NOTE: This addendum acknowledgment should be submitted with the bid to expedite document processing.
Revised 6/8/2012

SOLICITATION NUMBER: CRFQ DOT2000000055

Addendum Number: 1

The purpose of this addendum is to modify the solicitation identified as (“Solicitation”) to reflect the change(s) identified and described below.

Applicable Addendum Category:

- Modify bid opening date and time
- Modify specifications of product or service being sought
- Attachment of vendor questions and responses
- Attachment of pre-bid sign-in sheet
- Correction of error
- Other

Description of Modification to Solicitation:

1. To provide answers to vendor questions
2. To publish the pre-bid meeting sign-in sheets
3. To provide Revised Exhibit A Pricing Page

Additional Documentation: Documentation related to this Addendum (if any) has been included herewith as Attachment A and is specifically incorporated herein by reference.

Terms and Conditions:

1. All provisions of the Solicitation and other addenda not modified herein shall remain in full force and effect.
2. Vendor should acknowledge receipt of all addenda issued for this Solicitation by completing an Addendum Acknowledgment, a copy of which is included herewith. Failure to acknowledge addenda may result in bid disqualification. The addendum acknowledgement should be submitted with the bid to expedite document processing.

ATTACHMENT A

ADDENDUM 1

CRFQ 0803 DOT2000000055

4 WD Utility Tractor John Deere 5100M or Equal with Tiger Wildkat Mid-Mounted Boom Mower

The original language in contract will be listed first with question and answer to follow below.

1. 3.1.1.4 The unit specified herein and offered shall be manufactured on or after January 1, 2020 and will be clearly identified and marked with date of manufacture.

Question # 1: What if tractor is produced before Jan 1, 2020?

Answer: Will accept

2. 3.1.1.2 Wheelbase shall be 90 inches minimum.

Question: Will you accept Wheelbase of 88.6 inches?

Answer: Will accept.

3. 3.1.6.3 Shall have minimum 1200 cold cranking amp (CCA)

Question: Is a battery with 140 Ah fine? Standard battery is only 800 CCA

Question # 2: The RFQ specifies that the state wants a Four (4) Wheel Drive Utility Tractor John Deere 5100M or Equal. We are requesting that the listed specification 3.1.6.3 be corrected to include a minimum 925 CCA battery, which more accurately describes the current model year 2020 production of the John Deere 5100M Tractor.

Answer: Question #1 No. Will change 3.1.6.3 to read shall have a minimum 900 Cold cranking amps (CCA) with matching Ah rating for battery size

Question #2 Will change 3.1.6.3 to read shall have a minimum 900 Cold cranking amps (CCA) with matching Ah rating for battery size.

4. 3.1.9.1 Unit shall have Whelen IX4AC liberty II LED amber and white lightbar or equal, mounted on the top rear center of cab protection.

Answer: The Equipment Division will be removing section 3.1.9.1, we will be installing our own light bar.

5. 3.1.11.2 Shall be equipped with a de-clutch button on gear shift lever, requiring no foot clutch usage while shifting range gears.

Question: Is a de-clutch button required?

Answer: Yes. Leave as written.

6. 3.1.12.1 Shall have power shift design, power shuttle provides powershifting through the gears of each range and must have a transmission that can be shifted on the go within the speed gears.

Question: Transmission - The RFQ specifies that the state wants a Four (4) Wheel Drive Utility Tractor John Deere 5100M or Equal. We are requesting that the listed specification 3.1.12.1 be corrected to include a John Deere PowrReverser Transmission, which more accurately describes the current model year 2020 production of the John Deere 5100M Tractor. The PowerReverser transmission has 4 ranges with partial synchronization between ranges and allows the speed gears to be shifted on the go within each range. See below for more details.

Answer: Will accept John Deere PowerReverser transmission.

7. 3.1.19.1 Front tire shall be minimum 340/85R24 R1W radial or equal.

3.1.19.2 Rear tires shall be minimum 18.4R30 R1W radial or equal.

Question # 1: Are 13.6R28 front tires fine?

Question # 2: Are 18.4R34 rear tires fine?

Question # 3: 3.1.19.1 This front tire is larger than Tiger recommends and may cause a clearance issue. Will the State change the specification to allow 11.2 x 24 front radial tires to insure compatibility?

Question # 4: This rear tire is larger than Tiger recommends. Will the State change the specification to allow 16.9 x 30 rear radial tires to insure compatibility?

Question # 5: To ensure mower compatibility we are respectfully asking that the specification be changed to allow for 280/85R24 (11.2 x 24) R1W Radial front tires.

Question # 6: To ensure mower compatibility we are respectfully asking that the specification be changed to allow for 420/85R30 (16.9 x 30) R1W Radial rear tires.

Answer: Will change 3.1.19.1 to read front tires shall be minimum 280/85R24 (11.2x24)R1W radial or equal.

Will change 3.1.19.2 to read tires shall be minimum 420/85R30 (16.9x30) radial

8. 3.1.20.9 Lift arm cylinders shall be mounted externally and be a min 68 millimeters diameter

Question: - Lift arm cylinders - The RFQ specifies that the state wants a Four (4) Wheel Drive Utility Tractor John Deere 51000M or Equal. We are requesting that the listed specification 3.1.20.9 be changed to EITHER (#1) Lift arm cylinders shall be mounted externally and be a min of 65mm or (#2) Lift Arm cylinders shall be mounted externally and shall have an AVERAGE minimum diameter of 68mm." This will more accurately describe the current model year 2020 production of the John Deere 5100M Tractor where one cylinder is 65mm and the other cylinder is 75mm, averaging 70mm.

Answer: Will revise 3.1.20.9 to read Lift arm cylinders shall be mounted externally.

9. 3.1.21.4 Cab unit shall be equipped with heater, defroster, air conditioning and standard AM/FM radio with Bluetooth and shall be installed by the manufacturer.

Question: We politely ask that you change the language to: Cab unit shall be equipped with heater, defroster, and air conditioning and shall be installed by the manufacturer. An AM/FM radio with Bluetooth shall be installed.

Answer: Yes. Will revise to read: Cab unit shall be equipped with heater, defroster, air conditioning installed by manufacturer. A Jensen SWJHD1635BT or equal AM/FM radio with Bluetooth shall also be installed.

10. 3.1.21.8 Seat shall have a height and swivel adjustment and be heated.

Question: Is seat swivel required?

Answer: Yes. Leave as written.

11. 3.2.2.1 Frame shall be mid-mounted to underside of tractor utilizing a center weldment adequately bolted to the tractor and shall have 3 ½-inch x 3 ½-inch x 1/8th-inch minimum construction dual rear axle braces for maximum stability and weight transfer. No framework shall be welded to the tractor

Question: The dual axle braces for the Bengal 18' boom mower mounted on the John Deere 5100M are 3" x 3" x ¼". By using ½" smaller tubular steel and increasing the wall thickness from 1/8" to ¼" we obtain the required strength to support the main frame and the boom rest properly. A 3" x 3" x 1/4" tube has a section modulus of 2.107 in³, which is greater than the section modulus of a 3-1/2' x 3-1/2" x 1/8" tube at 1.766 in³. Will the state change the specification to allow 3" x 3" x ¼" dual rear axle braces?

Question # 2: We request that the State also allow 3 inch x 3 inch x ¼ inch construction dual rear axle braces.

Answer: Yes. Will accept.

12. 3.2.2.2 Unit shall be counterweighted to maintain the most possible ground pressure of tires on opposite side of mower during all reach out, up, and down operations of boom with specified head. Rear tire that holds counterweight shall be filled with beet juice, water or calcium filled will not be accepted.

Question: Will you accept windshield washer fluid to replace beet juice?

Answer: No. Leave as written.

13. 3.2.3.7 Mower pump shall be direct drive from the tractor front crankshaft adapter. Pump shall be cast steel housing rated for 96 input horse power minimum. With a double greaseable u-joint drive shaft

Question: On the John Deere 5100M tractor Tiger does not have a double u-joint drive shaft. Because this model tractor has a rigid mounted engine and due to space restraints near the radiator Tiger uses a straight drive shaft connected to the John Deere crank pulley and a slip shaft on the pump side. Will the State change the spec to allow a straight drive shaft connected to the tractor crank pulley on the engine end and a greaseable slip shaft to connect to the pump spline shaft?

Answer: Yes. Will accept.

14. 3.2.5.8 Reach out shall be minimum 14 feet from tractor centerline to outside edge or cutting blade arc.

3.3.1.1 The vendor is responsible to furnish a 4 wheel drive tractor with a mid-mounted 18-FT articulated boom mower with 60" rotary cutting head that is properly engineered and that confirms to all and any laws governing such equipment.

Question: Is it 14 feet or 18 feet desired?

Answer: 14 Feet is desired.

Section 3.3.1.1 will be changed to read The vendor is responsible to furnish a 4 wheel drive tractor with a mid-mounted articulated boom mower with 60-inch hydraulic side-shift rotary cutting head and optional attachments that is properly engineered, and that confirms to all and any laws governing such equipment.

15. 3.2.6.7 Spindle shall be attached to hydraulic motor by a flexible coupler with dust shield

Question: Will direct motor to gear box work?

Answer: No. Leave as written.

16. Terms & Conditions: 15. PREFERENCE: Vendor Preference may be requested in purchases of motor vehicles or construction and maintenance equipment and machinery used in highway and other infrastructure projects. Any request for preference must be submitted in writing with the bid, must specifically identify the preference requested with reference to the applicable subsection of West Virginia Code § 5A-3-37, and should include with the bid any information necessary to evaluate and confirm the applicability of the requested preference. A request form to help facilitate the request can be found at: <http://www.state.wv.us/admin/purchase/vrc/Venpref.pdf>.

Question: Will vendor preference be used when determining these bids?

Answer: Yes, to comply with applicable subsection of West Virginia Code § 5A-3-37

17. 6.1 Delivery Time: A completed pilot model for inspection must be provided within 120 working day(s) after receipt of the pilot model order, by the successful vendor. Vendor shall deliver standard orders within 180 working days after orders are received Working day is defined as any week day, Monday thru Friday, excluding Federal and State Holidays. Vendor shall ship all orders until a minimum delivery quantity is met.

Question: We would ask that the delivery be extended by 30 working days, so 150 working days for the pilot model and 210 working days for the balance.

Answer: Yes. Will accept

18. Exhibit A Pricing Page

Inadvertently left off estimated quantity, Please see attached Exhibit A.

19. Clarification: All attachments will not be on the tractor at the same time, so they will not exceed the maximum permissible load of the tractor.

Deluxe Selective Control Valves (300, 301, and 450 Series)

CQ294041-UN-31JUL12

A - Constant Flow

B - Detent

C - No Lock

Deluxe selective control valves have three functions that are selected with the control knob at the top of the valve:

A - Constant flow function maintains the engaged SCV lever in the Raise or Lower position until it is manually moved. Use this function to supply equipment that requires a constant oil flow, such as hydraulic motors.

B - Detent function keeps the SCV lever in the Raise or Lower position until the hydraulic system pressure reaches a predetermined value, for example: when a hydraulic cylinder reaches the limit of its travel. After that, the SCV lever automatically returns to the Neutral position.

C - In this position, no lock is engaged. The SCV lever returns to Neutral position when released.

The pressure connection (for example, the extendible cylinder) can be connected to the lower or upper quick coupler.

These selective control valves prevent loss of pressure through leaks when the engine is stopped.

SPECIFICATIONS

- 1. PURPOSE AND SCOPE:** The West Virginia Purchasing Division is soliciting bids On behalf of the West Virginia Division of Highways, Department of Transportation to establish an open-end contract for a (WVDOH Class 131) four (4) Wheel Drive Utility Tractor John Deere 5100M or Equal with Tiger Wildkat Mid Mount Boom Mower With a 60 Inch Hydraulic side shift Rotary Cutting Head or Equal With Optional Attachment 75-inch hydraulic side shift flail mower head or equal.

- 2. DEFINITIONS:** The terms listed below shall have the meanings assigned to them below. Additional definitions can be found in section 2 of the General Terms and Conditions.
 - 2.1 “Contract Item” or “Contract Items”** means the list of items identified in Section 3, Subsection 1 below.

 - 2.2 “Pricing Pages”** means the schedule of prices, estimated order quantity, and totals contained in wvOASIS or attached hereto as Exhibit A, and used to evaluate the Solicitation responses.

 - 2.3 “Solicitation”** means the official notice of an opportunity to supply the State with goods or services that is published by the Purchasing Division.

 - 2.4 “WVDOH”** means West Virginia Division of Highways.

 - 2.5 “EPA”** means Environmental Protection Agency.

 - 2.6 “PTO”** means Power Take Off.

 - 2.7 “OSHA”** means Occupational Safety and Health Act.

 - 2.8 “MPH”** means miles per hour.

 - 2.9 “GPM”** means gallons per minute.

 - 2.10 “PSI”** means pounds per square inch.

 - 2.11 “ROPS”** means Roll-over Protection Structures.

 - 2.12 “RPM”** means Revolutions per minute.

 - 2.13 “CCA”** means cold cranking amps.

2.14 “SCV” means selective control valve

2.15 “MBG” means medium brush and grass

3. GENERAL REQUIREMENTS:

3.1 Contract Items and Mandatory Requirements: Vendor shall provide Agency with the Contract Items listed below on an open-end and continuing basis. Contract items must meet or exceed the mandatory requirements as shown below.

3.1.1 General – 4 Wheel Drive Tractor general mandatory requirements.

3.1.1.1 Unit shall be 4-wheel drive.

3.1.1.2 Wheelbase shall be 90 inches minimum.

3.1.1.3 Tractor dry weight (without ballast): shall be 8,700 lbs. minimum.

3.1.1.4 The unit specified herein and offered shall be manufactured on or after January 1, 2020 and will be clearly identified and marked with date of manufacture.

3.1.2 Engine – The following are mandatory requirements related to the tractor’s engine.

3.1.2.1 Engine shall be Tier 4 final.

3.1.2.2 Shall have 85 PTO horsepower minimum.

3.1.2.3 Shall be Manufacturers standard (4) four-cylinder minimum, water cooled, diesel powered engine.

3.1.2.4 Shall be Manufacturers standard governor with engine key shut off, wire sealed by Manufacturer.

3.1.3 Engine Lubrication System – The following are mandatory requirements related to engine’s lubrication system.

**REQUEST FOR QUOTATION
CRFQ DOT20000000055
4WD TRACTOR W/MID-MOUNT BOOM MOWER 60-INCH HYDRAULIC
SIDESHIFT ROTARY MOWER HEAD (7020EC10)**

3.1.3.1 The engine shall have full pressure lubrication with oil filter and oil bypass system.

3.1.3.2 Shall have engine oil cooler

3.1.4 Engine Cooling System – The following are mandatory requirements related to the engine's cooling system.

3.1.4.1 Shall have manufacturer's largest cooling system offered.

3.1.4.2 Cooling system shall be equipped with a coolant recovery tank and sight glass.

3.1.4.3 Shall have engine air filtration system.

3.1.4.4 Shall have Dry type dual element (2 stage) air cleaner with self-dumping valve.

3.1.4.5 Unit shall an air filter restriction indicator that is operator visible when service is required.

3.1.5 Exhaust System – The following are mandatory items related to the exhaust system.

3.1.5.1 The muffler shall be mounted in compliance with Tier 4 final standards and not interfere with the articulated boom mower.

3.1.6 Electrical System – The following are mandatory items related to the electrical system.

3.1.6.1 Unit's electrical system shall be manufacturer's noise suppression wiring and must have 12 volts negative ground.

3.1.6.2 Shall have Neutral start switch (for safety purposes)

3.1.6.3 Shall have minimum 1200 cold cranking amp (CCA) battery.

3.1.6.4 Shall have Manufacturer factory back up alarm.

**REQUEST FOR QUOTATION
CRFQ DOT20000000055
4WD TRACTOR W/MID-MOUNT BOOM MOWER 60-INCH HYDRAULIC
SIDESHIFT ROTARY MOWER HEAD (7020EC10)**

3.1.7 Charging System – The following are mandatory items related to the charging system.

3.1.7.1 Charging system shall be 12volt negative ground.

3.1.7.2 Alternator shall be minimum 120 Amp output.

3.1.8 Engine Fuel System – The following are mandatory requirements related to the engine's fuel system.

3.1.8.1 Dual stage fuel filtering shall be installed on unit bid.

3.1.8.2 Unit shall have a fuel water separator.

3.1.8.3 Shall have largest manufacture DEF tank offered not to interfere with articulated boom mower.

3.1.9 Lighting – The following are mandatory requirements related to the lights.

3.1.9.1 Unit shall have Whelen IX4AC liberty II LED amber and white lightbar or equal mounted to the top of cab with the use of brackets.

3.1.9.2 Shall have two (2) high-low beam head light (halogen) with manufacturers heavy duty console mounted switch.

3.1.9.3 Shall have four (4) LED factory roof mounted work lights; two (2) front and two (2) rear.

3.1.9.4 Shall have fender mounted rear taillights and turn signals.

3.1.9.5 Unit shall have seven pin (7) factory installed terminal out socket to provide lighting for towed equipment.

3.1.9.6 Shall have four (4) factory roof mounted flashing warning lights; two (2) front and two (2) rear.

3.1.9.7 Unit shall be provided with console and dome lighting.

4WD TRACTOR W/MID-MOUNT BOOM MOWER 60-INCH HYDRAULIC
SIDESHIFT ROTARY MOWER HEAD (7020EC10)**

3.1.10 Unit Instrumentation – The following are mandatory requirements related to the unit's instrument panel.

3.1.10.1 Unit Instrumentation shall include:

- A. Tachometer**
- B. Speedometer**
- C. Hour meter operable from engine operation not key switch**
- D. Coolant temperature indicator with audible buzzer or warning light**
- E. Oil pressure indicator with audible buzzer or warning light**
- F. Hydraulic oil temperature indicator with audible buzzer or warning light, to warn operator when manufacturers recommended hydraulic oil temperature is exceeded.**

3.1.11 Clutch - The following are mandatory requirements related to the clutch.

3.1.11.1 Clutch shall be wet type.

3.1.11.2 Shall be equipped with a de-clutch button on gear shift lever, requiring no foot clutch usage while shifting range gears.

3.1.12 Transmission – The following are mandatory requirements related to the transmission's design and arrangement.

3.1.12.1 Shall have power shift design, power shuttle provides powershifting through the gears of each range and must have a transmission that can be shifted on the go within the speed gears.

3.1.12.2 Shall have transmission forward and reverser control that can be shifted from forward to reverse without the use of a clutch and shifted on the go. Shifter shall be mounted on the left-hand side of steering column.

3.1.12.3 The unit shall have a minimum of 15 forward speeds and 15 reverse speeds.

SIDESHIFT ROTARY MOWER HEAD (7020EC10)**

3.1.13 Differential – The following are mandatory requirements related to the differential.

3.1.13.1 Shall have manufacturer's differential lock engagement and disengagement capability and must be able to engage differential lock on the go.

3.1.14 Front Axle – The following are mandatory requirements related to the front axle.

3.1.14.1 Manufacturers standard 4-wheel drive unsuspended front axle with limited slip differential.

3.1.15 Rear Axle – The following are mandatory requirements related to the rear axle.

3.1.15.1 The rear axle shall be flanged-type axle.

3.1.16 Planetary Final Drives – The following are mandatory requirements related to the tractor's planetary final drives.

3.1.16.1 Planetary final drives shall be in board type.

3.1.17 Hydraulic System – The following are mandatory requirements related to the tractor's hydraulic system.

3.1.17.1 Tractor hydraulic system shall be open or closed center; pressure flow compensated load sensing type and provide 18 GPM minimum implement pump flow, 6 GPM flow minimum for power steering

3.1.17.2 Tractor shall have a minimum of three (3) mechanically controlled SCV control valves with a minimum of one being manufacturers deluxe model with three (3) detent positions and with Hydraulic flow adjustment. Exhibit C

3.1.17.3 Shall have hydraulic hoses that can be coupled and uncoupled while tractor is running.

3.1.17.4 Tractor hydraulic system shall only be used for mower side shift

SIDESHIFT ROTARY MOWER HEAD (7020EC10)**

3.1.18 Brakes – The following are mandatory requirements related to the brakes.

3.1.18.1 Manufacturer's standard park braking system shall be provided.

3.1.18.2 Tractor shall have hydraulic actuated service brakes.

3.1.18.3 Tractor shall have wet-type disk brakes which must be both self-adjusting and equalizing.

3.1.19 Tires – The following are mandatory requirements related to the tires.

3.1.19.1 Front tire shall be minimum 340/85R24 R1W radial or equal.

3.1.19.2 Rear tires shall be minimum 18.4R30 R1W radial or equal.

3.1.20 Three Point Hitch – The following are mandatory requirements related to the hitch.

3.1.20.1 Hitch shall have external switch to control raising and lowering from rear of tractor for safety purposes.

3.1.20.2 Hitch lift capacity shall be 5,800 lbs. minimum at 24 inches behind lift point.

3.1.20.3 Hitch shall be electro-hydraulically operated.

3.1.20.4 Three-point hitch shall be Category II with telescopic end links.

3.1.20.5 Center link shall be category II with ball ends.

3.1.20.6 Shall be equipped with right and left side adjustable draft link stabilizer bars.

3.1.20.7 Shall be equipped hand adjustable lift rod(s) to adjust the horizontal plane of implements.

3.1.20.8 Draw bar shall swing and be adjustable.

3.1.20.9 Lift arm cylinders shall be mounted externally and be a min 68 millimeters diameter

3.1.21 Cab and Related Accessories – The following are mandatory requirements related to the cab and accessories.

3.1.21.1 Cab shall be OSHA approved ROPS.

3.1.21.2 Cab shall be standard model for unit bid mounted by the manufacturer insulated and pressurized

3.1.21.3 Cab shall have Poly-shield, or equal on right side 1/2-inch-thick minimum with anti-scratch coating on both sides, installed into the original cab manufactured door and side window. Windows will be tinted at all locations.

3.1.21.4 Cab unit shall be equipped with heater, defroster, air conditioning and standard AM/FM radio with Bluetooth and shall be installed by the manufacturer.

3.1.21.5 Cab shall be equipped with an additional retractable instructional seat, for safe operator training

3.1.21.6 Cab shall have two (2) lockable entry doors keyed alike; one (1) left and one (1) right.

3.1.21.7 Seat shall be cloth covered type protected with scotch guard (or equal) and equipped with a seat belt and air suspension.

3.1.21.8 Seat shall have a height and swivel adjustment and be heated.

3.1.21.9 Seat shall be equipped with adjustable arm rests.

3.1.21.10 Unit shall be equipped with a tilt/telescoping steering wheel.

3.1.21.11 Toolbox shall be provided, weather resistant, lockable, and mounted for operator convenience.

3.1.21.12 Air conditioner condenser shall have a screen protecting it from debris, that is both removable and cleanable.

3.1.21.13 Cab unit shall have front and rear windshield wipers and washers.

3.1.21.14 Tractor shall have Left and right-side view mirrors and in cab rear view mirror.

3.1.21.15 Cab and tractor shall have a type of non-skid step (steps) and hand holds for safety purposes.

3.1.21.16 Unit shall be equipped with a first aid kit mounted inside of cab.

3.1.21.17 All features that are manufacturer's standard equipment that are not specifically addressed above shall be provided.

3.1.21.18 Unit shall be delivered to the WVDOH with all manufacturers recommended safety related decals and safety features intact.

3.1.22 PTO Requirements – The following are mandatory requirements related to the PTO (power take off).

3.1.22.1 Tractor shall have a minimum of 540 PTO R.P.M.

3.1.22.2 PTO shall be able to be engaged and disengaged on the go, and be independent operating style

3.1.22.3 Shall be equipped with PTO active warning that is seat activated.

3.1.22.4 Tractor shall be setup to operate 540rpm PTO implements as well as 1000rpm PTO implements.

3.1.23 Paint – The following are mandatory items related to the color of unit.

3.1.23.1 The tractor shall be painted manufacturer's standard color.

3.2 Tiger Wildcat Mid-Mounted Hydraulic Powered Boom Mower or Equal.
The following are general mandatory requirements related to the above mower.

3.2.1 General

3.2.1.1 The unit specified herein and offered shall be manufactured on or after January 1, 2020 and will be clearly identified and marked with date of manufacture.

3.2.1.2 Unit shall use a counterweight, and be fluid filled with beet juice on left rear tire to maintain the most possible ground pressure of tires on opposite side of mower during all reach out, up, and down operations of boom with specified head, wheel counterweight shall be self-centering, for ease of install.

3.2.1.3 The mower controls shall feature an in-cab master ON/OFF switch for complete power shutdown.

3.2.2 Frame – The following are mandatory items related to the frame.

3.2.2.1 Frame shall be mid-mounted to underside of tractor utilizing a center weldment adequately bolted to the tractor and shall have 3 ½-inch x 3 ½-inch x 1/8th-inch minimum construction dual rear axle braces for maximum stability and weight transfer. No framework shall be welded to the tractor

3.2.3 Hydraulic Reservoir – The following are mandatory items related to the hydraulic reservoir.

3.2.3.1 Shall have Manufacturer's hydraulic oil reservoir properly sized for GPM of the pump and operate all mower functions including forward swing, rearward swing, up, down, and rotary head functions.

3.2.3.2 Tank shall have a built-in oil level sight glass and thermometer.

- 3.2.3.3** Hydraulic filter shall be capable of providing complete filtration for system.
- 3.2.3.4** Tank shall be equipped with a shut off valve and the ability to secure the valve in the open position to protect against accidental deadheading
- 3.2.3.5** Unit shall be equipped with a Tandem gear or piston style pump to operate all mower functions.
- 3.2.3.6** Hydraulic GPM shall be manufacturer's highest specified to operate all mower functions at maximum efficiency.
- 3.2.3.7** Mower pump shall be direct drive from the tractor front crankshaft adapter. Pump shall be cast steel housing rated for 96 input horsepower minimum. With a double greaseable u-joint drive shaft
- 3.2.3.8** Pump drive shaft rated for not less than 122 horse power
- 3.2.3.9** Mower controls shall be a five (5) section valve minimum, controlled through a single electronic joystick.
- 3.2.3.10** Valve shall allow a minimum of three (3) functions simultaneously.
- 3.2.3.11** The swing, lift, sections shall have individual relief valves to give breakaway protection.
- 3.2.3.12** Mower cutter shall have an 8 second maximum emergency shutdown.
- 3.2.3.13** Mower head motor shall take 6 seconds minimum to wind up to full RPM for a "no-shock-load startup".
- 3.2.3.14** Mower shall have an electric solenoid operated hydraulic lock valve incorporated in the head tilt function to prevent cylinder leak down during storage or transportation
- 3.2.3.15** Hydraulic system shall be equipped with oil-to-air cooler with integrated electric fan

3.2.3.16 The model bid shall have been in the manufacturers model line for a minimum of one (1) year(s) of production time prior to bid.

3.2.4 Boom Rest – The following are mandatory items related to the boom rest.

3.2.4.1 When in stow, tractor and mower shall be maximum 133-inches width, with 60-inch rotary mower, and 12-foot-high maximum. Shall be rear stow design

3.2.4.2 An axle boom stow system constructed of minimum ¼-inch x 4-inch x 4-inch square tubing with water drain holes and shall be mounted to the mower frame with frame member extending to the axle mounts. 3-point hitch system shall function normally.

3.2.5 Boom – The following are mandatory items related to the boom.

3.2.5.1 Boom shall be a (1) piece design, all hinge points of the arm and mast shall have minimum 1 1/2-inch diameter steel pins with greaseable, replaceable bushings. Kingpost or Turret style mounting is acceptable.

3.2.5.2 Pivot pins shall be a minimum of 1 1/2 inch diameter.

3.2.5.3 Boom shall be made of 8-inch x 3-inch x 1/8-inch steel tubing minimum, with a 50,000 lb. per square inch minimum yield strength.

3.2.5.4 Boom shall have the ability to hydraulically side shift the mower head by joystick control a minimum of 29 inches using a slide tube with minimum dimension 6-inch x 6-inch x -1/4inch

3.2.5.5 All hinge points shall be T-1 steel or equal reinforcement.

3.2.5.6 Boom swing from stow position shall be 90 degrees forward minimum.

3.2.5.7 Reach up shall be minimum 11 feet.

3.2.5.8 Reach out shall be minimum 14 feet from tractor centerline to outside edge or cutting blade arc.

3.2.5.9 Boom mower shall be rear stow design only

3.2.5.10 Boom shall have a top mounted double acting lift cylinder.

3.2.6 60-Inch Tiger wildcat Rotary Head Attachment or Equal – The following are mandatory items related to the brush head.

3.2.6.1 Minimum 60-inch rotary cutting head with a minimum hydraulic side shift capability of 29-inches.

3.2.6.2 Top deck shall be 110,000 psi 1/8-inch minimum Dome or equal. Top to be continuously welded for strength.

3.2.6.3 Side skirts shall be a minimum of 1/4-inch steel.

3.2.6.4 Top deck shall have a reinforced spindle mount plate.

3.2.6.5 Deck shall have replaceable bolt on full length skid shoes.

3.2.6.6 Spindle shall be a (1) one piece forged and heat treated with integral 7 1/4-inch O.D. drive hub

3.2.6.7 Spindle shall be attached to hydraulic motor by a flexible coupler with dust shield

3.2.6.8 Blade carrier shall be (3) three blade rotary cutting head with a pan or stump jumper.

3.2.6.9 Blades shall be manufacturer recommended size and strength matched to the unit bid.

3.2.6.10 Blade bolts shall be manufacturers recommended size and strength matched to the unit bid

3.2.6.11 Hydraulic Motor shall be cast steel and shall be sized to match the hydraulic pump proposed by the mower manufacturer.

3.2.10 Unspecified Accessories & Features:

3.2.10.1 All parts, equipment, accessories, material, design and performance characteristics not specified herein, but which are necessary to provide a complete unit, must be furnished with each unit and required to conform to strength, quality of material, and quality of workmanship to those which are advertised and provided to the market in general by the unit industry. All parts and accessories advertised and regularly supplied as standard shall be included, except those which would represent duplication of these specified and except those which, by specification, are not to be furnished. All standard safety features, required by Federal and State Law, shall be included.

3.3 Vendor

3.3.1 Vendor Responsibility:

3.3.1.1 The vendor is responsible to furnish a 4-wheel drive tractor with a mid-mounted 18-FT articulated boom mower with 60" rotary cutting head that is properly engineered and that conforms to all and any laws governing such equipment.

3.3.1.2 Inspection: WVDOH requires unit shall have a West Virginia State inspection sticker upon delivery, if applicable.

3.3.2 Representative Unit for Test:

3.3.2.1 The successful vendor must (if specified) provide the DOH one (1) completed represented unit to be observed and evaluated on each order to ensure compliance with specification. If requested, the time period for testing and evaluation shall be seven (7) working days following receipt of the unit. DOH will incur no obligation for deterioration of surfaces, finishes, seals, and mechanical or electrical parts on the unit resulting from operation and testing within the limits of these specifications; nor will DOH incur obligation for damage to the unit resulting from failure to meet specifications when due care and attention is given by DOH and testing is done within the limits of these specifications. Failure of the pilot unit to

satisfactorily meet specifications as bid may be cause for cancellation of the purchase order and return of the delivered unit along with all associated equipment to the vendor at the vendor's expense.

3.3.3 Operating and Service Manuals and Parts Lists:

3.3.3.1 An operator's manual must be included with each unit upon delivery. A "line sheet" (if applicable) and the "Equipment Preventative Maintenance Questionnaire", (Exhibit "B") must be with pilot unit upon delivery, Attn: Todd Campbell. There must be 12 service/shop/maintenance manuals and 14 parts manuals; USB storage drive is preferred in lieu of parts manuals. Manuals and USB storage drive shall be delivered upon completion of delivery of total units. Failure to do so will delay payment.

3.3.4 Training:

3.3.4.1 Manufacturers and/or dealers will be required to stage a thorough seminar on the subjects of Preventative Maintenance, Operator, and Mechanic Training. In order to keep operators and mechanics updated, the successful vendor shall conduct training sessions covering the operation, maintenance, trouble- shooting with each purchase order against this open-end contract.

Manufacturers and/or dealers shall be required to furnish the Training Academy with one (1) Operator's Manual to be shipped direct to:

**WVDOH
Training Academy
P.O. Box 610
Buckhannon, West Virginia 26201**

Prior to delivery of the pilot unit. Training seminar to be held at the WVDOT, Equipment Division, Buckhannon, WV.

3.3.5 Preventative Maintenance & Operator Procedures:

3.3.5.1 Manufacturers and/or dealers will be required to submit to the Equipment Division, in addition to the operating and service manuals, booklets and pamphlets explaining the Preventative Maintenance and Operator Procedures to be used by the operators of this equipment, and must include such things as daily prestart inspection procedure, service schedule, and routine maintenance required, safety precautions, etc. The successful vendor shall furnish all training aids; i.e. videos, projectors as required in conducting the training.

3.3.6 Warranty and Service Policy:

3.3.6.1 The bid shall include a breakdown of the complete manufacturer's warranty per section. The unit must be accompanied upon delivery by the unit's manufacturers executed warranty and service policy.

4. CONTRACT AWARD:

4.1 Contract Award: The Contract is intended to provide Agencies with a purchase price on all Contract Items. The Contract shall be awarded to the Vendor that provides the Contract Items meeting the required specifications for the lowest overall total cost as shown on the Pricing Pages.

4.2 Pricing Pages: Vendor should complete the Pricing Pages (Exhibit A) by completing the Year, Make, Model, and inserting quoted unit price. Vendor should take estimated Quantity and multiply by unit price to calculate the total bid amount. Vendor should complete the pricing pages in their entirety as failure to do so may result in Vendor's bids being disqualified.

The Pricing Page contains a list of the Contract Items and estimated purchase volume. The estimated purchase volume for each item represents the approximate volume of anticipated purchases only. No future use of the Contract or any individual item is guaranteed or implied.

Vendor should electronically enter the information into the Pricing Pages through wvOASIS, if available, or as an electronic document. In most cases, the Vendor can request an electronic copy of the Pricing Pages for bid purposes by sending an email request to the following address:
Crystal.G.Hustead@wv.gov

5. ORDERING AND PAYMENT:

- 5.1 Ordering:** Vendor shall accept orders through wvOASIS, regular mail, facsimile, e-mail, or any other written form of communication. Vendor may, but is not required to, accept on-line orders through a secure internet ordering portal/website. If Vendor has the ability to accept on-line orders, it should include in its response a brief description of how Agencies may utilize the on-line ordering system. Vendor shall ensure that its on-line ordering system is properly secured prior to processing Agency orders on-line.
- 5.2 Payment:** Vendor shall accept payment in accordance with the payment procedures of the State of West Virginia.

6. DELIVERY AND RETURN:

- 6.1 Delivery Time:** A completed pilot model for inspection must be provided within 120 working day(s) after receipt of the pilot model order, by the successful vendor. Vendor shall deliver standard orders within 180 working days after orders are received. Working day is defined as any week day, Monday thru Friday, excluding Federal and State Holidays. Vendor shall ship all orders until a minimum delivery quantity is met.
- 6.2 Late Delivery:** The Agency placing the order under this Contract must be notified in writing if orders will be delayed for any reason. Any delay in delivery that could cause harm to an Agency will be grounds for cancellation of the delayed order, and/or obtaining the items ordered from a third party.
Any Agency seeking to obtain items from a third party under this provision must first obtain approval of the Purchasing Division.
- 6.3 Delivery Payment/Risk of Loss:** Standard order delivery shall be F.O.B. Destination to the Agency's location. Vendor shall include the cost of standard order delivery charges in its bid pricing/discount and is not permitted to charge the Agency separately for such delivery. The Agency will pay delivery charges on all emergency orders provided that Vendor invoices those delivery costs as a separate charge with

the original freight bill attached to the invoice.

6.4 Condition of Unit(s) Upon Delivery: All units must arrive at the prescribed delivery point having been completely pre-serviced with oil, lubricants, and coolant. All prescribed precautions pertaining to first operations and break-in of the unit are to be posted conspicuously on the unit for ready observance by the operator.

6.5 Delivery Point: Delivery point of the completed representative unit will be the WVDOH, Equipment Division, Rt. 33 and Brushy Fork Road, Buckhannon, WV 26201.

7. VENDOR DEFAULT:

7.1 The following shall be considered a vendor default under this Contract.

7.1.1 Failure to provide Contract Items in accordance with the requirements contained herein.

7.1.2 Failure to comply with other specifications and requirements contained herein.

7.1.3 Failure to comply with any laws, rules, and ordinances applicable to the Contract Services provided under this Contract.

7.1.4 Failure to remedy deficient performance upon request.

7.2 The following remedies shall be available to Agency upon default.

7.2.1 Immediate cancellation of the Contract.

7.2.2 Immediate cancellation of one or more release orders issued under this Contract.

SIDESHIFT ROTARY MOWER HEAD (7020EC10)**

7.2.3 Any other remedies available in law or equity.

8. MISCELLANEOUS:

- 8.1 No Substitutions:** Vendor shall supply only Contract Items submitted in response to the Solicitation unless a contract modification is approved in accordance with the provisions contained in this Contract.
- 8.2 Reports:** Vendor shall provide quarterly reports and annual summaries to the Agency showing the Agency's items purchased, quantities of items purchased, and total dollar value of the items purchased. Vendor shall also provide reports, upon request, showing the items purchased during the term of this Contract, the quantity purchased for each of those items, and the total value of purchases for each of those items. Failure to supply such reports may be grounds for cancellation of this Contract.
- 8.3 Contract Manager:** During its performance of this Contract, Vendor must designate and maintain a primary contract manager responsible for overseeing Vendor's responsibilities under this Contract. The Contract manager must be available during normal business hours to address any customer service or other issues related to this Contract. Vendor should list its Contract manager and his or her contact information below.

West Virginia Ethics Commission

Disclosure of Interested Parties to Contracts

Pursuant to *W. Va. Code* § 6D-1-2, a state agency may not enter into a contract, or a series of related contracts, that has/have an actual or estimated value of \$1 million or more until the business entity submits to the contracting state agency a Disclosure of Interested Parties to the applicable contract. In addition, the business entity awarded a contract is obligated to submit a supplemental Disclosure of Interested Parties reflecting any new or differing interested parties to the contract within 30 days following the completion or termination of the applicable contract.

For purposes of complying with these requirements, the following definitions apply:

"Business entity" means any entity recognized by law through which business is conducted, including a sole proprietorship, partnership or corporation, but does not include publicly traded companies listed on a national or international stock exchange.

"Interested party" or *"Interested parties"* means:

- (1) A business entity performing work or service pursuant to, or in furtherance of, the applicable contract, including specifically sub-contractors;
- (2) the person(s) who have an ownership interest equal to or greater than 25% in the business entity performing work or service pursuant to, or in furtherance of, the applicable contract. (This subdivision does not apply to a publicly traded company); and
- (3) the person or business entity, if any, that served as a compensated broker or intermediary to actively facilitate the applicable contract or negotiated the terms of the applicable contract with the state agency. (This subdivision does not apply to persons or business entities performing legal services related to the negotiation or drafting of the applicable contract.)

"State agency" means a board, commission, office, department or other agency in the executive, judicial or legislative branch of state government, including publicly funded institutions of higher education; Provided, that for purposes of *W. Va. Code* § 6D-1-2, the West Virginia Investment Management Board shall not be deemed a state agency nor subject to the requirements of that provision.

The contracting business entity must complete this form and submit it to the contracting state agency prior to contract award and to complete another form within 30 days of contract completion or termination.

This form was created by the State of West Virginia Ethics Commission, 210 Brooks Street, Suite 300, Charleston, WV 25301-1804. Telephone: (304)558-0664; fax: (304)558-2169; e-mail: ethics@wv.gov; website: www.ethics.wv.gov.

State of West Virginia VENDOR PREFERENCE CERTIFICATE

Certification and application* is hereby made for Preference in accordance with **West Virginia Code, §5A-3-37**. (Does not apply to construction contracts). **West Virginia Code, §5A-3-37**, provides an opportunity for qualifying vendors to request (at the time of bid) preference for their residency status. Such preference is an evaluation method only and will be applied only to the cost bid in accordance with the **West Virginia Code**. This certificate for application is to be used to request such preference. The Purchasing Division will make the determination of the Resident Vendor Preference, if applicable.

1. **Application is made for 2.5% resident vendor preference for the reason checked:**
 Bidder is an individual resident vendor and has resided continuously in West Virginia for four (4) years immediately preceding the date of this certification; or,
 Bidder is a partnership, association or corporation resident vendor and has maintained its headquarters or principal place of business continuously in West Virginia for four (4) years immediately preceding the date of this certification; or 80% of the ownership interest of Bidder is held by another individual, partnership, association or corporation resident vendor who has maintained its headquarters or principal place of business continuously in West Virginia for four (4) years immediately preceding the date of this certification; or,
 Bidder is a nonresident vendor which has an affiliate or subsidiary which employs a minimum of one hundred state residents and which has maintained its headquarters or principal place of business within West Virginia continuously for the four (4) years immediately preceding the date of this certification; or,
2. **Application is made for 2.5% resident vendor preference for the reason checked:**
 Bidder is a resident vendor who certifies that, during the life of the contract, on average at least 75% of the employees working on the project being bid are residents of West Virginia who have resided in the state continuously for the two years immediately preceding submission of this bid; or,
3. **Application is made for 2.5% resident vendor preference for the reason checked:**
 Bidder is a nonresident vendor employing a minimum of one hundred state residents or is a nonresident vendor with an affiliate or subsidiary which maintains its headquarters or principal place of business within West Virginia employing a minimum of one hundred state residents who certifies that, during the life of the contract, on average at least 75% of the employees or Bidder's affiliate's or subsidiary's employees are residents of West Virginia who have resided in the state continuously for the two years immediately preceding submission of this bid; or,
4. **Application is made for 5% resident vendor preference for the reason checked:**
 Bidder meets either the requirement of both subdivisions (1) and (2) or subdivision (1) and (3) as stated above; or,
5. **Application is made for 3.5% resident vendor preference who is a veteran for the reason checked:**
 Bidder is an individual resident vendor who is a veteran of the United States armed forces, the reserves or the National Guard and has resided in West Virginia continuously for the four years immediately preceding the date on which the bid is submitted; or,
6. **Application is made for 3.5% resident vendor preference who is a veteran for the reason checked:**
 Bidder is a resident vendor who is a veteran of the United States armed forces, the reserves or the National Guard, if, for purposes of producing or distributing the commodities or completing the project which is the subject of the vendor's bid and continuously over the entire term of the project, on average at least seventy-five percent of the vendor's employees are residents of West Virginia who have resided in the state continuously for the two immediately preceding years.

Bidder understands if the Secretary of Revenue determines that a Bidder receiving preference has failed to continue to meet the requirements for such preference, the Secretary may order the Director of Purchasing to: (a) reject the bid; or (b) assess a penalty against such Bidder in an amount not to exceed 5% of the bid amount and that such penalty will be paid to the contracting agency or deducted from any unpaid balance on the contract or purchase order.

By submission of this certificate, Bidder agrees to disclose any reasonably requested information to the Purchasing Division and authorizes the Department of Revenue to disclose to the Director of Purchasing appropriate information verifying that Bidder has paid the required business taxes, provided that such information does not contain the amounts of taxes paid nor any other information deemed by the Tax Commissioner to be confidential.

Under penalty of law for false swearing (West Virginia Code, §61-5-3), Bidder hereby certifies that this certificate is true and accurate in all respects; and that if a contract is issued to Bidder and if anything contained within this certificate changes during the term of the contract, Bidder will notify the Purchasing Division in writing immediately.

Bidder: BRIDGEPORT EQUIPMENT AND TOOL

Signed: *Ronald A. Gardner*

Date: 11/25/2019

Title: SALES

*Check any combination of preference consideration(s) indicated above, which you are entitled to receive.

STATE OF WEST VIRGINIA
Purchasing Division

PURCHASING AFFIDAVIT

CONSTRUCTION CONTRACTS: Under W. Va. Code § 5-22-1(i), the contracting public entity shall not award a construction contract to any bidder that is known to be in default on any monetary obligation owed to the state or a political subdivision of the state, including, but not limited to, obligations related to payroll taxes, property taxes, sales and use taxes, fire service fees, or other fines or fees.

ALL CONTRACTS: Under W. Va. Code §5A-3-10a, no contract or renewal of any contract may be awarded by the state or any of its political subdivisions to any vendor or prospective vendor when the vendor or prospective vendor or a related party to the vendor or prospective vendor is a debtor and: (1) the debt owed is an amount greater than one thousand dollars in the aggregate; or (2) the debtor is in employer default.

EXCEPTION: The prohibition listed above does not apply where a vendor has contested any tax administered pursuant to chapter eleven of the W. Va. Code, workers' compensation premium, permit fee or environmental fee or assessment and the matter has not become final or where the vendor has entered into a payment plan or agreement and the vendor is not in default of any of the provisions of such plan or agreement.

DEFINITIONS:

"Debt" means any assessment, premium, penalty, fine, tax or other amount of money owed to the state or any of its political subdivisions because of a judgment, fine, permit violation, license assessment, defaulted workers' compensation premium, penalty or other assessment presently delinquent or due and required to be paid to the state or any of its political subdivisions, including any interest or additional penalties accrued thereon.

"Employer default" means having an outstanding balance or liability to the old fund or to the uninsured employers' fund or being in policy default, as defined in W. Va. Code § 23-2c-2, failure to maintain mandatory workers' compensation coverage, or failure to fully meet its obligations as a workers' compensation self-insured employer. An employer is not in employer default if it has entered into a repayment agreement with the Insurance Commissioner and remains in compliance with the obligations under the repayment agreement.

"Related party" means a party, whether an individual, corporation, partnership, association, limited liability company or any other form or business association or other entity whatsoever, related to any vendor by blood, marriage, ownership or contract through which the party has a relationship of ownership or other interest with the vendor so that the party will actually or by effect receive or control a portion of the benefit, profit or other consideration from performance of a vendor contract with the party receiving an amount that meets or exceeds five percent of the total contract amount.

AFFIRMATION: By signing this form, the vendor's authorized signer affirms and acknowledges under penalty of law for false swearing (W. Va. Code §81-5-3) that: (1) for construction contracts, the vendor is not in default on any monetary obligation owed to the state or a political subdivision of the state, and (2) for all other contracts, that neither vendor nor any related party owe a debt as defined above and that neither vendor nor any related party are in employer default as defined above, unless the debt or employer default is permitted under the exception above.

***One Vendor Per Representative - No one individual is permitted to represent more than one vendor at the pre-bid meeting. Any individual that does attempt to represent two or more vendors will be required to select one vendor to which the individual's attendance will be attributed. The vendors not selected will be deemed to have not attended the pre-bid meeting unless another individual attended on their behalf.**
