### **Letter of Transmittal**

Insight People Management, LLC is pleased to present this proposal to WorkForce West Virginia. This proposal contains the details of a customized program designed to allow WORKFORCE WEST VIRGINIA to maximize network capability, increase efficiency and stay compliant with drug screening program management. Given the reliably fast turn-around time needed for your program, we believe that Insight will create a state-of-the-art program offering unique advantages to your organization while setting a standard for the industry. The main focus for this proposal are to be focused around DOT & Non-DOT drug tests, consortiums and randoms. Insight agrees that it will comply with all federal, state, municipal and local laws, rules and regulations that may be applicable to this Contract, record retention and all other requirements stated within CRFQ VWW2000000006.

### **Executive Overview**

Insight People Management, LLC (Insight) is a full-service administrator of federally mandated alcohol and drug testing programs. In addition, we administrate company and even customer policy requirements. Full-Service means we handle ALL aspects of drug & alcohol program compliance. We take care of the tedious, but necessary, tasks that your substance abuse program requires and are with you every step of the way. We will provide you with your own account executive who is trained in every aspect of DOT and corporate substance abuse program requirements and keep you abreast of the latest technologies available to ensure security and success for your company.

Insight People Management, LLC. provides the services and expertise your company needs to work smarter. We provide a nationwide, DOT Random Drug Testing Consortium program administration services for companies regulated by Federal and State government, and we offer Drug-free programs for non-regulated employees. In addition, our DOT Random Drug Testing Consortium programs has a strong history in the transportation industry specializing in providing owner-operators with their own authority and motor carriers of all sizes with convenient, cost effective support to facilitate and manage their drug and alcohol testing compliance. We will help you implement a quality substance abuse prevention and testing program that meets federal, state and industry standards.

Insight's advanced functionality has been developed and customized to meet the requirements of our unique and diverse client base. It gives each client the ability to track and manage sensitive program information in a highly secure, real-time environment with the convenience of online access. Testing can be ordered online with orders printed out onsite or emailed to an individual. We have revolutionized the pre-employment process by providing a one-stop-shop for drug screening, background checks, driving records, electronic I-9 and eVerify services to name a few. Our "Quick app" feature allows employers to select specific products to order and send an email invite to the prospective employee. Once the individual enters their demographic information and selects a collection site they are on their way! Employers have 24-hour access to the system, which provides customized updates, captures executed authorization and disclosure forms and includes an "Adverse Action Matrix" that allows you to send FCRA notices with the touch of a button. Insight provides robust reporting features allowing you to customize and even export to Excel. We even incorporated the ability to create custom notices which can be sent to individuals.

We have access to over 10,000 collection sites and provide on-site and after-hours

collections. We offer Statistical Data Reporting (to clients and companies) Also included is the annual Management Information System (MIS) submission to DOT. Statistical reporting is accommodated quarterly, semi- annually or annually per client need. Free web-based result reporting and event tracking, real-time results, on-demand reports and electronic event scheduling.

With Insight, you can become paperless and achieve a higher level of security. From electronic chain of custody forms, online ordering and result population, we've got you covered. Insight also provides DOT background/history check and safety performance checks required on all new CDL drivers and can manage your FMCSA Clearinghouse by conducting pre-employment and annual checks. Insight can designate employees to be automatically re-run at DOT regulated intervals, taking the burden off you.

### **Key Value Points for Insight People Management**

- Full service drug testing services
- Most expansive network including more than 10,000 collection sites.
- All results are reviewed by MRO
- Compliant authorization and disclosure forms built into the system
- Customizable forms can be built into the platform to meet your needs
- Background Screening
- DOT Previous Employment Drug & Alcohol Test Verifications
- Split specimen testing
- DHHS and SAMHSA certified laboratories
- Automated participant notifications of results
- Client event notifications (donor scheduled, donor no-show, donor collection completed, etc...)

### **Custom Reports**

- Annual Results Testing Summary (Overview of all D&A tests conducted)
- Testing Report by Test Reason
- MIS Data Collection
- Random Selection Pool (List of all employees pulled for random selection pool)

### **On-Line Client Access**

Insight utilizes a custom software program that would allow WORKFORCE WEST VIRGINIA to communicate directly with our web site to submit screening requests and access results, additionally, the system allows you to electronically send orders for drug screening to potential employees, provides appropriate disclosure and authorization forms and is linked to over 10,000 certified collection sites. This system is accessible 24 hours a day, 7 days a week and is equipped with multi- level security features that

prohibit unauthorized access. Client access can be customized according to your needs.

## **SECTION 1: COMPANY BACKGROUND & QUALIFICATIONS**

# Introduction to Insight People Management

Insight

Insight is a Certified Woman-Owned Small Business

established in 2014 and recognized as a Small and Emerging Business and Small Entrepreneurship with the Louisiana Economic Development's Hudson Initiative. Insight evolved as the brain child of a frustrated HR manager, myself and blossomed into a platform that every employer needs. The days of repeatedly entering the same demographic information into different systems or dealing with paper drug screen forms and I-9s is in the rearview mirror. We have combined multiple facets of new employee screening, onboarding, volunteer screening and employee management into one interface. The system automatically updates with required notices and authorizations as they are released by regulating agencies and state specific forms are automatically populated based on the job location. Insight interfaces with a multitude of laboratories, payroll systems and HR systems providing seamless interaction. We offer lab-based drug tests in compliance with the Department of Transportation's 5- panel drug testing regimen and conduct DOT Random Drug and Alcohol Testing, Pre-employment Drug Screening, and Post-Accident tests in compliance with DOT procedures listed in 49 DFR Part 40. With our nationwide network of over 10,000 collection sites, your employees and job candidates can take tests near their homes, workplace and on the road. The samples are tested at our HHS- certified laboratories as split specimens and reviewed by a board-certified Medical Review Officer (MRO). We provide documented chain of custody forms for all drug samples, and fast turnaround drug test results. We have been managing DOT pools since our inception and our customers have been extremely pleased.

In 50 years, LabCorp has transformed from a local laboratory operating from a hospital basement to a leading global life sciences company that is deeply integrated in guiding patient care. LabCorp has grown organically and through targeted acquisitions that have added to its geographic and technological scope. The company provides comprehensive clinical laboratory and end-to-end drug development services. Employing nearly 61,000 people worldwide, the company's mission is to improve health and improve lives by delivering world-class diagnostics, accelerating the availability of innovative medicines to patients, and using technology to change the way care is delivered. The

company – with revenue in excess of \$11 billion in 2018 – provides diagnostic, drug development and technology-enabled solutions for more than 120 million patient encounters per year. LabCorp typically processes tests on more than 2.5 million patient specimens per week and supports clinical trial activity in approximately 100 countries through its industry-leading central laboratory business, generating more safety and efficacy data to support drug approvals than any other company. LabCorp is certified through the Department of Health and Human Services (HHS) and listed in the Federal Register as an agency that meets the standards of the Mandatory Guidelines for Federal Workplace Drug Testing Programs (Mandatory Guidelines).

Located in Kansas City, MO, was designed to be the ultimate management solution for nationwide employee screening programs. Founded in 1998 by Dr. Murray Lappe and the nation's largest Medical Review Officer (MRO) corporation, eScreen has provided drugs-of-abuse screening and automated hiring program solutions for some of the nation's largest hiring programs. Today with more than 5,100 eScreen Occupational Health Network (EOHN) provider locations, eScreen is setting the new standard for drug testing program management by offering employers a truly nationwide solution. eScreen processes millions of healthcare and corporate data transactions each year through a centralized process that has been designed to ensure program compliance for all Department of Transportation (DOT) and non-DOT hiring programs. As the only truly integrated, electronic drug testing solution in the industry, the capabilities are virtually limitless in its ability to simplify local and nationwide testing. There are several ways that eScreen differentiates itself from the competition. Most prominent among them is being the original, instrumented, point-of-collection test which delivers negative urine test results within 15 minutes—

all while being controlled from a secure, paperless web platform. This platform gives employers total visibility of test data throughout the entire process—from employer to collection facility to lab and then to MRO. It also offers a wide range of innovative products and services including the eScreen123® drugs-of-abuse and occupational health screening platform; electronic custody and control form (eCCF®); and the MyeScreen® industry-leading web- based result reporting and program management software. The Health-eScreen® online application is designed to schedule, process and deliver reports on occupational health services and physical exams via the eScreen platform. With eScreen® computerized database management services, employers can easily manage a consistent, compliant and efficient nationwide drug screening program. eScreen's lab (Alere) is certified through the Department of Health and Human Services (HHS) and listed in the Federal Register as an agency that meets the standards of the Mandatory Guidelines for Federal Workplace Drug Testing Programs (Mandatory Guidelines).

With over 30 years of experience and multiple laboratory facilities dedicated to toxicology worldwide, Alere Toxicology Services offers state-of-the-art technology, automated computer systems, and a skilled laboratory staff to ensure accurate analysis. Alere's laboratory facilities process millions of specimens annually servicing

the unique needs of each of our dedicated solutions segments. The internal quality control program meets and exceeds all standards set by the federal government. To make certain that Alere Toxicology Services is fulfilling all requirements to perform substance abuse testing, they are inspected at least twice a year by the Substance Abuse and Mental Health Services Administration (SAMHSA) and once a year by the College of American Pathologists' Forensic Drug Testing Accreditation (CAP-FUDT). Beyond the inspections, we participate in proficiency testing programs conducted by SAMHSA, CAP-FUDT, New York, Florida, and Pennsylvania. To further ensure that specimens are properly handled and tested, we maintain a Quality Control and Assurance program that encompasses all steps in the testing process, including: Specimen accessioning and handling, Chain of custody, Maintenance of equipment, Personnel performance, Specimen analysis, Laboratory procedures and Reporting of results. Alere is certified through the Department of Health and Human Services (HHS) and listed in the Federal Register as an agency that meets the standards of the Mandatory Guidelines for Federal Workplace Drug Testing Programs (Mandatory Guidelines).

### **SECTION 2: PRODUCTS & SERVICES**

### **Electronic Event Process**

Insight is a secure, confidential customer-facing web application from which end users can manage their entire hiring and workforce management program. Through Insight, the end user has real-time access to drug screens, medical services and other event results, donor status, expired event notifications, and various statistical reports. Insight allows end users to schedule (pre-register) all types of screening and other events to maintain compliance across the hiring program and have true visibility to all parts of the employee screening process. The Scheduling feature is a dynamic tool that gives end users control over creating, monitoring and completing a screening event. \*In addition, the automation capabilities of Insight also allow other options for end users with needs for integration solutions with HRIS and other systems. Flexibility and integration make Insight the total hiring solution for end users seeking faster results, paperless transactions, and compliance control.

Insight features and options include:

- Event scheduling (pre-registration) for drug tests, BAT, medical services and physical exams
- Collection location selection from a nationwide network of service providers
- Single invoice program wide and ability to track cost center at transaction level
- Online results reporting via a secure electronic Inbox
- Real-time event and donor status tracking
- Immediate notification of expired events
- Random and Consortium program management
- On-demand statistical reports generation'
- Program management for "blended" programs DOT and non-DOT events

# **Electronic Forms, Chain of Custody, Result Reporting & Notifications**

All forms associated with a drug screen order, collection, processing, results, scheduling and notifications are easily assessible on the Insight platform in the donor's file. Insight can automate the process of notification, capture electronic signatures of authorization and disclosure forms, and send personalized donor notices. Insight can accommodate WorkForce West Vifginia's requirement for the "Drug Test Authorization Form" by requiring a specific time frame in which the drug screen must be completed by and provide notification if this requirement is not met. Additionally, all collection facilities verify the donors, demographic information and photo ID as part of the collection process.

### **Electronic Applicant Notifications**

Applicants can be notified of drug testing via our web-based platform. Client have the ability to customize time frames in which the donor has to respond to the testing notification and event alerts can be set to notify the employer of scheduling, when the donor presents to the collection site, upon completion of the collection, when a donor fails to show in the allotted time, etc.

### **Laboratory Urine Drug Testing**

For lab-based testing services, the urine specimen is collected at the point-of-care location, sealed and then shipped to a SAMHSA certified lab for the drug screen. Any certified collection site will send specimen to the lab. Non-DOT tests are performed using electronic chain of custody form (eCCF®). DOT lab-based tests can be processed through the Insight system along with the required federal, paper chain plus automated results reporting. For programs that require expanded panel testing and don't demand a rapid result, lab-based testing is the preferred solution. This method is also appropriate for testing employees in situations where the panel may be extended to cover a range of drugs. Lab- based drug testing allows for testing of ALL panel options for all non- DOT testing and required 5- panel tests for DOT employees. The average turnaround time for lab-based test results ranges from 24 to 72 hours. All results report back to the end user via a secure, confidential website.

 All services performed are in compliance with all applicable Federal, DOT and State regulations, rules, statutes, and policies regarding drug and alcohol testing. This includes, but is not limited to, the Federal Motor Carrier Act Title 49: Transportation, Part 40 Procedures for Transportation Workplace Drug and Alcohol Testing Programs, Title 49: Part 382 Controlled Substances and Alcohol Use and Testing.

### **Random Drug Testing**

Insight automates the drug testing administration process through an integrated application that links supervisor, manager, collection site and donor. Random testing events can be monitored and controlled by custom-designed donor pools.

Employers establish the protocols and criteria for each donor pool, which automatically triggers manager notifications when donors are pulled to be tested according to the pool's criteria. Advanced automation gives HR personnel an electronic application to process the details of the random program, and lightens their workload for other duties.

#### Benefits include:

- Custom donor pools
- Real-time status notifications
- Onsite management tools
- Program compliance visibility
- Automated escalation notices
- Consortium for 49 or fewer employees

### **Breath Alcohol Testing**

Recording and reporting breath alcohol testing (BAT) occurs through the Electronic Custody and Control Form (eCCF®) using only authorized BAT testing products. BATs are recorded electronically in the portal and are reported in real-time via a secure and confidential web platform.

Breath alcohol testing can be scheduled (pre-registered) as an independent event or combined with all other types of screening and testing services to create a single-platform collection process (for both DOT and non-DOT BATs).

### **DOT Safety Performance History Records Request**

Automated and electronic requests to previous employers to satisfy DOT Rule 49 CFR Part 40 Section

40.25. The applicant completes the required form online and we take care of the rest. You will receive a copy of the completed checks and these files will be stored in the employee's files in the Insight System.

### **FMCSA Drug & Alcohol Clearinghouse Management**

January 6th, 2020 is the effective date for the new FMCSA Drug and Alcohol Clearinghouse. As a regulated motor carrier, you are affected by this new rule and the addition to Part 382. You are required to comply as any FMCSA employer is. Part 382.727 states: § 382.727 Penalties. An employer, employee, MRO, or service agent who violates any provision of this subpart shall be subject to the civil and/or criminal penalty provisions of 49 U.S.C. 521(b)(2)(C). Insight can manage all aspects of this process for you. First you will need to register as an employer in the FMCSA Clearinghouse and designate Insight People Management, LLC as your C/TPA – Consortium/Third Party Administrator.

- As an employer you will need to purchase annually credits in the Clearinghouse system.
- You will order this query in the Insight system and we take care of the rest.
- Regulations state checks must be performed on all new employees and annually thereafter.
- Insight will run the checks and process annual re-checks for you
- Insight/MRO will report all positive drug and alcohol tests, refusal to test and other reportable incidents for you.
- If you have actual knowledge of drug/alcohol use while performing safety sensitive duties, you can notify Insight and we will handle reporting to the clearinghouse.
- If you have an employee that must attend a Substance Abuse Professional (SAP) for a drug/alcohol violation, notify Insight and we will handle reporting this information to the clearinghouse.
- Insight will report to the Clearinghouse a negative return to duty test and the completion of any required, follow up testing.

### **Software Applications**

Insight connects you with the tools and information you need to efficiently manage employee screening programs. Our systems provide an advanced set of features that improve employee testing processes—allowing you to make informed decisions quickly. Test results are always at your fingertips with streamlined Web-based reporting options. Insight's systems simplify scheduling tests for multiple donors and provides you with the tools to remain compliant with DOT and company drug testing. Our platform integrates with numerous payroll, applicant tracking and human resource information systems (HRIS) providing seamless access and decreases data entry. Insight People Management, along with it's partnered laboratories offer a wide range of personnel to assist with every aspect of your drug testing practice. Our staff not only has hands on experience in the collection of specimens, but also an extensive background in DOT rules and regulations and human resources. Our team can offer guidance every step of the way and are here to streamline the drug testing and driver management requirements that you face.

# **SECTION 3: DRUG TEST SPECIFICS**

Proposer will test, record, submit for review and legally support confirmations of test specimens in conformity within the concentration cutoff levels requested by WorkForce West Virginia as outlined below. Proposer has the ability to change screening cutoffs as requested by WFWV and/or according to National cutoff levels from the US DOT and US DHH.

Initial Test Analyte	Initial Test Cutoff Concentration	Confirmatory Test Cutoff Concentration
Amphetamines	1000 ng	500 ng
Cannabinoids/THC	50 ng	15 ng
Cocaine Metabolite	300 ng	150 ng
Opiates	300 ng	300 ng
Phencyclidine (PCP)	25 ng	25 ng
Benzodiazepines	300 ng	300 ng
Propoxyphene	300 ng	300 ng
Methadone	300 ng	300 ng
Barbiturates	300 ng	300 ng
Synthetic Narcotics		
Oxycodone	100 ng	100 ng
Hydrocodone	300 ng	300 ng

# **SECTION 5: QUALITY OF SERVICE**

Insight will implement WORKFORCE WEST VIRGINIA's FTA drug-testing program as the C/TPA (Consortium/Third Party Administrator) and will adhere to 49 CFR Part 40 "Procedures for Transportation Workplace Drug Testing Programs"; and, 49 CFR Part 655 "Prevention of Alcohol and Prohibited Drug Use in Transit Operations" for all procedural and regulatory requirements that assure maintenance of and compliance with the FTA Drug and Alcohol Testing Program. In doing so, Insight will draw the monthly selections of employees to have random drug/alcohol tests. Insight will only use Department of Health & Human Services (DHHS) and Substance Abuse and Mental Health Services Administration (SAMHSA) certified laboratories that maintain certification of personnel and facility. Certified Laboratories and will provide the contact and certification information of the Medical Review Officer (MRO) as requested.

### **Insight Can Provide Services 365 Days a Year**

Insight, through it's affiliated certified laboratories, maintains a vast network of reliable collection sites worldwide. More than 10,000 active, preferred, and clinic service centers are available to accommodate your substance abuse testing and occupational health needs. These providers are knowledgeable, experienced, and follow all established regulatory guidelines to maintain proper collection procedures and assure specimen integrity. Many can also provide breath alcohol testing, pre-employment, random, and post-accident testing, physicals, and occupational health programs. Additionally, Insight maintains an on-call Collector for post- accident, reasonable suspicion, and FTA random tests.

### **Insight Uses Only DHHS Certified Laboratories**

- a) Drug testing will be conducted by Substance Abuse and Mental Health Services Administration (SAMHSA) certified laboratories (Alere/Quest/LabCorp, etc..) and in accordance with Department of Health and Human Services and Department of Transportation requirements. Testing of nonregulated specimens is conducted using comparable stringent protocols.
- b) Each certified lab conducts routine and recommended internal and external calibration verification based on the manufacturers recommendations. Documentation of this compliance is on file with each prospective laboratory and meets SAMSHA, Department of Health and Human Services, DOT and 49 CFR Parts 40 and 655 requirements. Due to the large number of collectors employed by each certified lab and collection sites totaling over 10,000 locations, specific requests for such documentation will be provided upon request when accompanied by a specific geographical area.

### c) Specimen Collection and Drug Testing Procedures

Specimen collection will be conducted in accordance with 49 CFR Part 40 and any applicable state law. Collection procedures have been designed to ensure the security and integrity of the specimen provided by each driver. The procedures will strictly follow federal chain of custody guidelines. A drug testing custody and control form (CCF) will be used to document the chain of custody from the time the specimen is collected at the testing facility until it is tested at the laboratory. A collection kit meeting the requirements of 49 CFR Part 40, Appendix A must be used for the drug test. The driver will be asked to remove all unnecessary outer garments (coat, jacket) and secure all personal belongings. The driver may keep his/her wallet. The driver will be asked to provide his/her specimen in a room that allows for privacy unless direct observation is required by 49 CFR Part 40.67. Once a 45 mL sample is provided, it must be split into a primary specimen of 30 mL and a second specimen of 15 mL. Only the primary (30 mL) specimen is used for testing. The second (15 mL) specimen may be used for a second confirmation test if requested by the employee. Nelson Tree Service Substance Abuse Policy (Rev 02.01.17) Page 26 To ensure the integrity and accuracy of each test, all specimen collection, analysis, and laboratory procedures shall be conducted in accordance with DOT procedural protocols and safeguards as set forth in 49 CFR Part 40.

#### d) Laboratory Analysis & Results

As required by 49 CFR Part 40 regulations, only a laboratory certified by the Department of Health and Human Services (DHSS) to perform urinalysis for the presence of controlled substance will be retained by Insight. The laboratory will maintain strict compliance with federally approved chain-of-custody procedures, quality control, maintenance, and scientific analytical

methodologies. All drug screens include a preliminary drug screening, two highly sophisticated scientific tests including adulterant detection, and a review of non-negative results by an independent Medical Review Officer. All specimens are required to undergo an initial screen followed by confirmation of all positive screen results. According to 49 CFR Part 40 regulation, the laboratory must report all test results directly to the medical review officer (MRO). All test results must be transmitted to the MRO in a timely manner, preferably the same day that they were reviewed by the certifying scientist. The MRO will receive all test results, interpret the results and notify the employee of any positive results. The MRO will then provide the employee the opportunity to discuss the results, verify the results and review any medical history, including any appropriate medical records provided by the person tested. This review and interpretation are to determine if there is an alternate medical explanation for the confirmed positive test result. The MRO will then verify that the laboratory report and assessment are correct, and notify the

Designated Employer Representative of the pass/fail results. Based on a review of laboratory inspection reports, quality assurance and quality control data, and other drug test results, the MRO may conclude that a particular specimen is invalid for testing. Upon reaching such a conclusion, the MRO will cancel the test and determine whether there is a medical explanation for the specimen's invalidity. If no explanation is found, the MRO will order that the individual be tested again using direct observation collection procedures. If an employee's test is verified as positive, the MRO will accept the employee's request for a retest at the original laboratory or at a second certified laboratory for a period of sixty (60) days following the employee's receipt of the verified test results from the MRO, or as otherwise allowed by the laws or regulations of the State where the employee reports for duty. An employee who is tested pursuant to DOT or FMCSA Regulations and whose test is verified as positive, adulterated or substituted is entitled to have the split specimen tested if the request for such testing is received by the MRO within seventy-two (72) hours of the employee's receipt of the verified test results. The MRO will approve all retest results to be sent to Substance Abuse and Mental Health Service Administration (SAMHSA) certified laboratories at the employee's expense (employee will be reimbursed if the retest is negative) and notify the laboratory in writing to maintain verified positive urine in secured frozen storage for more than 365 days, if required for a court case or for some other reason. The MRO may verify a positive, adulterated, substituted, or invalid drug test without having communicated with the driver about the test results if: 1.) The driver expressly declines the opportunity to discuss the results of the test. 2.) Neither the MRO or DER has been able to make contact with the driver for 10 days; or 3.) Within 72 hours after a documented contact by the DER instructing the driver to contact the MRO. the driver has not done so. The MRO shall also conduct additional examinations, interviews and/or counseling, as necessary, to ascertain whether a situation constitutes covered personnel's failure to be fit for duty. The MRO shall participate in and provide all information necessary to the individual(s) reviewing and resolving appeals by employees. Because it is possible that some analytes may deteriorate during storage the results of a retest are to be reported as confirmation of the original test results if the detected level of the drug are: a) below the DOT established limit; and b) equal to or greater than the sensitivity of the test. The current company responsible for providing the Medical Review Officer services is:

MRO - Dr. Stephen Kracht 7500 W. 110th St. Ste. 500 Overland Park, KS. Phone 800-881-0722 or 888-382-2281.

### e) Confirmation and/or Confirmatory Drug Test

All specimens testing positive on qualitative analysis will be subject to a second analytical procedure to identify and quantify the presence of a specific drug or drug metabolite. All positive initial tests are confirmed by Gas Chromatography Mass Spectrometry (GC/MS) at cut off levels established by the DOT under Substance Abuse and Mental Health Services Administration (SAMHSA), or accepted industry standard for those drugs for which DOT cut off levels have not been established.

### f) Split Sample

As required by 49 CFR Part 40 regulations, the MRO must notify each driver who has a positive, adulterated, substituted, or invalid drug test result that he/she has 72 hours to request the test of the split specimen. If the driver requests the testing of Nelson Tree Service Substance Abuse Policy (Rev 02.01.17) Page 27 the split specimen, the MRO must direct (in writing) the lab to provide the split specimen to another certified laboratory for analysis. The driver will pay for the testing of a split specimen.

### g) Specimen Retention

Long-term frozen storage will ensure that positive urine specimens will be available for any necessary retest. The designated drug testing laboratory will retain all confirmed positive specimens for at least 1 year in the original labeled specimen bottle. Confidentiality/Recordkeeping All driver alcohol and controlled substance test records are considered confidential and will be retained for the time required in 49 CFR 382.401.

### Letter of Authority to the MRO For Information Exchange

• Insight will obtain WORKFORCE WEST VIRGINIA's Designated Employee Representative (DER) information and provide each laboratory with a letter of authorization allowing them to transmit confidential information about drug and alcohol testing between the MRO and WORKFORCE WEST VIRGINIA'S DER (Workers' Compensation/Drug & Alcohol Program Administrator) and who will serve as the contact and liaison for any and all purposes related to Federal Drug and Alcohol Testing. The Designated Employer Representative (DER) is the only person who may designate an alternate to function in her stead. The Workers' Compensation/Drug & Alcohol

Program Administrator contact information will be provided to the awarded contractor.

#### **On-Site Testing**

 For on-site testing, the collector will arrive at least 15 minutes early and will notify the supervisor on duty of their presence at the WORKFORCE WEST VIRGINIA site to assure the vital coordination and compliance of the drug testing program.

## **Reporting Issues to the DER**

Insight and/or it's designated agents will report any problem situations to the DER immediately. Depending on the situation this may be by phone or in person and will be documented according to DOT/FTA requirements. Problems may include, but are not limited to:

- Refusal to test:
- Refusal to cooperate with the Collector;
- Hostile and/or belligerent behavior;
- Attempted adulteration of a specimen;
- Attempted substitution of a specimen; and/or
- Any reason to require an observed collection.
- Any problem collections will be handled strictly according to DOT/FTA Regulations.

## **Collector Training and Certification**

- a) Due to the large collection site network and thousands of collection personnel employed, Insight will provide detailed information on the collection personnel's qualifications pertaining to staff to be utilized on specific pre- arranged collection dates or at specific locations.
- b) WORKFORCE WEST VIRGINIA will make such requests at least 5 days prior to an on-site collection or reference a specific collection site.
- Under no circumstance will collection personnel be used that do not meet DOT requirements.
- d) WORKFORCE WEST VIRGINIA has the final authority to approve or deny all collectors

# **Qualified Collection Personnel & Use of NHTSA Approved Products**

- a) Collection personnel are trained and certified in accordance with 49 CFR Parts 40 and 655
- b) To ensure the integrity and accuracy of each test, all specimen collection, analysis, and laboratory procedures shall be conducted in accordance with DOT procedural protocols and safeguards as set forth in 49 CFR Part 40.
- c) Only products on the conforming products list (approved by

- NHTSA) and Part 40 requirements will be utilized for testing under this policy.
- d) EBT or ASD of < 0.02 are reported as negative with results and a copy of the signed form being uploaded into Insight.
- e) If the EBT or ASD is 0.02 or more, a confirmation test will be performed and the BAT will immediately and directly notify the DER and results will be uploaded into Insight. Communications between the BAT and donor, DER, MRO and/or Insight will be documented in the record.
- f) Recommended internal and external calibration verification based on the manufacturers recommendation will be carried out by collection staff and collection sites and available to the DER if requested.

## Collections Site & Labs Compliance with the CFR for DOT Drug Testing

- Collection Sites, Forms, Equipment, Supplies Used in DOT Urine Collections are in compliance with DOT standards and collection of specimens meet the same requirements.
- All collection sites have all necessary personnel, materials, equipment, facilities and supervision to provide for the collection, temporary storage, and shipping of urine specimens to a laboratory, and a suitable clean surface for writing.
- Collections sites take necessary steps to protect the security and integrity of urine collections.
- Federal Drug Testing Custody and Control Form (CCF) or Electronic Chain of Custody (eCCF) forms are used to document every urine collection required by the DOT drug testing program.
- For each DOT drug test, a collection kit meeting the requirements of Appendix A of this part.
- Collectors identify donors and comply with all DOT testing requirements.
- WORKFORCE WEST VIRGINIA's DER will have 24-hour access to the Insight platform with robust reporting features that can organize collections/testing by name, date, department, result, etc.
- Insight can customize DER notifications to include no-shows, arrival, specimen collected and end results. Once results are completed, the DER will receive an email notification to log-in and view the results. Copies of all pertinent forms (CCF, BAT, Authorization, Disclosure, Test Results) are available to view and download as needed.
- Negative drug test results will be emailed per secure line directly to DER on the same day as received from the MRO.
- Confirmed positive results will be called per secure phone line directly to DER on the same day as received from the MRO. Phone results will be followed with emailed results.

#### **Random Selection Process**

- Insight uses a computer generated random testing process based on a scientifically valid method, prescribed by FMCSA regulations.
- The random testing percentage will conform with current FMCSA regulations and will be amended based on changes made by governing agencies.
- The DER will decide the schedule for random selections (monthly, quarterly, yearly).
- If on-site collections will be utilized, the DER will coordinate scheduling through Insight People Management. Preferably a 72-hour notice applies to on-site scheduling, but Insight will work with the DER to accommodate the company's needs. If additional charges apply for time sensitive situations, WORKFORCE WEST VIRGINIA will be responsible for such fees.

# **Compliance With The Transmission of Drug and Alcohol Testing Information**

As a TPA, Insight may act as an intermediary in the transmission of drug and alcohol testing information in the circumstances specified by the client. Each client makes the decision about whether to receive some or all of this information, rather than directly from the service agent who originates the information (e.g., an MRO or BAT). The specific provisions of this part concerning which Insight may act as an intermediary are listed in Appendix F to this part. These are the only situations in which you may act as an intermediary. You are prohibited from doing so in all other situations. In transmitting information to clients/employers, Insight will meet all requirements (e.g., concerning confidentiality and timing) that would apply if the service agent originating the information (e.g., an MRO or collector) sent the information directly to the client/employer. Results within the Insight system are secure and only assessible by individuals designated by WORKFORCE WEST VIRGINIA. Restricted access allows for increased security and confidentiality.

#### **Overall Benefits**

#### **Ensure Compliance**

We closely monitor regulations and manage your program to fully meet DOT requirements.

Minimize Risk & Exposure

Keep drivers on the road safe with a reliable drug and alcohol testing program.

#### **Fast Results**

Receive fast notification of positive tests, so you can act immediately. 97% of test results are returned within 48 hours.

#### Centralized Electronic Files

Your files will be securely stored electronically, accessible 24/7 in the Client Information Center.

**Reduced Overhead** 

Minimize costs of in-house expertise & relieve your accounting dept with consolidated billing (One monthly D&A testing bill).

# **SECTION 6: PERSONNEL**

#### **Lori Purcell**

CEO and Manager, Insight People Management, LLC

Phone: 225-324-2790

Email: lori@insightpeoplemanagement.com

Lori is a seasoned professional with over 23 years of practical experience in healthcare, human resources and in the legal field. She is familiar with clinic operations, drug screen collections, DOT rules and regulations, employee management, applicant tracking and all aspects of human resource related services, including EEOC, ADA and FMLA. Her other strengths include regulatory compliance related to the Fair Credit Reporting Act of 1970 (FCRA), Federal Motor Carrier Safety Regulations, driver qualification files, CDL, DOT, as well as transportation litigation, commercial litigation and risk management. Lori oversees and supports all compliance related programs and facilitates modifications resulting from changes in the law to ensure all clients are provided the most up-to-date information, forms and receive legally compliant products.

## **Trey Hill**

Vice President of Sales, Insight People Management, LLC

Phone: 225-571-7466

Email: treyhill@insightpeoplemanagement.com

Trey is an accomplished executive with a medical background. He obtained a degree in nursing from Our Lady of the Lake and has over 24 years experience in ICU, PACU, ER and clinic operations. He has expert knowledge of medical related processes and is familiar with a wide range of laboratory products (from analytical instrumentation to disposables) to physician offices, medical groups, reference laboratories, and hospital laboratories. He routinely assists clients in choosing the best products and services to meet their needs. Trey handles strategic planning, sales development and growth, P&L, and process implementation. He has excellent knowledge of human biology and the effects of pharmaceuticals, drug testing rules and regulations and employee drug screening programs.

#### **Danny Chance**

President, Pelican Diagnostics, LLC

Director of Clinical Laboratory Services, Insight People Management, LLC

Phone: 318-381-0024

Email: djrchance@yahoo.com

Danny has been the president and owner of Pelican Diagnostics LLC for over 4 years and also serves as the Director of Clinical Laboratory Services for Insight. He has an extensive background in laboratory management, chain-of-custody, supervising laboratory personnel, overseeing quality assurance, conducting quality controls, analyzing and interpreting laboratory results,

determining operations issues and maintaining lab records and manuals. Danny has in depth knowledge and experience of DOT rules and regulations, collection procedures for Non- DOT & DOT drug and alcohol specimens as well as documentation requirements. Additionally, he created a program for the Louisiana DCFS to perform mobile drug screens for clients and children when needed at court, homes, or the local state office.

#### **Glynn Chaney**

Vice President and Director, Medical Drug Monitoring, LabCorp, Discipline Director,

Clinical Toxicology Phone: 727-482-7873

Email: chaneyg@labcorp.com

Mr. Chaney holds certification as a toxicological chemist from the National Registry of Certified Chemists. He earned a Master of Science degree in technology management from Mercer University in Atlanta, Georgia. He has comprehensive experience in analytical toxicology methods, theory, and instrumentation with emphasis in mass spectrometry, chromatography (GC, HPLC, SPE, TLC), and immunoassay. His management experience and skills encompass technical operations, product development, and sales in complex, competitive and service intensive business disciplines. He first joined LabCorp 1999 as a toxicology laboratory director in Tampa, Florida. Additionally, Mr. Chaney is a substance abuse and mental health services (SAMHSA) inspector for the National Laboratory Certification Program, a forensic urine drug testing (FUDT) inspector for the College of American Pathologists, and a member of the Society of Forensic Toxicologists and the Society of Hair Testing.

#### Stephen J. Kracht, D.O.

Medical review Officer, Aleere/eScreen

8140 Ward Pkwy Suite 275 Kansas City, MO 64114

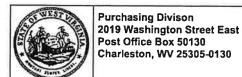

Phone: 847-631-0599 Email: mrocc@mrocc.org

Dr. Kracht obtained his medical degree from the University of Missouri Kansas City School of Medicine in 1983 and has been in practice for 35 years. He specializes in occupational medicine preventive medicine in Overland Park, KS with a focus on the health of workers, including the ability to perform work; the physical, chemical, biological, and social environments of the workplace; and the health outcomes of environmental exposures. Practitioners in this field address the promotion of health in the work place, and the prevention and management of occupational and environmental injury, illness, and disability. He is certified by both the Medical Review Officer Certification Council and the American Association of Medical Review Officers.

# REQUEST FOR QUOTATION **Drug Screening/Testing Services**

DOL: http://www.dol.gov/elaws/esa/flsa/docs/contractors.asp

Prior to utilizing the services available under this contract, each agency must ensure that factors relating to the broad categories of behavioral control, financial control, and the type of relationship between the state and the temporary worker will not cause the independent contractor relationship to be construed as an employee/employer relationship. Items that must be considered include but are not limited to, the degree of control exercised by the State over the temporary worker relating to performance of the job and the degree to which the temporary worker is integrated into the State's system. The Purchasing Division recommends that each agency review the IRS and DOL publications found at the links above and obtain further assurance from their respective internal legal counsel to maintain the independent contractor status for individuals and entities hired under this contact.

#### 12. MISCELLANEOUS:

12.1 Contract Manager: During its performance of this Contract, Vendor must designate and maintain a primary contract manager responsible for overseeing Vendor's responsibilities under this Contract. The Contract manager must be available during normal business hours to address any customer service or other issues related to this Contract. Vendor should list its Contract manager and his or her contact information below.

# **Disclosure of Interested Parties to Contracts**

Pursuant to W. Va. Code § 6D-1-2, a state agency may not enter into a contract, or a series of related contracts, that has/have an actual or estimated value of \$1 million or more until the business entity submits to the contracting state agency a Disclosure of Interested Parties to the applicable contract. In addition, the business entity awarded a contract is obligated to submit a supplemental Disclosure of Interested Parties reflecting any new or differing interested parties to the contract within 30 days following the completion or termination of the applicable contract.

For purposes of complying with these requirements, the following definitions apply:

"Business entity" means any entity recognized by law through which business is conducted, including a sole proprietorship, partnership or corporation, but does not include publicly traded companies listed on a national or international stock exchange.

"Interested party" or "Interested parties" means:

- (1) A business entity performing work or service pursuant to, or in furtherance of, the applicable contract, including specifically sub-contractors;
- (2) the person(s) who have an ownership interest equal to or greater than 25% in the business entity performing work or service pursuant to, or in furtherance of, the applicable contract. (This subdivision does not apply to a publicly traded company); and
- (3) the person or business entity, if any, that served as a compensated broker or intermediary to actively facilitate the applicable contract or negotiated the terms of the applicable contract with the state agency. (This subdivision does not apply to persons or business entities performing legal services related to the negotiation or drafting of the applicable contract.)

"State agency" means a board, commission, office, department or other agency in the executive, judicial or legislative branch of state government, including publicly funded institutions of higher education: Provided, that for purposes of W. Va. Code § 6D-1-2, the West Virginia Investment Management Board shall not be deemed a state agency nor subject to the requirements of that provision.

The contracting business entity must complete this form and submit it to the contracting state agency prior to contract award and to complete another form within 30 days of contract completion or termination.

This form was created by the State of West Virginia Ethics Commission, 210 Brooks Street, Suite 300, Charleston, WV 25301-1804. Telephone: (304)558-0664; fax: (304)558-2169; e-mail: ethics@wv.gov; website: www.ethics.wv.gov.

# STATE OF WEST VIRGINIA Purchasing Division

# **PURCHASING AFFIDAVIT**

CONSTRUCTION CONTRACTS: Under W. Va. Code § 5-22-1(i), the contracting public entity shall not award a construction contract to any bidder that is known to be in default on any monetary obligation owed to the state or a political subdivision of the state, including, but not limited to, obligations related to payroll taxes, property taxes, sales and use taxes, fire service fees, or other fines or fees.

ALL CONTRACTS: Under W. Va. Code §5A-3-10a, no contract or renewal of any contract may be awarded by the state or any of its political subdivisions to any vendor or prospective vendor when the vendor or prospective vendor or a related party to the vendor or prospective vendor is a debtor and: (1) the debt owed is an amount greater than one thousand dollars in the aggregate; or (2) the debtor is in employer default.

**EXCEPTION:** The prohibition listed above does not apply where a vendor has contested any tax administered pursuant to chapter eleven of the W. Va. Code, workers' compensation premium, permit fee or environmental fee or assessment and the matter has not become final or where the vendor has entered into a payment plan or agreement and the vendor is not in default of any of the provisions of such plan or agreement.

#### **DEFINITIONS:**

WITNESS THE FOLLOWING SIGNATURE.

"Debt" means any assessment, premium, penalty, fine, tax or other amount of money owed to the state or any of its political subdivisions because of a judgment, fine, permit violation, license assessment, defaulted workers' compensation premium, penalty or other assessment presently delinquent or due and required to be paid to the state or any of its political subdivisions, including any interest or additional penalties accrued thereon.

"Employer default" means having an outstanding balance or liability to the old fund or to the uninsured employers' fund or being in policy default, as defined in W. Va. Code § 23-2c-2, failure to maintain mandatory workers' compensation coverage, or failure to fully meet its obligations as a workers' compensation self-insured employer. An employer is not in employer default if it has entered into a repayment agreement with the Insurance Commissioner and remains in compliance with the obligations under the repayment agreement.

"Related party" means a party, whether an individual, corporation, partnership, association, limited liability company or any other form or business association or other entity whatsoever, related to any vendor by blood, marriage, ownership or contract through which the party has a relationship of ownership or other interest with the vendor so that the party will actually or by effect receive or control a portion of the benefit, profit or other consideration from performance of a vendor contract with the party receiving an amount that meets or exceed five percent of the total contract amount.

AFFIRMATION: By signing this form, the vendor's authorized signer affirms and acknowledges under penalty of law for false swearing (*W. Va. Code* §61-5-3) that: (1) for construction contracts, the vendor is not in default on any monetary obligation owed to the state or a political subdivision of the state, and (2) for all other contracts, that neither vendor nor any related party owe a debt as defined above and that neither vendor nor any related party are in employer default as defined above, unless the debt or employer default is permitted under the exception above.
