Flexi-Guide Drivable Delineator Posts

Flexi-Guide roadside delineator posts

In all kinds of weather, Flexi-Guide posts are highly visible, day and night and clearly delineate the edge of the roadway with bright reflective sheeting mounted at the driver's eye level. To reduce the risk of fatal traffic accidents, Flexi-Guide posts can be placed at critical points along the roadway; winding curves, near intersections, on and off ramps, to identify safety hazards.

The first post to exceed field performance standards using recycled polymers!

With concern for our environment, we were the first to engineer our high performance formula using engineering thermoplastics, and in two configurations to meet the challenges of various soils, climate and traffic control requirements.

The Flexi-Guide formula gives you extended outdoor weatherability and provides superior strength, flexibility, and chemical resistance.

Since 1989, Flexi-Guide Posts withstand the test of time

Field tested since 1989, our polymer formula has demonstrated that it is highly resistant to UV deterioration and has proven its toughness and longevity in severe environments across the nation.

Two designs to withstand multiple high-speed impacts

With superior strength and flexibility, our patented FG 400 Series double curve configuration and the single curve of the FG 500 Series both can withstand high speed punishment. They offer better protection of the reflective sheeting upon impact and better visual guidance for the motorist from various angles of approach.

- The FG 400 and 500 posts can be cut to any length; standard colors are white, yellow and gray; other APWA colors by special order
- The single curve profile of the FG 500 provides maximum display area for vertical messages visible from wide angles
- The double curve FG 400 provides more rigidity to reduce fluttering in high winds
- For tighter budgets, consider the Fantasma post, a PVC post with the 500 profile
- Choose an all-purpose plastic anchor, or a steel anchor for more challenging soils
- Factory-applied reflective sheeting for nighttime visibility
- Custom orders include colors and message decals for utility markers

Versatile Flexi-Guide posts meet nationwide specifications

Order Engineering Grade, High Intensity, or Super High Intensity sheeting for superb night time visibility and to meet various state specifications. Order posts in various colors and lengths, with or without soil anchor systems.

Custom orders can include custom colors, message decals, and steel U-Channel anchors.

Get both safe and "green" protection with Flexi-Guide

Flexi-Guide posts maximize road safety and minimize long-term maintenance costs. Made of recycled materials.

Easy driver installation

FG 96 INSTALLATION DETAIL

NOTES:

1. INSTALLATION TO BE COMPLETED IN ACCORDANCE WITH MANUFACTURER'S SPECIFICATIONS.
2. DO NOT SCALE DRAWING.
3. CUSTOM REFLECTIVE SHEETING, MESSAGE DECALS, COLORS, LENGTHS AND ANCHORS ARE AVAILABLE. CONTACT MANUFACTURER FOR DETAILS.
4. THIS DRAWING IS INTENDED FOR USE BY ARCHITECTS, ENGINEERS, CONTRACTORS, CONSULTANTS AND DESIGN PROFESSIONALS FOR PLANNING PURPOSES ONLY. THIS DRAWING MAY NOT BE USED FOR CONSTRUCTION.
5. ALL INFORMATION CONTAINED HEREIN WAS CURRENT AT THE TIME OF DEVELOPMENT BUT MUST BE REVIEWED AND APPROVED BY THE PRODUCT MANUFACTURER TO BE CONSIDERED ACCURATE.
6. CONTRACTOR'S NOTE: FOR PRODUCT AND COMPANY INFORMATION VISIT www.CADdetails.com/info AND ENTER REFERENCE NUMBER 644-014A.
