WV State Purchasing
Charles Barnette
2019 Washington St. E
Charleston, WV 25305

Enclosed is our bid for the statewide copier contract (SWC17*8 / DIGCOP17). We have provided systems that meet or exceed all requested in the CRFQ. As you know Komax has provided great service to all of the state agencies over the last 12 years, and we are looking forward to the chance to be awarded the next contract.

We accept all of the term and conditions stated in the CRFQ without exception. We don't require any leases or maintenance agreements to be signed by the agencies. We just use the WV-39 or ADO as the only documentation needed. Therefore we did not include any documentation for your review for lease or MA forms.

All of our employees that will be on state grounds, either have been through a background check already or will submit for one upon request.

Please let me know if you have any questions about our bid.

Sincerely,

David Humphrey

VENDOR PREFERENCE CERTIFICATE

Certification and application is hereby made for Preference in accordance with ***West Virginia Code***, §5A-3-37. (Does not apply to construction contracts). ***West Virginia Code***, §5A-3-37, provides an opportunity for qualifying vendors to request (at the time of bid) preference for their residency status. Such preference is an evaluation method only and will be applied only to the cost bid in accordance with the ***West Virginia Code***. This certificate for application is to be used to request such preference. The Purchasing Division will make the determination of the Vendor Preference, if applicable.

1. **Application is made for 2.5% vendor preference for the reason checked:**
☐ Bidder is an individual resident vendor and has resided continuously in West Virginia for four (4) years immediately preceding the date of this certification; **or,**
☒ Bidder is a partnership, association or corporation resident vendor and has maintained its headquarters or principal place of business continuously in West Virginia for four (4) years immediately preceding the date of this certification;
☐ Bidder is a resident vendor partnership, association, or corporation with at least eighty percent of ownership interest of bidder held by another entity that meets the applicable four year residency requirement; **or,**
☐ Bidder is a nonresident vendor which has an affiliate or subsidiary which employs a minimum of one hundred state residents and which has maintained its headquarters or principal place of business within West Virginia continuously for the four (4) years immediately preceding the date of this certification; **or,**

2. **Application is made for 2.5% vendor preference for the reason checked:**
☒ Bidder is a resident vendor who certifies that, during the life of the contract, on average at least 75% of the employees working on the project being bid are residents of West Virginia who have resided in the state continuously for the two years immediately preceding submission of this bid; **or,**

3. **Application is made for 2.5% vendor preference for the reason checked:**
☐ Bidder is a nonresident vendor that employs a minimum of one hundred state residents, or a nonresident vendor which has an affiliate or subsidiary which maintains its headquarters or principal place of business within West Virginia and employs a minimum of one hundred state residents, and for purposes of producing or distributing the commodities or completing the project which is the subject of the bidder's bid and continuously over the entire term of the project, on average at least seventy-five percent of the bidder's employees or the bidder's affiliate's or subsidiary's employees are residents of West Virginia who have resided in the state continuously for the two immediately preceding years and the vendor's bid; **or,**

4. **Application is made for 5% vendor preference for the reason checked:**
☒ Bidder meets either the requirement of both subdivisions (1) and (2) or subdivision (1) and (3) as stated above; **or,**

5. **Application is made for 3.5% vendor preference who is a veteran for the reason checked:**
☐ Bidder is an individual resident vendor who is a veteran of the United States armed forces, the reserves or the National Guard and has resided in West Virginia continuously for the four years immediately preceding the date on which the bid is submitted; **or,**

6. **Application is made for 3.5% vendor preference who is a veteran for the reason checked:**
☐ Bidder is a resident vendor who is a veteran of the United States armed forces, the reserves or the National Guard, if, for purposes of producing or distributing the commodities or completing the project which is the subject of the vendor's bid and continuously over the entire term of the project, on average at least seventy-five percent of the vendor's employees are residents of West Virginia who have resided in the state continuously for the two immediately preceding years.

7. **Application is made for preference as a non-resident small, women- and minority-owned business, in accordance with *West Virginia Code* §5A-3-59 and *West Virginia Code of State Rules*.**
☐ Bidder has been or expects to be approved prior to contract award by the Purchasing Division as a certified small, women- and minority-owned business.

Bidder understands if the Secretary of Revenue determines that a Bidder receiving preference has failed to continue to meet the requirements for such preference, the Secretary may order the Director of Purchasing to: (a) rescind the contract or purchase order; or (b) assess a penalty against such Bidder in an amount not to exceed 5% of the bid amount and that such penalty will be paid to the contracting agency or deducted from any unpaid balance on the contract or purchase order.

By submission of this certificate, Bidder agrees to disclose any reasonably requested information to the Purchasing Division and authorizes the Department of Revenue to disclose to the Director of Purchasing appropriate information verifying that Bidder has paid the required business taxes, provided that such information does not contain the amounts of taxes paid nor any other information deemed by the Tax Commissioner to be confidential.

Bidder hereby certifies that this certificate is true and accurate in all respects; and that if a contract is issued to Bidder and if anything contained within this certificate changes during the term of the contract, Bidder will notify the Purchasing Division in writing immediately.

PURCHASING AFFIDAVIT

MANDATE: Under W. Va. Code §5A-3-10a, no contract or renewal of any contract may be awarded by the state or any of its political subdivisions to any vendor or prospective vendor when the vendor or prospective vendor or a related party to the vendor or prospective vendor is a debtor and: (1) the debt owed is an amount greater than one thousand dollars in the aggregate; or (2) the debtor is in employer default.

EXCEPTION: The prohibition listed above does not apply where a vendor has contested any tax administered pursuant to chapter eleven of the W. Va. Code, workers' compensation premium, permit fee or environmental fee or assessment and the matter has not become final or where the vendor has entered into a payment plan or agreement and the vendor is not in default of any of the provisions of such plan or agreement.

DEFINITIONS:

"Debt" means any assessment, premium, penalty, fine, tax or other amount of money owed to the state or any of its political subdivisions because of a judgment, fine, permit violation, license assessment, defaulted workers' compensation premium, penalty or other assessment presently delinquent or due and required to be paid to the state or any of its political subdivisions, including any interest or additional penalties accrued thereon.

"Employer default" means having an outstanding balance or liability to the old fund or to the uninsured employers' fund or being in policy default, as defined in W. Va. Code § 23-2c-2, failure to maintain mandatory workers' compensation coverage, or failure to fully meet its obligations as a workers' compensation self-insured employer. An employer is not in employer default if it has entered into a repayment agreement with the Insurance Commissioner and remains in compliance with the obligations under the repayment agreement.

"Related party" means a party, whether an individual, corporation, partnership, association, limited liability company or any other form or business association or other entity whatsoever, related to any vendor by blood, marriage, ownership or contract through which the party has a relationship of ownership or other interest with the vendor so that the party will actually or by effect receive or control a portion of the benefit, profit or other consideration from performance of a vendor contract with the party receiving an amount that meets or exceed five percent of the total contract amount.

AFFIRMATION: By signing this form, the vendor's authorized signer affirms and acknowledges under penalty of law for false swearing (*W. Va. Code* §61-5-3) that neither vendor nor any related party owe a debt as defined above and that neither vendor nor any related party are in employer default as defined above, unless the debt or employer default is permitted under the exception above.

[1] Maximum monthly duty cycle describes the maximum number of pages a device can output on a monthly basis. This specification is a guideline intended to offer a comparison of durability as it relates to the entire Konica Minolta MFP and printer product line so that the appropriate device can be placed in order to meet customer needs

[2] Warm-up time may vary depending on the operating environment and usage

[3] Supports x64 only

Components and Options

AU-102 Biometric authentication	Finger vein scanner
AU-205H Universal ID card reader	Various ID card technologies
EK-608 USB I/F kit	USB keyboard connection
EK-609 USB I/F kit	USB keyboard connection, Bluetooth
DF-628 Document feeder	Reversing automatic document feeder, capacity 100 originals
DK-513 Copier desk	Provides storage space for print media and other materials
FK-513 Fax board	Super G3 fax, digital fax functionality
FS-533 Staple finisher	50-sheet stapling, 500 sheets max. output (requires MK-602)
FS-534 Staple finisher	50-sheet stapling, 3,300 sheets max. output (requires RU-514)
FS-534 + SD-511 Booklet finisher	50-sheet staple finisher, 20-sheet booklet finisher, 3,300 sheets max. output (requires RU-514)
JS-506 Job separator	Separation for fax output, etc.
KH-102 Keyboard holder	To place USB keyboard
KP-101 10-Key pad	For use instead of touchscreen
LK-102 v3 PDF enhancements	PDF/A, PDF encryption, digital signature
LK-104 v3 Voice guidance	Provides voice guidance functions
LK-105 v4 OCR text recognition	Searchable PDF
LK-106 Barcode fonts	Supports native barcode printing
LK-107 Unicode fonts	Supports native Unicode printing
LK-108 OCR A and B fonts	Supports native OCR A and B font printing
LK-110 v2 Enhanced image support	Generates various file formats incl. DOCX, XLSX and combines LK-102 (encrypted PDF) + LK-105 (searchable PDF/OCR functionality)
LK-111 ThinPrint® Client	Print data compression for reduced network impact
LK-114 Universal print function	Supports server-less ubiquitous printing
MK-602 Mount kit	Installation kit required for FS-533
MK-735 Mount kit	Installation kit for ID card reader
OC-514 Original cover	Cover instead of auto document feeder
PC-113 Universal tray (x1)	5.5" x 8.5" to 11" x 17", 500 sheets, 60-220 gsm
PC-213 Universal tray (x2)	5.5" x 8.5" to 11" x 17", 2 x 500 sheets, 60-220 gsm
PC-413 Large capacity tray	8.5" x 11", 2,500 sheets, 60-220 gsm
PK-519 Punch kit for FS-533	2/3-hole punching, autoswitching
PK-520 Punch kit for FS-534	2/3-hole punching, autoswitching
RU-514 Relay unit	Required for installation of FS-534
UK-212 Wireless LAN	Wireless LAN to network connector
WT-506 Working table	Authentication device placement

Note: Not all options may be available at time of launch.

KONICA MINOLTA

Giving Shape to Ideas

- Up to 30 ppm print/copy output to keep pace with rising demands
- Optional dual scanning at up to 160 originals per minute
- Large 9" color display with quick tablet-like touchscreen interface
- 3rd-party software integration with standard web browser
- Built-in Emperon® print system, universal printer drivers
- Simitri® HD polymerized toner for high-resolution imaging
- Standard 250 GB HDD for on-board document storage
- Meets ISO 15408 and IEEE 2600.1 Security standards*
- Power-saving design with quick recovery from sleep mode
- 6,650-sheet maximum capacity, tab printing support, carbon-copy printing
- Advanced authentication, secure print release, remote firmware updates
- Multiple bypass tray and detachable paper feed trays improve paper handling
- Finishing options for 80-page booklet-making
- 50-sheet stapling, 2/3-hole punch, tri-fold and more
- Downloadable apps to help you work faster and smarter
- i-Options to add functions for working more efficiently
- EPEAT Gold-certified, low power consumption to cut costs
- Mobile printing support (AirPrint, Google Cloud Print Classic, NFC)

Components and Options

AU-102 Biometric authentication	Finger vein scanner
AU-205H Universal ID card reader	Various ID card technologies
EK-610 USB I/F kit	USB keyboard connection
EK-611 USB I/F kit	USB keyboard connection, Bluetooth
FK-515 Fax board	Super G3 fax, digital fax functionality, lines 3 & 4 support
FK-516 Fax board	Super G3 fax, digital fax functionality
FS-536 Staple finisher	50-sheet stapling, 3,200 sheets max. output
FS-536SD Booklet finisher	50-sheet staple finisher, 20-sheet booklet finisher, 2,200 sheets max. output
FS-537 Staple finisher	100-sheet stapling, 3,200 sheets max. output
FS-537SD Booklet finisher	100-sheet stapling, 20-sheet booklet finisher, 2,500 sheets max. output
HD-524 Hard disk mirroring	Back-up HDD
JS-602 Job separator for FS-537	Separation for fax output, etc.
Keyboard	External keyboard (requires KH-102)
KH-102 Keyboard holder	To place USB keyboard
KP-101 10-Key pad	For use instead of touchscreen
LK-102 v3 PDF enhancements	PDF/A, PDF encryption, digital signature
LK-104 v3 Voice guidance	Provides voice guidance functions
LK-105 v3 OCR text recognition	Searchable PDF
LK-106 Barcode fonts	Supports native barcode printing
LK-107 Unicode fonts	Supports native Unicode printing
LK-108 OCR A and B fonts	Supports native OCR A and B font printing
LK-110 Enhanced Image support	Generates various file formats incl. DOCX, XLSX and combines LK-102 (encrypted PDF) + LK-105 (searchable PDF/OCR functionality)
LK-111 ThinPrint® Client	Print data compression for reduced network impact
LU-205 Large capacity tray	8.5" x 11" to 12" x 18", 2,500 sheets, 52–256 gsm
LU-303 Large capacity tray	8.5" x 11", 3,000 sheets, 52–256 gsm
MK-735 Mount kit	Installation kit for ID card reader
MK-742 Mount kit	Installation kit for FK-515 fax board
OT-508 Output tray	Output tray used instead of finisher
PI-507 Post inserter for FS-537	Cover insertion, post finishing
PK-520 Punch kit for FS-536	2/3-hole punching, autoswitching
PK-523 Punch kit for FS-537	2/3-hole punching, autoswitching
RU-515 Relay unit	Required for the FS-537/FS-537SD and FS-536/FS-536SD
SC-508 Security kit	Copy Guard function (2x required)
UK-212	Wireless LAN to network connector
UK-501 Multi-feed detection kit	Detects multi-feeding in the document feeder
WT-506 Working table	Authentication device placement
WT-513 Working table	Used to mount the control panel in an upright position
ZU-609 Z-fold unit for FS-537	Z-fold for 11" x 17" prints, 2/3-hole punching

KONICA MINOLTA

eCopy® PDF Pro Office

eCopy PDF Pro Office, the latest enterprise-ready PDF solution from Nuance for every desktop that's easy to use. Automatically receive files from the eCopy ShareScan, create, convert and collaborate with PDF like never before. Nuance PDF solutions are the world's leading replacement for Adobe® Acrobat®, delivering superior speed, functionality and ease of use at a significantly lower cost.

With more than 6,000 employees and millions of business users worldwide, Nuance is a leading provider solutions for enterprise speech and customer care; mobile devices and networks; healthcare dictation and transcription; and PDF and document capture and conversion. Every day, Nuance's technologies, applications and services make the user experience more compelling by transforming the way people interact with information and how they create, share and use documents.

Enjoy cost savings without compromise

More affordable than Adobe Acrobat, eCopy PDF Pro Office lets you do more with your limited budget. It offers powerful functionality, proven reliability and remarkable ease of use in a small footprint solution that doesn't eat up resources or impede system performance. Plus, it's fully compatible with popular document management systems to give users across the enterprise controlled access to PDF files—without placing an additional burden on IT.

eCopy PDF Pro Office is fast and easy to install, too. You can conveniently service all enterprise users with network push install and software access options through virtualized software environments.

Get a complete pdf solution for every desktop

Designed specifically for the business user, eCopy PDF Pro Office is intelligent and easy to use, putting commonly used creation, conversion and collaboration features just a click away. So you can enjoy incredible time savings and the flexibility of a universal document format for higher productivity and seamless information exchange.

Instantly create 100% industry-standard, universally viewable PDFs files—including all PDF and PDF/A versions—from any PC application. Convert to PDF from within Microsoft® Office documents or create PDF files of any document with a single click while browsing with Windows®.

eCopy PDF Pro Office provides the most accurate conversion of PDF files into editable, searchable XPS, Corel® WordPerfect® and Microsoft® Word, Excel® or PowerPoint documents—complete with fully-formatted text, columns, tables and graphics. It even lets you combine all pages of a PDF document into a single Excel worksheet. Support for Windows 7 Jump Lists provides quick access to recent files and common PDF creation and conversion tasks.

Combine files and remove or replace pages with drag-and-drop ease. View and select pages from a source document—Word, Excel, PowerPoint, WordPerfect, XPS, JPG, BMP or TIF—to insert into a target document. It makes document assembly faster and simpler than ever.

Fill and save PDF forms
Use FormTyper™ to convert static forms into fillable PDF forms that you can complete, save and email.

Scan directly to PDF
Get one-click scanning to PDF by pre-setting your scanner preferences. Scan and highlight, cross-out, underline or redact—all in a single step.

Manage multi-layer graphics
View, select, merge and flatten layers created by programs like AutoCAD® and Microsoft Visio®.

Bring multimedia to PDF
Embed Flash and Microsoft Silverlight into PDF files to create attention-grabbing multimedia documents — quickly and easily.

Protect sensitive documents
Control viewing, printing and modifications by adding passwords with secure encryption and permission controls to PDF documents. Or flatten everything in a document to protect sensitive information during file sharing or archival.

Meet accessibility standards
Automatically tag PDF files to ensure document compliance with Section 508 and other accessibility standards.

Connect to document management systems
Connect seamlessly to Microsoft® SharePoint® Services v3, Servers 2003, 2007, 2010; Autonomy iManage WorkSite 8.3,8.5; OpenText DocsOpen 4, Connectivity Solutions (eDocs/ Hummingbird) 6, 5.2 LiveLink 9.7; and LexisNexis CaseMap 8.5 for enterprise-wide document management from each user's desktop.

Users across the enterprise can collaborate more effectively with annotation tools that let you add notes, stamps, call-outs and more to PDF documents. Plus, it's easy to view, organize, prioritize and update comments using the convenient Comment Panel.

Produce impressive documents that mean business

eCopy PDF Pro Office enables you to deliver documents that look as good in print as they do on the screen—no matter where you send them. Combine any type of file and/or folder into striking PDF Portfolios that are viewable with any popular PDF reader. Add attractive, interactive cover pages that guide the audience. Even include photos, graphics, movies, audio or 3D drawings to convey messages with attention-grabbing style!

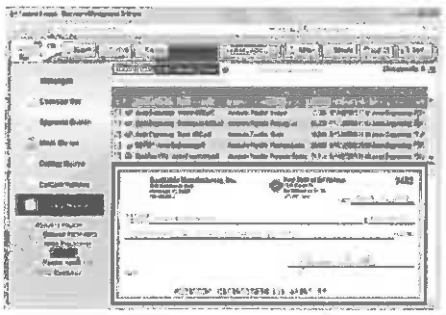
The All-In-One Browser-Based Document Management Solution

General Overview of Content Central

Content Central sets the standard for document management and workflow solutions. Users access and interact with the application by logging in using a preferred Web browser, from Internet Explorer to Mozilla Firefox and Google Chrome. Every operation occurs within this browser-based interface, from capturing, indexing, and retrieving documents to approving and distributing them.

Take advantage of the many benefits a browser-based application offers, including quick deployment, controlled & logged access, and remote connectivity. Administrators install Content Central on a single Microsoft Windows server or across multiple servers for performance. After user accounts have been defined, users connect from available Windows, Mac, or Linux computers on the network.



Inside Content Central you can create documents using PDF-based electronic forms. Documents and other files can be captured from document scanners, network folders, e-mail accounts, or user interaction. Content Central converts scanned images into fully searchable PDF files, and all documents can be retrieved using content keywords and other index information based on the type of document. Integrated e-mail and fax tools allow you and your team to distribute documents without requiring external software. A powerful workflow engine can manage your information behind the scenes based on system events or schedules.

Best of all, you receive every feature for one affordable price, paying only by the number of users required; there aren't any confusing add-on modules to worry about.

Top New Features in SmartSearch

GlobalAction

GlobalAction is Square 9's next generation Business Process Management engine, scaling easily across organizations of all sizes with the ability to map business process designs from any modern browser through a drag and drop interface. GlobalAction comes complete with Document History, which lists out the steps a document has taken in a workflow.

GlobalAnalytics

GlobalAnalytics provides dashboard views of your GlobalAction process queues, giving you instantaneous visibility into your transactional activity. GlobalAnalytics adds business intelligence to GlobalAction Workflows by providing management reports on document-driven processes.

Full API Access

SmartSearch supports direct access to documents via the API, which is designed to be used by service accounts, specifically for the new GlobalAction workflow engine. This option allows API access to circumvent search security for specific users.

MFP Integration

Integrate with any product, including direct connectors. Gain full capture-and-retrieval support right from the control panel of any current version of a Konica Minolta®, Toshiba®, or OKI® multi-functional printer, which acts as the catalyst for workflow automation.

On-Demand Localization

In addition to English and Romanian, both SmartSearch and GlobalSearch now include options for French, Spanish, Portuguese, Italian and German languages, enhancing global readiness through localization.

Key Features & Benefits

Security & Auditing

Granular security in SmartSearch integrates with Active Directory greatly streamlining administration and providing users with single sign-on access. The built in audit trail proves your security is working by logging all document actions by date and user.

GlobalSearch

Now with KeyFree Indexing capabilities, GlobalSearch extends the reach of your SmartSearch installation beyond traditional LAN, WAN or VPN access by delivering anywhere, anytime access to documents from any browser or mobile device, increasing productivity while staying in constant contact with critical documents.

Capture Workflow

Completely automate the capture and indexing of documents from any source including Multi-function Printers, desktop scanners and line of business print output, using intelligent batch separation, image cleanup, zonal OCR and barcode recognition to eliminate the need for user intervention while maximizing your return on investment.

Data XChange

Using a key piece of data, SmartSearch can perform a database lookup either internally or to any OLEDB or ODBC compliant database to re-purpose data into SmartSearch index fields, saving time and eliminating indexing errors.

Image XChange

Click on any piece of data in your line of business application (accounting, CRM, HRM) and instantly retrieve all matching documents in SmartSearch, reducing training requirements and increasing end user adoption.

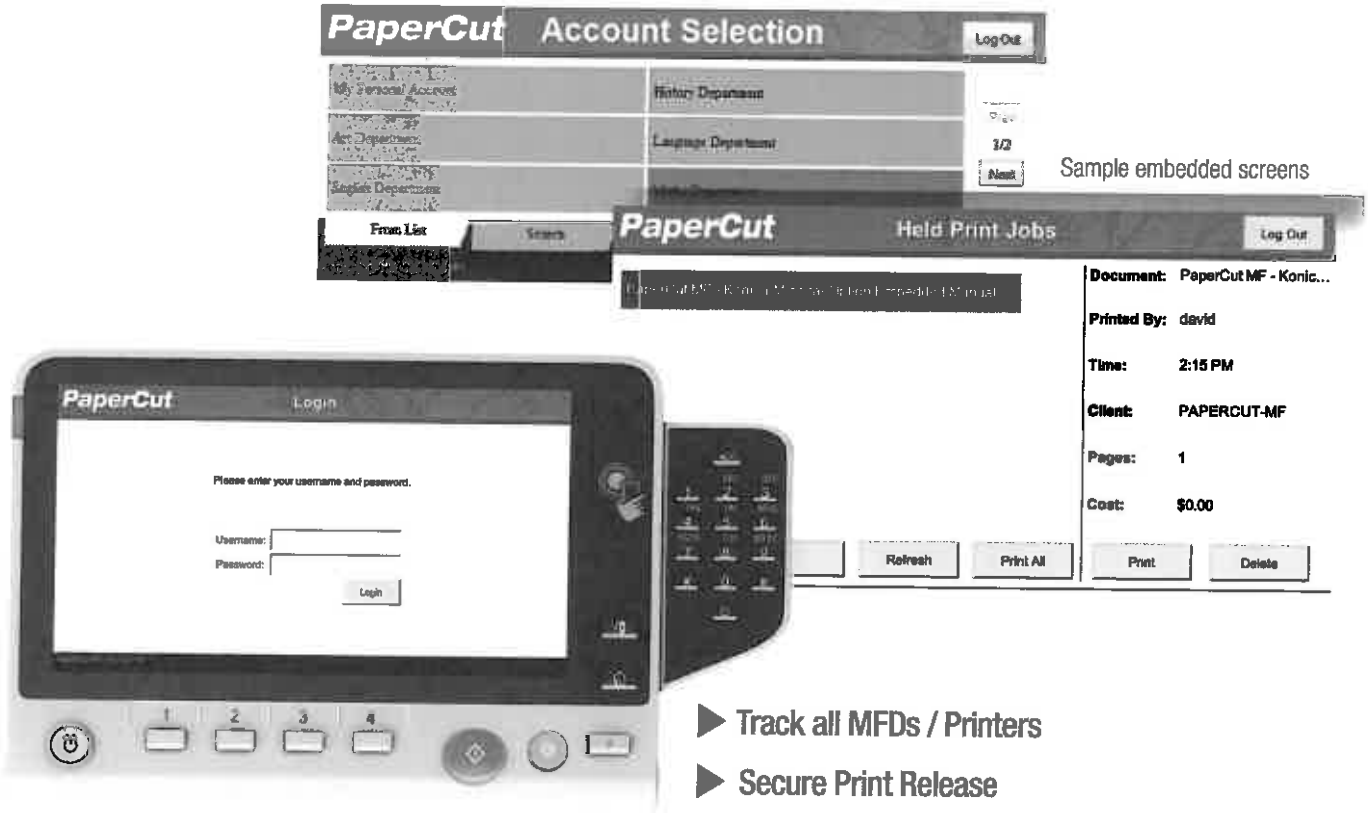
Giving Shape to Ideas

PaperCut MF

PaperCut MF: Complete control over print, copy, scan and fax.

cost accounting



- Track all MFDs / Printers
- Secure Print Release
- Control and Report Use
- Recover Costs
- Enforce Print Policy
- Minimize Waste
- Web Print

Streamline with Security.

Eliminate waste, encourage responsible behavior and make users and departments accountable for their print usage. PaperCut MF includes embedded software that runs on your copier/MFD to enable tracking, control and secure print release directly from the device's panel. PaperCut MF is suitable for sites of any size, with a cross-platform and vendor-neutral approach to technology and device support. PaperCut's solutions are currently in use in over 50,000 sites worldwide and translated into 20 languages, making PaperCut MF a product you can trust with a high return-on-investment.

Intuitive and Easy to Use

PaperCut MF is regarded as the simplest system of its type to deploy and manage. System administrators have full access to administration and configuration via a familiar web interface. It offers:

- User directory (eg. Active Directory and others) integration and automatic user account creation
- Secure print release and Find-Me printing
- Administrator dashboard with real-time status updates
- Review job content visually
- Optional client and account billing
- Ability to encourage responsible use via popup notifications

Detailed Reporting

PaperCut includes over 80 one-click reports available for online viewing, printing or export. Reports address all areas ranging from detailed page logs to summaries by user, department, device or environmental impact. Administrators can create ad-hoc reports by applying filter conditions and reports can be emailed to specified people on a regular schedule.

More information is at:
www.papercut.com/tour/report/

Web-Based Administration

PaperCut MF provides "out of the box" browser-based administration access from any network location enabling centralized management of every user and device. Web technologies make cross-platform support easy as there is no need for additional software to be installed and no web server configuration.

A key feature of the administration interface is the dashboard tab – an easy-to-read single page view of the printing environment for administrators. The Dashboard page utilizes a number of gadgets to present key real time information such as system activity and status updates, along with trend information and statistics from past activity such as number of pages printed and environmental impact measures.

Rules-Based Printing

Advanced rules can be used to define and finely tune your printing policy, and support your organization in eliminating waste and changing user behavior.

With PaperCut you can:

- Automatically route large jobs to detected high-volume printers
- Discourage printing of emails via popup print policy warnings
- Convert jobs to grayscale and duplex
- Discourage or disable color printing by user group
- Least-cost routing (suggest more cost-effective devices based on conditions)
- Allow free printing (e.g. during class times)
- Define action by job attribute, user/group, period of day, device feature/type.

'Find Me' Printing

PaperCut's Find-Me printing feature enables users to print to a global virtual queue. Jobs are paused and only printed when the user releases the job at any compatible MFD/printer:

- Improved document security and convenience.
- Reduce IT administrators' need to manage multiple print drivers and queues for both workstations and notebooks.
- Find-Me printing minimizes waste and has been shown to reduce printing output by up to 20% in busy office environments.
- Support for multiple release methods ranging from auto release on authentication to active release job-by-job.

Secure Authentication

Today's MFDs are smarter. They have touch screens and the ability to run software directly on the device's panel. PaperCut leverages this technology to bring new features to each device.

One of the key features is user authentication – only allowing device access to authorized users. At the simplest level users can authenticate with network user name and password via an onscreen keyboard. In addition, many environments will implement ID card authentication. Card numbers can be extracted from your network's user directory or a database (e.g. door access control system), alternatively, users can self-associate their card upon first use.

Card types include magnetic stripe, proximity (HID, Mifare, and LEGIC) and bar codes, and PaperCut supports many brands of USB card readers including RFIdeas, and HID Global.

PaperCutMF

features

Print Archiving & Watermarking

PaperCut administrators can utilize these features to ensure users are answerable to their printing.

PaperCut's Print Archiving empowers approved administrators to browse and review the content of print activity within their environment. Alongside the powerful tracking and reporting functionality built into PaperCut, this gives system administrators a wide range of auditing functions.

Watermarking can automatically add a user name or other metadata to the bottom of every page e.g. to indicate the document owner. Watermarking may include a unique digital signature which allows you to track document origin to enhance security and encourage responsible printing.

iPad, Mobile and Driverless Web Printing

The introduction of iPads, mobile devices, tablets, netbooks and BYO devices have brought a new set of challenges to the printing landscape.

PaperCut can help solve these problems with native iPad print support and web-based driverless printing – core features in PaperCut.

Users of these devices have access to the full range of features including authenticating, account selection and "find-me" printing in a simple user interface.

Managing Quotas

Users can operate in either credit or debit, with defined account rules, including how and how often an account is credited. Use network groups to define how additional quota/credit is assigned; for example, allow a specific group of users to accumulate their quota while others operate
on a "use it or lose it" basis.

Pre-Paid Cards

PaperCut MF comes with a simple to implement voucher system for purchasing additional print credit. Administrators can print out a batch of single-use cards with a predefined value. Users redeem cards by entering the card's unique code on a web page.

Payment Gateways

Give end users the ability to make payments into their PaperCut account using payment gateways. Payment gateways allow third-party systems to connect to PaperCut. Common gateways include leading providers like PayPal and Authorize.net, which allow real-time online payments via credit card. PaperCut also supports closed or internal payment systems such as main college billing systems, including CBOARD and Blackboard. Hardware gateways are available to support a range of cash loaders, self-service kiosks and bill and coin boxes. For hardware, please refer to a PaperCut MF Authorized Solution Center.

User Web Interface

End users have access to a set of web tools to track their own activity in real-time, query their account balances, and view their transactions without the need for intervention from administrators. The end user interface is fully customizable, so you can design a look and feel to match your website or intranet pages.

eCopy® ShareScan® Office

Every day, knowledge workers, managers, and administrative personnel need to get more done in less time by transforming paper into electronic documents. More than ever, on-demand scanning solutions are key to increasing productivity and accelerating business processes by automating workflows that anyone can access right at the copier.

eCopy ShareScan Office lets you scan paper documents and bring them into your daily collaboration, desktop publishing, and archiving workflows. In addition to secure scan-to-Email, scan-to-PC, and scan-to-file functionality, ShareScan Office can automatically convert those scanned documents into searchable PDFs or editable Microsoft Word and Microsoft Excel files and connect to your document management system.

eCopy ShareScan Office can also be expanded with numerous Nuance and partner connectors and extenders to further automate and integrate document workflows. From simple scanning to sophisticated conversion, eCopy ShareScan Office delivers exceptional speed, accuracy, productivity, and cost savings.

A simple interface enables users to quickly scan and send documents to their destination—right from the copier.

Touch screen user interface may vary by device.

eCopy ShareScan Office is the preferred MFP scanning and OCR solution to integrate paper documents into electronic office workflows. ShareScan Office captures paper-based information and brings it directly into Microsoft Office, eliminating the need to rekey, distribute, or archive paper. Built on a highly scalable, open, modular, device-independent, client-server platform, ShareScan Office delivers enterprise-grade performance and high ROI.

Features and benefits

- The Best MFP Scanning and OCR Solution for Productivity—Our best-in-class UI eliminates training, ensures rapid adoption, and generates the fastest ROI.
- Superior Usability—From single sign-on and one-button OCR and routing, to scrolling/fly-out menus and fast access to personal favorites, ShareScan Office is the easy answer streamlining paper-intensive office workflows. See a preview image, select from your personal Email address book or choose Email distribution lists—right from the copier's touch screen.
- Automatically Convert Hardcopy Originals into Accurate, Formatted, Editable Softcopy—Scan, convert, and edit Microsoft Word, Excel, and PDF files—including columns, graphics, and tables. You save time and money, with high accuracy and less reformatting.
- Industry-Leading Mail and File System Integration—Access global and personal address books and browse folders right at the copier—no need to go back to your desk to file or route documents. The "Express" mode automates routine Email distributions and sent Email appears in the user's personal "Sent Items" folder. And offline processing and notification means you can submit large batches and return to your office before completion.
- Streamlined Archival with Flexible ECM Options—eCopy ShareScan Office provides complete integration to content management, network folders, SQL databases, and more. Dispatcher Phoenix Government

Solutions.

At a time of shrinking budgets, rising costs and increasing expectations, government agencies are naturally looking for new ways to increase productivity, streamline processes and serve the public with greater speed, accuracy and efficiency. Konica Minolta's Dispatcher Phoenix Government provides government employees with the tools they need to handle their documents – quickly, efficiently and securely.

With Dispatcher Phoenix Government, state and federal employees can have instant access to the information they need while complying with security regulations. And manual document processes can be automated, reducing the risk of human error while optimizing operational efficiency.

Fast, Efficient Document Distribution.
Dispatcher Phoenix Government automatically collects, processes and distributes government documents such as records, applications, cross-agency communications and other filings to multiple outputs – all in a single step. Document files can be sent to network/local folders, email recipients, printers, and popular document management systems such as Microsoft SharePoint. With its visually appealing folder browsing feature at the MFP, Dispatcher Phoenix Government gives you a familiar, Windows Explorer-like view of your directory structure to help you select the correct folder as your scan destination.

Integration with Secure Infrastructure.
Through Konica Minolta MFPs, Dispatcher Phoenix Government integrates with the federal government's smart card platform to provide a seamless, secure solution that addresses federal security concerns and mandates. With support for both authentication via CAC and PIV cards and Active Directory, Dispatcher Phoenix Government meets the Two-Factor Homeland Security Presidential Directive known as HSPD-12.

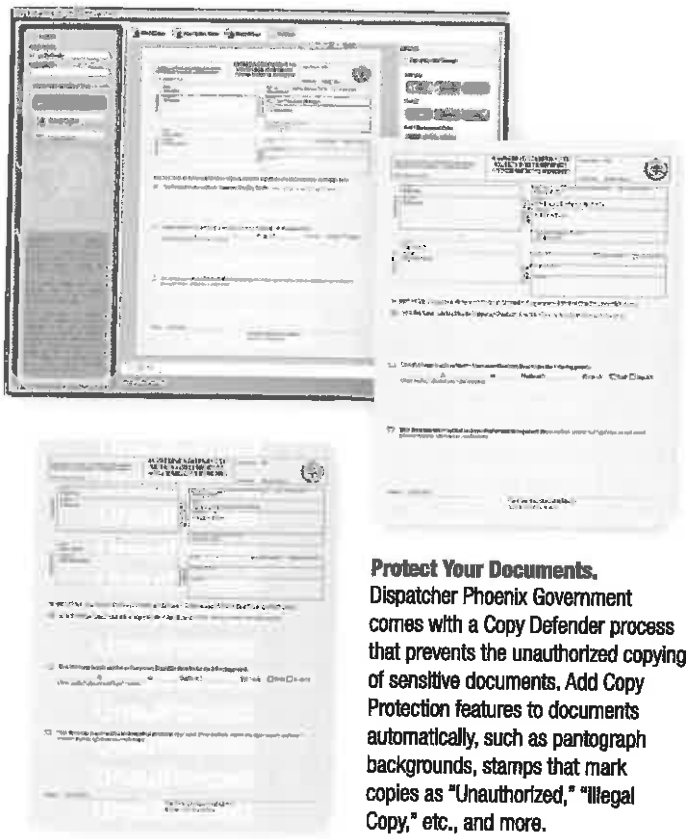
Protecting Documents.
Along with CAC/PIV authentication, other security features include:

- Copy Defender process to prevent unauthorized copying of sensitive documents.
- Intelligent redaction, which permanently removes personal information from documents.
- File conversion to password-protected PDFs.
- Fully integrated support for Microsoft Windows local and domain policies for security audit and tracking.

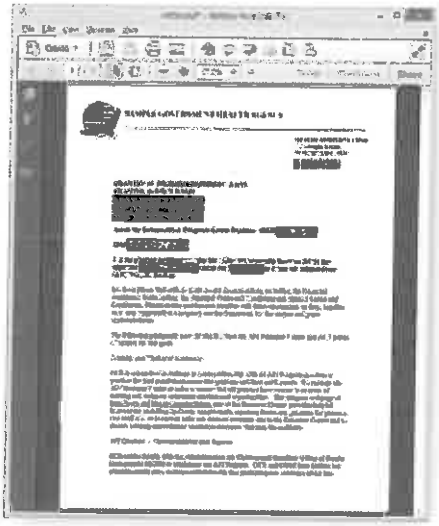
Streamlining Government Workflows.
To help state and federal agencies as well as public sector organizations optimize workflow efficiency, Dispatcher Phoenix Government includes automated processes that get the job done quickly and accurately. You can make information instantly retrievable by converting paper-based files into PDF Searchable. Read and route invoices based on barcode. Edit scanned images by converting files to Microsoft Office formats, such as Word or Excel. Rename files at the MFP. Other advanced automated processes include zonal OCR for data extraction, metadata routing, ODBC connectivity for integration with common databases – and much more.

SharePoint Connectivity.
Dispatcher Phoenix Government includes a connector to Microsoft SharePoint for document storage, accessibility and collaboration. Files can be automatically distributed to SharePoint or directed to SharePoint at the MFP during time of scanning. Just scan, index, and send each document to the appropriate SharePoint folder – all with a few quick taps on your MFP control panel.

Dispatcher
Phoenix Government



Protect Your Documents.
Dispatcher Phoenix Government comes with a Copy Defender process that prevents the unauthorized copying of sensitive documents. Add Copy Protection features to documents automatically, such as pantograph backgrounds, stamps that mark copies as "Unauthorized," "Illegal Copy," etc., and more.



Automatic Redaction.
With Dispatcher Phoenix Government's intelligent redaction, confidential information can be automatically and permanently removed from your document. And redaction search terms can be modified or added at the MFP panel for the utmost flexibility.

Direct Integration at the MFP.
Dispatcher Phoenix Government provides a fully integrated experience at the MFP using a unique, visually appealing display. And folder browsing at the MFP is simple and intuitive with Dispatcher Phoenix Government's Windows Explorer like view of your directory structure. Select what folder you'd like to browse to, view files within folders and sub-folders, and even create a new folder – all directly at the MFP.

Dispatcher Phoenix Government

Customized.

Dispatcher Phoenix is a family of automated document workflow solutions from Konica Minolta. For government, professional and general business applications, Dispatcher Phoenix can optimize business processes, reduce costs and increase productivity – providing advanced automation features that minimize time-consuming manual document handling and processing tasks.

Dispatcher Phoenix is available in several versions to best suit different needs. All versions of Dispatcher Phoenix include a graphical Workflow Builder tool, an intuitive Workflow Scheduler, full MFP integration with a visually enhanced display, document indexing and folder browsing capabilities at the MFP, robust authentication options, and add-in options that allow you to enhance the speed and efficiency of your document workflow. Add-in options include:

- Forms processing to automatically extract and process unique identifiers from forms (social security numbers, birth dates, etc.) using pattern matching so you don't have to know the specific content.
- Connectors to cloud storage providers – Box, Dropbox, WebDAV, Microsoft OneDrive, FileAssist (Konica Minolta's new cloud document management solution), etc.
- Advanced Bates stamping to automatically apply counters, metadata, static text, and more – anywhere on the page.
- Advanced job routing features to send your print job to the most suitable or cost-effective printer.
- Connectors to other content management systems, including OnBase® by Hyland and Worldox® by World Software.

Lock Down with the Ultimate in MFP Protection.

bizhub SECURE

Of all the resources in today's business and professional world, your data can be the most valuable – and also the most vulnerable.

That's why Konica Minolta offers lock down protection with bizhub® SECURE: a set of enhanced password and data security measures to give your bizhub mfp an extra level of security. We offer professional safeguard services for both our full size and small MFPs that will be provided by your Konica Minolta field engineer. Ensure that your data is more than just secure – it's bizhub SECURE!

Peace of Mind.

How can you make certain your valuable data is safe from theft – and prevent it from being stolen from your MFP by an unauthorized user or extracted if the hard disk drive is removed from your multifunction device? The answer is simple – and all it takes is allowing an authorized Konica Minolta field engineer to activate the bizhub security features of your bizhub MFP. With bizhub SECURE safeguards in place, you'll know that your documents have uncompromising security protection.

At Konica Minolta we understand that your organization may not have the bandwidth or infrastructure to enable, configure and track the security functions that are required for compliance or internal mandates.

That is why we developed the bizhub SECURE Service. To provide you with the resource you need to lock down and protect any document data that might reside on the bizhub's internal hard drive.

Ultimately, a secure document workflow is everyone's responsibility. Konica Minolta has led the industry in providing enhanced security features for the digital era – and with powerful bizhub SECURE Functions activated by your authorized Konica Minolta Field Engineer, you'll have an additional line of defense against data theft and unauthorized access to documents or devices.

To order the bizhub SECURE Service, just contact your bizhub representative – and count on Konica Minolta to provide the MFP Security Services that your company or organization demands.

The following security features will be enabled on your MFP baased on model type:

KONICA MINOLTA...HELPING REDUCE OUR ECO-FOOTPRINT

KONICA MINOLTA

A step ahead
in reducing our
eco-footprint...

A smaller ecological footprint is to everyone's advantage – and you can count on Konica Minolta to lead the way in making consumable recycling simple and cost-free.

Whether you have a single Konica Minolta desktop printer, a whole fleet of bizhub® MFPs, or professional bizhub PRO or bizhub PRESS production print equipment, it's never been easier to recycle your consumables – toner cartridges, imaging units, waste toner bottles, developer/developer units and drums.

The recycling process is simple for Konica Minolta consumables. For full details, just visit our Clean Planet website:

RECYCLING PROGRAM

Clean Planet Recycling Program: a better way to handle your consumables.

How our program protects the environment.

No consumables in landfills. When Konica Minolta consumables arrive at our locations, they are processed in an environmentally safe and responsible manner – no recyclable items are permitted to go into landfills.

Smaller carbon footprint. To minimize the energy and fuel costs associated with shipping, Konica Minolta has partnered with approved facilities located across the country, with collection points that are automatically selected based on your location. And since we have created an exclusive Clean Planet box which can hold multiple items, shipping is further reduced.

How recycling can save you time and money.

No cost to our customers. Unlike some recycling plans, Konica Minolta's Clean Planet Recycling Program doesn't require you to pay shipping or recycling costs.

All Konica Minolta consumables can be recycled. We now accept toner cartridges, imaging units, waste toner bottles, developer/developer units and drums – all the consumables from every Konica Minolta model, not just selected models. No matter what volume of consumables you use, there's a recycling program to fit your needs.

A total environmental commitment. For years, Konica Minolta has led the industry in policies and technologies designed to protect our green planet – saving energy, minimizing pollution and reducing environmental impact through the entire life cycle of our products. To learn the whole story, please visit our Clean Planet website: **www.cleanplanetus.com**

On our website, you'll find complete instructions on how to order our exclusive Clean Planet recycling boxes and print postpaid labels at your workplace to streamline the process.

For our small and home office customers. Single consumable items can be recycled by printing a postpaid UPS label from our website. Simply apply it to the new box containing the used consumable item and ship via UPS.

For our mid-sized customers. A recycling box designed to hold 10 - 15 items (consumables only, not shipping materials) can be ordered from the Clean Planet website. Just assemble the box and the reusable lid and place it in your office. When the box is full, you can print out a UPS label from our website, apply it to the box and ship via UPS. Please note: only Konica Minolta Clean Planet boxes can be accepted.

For high-volume customers. Konica Minolta can arrange for the delivery and pickup of recycling pallets that hold a larger quantity of consumable items (not shipping materials). Please check our Clean Planet website for details.

For our Optimized Print Service customers. For customers who have devices managed by our OPS program, most models already include a process for printing out postpaid labels. Please continue to use this process to ship back consumables. For devices that do not already include a process for printing a postpaid label, please visit the Konica Minolta Clean Planet website in order to order boxes and print postpaid labels.

Please recycle efficiently. Since Konica Minolta toner bottles are made of HDPE2, a material designed for recycling in local facilities, Konica Minolta cannot accept shipment of these empty bottles. Please check the rules of your municipality for specific information and our website for more details.

Konica Minolta branded consumables ONLY please! If you have printer/copiers from other manufacturers, we encourage you to take advantage of their recycling programs. We reserve the right to recover costs for unauthorized items returned using our program.
