PURCHASING AFFIDAVIT

CONSTRUCTION CONTRACTS: Under W. Va. Code § 5-22-1(i), the contracting public entity shall not award a construction contract to any bidder that is known to be in default on any monetary obligation owed to the state or a political subdivision of the state, including, but not limited to, obligations related to payroll taxes, property taxes, sales and use taxes, fire service fees, or other fines or fees.

ALL OTHER CONTRACTS: Under W. Va. Code § 5A-3-10a, no contract or renewal of any contract may be awarded by the state or any of its political subdivisions to any vendor or prospective vendor when the vendor or prospective vendor or a related party to the vendor or prospective vendor is a debtor and: (1) the debt owed is an amount greater than one thousand dollars in the aggregate; or (2) the debtor is in employer default.

EXCEPTION: The prohibition listed above does not apply where a vendor has contested any tax administered pursuant to chapter eleven of the W. Va. Code, workers' compensation premium, permit fee or environmental fee or assessment and the matter has not become final or where the vendor has entered into a payment plan or agreement and the vendor is not in default of any of the provisions of such plan or agreement.

DEFINITIONS:

"Debt" means any assessment, premium, penalty, fine, tax or other amount of money owed to the state or any of its political subdivisions because of a judgment, fine, permit violation, license assessment, defaulted workers' compensation premium, penalty or other assessment presently delinquent or due and required to be paid to the state or any of its political subdivisions, including any interest or additional penalties accrued thereon.

"Employer default" means having an outstanding balance or liability to the old fund or to the uninsured employers' fund or being in policy default, as defined in W. Va. Code § 23-2c-2, failure to maintain mandatory workers' compensation coverage, or failure to fully meet its obligations as a workers' compensation self-insured employer. An employer is not in employer default if it has entered into a repayment agreement with the Insurance Commissioner and remains in compliance with the obligations under the repayment agreement.

"Related party" means a party, whether an individual, corporation, partnership, association, limited liability company or any other form or business association or other entity whatsoever, related to any vendor by blood, marriage, ownership or contract through which the party has a relationship of ownership or other interest with the vendor so that the party will actually or by effect receive or control a portion of the benefit, profit or other consideration from performance of a vendor contract with the party receiving an amount that meets or exceeds five percent of the total contract amount.

AFFIRMATION: By signing this form, the vendor's authorized signer affirms and acknowledges under penalty of law for false swearing (W. Va. Code § 61-5-3) that: (1) for construction contracts, the vendor is not in default on any monetary obligation owed to the state or a political subdivision of the state, and (2) for all other contracts, that neither vendor nor any related party owe a debt as defined above and that neither vendor nor any related party are in employer default as defined above, unless the debt or employer default is permitted under the exception above.

EXPERIENCE

DVC, in addition to its supervisory staff assigned to this project, have successfully completed work highly similar to the Chief Logan Lodge Cabin Construction project. Specific examples of our firm's project experience are provided below.

1. DESIGN-BUILD COMMUNITY LIVING CENTER (CLC) 10-BED ADDITION VA MEDICAL CENTER MARTINSBURG, WV

Dollar Value: \$2,527,530

Description: DVC was contracted to oversee the design-build construction of the repair, renovation, alteration and expansion to the existing CLC at the VAMC in Martinsburg, WV. This project increased private resident rooms for veterans requiring long-term care. The new space provided in-room access to medical information, pharmacy support, ceiling lifts and adequate space for patient and medical providers. The project also included enhancing lighting, providing artwork and incorporating the new building systems into the existing campus' utility, alarm, public-address and telecommunications infrastructure. It included numerous relevant disciplines including

2. HISTORIC BARN RECONSTRUCTION POOLESVILLE, MD

Dollar Value: \$507,902

Description: DVC was contracted by an insurance agency to perform the re-construction of an historic barn in Poolesville, MD. The barn, owned by a private organization, had been damaged by an electrical fire and required a complete overhaul and re-construction of all building components. Because of the historic nature of this structure, DVC's Project Manager carefully analyzed photographs of the pre-existing building to identify materials, workmanship, methods and other elements of the original project construction. DVC constructed wood beams and other structural components in a manner that minimized the use of nails and other metal hardware, allowing the pieces to connect together seamlessly. We also obtained timber and other materials from sources as close to the original construction as possible. All finishes and painting were designed and applied to match the appearance of the original historic structure. DVC also incorporated upgrades to other building systems including electrical, lighting, plumbing and heating in order to provide a functional and comfortable facility. The new barn included space for animals, feed and equipment, as well as modernized office space and restroom facilities.
