25. WAIVER: The failure of either party to insist upon a strict performance of any of the terms or provision of this Contract, or to exercise any option, right, or remedy herein contained, shall not be construed as a waiver or a relinquishment for the future of such term, provision, option, right, or remedy, but the same shall continue in full force and effect. Any waiver must be expressly stated in writing and signed by the waiving party.

26. SUBSEQUENT FORMS: The terms and conditions contained in this Contract shall supersede any and all subsequent terms and conditions which may appear on any form documents submitted by Vendor to the Agency or Purchasing Division such as price lists, order forms, invoices, sales agreements, or maintenance agreements, and includes internet websites or other electronic documents. 29. STATE EMPLOYEES: State employees are not permitted to utilize this Contract for personal use and the Vendor is prohibited from permitting or facilitating the same.

30. BANKRUPTCY: In the event the Vendor files for bankruptcy protection, the State of West Virginia may deem this Contract null and void, and terminate this Contract without notice.

31. PRIVACY, SECURITY, AND CONFIDENTIALITY: The Vendor agrees that it will not disclose to anyone, directly or indirectly, any such personally identifiable information or other confidential information gained from the Agency, unless the individual who is the subject of the information consents to the disclosure in writing or the disclosure is made pursuant to the Agency's policies, procedures, and rules. Vendor further agrees to comply with the Confidentiality Policies and Information Security Accountability Requirements, set forth in <http://www.state.wv.us/admin/purchase/privacy/default.html>.

The Purchasing Division will disclose any document labeled "confidential," "proprietary," "trade secret," "private," or labeled with any other claim against public disclosure of the documents, to include any "trade secrets" as defined by West Virginia Code § 47-22-1 et seq. All submissions are subject to public disclosure without notice.

33. LICENSING: In accordance with West Virginia Code of State Rules § 148-1-6.1.e, Vendor must be licensed and in good standing in accordance with any and all state and local laws and requirements by any state or local agency of West Virginia, including, but not limited to, the West Virginia Secretary of State's Office, the West Virginia Tax Department, West Virginia Insurance Commission, or any other state agency or political subdivision. Obligations related to political subdivisions may include, but are not limited to, business licensing, business and occupation taxes, inspection compliance, permitting, etc. Upon request, the Vendor must provide all necessary releases to obtain information to enable the Purchasing Division Director or the Agency to verify that the Vendor is licensed and in good standing with the above entities.

Obligations related to political subdivisions may include, but are not limited to, business licensing, business and occupation taxes, inspection compliance, permitting, etc. Notification under this provision must occur prior to the performance of any work under the contract by the subcontractor.

Such assignment shall be made and become effective at the time the purchasing agency tenders the initial payment to Vendor.

35. VENDOR CERTIFICATIONS: By signing its bid or entering into this Contract, Vendor certifies (1) that its bid or offer was made without prior understanding, agreement, or connection with any corporation, firm, limited liability company, partnership, person or entity submitting a bid or offer for the same material, supplies, equipment or services; (2) that its bid or offer is in all respects fair and without collusion or fraud; (3) that this Contract is accepted or entered into without any prior understanding, agreement, or connection to any other entity that could be considered a violation of law; and (4) that it has reviewed this Solicitation in its entirety; understands the requirements, terms and conditions, and other information contained herein.

Vendor's signature on its bid or offer also affirms that neither it nor its representatives have any interest, nor shall acquire any interest, direct or indirect, which would compromise the performance of its services hereunder. Any such interests shall be promptly presented in detail to the Agency. The individual signing this bid or offer on behalf of Vendor certifies that he or she is authorized by the Vendor to execute this bid or offer or any documents related thereto on Vendor's behalf; that he or she is authorized to bind the Vendor in a contractual relationship; and that, to the best of his or her knowledge, the Vendor has properly registered with any State agency that may require registration.

36. VENDOR RELATIONSHIP: The relationship of the Vendor to the State shall be that of an independent contractor and no principal-agent relationship or employer-employee relationship is contemplated or created by this Contract. The Vendor as an independent contractor is solely liable for the acts and omissions of its employees and agents. Vendor shall be responsible for selecting, supervising, and compensating any and all individuals employed pursuant to the terms of this Solicitation and resulting contract. Neither the Vendor, nor any employees or subcontractors of the Vendor, shall be deemed to be employees of the State for any purpose whatsoever. Vendor shall be exclusively responsible for payment of employees and contractors for all wages and salaries, taxes, withholding payments, penalties, fees, fringe benefits, professional liability insurance premiums, contributions to insurance and pension, or other deferred compensation plans, including but not limited to, Workers' Compensation and Social Security obligations, licensing fees, etc. and the filing of all necessary documents, forms, and returns pertinent to all of the foregoing.

37. INDEMNIFICATION: The Vendor agrees to indemnify, defend, and hold harmless the State and the Agency, their officers, and employees from and against: (1) Any claims or losses for services rendered by any subcontractor, person, or firm performing or supplying services, materials, or supplies in connection with the performance of the Contract; (2) Any claims or losses resulting to any person or entity injured or damaged by the Vendor, its officers, employees, or subcontractors by the publication, translation, reproduction, delivery, performance, use, or disposition of any data used under the Contract in a manner not authorized by the Contract, or by Federal or State statutes or regulations; and (3) Any failure of the Vendor, its officers, employees, or subcontractors to observe State and Federal laws including, but not limited to, labor and wage and hour laws.

38. PURCHASING AFFIDAVIT: In accordance with West Virginia Code § 5-22-1(i), the contracting public entity shall not award a contract for a construction project to any bidder that is known to be in default on any monetary obligation owed to the state or a political subdivision of the state, including, but not limited to, obligations related to payroll taxes, property taxes, sales and use taxes, fire service fees, or other fines or fees. Accordingly, prior to contract award, Vendors are required to sign, notarize, and submit the Purchasing Affidavit to the Purchasing Division affirming under oath that it is not in default on any monetary obligation owed to the state or a political subdivision of the state.

39. ADDITIONAL AGENCY AND LOCAL GOVERNMENT USE: This Contract may be utilized by other agencies, spending units, and political subdivisions of the State of West Virginia; county, municipal, and other local government bodies; and school districts ("Other Government Entities"). Any extension of this Contract to the aforementioned Other Government Entities must be on the same prices, terms, and conditions as those offered and agreed to in this Contract, provided that such extension is in compliance with the applicable laws, rules, and ordinances of the Other Government Entity. If the Vendor does not wish to extend the prices, terms, and conditions of its bid and subsequent contract to the Other Government Entities, the Vendor must clearly indicate such refusal in its bid. A refusal to extend this Contract to the Other Government Entities shall not impact or influence the award of this Contract in any manner.

40. CONFLICT OF INTEREST: Vendor, its officers or members or employees, shall not presently have or acquire an interest, direct or indirect, which would conflict with or compromise the performance of its obligations hereunder. Vendor shall periodically inquire of its officers, members and employees to ensure that a conflict of interest does not arise. Any conflict of interest discovered shall be promptly presented in detail to the Agency.

The service provider is responsible for any costs associated with the fingerprint-based state and federal background inquiry.

After the contract for such services has been approved, but before any such employees are permitted to be on the grounds or in the buildings of the Capitol complex or have access to sensitive or critical information, the service provider shall submit a list of all persons who will be physically present and working at the Capitol complex to the Director of the Division of

43. PREFERENCE FOR USE OF DOMESTIC STEEL PRODUCTS: Except when authorized by the Director of the Purchasing Division pursuant to W. Va. Code § 5A-3-56, no contractor may use or supply steel products for a State Contract Project other than those steel products made in the United States. A contractor who uses steel products in violation of this section may be subject to civil penalties pursuant to W. Va. Code § 5A-3-56. As used in this section:

- a. "State Contract Project" means any erection or construction of, or any addition to, alteration of or other improvement to any building or structure, including, but not limited to, roads or highways, or the installation of any heating or cooling or ventilating plants or other equipment, or the supply of and materials for such projects, pursuant to a contract with the State of West Virginia for which bids were solicited on or after June 6, 2001.
- b. "Steel Products" means products rolled, formed, shaped, drawn, extruded, forged, cast, fabricated or otherwise similarly processed, or processed by a combination of two or more or such operations, from steel made by the open heath, basic oxygen, electric furnace, Bessemer or other steel making process. The Purchasing Division Director may, in writing, authorize the use of foreign steel products if:
- c. The cost for each contract item used does not exceed one tenth of one percent (.1%) of the total contract cost or two thousand five hundred dollars (\$2,500.00), whichever is greater. For the purposes of this section, the cost is the value of the steel product as delivered to the project; or
- d. The Director of the Purchasing Division determines that specified steel materials are not produced in the United States in sufficient quantity or otherwise are not reasonably available to meet contract requirements.

44. PREFERENCE FOR USE OF DOMESTIC ALUMINUM, GLASS, AND STEEL: In Accordance with W. Va. Code § 5-19-1 et seq., and W. Va. CSR § 148-10-1 et seq., for every contract or subcontract, subject to the limitations contained herein, for the construction, reconstruction, alteration, repair, improvement or maintenance of public works or for the purchase of any item of machinery or equipment to be used at sites of public works, only domestic aluminum, glass or steel products shall be supplied unless the spending officer determines, in writing, after the receipt of offers or bids, (1) that the cost of domestic aluminum, glass or steel products is unreasonable or inconsistent with the public interest of the State of West Virginia, (2) that domestic aluminum, glass or steel products are not produced in sufficient quantities to meet the contract requirements, or (3) the available domestic aluminum, glass, or steel do not meet the contract specifications. This provision only applies to public works contracts awarded in an amount more than fifty thousand dollars (\$50,000) or public works contracts that require more than ten thousand pounds of steel products.

Revised 12/12/2017

The cost of domestic aluminum, glass, or steel products may be unreasonable if the cost is more than twenty percent (20%) of the bid or offered price for foreign made aluminum, glass, or steel products. If the domestic aluminum, glass or steel products to be supplied or produced in a "substantial labor surplus area", as defined by the United States Department of Labor, the cost of domestic aluminum, glass, or steel products may be unreasonable if the cost is more than thirty percent (30%) of the bid or offered price for foreign made aluminum, glass, or steel products. This preference shall be applied to an item of machinery or equipment, as indicated above, when the item is a single unit of equipment or machinery manufactured primarily of aluminum, glass or steel, is part of a public works contract and has the sole purpose or of being a permanent part of a single public works project. This provision does not apply to equipment or machinery purchased by a spending unit for use by that spending unit and not as part of a single public works project.

All bids and offers including domestic aluminum, glass or steel products that exceed bid or offer prices including foreign aluminum, glass or steel products after application of the preferences provided in this provision may be reduced to a price equal to or lower than the lowest bid or offer price for foreign aluminum, glass or steel products plus the applicable preference. If the reduced bid or offer prices are made in writing and supersede the prior bid or offer prices, all bids or offers, including the reduced bid or offer prices, will be reevaluated in accordance with this rule.

45. INTERESTED PARTY SUPPLEMENTAL DISCLOSURE: W. Va. Code § 6D-1-2 requires that for contracts with an actual or estimated value of at least \$100,000, the vendor must submit to the Agency a supplemental disclosure of interested parties reflecting any new or differing interested parties to the contract, which were not included in the original pre-award interested party disclosure, within 30 days following the completion or termination of the contract. "Interested parties" means: (1) A business entity performing work or service pursuant to, or in furtherance of, the applicable contract, including specifically sub-contractors; (2) the person(s) who have an ownership interest equal to or greater than 25% in the business entity performing work or service pursuant to, or in furtherance of, the applicable contract; and (3) the person or business entity, if any, that served as a compensated broker or intermediary to actively facilitate the applicable contract or negotiated the terms of the applicable contract with the state agency: Provided, That subdivision (2) shall be inapplicable if a business entity is a publicly traded company: Provided, however, That subdivision (3) shall not include persons or business entities performing legal services related to the negotiation or drafting of the applicable contract. The Agency shall submit a copy of the disclosure to the Ethics Commission within 15 days after receiving the supplemental disclosure of interested parties.

EXHIBIT B – PROJECT PLANS

1. GENERAL REQUIREMENTS:

1.1 Mandatory Contract Item Requirements: Contract Item must meet or exceed the mandatory requirements listed below. All materials and workmanship shall meet the AREMA Manual for Railway Engineering's standards.

1.1.1 Replace 6,000 cross ties between MP 2 and MP 12 on the SBVR all ten miles where ties are replaced will be surfaced according to tamping and final surfacing instructions below. During installation, ties will be installed firmly against the rail without humping. As long as they are firm, no tamping will be required during change out. Tamping will then be completed as production tamping once the change out is complete.

1.1.1.1 Ties will be handled in accordance with specifications in the AREMA Manual for Railway Engineering to avoid damage. The vendor will replace only those ties marked for replacement by the SBVR. The vendor will remove and dispose of old ties. Ties must be stacked clear of tracks and must not be stacked on property other than SBVR right-of-way.

1.1.2 Spiking of Ties – Gaging Additional Ties

1.1.2.1 New ties will be spiked to a gage of 56 ½ inches, plus or minus ¼ inch. Additional ties will be plugged and respiked to correct gage to ensure there is no abrupt change in gage where ties are replaced. It is estimated that 10 percent of the ties replaced may require adjacent ties to be respiked to proper gage.

1.1.2.2 All ties replaced or respiked will have new spikes. Old spikes will not be reused. Spikes shall be started and driven vertically and square with the rail. They shall have full bearing against the side of the rail base. Spikes shall not be overdriven. Ties on tangents will get four spikes per tie and ties in curves will get six spikes per tie or eight spikes per tie depending on the curvature as illustrated in Attachment A. The correct spiking pattern will be used on all new ties and any adjacent ties that are respiked to correct gage. Track maps showing curvature are shown in Attachment B.

REQUEST FOR QUOTATION
Replace Crossties and Surfacing on the South Branch Valley Railroad

1.1.3 Rail Anchors

1.1.3.1 All rail anchors will be reapplied in the existing location and properly fitted against ties.

1.1.4 Final Surfacing, Alinement and Ballast Regulation – 10 miles where ties are installed and an additional 19 miles of surfacing between MP 14-16 and MP 22-39.

1.1.4.1 Vendor will use production tamper with computer alinement control to restore proper surface to the entire track and establish best fit for curves including appropriate spirals. Surfacing will taper into bridges. Between MP 12-22 there are 12 bridges, between MP 14-16 there is 1 bridge and between MP 22-39 there are 10 bridges.

1.1.4.2 Between MP12-22 there are 7 crossings that will be tamped through and 8 crossings that will be tamped into and out of. Between MP 14-16 there are 2 crossings that will be tamped through and 3 crossings that will be tamped into and out of. Between MP 22-39 there are 11 crossings that will be tamped through and 15 crossings that will be tamped into and out of. Where crossings are tamped through, SBVR will be responsible to remove crossing materials and reinstall crossings.

1.1.4.3 When surfacing a turnout, tamping will continue for a distance of at least 100 feet onto the side track to ensure uniform surface through the turnout. There are 2 #8 turnouts between MP 12-22, 3 #10 turnouts between MP 14-16 and 4 #10 and 1 # 8 turnout between MP 22-39.

1.1.4.4 The condition of the track needs to be restored to vertical evenness or smoothness with a minimum of two insertions for each tie.

1.1.4.5 SBVR will provide information on superelevation of curves.

1.1.4.6 A ballast regulator will follow the tamper to regulate ballast and reshape shoulders. SBVR will provide and place any additional ballast where it may be needed after surfacing. Production tamping includes regulating and brooming.

REQUEST FOR QUOTATION
Replace Crossties and Surfacing on the South Branch Valley Railroad

1.1.4.7 Before the tamping project begins, Vendor must coordinate the tamping schedule with the SBVR shop to discuss how signal wires will be marked in the field. Signal wires are marked in the field to minimize damage to wires. Repairs to any damaged wires are the responsibility of the contractor and must be reported and repaired immediately.

1.2 Miscellaneous Information

1.2.1 An SBVR employee will provide protection. The SBVR will assure vendor has proper protection at no cost to the vendor.

1.2.2 Clarification of work schedule: Freight trains normally run once per day Monday-Thursday. Because of the location of this project, this should result in an average of no more than 1 hour a day disruption. The excursion train will start May 12 and runs on Saturdays and Sundays with a 1:00 pm departure running from Romney to Moorefield (MP14.5 – 32.0) and back. Exception is the last Saturday of every month with a 10:00 departure running from Romney to Petersburg (MP 14.5 – 51.2) and back. Excursion train has 10:00 am trip from Romney to Green Spring (MP 14.5 to MP 2.0) on May 27, July 29, September 30 and October 28. Excursion trains run every day in October, do not plan on any work during this month. The tie project will not be effected by any excursion trains except for the four Sunday trips to Green Spring. The tamping area will be effected by the excursion trains.

1.3 Materials – Vendor will be responsible for all materials. All materials must meet AREMA specifications.

1.3.1 Vendor will provide new ties, tie plugs and spikes and will transport them to the work site. Ties will be new 7" x 9" x 8'6" industrial grade ties. The specifications set forth in Chapter 3 of the AREMA specifications will govern. The ties will be 100% end-plated, mixed hardwoods and oak, creosote pressure treated to 7# retention.

1.3.2 Vendor will provided treated wooden tie plugs or tie plug compound, either is acceptable. Spikes will be 6" cut track spikes per AREMA specifications. Tie plates will be provided by the SBVR where existing tie plates are defective or missing.

REQUEST FOR QUOTATION

1.3.3 SBVR will provide all ballast.

PURCHASING AFFIDAVIT

CONSTRUCTION CONTRACTS: Under W. Va. Code § 5-22-1(i), the contracting public entity shall not award a construction contract to any bidder that is known to be in default on any monetary obligation owed to the state or a political subdivision of the state, including, but not limited to, obligations related to payroll taxes, property taxes, sales and use taxes, fire service fees, or other fines or fees.

ALL CONTRACTS: Under W. Va. Code §5A-3-10a, no contract or renewal of any contract may be awarded by the state or any of its political subdivisions to any vendor or prospective vendor when the vendor or prospective vendor or a related party to the vendor or prospective vendor is a debtor and: (1) the debt owed is an amount greater than one thousand dollars in the aggregate; or (2) the debtor is in employer default.

EXCEPTION: The prohibition listed above does not apply where a vendor has contested any tax administered pursuant to chapter eleven of the W. Va. Code, workers' compensation premium, permit fee or environmental fee or assessment and the matter has not become final or where the vendor has entered into a payment plan or agreement and the vendor is not in default of any of the provisions of such plan or agreement.

DEFINITIONS:

"Debt" means any assessment, premium, penalty, fine, tax or other amount of money owed to the state or any of its political subdivisions because of a judgment, fine, permit violation, license assessment, defaulted workers' compensation premium, penalty or other assessment presently delinquent or due and required to be paid to the state or any of its political subdivisions, including any interest or additional penalties accrued thereon.

"Related party" means a party, whether an individual, corporation, partnership, association, limited liability company or any other form or business association or other entity whatsoever, related to any vendor by blood, marriage, ownership or contract through which the party has a relationship of ownership or other interest with the vendor so that the party will actually or by effect receive or control a portion of the benefit, profit or other consideration from performance of a vendor contract with the party receiving an amount that meets or exceeds five percent of the total contract amount.

AFFIRMATION: By signing this form, the vendor's authorized signer affirms and acknowledges under penalty of law for false swearing (W. Va. ATTACHMENT A

Amtrac Railroad Contractors of MD. Inc.

1. Are we to assume ties to be changed will be on the average of 600/mile? **No**
2. Will replacement be 1 out of every 5 or will some be in groups requiring multiple passes?
99% will be no more than 2 consecutive ties changed
3. Will the Railroad assist for any hand raising if required on Turnouts? Or should we figure our own labor for that task? **No – The Contractor is responsible**
4. What is percentage of ties that will be replaced in cut areas where a “whole” tie cannot be removed?
**Total distance of cut areas about 1.5 miles.
Each cut section is about 1/10 mile.**

MP 11.5 – MP 11.6 is the tightest area. Cut on east side, west side is a retaining wall. 16” from end of ties and 6” to 12” above top of ties

Took measurements at the northwest spot in each section with the tightest being, from field side of East Rail to bank 4’ and West rail 5’. 4 feet above rail East rail to bank 5’ and West Rail 7.5’.

The average measurement of all the tightest location in each section is:

**East side 5.5’ rail to bank
East side 8’ – 4 feet above rail to bank
West side 5.5’ rail to bank
West side 7.5’ – 4 feet above rail to bank**

5. Section 1.1.4.2 & 1.1.4.3– Tamping- please clarify if there are crossings and turnouts in the area between MP 12 to MP 14 that need tamped. This area is not part of the replacement area or Tamping areas, but have quantities shown. There was a mistake on section 1.1.4.1, 1.1.4.2 and 1.1.4.3 where it lists MP12-22 in each section that should have been MP 2-12. The amount of turnouts between MP 12 to MP 14 is not an issue with the correction.
6. I am inquiring about the project listed in the subject line. Will that job also involve the disposal of old ties? **Yes, it will involve the disposal all old ties (Section 1.1.1.1)**
7. Is this considered a State Improvement Project where 75% of work force must be from WV?

No.

ATTACHMENT A

Amtrac Railroad Contractors of MD. Inc.

1. What Mile Posts can we clear up our equipment that can hold a tie gang and what Mile Posts can handle just the surfacing crew (smaller siding)?

Grace Cabin MP 8.7 – 420 feet capacity

Vanderlip MP 16.9 – 420 feet capacity

We do not know what each contractor may use so we gave the track capacity in feet.

2. Who will dump the ballast? Will the ballast be dumped before or after the track surfacing?

SBVR will dump the ballast. The plan is to dump the ballast after the tie installation and before The surfacing.

3. Is it anticipated that the track surfacing can be done in one Pass? YES

4. Page 27 shows that Davis Bacon wage rates (Prevailing Wage) are not required to be paid on this project. Is this correct? YES

5. When can we expect a contract and NTP? NTP will happen immediately following contract award.

6. Will the ties replaced be in both tangent and curved track, so we can try to estimate the quantity of spikes required?

The ties will be in both tangent and curved track. For estimating purposes 30% will be in curves.
