PURCHASING AFFIDAVIT

CONSTRUCTION CONTRACTS: Under W. Va. Code § 5-22-1(i), the contracting public entity shall not award a construction contract to any bidder that is known to be in default on any monetary obligation owed to the state or a political subdivision of the state, including, but not limited to, obligations related to payroll taxes, property taxes, sales and use taxes, fire service fees, or other fines or fees.

ALL CONTRACTS: Under W. Va. Code §5A-3-10a, no contract or renewal of any contract may be awarded by the state or any of its political subdivisions to any vendor or prospective vendor when the vendor or prospective vendor or a related party to the vendor or prospective vendor is a debtor and: (1) the debt owed is an amount greater than one thousand dollars in the aggregate; or (2) the debtor is in employer default.

EXCEPTION: The prohibition listed above does not apply where a vendor has contested any tax administered pursuant to chapter eleven of the W. Va. Code, workers' compensation premium, permit fee or environmental fee or assessment and the matter has not become final or where the vendor has entered into a payment plan or agreement and the vendor is not in default of any of the provisions of such plan or agreement.

DEFINITIONS:

"Debt" means any assessment, premium, penalty, fine, tax or other amount of money owed to the state or any of its political subdivisions because of a judgment, fine, permit violation, license assessment, defaulted workers' compensation premium, penalty or other assessment presently delinquent or due and required to be paid to the state or any of its political subdivisions, including any interest or additional penalties accrued thereon.

"Employer default" means having an outstanding balance or liability to the old fund or to the uninsured employers' fund or being in policy default, as defined in W. Va. Code § 23-2c-2, failure to maintain mandatory workers' compensation coverage, or failure to fully meet its obligations as a workers' compensation self-insured employer. An employer is not in employer default if it has entered into a repayment agreement with the Insurance Commissioner and remains in compliance with the obligations under the repayment agreement.

"Related party" means a party, whether an individual, corporation, partnership, association, limited liability company or any other form or business association or other entity whatsoever, related to any vendor by blood, marriage, ownership or contract through which the party has a relationship of ownership or other interest with the vendor so that the party will actually or by effect receive or control a portion of the benefit, profit or other consideration from performance of a vendor contract with the party receiving an amount that meets or exceeds five percent of the total contract amount.

AFFIRMATION: By signing this form, the vendor's authorized signer affirms and acknowledges under penalty of law for false swearing (W. Va. Code §61-5-3) that: (1) for construction contracts, the vendor is not in default on any monetary obligation owed to the state or a political subdivision of the state, and (2) for all other contracts, that neither vendor nor any related party owe a debt as defined above and that neither vendor nor any related party are in employer default as defined above, unless the debt or employer default is permitted under the exception above.

An emergency purchase in the open market, approved by the Purchasing Division Director, shall not constitute a breach of this Contract and shall not entitle the Vendor to any form of compensation or damages. 26. SUBSEQUENT FORMS: The terms and conditions contained in this Contract shall supersede any and all subsequent terms and conditions which may appear on any form documents submitted by Vendor to the Agency or Purchasing Division such as price lists, order forms, invoices, sales agreements, or maintenance agreements, and includes internet websites or other electronic documents. 42. PREFERENCE FOR USE OF DOMESTIC STEEL PRODUCTS: Except when authorized by the Director of the Purchasing Division pursuant to W. Va. Code § 5A-3-56, no contractor may use or supply steel products for a State Contract Project other than those steel products made in the United States. A contractor who uses steel products in violation of this section may be subject to civil penalties pursuant to W. Va. Code § 5A-3-56. As used in this section:

- a. "State Contract Project" means any erection or construction of, or any addition to, alteration of or other improvement to any building or structure, including, but not limited to, roads or highways, or the installation of any heating or cooling or ventilating plants or other equipment, or the supply of and materials for such projects, pursuant to a contract with the State of West Virginia for which bids were solicited on or after June 6, 2001.
- b. "Steel Products" means products rolled, formed, shaped, drawn, extruded, forged, cast, fabricated or otherwise similarly processed, or processed by a combination of two or more or such operations, from steel made by the open heath, basic oxygen, electric furnace, Bessemer or other steel making process. The Purchasing Division Director may, in writing, authorize the use of foreign steel products if:
- c. The cost for each contract item used does not exceed one tenth of one percent (.1%) of the total contract cost or two thousand five hundred dollars (\$2,500.00), whichever is greater. For the purposes of this section, the cost is the value of the steel product as delivered to the project; or
- d. The Director of the Purchasing Division determines that specified steel materials are not produced in the United States in sufficient quantity or otherwise are not reasonably available to meet contract requirements.

43. PREFERENCE FOR USE OF DOMESTIC ALUMINUM, GLASS, AND STEEL: In Accordance with W. Va. Code § 5-19-1 et seq., and W. Va. CSR § 148-10-1 et seq., for every contract or subcontract, subject to the limitations contained herein, for the construction, reconstruction, alteration, repair, improvement or maintenance of public works or for the purchase of any item of machinery or equipment to be used at sites of public works, only domestic aluminum, glass or steel products shall be supplied unless the spending officer determines, in writing, after the receipt of offers or bids, (1) that the cost of domestic aluminum, glass or steel products is unreasonable or inconsistent with the public interest of the State of West Virginia, (2) that domestic aluminum, glass or steel products are not produced in sufficient quantities to meet the contract requirements, or (3) the available domestic aluminum, glass, or steel do not meet the contract specifications. This provision only applies to public works contracts awarded in an amount more than fifty thousand dollars (\$50,000) or public works contracts that require more than ten thousand pounds of steel products.

The cost of domestic aluminum, glass, or steel products may be unreasonable if the cost is more than twenty percent (20%) of the bid or offered price for foreign made aluminum, glass, or steel products. If the domestic aluminum, glass or steel products to be supplied or produced in a

“substantial labor surplus area”, as defined by the United States Department of Labor, the cost of domestic aluminum, glass, or steel products may be unreasonable if the cost is more than thirty percent (30%) of the bid or offered price for foreign made aluminum, glass, or steel products. This preference shall be applied to an item of machinery or equipment, as indicated above, when the item is a single unit of equipment or machinery manufactured primarily of aluminum, glass or steel, is part of a public works contract and has the sole purpose or of being a permanent part of a single public works project. This provision does not apply to equipment or machinery purchased by a spending unit for use by that spending unit and not as part of a single public works project.

All bids and offers including domestic aluminum, glass or steel products that exceed bid or offer prices including foreign aluminum, glass or steel products after application of the preferences provided in this provision may be reduced to a price equal to or lower than the lowest bid or offer price for foreign aluminum, glass or steel products plus the applicable preference. If the reduced bid or offer prices are made in writing and supersede the prior bid or offer prices, all bids or offers, including the reduced bid or offer prices, will be reevaluated in accordance with this rule.

Code § 6D-1-2 requires that for contracts with an actual or estimated value of at least \$1 million, the vendor must submit to the Agency a supplemental disclosure of interested parties reflecting any new or differing interested parties to the contract, which were not included in the original pre-award interested party disclosure, within 30 days following the completion or termination of the contract. A copy of that form is included with this solicitation or can be obtained from the WV Ethics Commission. This requirement does not apply to publicly traded companies listed on a national or international stock exchange. A more detailed definition of interested parties can be obtained from the form referenced above.

45. PROHIBITION AGAINST USED OR REFURBISHED: Unless expressly permitted in the solicitation published by the State, Vendor must provide new, unused commodities, and is prohibited from supplying used or refurbished commodities, in fulfilling its responsibilities under this Contract.

DESIGNATED CONTACT: Vendor appoints the individual identified in this Section as the Contract Administrator and the initial point of contact for matters relating to this Contract.

DRONEUP TRAINING ACADEMY

IFB OVERVIEW

In order to meet the requirements laid out in the IFB which calls for “Part 107 Recurrent Training Assistance,” if DroneUp is awarded this contract we will grant the issuing agency 75 training credits. The one-time award of these credits will allow for the issuing agency’s use of DroneUp’s extensive training resources, including but not limited to Part 107 Recurrent Training Assistance.

We are including these **10** credits total in our offer at zero cost to the issuing agency. They may be applied toward any of the courses outlined below.

DroneUp Training Academy sets the standard in world-class air support for public safety agencies; providing confidence, expertise through innovative tools, training, consulting, and sustainable programs. Your agency will be equipped with everything your department needs for efficient and effective drone operations from takeoff to landing.

DroneUp Training Academy has trained 750 drone pilots. Our team consists of manned aviators, UAV experts, with expertise in thermography, night operations, search and rescue, crash investigation, fire services support, law enforcement and public works.

Training is instrumental for passing the FAA’s Part 107 Remote Pilot Knowledge Test to become a certified drone pilot. Learning to apply ground school principals in real-world scenarios and to flying a drone safely aside from a skilled flight instructor is crucial. Once basic training is complete, specific missions training is also significant in understanding how to capture the data required to be effective.

NIGHT OPERATIONS WAIVER (107.29) TRAINING AND CONSULTING

6 credits (includes online training for 1 PIC and 1 Visual Observer)

Cost for additional students: 1 credit each

Why do you need a Night Operations Waiver?

Organizations that need to conduct flight operations at night (30 minutes after sunset to 30 minutes before sunrise) need a Night Operations Waiver. Under Part 107, flying at night requires additional FAA approval and training. This waiver allows night operations for a period of 4 years provided the waiver holder meets the requirements.

What you get:

We will build and submit your waiver on your behalf to the FAA for approval. Whether you are flying under Public COA or Part 107 and have been approved to fly at night, you *also* need the training to be in compliance. This package also includes online training for two students that fulfills the FAA requirements for flying at night.

Who would benefit from a Night Operations Waiver?

In public safety, emergencies don't discriminate. Your team could be called to fly with a moment's notice at any time or your mission could extend past sunset. This is a must-have for any public safety agency.

How do you get a Night Operations Waiver?

DroneUp Training Academy has spent years mastering the waiver approval process and will walk you through every step of the process to get approved. These waivers typically require training and passing a knowledge-based test, a two-person flight crew that includes Pilot in Command (PIC) and Visual Observer (VO), specialized lighting, and a procedure for flying drones safely at night.

OVERFLIGHT OF PEOPLE WAIVER (107.39) TRAINING AND CONSULTING

60 credits for the waiver application + online training for 2 students
Additional students 1 credit each

Why do you need an Overflight of People (107.39) waiver?

Organizations that will need to conduct flight operations over people other than their drone flight crew need a 107.39 waiver. This waiver allows unrestricted overflight over people for a period of 4 years, provided the waiver-holder follows basic provisions regarding training, flight logging, and the use of an approved airframe parachute.

How do I get an Overflight of People Waiver?

Overflight of People Waivers are among the most heavily scrutinized by the FAA and have historically been among the most difficult to obtain. Until now. DroneUp Training Academy has spent years mastering the waiver approval process and will walk you through every step of the process to get approved.

What you get:

We will build and submit your waiver on your behalf to the FAA for approval.

Training - Online training for two students required by the FAA to award this waiver.

A Flight Operations Manual - This is your internal playbook for operations over people. This supports our presentation to the FAA by demonstrating your internal standards, operating procedures, and training. The main purpose of the Flight Operations Manual is to help you scale safe and standardized operations internally. If you already have a Flight Operations Manual for UAS operations, we will write this as an attachment to your current manual. This manual also includes the tools and forms for training, flight logging, checklists, and more.

Waiver Safety Explanation - This is our documented case to the FAA about why your intended operations over people are safe; outlining specifications, operating procedures, and training to ensure flight safety for flying your UAS over people. We use verified data from ParaZero or Indemnity to back-up our assertion that your operations over people are safe.
