBVR for material and labor costs.*

  - A. *SBVR will mark all the ties to be changed*
  
15. **Q.** During the last contract which I just completed in August -2015 Section 3.1.5 "Tamping" was deleted due to the fact the area where the ties are being changed will be tamped with a production tamper once the change out is complete. **(Q)** will this section be deleted, or will the contractor need to mobilize 2 additional operators and 2 additional pieces of equipment to meet the requirements?
  - A. *See answer to question #1*
  
16. **Q.** Section 3.1.6.1 states that private crossings will be tamped through. **(Q)** Who is to remove the crossing materials and reinstall.
  - A. *SBVR will remove crossing materials and reinstall crossings*
  
  - Q.** If it is the contractor's responsibility please supply a list containing all the crossings and what type of materials need removed and reinstalled.
