# Request for Taxpayer Identification Number and Certification

**Give Form to the  
 requester. Do not  
 send to the IRS.**

Print or type  
 See Specific Instructions on page 2.

|   |   |
|---|---|
| 1 Name (as shown on your income tax return). Name is required on this line; do not leave this line blank.<br><div style="background-color: black; width: 100%; height: 15px;"></div>  |   |
| 2 Business name/disregarded entity name, if different from above<br><div style="background-color: black; width: 100%; height: 15px;"></div>   |   |
| 3 Check appropriate box for federal tax classification; check only <b>one</b> of the following seven boxes:<br><input type="checkbox"/> Individual/sole proprietor or single-member LLC <input type="checkbox"/> C Corporation <input type="checkbox"/> S Corporation <input type="checkbox"/> Partnership <input type="checkbox"/> Trust/estate<br><input type="checkbox"/> limited liability company. Enter the tax classification (C=C corporation, S=S corporation, P=partnership) ▶ _____<br><b>Note.</b> For a single-member LLC that is disregarded, do not check LLC; check the appropriate box in the line above for the tax classification of the single-member owner.<br><input type="checkbox"/> Other (see instructions) ▶ _____ | 4 Exemptions (codes apply only to certain entities, not individuals; see instructions on page 3):<br>Exempt payee code (if any) _____<br>Exemption from FATCA reporting code (if any) _____<br><small>(Applies to accounts maintained outside the U.S.)</small> |
| 5 Address (number, street, and apt. or suite no.)<br><div style="background-color: black; width: 100%; height: 15px;"></div>  | Requester's name and address (optional)   |
| 6 City, state, and ZIP code<br><div style="background-color: black; width: 100%; height: 15px;"></div>  |   |
| 7 List account number(s) here (optional)  |   |

## Part I Taxpayer Identification Number (TIN)

Enter your TIN in the appropriate box. The TIN provided must match the name given on line 1 to avoid backup withholding. For individuals, this is generally your social security number (SSN). However, for a resident alien, sole proprietor, or disregarded entity, see the Part I instructions on page 3. For other entities, it is your employer identification number (EIN). If you do not have a number, see *How to get a TIN* on page 3.

| Social security number |  |  |  |  |  |  |  |  |  |
|------------------------|--|--|--|--|--|--|--|--|--|
|                        |  |  |  |  |  |  |  |  |  |

**or**

| Employer identification number |  |  |  |  |  |  |  |  |  |
|--------------------------------|--|--|--|--|--|--|--|--|--|
|                                |  |  |  |  |  |  |  |  |  |

**Note.** If the account is in more than one name, see the instructions for line 1 and the chart on page 4 for guidelines on whose number to enter.

## Part II Certification

Under penalties of perjury, I certify that:

1. The number shown on this form is my correct taxpayer identification number (or I am waiting for a number to be issued to me); and
2. I am not subject to backup withholding because: (a) I am exempt from backup withholding, or (b) I have not been notified by the Internal Revenue Service (IRS) that I am subject to backup withholding as a result of a failure to report all interest or dividends, or (c) the IRS has notified me that I am no longer subject to backup withholding; and
3. I am a U.S. citizen or other U.S. person (defined below); and
4. The FATCA code(s) entered on this form (if any) indicating that I am exempt from FATCA reporting is correct.

**Certification instructions.** You must cross out item 2 above if you have been notified by the IRS that you are currently subject to backup withholding because you have failed to report all interest and dividends on your tax return. For real estate transactions, item 2 does not apply. For mortgage interest paid, acquisition or abandonment of secured property, cancellation of debt, contributions to an individual retirement arrangement (IRA), and generally, payments other than interest and dividends, you are not required to sign the certification, but you must provide your correct TIN. See the instructions on page 3.

|                  |  |  |
|------------------|--|--|
| <b>Sign Here</b> | Signature of U.S. person ▶ <div style="background-color: black; width: 100%; height: 20px;"></div> | Date ▶ <div style="background-color: black; width: 100%; height: 20px;"></div> |
|------------------|--|--|

## General Instructions

Section references are to the Internal Revenue Code unless otherwise noted.  
**Future developments.** Information about developments affecting Form W-9 (such as legislation enacted after we release it) is at [www.irs.gov/fw9](http://www.irs.gov/fw9).

### Purpose of Form

- An individual or entity (Form W-9 requester) who is required to file an information return with the IRS must obtain your correct taxpayer identification number (TIN) which may be your social security number (SSN), individual taxpayer identification number (ITIN), adoption taxpayer identification number (ATIN), or employer identification number (EIN), to report on an information return the amount paid to you, or other amount reportable on an information return. Examples of information returns include, but are not limited to, the following:
- Form 1099-INT (interest earned or paid)
  - Form 1099-DIV (dividends, including those from stocks or mutual funds)
  - Form 1099-MISC (various types of income, prizes, awards, or gross proceeds)
  - Form 1099-B (stock or mutual fund sales and certain other transactions by brokers)
  - Form 1099-S (proceeds from real estate transactions)
  - Form 1099-K (merchant card and third party network transactions)

- Form 1098 (home mortgage interest), 1098-E (student loan interest), 1098-T (tuition)
  - Form 1099-C (canceled debt)
  - Form 1099-A (acquisition or abandonment of secured property)
- Use Form W-9 only if you are a U.S. person (including a resident alien), to provide your correct TIN.
- If you do not return Form W-9 to the requester with a TIN, you might be subject to backup withholding. See What is backup withholding? on page 2.*
- By signing the filled-out form, you:
1. Certify that the TIN you are giving is correct (or you are waiting for a number to be issued),
  2. Certify that you are not subject to backup withholding, or
  3. Claim exemption from backup withholding if you are a U.S. exempt payee. If applicable, you are also certifying that as a U.S. person, your allocable share of any partnership income from a U.S. trade or business is not subject to the withholding tax on foreign partners' share of effectively connected income, and
  4. Certify that FATCA code(s) entered on this form (if any) indicating that you are exempt from the FATCA reporting, is correct. See *What is FATCA reporting?* on page 2 for further information.

State of West Virginia

**VENDOR PREFERENCE CERTIFICATE**

Certification and application is hereby made for Preference in accordance with *West Virginia Code*, §5A-3-37. (Does not apply to construction contracts). *West Virginia Code*, §5A-3-37, provides an opportunity for qualifying vendors to request (at the time of bid) preference for their residency status. Such preference is an evaluation method only and will be applied only to the cost bid in accordance with the *West Virginia Code*. This certificate for application is to be used to request such preference. The Purchasing Division will make the determination of the Vendor Preference, if applicable.

**1. Application is made for 2.5% vendor preference for the reason checked:**

- \_\_\_\_\_ Bidder is an individual resident vendor and has resided continuously in West Virginia for four (4) years immediately preceding the date of this certification; **or**,
- \_\_\_\_\_ Bidder is a partnership, association or corporation resident vendor and has maintained its headquarters or principal place of business continuously in West Virginia for four (4) years immediately preceding the date of this certification; or 80% of the ownership interest of Bidder is held by another individual, partnership, association or corporation resident vendor who has maintained its headquarters or principal place of business continuously in West Virginia for four (4) years immediately preceding the date of this certification; **or**,
- \_\_\_\_\_ Bidder is a nonresident vendor which has an affiliate or subsidiary which employs a minimum of one hundred state residents and which has maintained its headquarters or principal place of business within West Virginia continuously for the four (4) years immediately preceding the date of this certification; **or**,

**2. Application is made for 2.5% vendor preference for the reason checked:**

- \_\_\_\_\_ Bidder is a resident vendor who certifies that, during the life of the contract, on average at least 75% of the employees working on the project being bid are residents of West Virginia who have resided in the state continuously for the two years immediately preceding submission of this bid; **or**,

**3. Application is made for 2.5% vendor preference for the reason checked:**

- \_\_\_\_\_ Bidder is a nonresident vendor employing a minimum of one hundred state residents or is a nonresident vendor with an affiliate or subsidiary which maintains its headquarters or principal place of business within West Virginia employing a minimum of one hundred state residents who certifies that, during the life of the contract, on average at least 75% of the employees or Bidder's affiliate's or subsidiary's employees are residents of West Virginia who have resided in the state continuously for the two years immediately preceding submission of this bid; **or**,

**4. Application is made for 5% vendor preference for the reason checked:**

- \_\_\_\_\_ Bidder meets either the requirement of both subdivisions (1) and (2) or subdivision (1) and (3) as stated above; **or**,

**5. Application is made for 3.5% vendor preference who is a veteran for the reason checked:**

- \_\_\_\_\_ Bidder is an individual resident vendor who is a veteran of the United States armed forces, the reserves or the National Guard and has resided in West Virginia continuously for the four years immediately preceding the date on which the bid is submitted; **or**,

**6. Application is made for 3.5% vendor preference who is a veteran for the reason checked:**

- \_\_\_\_\_ Bidder is a resident vendor who is a veteran of the United States armed forces, the reserves or the National Guard, if, for purposes of producing or distributing the commodities or completing the project which is the subject of the vendor's bid and continuously over the entire term of the project, on average at least seventy-five percent of the vendor's employees are residents of West Virginia who have resided in the state continuously for the two immediately preceding years.

**7. Application is made for preference as a non-resident small, women- and minority-owned business, in accordance with *West Virginia Code* §5A-3-59 and *West Virginia Code of State Rules*.**

- \_\_\_\_\_ Bidder has been or expects to be approved prior to contract award by the Purchasing Division as a certified small, women- and minority-owned business.

Bidder understands if the Secretary of Revenue determines that a Bidder receiving preference has failed to continue to meet the requirements for such preference, the Secretary may order the Director of Purchasing to: (a) reject the bid; or (b) assess a penalty against such Bidder in an amount not to exceed 5% of the bid amount and that such penalty will be paid to the contracting agency or deducted from any unpaid balance on the contract or purchase order.

By submission of this certificate, Bidder agrees to disclose any reasonably requested information to the Purchasing Division and authorizes the Department of Revenue to disclose to the Director of Purchasing appropriate information verifying that Bidder has paid the required business taxes, provided that such information does not contain the amounts of taxes paid nor any other information deemed by the Tax Commissioner to be confidential.

**Under penalty of law for false swearing (*West Virginia Code*, §61-5-3), Bidder hereby certifies that this certificate is true and accurate in all respects; and that if a contract is issued to Bidder and if anything contained within this certificate changes during the term of the contract, Bidder will notify the Purchasing Division in writing immediately.**

Bidder: \_\_\_\_\_

Date: \_\_\_\_\_

Title: \_\_\_\_\_

STATE OF WEST VIRGINIA  
Purchasing Division

# PURCHASING AFFIDAVIT

**MANDATE:** Under W. Va. Code §5A-3-10a, no contract or renewal of any contract may be awarded by the state or any of its political subdivisions to any vendor or prospective vendor when the vendor or prospective vendor or a related party to the vendor or prospective vendor is a debtor and: (1) the debt owed is an amount greater than one thousand dollars in the aggregate; or (2) the debtor is in employer default.

**EXCEPTION:** The prohibition listed above does not apply where a vendor has contested any tax administered pursuant to chapter eleven of the W. Va. Code, workers' compensation premium, permit fee or environmental fee or assessment and the matter has not become final or where the vendor has entered into a payment plan or agreement and the vendor is not in default of any of the provisions of such plan or agreement.

**DEFINITIONS:**

**"Debt"** means any assessment, premium, penalty, fine, tax or other amount of money owed to the state or any of its political subdivisions because of a judgment, fine, permit violation, license assessment, defaulted workers' compensation premium, penalty or other assessment presently delinquent or due and required to be paid to the state or any of its political subdivisions, including any interest or additional penalties accrued thereon.

**"Employer default"** means having an outstanding balance or liability to the old fund or to the uninsured employers' fund or being in policy default, as defined in W. Va. Code § 23-2c-2, failure to maintain mandatory workers' compensation coverage, or failure to fully meet its obligations as a workers' compensation self-insured employer. An employer is not in employer default if it has entered into a repayment agreement with the Insurance Commissioner and remains in compliance with the obligations under the repayment agreement.

**"Related party"** means a party, whether an individual, corporation, partnership, association, limited liability company or any other form or business association or other entity whatsoever, related to any vendor by blood, marriage, ownership or contract through which the party has a relationship of ownership or other interest with the vendor so that the party will actually or by effect receive or control a portion of the benefit, profit or other consideration from performance of a vendor contract with the party receiving an amount that meets or exceeds five percent of the total contract amount.

**AFFIRMATION:** By signing this form, the vendor's authorized signer affirms and acknowledges under penalty of law for false swearing (W. Va. Code §61-5-3) that neither vendor nor any related party owe a debt as defined above and that neither vendor nor any related party are in employer default as defined above, unless the debt or employer default is permitted under the exception above.

**WITNESS THE FOLLOWING SIGNATURE:**

Vendor's Name: Thunderbolt Veracity LLC

Authorized Signature: Jack E. Snyder Date: 8/15/2017

State of West Virginia

County of Barbour, to-wit:

Taken, subscribed, and sworn to before me this 15 day of August, 2017.

My Commission expires Oct. 16, 2018.

# Aruba 2920 Switch Series

## Product overview

The Aruba 2920 Switch Series provides security, scalability, and ease of use for enterprise edge, SMB and branch office networks. A powerful ProVision ASIC delivers low latency, more packet buffering, and adaptive power consumption. This Basic Layer 3 switch series supports modular stacking, 10GbE, static and RIP routing, PoE+, ACLs, sFlow®, and IPv6. The Aruba 2920 Switch Series delivers a consistent wired/wireless user experience with unified management tools such as ClearPass Policy Manager and AirWave Network Management and is ready for software-defined networking (SDN) with OpenFlow support.

The Aruba 2920 Switch Series provides cost-effective pay as you grow modular stacking with a 2-port stacking module, support for up to four 10GBASE-T (or SFP+) uplinks and upgradeable power supplies so your network can quickly scale when needed. The robust Basic Layer 3 feature set requires no licensing and includes a limited lifetime warranty.

## Key features

- Aruba Basic Layer 3 switch series with stacking, static & RIP routing, IPv6, ACLs, and sFlow
- Modular 10GbE uplinks (SFP+ and 10GBASE-T)
- Removable and upgradeable power supplies for up to 1440 W PoE+
- Software-defined networking (SDN) ready with OpenFlow support
- Supports ClearPass Policy Manager and AirWave Network Management

## Features and benefits

### Software-defined networking (SDN)

- OpenFlow

Is a key technology that enables SDN by allowing separation of the data (packet forwarding) and control (routing decision) paths

### Unified Wired and Wireless

- **New** ClearPass Policy Manager

Supports unified wired and wireless policies using Aruba ClearPass Policy Manager

- HTTP redirect function

Supports HPE Intelligent Management Center (IMC) bring your own device (BYOD) solution

- **New** Switch auto-configuration

Automatically configures switch for rogue AP detection, add VLAN, and set PoE priority when Aruba AP is detected

### Quality of service (QoS)

- Traffic prioritization (IEEE 802.1p)

Allows real-time traffic classification into eight priority levels that are mapped to eight queues

- L4 prioritization

Enables prioritization based on TCP/UDP port numbers

- Class of service (CoS)

Sets the IEEE 802.1p priority tag based on the IP address, IP type of service (ToS), L3 protocol, TCP/UDP port number, source port, and DiffServ

- Rate limiting

Establishes per-port ingress-enforced maximums and per-port per-queue minimums

- Large buffers

Provide graceful congestion management

### Connectivity

- Flexible 10 Gb/s Ethernet connectivity

Up to four optional 10 Gigabit ports (SFP+ and/or 10GBASE-T)

- Optional two-port stacking module with up to 40 Gb/s per port

Allows stacking of up to four switch units into a single virtual device

- Auto-MDIX

Provides automatic adjustments for straight-through or crossover cables on all 10/100 and 10/100/1000 ports

- IPv6

– IPv6 host

Allows the switches to be managed and deployed at the edge of IPv6 networks

– Dual stack (IPv4/IPv6)

Provides the transition mechanism from IPv4 to IPv6; and supports connectivity for both protocols

- MLD snooping

Forwards IPv6 multicast traffic to the appropriate interface; and helps prevent IPv6 multicast traffic from flooding the network

- IPv6 ACL/QoS

Supports ACL and QoS for IPv6 network traffic

- IPv6 routing

Supports static and RIPng routing

- Security

Provides RA guard, DHCPv6 protection, dynamic IPv6 lockdown, and ND snooping

- IEEE 802.3at PoE+

Provides up to 30 W per port, allowing support of the latest PoE+-capable devices such as IP phones, wireless access points, and security cameras as well as any IEEE 802.3af-compliant end device; and mitigates the cost of additional electrical cabling and circuits that would otherwise be necessary in IP phone and WLAN deployments

- Pre-standard PoE support

Detects and provides power to pre-standard PoE devices

- Dual-personality functionality

Includes four 10/100/1000 ports or SFP slots for optional fiber connectivity such as Gigabit SX, LX, and LH or 100 FX

### **Performance**

- Energy-efficient design

- 80 PLUS Silver Certified power supply

Increases power efficiency and savings

- Energy-efficient Ethernet (EEE) support

Reduces power consumption in accordance with IEEE 802.3az

- Aruba ProVision ASIC architecture

Is designed with the latest ProVision ASIC, providing very low latency, increased packet buffering, and adaptive power consumption

- Selectable queue configurations

Increases performance by selecting the number of queues and associated memory buffering that best meet the requirements of the network applications

### **Convergence**

- IP multicast snooping (data-driven IGMP)

Mitigates flooding of IP multicast traffic automatically

- Media endpoint discovery (MED) enabled by the Link Layer Discovery Protocol (LLDP)

Defines a standard extension of LLDP that stores values for parameters such as QoS and VLAN to automatically configure network devices such as IP phones

- IEEE 802.1ab LLDP

Facilitates easy mapping, using network management applications with the LLDP automated device discovery protocol

- PoE and PoE+ allocations

Support multiple methods—automatic, IEEE 802.3at dynamic, LLDP-MED fine grain, IEEE 802.3af device class, or user specified—to allocate and manage PoE/PoE+ power for more efficient energy use

- Local MAC authentication

Assigns attributes such as VLAN and QoS, using a locally configured profile that can be a list of MAC prefixes

### **Resiliency and high availability**

- Multiple spanning tree protocol (STP) and IEEE 802.1s

Offers high link availability in multiple VLAN environments by allowing multiple spanning trees; and provides legacy support for IEEE 802.1d and IEEE 802.1w

- IEEE 802.3ad Link Aggregation Control Protocol (LACP) and Hewlett Packard Enterprise port trunking

Support up to 60 static, dynamic, or distributed trunks active across a stack, with each trunk having up to eight links (ports) per static trunk; and offer support for trunking across stack members

- Ring and chain stacking topology

Allows failure of a link or switch in a ring of stacked switches, while the remaining connected switches continue operation

- SmartLink

Provides easy-to-configure link redundancy of active and standby links

### **Management**

- **New** Zero-Touch Provisioning (ZTP)

Uses settings in DHCP to enable ZTP with Aruba AirWave Network Management

- SNMPv1, v2, and v3

Provide complete support of SNMP and an industry-standard management information base (MIB) as well as private extensions; SNMPv3 supports increased security using encryption

- Out-of-band Ethernet management port

Enables management of a separate physical management network, keeping management traffic segmented from network data traffic

### **Manageability**

- Dual flash images

Provides independent primary and secondary operating system files for backup while upgrading

- Friendly port names

Allows assignment of descriptive names to ports

- Find, fix, and inform

Finds and fixes common network problems automatically, and then informs the administrator

- Multiple configuration files

Are easily stored with a flash image

- Software updates

Are offered as free downloads from the Web

- Remote monitoring (RMON), extended RMON (XRMON), and sFlow  
Provide advanced monitoring and reporting capabilities for statistics, history, alarms, and events
- Troubleshooting  
Accelerates network problem solving with ingress and egress port monitoring
- Unidirectional link detection (UDLD)  
Supports Hewlett Packard Enterprise UDLD and DLDP protocols to monitor a cable between two switches and shut down the ports on both ends if the cable is broken.

### **L2 switching**

- VLAN support and tagging  
Supports IEEE 802.1Q (4,094 VLAN IDs) and 256 VLANs simultaneously
- **New** GVRP and MVRP  
Enables automatic learning and dynamic assignment of VLANs
- Jumbo packet support  
Improves the performance of large data transfers; and supports frame sizes of up to 9,220 bytes
- IEEE 802.1v protocol VLANs  
Isolate select non-IPv4 protocols automatically into their own VLANs
- Rapid per-VLAN spanning tree (RPVST+)  
Allows each VLAN to build a separate spanning tree, improving link bandwidth usage in network environments with PVST+

### **L3 services**

- DHCP server  
Centralizes and reduces the cost of IPv4 address management

### **L3 routing**

- Static IP routing  
Provides manually configured routing; includes ECMP capability
- RIP  
Includes RIPv1, RIPv2, and RIPv2 routing
- 256 static and 2,048 RIP routes  
Facilitate segregation of user data, without adding external hardware

### **Security**

- **New** Private VLAN  
Provides network security by restricting peer-to-peer communication to prevent a variety of malicious attacks; typically a switch port can only communicate with other ports in the same community and/or an uplink port, regardless of VLAN ID or destination MAC address
- Multiple user authentication methods
  - IEEE 802.1X  
Uses an IEEE 802.1X supplicant on the client, in conjunction with a RADIUS server, to authenticate in accordance with industry standards

- Web-based authentication
  - Provides a browser-based environment, similar to IEEE 802.1X, to authenticate clients that do not support the IEEE 802.1X supplicant
- MAC-based authentication
  - Authenticates the client with a RADIUS server, based on the client's MAC address
- Authentication flexibility
  - Multiple IEEE 802.1X users per port
    - Provides authentication of multiple IEEE 802.1X users per port; and helps prevent a user from “piggybacking” on another user's IEEE 802.1X authentication
  - Concurrent IEEE 802.1X, Web, and MAC authentication schemes per port
    - Allows a switch port to accept up to 32 sessions of IEEE 802.1X, Web, and MAC authentications
- Access Control Lists (ACLs)
  - Provide IP L3 filtering, based on the source/destination IP address/subnet and source/destination TCP/UDP port number
- Source-port filtering
  - Allows only specified ports to communicate with each other
- RADIUS/TACACS+
  - Eases switch management security administration by using a password authentication server
- IEEE 802.1X, MAC, or Web authentication
  - Provides concurrent network access control and Web authentication of up to 24 clients per port
- Secure shell (SSH)
  - Encrypts all transmitted data for secure remote CLI access over IP networks
- Secure Sockets Layer (SSL)
  - Encrypts all HTTP traffic, allowing secure access to the browser-based management GUI in the switch
- Port security
  - Allows access only to specified MAC addresses, which can be learned or specified by the administrator
- MAC address lockout
  - Helps prevent certain configured MAC addresses from connecting to the network
- Secure FTP
  - Allows secure file transfer to and from the switch; and protects against unwanted file downloads or unauthorized copying of a switch configuration file
- Switch management logon security
  - Helps secure switch CLI logon by optionally requiring either RADIUS or TACACS+ authentication
- Custom banner
  - Displays the security policy when users log in to the switch
- STP bridge protocol data units (BPDUs) port protection
  - Blocks BPDUs on ports that do not require BPDUs, mitigating forged BPDU attacks

- DHCP protection  
Blocks DHCP packets from unauthorized DHCP servers, mitigating denial-of-service attacks
- Dynamic ARP protection  
Blocks ARP broadcasts from unauthorized hosts, helping prevent eavesdropping or theft of network data
- STP root guard  
Protects the root bridge from malicious attacks or configuration mistakes
- Identity-driven ACL  
Enables implementation of a highly granular and flexible access security policy and VLAN assignment specific to each authenticated network user
- Per-port broadcast throttling  
Configures broadcast control selectively on heavy traffic port uplinks

**Monitor and diagnostics**

- Digital optical monitoring of SFP+ and 1000BASE-T transceivers  
Allows detailed monitoring of the transceiver settings and parameters

**Warranty and support**

- Limited Lifetime Warranty:  
See [hpe.com/networking/warrantysummary](https://www.hpe.com/networking/warrantysummary) for warranty and support information included with your product purchase.
- Software releases  
To find software for your product, visit [hpe.com/networking/support](https://www.hpe.com/networking/support); for details on the software releases available with your product purchase, visit [hpe.com/networking/warrantysummary](https://www.hpe.com/networking/warrantysummary)

## Aruba 2920 Switch Series

### Specifications

**Aruba 2920-24G Switch (J9726A)**

**Aruba 2920-24G-PoE+ Switch (J9727A)**

**Aruba 2920-48G Switch (J9728A)**

|                                 | Aruba 2920-24G Switch (J9726A)   | Aruba 2920-24G-PoE+ Switch (J9727A)  | Aruba 2920-48G Switch (J9728A)   |

## Aruba 2920 Switch Series

### Specifications (continued)

|                                   | Aruba 2920-48G-PoE+ Switch (J9729A)   | Aruba 2920-48G-PoE+ 740W Switch (J9836A)  |
|-----------------------------------|---|---|
| <b>Electrical characteristics</b> |   |   |
| Frequency                         | 50/60 Hz  | 50/60 Hz  |
| 80plus.org Certification          | Silver  | Gold  |
| Maximum heat dissipation          | 399 BTU/hr (420.95 kJ/hr)   | 482 BTU/hr (508.51 kJ/hr)   |
| Voltage                           | 100–240VAC  | 110–240VAC  |
| Maximum power rating              | 487 W   | 881 W   |
| Idle power                        | 46 W  | 52 W  |
| PoE power                         | 370 W   | 740 W   |
| Notes                             | <p>Idle power is the actual power consumption of the device with no ports connected. Maximum power rating and maximum heat dissipation are the worst-case theoretical maximum numbers provided for planning the infrastructure with fully loaded PoE (if equipped), 100% traffic, all ports plugged in, and all modules populated. PoE power is the power supplied by the internal power supply. It is dependent on the type and quantity of power supplies and may be supplemented with the use of an external power supply (EPS). 370 W of PoE+ power is available using the internal default power supply.</p> | <p>Idle power is the actual power consumption of the device with no ports connected. ## Aruba 2920 Switch Series accessories

### Modules

Aruba 2920 2-Port 10GbE SFP+ Module (J9731A)  
 Aruba 2920 2-port 10GBASE-T Module (J9732A)  
 Aruba 2920 2-Port Stacking Module (J9733A)

### Transceivers

HPE X121 1G SFP LC SX Transceiver (J4858C)  
 HPE X121 1G SFP LC LX Transceiver (J4859C)  
 HPE X122 1G SFP LC BX-D Transceiver (J9142B)  
 HPE X122 1G SFP LC BX-U Transceiver (J9143B)  
 HPE X121 1G SFP LC LH Transceiver (J4860C)  
 HPE X121 1G SFP RJ45 T Transceiver (J8177C)  
 HPE X111 100M SFP LC FX Transceiver (J9054C)  
 HPE X112 100M SFP LC BX-D Transceiver (J9099B)  
 HPE X112 100M SFP LC BX-U Transceiver (J9100B)  
 HPE X132 10G SFP+ LC SR Transceiver (J9150A)  
 HPE X132 10G SFP+ LC LR Transceiver (J9151A)  
 HPE X132 10G SFP+ LC LRM Transceiver (J9152A)  
 HPE X132 10G SFP+ LC ER Transceiver (J9153A)  
 HPE X242 10G SFP+ to SFP+ 1m Direct Attach Copper Cable (J9281B)  
 HPE X242 10G SFP+ to SFP+ 3m Direct Attach Copper Cable (J9283B)  
 HPE X242 10G SFP+ to SFP+ 7m Direct Attach Copper Cable (J9285B)  
 HPE X242 10G SFP+ to SFP+ 10m Direct Attach Copper Cable (J9286B)  
 HPE X242 10G SFP+ to SFP+ 15m Direct Attach Copper Cable (J9287B)  
 HPE X244 10G XFP to SFP+ 1m Direct Attach Copper Cable (J9300A)  
 HPE X244 10G XFP to SFP+ 3m Direct Attach Copper Cable (J9301A)  
 HPE X244 10G XFP to SFP+ 5m Direct Attach Copper Cable (J9302A)

### Cables

HPE 0.5 m Multimode OM3 LC/LC Optical Cable (AJ833A)  
 HPE 1 m Multimode OM3 LC/LC Optical Cable (AJ834A)  
 HPE 2 m Multimode OM3 LC/LC Optical Cable (AJ835A)  
 HPE 5 m Multimode OM3 LC/LC Optical Cable (AJ836A)  
 HPE 15 m Multimode OM3 LC/LC Optical Cable (AJ837A)  
 HPE 30 m Multimode OM3 LC/LC Optical Cable (AJ838A)  
 HPE 50 m Multimode OM3 LC/LC Optical Cable (AJ839A)  
 HPE Premier Flex LC/LC Multi-mode OM4 2 fiber 1m Cable (QK732A)  
 HPE Premier Flex LC/LC Multi-mode OM4 2 fiber 2m Cable (QK733A)  
 HPE Premier Flex LC/LC Multi-mode OM4 2 fiber 5m Cable (QK734A)  
 HPE Premier Flex LC/LC Multi-mode OM4 2 fiber 15m Cable (QK735A)  
 HPE Premier Flex LC/LC Multi-mode OM4 2 fiber 30m Cable (QK736A)  
 HPE Premier Flex LC/LC Multi-mode OM4 2 fiber 50m Cable (QK737A)  
 HPE 2920 0.5m Stacking Cable (J9734A)  
 HPE 2920 1.0m Stacking Cable (J9735A)  
 HPE 2920 3.0m Stacking Cable (J9736A)  
 HPE 640 External/Redundant Power Supply 1m Cable (J9806A)

## Overview

HP ProCurve Switch 1800-24G

HP ProCurve Switch 1800-8G

## Models

HP ProCurve Switch 1800-8G

J9029A

HP ProCurve Switch 1800-24G

J9028B

## Key features

- Web-managed Layer 2 Gigabit switch
- 8- and 24-port models
- Fanless switch for silent operation
- Two dual-personality mini-GBIC slots (J9028B)
- Industry-leading warranty

## Introduction

The HP ProCurve Switch 1800 Series consists of two Gigabit, fanless, Web-managed switches that are ideal for deployment in open offices that require silent operation. The HP ProCurve Switch 1800-24G is a 24-port 10/100/1000 switch with two dual-personality ports for RJ-45 10/100/1000 or mini-GBIC fiber Gigabit connectivity. The HP ProCurve Switch 1800-8G is a small form factor, 8-port 10/100/1000 switch. The ProCurve Switch 1800 Series enables increased network capabilities and control versus unmanaged switches, with support for fundamental networking protocols such as trunking and VLANs. Both switches are managed through an intuitive Web interface. The ProCurve Switch 1800 Series is ideal for businesses making the transition from unmanaged connectivity to managed networks without added cost or complexity.

## Features and Benefits

## Connectivity

- **Jumbo packet support:** to improve performance of large data transfers

## Overview

### Resiliency and high availability

- **IEEE 802.3ad Link Aggregation Control Protocol (LACP):** provides link-level redundancy with support for up to 4 trunks on the HP ProCurve Switch 1800-8G and 12 trunks on the HP ProCurve Switch 1800-24G, each with up to 8 links (ports) per trunk

### Layer 2 switching

- **VLAN support and tagging:** support up to 64 port-based VLANs and dynamic configuration of IEEE 802.1Q VLAN tagging, providing security between workgroups

### Security

- **Management password:** provides security so that only authorized access to the Web browser interface is allowed

### Quality of Service (QoS)

- **Traffic prioritization:** honors priority of traffic based on 802.1p to deliver data to devices based on the priority and type of traffic
- **Broadcast control:** allows limitation of broadcast traffic rate to cut down on unwanted broadcast traffic on the network

### Manageability

- **Intuitive Web interface:** enables simple management via an easy-to-use Web browser interface for switch configuration, monitoring, and administration
- **Integration with ProCurve Manager:** enables discovery and mapping via ProCurve Manager, available as a free download from the Web
- **IEEE 802.1AB Link Layer Discovery Protocol (LLDP):** automated device discovery protocol for easy mapping by network management applications

### Monitor and diagnostics

- **Port mirroring:** enables traffic on a port to be simultaneously sent to a network analyzer for monitoring

### Ease of use

- **Comprehensive LED display with per-port indicators:** provides an at-a-glance view of status, activity, speed, and full-duplex operation
- **ProCurve/IEEE Auto-MDIX:** automatically adjusts for straight-through or crossover cables on all 10/100/1000 ports

### Flexibility

- **Small form factor:** ideal for desktop use; space-efficient for deployment flexibility (1800-8G only)
- **Designed with no fan:** enables quiet operation for deployment in open spaces

### Warranty and support\*

- **ProCurve Lifetime Warranty:** for as long as you own the product, with next-business-day advance replacement (available in most countries).
- **Electronic and telephone support:** limited electronic and telephone support is available from HP. Refer to the HP Web site at: [www.procurve.com/support](http://www.procurve.com/support) for details on the support provided and the period during which support is available.
- **Software releases:** refer to the HP Web site at: [www.procurve.com/support](http://www.procurve.com/support) for details on the software releases provided and the period during which software releases are available.

## Overview

\* For as long as you own the product, with next-business-day advance replacement (available in most countries). The following hardware products and their related series modules have a one-year hardware warranty with extensions available: HP ProCurve Routing Switch 9300m Series, HP ProCurve Switch 8100fl Series, and HP ProCurve Network Access Controller 800. The following hardware mobility products have a one-year hardware limited warranty with extensions available: HP ProCurve M111 Client Bridge, HP ProCurve MSM3xx-R Access Points, HP ProCurve MSM7xx Mobility and Access Controllers, HP ProCurve RF Manager IDS/IPS Systems, HP ProCurve MSM Power Supplies, and HP ProCurve 1-Port Power Injector. Standalone software, upgrades, or licenses may have a different warranty duration. For details, refer to the ProCurve Software License, Warranty, and Support booklet at: <http://www.procurve.com/warranty>.

## HP X121 1G SFP LC Transceivers (SX, LX, LH)

### Overview

HP X121 1G SFP LC SX Transceiver

HP X121 1G SFP LC LX Transceiver

HP X121 1G SFP LC LH Transceiver

### Models

HP X121 1G SFP LC SX Transceiver  
HP X121 1G SFP LC LX Transceiver  
HP X121 1G SFP LC LH Transceiver

J4858C  
J4859C  
J4860C

# QuickSpecs

## HP X121 1G SFP LC Transceivers (SX, LX, LH)

### Technical Specifications

|   |   |   |
|---|---|---|
| <b>HP X121 1G SFP LC SX Transceiver (J4858C)</b>  | <b>Ports</b><br><b>Physical characteristics</b> | 1 LC 1000BASE-SX port; Duplex: full only<br>Dimensions: 2.24(d) x 0.54(w) x 0.48(h) in. (5.69 x 1.37 x 1.22 cm)<br>Weight: 0.04 lb. (0.02 kg)   |
| A small form-factor pluggable (SFP) Gigabit SX transceiver that provides a full-duplex Gigabit solution up to 550 m on multimode fiber. | <b>Environment</b>                              | Transceiver form factor: SFP<br>Operating temperature: 32°F to 158°F (0°C to 70°C)<br>Operating relative humidity: 5% to 85%, noncondensing<br>Nonoperating/Storage temperature: -40°F to 203°F (-40°C to 85°C)<br>Altitude: up to 10,000 ft. (3 km)  |
|   | <b>Electrical characteristics</b>               | Power consumption typical: 0.4 W<br>Power consumption maximum: 0.7 W  |
|   | <b>Cabling</b>                                  | Type: <ul style="list-style-type: none"> <li>● 62.5/125 <math>\mu\text{m}</math> or 50/125 <math>\mu\text{m}</math> (core/cladding) diameter, graded-index, low metal content, multimode fiber optic, complying with ITU-T G.651 and ISO/IEC 793-2 Type A1b or A1a, respectively;</li> </ul> Maximum distance: <ul style="list-style-type: none"> <li>● 2-220 m (62.5 <math>\mu\text{m}</math> core diameter, 160 MHz*km bandwidth)</li> <li>● 2-275 m (62.5 <math>\mu\text{m}</math> core diameter, 200 MHz*km bandwidth)</li> <li>● 2-500 m (50 <math>\mu\text{m}</math> core diameter, 400 MHz*km bandwidth)</li> <li>● 2-550 m (50 <math>\mu\text{m}</math> core diameter, 500 MHz*km bandwidth)</li> </ul> |
|   | <b>Services</b>                                 | Cable length: 2-550m<br>Fiber type: Multi Mode<br>Refer to the HP website at <a href="http://www.hp.com/networking/services">www.hp.com/networking/services</a> for details on the service-level descriptions and product numbers. For details about services and response times in your area, please contact your local HP sales office.   |
| <b>HP X121 1G SFP LC LX Transceiver (J4859C)</b>  | <b>Ports</b><br><b>Physical characteristics</b> | 1 LC 1000BASE-LX port (IEEE 802.3z Type 1000BASE-LX); Duplex: full only<br>Dimensions: 2.24(d) x 0.54(w) x 0.486(h) in. (5.69 x 1.37 x 1.23 cm)<br>Weight: 0.04 lb. (0.02 kg)   |
| HP X121 1G SFP LC LX Transceiver: An SFP format gigabit transceiver with LC connectors using LX technology.                             | <b>Environment</b>                              | Operating temperature: 32°F to 158°F (0°C to 70°C)<br>Operating relative humidity: 0% to 85%, noncondensing<br>Nonoperating/Storage temperature: -40°F to 212°F (-40°C to 100°C)<br>Altitude: up to 10,000 ft. (3 km)   |
|   | <b>Cabling</b>                                  | Type: <ul style="list-style-type: none"> <li>● Either single mode or multimode; 62.5/125 <math>\mu\text{m}</math> or 50/125 <math>\mu\text{m}</math> (core/cladding) diameter, graded-index, low metal content, multimode fiber optic, complying with ITU-T G.651 and ISO/IEC 793-2 Type A1b or A1a, respectively; Low metal content, single-mode fiber-optic, complying with ITU-T G.652 and ISO/IEC 793-2 Type B1;</li> </ul>   |
|   |   | Maximum distance: <ul style="list-style-type: none"> <li>● 2-550 m (multimode 62.5 <math>\mu\text{m}</math> core diameter, 500 MHz*km bandwidth)</li> <li>● 2-550 m (multimode 50 <math>\mu\text{m}</math> core diameter, 400 MHz*km bandwidth)</li> </ul>  |

## SMARTNET Service Level Summary

|  |  |
|--|--|
| <b>SMARTNET The difference is in response time of replacement parts:</b>   | <b>SMARTNET Onsite levels include all parts, labor and material required for hardware maintenance. Again, the difference is in response time.</b>  |
| <u>SMARTnet 8x5xNBD (SNT)</u> - Next-business-day delivery of advance replacement parts, provided the request is received prior to 3pm local time.   | <u>SMARTnet Onsite 8x5xNBD (CS)</u> - Next-business-day onsite service with parts (Monday through Friday, excluding Cisco-observed holidays) for onsite hardware maintenance, provided the call was placed with Cisco before 3pm local time. |
| <u>SMARTnet 8x5x4 (SNTE)</u> - Four business-hour response time for advanced replacement parts from 9am to 5pm local time, Monday through Friday, excluding Cisco observed holidays.   | <u>SMARTnet Onsite 8x5x4 (C4S)</u> - Four-hour business response time for onsite service coverage with parts from 9am to 5pm local time Monday through Friday, excluding Cisco observed holidays   |
| <u>SMARTnet 24x7x4 (SNTP)</u> - Four-hour response time for advance replacement parts 24 hours a day, 7 days a week, including Cisco observed holidays.  | <u>SMARTnet Onsite 24x7x4 (C4P)</u> - Four-hour onsite service and parts, 24 hours a day, 365 days a year, including Cisco and locally observed holidays for onsite hardware maintenance.  |
| <u>SMARTnet 24x7x2 (S2P)</u> - Two-hour response time for advance replacement parts 24 hours a day, 7 Days a week, including Cisco observed holidays.  | <u>SMARTnet Onsite 24x7x2 (C2P)</u> - Two-hour onsite service and parts, 24 hours a day, 365 days a year, including Cisco and locally observed holidays for onsite hardware maintenance.   |
| <b><u>All levels of SMARTnet include the following:</u></b>  |  |
| *Telephone callback within one hour by the Cisco Technical Assistance Center (TAC) for all hardware, configuration, and software problems, from 9am to 5 pm local time, Monday through Friday, excluding Cisco-observed holidays |  |
| *24-hour, 7-day priority 1 and 2 telephone support   |  |
| *Critical problem escalation   |  |
| *E-Mail inquiries and responses  |  |
| *Software updates via CCO  |  |
| *One set of new manuals with each software update, or CD documentation for each unit under contract, upon request  |  |
| *Registered access to CCO, 24 hours a day, 7 days a week   |  |
