PRODUCTION and SECURITY CAPABILITIES RR Donnelley & Sons Co.

FACILITY

RR Donnelley can manufacture State decal and labeling products across 7 different facilities in the United States:

- Angola (Indiana)
- Wilson (North Carolina)
- Streetsboro (Ohio)
- Brenham (Texas)
- St. Charles (Illinois)
- Cincinnati (Ohio)
- Avon Lake (Ohio)

At this time the Angola facility has been recognized as being the specialist in this product line. Angola would run the State decals and forms label, if the bid were awarded to RR Donnelley & Sons Co.

The Angola facility is located in Northeast Indiana. The facility has 21 printing presses housed under 185,000+ square feet of production area. This facility is ISO certified. The Angola facility has been producing State Decal and Licensing labels and forms for over 15 years. They have produced product for Maine, Vermont, Michigan, Colorado, New York, New Jersey, Texas, Pennsylvania, Ohio, California, Virginia, West Virginia, New Mexico, Puerto Rico, Arizona, New Hampshire, Utah, Oregon, Wisconsin, Hawaii, Illinois, and Georgia.

RR Donnelley has done decal and forms label combinations for many of these states using retro-reflective 3M material. RR Donnelley also does laser, thermal, and impact printable labels and forms for several of these states using the retro-reflective decal sheeting.

RR Donnelley has time and research dollars to provide the best product for the field use of this product line. RR Donnelley's decals have been proven time and time again in the field as a product that will last according to the States specifications.

DISASTER PLAN

As mentioned above, RR Donnelley has 7 plants that can do State decals. St. Charles and Brenham Plant all have equipment that will allow them to easily transition Angola's work onto their presses. The artwork and plate making is standardized for all RR Donnelley facilities. All facilities are ISO certified.

ART WORK and NEGATIVES

Artwork is held in electronic files. All state electronic files are secured and kept under a file system that has established security firewalls. Art and negatives are located in two

different facilities. The RR Donnelley facility in Iowa City will have the electronic artwork. Iowa City will file feed the Angola facility with the artwork so they can produce the plates and other materials needed to run the job with quality and accuracy. The Angola facility will have a copy of the artwork for plate purposes. The artwork cannot be manipulated or changed without the assistance of Iowa City. By using this type of protocol, the artwork is secure and there is less chance for duplicate, old, or other artwork from mixing into the current production work.

If artwork is given as "hard art files" then Iowa City will still receive this art and then make plate negatives for the Angola Facility. This method also assures proper handling and control is performed.

In the case of a disaster at the Angola Facility or Iowa City Facility, there will always be a backup file located at our headquarters.

Any "hard files", documents, retains, film, and/or press proofs are stored in a secure area per RR Donnelley ISO procedures or customer specifications.

PRODUCTION AREA

RR Donnelley has state of the art printing equipment. The equipment is current and well maintained. The most popular method of printing for the decals is by means of Flexo printing. Our process uses special inks and chemicals for the proper life expectancy of the retro reflective material. Fade resistance in our inks is proven but has to be under the color matches that our ink supplier suggests for best fade resistance.

SCHEDULING

Angola has 21 presses. Of these 21 presses there are 5 that specialize in decal manufacturing (others can be but these presses are dedicated for decal production).

RR Donnelley Angola runs 7 days a week, 24 hours a day operation (except major holidays).

RR Donnelley can provide a reasonable turn around on product if given adequate time to purchase materials.

SECURITY (Angola)

- **Security doors at each entrance.**
- **Security camera surveillance of critical areas in decal production. Cameras are at every point where decal may be stored, transported, produced, or waste stored.**
- **Security camera kept on disk and stored.**
- **Main entrance is a double door system with bulletproof glass between receptionist and inner lobby.**
- **Employee entrances (2) have metal doors.**
- **RFID badge needed to allow entrance.**

- **All employees wear ID badges with pictures.**
- **All visitors are not allowed into production or storage areas unless escorted.**
- **All state owned art/graphic products are stored and controlled in a secured file area.**
- **All keys to outside and inside entranceways are controlled using the Medeco lock system. Keys are lock boxed and distributed by one person.**
- **A guard is located in observation building during nighttime hours. The guard also checks the inner offices during the night hours.**
- **All material is accounted for upon deliver.**
- **Material is stored in locked cage area. Key is controlled.**
- **Material comes in sealed boxes. They stay in the box until press ready.**
- **Press scrap is put into marked waste bins. When the waste bins are full then they are taken to a locked and secure holding area.**
- **RR Donnelley has this secure waste professionally shredded by a reliable and bonded waste company**
- **We prefer direct (door to door) shipments of secure products.**
- **There are also SOP's about RR Donnelley's plant security that are available during an on site visit or audit. They can't be copied and sent out but can be reviewed during a visit/audit. By contacting Angola's Quality Manager, the State can audit the facility to verify RR Donnelley's quality process. We welcome our customers to audit Angola.**
- **Employee background screens are done.**
- **New people that are hired go through a more intensive screening then the senior employees.**

A representative of the Angola facility can answer any further questions.

17. FUNDING: This Contract shall continue for the term stated herein, contingent upon funds being appropriated by the Legislature or otherwise being made available. In the event funds are not appropriated or otherwise made available, this Contract becomes void and of no effect beginning on July 1 of the fiscal year for which funding has not been appropriated or otherwise made available.

Any extension of this Contract to the aforementioned Other Government Entities must be on the same prices, terms, and conditions as those offered and agreed to in this Contract, provided that such extension is in compliance with the applicable laws, rules, and ordinances of the Other Government Entity. If the Vendor does not wish to extend the prices, terms, and conditions of its bid and subsequent contract to the Other Government Entities, the Vendor must clearly indicate such refusal in its bid. A refusal to extend this Contract to the Other Government Entities shall not impact or influence the award of this Contract in any manner.

39. CONFLICT OF INTEREST: Vendor, its officers or members or employees, shall not presently have or acquire an interest, direct or indirect, which would conflict with or compromise the performance of its obligations hereunder. Vendor shall periodically inquire of its officers, members and employees to ensure that a conflict of interest does not arise. Any conflict of interest discovered shall be promptly presented in detail to the Agency.

40. REPORTS: Vendor shall provide the Agency and/or the Purchasing Division with the following reports identified by a checked box below:

Code § 15-2D-3, the Director of the Division of Protective Services shall require any service provider whose employees are regularly employed on the grounds or in the buildings of the Capitol complex or who have access to sensitive or critical information to submit to a fingerprint-based state and federal background inquiry through the state repository. The service provider is responsible for any costs associated with the fingerprint-based state and federal background inquiry.

After the contract for such services has been approved, but before any such employees are permitted to be on the grounds or in the buildings of the Capitol complex or have access to sensitive or critical information, the service provider shall submit a list of all persons who will be physically present and working at the Capitol complex to the Director of the Division of Protective Services for purposes of verifying compliance with this provision. The State reserves the right to prohibit a service provider's employees from accessing sensitive or critical information or to be present at the Capitol complex based upon results addressed from a criminal background check.

Service providers should contact the West Virginia Division of Protective Services by phone at (304) 558-9911 for more information.

42. PREFERENCE FOR USE OF DOMESTIC STEEL PRODUCTS: Except when authorized by the Director of the Purchasing Division pursuant to W. Va. Code § 5A-3-56, no contractor may use or supply steel products for a State Contract Project other than those steel products made in the United States. A contractor who uses steel products in violation of this section may be subject to civil penalties pursuant to W. Va. Code § 5A-3-56. As used in this section:

- a. "State Contract Project" means any erection or construction of, or any addition to, alteration of or other improvement to any building or structure, including, but not limited to, roads or highways, or the installation of any heating or cooling or ventilating plants or other equipment, or the supply of and materials for such projects, pursuant to a contract with the State of West Virginia for which bids were solicited on or after June 6, 2001.
- b. "Steel Products" means products rolled, formed, shaped, drawn, extruded, forged, cast, fabricated or otherwise similarly processed, or processed by a combination of two or more or such operations, from steel made by the open hearth, basic oxygen, electric furnace, Bessemer or other steel making process. The Purchasing Division Director may, in writing, authorize the use of foreign steel products if:
- c. The cost for each contract item used does not exceed one tenth of one percent (.1%) of the total contract cost or two thousand five hundred dollars (\$2,500.00), whichever is greater. For the purposes of this section, the cost is the value of the steel product as delivered to the project; or
- d. The Director of the Purchasing Division determines that specified steel materials are not produced in the United States in sufficient quantity or otherwise are not reasonably available to meet contract requirements.

43. PREFERENCE FOR USE OF DOMESTIC ALUMINUM, GLASS, AND STEEL: In Accordance with W. Va. Code § 5-19-1 et seq., and W. Va. CSR § 148-10-1 et seq., for every contract or subcontract, subject to the limitations contained herein, for the construction, reconstruction, alteration, repair, improvement or maintenance of public works or for the purchase of any item of machinery or equipment to be used at sites of public works, only domestic aluminum, glass or steel products shall be supplied unless the spending officer determines, in writing, after the receipt of offers or bids, (1) that the cost of domestic aluminum, glass or steel products is unreasonable or inconsistent with the public interest of the State of West Virginia, (2) that domestic aluminum, glass or steel products are not produced in sufficient quantities to meet the contract requirements, or (3) the available domestic aluminum, glass, or steel do not meet the contract specifications. This provision only applies to public works contracts awarded in an amount more than fifty thousand dollars (\$50,000) or public works contracts that require more than ten thousand pounds of steel products.

The cost of domestic aluminum, glass, or steel products may be unreasonable if the cost is more than twenty percent (20%) of the bid or offered price for foreign made aluminum, glass, or steel products. If the domestic aluminum, glass or steel products to be supplied or produced in a "substantial labor surplus area", as defined by the United States Department of Labor, the cost of domestic aluminum, glass, or steel products may be unreasonable if the cost is more than thirty percent (30%) of the bid or offered price for foreign made aluminum, glass, or steel products. This preference shall be applied to an item of machinery or equipment, as indicated above, when the item is a single unit of equipment or machinery manufactured primarily of aluminum, glass or steel, is part of a public works contract and has the sole purpose or of being a permanent part of a single public works project. This provision does not apply to equipment or machinery purchased by a spending unit for use by that spending unit and not as part of a single public works project.

All bids and offers including domestic aluminum, glass or steel products that exceed bid or offer prices including foreign aluminum, glass or steel products after application of the preferences provided in this provision may be reduced to a price equal to or lower than the lowest bid or offer price for foreign aluminum, glass or steel products plus the applicable preference. If the reduced bid or offer prices are made in writing and supersede the prior bid or offer prices, all bids or offers, including the reduced bid or offer prices, will be reevaluated in accordance with this rule.

PURCHASING AFFIDAVIT

MANDATE: Under W. Va. Code §5A-3-10a, no contract or renewal of any contract may be awarded by the state or any of its political subdivisions to any vendor or prospective vendor when the vendor or prospective vendor or a related party to the vendor or prospective vendor is a debtor and: (1) the debt owed is an amount greater than one thousand dollars in the aggregate; or (2) the debtor is in employer default.

EXCEPTION: The prohibition listed above does not apply where a vendor has contested any tax administered pursuant to chapter eleven of the W. Va. Code, workers' compensation premium, permit fee or environmental fee or assessment and the matter has not become final or where the vendor has entered into a payment plan or agreement and the vendor is not in default of any of the provisions of such plan or agreement.

DEFINITIONS:

"Debt" means any assessment, premium, penalty, fine, tax or other amount of money owed to the state or any of its political subdivisions because of a judgment, fine, permit violation, license assessment, defaulted workers' compensation premium, penalty or other assessment presently delinquent or due and required to be paid to the state or any of its political subdivisions, including any interest or additional penalties accrued thereon.

Code § 23-2c-2, failure to maintain mandatory workers' compensation coverage, or failure to fully meet its obligations as a workers' compensation self-insured employer. An employer is not in employer default if it has entered into a repayment agreement with the Insurance Commissioner and remains in compliance with the obligations under the repayment agreement.

"Related party" means a party, whether an individual, corporation, partnership, association, limited liability company or any other form or business association or other entity whatsoever, related to any vendor by blood, marriage, ownership or contract through which the party has a relationship of ownership or other interest with the vendor so that the party will actually or by effect receive or control a portion of the benefit, profit or other consideration from performance of a vendor contract with the party receiving an amount that meets or exceeds five percent of the total contract amount.

AFFIRMATION: By signing this form, the vendor's authorized signer affirms and acknowledges under penalty of law for false swearing (W. Va.
