Instant testing has an 18-24 month shelf life.

Testimony : See below under testimony

**Overview and Introduction:**

Great Lakes Labs (GLL) is committed to providing timely forensic services to all through accurate, valid and unbiased testing, supporting agencies of the criminal justice system, coroner's offices, private sector, and the medical legal systems. It is our commitment to influence positive change locally, regionally and nationally by promoting integrity, competency and leadership. Our full service forensic facility is located in Valparaiso, Indiana. This business is woman owned and a small business enterprise.

**Offers and Scope of Services**

GLL is a private independent testing and research facility providing a variety of specialized services:

**Drug screening** on bodily fluids-urine, saliva, and blood utilizing EMIT technology, and confirmations on Gas Chromatography /Mass Spectrometry (GC/MS). We also provide multiple on-site rapid drug screening options in urine and saliva.

**Forensic Drug Analysis** includes the testing of plant material for positive identification of Marihuana, as well as qualitative analysis of tablets, capsules, powders, residues and other materials. Narcotic Field test kits are also available.

**Forensic DNA Analysis** can be performed to include stain search and identification, positively identify blood, semen, or saliva. Genetic characterization identified using a 310 Genetic Analyzer. Sexual assault evidence kits may also be submitted for processing with or without suspect standard.

**MRO Services** are available upon request as we do have an MRO on staff.

Drug screening services will be provided to the State of West Virginia (and any other partnering government entity) with the highest quality and customer service. Since our company is a private organization that provides all facets of drug analysis, we can remain unbiased in our approach. We are here to service the needs of the agencies we serve.

**Hours of Operation:** Monday Through Friday 8am to 4:30 pm CST.

Services quoted and provided to the state of West Virginia shall be completed in a timely and professional manner. Samples that are sent accompanied by non routine drug request/confirmations will not be reported until all testing is completed.

All confirmation samples are stored for 1 year from the date of analysis. If a case needs to be retained for an extended period of time, contact the laboratory at 888-464-8885.

**Vendor Point of Contact:**

GLL staff welcomes you to be able to ask questions regarding your account, testing performed, or even billing questions. Your first call should be to your designated account representative:

Taye Leftridge

888-464-8885

219-464-8151

[tlefttridge@gl-labs.com](mailto:tlefttridge@gl-labs.com) or [sales@gl-labs.com](mailto:sales@gl-labs.com)

Taye will be your point of contact throughout the life of the contract. If there are any changes to your designated account representative, you will be notified immediately.

**Supplies:** Each location will be provided with chain of custody forms, biohazard bags, collection instructions, supply re-order forms, shipping packaging and labels.

**Shipping:** Great Lakes Labs acknowledges that approximately 4,000 specimens will be sent from various locations. Shipping is included in laboratory analysis costs when a minimum of seven (7) samples are sent per package and placed in a UPS drop box or given to a local driver. Packages that contain less than seven (7) samples per package will result in a \$15.00 shipping fee with UPS Ground. Samples sent from West Virginia typically arrive at the laboratory in 2 business days via UPS Ground. Should the state of West Virginia choose to ship overnight the cost of the sample will increase to \$19.00 per confirmation when 7 or more samples are shipped.

**Training:** Onsite training can be provided. Upon award, dates can be arranged for each location. Training can also be provided via live video feed. An archive of that video may be available for later viewing.

**Reporting Results:** Client Portal access is available for all registered officers to view. The state of West Virginia will designate what officers will have access to this information. Registration instructions and Facility ID will be assigned upon bid award.

Results for initial laboratory screens will be made available via a web based client portal 24-48 business hours after receipt. GC/MS confirmation average is 72 business hours after request. Esoteric/Designer Drug confirmation results are available, on average, 7 business days.

**Requesting Confirmations/Additional Testing:** Additional confirmation requests can be faxed or emailed. All confirmation requests must be submitted in writing. A confirmation request form will be available via the client Portal for downloading.

**Testimony:** We treat each sample as if it is going to go to court. Our standard operation procedures ensure that the chain of custody and integrity of the sample are protected at all times. As a result, our staff is able to guarantee defensible court accepted testimony. As a part of this contract, twenty-four (24) affidavits per contract year will be provided at no additional cost. Video/telephonic testimony will be available and complimentary for the first hour. Additional video testimony will be \$50/hr. Testimony

is \$350.00 per hour (from time of departure to return to original if an expert witness has to travel to West Virginia.

### **Qualification/Certification and Staffing**

#### **Certifications** GLL holds certifications in the following:

- Toxicologist- Diplomat of the American Board of Forensic Toxicology
- Toxicologist- American Academy of Clinical Toxicology- Fellow
- National Certified Medical Review Officer
- American Board of Independent Medical Examiners
