Subject: Response to Solicitation No: CRFQ 0203 CPR2000000004 to provide **"Professional Application Developers for COMPASS"**.

Dear Ms. Pettrey,

Beacon Systems Inc., (BeaconGov) is pleased to submit this proposal to the **Department of Administration Purchasing Division, State Of West Virginia (Purchasing Division)** to provide **Professional Application Developers for COMPASS**.

BeaconGov is a proven **ISO 9001/27000 certified, Women-Owned Company (WOSB) and Disadvantaged Business Enterprise (DBE)** graduated from the 8(a) Small Business Administration program. BeaconGov has a demonstrated history of quality performance in the Federal, State, and Local Sectors. We have provided similar on-site professional and support staff services for the State of Florida Master Prime Contract, 17th Judicial Circuit of Florida, and Supreme Court of Florida, Civilian, Virginia Department of Health, State of Rhode Island, State of Oregon, State of Virginia military and major DOD contractors. We diligently conduct background investigations on all of our employees to ensure client confidence and to safeguard the integrity of our company.

BeaconGov provides quality Information Technology and Consulting Services and solutions to government agencies. BeaconGov has the right technical approach as well as the Best Practices and Lessons Learned as part of the preparation for this response. Founded in 2005, BeaconGov has proven to its clients that it provides the best value, timely, and most professional services. BeaconGov has a Temporary IT Staffing Contract i.e. **CMA 0511 HHR1600000004** with the State of West Virginia.

BeaconGov completely analyzed the RFQ Document and we understand that West Virginia Purchasing Division is soliciting bids on behalf of the Consolidated Public Retirement Board (CPRB) to establish a contract for two (2) Professional Application Developers for the COMPASS System. Purchasing Division is expecting qualified vendors to provide application development services to maintain, enhance, and support the ongoing operations of the COMPASS system. BeaconGov acknowledges and agrees to all the instructions and procedures, applicable laws, regulations, ordinances, Terms, and Conditions described in the RFQ and we declare(s) that there is no exception, clarification, or other modification in this bid.

Use or disclosure of data contained on this sheet is subject to the restriction on the title page of this proposal.

We acknowledge and agree to all the instructions and procedures, Terms, and Conditions described in the RFQ. BeaconGov acknowledges the receipt and review of **Addendum 1.**

General Corporate Information:

Item	Details
Legal Name	Beacon Systems, Inc.

1.2 Purchasing Affidavit

STATE OF WEST VIRGINIA
Purchasing Division

PURCHASING AFFIDAVIT

CONSTRUCTION CONTRACTS: Under W. Va. Code § 5-22-1(i), the contracting public entity shall not award a construction contract to any bidder that is known to be in default on any monetary obligation owed to the state or a political subdivision of the state, including, but not limited to, obligations related to payroll taxes, property taxes, sales and use taxes, fire service fees, or other fines or fees.

ALL CONTRACTS: Under W. Va. Code §5A-3-10a, no contract or renewal of any contract may be awarded by the state or any of its political subdivisions to any vendor or prospective vendor when the vendor or prospective vendor or a related party to the vendor or prospective vendor is a debtor and: (1) the debt owed is an amount greater than one thousand dollars in the aggregate; or (2) the debtor is in employer default.

EXCEPTION: The prohibition listed above does not apply where a vendor has contested any tax administered pursuant to chapter eleven of the W. Va. Code, workers' compensation premium, permit fee or environmental fee or assessment and the matter has not become final or where the vendor has entered into a payment plan or agreement and the vendor is not in default of any of the provisions of such plan or agreement.

DEFINITIONS:

"Debt" means any assessment, premium, penalty, fine, tax or other amount of money owed to the state or any of its political subdivisions because of a judgment, fine, permit violation, license assessment, defaulted workers' compensation premium, penalty or other assessment presently delinquent or due and required to be paid to the state or any of its political subdivisions, including any interest or additional penalties accrued thereon.

"Employer default" means having an outstanding balance or liability to the old fund or to the uninsured employers' fund or being in policy default, as defined in W. Va. Code § 23-2c-2, failure to maintain mandatory workers' compensation coverage, or failure to fully meet its obligations as a workers' compensation self-insured employer. An employer is not in employer default if it has entered into a repayment agreement with the Insurance Commissioner and remains in compliance with the obligations under the repayment agreement.

"Related party" means a party, whether an individual, corporation, partnership, association, limited liability company or any other form or business association or other entity whatsoever, related to any vendor by blood, marriage, ownership or contract through which the party has a relationship of ownership or other interest with the vendor so that the party will actually or by effect receive or control a portion of the benefit, profit or other consideration from performance of a vendor contract with the party receiving an amount that meets or exceed five percent of the total contract amount.

AFFIRMATION: By signing this form, the vendor's authorized signer affirms and acknowledges under penalty of law for false swearing (*W. Va. Code* §61-5-3) that: (1) for construction contracts, the vendor is not in default on any monetary obligation owed to the state or a political subdivision of the state, and (2) for all other contracts, that neither vendor nor any related party owe a debt as defined above and that neither vendor nor any related party are in employer default as defined above, unless the debt or employer default is permitted under the exception above.

2 BeaconGov Proposed Candidate Resume

2.1 Candidate #1: Rajeev Bharadwaj

Profile Synopsis

Rajeev Bharadwaj has over 6 years of experience as in the IT industry with an emphasis on software analysis, design, development, implementation, deployment, maintenance, and support of various Client/Server, enterprise, web and windows applications. He has proven knowledge and experience in Debugging Code and coding for existing systems within Microsoft Visual Studio, he has hands-on experience with debugging code with an existing application and new enhancements, documenting, code changes are thoroughly maintained for the applications. He has worked in all phases of software development life-cycle (SDLC) including requirements gathering, analysis, design, reviews, scoping, coding, testing, debugging, documenting, building, and deployment. He possesses extensive experience in developing User Interfaces using ASP.NET, XML, HTML/DHTML, CSS**.**

Professional Summary:

- 7+ Years of professional experience in IT industry with emphasis on software analysis, design, development, implementation, deployment, maintenance and support of various Client/Server, enterprise, web and windows applications.
- Worked in all phases of software development life-cycle (SDLC) including requirements gathering, analysis, design, reviews, scoping, coding, testing, debugging, documenting, building and deployment.
- Experience in programming with .NET Framework using C#, ADO.NET, ASP.NET, Type-script
- Experience in building Web Services using WSDL and SOAP Protocol and having hands on experience in WebAPI 2.0, Microservices and Windows Service.
- Experience in developing User Interfaces using ASP.NET, XML, HTML/DHTML, CSS.
- Hands on experience in Database Design, Development, Writing Constraints, Indexes, Views, Stored Procedures, Cursors, Triggers, and User Defined Functions, Common Table Expressions (CTE) using T-SQL and writing Joins.
- Experience in working with Object Oriented Concepts like Inheritance, Polymorphism, Abstraction and Encapsulation in C#.NET.
- Expertise in third party UI components and JavaScript plug-ins like Bootstrap.
- Strong experience in designing and developing applications using ASP.NET MVC (Model View Controller) Framework.
- Experienced in creating rich User Interface on the web using HTML 5.0, Master Pages, Angular JS, Angular 2,4,7, React JS, CSS, Ajax, JavaScript and JQuery.
- Experience in implementing the design Patterns like MVVM (Model-View-View-Model), MVC (Model-View-Control) and MVP (Model-View-Presenter) architecture.
- Hands on Experience in Visual Studio 2010/2013/2015/2017/2019.
- Good Database programming skills in MS SQL Server 2005/2008/2012/2014.

Use or disclosure of data contained on this sheet is subject to the restriction on the title page of this proposal.

- Highly proficient in Entity Framework & ASP.NET MVC framework and using Code First and Database First approach.
- Experience with various version control systems like Microsoft Visual SourceSafe, Team Foundation Server, and Git.
- Extensive experience in data warehousing projects developing ETL in SSIS/DTS and reports using Microsoft SSRS and Crystal Reports.
- Expertise in developing various controls like User Controls, Themes, Validation Controls and Master pages using C# and ASP.NET.
- Enterprise Resource Management application development, functional extension and collaborating modules.
- Proficient in writing Technical and Functional test scripts.
- Expertise in creating the CSS style sheets for designing the layout of the GUI screens.
- Excellent communication skills, Interpersonal skills, team management skills, team player, self-motivated and quick learner. Ability to handle team of developer.

Technical Skills:

Operating Systems	Windows XP,7,8,10 Windows NT Server
.Net Framework	.Net Framework 2.0, 3.0, 3.5, 4.0
Languages	C#.Net, Transact-SQL, Asp.Net, LINQ, MVC, ADO.Net
Scripting Languages	JavaScript, Ajax, TypeScript, JQuery
Databases	SQL Server 2008/2014, My SQL, MongoDB
Web Technologies	HTML, CSS, XML, XSLT, Angular JS, Angular 2+
Version Controls	VSS, SVN, TFS, Git
Servers	Internet Information Server (IIS), Windows Server
Reporting Tools	Crystal Reports, SSRS (SQL Server Reporting Services), SSIS (SQL Server Integration Services).
Distributed Technologies	Web Services, WCF, WPF, WebApi, Microservices
Development Tools	Visual Studio, .NET Framework
Applications	MS Word, Excel, PowerPoint, Project, Access

Professional Experience:

Maryland Live Casino & Hotels, MD **Sep 2019 – Present**
.Net Developer
Description: Maryland Casino & Hotels is entertainment complex. It is largest entertainment complex in state, have a development team started implementing in house projects for casino &

Use or disclosure of data contained on this sheet is subject to the restriction on the title page of this proposal.

hotels building Web application, Windows & Microservice's for different domains like Finance, Revenue. Etc.,

Responsibilities:

- Strong experience in all phases of Software Development Life Cycle with Analysis, Design, Development, implementation, Integration, Testing, Debugging, Production and Maintenance.
- Gathered End to End requirements and Analyzed the requirements provided by the client.
- Involved in designing and coding of entire project from scratch.
- Involved in development from scratch and writing unit test cases in client and server side
- Created modules and registered in NgModule which bundles all the modules while compile time and serves in Runtime.
- Created User defined Pipes for formatting the HTML Data and Xml Data
- Created User defined Directives for common use in the project like getting user data from client uses that in entire application
- Created Angular Services which interact with API 2.0 and post/pull data from Database
- Created components for each page and integrated with HTML templates and CSS Styles
- Created Common typescript files which will have the all user information and common code which uses the entire application
- Created Templates and Styles sheets and injected in the TypeScript Classes and implemented different lifecycle hooks like ngOnInit(), ngOnChanges(), ngAfterViewInit(), ngAfterViewChecked(), ngOnDestroy() etc.
- Implemented WebApi with MVC Pattern and implemented Authentication and authorization in Home Controller level
- Implemented Exception handling at client side and Server side
- Implemented Routing for navigation among the templates in Angular
- Developed the Windows Service which serves the Emails to clients for promotions.
- Created SSIS package which pulls data from SFTP Server and pushed into SQL Server periodically. It uses the C# with .Net core 3.0.
- Created Microservice which does the All CRUD operations against Kronos Data using .Net Core 3.0 and followed the MVC architecture.
- Created Database in MS-SQL Server and Created Tables with all required constraints, written stored procs, user defined functions like split function based on delimiter, triggers and views.
- Involved in writing Stored Procedures and Functions using SQL language for retrieving data from SQL Server Database.
- Designed and Developed the SSIS Packages to export or Import the client's sensitive data.

Environment: Visual Studio 2017/2019, .Net Core 2.0, 3.0, .Net Framework 4.0, 4.5, Web Api 2.0, Angular 7, SQL Server 2012/2014, Windows Service, Microservice, SSIS, SSRS, CSS, HTML.

Payless Shoesource, Topeka, KS/Dallas, TX **Jul 2018 – Aug 2019**
.Net Developer

Use or disclosure of data contained on this sheet is subject to the restriction on the title page of this proposal.

Description: Payless Shoe Source Inc. is committed to free fashion. It designs footwear and accessories to the entire planet and continues to arouse cool fashion trend promises for the family unit. Payless Shoe Source Inc.

Responsibilities:

- Involved in full life cycle of the project from requirements gathering, analyzing, designing, and developing the application using Iterative AGILE Methodology.
- Developed the application using .Net 3.5, WCF.
- Designed and developed a web-based application and component using C# to automatically generate constants by reading and parsing XML source files and schema files.
- Enterprise n-tier software agent using Windows Communication Foundation (WCF) WPF, Web service hosted on IIS.
- C#, ASP. NET MVC, .NET Framework 4.0, JavaScript, JSON, Angular JS, CSS3.0, ADO. NET, Web Services, SQL Server 2008, Windows XP, IIS, Visual Studio 2010, Visual Studio 2015.
- Designed and developed a windows-based application for Windows XP machines.
- Involved in various new enhancements, bug fixes in the below areas.
- Implemented web based front end using ASP. NET (C#), WPF, jQuery, Web API, CSS, Ajax, HTML5 controls and business logic using C#.
- Designed and developed Web forms and Win forms using C#. Net
- Batch Feed changes which includes transactional (Emails, Order Extract, Order Status) as well non-transactional (Catalog feeds for 3rd party etc.,)
- Daily co-ordination with QA team to review defects (under testing & new)
- Perform code reviews and provide feedback to team.
- Schedule QA/staging/production deployment.
- Daily Coordinating with Latinam country third party and Work closely IT and business teams during release.
- Mentor team with respect functional and technical aspects.
- Help resolve technical issues for team.
- Writing Asynchronous programming using C#.Net.
- Designed and coded WPF components used to collect display and manipulate financial data.
- Designed and developed a Web application using .net framework and visual studio 2005, 2012.
- Involved in the design of security module that authenticates users based on the roles.
- Involved in using XML, XSL with ADO.NET to retrieve and send data to different databases.
- Designed, Developed Debit, Credit, Gift Card Authorization Server enhancements for Fujitsu POS Systems.
- Designed, Developed web applications for Store-in-Store Concept Model.
- Co-ordinate and work closely with Release Management, Store Follow-ups, QA and Rollout/Deployment.
- Developed SQL Server Stored Procedures for some of the interfaces.
- Involved in the design and development of application on ASP.Net, MVC4, and MVVM Frameworks.
- Created and implemented Web Service methods and SOAP protocols.

Use or disclosure of data contained on this sheet is subject to the restriction on the title page of this proposal.

- Perform RESTful in Web API and entity framework to fetch data, using HTTP Client request in services to get resources.
- Design/Development/Administration of various intranet, WIN form, and VB. NET web applications.
- Used Entity Framework for data retrieving and manipulating with Code First approach.
- Implemented Data Access layer domain entities using Entity Framework Database First approach.
- Used XML for data transfer across different systems and XSLT for transformations.
- Web application that accepts and updates customer financial payment information was developed under MVC Architecture.
- Worked on Canada site development for payless.com and localization applied using resource files.
- Maintenance/Enhancement of Project and handling/fixing bug on daily basis.

Environment: .Net Framework 3.5, 4.0, C#.NET, VB.NET, Visual Studio 2005, 2012, 2013/2015, MVC, Win Forms Fujitsu Globalstore, SQL Server 2008, Azure, JQuery, XML, HTML, XHTML,CSS, XSLT, XPath, JavaScript, IIS 7.0, SOAP, TFS, Bootstrap, Crystal Reports, SSRS, SSIS, GIT (Source Control), Windows Server 2008, Windows 8/7(64 bits), Windows XP

Anthem Inc., Virginia Beach, VA **Jun 2016 – Jun 2018**
.Net Developer

Description: Anthem Inc. is an American health insurance company. It is the largest for-profit managed health care company in the Blue Cross and Blue Shield Association. The companies grew significantly, controlling 80% of the medical insurance.

Responsibilities:

- Worked as per Agile Methodology (Scrum) to meet customer expectation, timelines with quality deliverables.
- Designed and developed Web Pages using ASP.NET, VB.NET, C#.NET, HTML, JavaScript, Angular JS, JSON, CSS and server controls.
- Followed Agile Methodology and to produce high Quality software.
- Developed web pages and validated these pages using ASP.NET, XHTML and C#.
- Participated in hospital wide project upgrading Windows 7 systems to Windows 10.
- Used AJAX to present a very intuitive user experience.
- Implemented SOA with creating and consuming Web Services in C#.Net in .Net 4.0.
- Client-side validation was done using JavaScript and Configured the IIS.
- Used ASP.NET validation controls (Required field validator, regular expression validator, compare validator, range validator), User Controls, Custom Controls, Data Grid Web Control.
- Designed and developed Rebranding controls as a User Controls in Silver light 2.0.
- Developed & maintained Web Forms with ASP.NET, Silver light 2.0 and C#.
- Maintained build versions and code versions using GIT's Version Control
- Working with ASP.NET Master Pages that were common throughout the application and content pages.
- Used XML for data transfer across different systems and XSLT for transformations.

Use or disclosure of data contained on this sheet is subject to the restriction on the title page of this proposal.

- Web application that accepts and updates customer financial payment information was developed under MVC Architecture.
- Developed reusable and controls using ASP.NET and C# in the .NET Framework 4.0.
- Worked with MVC architecture application using ASPX view engine and web API.
- Used ADO.NET components - Data Reader, Data Adapter, SQL Command and Dataset for retrieving data
- Developed Stored Procedures, User Defined Functions, and Views to handle all data manipulation on MS SQL Server 2008.
- Used ADO.NET for data retrieving, querying, storage and manipulation.
- Used Visual Source Safe for Version Control.
- Used GIT for source code repository and versioning.
- Developed Views using HTML5, JQuery, Ajax, data bindings, Bootstrap Interactive CSS and Plug-ins.
- Customizing and generating multiple TFS reports to serve company needs.
- Developed WCF services Desktop applications.
- Used WCF Services for communicating with other application and components using C# code.
- Responsible for module development written in Angular JS, Bootstrap, JS and MVC framework with C#.
- Experienced with LINQ and Lambda expression over collections and Entity framework for data querying and filtering the results.
- Expertise in using T-SQL in SQL server to design database and accessed by entity framework in visual studio
- Designed, implemented, tested and deployed to QA system in the Windows Azure Cloud.
- Analyzed and designed new WPF application using MVVM and Repository pattern, from design to completion.
- Extensively used WPF bindings, commands, styles, data templates and control templates, and converters in developing the UI.
- Application Tier developed using WCF Web Services using C#, LINQ, implemented client-side logic with WPF.
- Reused existing third-party controls such as Angular UI Bootstrap's Accordion and Date Picker.
- Created and implemented Web Service methods and SOAP protocols
- Performed unit testing on every new version before sending it for User Acceptance Test (UAT).
- Made use of the JavaScript functions for browser Check of the application.
- Used SQL 2012 reporting services (SSRS) to provide highly customized reports in a real time system.
- Experience working in SQL Server Integration Services (SSIS) packages to extract, transform and load (ETL) data from different databases and hands on experience on web API, REST, RESTFUL services.
- Handled Configuration (Session, authentication and authorization, custom errors, tracing) or the online transactions by the customer and creating user login and privileges.
- Migrated some of the modules from .Net Framework 2.0 to 3.0.

Use or disclosure of data contained on this sheet is subject to the restriction on the title page of this proposal.

Environment: .Net Framework 4.0, C#.NET, VB.NET 6.0, Visual Studio 2013/2015, MVC 5, Angular JS ASPX view engine, ASP.NET 3.5, Web Services, Win Forms, Silverlight 2.0, ADO.NET, SQL Server 2008, Azure, JQuery, XML, HTML, XHTML,CSS, XSLT, XPath, JavaScript, IIS 7.0, SOAP, TFS, Bootstrap, Crystal Reports, SSRS, SSIS, GIT (Source Control), Windows Server 2008, Windows 8/7(64 bits)

Century Link, Denver, CO **Sep 2015 – May 2016**
.Net Developer

Description: CenturyLink Inc. is an American telecommunications company, that provides communications and data services to residential, business, governmental, and wholesale customers.

Responsibilities:

- Involved in meetings with the SMEs and business analysts to understand and discuss the business and functional requirements.
- Created Detail Design documents based on functional requirements.
- Created use case and class diagrams in MS Visio using UML notations.
- Involved in Discussion Board for Client Interaction for the change requests and follow-ups.
- Developed middle layer using C#.Net and ASP.NET.
- Implemented changes in coding and designs using knowledge of VB.NET.
- Used Cascading Style Sheets (CSS) for a unified look and feel of the application.
- Used ADO.NET for data retrieving, querying, storage and manipulation.
- Developed data services using ADO.NET Objects like Data Sets, Data Adapters, Data Readers, Data Views to capture data from database and display them at UI using Data Control Data Grid.
- Developed the presentation layer by using Ajax controls and web server controls.
- Created application using Bootstrap for responsive design.
- Used Master pages, Update Panel, Rad Grid, Tab Strip, Mask Edit and Extender controls.
- Created and consumed Web Services.
- Wrote Data Access Layer Methods (ADO.NET), T-SQL Queries, Stored Procedures and SQL user defined functions for fetching transaction details, Customer Details and Product Configuration data.
- Involved in writing Stored Procedures and Functions using SQL language for retrieving data from SQL Server Database.
- Created WCF service to retrieve the policy information.
- Used WCF Services for communicating with other application and components using C# code.
- Utilized ASP.NET validation controls and JavaScript to perform client-side validation.
- Used SSRS to generate reports and integrated with ASP.NET web page using report viewer.
- Experience in using SSIS Packages to export or import the data for other applications.
- Used Team Foundation Server as version controlling tool.
- Maintenance/Enhancement of Project and handling/fixing bug on daily basis reported by Help Desk.

Use or disclosure of data contained on this sheet is subject to the restriction on the title page of this proposal.

Environment: .Net Framework 3.5, Visual Studio 2010, ASP.NET 3.5, VB.NET, Win Forms, C#, HTML, CSS, JQuery, JavaScript, Web Services, Bootstrap, XML, XSD, XSLT, SQL SERVER 2008, TFS, UML, MS Visio, SSRS

Bharathi Communications, India **Jun 2013 – Jul 2015**
Software Developer
Description: Bharathi Communications is a provider of integrated technology and business solutions to companies in the logistics and telecom. Bharathi Communications has its clients through 16 global development centers in India and the United States.

Responsibilities:

- Involved in different phases of Software Development Life Cycle (SDLC) including Designing, Programming, Testing and Documentation.
- Analyzed and designed approaches using UML use case diagrams, class diagrams, state diagrams, and activity diagrams.
- Implemented the presentation layer (UI) using Master Pages, HTML, XML and JavaScript.
- Used CSS for common appearance all over the website.
- Used Java script for client-side data validations.
- Worked with Grid Controls, server controls to meet the client requirements.
- Developed Web forms using ASP.Net server controls and validated input using Java Script.
- Created Business Logic Layer and Presentation layer in ASP.NET.
- Contributed significantly to design of the object model in the middle tier.
- Created Common Data Access Layer using ADO.NET.
- Used SSIS (SQL Server Import and Export Wizard) to Import and Export data.
- Used ADO.Net objects such as Data Adapter, Data Reader and Dataset for data access.
- Create Cache Memory on Windows Azure to improve the performance of data transfer between SQL Azure and WCF services.
- Developed the application using C# using SQL Server and Visual Studio 2013 and TFS.
- Fixed the bugs and extended the functionality for existing applications.

Environment: Visual Studio 2005, ASP.NET 2.0, ADO.NET, WCF, HTML, JavaScript, MS SQL Server 2005, Windows XP

Education:

- Master's in Computer Science from Silicon Valley University, Sanjose, California.
- Bachelor's in Mechanical Engineering from JNTUK

This Space is Intentionally Left Blank

Use or disclosure of data contained on this sheet is subject to the restriction on the title page of this proposal.

2.2 Candidate #2: Prem Kumar Raj

Profile Synopsis

Prem Kumar has over 6 years of experience in analysis, design, development, implementation of Web/Windows-Based Applications & Client-Server Applications in various Microsoft related Technologies. He possesses Hands-on experience in all phases of SDLC. He is well versed in web technologies like CSS, HTML, Bootstrap, JavaScript, JQuery, Angular, etc. He has extensive experience & Expertise in ASP.NET MVC. Possesses extensive experience in debugging code for existing systems, and also has maintained documenting code changes throughout the development process. Experienced in database designing/architecture with SQL.

Professional Summary:

- Having 6+ years of experience in analysis, design, development, implementation of **Web/Windows Based Applications & Client Server Applications in various Microsoft related Technologies.**
- Hands on experience in all phases of **SDLC**
- Comfortable with **Agile Programming Methodologies, Scrum** and **Test-driven development** (**TDD**), **Integration** and **UI automation** testing
- Well versed with web technologies like **CSS, HTML, Bootstrap, JavaScript, JQuery, Angular etc.**
- Expertise in **ASP.NET MVC.**
- Experienced in whole cycle of SQL server integration services (SSIS) Packages (**Developing, Deploying, Scheduling, Troubleshooting, and monitoring**) for performing Data transfers and ETL Purposes across different servers.
- Proficient with **WCF, Web API** using **SOAP** and **REST**.
- Experienced in **.NET** security features such as Authentication (Windows-based Authentication, Forms-based Authentication) and Authorization (Authorizing Users and Roles)
- Experienced in database designing/architecture with **SQL**
- Experience in other technologies like **Azure, PowerShell.**
- Developed database in the **Azure Cloud Services**.
- Hands on Experience in **SVN, GIT, BitBucket** and **Team Foundation Server (TFS).**

Technical Skills:

Languages	C#, SQL, PL/SQL, Java, JavaScript
Web Technologies	MVC, ASP.NET, Angular, HTML5, CSS3, JavaScript, XML, AWS, XSL, XSLT, Web API, JQuery
Database	Mongo DB, SQL Server, MS Access, Oracle, NoSQL

Use or disclosure of data contained on this sheet is subject to the restriction on the title page of this proposal.

Reporting Testing and Modeling	MS SQL Reporting Services, SSIS, Crystal Reports, MS Visio
Application Tools	Visual Studio IDE
Middleware	WCF, ADO.NET, Entity Framework LINQ, Web services
Operating System	Windows server UNIX and LINUX

Professional Experience:

Anthem Inc, Norfolk, VA **Jan 2019 – Till date.**
Sr. .Net Developer

Responsibilities:

- Designed and consumed **WCF Web-services using C#** and XML to handle transactions with central database
- Involved in development of application using Node JS.
- Used Version control tool BitBucket for the entire development cycle.
- Developed the UI for various modules using HTML, JavaScript, C #.Net, ADO.NET, CSS and Telerik Controls.
- Bundling and minification using **Webpack 2**
- Implemented Factory design pattern.
- Developed a .**Net Core** N tiered application with an Angular 5 front end.
- Moved application to a **web based ASP.Net platform using C#,** MVC, JavaScript, jQuery, Google Charts, and SQL server 2017.
- Followed **TDD** and **Agile** methodologies.
- Created **RESTFUL** services using **WebAPI**, built HTTP services and formatted responses using web API media type formatter to JSON.
- Configured the **SSIS Packages** using Environment Variables for Dynamic selection of Development and Production Environment.
- Implemented and executed **SQL Server Integration Service** packages to populate data from the various data sources, Developed packages for different data loading operations for many applications.
- Worked with Algorithm developer in integration of algorithm into embedded and non-embedded platforms**.**

Environment: .NET Framework 4.0, ADO.NET, Visual Studio 2017, MVC 4.0, Angular 5, AWS, WCF, WPF, SQL Server 2017, SSIS, JavaScript, CSS3, HTML5, .NET Core, BitBucket.

Global Payments, Jeffersonville, IN **Jan 2017– Dec 2018**
.Net Developer

Technical Aspects:

- Used **MVC Razor** engine and **Angular**

Use or disclosure of data contained on this sheet is subject to the restriction on the title page of this proposal.

- Implementation of dependency injection for decoupled database communication.
- Using Single Page application architecture
- Use of **Node Server and IIS server** for hosting Services in different environment as per client's suitability
- Involved in **unit & integration testing** for different functional sections within application
- Extensively worked with **Windows Azure** specifically on Blob, File storage and Hosted DB
- Designed REST services using **Web API.**
- Implemented client-side validation.
- Developed **ASP.NET Core Web API** based on departmental requirements and specifications.
- Worked with advanced concepts of **ASP.NET Core MVC** such as **Models** and **Providers**, **Filters** used for developing backend technology.
- **Created ETL process using SSIS** to load the actual data from different core systems to the tested data warehouse.
- Worked on **SSIS Script component** using Visual Basic Applications and C#, by creating generic C# components that can be used in the external packages in **SSIS.**
- Created **Angular 2** custom pipes to format the data before displaying it to the user.
- End to End UI development using**HTML5, CSS3, JSON and Angular**
- Created extensive unit test, integration, and regression tests.
- Followed **Agile** and **TDD**
- Generated **SSRS** reports

Responsibilities:

Active participation and interaction with manager and Subject Matter expert and other team, for requirement gathering, the functional and non-functional parameters, affecting the application. **Active participation in designing, modelling and documentation of application.** Worked with the Senior Architect to finalize the architecture of the application. Implementation of dependency injection for decoupled database communication.
Environment: Angular 2.0, TypeScript, NodeJS, Webpack, Visual Studio 2012, **ASP.NET Core,** VSCode editor, SOA, Gulp, Bootstrap (UI bootstrap, CSS, etc.), C#, MVC5, SSIS, Web API 2, EF, Telerik, SSRS.

Halliburton, Houston, Texas **Jan 2014 – Dec 2016**
.Net Developer

Responsibilities:

- Designing data-model and architecture for large-scale Master-Data-Management web-app
- Developed service-oriented architecture using **C# WCF** web-service to process XML-based data change alerts
- Lead UI design and refactoring
- Mentoring team in **T.D.D. via code-reviews and code-metrics (coverage, complexity).**
- **Improved C# ASP.NET web-app responsiveness via JQuery, AJAX, and optimized JS**
- **Improved C# app performance 200% by using threads and object caching**

Use or disclosure of data contained on this sheet is subject to the restriction on the title page of this proposal.

- Experienced in Angular 2 Template basics, Template directives, Routing and navigation, Components, Services and Data Binding. Advise team on best practices for Angular 2 component driven architecture
- Used **Entity Framework** to perform **CRUD operations** on the **SQL Server 2012 database**
- End to end frontend development using **Angular** with cutting edge **HTML5** and **CSS3** techniques
- Used **ASP.NET MVC 4.0** for building scalable standards-based web applications
- Worked with **Agile** development model

Environment: .NET Framework 4.0, ASP.NET, Mid-Range(Autosys & shell scripts), ADO.NET, Angular 2, Visual Studio 2012, MVC 4.0, WCF, SQL Server 2014 , JavaScript, CSS3, HTML5 SSIS, SSRS, IIS 8.0, TFS.

Sixgen Technologies, Hyderabad, INDIA **June 2013 – Dec 2013**
Jr .Net Developer

Responsibilities:

- Designed and implemented application using **ASP.NET Web Forms**, **C#, HTML, CSS3, ADO.NET, JQuery, User Controls** and **AJAX**
- Implemented the **N-tier architecture**, e.g. **Presentation Interface (UI), Business Logic Layer (BLL)**, and **Data Access Layer (DAL)**
- Created Stored Procedures, Triggers and Views in **SQL Server**.
- Designed and developed architecture and framework for **Data Access, Exception Handling, Logging** and **Session Management** in the application
- Responsible for User Management Application and Administration, created an Authentication & Authorization system based on user groups.
- Implemented **Web Services** and **WCF** to use in the application for critical operations.
- Implemented interactive views using **JQuery, HTML5, CSS3, AJAX** and **Bootstrap**
- Extensively used **Entity Framework** for data layer
- Uses **TFS** for source control

Environment: Visual Studio 2010, ASP.NET 4.0/3.5, ADO.NET, C#, WCF, Web Services SQL Server 2008, AJAX, XML, and JQuery

Education:

- Masters in Computer Science from Oklahoma City University.
- Bachelors in Information Technology, from JNTU Hyderabad, India.

4 BeaconGov Proposed Contract Manager

REQUEST FOR QUOTATION
Professional Application Developers for COMPASS

12. MISCELLANEOUS:

12.1. Contract Manager: During its performance of this Contract, Vendor must designate and maintain a primary contract manager responsible for overseeing Vendor's responsibilities under this Contract. The Contract manager must be available during normal business hours to address any customer service or other issues related to this Contract. Vendor should list its Contract manager and his or her contact information below.

Contract Manager: Ritu Singh

Telephone Number: (954) 426-1171

Fax Number: (954) 426-1181

Email Address: ritu@beacongov.com

5 About BeaconGov

BeaconGov is a proven **ISO 9001/27000 certified, Women-Owned Company (WOSB) and Disadvantaged Business Enterprise (DBE)** graduated from the 8(a) Small Business Administration program. BeaconGov's technical knowledge and breadth of expertise in providing IT consulting services have earned appreciation from many of our customers and paved the way for long-term engagements. Our core competencies are Project Management, Business Analysis, Systems Analysis, Technical Solutions and Architecture, Network Infrastructure, Information Security, Integration of Systems, Application Development, and Maintenance.

We take pride in producing advanced technology solutions to our clients by utilizing the collective industry and technical management expertise of our qualified professionals to integrate proven methods, Innovation, and Industry Best Practices. BeaconGov has delivered Science and Technology solutions to **NASA** including instrument design, fabrication, engineering, and launch applications for some of the most complex launches including **MAVEN, MOMA, InFOCuS Balloon,** and **LADEE** missions.

BeaconGov is proud of our accomplishments. Our team has partnered with some of the leading universities around the world to deliver quality solutions to NASA and in support of the European Space Agency (ESA). In addition, our team has developed a model enterprise Court Management System (eBench) for the **17th Judicial Circuit of Florida** that integrates technology, mobile applications, and real-time data visualization to over 35,000 Lawyers and Judges. Our technology support to many DoD agencies, NASA, Voice of America, FDA, and State Organizations extends our delivery of solutions worldwide.

Our Stats

- **15-years**-old proven firm
- ISO 9001:2015, 27001:2013 Certified
- NIST 800-171 Complaint
- **DCAA** Audited Accounting System
- BeaconGov has **Mentor-Protege Program** relationship with **JPL**. As per this MOU, BeaconGov will absorb JPL's technical and business expertise to assist in developing its technical and business capabilities
- Successfully served several Federal Agencies such as DOD, NASA, VA, CDC, IRS, FDA, and USDA
- **Schedule 70 GSA** and **Seaport-e Prime** Contract Holder
- SBA 8 (m) Certified Women-Owned and Minority Business
- Disadvantaged Business Enterprise **(DBE)**
- Outstanding **CPARS** and **Top 20%** in PPE by **Dun & Bradstreet**

Use or disclosure of data contained on this sheet is subject to the restriction on the title page of this proposal.

Our Technology Partners

5.1 BeaconGov Core Offerings

The Best Value Solution: *A Cut Above the Rest*

IT & ITES	**Advanced Technology**
• Provide on-site and off-site personnel to support Technology, Engineering • IT Security Consulting Services • Software Development and Systems Integration support • Mission Support • Test Facility Support • Web Services **Science and Technology Engineering** • Missions and Operations Support • Engineering Services • Instrument Design and Fabrication Support • Adaptive Manufacturing and 3D Printing • Transportation Technology Solutions	• Enterprise Application Development • System Design, Integration, and Maintenance • Mobile App Development • Data Visualization Services • Emerging Technologies Support

5.2 Contract Vehicles

• **GSFC/NASA** - Engineering Support Services • **IT Schedule 70** – GSA • **Health SIN** – IT Schedule 70 – GSA • **Professional Services Schedule (PSS) 00CORP -** GSA • **Access to Several GWAC Vehicles** • **8a STARS II** - GSA • **SeaPort e (8a)** – Department of Navy • **EDWOSB –** Women-Owned Business	• **JPL - Mentor Protégé** MOU • **Master contracts** with the State of California, Florida, Georgia, North Dakota, Oregon, **Rhode Island**, Texas, and Virginia. • **Support contracts** with Broward County, Broward Sheriff, and Miami Dade County

Use or disclosure of data contained on this sheet is subject to the restriction on the title page of this proposal.

Our competencies include:

Systems Administration	System Engineer, Database Administrator, Linux Administrator, Software Administrator, UNIX Administrator, Web Administrator, Windows Administrator
Analysis and Design	Business Analyst, Technical Architect
Applications Development and Integration	.NET Developer, Business Intelligence, C# Developer, Database Developer, Data Mining, Data Warehouse, E-Commerce, EAI Developer, ETL, Java Developer, J2EE Developer, Mainframe Developer, Middleware Developer, QA Analyst/QA Tester, Technical Writer, Web Designer, Web Developer.
ERP	JD Edwards, Oracle Applications, PeopleSoft, SAP
Management	Development Manager, Project Manager, Quality Assurance Manager, Team Leader
Administrative, Accounting & Clerical	Administrative Assistant, Clerk, Data Entry Operator, Receptionist, Financial Analyst, Accountant, Communication Specialists, Customer service Representative, Graphic Designer, Human Resource Specialists, Marketing Assistant, Technical Writer, Program Administrator, Accounts Payable Clerk, Operation Support Clerk, Purchasing assistant, Front/Back Office Assistant.

Technical Competence & Expertise in Staffing Services

Operating Technologies	Windows 3x, Windows 9x, Windows NT 3.51, 4.0, Windows 3E, Windows2000, Windows XP, Linux, OS/400, IBM OS/2, HP-UX, AIX, Sun Solaris, IBM Mainframe, AS400
Microsoft Web Programming Systems & Tools	MS VisualStudio.NET, MS Visual C++4.x, 5.x, 6.0, Boroland C++ Builder, IBM VisualAge C++, MVisualJ++1.0, 6.0, MS Visual InterDev1.0, 6.0, MS Visual Basic, MS Visual Basic for Applications - UNIX, Red Hat
Tools Used in Web Programming Application Development	HTML 3.2/4.0, MS .NET Framework SDK, Assembler, Cold Fusion, Delphi, C / C++, ABAP, Visual Basic, Java/Java Script, DHTML, PERL, ASP, ASP.NET, PHP, XML, CGI, Flash, Dreamweaver, Photoshop, Share point
Web and E-commerce	ASP.NET, C#, HTML, DHTML, XML, ADO, Java, JavaScript, JavaBeans, EJB, WebLogic, Websphere, VBScript, ActiveX, IIS, MTS, SOAP, Web Services.
Java Web Programming Systems & Tools	Eclipse, Visual Age for Java, BroadVision, Visual Café, Web Sphere Application Development Studio, Sun JDK, Java, J2EE, EJB, JSP, Rational Developer, Swing, Struts.
Application Database Design & Development	Oracle, Sybase, IBM DB2, Informix, MS SQL Server, MS Access, MySQL

Use or disclosure of data contained on this sheet is subject to the restriction on the title page of this proposal.

Oracle Tools	Oracle 10G, 9i, Oracle DBA, PL/SQL, PERL, Pro*C, ETL, Oracle Discoverer, PSP, JavaScript, Java, JDeveloper, Oracle Applications Server, Oracle Developer Suite
ERP/CRM Technologies	SAP, Siebel, PeopleSoft, Oracle Applications, Clarify
Business Intelligence/DW	Ab Initio, Informatica, Business Objects, Datastage
Mainframe	Micro Focus COBOL, DB2, VSAM, CICS, COBOL, JCL, IMS DB/DC, IDMS, ADSO, Assembler
Servers	IIS 4.0/5.0/6.0, Commerce Server, Tomcat, BizTalk Server, Application Server, SQL Server, Apache, Linux, Cold Fusion
Technology Staff Augmentation	Desktop Deployment Services, Help Desk/Desktop Remote Support Staff Augmentation, Computer Operations Staff Augmentation, Telecommunications Specialist Staff Augmentation, Computer Associates Clarity Project Management System, Project Management Staff Augmentation.

5.3 BeaconGov Partial Client List

Below is the demonstration of our contracts with various clients across the US.

State & Local			
State of Florida	State of Delaware	State of Georgia	State of West Virginia
State of North Carolina	State of South Carolina	State of Arkansas	State of Texas
State of Virginia	State of West Virginia	State of Michigan	State of Rhode Island
State of North Dakota	State of Iowa	State of Georgia	State of Maine
State of Arizona	State of Oregon	District of Columbia	Houston Galveston Area Council of Government (HGAC)
City of Richmond, Virginia	City of Coral Gables, Florida	City of Phoenix, Arizona	San Antonio Water System (SAWS)
Federal			
US Department of Army	US Department of Navy	US Air force	US Marine Corps
Department of Army, Watervliet Arsenal	Department of Veteran Affairs	US Army Contracting Command	Navy Medicine Operational Training Center

Use or disclosure of data contained on this sheet is subject to the restriction on the title page of this proposal.

National Aeronautics and Space Administration (NASA)	Goddard Space Flight Center	Kennedy Space Center	Jet Propulsion Laboratory (JPL)
Department of Commerce	US Army Corps of Engrs. Finance Center	Internal Revenue Service	Department of State · Global Financial Center · Foreign Service Institute Office of Acquisitions
General Service Administration (GSA)	US Postal Service	US Department of Agriculture	US Department of Energy
US Department of Transportation	Food and Drug Administration (FDA)	Bureau of Engraving and Printing	Defense Logistics Agency (DLA)
Defense Language Institute (DLI)	Department of Justice	Library of Congress (LOC)	Federal Aviation Administration (FAA)
National Oceanic and Atmospheric Administration	US Fish and Wildlife	U.S. Agency for Global Media (formerly BBG)	Voice of America
DHHS-National Institute of Health	Centers for Disease Control and Prevention (CDC)	Bureau of Medicine & Surgery	US Army/Walter Reed Army Medical Center
Armed Forces Institute of Pathology	Tripler Army Medical Center	Dwight D. Eisenhower Army Medical Center	
County			
County of Fresno, CA	Miami Dade County	San Diego County, California	Broward County
Palm Beach County, Florida (Sub)	Arlington County		
University and Schools			
University of Oklahoma	University of Maryland	Seattle School District No. 1	California Institute of Technology - JPL
Arizona State University	University of Osaka	The School Board of Broward County	Miami-Dade County Public Schools
University of Massachusetts	Jefferson County Public Schools	Fort Bend Independent School District (FBISD)	

End of Document

Use or disclosure of data contained on this sheet is subject to the restriction on the title page of this proposal.

Documentation of Work Experience

As per section 4: mandatory qualifications; the vendor must provide documentation to validate the following requirements. Exhibit B – Required Documentation Verification Form must be completed in its entirety and should be submitted with vendor's bid response, and must be submitted prior to award.

Skillsets

4.1.1 The Vendor must provide a Senior Applications Developer contractor with prior experience in the following applied knowledge and skillsets.

- Microsoft Visual Studio 2013
- VB.NET
- XML
- ASP.NET
- CSS
- HTML
- JavaScript
- SQL Server 2012
- SQL Server Reporting Services (SSRS)

Project and Work Experience

4.1.2 The Vendor must provide a Senior Applications Developer Contractor with a minimum of two (2) years of paid experience working on projects in each of the following applications:

- Debugging Code and coding for existing systems within Microsoft Visual Studio 2013.
- Documenting **in** code an explanation of the code changes made throughout the development process
- Working on a team with business analysts to define new features that the contractor must then code and integrate with existing systems
- Working on a team with developers to upgrade and configure existing Code
- Software testing, including system integration and regression testing, to ensure application changes continue to meet the business needs

Concurrent experience is acceptable and must be documented on the applicable Required Documentation Verification Forms (Exhibit B).

EXHIBIT B – Required Documentation Verification Form

The Applications Developer Contractor must provide project information, their role, the utilized skillsets from section 4.1.1 and experience as described in section 4.1.2.
Please complete your information. Do not handwrite the information below.

Project1:	Anthem Inc,
Duration:	1.5 years
Role performed on Project:	Sr. .Net Developer
Explanation of work performed using Skillsets in 4.1.1	Worked on ASP.Net as it has windows and form authentication. Used SQL Server as backend and created tables, views and triggers. Generated the reports using the both SSIS packages and SSRS. Web API to pull the records from backend to frontend. For frontend we have used Angular and used HTML, CSS. Used XML to handle all the transactions from the central database where data is stored.
Project 2:	Global Payments
Duration:	2 years
Role performed on Project:	.Net Developer
Explanation of work performed using Skillsets in 4.1.1	Worked mostly on UI using HTML, CSS, JavaScript and Angular. worked on Web API, for pulling the data from backend to frontend and designed REST services. Used SQL Server as backend. VB.Net as a backend provided the structure.
Project 3:	Halliburton
Duration:	3 years
Role performed on Project:	.Net Developer
Explanation of work performed using Skillsets in 4.1.1	Initially started the project using Angular JS and migrated the overall project to Angular 2. Used Web API as middle tier. Built the scalable standard we b application using MVC.
Project 4:	Sixgen Technologies
Duration:	0.5 years
Role performed on Project:	Jr. .Net Developer
Explanation of work performed using Skillsets in 4.1.1	Most part of my work is here to create the Stored procedures, views and triggers. Generate the reports based on the requirement using SSIS.

Note: If more room is needed then attach remaining information on a separate sheet.

EXHIBIT B – Required Documentation Verification Form

Section 4.1.2 - Debugging Code for existing systems within Microsoft Visual Studio 2013. Documenting code changes consistently throughout the development process

Previous Project: Anthem Inc,

Project Start Date: Jan 2019 Date Completed: In - project

Project Description:

Worked on an application which is used by the customers to enroll into the medicare insurance plans for the Open enrollment election period in October.

Developed and introduced couple of new forms for the fiscal year 2019 like short form and long form which is mapped internally for the business usage.

Short form pulls the information of an existing member application for making the changes of their existing application like email, phone and address etc.

Long form is used for the initial enrollment and this is used completely for the business requirement and tracking the enrollments.

For maintenance and on going development used visual studio for debugging the code and finding the initial

root cause of the issue. Documentation is prepared for each individual developer on the changes made by them and analysis documentation is provided for all the root cause fixes.

Contractor's Role:

Worked as a developer and supported the team from onsite as most of the team is on offshore and worked with business in gathering the requirements and shared it to offshore team to work on the development.

Skillsets Utilized:

C#, MVC, HTML, CSS, Web API, REST, WCF, SQL and SSIS, SSRS.

Location: Norfolk, VA

Project URL:

(if applicable)

Project Manager / Supervisor: Rajeshwaren Kalapper

Phone Number: 513-609-9664

Email Address: rajeshwaren.kalapperayyaswamy@anthem.com

EXHIBIT B – Required Documentation Verification Form

EXHIBIT B – Required Documentation Verification Form

Section 4.1.2 -Working on a team with business analysts to define new features that the contractor must then code and integrate for existing systems

Previous Project: Anthem Inc,

Project Start Date: Jan 2019 Date Completed: Present

Project Description:

Worked on an application which is used by the customers to enroll into the medicare insurance plans for the Open enrollment election period in October.

Developed and introduced couple of new forms for the fiscal year 2019 like short form and long form which is mapped internally for the business usage.

Short form pulls the information of an existing member application for making the changes of their existing application like email, phone and address etc.

Long form is used for the initial enrollment and this is used completely for the business requirement and tracking the enrollments.

Contractor's Role:

Worked as an onshore and offshore co-ordinator in gathering the requirements from the business and share it to onshore developers to work on the development. Where I was the only person in attending the PI planning where business provides the requirements.

Skillsets Utilized:

C#, MVC, HTML, CSS, Web API, REST, WCF, SQL and SSIS, SSRS.

Location: Norfolk, VA

Project URL:

(if applicable)

Project Manager / Supervisor: Rajeshwaren Kalapper

Phone Number: 513-609-9664

Email Address: rajeshwaren.kalapperayyaswamy@anthem.com

Section 4.1.2 -Working on a team with developers to upgrade and configure existing code

Previous Project: Halliburton

Project Start Date: Jan 2014 Date Completed: Dec 2016

Project Description:

Worked in an internal application which was used by the workers on site in various locations for reviewing the chemicals, details and price.

Based on the position levels the access has been issued to the workers for looking into the chemicals in detail.

Contractor's Role:

Worked in the migrating project from Angular JS to Angular 2 as front end. Existing code has been changed from the technologies with the help of our dev team and DB team.

Skillsets Utilized:

C#, HTML, CSS, Angular and SQL Server

Location: Houston, TX

Project URL:

(if applicable)

Project Manager / Supervisor: Manoj Kumar Chatraju

Phone Number: 908-340-6717

Email Address: manojkumar.chatraju@halliburton.com

EXHIBIT B – Required Documentation Verification Form

Section 4.1.2 -Software testing, including system integration and regression testing, to ensure application changes continue to meet the business needs

Previous Project: **Global Payments**

Project Start Date: **Jan 2017** Date Completed: **Dec 2018**

Project Description:

Worked on an application Using MVC Razor engine and Angular
.

Use of **Node Server and IIS server** for hosting Services in different environment as per client's suitability.
.

Short form pulls the information of an existing member application for making the changes of their existing application like email, phone and address etc.

Long form is used for the initial enrollment and this is used completely for the business requirement and tracking the enrollments.

Contractor's Role:

Worked using Nunit for unit testing after the code development. After the code deployed in pre-prod, will be doing the regression to not break anything in the existing application.

Skillsets Utilized:

C#, MVC, HTML, CSS, Web API, REST, WCF, SQL and SSIS, SSRS.

Location: **Jeffersonville, IN**

Documentation of Work Experience

As per section 4: mandatory qualifications; the vendor must provide documentation to validate the following requirements. Exhibit B – Required Documentation Verification Form must be completed in its entirety and should be submitted with vendor's bid response, and must be submitted prior to award.

Skillsets

4.1.1 The Vendor must provide a Senior Applications Developer contractor with prior experience in the following applied knowledge and skillsets.

- Microsoft Visual Studio 2013
- VB.NET
- XML
- ASP.NET
- CSS
- HTML
- JavaScript
- SQL Server 2012
- SQL Server Reporting Services (SSRS)

Project and Work Experience

4.1.2 The Vendor must provide a Senior Applications Developer Contractor with a minimum of two (2) years of paid experience working on projects in each of the following applications:

- Debugging Code and coding for existing systems within Microsoft Visual Studio 2013.
- Documenting **in** code an explanation of the code changes made throughout the development process
- Working on a team with business analysts to define new features that the contractor must then code and integrate with existing systems
- Working on a team with developers to upgrade and configure existing Code
- Software testing, including system integration and regression testing, to ensure application changes continue to meet the business needs

Concurrent experience is acceptable and must be documented on the applicable Required Documentation Verification Forms (Exhibit B).

EXHIBIT B – Required Documentation Verification Form

The Applications Developer Contractor must provide project information, their role, the utilized skillsets from section 4.1.1 and experience as described in section 4.1.2.
Please complete your information. Do not handwrite the information below.

Project1:	Maryland Live Casnio & Hotels
Duration:	6 + Months
Role performed on Project:	Senior Developer
Explanation of work performed using Skillsets in 4.1.1	On a Daily basis i used following skill sets in my projects Visual Studio 2017/2019, .Net Core 2.0, 3.0, .Net Framework 4.0, 4.5, Web Api 2.0, Angular 7, SQL Server 2012/2014, Windows Service, Microservice, SSIS, SSRS, CSS, HTML.
Project 2:	Payless Shoe Source
Duration:	1 year and couple of monthy
Role performed on Project:	Dot Developer
Explanation of work performed using Skillsets in 4.1.1	Used different environments for this project like .Net Framework 3.5, 4.0, C#.NET, VB.NET, Visual Studio 2005, 2012, 2013/2015, MVC, Win Forms Fujitsu Globalstore, SQL Server 2008, Azure, JQuery, XML, HTML, XHTML,CSS, XSLT, XPath, JavaScript, IIS 7.0, SOAP, TFS, Bootstrap, Crystal Reports, SSRS, SSIS, GIT (Source Control), Windows Server 2008, Windows 8/7(64 bits), Windows XP
Project 3:	Anthem inc
Duration:	2 years
Role performed on Project:	Dot Net Developer
Explanation of work performed using Skillsets in 4.1.1	Worked on Microsoft technologies which included end to end in developing like .Net Framework 4.0, C#.NET, VB.NET 6.0, Visual Studio 2013/2015, MVC 5, Angular JS ASPX view engine, ASP.NET 3.5, Web Services, Win Forms, Silverlight 2.0, ADO.NET, SQL Server 2008, Azure, JQuery, XML, HTML, XHTML,CSS, XSLT, XPath, JavaScript, IIS 7.0, SOAP, TFS, Bootstrap, Crystal Reports, SSRS, SSIS, GIT (Source Control), Windows Server 2008, Windows 8/7(64 bits)
Project 4:	Century Link
Duration:	1 year vaguely
Role performed on Project:	Dot Developer
Explanation of work performed using Skillsets in 4.1.1	Net Framework 3.5, Visual Studio 2010, ASP.NET 3.5, VB.NET, Win Forms, C#, HTML, CSS, JQuery, JavaScript, Web Services, Bootstrap, XML, XSD, XSLT, SQL SERVER 2008, TFS, UML, MS Visio, SSRS

Note: If more room is needed then attach remaining information on a separate sheet.

EXHIBIT B – Required Documentation Verification Form

Section 4.1.2 - Debugging Code for existing systems within Microsoft Visual Studio 2013. Documenting code changes consistently throughout the development process

Previous Project: Maryland Live Casnio & Hotels

Project Start Date: Oct 2019 Date Completed: Current

Project Description:

Maryland Casino & Hotels is entertainment complex.

It is largest entertainment complex in state, have a development team

started implementing in house projects for casino & hotels building Web application,

Windows & Microservice's for different domains like Finance, Revenue. Etc.,
