DYNAPAC LARGE ASPHALT TANDEM ROLLERS

DYNAPAC CC2200 - CC3200 with T4final engines

 **DYNAPAC**
FAYAT GROUP

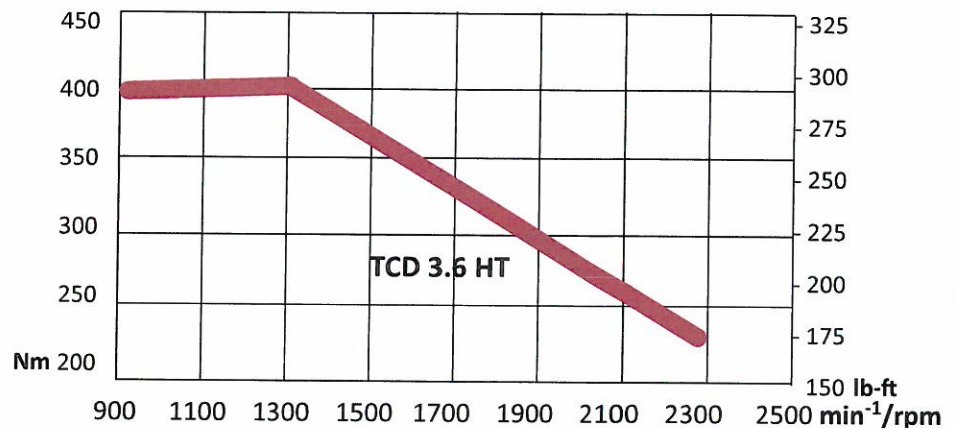

dynapac.us
dynapac.ca

Introducing the CC2200 – CC3200 with a new T4 final

Now Dynapac introduce a new T4final engine alternative for the CC2200 – CC3200 product range. Dynapac have had as a lead-star to always utilize the engine power as efficient as possible keeping both fuel consumption and emissions as low as possible. The new installation on CC2200 – CC3200 is no exception but on the contrary we have gathered together a number of features as standard to have best possible efficiency.

T4 FINAL DIESEL ENGINE WITH HIGH TORQUE SETTING

We have used the 55 kW/ 75 hp Deutz TCD 3.6 HT engine. This is a turbo diesel with charge air cooler that have got a very good torque curve delivering the power in a, for a roller, very efficient way. It works with a Diesel Oxidation Catalyst (DOC) for emission reduction so it is a rather uncomplicated emission control system.

The steep torque curve makes the engine act in a way that makes the roller strong also in hilly conditions

ECOMODE AS STANDARD

To make the CC2200 – CC3200 even more fuel efficient we have made ECO mode standard. With the ECO-mode system, it will be possible to come down 15% in fuel consumption. That means an essential amount of money saved on fuel. The ECO-mode will also make our already silent rollers even more silent as it keeps the engine rpm as low as possible.

engine installation & highly efficient power utilization

EFFICIENT PATENTED ECCENTRIC WEIGHTS AS STANDARD

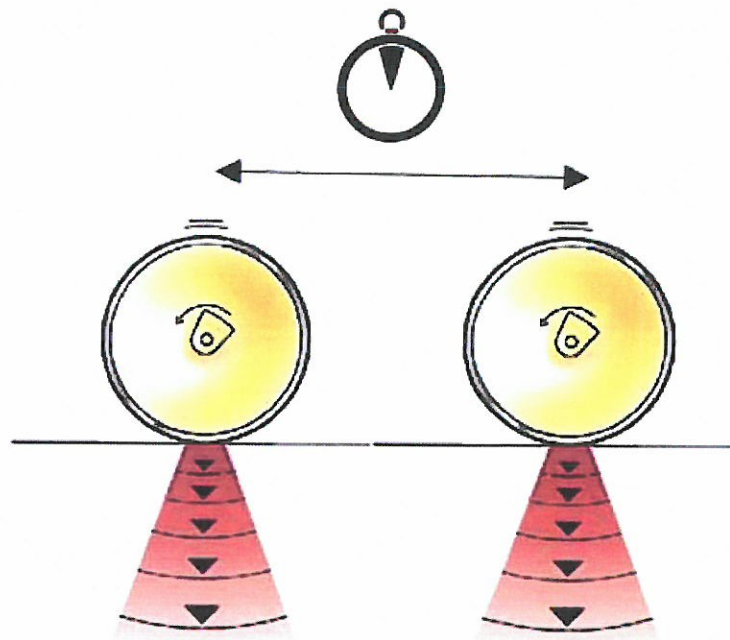

With our patented eccentric weights package designed for highest possible efficiency we gain as much as 50% lower power needed when starting up the eccentric weights. That is as much as 12 kW/ 16 hp less power needed. This in combination with our highly efficient two pump vibration system means much less need for a big diesel engine power and thereby lower fuel consumption.

Optimized eccentric weights take 50%/ 12 kW (16 hp) lower power to start up

SERIAL START-UP OF THE DRUM VIBRATION

On the CC2200 – CC3200 with T4final installation we have programmed the vibration system to always make a small time difference between starting up the drum that goes first and the drum that goes last. This makes it possible to start up the drum vibration with very little drop in the diesel engine rpm making the roller very powerful with regards to the drive of the roller. It also makes the vibration reach the correct vibration frequency very fast.

A small time difference in start-up makes vibration reach correct frequency very fast

TECHNICAL DATA

OPTIONS INCLUDED IN NORTH AMERICAN PACKAGE

Asphalt Temp Meter	Rotating beacon
Automatic vibration control (AVC)	Sliding and swiveling operator's platform
Automatic water control (AWC)	Spring loaded scrapers
Back-up alarm	Sprinkler timer
Display: Engine temp, Fuel level, Frequency/impactometer, Hydr. temp	Sprinkler system additional (Two bars per drum)
Speedometer, Tachometer, Voltage, VPM, Water level	Steering wheel tilt able
Filters for sprinkler system	Vandal cover for instrument panel
Hydraulic check points	Vibration quick stop
Lunch box holder	Vibration shut off front or rear drum
Operator platform, shock mounted	Warning lights: Air cleaner, Brake, Clogged hyd fluid filter,
Pressurized sprinkler system	Engine oil pressure/temp, Hyd oil temp, Low charge, Low fuel
ROPS canopy w/suspension seat & 3" seat belt	Working lights, Rops mounted

REQUEST FOR QUOTATION
CRFQ DOT2000000026
(WVDOH CLASS 592) Steel Double Drum Vibratory Roller (7020EC03)

8.2 Reports: Vendor shall provide quarterly reports and annual summaries to the Agency showing the Agency's items purchased, quantities of items purchased, and total dollar value of the items purchased. Vendor shall also provide reports, upon request, showing the items purchased during the term of this Contract, the quantity purchased for each of those items, and the total value of purchases for each of those items. Failure to supply such reports may be grounds for cancellation of this Contract.

8.3 Contract Manager: During its performance of this Contract, Vendor must designate and maintain a primary contract manager responsible for overseeing Vendor's responsibilities under this Contract. The Contract manager must be available during normal business hours to address any customer service or other issues related to this Contract. Vendor should list its Contract manager and his or her contact information below.

PURCHASING AFFIDAVIT

CONSTRUCTION CONTRACTS: Under W. Va. Code § 5-22-1(i), the contracting public entity shall not award a construction contract to any bidder that is known to be in default on any monetary obligation owed to the state or a political subdivision of the state, including, but not limited to, obligations related to payroll taxes, property taxes, sales and use taxes, fire service fees, or other fines or fees.

ALL CONTRACTS: Under W. Va. Code §5A-3-10a, no contract or renewal of any contract may be awarded by the state or any of its political subdivisions to any vendor or prospective vendor when the vendor or prospective vendor or a related party to the vendor or prospective vendor is a debtor and: (1) the debt owed is an amount greater than one thousand dollars in the aggregate; or (2) the debtor is in employer default.

EXCEPTION: The prohibition listed above does not apply where a vendor has contested any tax administered pursuant to chapter eleven of the W. Va. Code, workers' compensation premium, permit fee or environmental fee or assessment and the matter has not become final or where the vendor has entered into a payment plan or agreement and the vendor is not in default of any of the provisions of such plan or agreement.

DEFINITIONS:

"Debt" means any assessment, premium, penalty, fine, tax or other amount of money owed to the state or any of its political subdivisions because of a judgment, fine, permit violation, license assessment, defaulted workers' compensation premium, penalty or other assessment presently delinquent or due and required to be paid to the state or any of its political subdivisions, including any interest or additional penalties accrued thereon.

"Employer default" means having an outstanding balance or liability to the old fund or to the uninsured employers' fund or being in policy default, as defined in W. Va. Code § 23-2c-2, failure to maintain mandatory workers' compensation coverage, or failure to fully meet its obligations as a workers' compensation self-insured employer. An employer is not in employer default if it has entered into a repayment agreement with the Insurance Commissioner and remains in compliance with the obligations under the repayment agreement.

"Related party" means a party, whether an individual, corporation, partnership, association, limited liability company or any other form or business association or other entity whatsoever, related to any vendor by blood, marriage, ownership or contract through which the party has a relationship of ownership or other interest with the vendor so that the party will actually or by effect receive or control a portion of the benefit, profit or other consideration from performance of a vendor contract with the party receiving an amount that meets or exceeds five percent of the total contract amount.

AFFIRMATION: By signing this form, the vendor's authorized signer affirms and acknowledges under penalty of law for false swearing (W. Va. Code §61-5-3) that: (1) for construction contracts, the vendor is not in default on any monetary obligation owed to the state or a political subdivision of the state, and (2) for all other contracts, that neither vendor nor any related party owe a debt as defined above and that neither vendor nor any related party are in employer default as defined above, unless the debt or employer default is permitted under the exception above.
